berculosis by releasing from TB hospitals thousands of patients who might have been kept there for years fighting to regain their health. This was the first revolution in TB

The New Jersey Tuberculosis and Health Association, which is now conducting the 61st annual Christmas Seal Campaign, reported that today isoniazid is causing a second revolution in TB control. The Association said the drug is now used to prevent tuberculosis through treatment of persons who are infected with TB germs but who have not yet become ill.

A tuberculin skin test will show if a person has been infected with TB gerins. A positive reaction means the person is infected but does not necessarily have active TB. Isoniazid can prevent active TB.

The TB Association said this is so significant that expert medical opinion refers to it as the second revolution in TB control. This use of isoniazid is called chemoprophylaxis. It means the prevention of TB by the use

What it means to thousands and thousands of people already infected with the TB germ is that they can, by swallowing pills, be protected from developing active tuberculosis and having to spend weeks or months away from their families regaining their health in a TB hospital.

According to the TB Association, extensive trials on using isoniazid in the prevention of TB have been conducted by the United States Public Health Service.

The trials show that the extensive use of chemoprophylaxis now would likely reduce by 300,000 the total number of TB Cases in the United States in the next fifteen years, the Association said.

Chemoprophylaxis with isoniazid is reported to be safe for children as well as adults, experts said, but medical supervision is extremely important in order to see that the pills are taken according to schedule.

Chemoprophylaxis is recommended for certain groups by a priority schedule as follows, the TB Association reports.

1) Ex-patients - persons who have had active tuberculosis and had no drug therapy or had inadequate drug therapy. 2) Persons with x-ray findings that show

healed TB lesions and a positive TB test. 3) A person with a positive tuberculin test who may be in danger of breaking down with active TB in certain situations, depending upon his physical condition.

4) Household contacts of a reported active 5) Persons of all ages who convert from a

negative TB test to a positive TB test. 6) Positive reactors through the age of school entrance and for teen-agers because of the relatively high risk of attracting TB infection in these age groups.

The TB Association said chemoprophylaxis can be done through the family physician or through a public health program, but that the patient must be medically supervised.

the organization.

Advised by her physician to seek a less confining job, she and a woman companion opened an advertising agency in Evansville where she was responsible for original com-

Livingston Band Parents Organization, which seeks to interest business firms and industry in promoting scholarship funds for talented band members.

The organization also raises money by running dances and candy sales. Funds raised are used to pay for transportation and expenses of band members in the exchange band program with other schools.

Still finding time for hobbies, this remarkable woman admits loving to read non-fiction, and an interest in seweing and "most of all cooking?. Enjoying international foods, she notes she is able to indulge in the preparation and eating of it "because my husband will try anything and never complain, no matter what I serve him."

Asked how it was possible to manage her home and family so well in addition to all her other activities, she credits her family with making it all possible by their "pitching in and working together" in harmony and

#### A FEMININE LOOK ... At AFRICA 1967

(Commentary on a National Newspaper Association Study Mission to eight African countries south of the Sahara.)

miiii By TRUDINA HOWARD iiiii

Twenty-ninth In A Series

KENYATTA UNLIMITED Jomo (Burning Spear) Kenyatta who is credited with being the leader of the infamous Mau Mau movement in Kenya, and who spent about nine years under imprisonment and restriction by the British for his very activities

in that movement, is today the top man in Kenya. He was elected that country's first president in. 1963 and thus made the very unusual step

of going from prisoner to president. In January of 1963 when our Study Mission group was also in Nairobi, Mr. Kenyatta had yet become president but he was an important official in the government under the British, and we met him. It was a memorable occasion.

We had been invited to a reception at the home of the then Governor-General of Kenya and one of the guests we were introduced to was the 'Minister of State for Constitutional Affairs and Economic Planning, Mr. Jomo Kenyatta.

