Post Office Annex Fire Causes Damage To About 200 Parcel Post Packages

Springfield residents who "haven't yet received that promised gift from Aunt Minerva" or "that parcel post package from the New York department store" may later discover that it was part of last Saturday's shipment almost totally destroyed by a fire at the Springfield Post Office annex in the VFW Home, 12 Morrison Road, Springfield.

Postmaster A. V. Del Vecchio said that there were approximately 200 packages in the building when fire broke out shortly before 7 a.m. and he is not yet certain how many — if any — of these packages could be salvaged. Postmaster Del Vecchio hopes to have the names of the senders and the intended recipients of some of the packages before the end of the week but he isn't quite sure that any of them had escaped damage either by fire or water.

Discovered Early

The fire was discovered at 7:10 a.m. in the rented sub-station quarters in the VFW Home. It took firemen half an hour to extinguish the blaze, which originated in a corner of an undetermined cause.

It will take several weeks to deliver identifiable packages, Postmaster Del Vecchip said, but some may never find their destination.

Del Vecchio said he thought the address of either the ender or addressee of approximately 175 of the 200 parcels might still be legible despite the effects of smoke, fire and water. In the remaining cases, he said, postal inspectors who will take over the identification job, will try to identify what is left of the contents.

Senders of insured packages which are identifiable will receive payment of their claims, while what's left of the unidentifiable packages may end up in the dead parcel branch in New York City, Postmaster Del Vecchio said.

Matthew D'Andrea, 68 Battle Hill Avenue, Springfield, is not only an employe at the Springfield Post Office but is also an active member of the Township Fire Department.

When fire was discovered Saturday mornin gat the Post Office annex in the VFW Home, 12 Morrison Road, D'Andrea had to make a quick decision: Whether to don his Post Office employe cap or grab his fireman's hat and help save some of the parcel post packages.

D'Andrea noticed that it was still too early for him to report for his Post Office job —so he pushed the fireman's hat on his head and rushed off to the fire to assist his buddies—as well as his co-workers.

The fire ruined the front of the one-story building owned by Battle Hill Post 7683, VFW. The Post Office rents the front section of the building.

Fire Chief Ormond W. Mesker said heavy smoke hampered the firemen. The fire fighters were forced to don air packs to enter the stucco and frame building.

Chief Mesker said the fire seemed to have started behind a piano in an alcove in the building. He was unable to say what sparked the blaze pending an investigation.

When a man coming on duty at 7 a.m. opened the door, flames shot out, the postmaster reported.

The VFW Home is located at the rear of the Post Office at 338 Morris Ave. Traffic in Morris Ave. was able to move during the blaze.

Firemen cut a hole in the roof of the building to let the smoke out. Most of the fire fighters returned to headquarters at about 8:30 a.m. One truck remained at the scene.

The government is renting the VFW hall while negotiations continue for a new post office at 206-210 Mountain Ave.

OPENIN GFOR PATROLMEN

Springfield Police Chief Wilbur Lesander announces there there is one opening for a patrolman in the Department. Examinations for the position will be held March 18. For further information call DR. 6-0400.

$80,000 Sewer Installation Introduced

The Springfield Township Committee introduced an ordinance providing for the installation of sanitary sewers in the Baltusrol Top area, at a cost of $80,000, at its February 28 meeting. The cost will be borne by bonds and residents of the streets involved will be assessed.

The streets are Duncar Road, Fernhill Road, Baltusrol Road, Sharon Road, High Point Road, Highlands Avenue, South Springfield Avenue and Mountain Avenue. The sewer will be hooked up with the new South side trunk. The public hearing and final vote on the ordinance is set for March 14.

The Committee adopted an ordinance establishing new bus stops and parking regulations at South Springfield and Hillside Avenues. This ordinance is a preliminary for the installation of a traffic light there. The governing body directed Irwin Weinberg, Township Attorney, to draw up an ordinance for the introduction at the next meeting providing for the light.

The Committee accepted the local Board of Education invitation to send representatives to board meetings to provide a liaison between the two groups.

The invitation was first issued last year in response to the Board's request for conferences. Mayor Vincent J. Bonadies set up a rotating system in which each committeeman will take a turn attending board meetings.

The Committee turned down a request to rezone a 4-acre tract in South Springfield Avenue owned by Lawrence Leone. This move followed a recommendation from the Planning Board that the plot should be set aside as a park site.

Richard Skuraton of Union, a builder, made the rezoning request.

Education Board President Smith to Oppose Regular GOP

Man Speeds On Rt. 22; Wrecks Borrowed Auto

A New Providence man raced through Springfield and Mountainside on Route 22 at speeds up through 90 mph early Sunday morning and ended the "joy ride" when his borrowed car was wrecked as it crashed in Mountainside, police reported.

Philip C. Eastman, 21, 58 Oxbow Drive, New Providence, was the driver of the car. The owner of the car was identified as Louis Vihling, 629 St. Marks Place, Westfield. He was charged with allowing an unlicensed driver to operate his car.

The chase began at 3:40 a.m. Sunday when Patrolmen Reese Powell and Donald Schwerdt said they spotted Eastman speeding in the westbound lane of the highway.

They pursued him and Eastman turned off his lights and increased his speed to more than 90 mph, the patrolman said. Springfield police notified Mountainside police to be on the lookout for Eastman who was driving a 1961 Chevrolet. Shortly after crossing the Mountainside line, the Eastman car struck a pole at the intersection of Route 22 and Springfield Place, breaking the pole in half, according to police.

Eastman attempted to fell on foot, police said, but he was captured a mile and a quarter away by Patrolman John Lombardi and Robert Maguire who noticed a deep cut on Eastman's forehead.

taken to Overlook Hospital

The New Providence man was where 10 sutures were used to close the wound.

Eastman, who has a list of driving offenses according to Mountainside police, was charged with reckless driving and driving while on the revoked list in Springfield and reckless driving, leaving the scene of an accident and driving while on the revoked list in Mountainside, police said.

