Regional expansion plan debated as Tuesday vote nears

voters.

By ABNER GOLD The Regional High School District Board of Education last Tuesday held the first of a series of four public discussion programs on its \$6,975,000 expansion bond proposal, which will be presented to the voters in a referendum on Tuesday.

on Inessay. The meeting was held before a scant 40 members of the public at Jonathan Dayton Regional High School, Springlield. The second in the series, Monday at A. L. Johnson Regional, Clark, was adjourned when only one interested citizen appeared.

The third meeting was scheduled for last night at Gov. Livingston Regional, Berkeley Heights — too late to be reported in this issue.

The final session will be held tonight at 8 at David Brearley Regional, Kénilworth. Most of the discussion from the floor was

by residents of Mountainside, speaking both for and against the proposal. Edward Little of Berkeley Heights, board vice-president, con-

ducted the meeting. Dr. Frederick Hagedorn, also of Berkeley Heights, reviewed the board's planning and presented details of the expansion planned for the distribution field behavior the district's four high schools. He commented that the schools are now badly overcrowded with 5.441 students, well above

the functional capacity of 4,484, and that registration would continue to rise for at least the next five years.

Dr. Hagedorn said that the board is now using seven portable, temporary classroomsl and nine substandard classrooms, and that it will be forced to add three more portable rooms next fall.

He also declared that the plans had to com-ply with recently revised state standards in order to win approval in Trenton. Dr. Hagedorn added, "We think it is worth the investment."

Two statements supporting the proposal were then presented, both based on a study conducted by the Leagues of Women Voters of Springfield and Berkeley Heights, the only two leagues within the district. Mrs. Herbert Forman, president of the Springfield League, read an endorsement previously announced to the board,

Mrs. Harry Nash of Mountainside, who is a board member of the Westfield League, noted that she had participated in the study, as had several other Mountainside residents, and that she was in favor of the referendum as a "viable educational plan." Mrs. Nash later declared, "I support this

plan, for the good of all the children of the district, not just those of Mountainside alone," Frederick Wilhelms former mayor of Moun-tainside, spoke at some length in opposition to the proposal. He debated with the board on two aspects of the new state standards of functional capacity – whether they were best for the

Regional District and whether they were required by the State Department of Education or were merely recommendations.

SS Years

The old standard set a maximum approved capacity of 30 students per class, with the assumption that each class would be 80 percent full — or 24 students.

The new standard sets a maximum approved capacity of 25 students, again with the assumption that they will average 80 percentfull - or 20 students.

After lengthy discussion, he was not able to alter the board's stand that the plans would not have been approved with the larger class size. The board, on the other hand, was unable to shake Wilhelms' conviction that the change was

simply a recommendation and not a require ment.

Little commented that the old formula of maximum size of 30 students, now in effect. leaves "several of our schools terribly overcrowded. It does not meet the needs of our schools today."

Mrs. John Hechtle of Mountainside recalled that Wilhelms had led adrive for smaller class size in Mountainside when he had been on that borough's board of education.

Wilhelms told the board, ''I do not question the need for small classes, but I do question the rationale of this proposal. It is untimely,

(Continued on page 4)

FOR THE FUTURE -- Mountainside residents will be able to step into the future at the PTA Jubilee Fair Saturday at the Deerfield School. They will be able to write their names and addresses for insertion

Campus shootings give one collegian a sudden vacation

Lloyd De Vos of Mountainside is not completely certain what he will be doing after he graduates from Kent State College in June, but he is sure he won't join the National Guard.

He arrived home Tuesday morning, after the college was closed in the wake of the fatal shooting of four students by Guardsmen on Monday. The killings climaxed a wave of violence, which included the burning of the lding by activists or

Fair Saturday

names and addresses to be put in the capsule which will be sealed later in the year.

policy in Vietnam.

"I'm basically in favor of peaceful demon-strations," De Vos said, "but when you start burning down buildings—it leads to this type of confrontation.

"Guardsmen were all over the place when it happened. A lot of them seemed quite nervous. It was their first experience in a riot situation."

De Vos, who had aided in a rumor control center over the weekend, was not on the field where the shootings took place. He was at his dormitory window, watching the demonstra-tions. "One of the wounded students came into our dorm," he added, "with his face smeared with blood and with what appeared

to be a bullet hole in his shoulder." He went on to say, "The mood when I left was very simple—scared stiff, Everybody was getting out as fast as possible. The initial reaction was that the Guard was responsible for the shootings, but a few hours later most of us were not really assigning

responsibility. "My own feeling is that perhaps those most responsible were the militants who started the whole thing. But the rumor was that one of those killed was a girl walking to class at least 100 yards away. "Anyhow, I'm sure that in the future there

will be a lot less students attending rallies." De Vos said that the violence was sparked when a group of students tried to take a camera away from a photographer who was taking pictures for the use of college disciplinarians. The photographer reportedly defended himself

The photographer reportedly defended himself with a revolver, and the sound of his shots set off the firing by the Guardsmen. Out of some 20,000 students at Kent State, De Vos estimated, perhaps 100 were the "radical militants" who spearheaded the demonstrations. Another 300 or 400 he des-cribed as "idealists," dedicated to the pro-tests interested only in peaceful demonstra-tions. tions,

He said that he knew one girl who was killed, and that she probably belonged in the second category. All the others on the scene, De Vos added, were just watching the protests. The son of Mr. and Mrs. Martin L. De Vos of 360 Forest Hill way, he is a graduate of Gov. Livingston Regional High School. He is a senior majoring in history, political science and accounting, and he will attend George-town University Law School in the fall.

FRIDAY DEADLINE All items other than spot news should be in our office by noon on Friday.

church card party

A card party and fashion show will be spon-sored by the Rosary Society of Our Lady of Lourdes Church, Mountainside, on Tuesday and Wednesday at 8 p.m. in the church hall. The theme will be "Tis a Little Bit of Ireland." Mrs. John Bieszczak and Mrs. William Dab-Mrs. Join Bieszczak and Mrs. William Dab-rowski, decorating chairmen began to design, create and produce the Irish village atmosphere last summer. Leprechauns will peek at red-headed colleens hiding in trees and dancing along the street. Thatched roofed cottages will set the stage for the fashion show.

Mrs. Edward Reilly, Miss Susan Greeley, Mrs. Richard Jeske, Mrs. Henry Malzbender, Mrs. Robert Kortenhaus, Mrs. Louis Ahlquist and Mrs. Frank Chambers will model spring and summer fashions provided by Irish Inter-national Airlines. Miss Ann Kelly of the Airline will act as commentator,

Anyone interested in reserving a place for Tuesday can call Mrs. Donald Garrettson at 233-8051. Anyone interested in attending Wednesday can call Mrs. James Kellerk at 232–1281,

Service, advised the commission that there is extensive damage being done by the improper use of these agents.

A spokesman said, "It is very apparent that borough residents are extensively applying fer-tilizers or weed killers which contain a hor-

mone herbicide chemical 2,4-D, which is in-jurious to certain varieties of trees." The spokesman concluded, "Excessive use of any fertilizers containing 2,4-D under trees within the root area should be discontinued, if residents discontinue the use of this type of material, many of the trees may affected material, many of the trees now affected slightly should grow out of this present problem.

Officers were elected at a recent meeting of the commission. They are Herb Seidel, chair-man; Mrs. Gertrude Suski, secretary; Larry Curtiss, publicity chairman, and Mrs. Jean Hershey, who will continue as the group's advisor.

Councilman William Brant informed the group that the 1970 budget and program of the commission have been approved.

The members of Mountainside Volunteer Fire Company this week expressed their "heartfelt thanks to Mountainside residents for their warm welcome and contributions during the annual door-to-door fund drive last Saturday. Many residents replied to our 'Thank You' with, 'It is we who thank you.' We truly appreciate your appreciation. "To those residents who were not at home,

we are sorry we missed you. We ask that you be part of our effort by sending us your donation in the self addressed envelope we left at your home. If you are generous as the folks who were at home, our drive will be a success.

show to be held Wednesday at the Mountainside

Inn, Rt. 22. The event will be presented by

Residents thanked

for aid to fire fund

"Again, Mountainside, thank you. And please remember our request, not to see you professionally till next year."

Red Cross seeks donations of blood}

The Red Cross blood program depends entirely on voluntary donors who give their blood to protect their families and to help others who cannot give.

The Bloodmobile will visit Westfield on Wednesday, May 20, from 2 to 7 p.m. at Temple Emanuel, Transportation will be provided, upon request, to and from the bloodmobile. For registration, readers may call the Chapter House, 321 Elm st., 232-7090.

The Red Cross urged residents to "sign, up now for this worthy community program." drive is on now to recruit at least 175 donors.

Spring and summer styles to be feature of fashion show Spring and summer styles will be modeled at the Mountainside Newcomers Club fashion

Brooks of Summit.

Mrs. Errol Meisner, chairman of the fashion show, said members of the club will model the clothes. They are Mrs. Ronald Heymann, Mrs. Homer Costallos, Mrs. Robert Ball, Mrs. Robert Thompson and Mrs. Joseph McMahon. Children of members will also model. They are Shawn McMahon, Linda Cleveland, Cathy Falter, Bobby Falter, Judy Cohen, Lisa Jack-son and Mary Skrynas. The club will hold a wine and cheese party

on May 24 from 5 to 8 p.m. at the home of Mrs. Robert Cohen, 323 New Providence rd., Mountainside. Tickets can be obtained from Mrs. James Toner.

The 'candlelight bowling night' to be held June 13 has been sold out, Mrs.Kenneth Van Pelt, chairman of the event, announced.

Police probe fire, arson a possibility

Mountainside police are investigating possible arson in a fire last Wednesday evening at the home of Mr. and Mrs. Pascal Diacovo

at the home of Mr. and Mrs. Pascal Diacovo of 290 Ravenswood. According to police, the fire apparently started in the kitchen, They found a ladder placed by the kitchen window. There was "very extensive" damage to the house, in-cluding a hole in the roof, according to reports. No one was home when the fire broke out and neighbors turned in the alarm. However, how dore were affected by the blace. A pondle two dogs were affected by the blaze. A poodle was overcome by smoke and died of inh A German shepherd was rescued by firemen.

House broken into

A house on Turnabout circle, Mountainside, was broken into last Wednesday, according to Mountainsidepolice. According to reports the lock on the back door had been picked and a bedroom was ransacked. It was not determined what had been taken, according to the report,

Regional referendum ... now up to the voters

The voters of Mountainside are faced with a decision this Tuesday which may well determine what kind of community this will be for at least the next several decades.

Along with citizens in the five other towns of the Regional High School District. they will vote on the \$7 million expansion plan being submitted for the four Regional high schools.