It is rather a jolt to stand at a cocktail party in the ballroom of the mansion of the English governor-general and have the reputed leader of the Mau Mau ask you if you would care for another sherryl After all, the stories told about this man are not exactly gentle. The British themselves once condemned him as 'the African leader to darkness and death." Some politicians in Kenya have considered him an: "evil man who wants to drive out all whites

were killed in the uprising, some thousands of natives were killed and that is an appalling

The Mau Mau movement arose within the land-hungry Kikuyu tribe in 1952 and lasted for a bloody two years. Kenyatta, himself a Kıkuyu, was sentenced in April, 1953, as a leader of the group. It was a secret society with the taking of oaths and the use of intimidation, terror and force to gain objectives, one of which was to drive all the English

(whites) from Kenya. The alarming fact, however, is that it might still not be dead. "It is potentially still dangerous with new organization," we were told in Nairobi in 1963, "and could be a threat to any power who comes in after independence." To Kenyatta too though? Who is a Kikuyu and an ex-Mau Mau?

Be that as it may, it is a bit incongruous and even somewhat startling, to be able to chit chat at an elegant sophisticated, English party with a charming, gay and interesting man--and have him turn out to be Jomo Kenyattá,

We had the same feeling in Berlin when we sat in a nice, cheery building with American Army officials and delightedly had coffee and easy conversation, only to find that the building was the ex-Luftwaffe headquarters. It's like relaxing on top of dear Old Smokey-only to discover it's Vésuvius.

On the other hand, Mr. Burning Spear who is now called "The Mzee" (Old Man of Respect) and no longer "Burning Spear," has said that his leadership is not one "to darkness and death" but to "light and prosperity."

And it seems to be a veritable fact. He has, be it noted also, spent almost 16 years in England and was married at one time to an English white woman. He went to Russia for an education, but he sounds Oxford British and he claims not to be a communist. Nor has he shown such tendencies.

It is said also that Mr. K. of Kenya at 74 plus has been mellowed by age, by imprisonment and by four marriages; that he is keenly interested in Buddhist philosophy which teaches that the secret of life is brother love and unselfishness, and in the teachings of Gandhi which holds to the principle of nonviolence. His governmental policy, like that of Tunisia's Bourguiba, seems to be, "go slow and get things done gently but definitely.

All of which are a far cry from Mau Mau. If this be true, and it is the general opinion that it is true, the first African president of Kenya may yet reach Nirvana by living happily ever after. But if it is only veneer, or mainly if the second president of Kenya is to be less mellow and less wise, one might well shiver as one chit-chats.

At any rate, wise and mellow and capable as Mr. Kenyatta may be, he doesn't look placid. He doesn't look benevolent. And he doesn't look 74. He looks alert and debonair and like a capped bomb. I would say he doesn't miss a trick, particularly Miss Trick, and his eves seem to be powered by 300-watt bulbs. That must be the real reason for the name "Burning Spear," for his gaze is a burning shaft of appraisal.

The day we methim, he wore a grey business suit, a beaded "beanie" which sat on the back of his head, and a fancy fly-whisk which hung unused from his right wrist. It looked as though it were a horses' tail -- but should have been a lions' I suppose -- and it had what seemed to be a finely hand-crafted, jeweled handle. These two items are his signature and he, reportedly, is never seen without them. He also wears and mustache and a spade-like

State Sen. Mildred Barry Hughes (D-Union) said this week she has high hopes of attaining one of her principal 1967 legislative objectives -- a law to stiffen penalties for assaults in firemen. Her bill to achieve this goal passed the Senate unanimously last week and will be before the Assembly for final action

at the closing session Monday. Sen. Hughes said she is reasonably certain

The bill, which is to take effect as soon as the Governor signs it, will give paid and volunteer firemen--plus some other public servants -- the same protection now afforded to policemen who are attacked while they are on duty. It is a misdemeanor to assault a

#### Food price drop in October

Prices of many products increased in October, but prices of farm products and foods declined, the Labor Department's Bureau of Labor Statistics (BLS) reported this

The Consumer Price Index (CPI) rose 0.3 percent to 117.5, up 2.6 percent over the year, and the Wholeswie Price Index (WI'l) fell 0.1 percent to 106.1

The WPI decline was due to a continued drop in the prices of farm and food products. Industrial commodities averaged 0.3 percent higher, with increases being posted for nearly half of all classes

of products.