He was released in custody of his parents. Eastman will appear in Springfield Municipal court March 20 to answer Springfield charges and he will appear March 22 in Mountainside court.

Mountainside police reported the accident caused damage to the lawn in front of the Tek building and property damage to the Hultz Schwarz Co. sign on Route 22. Patrolman Edward Honecker and John Zamboni of the Mountainside Police were at the scene of the accident.

Expect April Primary Fight

An interesting primary scrap is developing in Springfield Republican ranks with the announcement yesterday that Howard S. Smith, President of the Board of Education, will file before closing tonight as a Republican candidate for one of the Township Committee vacancies.

School Board President Smith says he is running "as a Republican but even without the endorsement and blessing of the regular G.O.P. organization in Springfield."

"My original plan was to announce my candidacy as a Republican for Township Committee before the recent School Board elections, but several members of the School Board and a great number of citizens throughout Springfield urged me to run for reelection as a member of the Board.

"I realize that I am opposing the two candidates selected and endorsed by the Springfield organization but I feel confident that the people in the Township will seriously consider the many years of service I have given to the community and select me as one of the Republican candidates in the coming primaries.

"If I am elected as a member of the Township Committee in the November election," concluded Mr. Smith, "I intend to immediately resign as the president and member of the Springfield Board of Education."

With the time for filing slated for this Thursday evening, the reports are that the Republican endorsed candidates for Township Committee will be James M. Cawley and Arthur Falkin, and Frederick L. Braun will seek the office of Township Tax Collector. However, there is still a possibility that Mr. Cawley may not be available for the primary fight but his decision has not been made at this writing.

The coming primary fight in the Republican ranks will be the first here in a great many years. The most interesting taking place in 1954 when former Mayor Robert Marshall, running without the blessing of the regular Republican organization in Springfield, defeated the GOP backed candidate, Harold Nenninger, an insurance executive residing here. Marshall, however, lost to the Democratic candidate, Vincent J. Bonadies, who used this victory as the stepping stone to taking complete control of the Township administration.

Area Leaders Chosen at Red Cross Drive Kick-off

The 1961 Springfield Red Cross Fund Drive officially began Tuesday evening, March 7, with a kick-off dinner at Howard Johnson's Restaurant on Rt. 22. The dinner was given for the campaign leaders by a local friend and supporter of the Red Cross work and was arranged by the board of directors of the Springfield Chapter. Guests included Mrs. Ralph S. Doubleday, Millburn Chapter volunteer fund consultant for the Area Council, and Miss Irene Haas, Area Field Representative.

Dr. Leonard R. Eckle, Chapter chairman presided at the meeting. The latest Red Cross film release "Meanwhile, Back on Earth" highlighted the program. It gave a vivid portrayal of the continuing need for Red Cross work to meet the human problems of the time from the era of Clara Barton to the present. It emphasized that the problems will remain and even increase as we approach the space age demanding Red Cross responsibility.

Plans Outlined

Alan R. Cunningham, overall fund chairman, outlined the campaign plans and emphasized the desire of the committee to complete the fund raising as soon as possible. Cunningham urged every citizen to join the Red Cross drive with the same support given in the past in order to reach the 1961 goal of $5,400. "Springfield has always contributed generously to the American Red Cross, and I am confident that we will continue our support of the local, state, and national Red Cross. Through the many facets of its work, and its efforts to relieve suffering from disease, accidents, and disaster Red Cross make a direct contribution to the well being of every American family. It touches the lives of more Americans than any other non-governmental agency."

Open Your Doors

Eugene F. Donnelly, co-chairman with Mr. Cunningham in the residential campaign urged all to open their doors to the neighborhood volunteers and to participate in the Red Cross drive. Letters have been sent to every resident asking them to join. Spearheading the door to door appeal for funds and members are the Area Directors and District Captains and their teams of neighborhood volunteers. Area Directors are: Mrs. Richard Werner, 36 South Maple; Mrs. George Lord, 46 Denham; Mrs. George Kunc, 16 Bryant; Mrs. John L. Gartland, 31 Troy Drive; Mr. Fred Braun, 530 Ashwood; Mrs. Arthur Miniman, 5 South Derby; and Mrs. Lawrence Dorsky, 247 Milltown Road.

Red Cross flags will fly throughout town and at all of the schools. Local merchants have joined in the support of the fund drive and educational campaign by donating window display space. School art directors and Junior Red Cross members are working together to make the displays attractive and educational to show how "Good things happen when You help!"

Police Report 3 Robberies in Town Over 1 Week-end

The weekend of March 4 will be remembered by a number of Springfield residents for a long time to come. Not only has there a fire in the post office which destroyed over 200 packages of outgoing mail, but three home were broken into and burgalized.

The first home to be entered was that of Mrs. Philip Schneiderman, 98 Fieldstone Drive, a recent widow. Her son, Marvin of Hillside, surprised two burglars Friday evening while they were attempting to ransack his mother's house. They fired two shots into the ground to deter pursuit and escaped in a 1961 Oldsmobile sedan driven by a third man, police said.

The son approached the front door of the house about 9:30 p.m. and heard someone inside. He called, "Who's in there?" and a reply came back: "It's all right. I'm a friend of Phil." Mr. Schneiderman told his mother to step away from the door.

Then, according to Detective Robert Taaffe, one man came running out the front door and another came from the side of the house.

When Mr. Schneiderman made a move to intercept them, one pulled a small pistol and fired two shots into the ground at his feet. They ran to a 1961 Oldsmobile parked in the street. One man got in and the car started to pull away. The second burglar, running for the car, whistled and the driver stopped and picked him up.

Neighbors, aroused by the shots, called police. Patrolman Harold Scarles Jr. reportedly was on the scene in less than 60 seconds after the first call, but the trio had escaped.

Police quoted him as saying all valuables had been removed from the house and placed in a safe deposit box shortly after his father's death.

The thieves had not searched beyond a bed room which was ransacked. A canvas bank deposit bag, containing only pennies, was found on top of a dresser.