Critics of the proposal have centered their fire on two aspects of the expansion plan. The first is the decision to

switch all Mountainside students from Gov. Livingston Regional High School in Berkeley Heights to Jonathan Dayton Regional in Springfield.

The second is that the board, by complying with state recommendations for smaller class size, is spending too much money for education.

Mountainside parents are understandably concerned about transferring their allegiance from what in the past decade has been their home high school.

This is certainly a valid concern. The only possible answer is to look carefully at the alternative.

The change, adopted after lengthy study and sometimes anguished discussion by the board, is designed to approach an equal distribution of students among the four high schools.

Only with equality of size, the reasoning goes, can the schools provide equality of educational opportunity. This applies in such matters as honors courses, classes for slow learners, laboratory facilities and library services.

If all Mountainside youngsters remained at Gov. Livington, that school would be more than twice the size of Dayton. This could well be unfair to students at both schools.

The advantages of a smaller school are reflected in increased opportunity for each student to achieve recognition

ublished each Thursday by Trumor Publishing Corp

Sam Howard Publisher - 1938-1967

Trudina Howard, publisher Milton Mintz,

as an individual. This applies for those who want to be varsity athletes, for example, or editors of the school paper, or officers of the Spanish Club.

The issue of site size, we believe, is related directly to that of pupil assignment. The Dayton school admittedly has a much smaller tract of land than does Gov. Livingston.

However, it has the use for the foreseeable future of adjoining Union County Park Commission land for athletic activities. In effect, this makes the two sites comparable in practical capacity.

The other problem, that of costs, is one that always arises in educational planning. The voters of Mountainside have achieved an enviable reputation for their willingness to provide the best possible education for their children. This is no time to change the image.

Those who have no children in the high schools, and will not, may well feel that they should not be required to pay for higher educational standards.

One relevant comment is that the quality of education often determines the quality of a community. A town with good schools attracts responsible citizens, and real estate prices are a direct indication of that desirability.

Under the proposed school expansion plan, the additions would be reflected in a tax increase of \$23.50 a year on a house with a market value of \$30,000. Costs would start to decline after 1972, the peak year.

Voters will have to decide whether \$1.96 a month is a fair amount to pay to protect their property values.

So far as other costs are concerned, the price of educating a specific number of students remains constant, regardless of the physical setting, once the quality to be achieved is decided.

Local voters have an opportunity each year to review these costs at school budget elections. The previous comments on the long-range advisability of shopping for discount education also apply here.

As stated above, the way to view the expansion proposal is to look at the alternatives. With the present overcrowded conditions, and with another two-year-delay seemingly inevitable if this referendum is defeated, the great likelihood is for inferior education, with

Regional

(Continued from page 1)

seeking to do two things.

These are to provide housing for bodies. which is certainly needed, and to improve the standards in the high schools beyond what the taxpayers will pay for." He added, 'I'm all in favor of reduced class

size, but this is not a propititious moment for this improvement." Wilhelms later told the board, "Iwould sup-port the functional capacity change if the Moun-

tainside students stayed at Gov. Livingston, at least in theory." A major feature in the board's proposal is

A major leasure in the poard s proposal is the transfer of all Mountainside students from Gov. Livingston, which the borough had re-garded as its home high school, to Dayton. The former mayor continued "I had long

held that Mountainside parents were promised attendance at Gov. Livingston. We supported five referendums for this. It is not the package offered now, and I oppose it." Dr. Benjamin Josephson, a board member

from Springfield, commented that if the plan is defeated, projections for 1974 show more than 2,000 students at Gov. Livingston, with critical overcrowding, and less than 1,000 at Dayton overcrowding, and less than 1,000 at Dayton, with "some classrooms unoccupied. This would not please the taxpayers." Mrs. Ruth Weisman, a member of the Spring-Mrs. The section told the meeting. "I

field Board of Education, told the meeting, 'I am tired of hearing the people of Springfield maligned for the defeat of the referendum two years ago. "That provided a minimum of repairs for

this 30-year-old building at Dayton. The people of Springfield have always had the best interests of the district at heart. In the shuffle, the state of this building was neglected."

Wilhelms replied that he had urged the board to make sure, whatever is decided, to provide necessary improvements at Dayton.

Candidates named for 'Queen' of prom

Joanne Hansen, Nancy White, Leslie Rhoades, Wendy Seville and Darcy Stroud, juniors at Gov. Livingston Regional High School are candidates for queen of the junior-senior prom, to be held tomorrow at the Martinsville Inn.

An election, in which junior boys will vote, will be held on the day of the prom, and will result in the crowning of a queen and her court at midnight.

General prom chairman is Barbara Pitzer. Other committee chairmen include Ruth Gutman, Harold Rosenburg, Bob Honecker, Bobbie Isleib, Mary Beth Nazen and Maria Cognetti. Miss Donna Kenny and John Knoll are faculty advisors.

Beach director

Richard Banach of Mountainside has been named by the Dover Township Recreation. Commission as beach director of Ortley Beach. He is the son of Mr. and Mrs. Herman Banach of 1127 Iris dr.

Richardson joins board

Mark E. Richardson of 1059 Sunnyview rd., Mountainside, was elected to the board of directors of Washington Rock Girl Scout Council at the An-nual Council Meeting held at the Mountainside Inn on Tuesday. Richardson will serve as a member at large for a two-year term.

The annual council meeting featured a film "Later, Per-haps," a study of some of the environmental problems facing New Jersey today. Regina Kelly of the New Jersey Counfor Environmental Education spoke on what Girl Scouts can do to improve the environment in the council

area. Action '70, anationwide Girl Scout effort to overcome prejudice of all kinds and to understanding was also presented to the dele-

REFERENDUM OPPOSED

On May 12 the voters of Kenilworth, Clark, Berkeley Heights, Springfield and Mountainside will go to the polls and decide whether or not

The Regional Board has over-talked but under-educated the voters on this important referendum. They tried to appears Mountain-side by saying that an addition to Jonathan Dayton in Springfield will insure forever that Mountainside will have a home high school at Springfield Springfield.

Not so. Manuel Dios, president of the board. at the regular monthly meeting of the board in Mountainside last week, said that the present board cannot bind future boards to this decision. Clearly, Mountainside students are being used so Springfield can get their much needed renovation and additions.

They tried to get us to believe that the state would not pass the bond issue unless the classroom sizes were reduced from 25 to 20.

After being questioned by former Mountain-side Mayor, Fred Wilhelms on the reduction, Dr. Warren Davis, superintendent of schools, said that "there is no actual mandate. We are attempting to set up reasonable class sizes." When asked by Wilhelms if the state would reject a plan based on the present 25 students per class, Dr. Davis replied, "No, the state wouldn't stop it."

Reducing the average class size to 20 students per class appears to us to be a highly inflationary move. At a time when bond referendums are being voted down all over the country, we feel the board is unrealistic and out of touch with the times to ask the people to assume this excessive financial burden when does not adversely affect the children's education.

When this referendum is defeated, we hope the board will reconsider the 1968 referendum which is less costly and more in keeping with the children's "real" needs and the taxpayer's pocketbook.

I would urge all my neighbors to join us in Mountainside who are working to defeat this MRS. PATRICIA KNODEL 250 Knollcrest rd.

REGARDING REGIONAL HIGH

Consider that the Regional Board has spent hours of time, effort and money, with expert advice and experienced ability (not to overlook patience and criticism from many, without factual knowledge and experience) the conditions in the Regional District are sadly in need of revision and expansion.

"expansion must be faced at a later day, and will be much more costly."

Backpeddling youth Student is bicycle champion

months, but his mind dwells

on the mountain courses of

Europe and the enthusiasm

with which people there greet

At an age when most young eople are anxious to be in step ith the times. Dave Chargen about being the No. 1 cyclist in America for the next four people are anxious to be in step with the times, Dave Chauner admits he'd like to pedal back to the "good old days" of the 1930's. Chauner is a "with-it"

looking young Upsala College senior of 21, but he is also a the United States.

France, Holland, Germany senior of 21, but he is also a — those are places where bicycle racer and the sport Chauner's sport is greated just isn't what it used to be in with the kind of exuberance Americans reserve for places Chauner will quietly go like Shea Stadium,

Style Rite Beauty Salons

the sport.

Chauner, who spent last summer cycling with an amateur team in Holland and who competed for the U.S. in the 1968 Mexico Olympics, has tasted that kind of experience but he will spend this season in America because he knows he is needed to help the sport

here. As "EastCoastCycling News" noted on the front page

of its February issue, 'Chau-ner's departure for Europe last year left a void in the (American) racing. . .*

Already this spring the Resement, Pa., youth has won all four races he has entered, starting with a repeat victory over 106 rivals in the Cross-Florida Tour event March 29. Chauner became interested

cycling races at age 15 when a friend, who knew of his interest in cycling for fun, advised Dave to take in the Memorial Day bike race at Somerville.

"It was a fantastic sight and I decided right then that I want-ed to try racing," Chauner recalls.

More than 50 cycling victor-ies later, Chauner still wonders sometimes "if it isn't just a little bit insane to submit to such a physically gruelling, lonely sport—just for the challenge.

In January, when Dave be-gins to train in the harsh cold and winds, he tries to think of those beautiful mountain trails of the professional Tour de France, lined with thousands of appreciative fans who climb the mountain for a fleeting glimpse at the leaders. If he does well in the 1972 Olympics, Chauner would like to turn pro and race in Europe, where some of the top cyclists e a r n up to \$300,000 in a scason.

For now though, Dave and his fiancee, Upsala senior Mary Ellen Wilson, of Madison, Conn., are busy planning the weekend race schedule which includes New Jersey events — the April 25-26 "Tour of New Jersey" in South Branch, the May 24 John E. Erga Memorial Bace in F. Egan Memorial Race in North Arlington, the May 30 Tour of Somerville, the June 7 Tour of Essex County and the Aug. 16 Tour of Raritan.

Dave and Mary Ellen, who met in a French class at Upsala last fall, plan to be married in September - after a race in Lake Canandaigua, N.Y.

They can be seen riding side-by-side around the Upsa-la campus almost any after-noon, an activity Dave and Mary Ellen recommend for all to "keep fit," Chauner believes that cycl-ing is making a comehack in

ing is making a comeback in this country-it was once a major sport in the 1930's-and predicts the U.S. will make a strong showing in the 72 Olympics.

We have the healthiest people in the world," Chauner notes, "and so it is simply a matter of upgrading our com-petition to that of the Euro-peans."

Dave believes a big indication of how far the U.S. has come will be given Aug. 19-23 at the National championships in New York City. Chauner finished third in 1967, second in 1968 and was in Europe last year.

"The nationals are what I'm aiming for, and so are all the other riders," Chauner concludes. "I think the overall results will prove that cycling has made it at least part of the way back in the U.S."