Preliminary data November show the WPI unchanged from October, Farm products and foods dropped an additional 0.6 percent, while industrial commodities gained 0,2 percent.

Sen. Hughes, who has been a leading figure in pushing legislation affecting firemen since she became a Legislator a decade ago, began to work on the bill and to enlist support for it soon after a Newark fire captain was killed by a sniper's bullet while he was resnording to an alarm during the disturbance in that city last summer.

WHEN SHE INTRODUCED the measure on Nov. 20, she extended the public servant category to include not only policemen and firemen but also members of ambulance, rescue, first aid and emergency squads or corps and also any physician, nurse, medical assistant or employee of a hospital, clinic or ambulance service while they are performing public duties.

"When these people are performing public services," Senator Hughes said, "they are entitled to all the protection they can get against unwarranted attacks, which can occur in a wide range of unfortunate circumstances from a minor auto accident to an insurrection.

## Rep. Dwyer gets humanities award, warns of new Arab threat to Israel

Rep. Florence P. Dwyer (R-12th Dist.) Sunday night warned that "the threat to Israel's security not only remains but is intensified" as a result of Arab preparations "for another

round of aggression. Urging free-world opposition to the aggressive plans, she pointed out that Arab states are receiving Soviet weapons "in greater number and higher quality than before" and she charged that Egypt's Nasser and other Arab leaders "have returned to the offensive less than six short months from all but total military defeat,"

Congresswoman Dwyer spoke at the Plainfield Area Israel Bonds Committee's award presentation dinner where she received the Eleanor Roosevelt Humanities Award as "a distinguished legislator" and "stalwart friend of Israel."

Major contributions to peace in the Near East, Mrs. Dwyer said, could be made in at least two ways: first, by halting further arms shipments to the Arabs to prevent "one-sided superiority," and second by destroying the myth that because the Western Powers need Arab oil and strategic bases the Arab states can effectively neutralize the West in its struggle against Israel.

"As the June war demonstrated," she added, the Arabs need the West more than the West needs the Arabs, and if this fact could be made clear in the Arab capitals, it would be a major contribution to peace."

CONGRESSWOMAN DWYER SUGGESTED that a workable settlement of the Arab-Israel war and a lasting peace depended upon the restoration of a military balance of power in the area, withdrawal of the Great Powers (Soviet Russia, the United States, Great Britain and France), and direct negotiations between the Arab states and Israel.

If peace could be secured, she said, prospects would be improved for "the cooperative development of the great potential of the Eastern Mediterranean, the only objective that makes sense in human terms." Noting the parallels between the 1956 and 1967 Arab-Israeli wars, and the need for

"effective guarantees" of its independence and territory, the New Jersey Congresswoman stressed that "neither Israel nor Israel's friends can afford to forget that the failure the 1957 guarantees were partially

responsible for what happened last June." She said the two wars "have revealed the full measure of the challenge aimed at Israel. Both wars occurred as a direct result of Arab hostility and aggression. In turn, Arab hostility was motivated by an unvielding and passionate hatred of all things Israeli, a hatred based on tortured interpretations of history, deliberate distortions of Israeli intentions, and the peculiar concept that the very existence of the State of Israel constituted an act of aggression. And the aggression of the Arab states, on both occasions, was powered by Soviet incitement and supported by Soviet

Two things especially impressed her as a result of the June war, Congresswoman Dwyer

said:
"First, the immediate and total commitment of the entire Jewish people to the defense of Israel," especially the response of American Jews which constituted "probably the greatest single act of mass philanthrophy in American history."

restrained" way in which Israel has responded to military victory, especially in the face of the Arabs' "deliberate campaign of hatred,

threat and provocation." Accepting the Eleanor Roosevelt Humanities Award, Mrs. Dwyer termed it "especially meaningful" to her because "it is a part of one of the most noble and selfless causes I know -- the effort to strengthen a tiny country and its people who have taught the world great lessons in courage and humanity

-- and because it symbolizes the spirit of a great and gallant woman -- the first woman of the world during her lifetime -- who exemplified the very same qualities of humanity and courage, qualities which seem so often to be in such short supply.'