A preliminary search burned up nothing missing according to Mr. Schneiderman.

Entry to the house was gained by breaking a pane of glass in a side door. A spot of blood was found on the doorstep.

The other two robberies also occurred on Fieldstone Drive. Mr. and Mrs. Harold Rice, 24 Fieldstone Drive, reported to Springfield police at 11 p.m. their home had been broken into and entered.

Entry was made by forcing open the kitchen door. The home had been ransacked, but nothing was reported stolen. The Rices had left their home at approximately 5:40 p.m. Saturday; so the exact time of the burglary was not known.

Mr. and Mrs. Wilbur Wolcoot, 33 Fieldstone Drive, were missing $2800 worth of furs, jewelry and money when they returned to their home Sunday evening after a week-end trip.

Again entry was made by forcing open a kitchen door. Detectives Taaffe and Leslie Bell were led to believe that men who broke into the Rice home were the same ones who entered the Wolcott home.

The Latest Thing in Teaching Modern Foreign Languages--The Language Lab

The teaching of modern foreign languages in high schools has undergone a tremendous change in the last decade. No longer do students spend all classroom time learning just the foundamentals of grammar, with little emphtsis upon speaking the language. Now many high schools are equipping themselves with "language laboratories" in which students are able to hear and speak the language.

Language laboratories consist of individual sound - proofed booths which house a tape recorder, metal discs which record the student's voice, a microphone, a volume control and a master control switch. There is a master console for the instructor which allows a master tape to be piped into each booth; there is also an intercommunication system between each booth and the master console. By a flick of a switch, the instructor is able to listen and to speak to each student. For example, after a student finishes listening to a French tape, the instructor can ask him, and only him, questions and his answers will be heard only by her.

Jonathan Dayton Regional High School in Springfield is one of the schools which has instituted this new, modern method of teaching. Equipped with 13 language booths, and hoping to expand to 40 next fall, high school students spend at least one hour a week in the "lab." Each of the booths is equipped with an intercommunication system between student and instructor.

The student is more at east in the booth, for he is not inhibited when speaking the language. The only one who can hear the student speak is the teacher; if he makes a mistake in pronunciation there is no cause for embarrasement. Many students will not readily speak foreign languagesin class, because they are afraid the class will laugh if they err. In the booth th estudent is alone and is willing to speak more freely.

The German I clas, under the instruction of Mrs. Martha Stang, was observed last Friday morning at Jonathan Dayton. A boy was asked his reaction to the laboratory and he praised it highly. He stated he was no longer afraid to speak; it was fun and he felt he was larning more.

August Caprio, coordinator of modern foreign languages in the regional school system, pointed out, though, that this method does not replace the teacher. The use of the language laboratory is merely reinforcement for the students. The main objective of the laboratory is communication and speaking, he emphasized.

The school buys tapes for student use, but since the language laboratory is such a new field there is a paucity of recorded materials. Many teachers find it necessary to make their own tapes to emphasize certain areas of study. A worthwhile feature of making tapes is if a student misses a test, the teacher can "play it back" when the student returns to class.

Under the National Defense Education Act of 1958, the government assumes half of the payment for supplementary materials. The total cost of the 13 booths plus the master console and intercommunication system was $5454; taxpayers paid $2727 and the government paid the rest.

The Students are receiving a lot for the taxpayers money. High Schools don't promise that the language laboratory is the panaccea to students' problems in learning foreign languages, but the labs will facilitate the learning process of speaking the language for those students who are adept and might even help the slow-learner. Mr. Caprio stated the Clark Regional School has the laboratory and the new regional school in Berkeley Heights will receive the same set-up next fall.

Gardiner Encourages Continued Purchasing of Savings Bonds

The United States Savings Bond program, which has benefited some 20 years of volunteer service from the nation's savings institutions, continues to merit support, says Loren F. Gardiner, president of Crestmont Savings and Loan Association of 1886 Springfield Avenue, Maplewood.

The Treasury Department at the beginning of 1961 officially recognized the role played by savings institutions in making the program successful.

Crestmont is continuing to serve, Gardiner points out, by making it possible for our savers to buy the bonds from our tellers. According to the Treasury Department, more than $2 billion series E savings bonds have been bought by millions of citizens since May, 1941. Many persons, he says, through the purchase of bonds.

The bond program, Gardiner says, is an economic stabilizer, and he recommends the purchase of bonds as a method of saving. While the program was begun as a wartime measure, it is significant for the peace. Gardiner observes. "United States Savings Bonds are secure, steady and have helped to make Americans thrifty."

Escape From World Problems: Visit Antique Show and Sale

In these days of tension, cold fears, Congo crises and diplomatic jousts, there will be an "Oasis for Jangled Nerves" in Springfield as there has been each spring of the past nineteen years. This will be the annual presentation of the Springfield Antique Show and Sale which will be in the Parish House of the Historical Presbyterian Church, 37 Main Street in Springfield on March 21st., 22nd., and 23rd., this year from 11 a. m. to 9 p. m. daily. Admission is free.