HALF-PAST TEEN

Veterans in college must file with VA

Paul M. Nugent, manager, New Jersey Veterans Administration Regional Office, Newark, this week cautioned veterans attending classes at degree granting colleges and uni-versities under the G.I. Bill that they mustfile their Certificate of Attendance with the VA. Nugent said veterans whose semesters end this month will receive their certificate with their March checks which were due and payable on or about April 10. Likewise, semesters ending in the month of June will generate certificates with the April payment due May 10

Nugent stressed that veterans should complete and return their certificates upon receiving them. "Do not hold them until the end of the semester. Failure to submit the certificate immediately will result in suspending future payments and money already paid during the semester could be subject to repayment. Remember, file your certificate of attendance as soon as you receive it," said Nugent.

Podiatrists plan meeting

Middlesex College starts new program in civil technology

Middlesex County College in Edison will offer a new curriculum in civil technology this fall. The new program is designed to prepare graduates for a career as civil

The civil technology curriculum will train students to be able to work in building construction, highway design and layout, survey-ing, construction inspection, soils analysis, and sewage and water supply.

Edison township engineer John J. Zimmer-man, who assisted the college in the develop-ment of this new program, said, "The college should be successful in producing well-trained civil engineering technicians since they are providing them with background headed the providing them with background knowledge in surveying, drafting design, construction survey and construction inspection. Since this is being accomplished within two years, it is reasonable to assume that these men will advance very rapidly within the civil engineering technology field due to having a roundness of education and practical experience that is generally not available in the average technician in this field. The educational work is tied to basic on-the-job training, which enhances the edu-cational value." The college's program is designed to educate

students to understand the theory of various civil engineering disciplines, train them to be able to apply practical skills and theory, solve civil engineering problems, and provide the necessary training to fit into the level between craftsmen and engineer, closer to the engineer. Four semesters of curriculum work leading

to an associate degree in applied science will include the following: engineering materials, English, introduction to Fortran, technical design and graphics, physics, algebra and trig-onometry, architectural drawing, surveying, statistics and strength of materials, calculus, fluid mechanics, engineering carcine fluid mechanics, engineering economy, rein-forced concrete design, humanities, estimating and planning, steel design, soil mechanics and physical education.

The admissions office at Middlesex County College has reported that there are still many vacancies for the opening semester this fall. The college is planning to begin with two sec-tions with a total of 40 to 50 students. Inter-

Subscription sales run ahead of 1969 at state arts center

The Garden State Arts Center this week reported that the number of subscriptions sold for its third summer season has gone over 11,500, bettering by a thousand last year's record.

The new high was reached with several weeks still to go before the close of subscription sales for the 1970 season. May 15 is the cutoff date. The season itself starts June 10 with a classical subscription performance by opera star Marilyn Horne and the New Jersey Symphony Orchestra.

The popular series subscriptions are run-ning well ahead of last year in number sold, while the classical series orders are lagging behind their 1969 total. The latter season seats

THE NATIONAL INSTITUTES OF HEALTH Portant area of clinical research conducted at the National Institutes of Health in Bethesda, Md. Some 4,000 patients are admitted each year to the NIH Clinical Center, a research hospital with 516 patient beds and 1,100 laboratories, where patient care and scientific investiga-tions are carried on virtually side by side. About 1,200 of all patients each, year are study patients of investigators in the National Heart and Lung Institute, one of the ten in-stitutes at NIH.

Although the Clinical Center is among the world's largest medical research hospitals, it is by no means the only one. There is a growing number of similar institutions throughout the country on a smaller scale. Many hospitals have beds set aside for special re-search work with patients who have heart disease, cancer, or other ailments.

All patients accepted at the Clinical Center must be referred by their physicians. Twice each year, a new list of current clinical studies un-der way at the Center is circulated among physicians, who may write to the Clinical Center Director about admission of any of their own patients condition's being having studied.

and

Patients are admitted for study of specific disorders under research in an institute. After admission, studies may indicate not one but two or more diseases causing trouble. The investigators may then refer the patient to another NIH clinic, whether it be cancer, heart, diabetes, arthritis, mental health, etc. But whatever the greatest problem may be, the patient

The bank presented the prizes as part of the activities connected with its recent grand opening at Hillside avenue and Rt, 22.

ta life which had a plan, a purpose; a life dedicated to SUNDAY'S A SERMON peace and brotherhood among men, a life of love, obedience and service.

Many of us have a plan for living. The problem is, in many instances, it is too self-centered. We place too much GAME OF LIFE The game of life is not always easy to play. No matter how carefully one may plan centered, we place too much importance on personal goals and ambitions. When we do this, there is a tendency to shut out people and things rightfully worthy of some attention and consideration, Check turn more able and prepare for tomorrow, the unexpected becomes a reality nd everything is changed, No one can plan a perfect life upon earth, Even that one Perfect Life, dédicated to the will of God, was not without pain, suffering, and death, Yet, if we study the years of Christ Check your own game plan. Consider not only the progress you are making toward the things you want out of life; think about whether or not you upon earth, we learn more and more about how the game are making some worthwhile contribution to the world in of life should be played. The lessons are all there:

which you live,

First Presbyterian slates review of

communicant class

Members of this year's communicants' class of the Springfield Presbyterian Church will meet next Tuesday evening with the session of the church for formal review and acceptance into the membership of the church. They will be publicly received into the fellowship of the local church on Pentecost Sunday, May 17. Parents of the class members will accompany them to the meeting on Tuesday evening at 7, which will be held in the Parish House auditorium,

The communicants' class has been studying each Sunday morning since last September under the leadership of Mrs. Sheila Kilbourne, Martin Fry and James Marshall. During the class work some of the promises and perils of the world today were explored in the light of the Christian faith. The Bible, textbooks "Con-fronting the Bible" and "Dilemmas and Deci-sions," together with a study of the Apostles" Creed, were the bases of the year's work.

In addition to the Sunday morning meetings, several dinner meetings were held at which Dr. Bruce Evans, pastor of the local church, spoke to the young people. As a part of these extra meetings, the group made a series of Lenten symbols using local materials for an unusual presentation of folk art. These were displayed at the worship services one Sunday morning in

"Write Hanoi' -plea for POWs by Red Cross

The American Red Cross is launching a new The American Red Cross is launching a new "Write Hanoi" campaign urging Americans to write to the President of North Vietnam ex-pressing their indignation over the country's treatment of U. S. prisoners, according to the Westfield-Mountainside Chapter,

There has never been anything pleasant about war, and certainly the attitude Hanol has taken

war, and certainly the attitude Hanol has taken in its treatment of captured Americans "is one of the low points in the unhappy history of warfare," the announcement added. In centering its appeal around the World Red Cross Day, May 8, the American Red Cross is emphasizing the importance of the humani-tarian efforts of 113 Red Cross, RedCrescent, Red Lion and Sun societies. This day is ob-served by 225 million society members worldwide in commemorating the birth of the move-ment's founder, Henri Dunant, Swiss financier and philanthropist, for building, swiss mancher A local spokesman stated: "No matter what political views each in-

dividual American has about war, all are in agreement that something must be done about treatment of prisoners as set forth by the Geneva Convention,

"This agreement, to which North Vietnam is a signatory, calls for prompt identification of prisoners, adequate diet and medical care, communications with other prisoners and their families at home, prompt repatriation if ser-lously sick or wounded, protection from abuse or reprisals and free access to prisoners and their place of detention by such a neutral intermediary as the all-Swiss international committee of the Red Cross."

Mrs. Robert Bauer, chairman of service to military families of the Westfield-Mountainminitary families of the westheid-Mountain-side Chapter of the American National Red Cross, which is sponsoring the new drive, says letters protesting the treatment of American servicemen should be sent to the following

address: Office of the President, Democratic Re-public of Vietnam, Hanoi, North Vietnam. Airmail letters weighing one-half ounce or less should carry 25 cents in postage.

Regional twirlers

win2 second places The twirlers of Jonathan Dayton Regional High School, Springfield, were awarded two second place trophies last week in a contest sponsored by the National Baton Twirling As-sociation, Miss Carol Dragon, the twirlers' advisor, announced, The trophies were wonfor a dance routine and a military routine. Members of the team that competed in the contest were Charlene Smith, majorette;

contest were Charlene Smith, majorette; Dorothy Gorecki, captain; Mary AnnGraziano, Ann Apgar, Lisa Brown, Elissa Title, Bonnie Lowenstein and Barbara Lies.

Bank borrowing is bright borrowing. Low rates. Easy monthly payments. Completely confidential services. And never any red tape or delays. Bank borrowing builds your credit rating, too. So ask us today about LOANS FOR SPRING FLINGS & THINGS . . . at First New Jersey Bank.

On the average, 23 cardio-vascular patients are admitted each week to NHLL. Usually, the cardiovascular patient spends about 25 days at the Center. He may come under one or more of the five clinical services maintained by Heart Institute physicians and surgeons. Because many scientists are concerned with studies involving each heart patient, considerable teamwork is essential. All laboratory studies are correlated with carefully controlled clinical observations and analyses.

The cardiology service accepts about eight new patients each week. Their principal task is to study the function and pharmacology of the heart and circulatory system. Special emphasis is given to developing improved cardiovascular diagnosis.

On the average, four of the heart patients admitted each week turn out to be candidates for cardiac surgery and about four patients per week are readmitted for follow-up study after recovery from surgery. The Center has a separate wing used exclusivefor heart surgery and neurosurgery. One of the features of this wing is an operating theater of unique design, especially well equipped for open-heart operations with the aid of a heart-fung machine and an electronic physiological monitoring system.

Other heart patients receive attention from the clinical endocrinology group which is studying metabolic and endocrine problems.

A fourth group of heart physicians at the Center concucts metabolism studies on disorders of blood cholesterol and other fats in relation to artherosclerosis (a kind of hardening of the arteries), kidney function, and the action of drugs.

Highlander nine drops three games but unbeatennet teamkeeps on rolling

By BILL LOVETT Gov. Livingston's hopes for a winning sea-

son plummeted last week as Coach Massaro's Highlanders dropped three games ----to West-field (7-1), South Plainfield (5-3) and Jef-ferson (3-2). In retrospect however, defeats were understandable considering that the three opponents' combined present use 19.5 opponents' combined record was 18-5.