According to the award committee, the Eleanor Roosevelt Humanities Award was established "to perpetuate the spirit and ideals of a noble woman who graced the American scene as a humanitarian fighter for freedom, defender of underdeveloped nations, staunch friend and supporter of the

Governor Richard J. Hughes and Senator Clifford P. Case were honorary dinner chairmen of the "Congresswoman Florence P. Dwyer Tribute Committee." Harry E. Bronston was general chairman and Philip J. Levin was dinner chairman.

Greek hazing at Newark State College has "become increasingly obnoxious," an editorial in the recent issue

Very few boys want to date us because we're no "fun" or "squares". Most of our friends who grew up with us are now full-fledged drug addicts and pot smokers or have 'shot-gun'' weddings.

We are so disappointed when we hear about our "old" friends that we actually sit down and cryl

Is there no room left for girls like us? We are both 18 years old and it seems like wherever we go, we're out of place. Must we be forced to sit home and knit?

"Social Rejects" Dear Rejects:

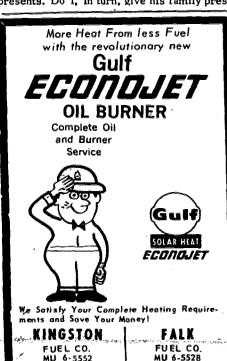

If you think you are "rejects", then there are millions more like youl On the contrary, the rejects and the "Second Hand Roses" are in the minority. My hat's off to you, dears. Stay just the way you are and no one will ever sit down and cry over

There are many more "nice" boys available than the other kind. Seek them out. And they in all probability are looking for girls just like you. Save that knit one, purl two for when you are happily married and expecting!

Dear Amy:

My boyfriend comes to see me nearly every weekend. Sometimes he spends Saturday or Sunday night at our house. I spent the Labor Day weekend with his married sister, Jan and her husband, Peter.

What I am trying to figure out is a Christmas problem. He is giving all my family presents. Do l, in turn, give his family pres-

Dear Pondering:

Assuming his immediate family all live under the same roof, one gift would be appropriate for all. If your relationship with Jan and Peter is close (and I gather it is). include them on your gift list also.

What do you do when you love a man and his 4 children, yet he won't believe you even though you try to do everything you know how to please him? Further, his ex-wife has moved in and you feel that she doesn't approve of anything you do.

I have two children of my own. My children can't understand why they are told not to call him daddy, which they have done for

Do you give up the man you love and his children, or stay and keep house and hope that things will change?

Dear E.M.S.:

Unless you are married to this man, you have no rights in that household. And if you are taking orders from his ex-wife, I think you are screwy. Unless this man makes up his mind which woman he wants to marry and run his household, move out!

I am in a fine mess! My husband and I are going through a divorce and I have found out that I am pregnant. He tells me he doesn't love me, doesn't want me, and we already live apart.

I became pregnant in June and he left in July. I told my husband about it, but it doesn't matter to him. What should I do? I can't work because I have difficulty carrying through a pregnancy. This I know from previous miscarriages, I am living with my

AGRICULTURAL MUSEUM PIECE --- W. C. When "Krueg" visited a farm, he would often spot an old interesting piece which may have been stored in a far corner of the barn, and chances are he'd get around to talking about the

'If you don't want it any more, how about giving it to the College's Museum of Old Farm Machinery?

This museum of the Rutgers College of Agriculture and Environmental Science began in 1929 with a gift from the farm of the late Hiram E. Deats, noted Hunterdon County antiquary and historian.

Now the collection has about 1,650 pieces -plows, cradles, hay forks, fodder cutters, rakes, flax breakers, spinning wheels, old hand tools, early clothes washing machines, butter churns and the like. A 1910 Maxwell roadster provides an off-beat touch.

Many items were acquired through Krueger's interest and inquiry. Others were donated by families who wanted to get rid of certain belongings but held some in too high regard to throw them away.

Living wasn't easy then. That becomes obvious as you walk down the aisles of the two long-narrow buildings where the crude, workworn but often ingenious items crowd the floor and the walls.

But all was not drudgery, either. Life in those days apparently gave rise to industry, inventiveness and even humor.

For example, one donation of a corn planter