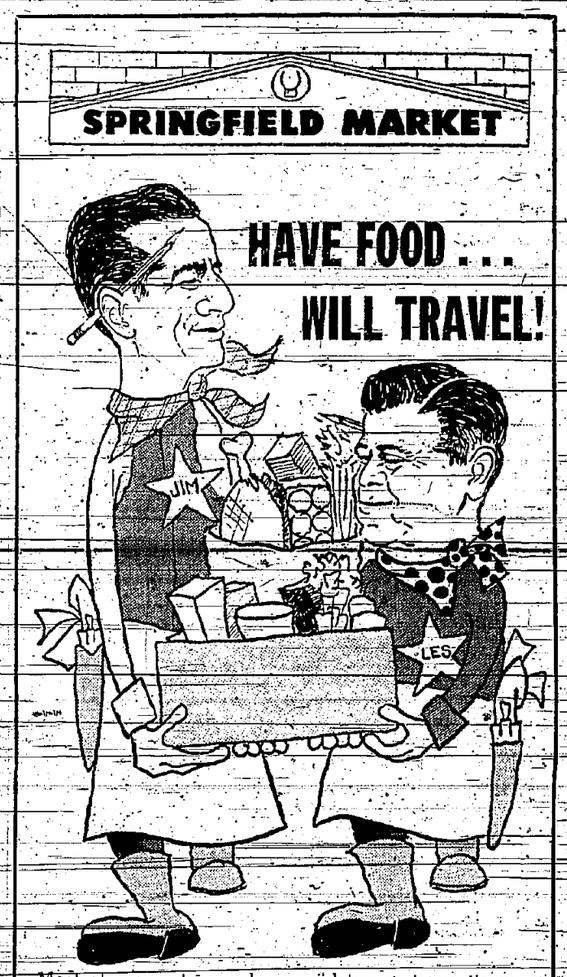
There will be both rocking and reclining. This is one of the shows that has everything that is dear to the lovers of Americana. Beautiful old glass; rare silver; fascinating aged clocks and many traditional pieces as well as collector items will be shown. This will be and always has been a display of all that which is deeply steeped on our country's heritage. It is a show that has grown in the past nineteen years to the extent that it requires two complete floors to accommodate the displays which will be brought to Springfield by outstanding antique dealers of the East.

A new feature this year will be an exhibition of old and recent American coins which will be of interest to the established collector as well as the beginner. In connection with this attraction, there will be folders available for coin collectors as well as books on coin value. Coins may also be traded and sold.

As is traditional with this show, there will be the customary Colonial Tea Room, where ladies costumed in the colorful dresses of that period will be in attendance to serve those who choose to relax and partake of home delicacies.

Since this is a real "Honey" affair, baked goods from the home will be offered for sale as well as hand made aprons and real home cooked lunches will be available daily.

This outdoor presentation is under the auspices of the Ladies Benevolent Society of the Church and is under the personal direction of Mrs. Emil Meyer.



Most of our customers have said to us at one time or another, "We're sure glad there's a store like yours in town." And every time we hear it our "spurs" jingle just a little. We've been trying for a good many years to run the type of market that we think our wives would like to shop in.

Not only do we specialize in phone orders and free delivery . . . our quality is always maintained at the highest possible levels. In fact you just can't buy finer meats or produce anywhere. So the next time you just don't feel like going out, give us a ring. We'll fill your order, large or small, promptly and efficiently. Or, better still, stop in yourself for the first time . . . meet us in person . . . look around at our large selection of canned foods, dairy products, frozen foods, etc. Give us a try and be convinced.

P.S. We've convinced our wives. They shop here also!

FLAMELESS ELECTRIC WATER HEATER

Penguins love cold water and never miss hot water at all, but people are different. They want lots of hot water for the bath and kitchen and in the laundry. And people are your problem, you can be sure of having plenty of piping hot water always ready at every faucet with a flameless electric water heater. It's the only water heater that's insulated all around and top and bottom, too! The water needs heating only once. There's no expensive reheating, so your hot water costs just pennies a day.

Don't feel like a penguin in your own shower. Get a matchless flameless electric water heater and really relax.

TOWNSHIP OF SPRINGFIELD EXPLANATORY STATEMENT

A comparison of the estimated 1961 tax rate with the 1960 tax rate shows the following:

	1961	1960	+ or (-)
Local Purpose	1.11	1.24	(-) .13
Local School	2.53	2.34	+ .19
Regional School	1.44	1.20	+ .24
County	.87	.75	+ .12
	5.95	5.53	+ .42

LOCAL PURPOSE TAX —

Salary and Wages appropriations show increases of so me $50,000 with most appropriations showing modest increases with the exception of the Fire and Police Departments with increases of $30,000.

Most Other Expenses appropriations approximate the 1960 amounts with the exception of increases in Insurance $6,160, Garbage $2,000 and Parks $8,375. The net increase in Other Expenses is $17,142.

Debt Service increased $9,480. Deferred Charges increased $3,435 and the Reserve for Uncollected Taxes decreased $23,128 leaving a net increase in all appropriations of $46,261.

To offset thi sinerease in appropriations your Committee has anticipated $47,000 more in Surplus, $12,494 more in Miscellaneous Revenues and $15,000 more in Delinquent Taxes producing a net decrease in the Local Purpose Tax of $28,233. This amount will reduce the Local Purpose Tax by 13 points and in turn reduce the School, County and Regional increase of 55 points down to a net overall increase of 42 points.

LOCAL SCHOOL AND REGIONAL —

The Local School tax, including the special fire alarm referendum, will be 2.53, an increase of 19 points over 1960. Although the County Board of Taxation has not apportioned the Regional School Tax, Springfield's share is estimated at $1.44 or 24 points over 1960 making a total increase in school taxes of 43 points.

COUNTY TAX —

The County tax rate has not been definitely ascertained because of revaluation and ratio problems but the Township portion should be approximately $.87. This is an increase of 12 points over 1960 but any adjustment in this estimate will directly effect our final County tax rate.

CAPITAL IMPROVEMENTS —

Included in the 1961 budget is a $5,000 Capital Improvement Fund. This amount, when added to the $48,700 available on December 31st, will provide sufficient down payment for all capital improvements contemplated in 1961. Among the improvements under consideration are the following: Equipment - Tax Office; Sanitary Sewers - Baltusrol Twp., Dundar Rd., Mountain Ave., So. Springfield Ave.; Curbs and Streets - Ruby St., Meeker St., Diven St., Seven Bridge Rd., Maple Ave.; Sidewalks - So. Splinters from the Board

BY RICHARD WERNER
Public Relations Chairman
of the Springfield Board of Education
(Nothing in the following column is to be considered the official opinion of the Board).

We have been asked by the League of Women Voters to give more publicity to the meeting nights of your Board of Education. For your information, the meetings are held the third Tuesday evening of every month at 8 P.M. They are held in the James Caldwell School and ALL are welcome, and as a matter of fact, all are urged to attend. President Howard Smith always permits spectators to bring any matter before the Board in the early part of the meeting, so you can be certain to be heard, if that is your wish.