Regional, now 4-7, faces a hard, uphili battle. With little over half the season gone, Gov. Livingston has played the roughest part

IIII By FRED GREENBERG, R.P. IIIIIIIII What is sleep? How much do we need and how do we achieve it? Although little is known about sleep itself, a greatdealis known about what happens to the body during sleep. The heart slows from about 75 to 60 beats a minute, body temperature and basal-metabolism rate fall slightly, breathing drops from 16 to 12 breaths a minute. Sweat glands become particularly active. Some people have real need of ten baunce a pictur and others find four baunc hours a night and others find four hours sufficient. A good general rule to follow: sleep should be sufficient to allow us to wake up spontaneously, refreshed and ready to do a day's work -- without undue fatigued fatiguel

ole real toga game remaining to wan next field, Westfield, and reliever Skeeter MacCloskey, gave Regional something to ponder till their next meeting, MacCloskey, along with starter Gist Johnson, and John Pfeiffer, who followed Skeeter, allowed seven hits but just one run, while his teamates secred seven times in the opening three innings. Although being relieved, MacCloskey was by no means in-effective, His arm was tired after pitching a no-hitter against Roselle two days earlier. Doug Rau was tagged with the defeat, his second of the year (he was also the losing pitcher against South Plainfield). Wesfield shellacked Rau and reliever Tom Wilson for 13 hits, Johnson, who pitched only one in-ning before being taken out, did the most ning before being taken out, did the most damage, belting out three hits. Seven Blue Devil players scored, indicating the balance the Watchung Conference leaders possess.

Jaycees annual `rock festival' picks top band Saturday

The annual New Jersey jaycees statewide band contest will culminate Saturday in the Westfield "Rock Festival" featuring 20 Rock Sound Bands and a two band final playoff contest in the Westfield High School Stadium on Bahway avo on Rahway ave.

Sponsored by the Westfield Jaycees, the festival opens at 10 a.m. in the school's stadium with the arrival of combos from some 20 New Jersey communities who selected their winning bands in earlier local 'battle of the bands' contests, all judged by teenage rock fans.

The stadium opens at 10 a.m. but the rock festival' gets underway at 12 o'clock noon and continues until 5 p.m. Those at-tending will then ballot for their favorites

and the top two bands will have a playoff from 5:30 to 6 p.m. The winning band receives \$150; second place band \$100 and the third place, \$75, with

opportunity for recordings. Emceeing the proceedings will be Bill Frank-lin from WNJR Radio. Rock Sound will be projected by AMPEG. The Jaycees committee has arranged for a hot food menu and refresh-ments to be available all day.

Jefferson, with a 8-1 mark, needed a run Jetterson, with a 8-1 mark, needed a run in the bottom of the seventh to edge Gov. Livingston, The Highlanders jumped off to 1-0 and 2-1 leads as the Trakimas brothers, Bill and Dick, continued to spark Regional's strack leads second a run.

Bill and blek, continued to spark Regionar 5 attack, Each scored a run. The home team, however, came back in the final two innings to pull the game out, Jefferson pushed across a run in the sixth against a tiring Kyle McCormick, Finally, in the seventh, McCormick and relief pitcher Tom McCann loaded the bases on walks. Massaro then brought in Kevin McBrien, who walked in the winning run on four pitches. It was a tough loss for McCormick, and for Regional, McCormick gave up just three hits, rare against a team as good as Jefferson. South Plainfield was a team Gov, Living-ston expected to beat --- but a three-run homer by Jim Curcio seemed to be too much to overcome, Down 3-1, the Highlanders, behind Bob Honecker, came back with two runs in the fourth, Honecker scored two runs and The Tigers, though, aided by several walks, managed to regain the lead and held on to win. . . .

Tennis, to many, may not be the most exciting spectator sport in the world, but it will probably be Gov. Livingston's best sport this year. The Highlanders are now 5-0 after breezing past Hillside and Cranford by 5-0 scores.

At the beginning of the spring sports, it was expected that Regional had only a slim chance to win the Watchung Conference Title. However, the tremendous effect of the addition of the two King brothers, Tom and Steve, changed the picture.

Tom is playing the first singles, freeing Dave Ranz, who last year played the top spot, to play second singles. Dave is having a fine year playing against easier opposition. Steve King, third singles, has provided the spark in several victories. The most notable was Regional's match with Scotch Plains. Down 2-0, Steve took his singles match, which was followed by victories in both doubles to give Gov. Livingston the match

both doubles to give Gov. Livingston the match. Moreover, if the two King brothers were not playing, it would mean two doubles players would have to play singles. With the Kings, the doubles play is that much stronger. At this moment, Gov. Livingston has three ex-perienced doubles teams: Stu Brown and Stan Granberry, Gil Smith and Al Emslie and Gor-don Shulman and Jon Carlson, Several weeks ago, when Emslie injured his ankle, Coach James Lenox, instead of pairing someone new with Smith, merely usedGranberry andBrown, with no loss at all.

Three teams lead in softball standings Three girls softball teams in Mountainside

have perfect records as of the April 30 standings. They are the Canaries, the Doves and the Robins with two wins each.

and the Robins with two wins each. Other team standings are the Peacocks, 1-0; the Bluejays, the Cardinals and the Orioles, 1-1 each; the Owls, 0-1, and the Eagles, the Falcons and the Parrots, (0+2);

Relay mark is set by Cubs Pack 70 Pack 70 of Mountainside set at 440-yard

relay record of 1:91 in the fourth annual Cub Scout Olympics at Westfield's Recreation Field last weekend. The annual Colonial District event drew some 200 entires, representing 17 packs in the Mountainside area. The team title was won by Scotch Plains Pack 4 with Westfield Pack 172 second, Westfield Pack 270 third and Scotch Plains Pack

ECHO PLAZA

MAPPING HER PLANS-Lori A, Klebous of 250 Apple Tree lane, Mountainside, a student at Gov. Livingston Regional High School and member of Bellplac Co., a Junior Achievement company sponsored by Bell Telephone Laboratories, Inc., points out cities in Holland that she would like to visit as part of Operation Holland to Anthony J. Saporito, JA program director. Lori and 33 other Junior Achievers will fly to Holland to study relationships between the United States and Holland in the fields of education, industrial and port development, import-export and government

Students will show their artistic talent at Jonathan Dayton

"Art on Display" will be the theme of the ninth annual art show of the Union County Re-gional High School District, to be held Friday evening, May 15, and Saturday afternoon, May 16, in the cafeteria of Jonathan Dayton Regional High School, Springfield.

The district-wide event will feature some 750 works of art by students, including acrylic, oil and all forms of water color painting, block and screen prints and other forms of graphics, pastel, pen and ink, crayon and a large variety of mixed media.

Students will also display ceramic, wood, plaster and "junk" sculpture, many forms of collages, ceramic pottery, commercial art and jewelry,

"We know this show will appeal to all residents of the regional district and the surround-ing area," according to Edward Brown, music and fine arts coordinator. 'It represents out-standing examples of student work in all the art forms."

Teachers in charge of the show are: Wil-liam Anderson and Mrs. Nancy Wilder, Gov. Livingston Regional High School; David M. Brodman, Jonathan Dayton Regional; Patricia Mossett, Arthur L. Johnson Regional, and Mrs. Rose Polansky, David Brearley Regional.

The Regional District comprises Berkeley Heights, Clark, Garwood, Kenilworth, Moun-tainside and Springfield, and operates the four high schools.

O

For People Who Don't like to borrow Money

If you went without dinner in college, instead of asking your father for an advance on next month's allowance; if you've always hated to ask for money, are ill at ease when borrowing it; if fumbling with cash doesn't appeal to you, then master charge is for you.

Now you can charge almost anything, almost anywhere, with one card . . . master charge, and it's yours free from Suburban Trust. It's a local shopping card for local people, and an international card for the jet set, all in one.

Nothing beats it for convenience, for budgeting and bookkeeping. You receive one monthly statement with a record of your master charge purchases. So you mail just one check, or if you choose, take months to pay.

Best of all, you can even charge cash and we won't even ask you why you want the money.

He wanted to build unridable bicycle Scientist hard put to conquer inherent stability

Any parent who has spent even one weekend running alongside a bicycle while his offspring tried vainly to balance on the two-wheeled contraption might wonder at the value of a bicycle

that is designed specifically to be unridable. But, the man who has succeeded in building an unridable bicycle, David E. H. Jones, a British research chemist, has no delusions that the bike is of any use at all. "It seems a lot of tortuous effort to produce in the end a machine of absolutely noutility whatsoever," says jones, 'but that sets me firmly in the mainstream of modern technology. At least 1 will have no intention of foisting the product onto a long-suffering public in the name of progress.

Jones describes the trials of an unridable-

An important archaelogical "dig" in New

Jersey, resulting in revised theories concern-

ing the early history of the area, is the subject

of a new book by Seton Hall University anthro-

pologist Herbert C. Kraft. "The Miller Field Site, Warren County, New

Jersey" tells of Kraft's excavations and dis-

coveries at a prehistoric site located near the proposed Tocks Island dam and within the

planned Delaware Water Gap National Recre-ation Park. Kraft received grants from the

U.S. National Park service to support the

Workers at the site, including university students and volunteers, uncovered the first

Indian house pattern yet found in N.J. These and other findings dating back as much as 3,800 years contributed to a theoretical recon-

bicycle builder in "Physics Today," a publica-tion of the American Institute of Physics.

Initailly, Jones was impressed by the inherent stability of a bicycle, the feeling one has on a swiftly moving bike that it would take some doing to make it fall. So, he searched the scientific literature, largely in vain, hoping to find some scientific explanation for such arabidity. When waters the found to find the source of the stability. When nothing he found satisfied him, Jones turned to original research.

He decided that the best way to determine what made a normal bicycle so stable would be to construct an unridable bicycle and see how the two differ. Building an unridable bicycle turned out to be a much more difficult undertaking than Jones had anticipated. It took

struction of life-ways of a prehistoric people.

there prove that a certain culture, previously

assumed to have originated on Long Island, actually existed first in the Miller Field area.

Every artifact found at the Miller site is

illustrated in drawings and detailed photos

in the book, which contains more than 150 line

Radiocarbon dating of artifacts uncovered

four tries and the help of a computer to accom-

plish the feat, Jones began by testing a number of theories. One of these assumes that the wheels of the bicycle act like a gyroscope to keep the frame and rider in an upright position. He therefore attempted to counteract the gyroscopic force by attaching to the front of the bicycle a third wheel that could rotate free of the ground in a direction opposite to the normal wheels. This three-wheeled bicycle was labeled "Unridable Bicycle MkI" (URB I). It was a failure-capable being ridden as the extra wheel whirred forward or backward.

Another theory Jones worked with was that the curve in the front fork made the bicycle stable. By turning the handle bars the rider who feels that he is falling moves the point of contact with the ground to one side, in effect, putting the bicycle back underneath himself.

In direct challenge to this theory, Jones constructed URB II. a strange-looking machine with a furniture custor a mere inch in diameter serving as a front wheel. Although the castor became nearly red hot when the bike was ridden, and it could not negotiate a bump more than a half inch high, URB II was not very difficult to ride.

BUT THE CROWNING disappointment came with URB III. This creation required merely turning the front wheel mounting 180 degrees steering axis. on the

Jones relates, "I reversed the forks 'idly. of the bike and pushed it away, expecting it to

"We could start a dating bu and quit business after the first two boys sign up!

collapse quickly. Incredibly, it ran on for yards before failing over! Further tests showed that this new riderless bicycle was amazingly stable." Not only did it run by itself for a long time, but the bike righted itself in response to bumps and jolts as it progressed.

Such orneriness of the part of one machine made it clear that the problem could be solved only with the aid of another machine. So, Jones named BICYC, that would allow him to test his ideas without actually constructing another bicycle. "Armed with BICYC," Jones says, "I could now create all sorts of mad bicycles on the computer and put them through their steer-and-lean paces." After thorough analysis with the computer,

Jones constructed URB IV by moving the front wheel of the bicycle just four inches ahead of its normal position. "It was indeed very dodgy to ride, though not as impossible as had hoped -perhaps my skill had increased in the course of this study. URB IV had absolutely no selfstability and crashed gratifyingly to the ground when released at speed."

Merck lists higher sales

excavations.

Merck & Co., Inc. of Rahway this week reported first quarter sales of \$175,663,000, an increase of 12 percent over sales of \$156,403,000 for the first quarter of 1969.

Net income after taxes was \$27.284.000, or 76 cents per share of common stock, an increase of 11 percent over the \$24,561,000, or 69 cents a 2. QUALIFICATION OF BIDDERS: The share, earned for the corresponding period of 1969.

2. QUALIFICATION OF BIDDERS: The Governing Body of the City of Linder. will consider in determining the quali-fications of a bidder his record in the performance of any contracts for the construction of similar work and the Governing Body expressly reserves the right to reject the bid of such bidder, in the opinion of the Governing Body, has not properly performed such con-tract or has habitually and without just cause neglected the payment of bills of has otherwise disregarded his obliga-tiona. Henry W. Gadsden, presi-dent of the pharmaceutical and chemical firm, told stock-holders at the annual meeting that both sales and earnings for the first three months of 1970 surpassed those for any previous quarter. Gadsden said that most of

Merck's major product lines shared in the first-quarter sales advance. A noteworthy gain was made by 'Meruvax', introduced in June 1969, which was the first vaccine licensed by the U.S. government for protection against German measles (rubella),

tass otherwise disregarded his obliga-tions. The Governing Body may make such perform the ability of the bidder is perform the work and the bidder are any prospective bidder, as required, aball furnish all such informations are data for this purpose as the City Engi-neering Department may request. The Governing Body reserves the right to reject any bid if the widence submittee by, or investigation of such bidder, fails to de monstrate that such bidder is properly qualified by experience and innancial status to carry out the obli-gations of the contract and to com-plete the work contemplated therain. The foregoing shall be in addition to the provisions of R. 5, 40:50-5 which relate to the furnishing of a statement showing the bidder to receive plans and specifications to be tid upon and specifications to be tid upon and a specifications to be Scurryry; All 'Other products of Merck research contributing significantly to the sales gain in-cluded 'Aldomet', for lowering high blood pressure, and 'Indocin', for treating cer-tain arthritic disorders," he BIDS AND BID SECURITY: ALL

NCE forward together Students honor Van Houten

While some universities burn and other institutions report continued harassment, Newark College of Engineering student leaders have presented their outgoing president, Dr. Robert W. Van Houten, with a citation of appreciation for his years of effort on their behalf. Presented at the college's recent Founders

and prices

Day dinner, the student citation to NCE's president was signed by the 24 members of the student senate and read to an audience of nearly 600 faculty, staff, students and alumni by senate president Raymond A. Cassetta, At the conclusion of the citation Cassetta also presented Dr. and Mrs. Van Houten with a color television set, a gift of the NCE students.

THE CITATION SAID, in part: "This year we have witnessed a great deal of activity on our campus which reflects an involvement with the social issues of the times. The fact that the student body has been able to express its views, while at the same time continue uninterrupted in the education process, all adds up to the value of your leadership.

"We have never felt any trepidation at the We have never left any treptoation at the idea of informing you of our feelings. . we have frequently solicited your support in matters necessary to the continuing maturity of NCE. . the fact that you have been involved with us has nurthired a communication, we feel, that many other colleges would care to emulate."

The NCE student citation concluded: "Since this is the year of your retirement as president, we the members of the Student Senate, on behalf of the entire student body, would like to thank you for the concern you have shown us.

"The growth and development of NCE during the years of your administration is manifest in our campus. More important though, is the

caliber of the NCE graduate, "We are certain that every graduate of NCE is appreciative for the fine example of leader-ship you have shown. Finally then, we feel fortunate in having had you as president of the college during our term of office."

VAN HOUTEN HAS BEEN associated with Newark College of Engineering for 44 years, as a student, as a teacher and dean of the

College, and as president since 1947. It has been during his tenure as president that most of NCE's 11,000 alumni have been graduated. Under Van Houten's guidance the college has risen from a small localized school to its current place as a professional institution of international reputation and the fourth largest producer of first-level engineering graduates in the nation. Van Houten has contributed to the improve-

ment of the quality of engineering education nationally and at NCE has strengthened the institution's reputation for excellence on both the undergraduate and graduate levels.

Compound limits mosquito eggs

A team of University of Notre Dame biolo-gists may have pointed the way to a revolutionary new control of insect populations. Dr. Morton S. Fuchs and his colleagues have isolated a compound which reduces by at least 50 percent the number of eggs a female mosquito will lay. A purified concen-trated dose of the substance, they believe, will inhibit egg laying almost completely. The egg-inhibiting compound was a spin-

off from basic research into the general chemistry of mating and reproduction in mosquitoes. The faithful female mosquito will mate only

once in her life, the biologists explained, and soon afterwards deposits a large mound of eggs-far larger than she has ever deposited

before muting. The key to her fidelity appears to be a complex protein called matrone. It is found in the semen of male mosquitoes, and the Notre Dame group have demonstrated conclusively that females injected with matrone refuse to mate and never lay hatchable eggs. However, matrone will not be an immediate candidate for effective mosquito control. The delicate protein deteriorates rapidly in heat, and there are formidable distribution problems in getting the small amounts of matrone to the females.

Teenagers warm up to talent show

The Garden State Arts Center and the New Jersey Jaycees this week reported re-ceiving the first 100 entries from teenaged amateur per-former's for the 1970 Talent Expo to run this summer. The statewide talent competition, leading to a perfor-mance by adjudged finalists in the 5,058-seat Arts Center amphitheater, is open to all New Jersey residents between the ages of 13 and 18, Each winner in eight performing categories of the

Talent Expo is to receive \$200 in U. S. Savings Bonds and a trophy, while the run-nersup in the finals get a

REFUND ON OUR SYSTEMS INSTALLED BEFORE MAY 15th WITH THIS ADVERT

Entire pollution problem seen solved by single sewage-solid waste system

A single system combining sewage treat-ment and solid waste disposal, which would eliminate water pollution, produce potable water, reduce air pollution by avoiding incineration, and cost no more than current biological treatment, is proposed by a Purdue University sanitary engineer, according to Chemical and Engineering News, a weekly publication of the American Chemical Society. "Many people think of pollution in terms of

solving specific types of pollution problems -whether they're concerned with air, water, or disposal of solid waste," says CNEN. "How-ever, Purdue's Dr. James E. Etzel points out that often a solution for one can aggravate one or more of the others.

"The Etzel system uses no new technology, but it does introduce new methods into pol-

lution control. A hydropulper (similar to those used by the paper industry), reverse osmosis, and extensive use of pipelines are notable

features of the system. "The hydropulper is used to grind up solid wastes. Glass, wood, bones -- everything but metals -- are reduced to sand-sized particles. Metals are reduced to chunks the size of golf balls. The centrifugal process throws the metal chunks to the sides of the hydropulping tank, where they can be removed, sorted, and reclaimed."

DR. ETZEL MAINTAINS that his system can be used in conjunction with existing biological water treatment programs, which con-sist primarily of removing undissolved particles by sedimentation and filtration, and

PUC cites

U.S. report

in water bid

Commissioner Brendan T.

Byrne of the N.J. Board of Public Utility Commissioners

this week cited a report by the

Federal Bureau of Water Hy-

giene to support the PUC's

request for state regulation of government-owned water

The report, reprinted in the

May 2 issue of the Saturday Review, rated 12 government-

owned municipal water sys-tems in New Jersey as sub-

standard, They are Bayonne,

Camden, Deepwater (Lower Penns Neck Twp.), Hoboken,

Jersey City, Kearny, Newark, Paulsboro, Perth Amboy, Westville, Woodbridge-Se-

Westville, Woodbridge-Se-waren and Wrightstown, None

of the private systems regu-lated by the PUC was rated as sub-standard.

mission, in a decision released Jan, 6 had urged

"the enactment of appropri-

ate legislation to give it full jurisdiction over all govern-

ment-owned water systems rendering service within the

that "the seriousness of the deficiencies cited by the Fed-

eral Bureau should be suf-

ficient evidence that custom-

ers of government-owned sys-

tems are not as well

protected as customers of

private systems. The custom-

ers of municipal systems are treated as second class citi-

zens because they have no recourse to any regulatory

agency with respect to rates and service."

Byrne commented this week

The Public Utilities Com-

systems.

state."

killing bacteria by oxidation or chlorination. He suggests that sludge from the sedimenta-tion tanks of the sewage system be used as the liquid in the hydropulper. Since the hydro-pulper and contents are heated to 180 degrees Fahrenheit, the resulting slurry is free of disease - causing bacteria. Once the metal chunks have been removed, the slurry is carried away by pipeline to be used for landfill. The water which passed through the sedimen-tation tanks is 90% pure after biologicaltreatment, but still contains dissolved impurities, mainly inorganic in nature. Since new Federal pollution control regulations demand that in-organics be removed from sewage, the remaining 10% impurities are concentrated by a roverse osmosis unit and added either to the hydropulper or, after disinfection with chlorine, to the slurry being piped for landthe fill. Eighty percent of the sewage plant input becomes pure, drinkable water, according

for his system are: (1) solid wastes are brought directly to the sewage treatment plant rather than to a remote site, reducing long-haul costs, (2) the bulk handling problem is reduced since the slurry is only about one-third the volume of refuse, (3) sludge handling is eliminated, halving the cost of sewage treatment, (4) the total capacity of existing sewage treatment plants is increased by dicineration in or near metropolitan areas is avoided, and (6) wasteland can be converted into arable land.