It has been pointed out by the League that prospective Board members should acquaint themselves with these meetings prior to filing for election, thus putting them in a position of serving their community in a better fashion.

* * * * *

Serving on your Board is indeed serious busines, and it is seldom that such loud guffaws and laughter has ever been heard at a meeting as was heard at the last one!

After Howard S. Smith had just been elected President of the Board, newly elected Vice President, Joe Bender, askd th chair's permission for the floor. Mr. Bender then noted that Mr. Smith has served the Township of Springfield for some fifteen years on the Board, four years as president. Furthermore, he stated, since we are in the era of a "New Frontier," he would like to mark this occasion with the proper dignity. He then brought a large package and removed a shiny new black top hat and perched it atop Mr. Smith's head! Speechless for the moment, Mr. Smith was heard to say: "At least I didn't have to choose which hat to wear, the precedent has already been established!"

Your Springfield Schools are cooperating with Mr. Frederick M. Raubinger, New Jersey Commissioner of Education, with a fire preparedness program. Also participating in this program is the New Jersey Fireman's Advisory Council.

Incidentally, we congratulate the voters of Springfield on accepting the fire detection system. The majority of the Board feels you will come to appreciate your choice more and more over the years.

The Florence M. Gaudineer School's new vocational education program is especially prepared to expose the prospective graduates to futures which may b etheirs. Speakers, drawn from parents of Gaudineer students, have been appearing before the students in a series of lectures, in an effort to help them choose proper subjects in high school. Among the speakers are: Dr. Saul Gladstone, Dentistry, Mr. Joseph Bender, Engineering, Dr. David Hendlin, Microbiology, Dr. Harry Farb, Medicine, Mr. Arthur Falkin, Building Trades, Mr. David Kaplan, Law, Mrs. Reva Johnson, Library, Mr. William Hartz, Business Engineering, Miss Charlotte Singer, Teaching, Mr. Richard E. Werner, Life Insurance, Mrs. Lillian Johnson, Art, Mr. Scott Donnington, Recreation, Mr. Irwin Gershin, Industrial Design, Mr. Matthew Park, Personnel, and Mr. Julian Sarokin, Journalism.

Several speakers in the fields of architecture, aviation, and nursing are to be added to the program later in the year.

In closing, may we once again invite you to attend our next Board meeting? Mark your calendar right now: March 21, 1961.

TAKING CARE OF YOUR GARDEN

By Edward A. Cardinel

Three weeks ago I would have bet that the snow would be with us until April, but thank heavens a sudden warm spell, coupled with warm rain, brought an early spring upon us. Fortunately, the deep snow prevented the ground from freezing too deep and we will be able to start our gardening chores early.

Q: Do you anticipate severe winter damage to lawns and plants?

A: It is too early to evaluate winter damage. The snow protected many plants from the and other animals to eat plants they would not have touched. Mice have girdled yews and other plants to such an extent that the tops will die. Rabbits have eaten fruit trees an dornamentals such as flowering crabs from the snow line as high as they could reach, and sometimes everything above will die when the sap begins to flow. In some areas the deer damage has been extensive. The heavy snow has also taken its toll of broken plants; some damaged beyond repair. Snow Mould disease has also bee noted on many lawns, and these spots rarely recover if the damage is severe.

Q: Snow has damaged my shrubs. What shall I do?

A: Remove all broken branches by slipping with a sharp shear or saw. Shape the plant to look as near uniform as possible, and treat all large cuts and wounds with tree wound paint. This will prevent entrance of borers as well as prevent rot. Sometimes a split branch may be bound securely, and braced to restrict movement, and after one season scar tissue will cover the woul denough to save the branch. A drastic shearing will usually force any plant to recover — sometimes it will make it a better plant than before the damage.

Q: What should I d o about snow mould?

A: Lime and fertilize the lawn as usual. Rake out all dead grass and debris and wait a few weeks. If the grass doesn't start growing consider it dead and reseed. Snow mould can be prevented, but in severe cases it is seldom cured.

Q: My lawn looks good. Shall I use a crabgrass control at this time?

GLHS Sports Highlights

A hot-shooting Roselle Park High basketball team put an abrupt end to Governor Livingston Regional High School's bid for honors in the North Jersey Section 2, Group II Tournament of the New Jersey State Interscholastic Athletic Association.

Led by Richie Barry, one of Union County's leading scorers during the regular season, and Perry Preckwinkle, who combined for 51 points to outscore the entire Highlander team, the Panthers rolled up an 88-49 victory at Westfield High School on Feb. 28.

The Highlanders simply never flashed the form they were capable of achieving. They fell behind 19-12 in the first period and by intermisson Roselle Park had rolled up an insurmountable 43-24 lead. The Panthers really turned the contest into a rout in the third period with a 25-8 margin that gave them a 36-point lead entering the final period. Both teams substituted freely in the final quarter.

About the only bright spot for Governor Livingston was Richie Klein's tying Lynn Nesbitt's school record for fouls in one game (10). Richie had just missed the mark against Mountain High of West Orange a week earlier when he tossed in nine. Klein topped the Highlander scorers for the second straight game with 14 points.

The Highlanders' scoring stars, Howie Rudominer and Nesbitt, were limited to a total of 17 points. Jack Weiss also tallied nine, while Bob Heuer scored three. Tom Kertesz and Bill Sawyer and Neubauer accounted for two apiece.

BASEBALL

At this early date it is too determine what or how much success the first baseball team to represent Governor Livingston Regional High School will enjoy this spring.

But one thing is certain—members of the team are going to be treated to a thorough tour of Union, Somerset, Middlesex and Morris Counties.

The Highlanders schedule calls for 16 games, with eight listed as "home" games. The Highlanders have no home field, however, so all 16 games will be played on opponents' fields.