"THERE IS ENOUGH WASTELAND, Dr. Etzel claims, to handle the final slurry with-in 100 miles of every metropolitan area in the U.S.," C&EN continued. "For a popula-tion of 10,000 people, 40 acres of land are needed to dispose of the slurry, which is the total sewage, sludge, and municipal refuse for the population. The slurry would be applied depositing the organic material, would penetrate the ground and, flowing latterally, act as irrigation for the crops in alternate rows. Dr. Etzel estimates land surface buildup at

Eventual replacement of biological treatand piped for landfill.

The city of Indianapolis reportedly plans to try Dr. Etzel's system on a pilot basis as

Enter the new breed of knits (they breed excitement)

Time was, knit shirts were very nice and comfortable and casy-going. And very uninteresting. No more. Our newest collection sports excitement all the way. The unusual stripes. The new wide flaring collars, high-cuffed sleeves and ringing colors. Even the classic Arnold Palmer sweaters are spiced with Today tones. Meet the new breed. It's your kind of thing.

Terminal marks day with displays

to Dr. Etzel.

Among the advantages claimed by Dr. Etzel verting sewage to the hydropulper, (5) in-. . .

the population. The slurry would be applied to alternate-strip crop land. The water, after 0.05 foot per year, so the same 40 acres could be used for many years.

"Even if the product slurry were used in conventional sanitary landfill sites, it would more than double the capacity of the site because the material is free of voids and more than twice as compact as untreated refuse. Also, since there would be little or no edible material in the slurry, the rat control prob-lem would be greatly reduced."

ment of sewage is proposed by Dr. Etzel, according to C&EN, by placing hydropulpers at stragetic locations throughout a metropolitan area and using sewage to hydropulp solid wastes. The resulting disease-free slurry would be conveyed by trunk sewers to the treatment plant where heavy particles would be allowed to settle out before the liquid was subjected to sand filtration and reverse osmosis. Slurry from the latter process and from sedimentation would be combined

soon as possible.

Mountainside marks Saturday for Fire Service Recognition

The following statement in observance of Fire Service Recognition Day was issued this

week by Mountainside FireChief Ronald Huter: "May 9, or the first Saturday in May, has been officially proclaimed Fire Service Recognition Day by the International Fire Chiefs Association, the Eastern Chiefs As-sociation and the N.J. State Chiefs Association,

"At the last council meeting of April in the Borough of Mountainside Mayor Thomas J. Ricciardi proclaimed Saturday as Fire Ser-vice Recognition Day in our borough,

"All churches, business and social clubs All churches, business and social clubs and civic groups are asked to take this op-portunity to remind their members, and pass the word along to their friends, relatives and business associates, that this week is the week and Semidau is the aligner of the first week and Saturday is the climax of the first year

and saturday is the chinax of the first year of fire service recognition. "In a survey made by Kemper Insurance in 1969, the records indicate that five fire-men lost their lives to one of any other type of emergency service, This certainly is an indication the recognition is justified and that public recognition of the facts be accom-plished, At this time, Chief Huter is working with Kemper Insurance to promote a slogan that was originated in the Mountainside Volunteer Fire Department as a result of industrial fires in nearby cities in which several firemen lost their lives unnecessarily at each conflagration over the last 10 years.

"THE SLOGAN originated at that time and officially adopted three years ago is, 'The fire service risks lives to save lives. inference being to save lives, we will risk lives. You could possibly excuse the number of lives lost by saying it's a very hazzardous job from the fire call to the extinguishment and return to quarters everything back to

"No one knows anymore that we of the fire service the hazards involved, but I feel that until the people in all walks of life recognize this a join in and help by respect to fire equipment on the roads, streets and at the fire scene our lives will always be in jeopardy.

'The fire service needs recognition, but more than that it needs the support of everyone, so let's talk it up. Let's recognize the facts as they are, "First, let's start by putting these ideas

into practice in our homes or business whether your business is in our town or not. The second slogan adopted by our fire department and most departments, 'Make every day fire prevention day,' includes maintenance, up to date electrical wiring and twice-a-year re-view of all electrical equipment, watch their application and use careful smoking habits and handling of flammable materials of any type. "Secondly, let's take a good look at what

buy, Unfortunately, manufacturers will make anything that the public will buy for a profit to them, for this we are sorely in need of legislation, which needs your prayers and pressure to become enacted,

There are clothes, from the baby to the infirmary, that are flammable. New synthetics, hit the market continuously, know what you buy before you buy it, But more than that, take the time to write to your senator and congressman and let him know that you are concerned because there are no flammable controls in effect,

"A federal safety law passed by Congress and signed by President Johnson in 1967 has never been put into effect, Why? The but was never funded. Ask your assembly-man or congressman why. Make an effort to find out, but until there are controls, it's up to you, the consumer, to buy clothes that don't make you or our families a human torch or our homes or furnishings and our places of business a flamming coffin.

"A REALISTIC look at the lack of con-trols and the very fine line of the right to expression which makes law enforcement officials reluctant to prosecute has caused fire losses far in excess of normal proportions, "The lack of clarification of 'the handling of hazardous materials' by the Department of Transportation, the successor to the Interstate Commerce Commission, has the trucking industry confused and even more so service on the proper handling and labeling. This is another area in which the fire service needs recognition in these problems.

"The sprinkler standby bill, which would indeed be one of the greatest single contributions to the fire service recognition program, needs your support. A resolution to determine the advisability and feasibility of a fire marshall in this state could possibly channel and solve a great many of these details which presently are going unattended ---Assembly resolution is: give it your support, please.

"Fire Service Recognition Day is the end of one year's program and the beginning of another. Help us help you, Give this program your support,"

Dramatic classes to present yearly variety program

The annual student variety show at Jonathan Dayton Regional High School, Springfield, will be presented today at 8:30 a.m. and tomorrow at 2:15 p.m. in the school auditorium. The program is being presented by Joseph Trinity's dramatic classes with Mitchell Wolff as master of coremonies. He will be assisted by Ioan Gurian.

Today's performances will include intona-tons by Ruth flowell, Synthia James and Veron-ica Lee; a piano solo by Sherri Moreines; guitar playing and folk singing by Judy Glueck and Jeff Kampf; a modern dance by Susie Chin; acrobatic doings by Karen Haberberg; songs by Kraft-Gretchen; folk songs with guitar by Lucille Hardgrove; a tap dance by Tina Senet, and songs by Ted Rosenkrantz, Bernie Perl-man and Jed Beitler.

Tomorrow's performances will include in-tonations by Ruth Howell, Synthia James and Veronica Lee; a piano solo by Sherri Moreines; Polish Minstrells by Alex Niwa, Karl Mende and George King; a plano solo by Caryn Groder; songs by Judy Orbach; folk songs by the 'Chickens," including Barry Mitterhoff, Dan Weiss and Mike Chotiner, and songs by Susie Denner and Amy Hertzoff. The finale will be com-posed of three rock groups, "Featherstone," "Bosworth Frump" and "Cohen's Cids."

Garden Club plans Tuesday meetina

The Mountain Trail Garden Club will hold its monthly meeting on Tuesday at the home of Mrs. George Buchan, 341 Ackerman ave., Mountainside. Co-hostesses will be Mrs. Howand Rhodes and Mrs. John Suski.

Preparations will be made for the Mountainside jubilee flower show, 75th anniversary, to be held on May 26 at the Mountainside Public Labrary. Mrs. Edward Powers is chairman of

the show. Mrs. Douald Lugannan will place a flower arrangement in the library this month.

for Jorah fund-combined campaign, which aids the Jewish Theological Seminary of America. Entertainment will be provided by Cantor Theodore Aronson of Temple Sharey Tefilo in East Orange, For further information, readers may call Mrs. Rudolph Bamberger or Mrs. Harry Schneider, co-chairmen for the project.

ioin encampment

Mountainside Junior, Cadette and Senior Scouts of Washington Rock Girl Scout Council held an encampment recently at Camp Lou Henry Hoover, Middleville, All troops were represented by the 195 Scouts and 21 adults.

Junior troops were based at the Hoover staff house, the infirmary building and three platform tent units. The Cadette and Senior Scouts also used platform tent units. All Scouts prepared their meals outdoors, and each troop worked on badges of its own choosing. Individual troop campfires were held on Friday night, and an all-troop campfire on Saturday evening. Scouts at all levels took part in a "Wide Game" on Saturday afternoon, and in a "Scout's Own" on Sunday

received.

afternoon. The general theme of the week-end was "international" and on Saturday night, each troop presented a skit depicting various countries. In addition, each of the Scouts was offered the opportunity to attend a religious service of her choice over the weekend.

The encampment was planned by Mrs. H. F. Panagos, assisted by Mrs. Paul Smith.

Reading group to hear

talk by Chatham doctor Dr. Catherine Spears of Chatham, neuro-pediatrician, will be the speaker at the spring meeting of the Suburban Council, International Reading Association as the Council, International Reading Association, at the Gaudineer School

in Springfield Tuesday. Members of the council include Mrs. Harry Lake of 1424 Orchard rd., Mrs. Thelma Cote of 343 Rolling Rock rd. and Miss Jeanette Turley of 368 Cherry Hill rd., all Mountainside.

2 shopper cars rifled

Cars parked at Saks Fifth Avenue were tempting targets for thieves last week, according to Springfield police. Mrs. A. Carney of Short Hills reported that her car was parked in the lot during the day of April 28. When she came out she found that her car radio and stereo were missing.

missing. Theodore Nalikowsky of Newark reported that he had parked his car in the lot on April 30 to do some shopping. When he came out around 9 p.m. he found that a black case containing hisdriver's license and registration was missing. A resident on Briar Hills Circle, Springfield, called police to report that two tires and rims were taken from his garage. He also reported that his wife's charm bracelet valued at about \$160 was missing.

Cyclist, 8, is injured

Mark Napier, 8, of 89 Linden ave., Springfield, was injured Sunday afternoon when his bicycle hit a parked car in the lot belind the Grand Union in the General Green Shopping Center, according to Springfield police. Police said Allen M. Musko

Police said Allen M. Musko of 42A Wabeno ave., Springfield, pulled between two parked cars to park behind the Grand Union. After Musko had parked the car, the boy reportedly rode up on his bicycle—not seeing the car. Mark then hit the right-hand door of the car and fell to the blacktop, striking his head on the pavement, according to the reports.

The boy was taken to Overlook Hospital, Summit, by the First Aid Squad, He was treated for bruises on his scalp and released.

Low fat menus urged Heart Association gives diet tips

The woman in the kitchen is in the important position of being able to give the most precious mother's day gift of all -- the gift of better health and longer life to her loved ones. She can do this, says the Union County Heart Association, through improved dietary habits.

This will call for some changes in daily meal planning. The aim should be to cut down on foods rich in animal (saturated) fats and cholesterol in the blood. High blood cholesterol has been linked to development of atherosclerosis, the disease which underlies most heart attacks.

To achieve this aim, Mom can serve more meals of fish, chicken, veal and turkey, and less beef, lamb, pork and ham. She can substitute skim milk for whole milk, and hard cheese with cheese products made from skim milk.

Instead of using butter for a spread, Mom can serve the soft margarines that are rich in polyunsaturated fats, the Heart Association says.

says. Similarly, rather than using lard and other solid cooking fats, the housewife can substitute the polyunsaturated vegetable oils. The

latter can be used, for example, to brown lean meats, or to fry fish and poultry; in cream sauces and soups made with skim milk; for making hot breads, pie crusts and cakes; for making cocktail snacks and in cooking dehydrated potatoes and other prepared foods calling for the addition of fats.

The menu should also include vegetables, fruit, breads and cereals. The mother who follows the Union County Heart Association's advice can maintain good nutrition for her family and help them adopt new eating habits that are designed to protect their hearts.

Practical nurse course initiated

A new course for practical nurses presently licensed by waiver has been initiated at Union Gounty Technical Institute with clinical practice provided at Elizabeth General Hospital. The first phase of related instruction, comprising pharmacology and basic nursing practices, has recently been completed at the institute.

Since many of the nurses work during the day, classes are held at the institute two evenings a week. They will also spend 43 Saturdays at the hospital for a full day in clinical instruction. At the end of the course, the students will be eligible to take the state practical nurse examination.

The course is funded by the Vocational Division of the N.J. Department of Education. There are two such programs in the state,

Mise the other in Momouth County. Mrs. Helen Boettger, R.N. of the South Plainfield Public School System is instructor. Mrs. Lily Bierstein, R.N., director of nursing at Elizabeth General Hospital, and Miss Teresa Zydzik, R.N. are in charge of the clinical

LAW DAY -- Albert L. Kessler of Union (right), chairman of the New Jersey State Bar Association's Law Day committee and student representative Linda Politowicz were on hand April 27 in Trenton when Gov. William Cabill signed the proclamation naming last Friday as Law Day in New Jersey. New Jersey's Law Day is part of a national program established in 1958 by Presidential Proclamation. The program's purposes are to foster respect for the law and to increase public understanding of the place of law in American life. This year's theme was "Law-Bridge to Justice."

Walker to be speaker at Men's Garden Club

J. Paul Walker will give an illustrated talk on "Things I Have Observed in Nature" at a meeting of the Men's Garden Club of Westfield in Loomis Hall, First Congregational Church of Westfield. at 8 p.m. Tuesday.

Walker, former supervisor of audio-visual aids in the Linden school system, spends his summers on a farm in Pennsylvania and his winters in Linden.

Students, teachers can study the stars at summer session

Summer institutes in astronomy will be conducted for selected high school students and teachers at the William Miller Sperry Observatory at Union College, Cranford, from June 29 through Aug. 7, it was announced this week by Richard J. Selcoe, director of the college's division of Community Services.

The six-week institute for students is open to next year's high school seniors. Students are expected to have had two years of mathematics and one year of a lab science, Classes for students will be conducted Mondays through Fridays from 8:30 a.m. to 10 a.m.

The institute for teachers will be offered Mondays through Fridays from 10:30 a.m. to noon. Night observation classes will be scheduled for both groups.

The primary aim of the student program, according to Patrick White, director of the institute, will be to explore the scientific interests of the students, provide him the opportunity to learn about and munipulate the equipment available at the observatory and to offer him the opportunity to delve into some aspect of astronomy through an individual project related to his special interest. The in-service training program for

The in-service training program for teachers is designed to acquaint them with the basic concepts of astronomy and space science, White said.

White said, "The discoveries made in space science," White stated, "has advanced the body of knowledge in this field and stimulated student interest. The institute at Union College will permit teachers to meet the challenge these advances have created in the classroom." Brochures on both summer institutes in astronomy can be obtained by writing to: Director, Division of Community Services,

Jones gives tips on how to speed up Social Security

Union College, Cranford 07016.

Do you think the government is pretty fast when it collects your money, but slow on the draw when it comes to paying you off?

Ralph W, Jones, district manager of the Elizabeth Social Security Office, this week suggested a delay in Social Security payments frequently is not the government's fault. "If you are slow in submitting necessary evidence, your claim can encounter a long delay," he said.

"If, however, you bring needed documents with you on the day you complete your application, weeks can be saved on the processing time.

"If you are going to apply for checks or for Medicare, you should obtain a birth certificate or baptismal record," Jones said, "If neither of these documents is obtainable, other evidence, such as a school record, marriage license, census return, or old insurance policy can be used to establish your age,"

can be used to establish your age." Jones said "it is very important for you to also bring a Statement of Earnings - Form W2 ' for 1969 if you were an employee, or a copy of your 1969 Tax Return if you were selfemployed. This evidence is needed to credit you with your earnings for last year. Earnings for previous years are already credited to your record."

Jones emphasized, however, that you should not delay filing an application "just because you do not have in your possession the evidence mentioned. If necessary you can complete your application and submit the evidence at a later time."

Jones urged anyone who wants information about Social Security to contact the Elizabeth office. Interviewing hours are from 9 a.m. to 5 p.m. Monday through Friday, with evening hours each Thursday until 8. The telephone number is 351-3200.

'Sacrifices' theme of Bible convention starting May 22

The 16 congregations making up N. J. Circuit No. 5 of Jehovah's Witnesses, with a total membership of approximately 1,600, will hold a weekend Bible convention at the David Brearley Regional High School, Kenilworth, May 22 to 24, it was announced this week by Ralph R. Hoppe, presiding minister of the Union congregation. The theme of the convention will be "Sacri-

The theme of the convention will be "Sacrifices that Please God" (Heb. 13:15). A discussion of the theme at 7 p.m. Friday will mark the initial appearance of Christian H. Weining, featured speaker and convention chairman.

weining, realisted speaker and convention chairman. Mr. Weining has been active in the ministry for the past 24 years, and for the last 12 of these has functioned as a traveling circuit and district supervisor for the Watchtower Bible and Tract Society of Brooklyn, N.Y., sponsors of the convention. His present district assignment covers all of Connecticut and parts of New York, Pennsylvania and New Jersey, a territory encompassing about 180 congregations of Jehovah's Witnesses with the total membership of approximately 16,000. Assisting Mr. Weining will be Charles W. Blalock, a circuit supervisor for the Union area. Ralph R, Hoppe, presiding minister of the Union congregation, will have oversight of the 21 departments making up the assembly organization.

The conversion will have oversight of the 21 departments making up the assembly organization. The climax of the three-day assembly will take place Sunday at 3 p.m., when Mr. Weining delivers the Bible discourse, "Withstanding the Pressures of Our Day."

The convention, with sessions beginning at 6:45 p.m. Friday and concluding at 6 p.m., Sunday, is open to the public. No collections will be taken.

Weiss to represent NSC at UC rites

Dr. Nathan Weiss, president of Newark State College, Union, will represent the college next Wednesday at inaugural ceremonies installing Dr. Kenneth W. Iversen as the second president of Union College, Cranford.

The academic procession will include delegates from two-year colleges, four-year colleges and universities, delegates from each of Union College s35 graduating classes, members of the Board of Trustees, Board of Fellows, the Union County Coordinating Agency for Higher Education, the Council of Educational Advisors, the faculties of Union College and Union County Technical Institute, Scotch Plains, and members of the Day and Evening Student Councils.

The Inaugural Ceremonies will be held at 3 p.m. on the East Lawn between the Nomahegan Building and the Campus Center on the campus in Cranford. In case of rain, the ceremonies will be held in the theatre of the Campus Center.

tional tour, the Maid travels with a 'round-the-clock wardrobe of high fashion cottons. It includes pantsuits, coats, afternoon dresses, cocktail ensembles and formal evening

Outfits are gentley shaped and feminine, with skirts that are A-shaped, gathered, or swinging with inverted pleats. Belts, placed high or slightly above the waistline, accent almost every style.

While silhouettes are soft. fluid and uncluttered, the fabrics are sharply defined in eye-catching prints that come

STRAWBERRY PARTY CHEESECAKE -- For a really special occasion, you will want to serve this Strawberry Party Cheesecake. Made from unbaked cheesecake, it has all the qualities you expect in the finest of cheesecakes - smooth creamy texture, long-lasting cheese flavor. (Courtesy of Jell-O Cheesecake).

Berry-beautiful cheesecake

Glistening with jewel-like chill for 15 minutes, Meanstrawberries, promising creamy smooth texture, longlasting cheese flavor - what could it be? A cheese cake, naturally. But never before has there been such a cheese-cake! This one, easy to make with Jell-O Cheesecake, would be a super-glamorous dessert for a spring buffet dinner or a bridal or baby shower. Since the mix itself is so easy to prepare, it can be perfect spur-of-the-moment dessert --- it's ready to serve after chilling for 1 hour. Here's how it's done: Take the contents of the crust mix pouch and blend it with sugar and butter or margarine; press over the bottom and

while, blend the filling mix with cold milk and beat until thick. Pour the mixture into the chilled crust and chill an additional hour.

For the Strawberry Party Cheesecake with its superb glaze of strawberries, you use two packages of the un-rected on package, using a 9-inch square pan and pressbaked cheesecake to fill a 9-inch spring-form pan. For the glaze, just cover the top with fresh strawberries (or blueberries) and brush on melted currant jelly to glaze. Strawberries and cheese-

cake combine in another way in delicious Jellied Straw-

berry Cheesecake. Here the sides of an 8-inch pie pan; strawberries are in a layer of strawberry flavor gelatin, and are topped with the cheesecake, making a distinctive layered dessert that would be an excellent choice for a contribution to a potluck sup-

JELLIED STRAWBERRY

CHEESECAKE package (10-3/4 oz.) un-baked cheesecake

1 pint (about) strawberries, halved l package (3 oz.) strawberry flavor gelatin

1/4 cup sugar 1 cup boiling water

1/2 tray ice cubes (7 to 10, depending on size) Prepare cheesecake as diing crumb mixture only over bottom of pan. Arrange straw-berries in a single layer over cheesecake. Dissolve gelatin and sugar in boiling water. Add ice cubes; stir until gele-tin is slightly thickened. Remove any unmelted ice. Spoon gelatin over strawberries. Chill until firm--about 1-1/2 hours. Makes 9 to 12 servings. Alternate Baking Pans: This cheesecake may also be prepared in a 9-inch spring-form pan or a 9-inch glass layer

STRAWBERRY PARTY CHEESECAKE 2 packages (10-3/4 oz. each) unbaked cheesecake

6 tablespoons sugar 1/2 cup butter or margarine, melted or softened

and cooled

cups milk 1 pint fresh strawberries, halved 1/2 cup currant jelly, melted

Technology in food industry adds wholesomeness, appeal

By MARY LEE Today the big hue and cry throughout the land is all about pollution and the horrors of the population explosion. So, just to keep a little balance, it might be wise to take a look at some of the good things about this country of ours. Recently a major study on the progress of our technological society concluded with this statement: "Without technological progress since the 19th century, most men alive today would not have been born. And those alive would have been sentenced to disease, filth, and greater misery than exists now."