The Highlanders have two a piece slated with Clark Regional, Springfield Regional, Mountain High of West Orange, Middlesex and New Providence. The season opener for Coach Russ Hunchar's nine will be on April 6 at Clark Regional. All games will begin at 3:45 p.m.

The rest of the schedule is as follows:

April 11, Mountain of West Orange; 13, Summit; 14, Scotch Plains; 17, Rahway; 21, New Providence; 25, Middlesex; 28, Clark Regional.

May 2, Mountain of West Orange; 5, Springfield Regional; 9, Middlesex; 12, Bridgewater-Raritan; 16, Springfield; 19, South Plainfield; 24, New Providence, and 25, Chatham.

Livingston 9 In Trouble?

Bill Rigney of the Los Angles Angels and Mickey Vernon of the Washington Senators may think they have troubles in organizing brand new teams for American League competition this season.

But their troubles are minor compared to those facing Russ Hunchar in his first season at the helm of the baseballer of Governor Livingston Regional High School.

When Hunchar issued a call for candidates, he knew of only one established varsity player in the school. Ken Hamilton, a fine righthanded pitcher, played last season at Springfield Regional.

Hamilton, who quarterbacked last fall's highly successful football team, will be the nucleus around which Hunchar, who also is the Highlanders' soccer coach, and his assistant, Chris Wade, will have to build the Highlander nine.

While it's true that pitching represents some 75 percent of a high school nine's strength, it is expecting too much of Hamilton or any other young pitcher to operate successfully with a completely inexperienced team.

That is Hunchar's problem at the moment. Developing eight other players for starting positions and at least one other starting pitcher.

Is Hunchar optimistic about his team's chances? Not exactly! With inexperience so rampant among his squad, he commented:

"It looks like maybe I'll have to catch!"

And Rigney and Vernon think they have problems.

Union Council Dinner Kicks-Off Scout-Capades Sale Of Tickets

A smorgabord pension dinner was staged by Union Council Boy Scouts of America, as a ticket Kickoff Dinner for its Scout Capades, being held in the Elizabeth Armory April 2, 22, and 23. Speeches were given by Harry Chetkin of Springfield, ticket sales chairman, and Dr. George Deyo of Elizabeth, general show chairman. The dinner was served by Explorer Post N.o 5 under the leadership of Joseph Balko. The unit is sponsored by Holy Rosary Church of Elizabeth.

Over 200 scouters and volunteers gathered at the dinner held at the Immaculate Conception church in Elizabeth. They represent 200 of the 240 units in the council which will start selling tickets for the 1961 Scout Capades. As a result, over 8,000 boys from within the council will descend upon the County to sell 90,000 tickets distributed; thereby spreading the gospel of the show — "Youth Freedom's Foundation." The Scout Capades is the scouts' extravaganza show in which boys from all over Eastern Union County will display their talents and skills in camping, handicraft and citizenship.

The boys will receive commissions from the sales of the tickets, which will be used to carry on their troop activities. In addition, they will receive bonuses of camping and scouting equipment as special awards for selling large numbers of tickets.

Over 110 cub, scout, and explorer units have signed up to participate in the show. These units represent about 5,000 boys who will jam into the armory. Characteristic of the enthusiasm displayed by the boys was that of Pack 177, Lincoln School, Cranford. As explained by William Evans, committee chairman, a goal of 1000 tickets has been set for the 50 boys in the unit. They each hope to sell 20 tickets to finance their troop activities for the entire year.

An informal discussion on the care, control and problems confronting a family with a diabetic child was held. Dr. Cohen recommended that each parent have a close alliance with her child's physician to better understand the achievement of good control of her child's diabetes.

Mrs. Stewart welcomed new members into the Club from Berkeley Heights, Port Reading and Woodbridge. New Jersey Diabetes League memberships were accepted at the meeting, and may be obtained at any time from the Club President.

JDRHS Features On-Job Training for Sr. Students

"Learn To Do By Doing"

"Learn to do by doing" is more than just a motto to a group of Jonathan Dayton Regional High School seniors who have just completed their first semester's training in distributive education.

The course, which combines on-the-job training with related classroom study of merchandise as well as selling procedures, was introduced in the Union County Regional High School District for the first time in September 1947, and its success to-present-date indicates that the Board of Education and the Administration of the Jonathan Dayton Regional High School were correct in approving this course. The growing popularity, both among the students and the Merchants with whom the students are employed, has justified the expense involved. This course was designed to qualify the students as an experienced employee and facilitate his training into the business world following his graduation in June.

Local merchants are in agreement that the students are alert in their work and are interested in learning their chosen jobs from start to finish. And the amazing part of it all is the rapitity with which they adapt themselves to their tasks and the enthusiasm they manifest in their work.

Their learning is further expanded by their permanent assignment, such as these students visited recently, namely the Kraft Foods, Inc. plant at Hillside, N.J. where they were given a thorough briefing in all phases of distribution. John Von Osterbrook of the Kraft Foods, Inc. commented about the alertness of the group and their keen interet. This comment coming from him before learning that the visitors were Distributive Education students. A similar comment was made by the Tour Director of Koos Brothers furniture shop of Rahway, N.J. that the students visited in December of last year.

Dr. Warren M. Davis, Superintendent of Schools, for the Union County Regional High School district states that the success of the Distributive Education programs at both Jonathan Dayton Regional High Schools and Arthur L. Johnson High School at Clark, N.J. leaves him no alternative but to think about the possibility of a program being scheduled at the Governor Livingston Regional High School, Gladstone Heights, in the new school which opened for the first time in September 1960. The merchants are in complete agreement and are anxious for the program to begin as the preliminary survey shows.

Your Library

During the past 2 week all the news stories, radio broadcasts and television programs about the East Orange Public Library have brought out the important fact that a few people are far too careless in their use of public property. But, if a few people are irresponsible, it is clearly the responsibility of the librarian to see that the public property in his charge is properly cared for and protected.

A librarian is in somewhat the same position as an umpire or referee when it comes to circulating books. He must see that the rules of the games are enforced so that all may enjoy the game; or, in a library, everyone may benefit from the education and pleasure found in books.

A side issue, which so far has not been mentioned, is the effect which such carelessness has on the young people. To an adult, a fine of a few cents, or a book which can be replaced at the expense of the taxpayer may not seem important. But children have not much sense of proportion; so, if adults can be careless, they can be careless too. Then we wonder how we breed juvenile delinquents; and yet all psychologists seem agreed that no amount of preaching or moralizing will do much to offset the effects of bad examples.

Now after considering these principles of good conduct, let us come down to fact and examine what goes on in our Free Public Library of Springfield. Because we are much smaller than East Orange we naturally have fewer delinquent borrowers. Furthermore, being smaller, we can know our readers better and the management can keep a sterner eye on them.

In Springfield we do not have many cases that are not eventually cleared up. One that comes mind is that of a woman who had to pay $28.00. She finally admitted she had left the books in Chicago and it was easier to pay money than to get them back. One book, however could not be replaced, so the Springfield readers have been deprived of its use. In addition, the $28.00 was collected after five cards and letters, repeated telephone calls by the staff, visits by a messenger, and telephone calls and visits by the President of the Board of Trustees. All this, of course, involved a tremendous waste of time.

At the present time we have one very serious case on our records. A family who lives quite close to the library on three separate days (September 19, October 3, and October 17) has managed to borrow nine books whose total value is $17.19, the minimum fines on these now total more than $11.00. Three notices have been sent for each set (totaling nine notices) and three visits have been made to the home, after many telephone calls. Unles there is some response, the Springfield Library will be compelled to take steps almost as drastic as those taken by East Orange.

A case similar to this took place several years ago, when several people in a family joined the library, borrowed books all within a short period of time, and then, failed to return them. Finally, after a great deal of pressure a telephone call was received. If someone would stay and keep the library open until 5:30 P. M. they would return the books. At that time, after giving them advantage of all loopholes, they owed $21.00 and were not prepared to pay.

This introduces a point that probably most people do not know. Fines do not have to be paid the day books are returned. The library is mainly interested in recovering its property. (Lost books must be paid for). However, is the books are brought in, the fine may be changed. If the fine is large, the reader simply leaves his card in the library and cannot borrow more books until payment is made.

Another point which the public overlooks is that the signature on his application card follows the promise "to comply with all (library) rules, to take care of all books I borrow, to pay promptly fines or damages charged to me . . . " Any individual can have his library privileges revoked permanently or temporarily when he has not complied with this promise or has made himself a nuisance.

Traditionally, libraries are very gentle, kind, and patient institutions. Sometimes if they are not careful the situation gets out of hand. In that case drastic steps must be taken. When that happens, it is a great shock to the public as it has been recently to the people of East Orange.

Paper Mill Opens Spring Season With Shelley Winters In Dramas By Clifford Odets, Arthur Miller

Carrington, New Producing Team To Present 200 Weeks Of Theatre In Next Five Years

The 1961 spring season of the Paper Mill Playhouse gets off to a solidly dramatic start on April 3rd with Academy Award winner Shelley Winters in two plays, "The Country Girl" by Clifford Odets which will run through April 15th, and "A View From the Bridge" by Arthur Miller, opening on April 17th and running through April 29th.

Such heavy dramatic fare is a departure for the Playhouse, which has traditionally offered musicals, but the new producing team feels that musicals plus drama will give Paper Mill regulars the best of all possible theatre for their continued enjoyment.

Frank Carrington, founder and producer of the Paper Mill Playhouse, has teamed with Henry T. Weinstein, well known on Broadway, and Laurence Feldman, theatre-wise trial lawyer, for future productions. Messrs. Weinstein and Feldman are the successful operators of the Westport Country Playhouse in Connecticut.

The new team will offer 200 weeks of theatre over the next five years, starting with the above shows, varying drama with musicals, and spotlighting top names in the entertainment field. Also announced for this season are Yvonne de Carlo in "Destry," from May 1st to May 21, and "Once Upon A Mattress" the enchanting hit musical of last season, from May 29th to June 24th. If commitments permit, Miss Winters will return to the Playhouse later in the season with Tennessee Williams' "Streetcar Named Desire" and William Inge's "Come Back Little Sheba." These, with the Odets and Miller plays, will give Paper Mill Theatre-goers an opportunity to see one of our top dramatic actress in works of the country's leading playwrights all within one season, a theatrical coup de grace by any standard.

An interesting feature of the two plays in which Miss Winters will open the Paper Mill season is the casting set-up. A nucleus of five actors from the famed Actors Studio Marlon Brando's Alma Mater) will appear with Miss Winters, resulting in her playing the fourth biggest part in Miller's "View," quite an unusual for a star of such magnitude. But it is typical of Shelley Winters, who continues to study in spite of the Awards and fame she has won, to put the play and perfection of total performance above her own role.

Miss Winters return to the Paper Mill Playhouse will be welcomed by her fans who stormed the theatre last year to applaud and bravo her stunning performance as Gittel, the Danix wail, in "Two for the Seesaw." Paper Mill theatre-goers are in for another such treat this season as Miss Winters streaks across the sage in two widely varied roles written by two of the great playwrights of our time. The Paper Mill box office is open seven days a week from 10 A.M. to 10 P.M.

Now there's a cure for crabgrass

Crabgrass has frayed more tempers and ruined more lawns than any other lawn problem in history. Yet crabgrass can be cured. Not by back-breaking labor, but by a single, *pre-season* application of amazing HALTS®. HALTS was developed by Scotts research to kill crabgrass *as it sprouts*—without damage to good grass. In fact, HALTS is so compatible with grass, you can actually seed the same day! HALTS effectiveness has been proved by nearly a million homeowners. Today, if you hear someone complain about crabgrass ruining their lawn, you can bet they haven't discovered HALTS. Isn't it time *you* did?

Ask us about the Scotts guarantee a better lawn or your money back!

Area Girl Scouts Ready To Observe 49th Birthday

Over 3500 Girl Scouts in the Watchung Area will begin the observance of Girl Scout Week on Sunday, March 12, the 49th anniversary of the founding of the movement in this country. They are members of the Washington Rock Girl Scout Council comprising approximately 15,00 scouts organized in more than 800 troops in 26 communities throughout Union County and parts of Middlesex and Somerset counties.

The breakdown for the Watchung Weekies area is: Mountainside, 612 scouts; Springfield and Union, 1,577; Berkeley Heights, 429; Scotch Plains and Fanwood, 1,228.

The opening day of the observance is traditionally known as Girl Scout Sunday when girls in dress uniform attend church services. Those of Jewis hfaith mark the event on Jewish the sabbath.

Local churches planning special services include the Connecticut Farms Presbyterian Church, the Lutheran, Congregational and Methodist churches, and Temple Sharey Shalom. Other local churches planning special services include St. John's Baptist Church, 3 p.m. services for all scouts in the district, and St. Bartholomew's, recognition of girl scouts at morning mass. Catholic girls from the Scotch Plains-Fanwood district will also participate in area services at St. Mary's Church, Plainfield.

Other activities during the week include an ingathering and collection of scrap books for hospitals and Girl Scout window displays put up by scouts of La Grande, Shack, St. Bartholomew and Laura Snyder neighborhoods in Scotch Plains. On March 16 there will be a recruitment breakfast and a girl scout-parent dinner.

Succeeding days of the observance will be given over to the following special activities in the field of scouting: Monday, "Homemaking;" Tuesday, "Citizenship;" Wednesday, "Health and Safety;" Thursday, "International Friendship;" Friday, "Arts and Crafts;" Saturday, "Out-of-Doors."

This year's observance will be part of a three-year cycle "Birthday Years" which began on October 31, 1960, the 100th anniversary of the birth of Juliette Low, founder of the Girl Scouts of the U.S.A. and will end in 1962, the organization's 50th anniversary year. The national theme of the birthday years celebration is "Honor the Past—Serve the Future."

The national organization of girl scouts which sponsors Girl Scout Week comprises 2,650,000 girls from 7 through 17 years of age and 770,000 men and women serving as volunteer workers. Chartered by Congress, the purpose of the Girl Scouts of the U.S.A. is to help girls develop as happy and resourceful individuals ready to share their abilities as young citizens, in their homes, their communities and in the country and world at large.

Finish Woman to Address AAUW; Given Club Grant

Miss Elli Kongas, a native of Finland, will be the speaker at the regular monthly meeting of the Mountainside branch of the American Association of University Women to be held on Thursday, March 12. The meeting will be held at 8:15 p.m. in the home of Mrs. Harold Tulchin, 336 Longview Drive.

Miss Kongas is a recipient of an AAUW international grant for the current year and is completing her work as a candidate for the degree of Doctor of Philosophy in folklore. She is studying at Columbia University where she also serves as a part-time lecturer in her field. She is an authority on both European and study and will illustrate her talk with tape recordings she has made.

Born in northern Finland near the Arctic Circle, Miss Kongas was unable to attend school regularly during World War II but she was an eager student and completed the usual nine years schooling in five years. After high school she attended the University of Helsinki and after receiving her Master's degree, taught folklore there. She has studied in Rome and at Marburg University in Germany as well as at Indiana University last year under a United States government grant. She has travelled widely and speaks fluent English, German and Swedish.

In addition to her academic career, versatile Miss Kongas has published numerous newspaper articles and an anthology of traditional children's poems.

Mrs. Tulchin cordially invites all AAUW members of the local branch to take advantage of the opportunity to meet one of the few international grantees in this area.

50-Year Pru Man Retires

FRED H. HAPPICH

Fred H. Happich, 51 Morris Ave., Springfield, will retire tomorrow after nearly 50 years with the Prudential Insurance Co.

Mr. Happich is assistant general manager of the company's claim department.

He came to work at Prudential as a mail boy in 1911, carrying mail to and from various departments and stamping envelopes between runs whenever he shaved any time off his normal 10-minute run.

Today Prudential's tons of daily mail are delivered by automatic conveyors, and modern machines stamp most outgoing mail faster than the old mail boys could lick the stamps.

Mr. Happich was born in Newark, and is married to the former Anne E. Kraft of Newark. The couple lived in Millburn for 36 years before moving to Springfield last year.

They have two daughters: Mrs. Alvin McGee, Cranford, and Mrs. John Imhof, Nasteih, Long Island.

McCarter Offers "Guys and Dolls"

Plan April Production

McCarter Theater of Princeton will produce "Guys and Dolls," Frank Loesser's fable of Damon Runyon's Broadway, on April 13, 14 and 15. The former Broadway musical will be presented as a benefit for McCarter Center of the Performing Arts.

Other principles are Dot Talbot who played lead in television's "Firefly," Ann Sheldon and Stuart Duncan. Remaining company members will be drawn from Princeton's Triangle Club, Community Players' and the McCarter Company.

Trailside Museum Plans Showing of Walt Disney Film

"Beaver Valley" a color, sound film, will be shown at The Union County Park Commission's Trailside Museum, in the Watchung Reservation, at 3:00 p.m. Sunday, March 12.

The above show was scheduled for Sunday, February 5, but the heavy snow caused the cancellation of the program.

Trailside Museum is open to the public each weekday, except Friday from 3 to 5 p.m., and from 1 to 5 p.m. on Saturdays, Sundays and holidays.

Dry Cleaning that whets the imagination

Although "Macy never tells Gimbels," we have cooperated with many out-of-town dry cleaners who wanted to know how we were able to maintain our high level of quality.

Actually we have no secrets! It is simply a matter of using the highest quality materials, the finest equipment, employing the most skilled labor available, and maintaining the closest supervision of each phase of quality control.

Since, we the owners are personally supervising the plant and checking-in your clothes, we call this our "Personalized" service.

If you are not familiar with our "Personalized" service, may we recommend that you drop-off your next bundle of shirts, dry cleaning, sheets, and/or table cloths at Pan American.