Let's take the progress made in just the food industry since the turn of the century. For example, what happened to the old-fashioned cracker barrel, the casks and containers that ringed the old coal stove in the village general store?

They've been replaced with an amazing array of packages—clean, convenient, attrac-tive, and designed to hold the widest variety of food stuffs ever imagined. In some of our big supermarkets there are more than 7,000 food items on the shelves.

What's more, new discoveries in nutrition in the last 30 to 40 years have brought about a dramatic change in foods. Bread, rice, cereals, milk are among the foods that have been enriched or fortified, and at low cost to help in the prevention of deficiency diseases. Improved packaging and food additives help to maintain the wholesomeness and appeal of foods. They also make foods from around the world available the year around in fresh,

Galleries are 'in' for decorating

The rule that walls are to be decorated with one or two paintings, or a mirror, has gone the way of many other decorating rules; out the win-

dow. One of the newest decorat-ing "ins" is the gallery wall. Blank walls are being con-verted into veritable galleries with collections of objets d'art that can range from framed paintings to decorative mir-rors, clocks and sconces.

Galleries are not limited to living room walls. The trend is also popular for hallways, bedrooms, reception areas, dining room; even bathrooms and stairways. Some suggestions are: Combine different shapes

for more pleasing effect. Strive for variety by mixing large paintings and prints with a number of smaller accessories. Mix pictures and

plaques. Select from different sources and styles for a pleas-ing eclectic look. However, if you are displaying fewer than five pieces, such as on a small wall area in a hallway, it is

better to keep them within the same general mood, Don't forget clocks and mir-rors which can be very attractive to the complete gallery wall,

Work out your display ar-rangement on the floor before hanging. Finally, keep your gallery wall alive by adding to it, or changing from time

to time. Museum postcards are a good source for small prints, and don't overlook the possi-bilities of UNICEF calendars: each contains a selection of 12 prints representing some of the world's outstanding artists.

To Publicity Chairmen: Would you like some help in preparing newspaper releases? Write to this news-

frozen or canned forms, Iowans can enjoy oranges from Florida, blueberries from Michigan, peaches from Georgia, People in Arizona can try lobster from Maine and salmon from the Northwest, while New Englanders can sample cantaloupe from Colorado, beef from Texas, and lemons from California. Needless to say, the wonderful improvements in refrigeration have added to this unlimited selection, too.

In great measure the people who make all this possible are food technologists, But Americans will continue to enjoy foods that are plentiful, varied, nutritious and safe as the combined research of the engineering, agricultural and chemical sciences contributes to the well-being of the nation,

PS petitions to issue, sell new stock series

Public Service Electric and Gas Company has filed a petition with the Board of Public Utility Commissioners of New Jersey for authority to issue and sell 350,000 shares of a new series of cumulative preferred stock (par value \$100 per share). It is expected that the shares will be offered to the public in mid-June through underwriters, on a negotiated basis,

The proceeds from the sale will be used for general corporate purposes, including the pay-ment of a portion of construction costs.

tives.

Governor William T. Cahill announced this week the state has contracted with three re-search firms to help evaluate New Jersey's Motor Vehicle Inspection Stations.

The firms are: Operations Research Inc., Silver Springs, Md.; OR/MS Dialogue Inc., New York; Opinion Research Corp., Princeton, Cabilly and the second secon Cahill said the contracts result from the administration's desire for independent professional advice to resolve the inspection station controversy while not compromising safety. Director Ronald M. Heymann said he is giv-

ing the matter top priority and expects to have an early report by the end of Junc. "In accordance with the Governor's order to evaluate the inspection system we searched for neutral third parties to give us independent

"The firms we have hired are attacking the problem on three fronts," Heymann said, DIALOGUE INC. will conduct a two-phase

Labor Department predicts a surging economy in 1980

WASHINGTON -- The profile of an economy with 100 million workers - producing 60 percent more goods and services for Americans in 1980 than in 1969 - is presented in new projections released by Commissioner of Labor Statistics Geoffrey H. Moore.

These projections - covering productivity, gross national product, employment, and labor force -- represent a comprehensive effort by the Labor Department to help industry, government, and the educational community plan for the manpower challenge in the decade ahead, These projections by the Bureau of Labor Statistics and their implications are discussed in the Monthly Labor Review, Among the findings are:

--Half of growth in the labor force will be among young workers, age 25-34. The Negro labor force will increase by one-third. --The labor force participation of women

slightly slower pace than in the 1960s, will increase 3 percent a year. --Industry employment will have continued to shift toward the service industries, in-

cluding trade and government. --Occupational employment will have con-tinued a long-term shift towards the whitecollar occupations and those requiring the most education and training.

The article is a preview, limited for the most part to the major sectors of the economy. A more complete summary bulletin containing additional statistical detail covering employment in over 250 individual industries and detailed occupations will be published in the late spring. Further publications and articles will present more refined analysis and more detailed information on the various methodo logies followed.

- The educational level of the labor force will rise substantially. - Productivity, advancing steadily if at a FRIDAY DEADLINE FRIDAY DEADLINE All items other than spot news should be in our office by noon on Friday.

Costs of medical care

up a third in five years erly protect against such costs. "The best way to keep down

the cost of accident and sick-

ness insurance is through the

proper use of deductibles. Un-

der major medical expense

insurance, deductibles may range from \$50 to \$1,000 or more. In most cases, those

who have good basic hospital-medical-surgical expense in-

surance should take the

highest possible major

medical deductible.

"Medical care costs have increased by about 32 percent in the past five years," the Insurance Brokers Association of New Jersey said this week, 'and they took another big jump May I when Blue Cross and Blue Shield rates increased again. About one half of all New Jersey residents are covered by Blue Cross and Blue Shield."

The association said "These costs include bills for hospital, convalescent and nursing home care, the charges for doctors, anesthesiologists, surgeons, nurses, and drugs, and also the costs of mental illness and psychia-

Miss Coca at Meadowbrook provides a lift for the spirits

By BEA SMITH "High Spirits," the musical stage comedy at the Meadowbrook Theater, Cedar Grove, is a thoroughly enjoyable show, and what makes it so wildly funny is a petite ball of fire, one of the zamest comedicanes in show business, Miss I mogene Coca.

The Theater Seen How Much? How Much? opens at Provincetown

By ROBERT LYONS

When an off-stage Mafioso is called Bombo Laminetti and an on-stage loan shark has the middle name Elfin, the play should be more funny, Peter Keveson's genre-fantasy at the Provincetown Playhouse goes flatly serious too often. More's the exasperation because the idea is a mini-beaut-something Fredreich Duerrenmatt might scribble out at a festival he is attending to fill a tiny theatre for six days. A brilliant young man organizes a destitute family into a smooth underworld operation trafficking in aspirin and pornography. His plan is to show his criminal attorney father the immorality of representing big time gangsters, The entire first act is spent on exposition with no real beginnings toward inter-relationships and the play is essentially irretrievable by the time the audience scrambles for a piece of sidewalk and choice of tobacco. Rehearsal re-write seemed to opt for short-

ening, rather than sharpening the lines. Best moments result in the giddy dignity the flourishing enterprise brings to the family. Since one month intervenes between acts a touching recognition scene between the boy and the un-corrupted family daughter happens too late.

Miss Coca (bless her for providing moments of sheer agonizing joyl) is well supported in the show that is based upon "Blithe Spirit" by Neel Coward (with music, lyrics and book by Hu h Martin and Timothy Gray), Her role of Mistame Arcati, the outlandishly dressed Incluse, is complemented by those of David Danets, who plays Charles Condomine, whose dece sed first wife (Caroline McWilliams) is dece sed first wife (Caroline Mewilliams) is brought back from the spirit world by Madame Areati, Miss McWilliams and Donna Sanders, Charles Condomine's second wife, Veronica Castan, has a real zeal for comedy as she underplays her role of the maid.

The implish Miss Coca cavorts about the stage, travels by bicycle, holds scances, uses her (11]A board for her "information" and brings back spirits she cannot return,

The others in the cast are excellent including Ronnie Cunningham, Larry Swansen, Judie Elkins, Elizabeth Hines, Connie Gillas-pie, Merv Crook, Richard Hall and La Rue Watts.

Stuart Bishop does a fine job of directing, Shart Bisnop does a fine job of directing, and although the music is not memorable, it is nevertheless plentful and entertaining. "Then Spirits" will remain until May 24, but don't wait until then to see it --- particu-

larly if you need a laugh or two after a very trying life. This viewer will guarantee that you'll leave "High Spirits" in very high spirits.

OSCAR NOMINEES--- Jon Voight, who plays the title role in "Midnight Cowboy" (which won the Oscar for Best Picture of the Year) shares acting honors with Dustin Hoffman, in his first movie role since "The Graduate." Both were nominated for best Actor Oscars. "Midnight " is being held over for a second week at the May-Cowboy fair Theater in Hillside. The associate feature is "Stiletto," starring Alex Cord and Britt Ekland.

Ostrow to appear Allen Funt film

Ron Ostrow, songwriter, poet, guitarist and teacher will appear in a concert tomorrow evening at 8:30 at Theatre Six, Main street and Route 27, Metuchen. Ostrow lives and works in Piscataway in the Ostrow Folk Music Studio where he teaches folk guitar, song, poetry and drums.

Theatre Six will present The Pixie Judy Troupe Saturday at 1 p.m. and 3 p.m. The troupe, which will feature Buf-falo Bill and Annie Oakley characters, has presented more than 10,000 perfor-mances of 18 different musical comedies. Additional information may be obtained by calling the the-ater at 548-2550.

on Metuchen stage Ron Ostrow, songwriter, "What Do You Say to a Naked Lady?," Allen Funt's first full-length motion picture, came to the Maplewood Theater in Maplewood yesterday. The film, photographed in color, is rated X and is for adult audiences only. The Maplewood will show a

matinee feature for kiddles Saturday and Sunday, "Long John Silver Returns to Trea-sure Island."

said, could be used for the manufacture of certain specialty products, such as pharmaceuticals, which de-veloping countries now im-port; and for the production of protein supplements; to correct health problems caused

by poor mitrition. Professor Gaden, a chemical engineer at the Columbia University School of Engineering and Applied Science, and an inter-nationally-known expert in the field of biotechnology, recently was chairman of a special panel of scientists and engineers convened in Vienna by the United Nations Industrial and Development Organization.

The UNITXO panel confirmed the possibilities of the process, and was asked to serve as a consultative group to help emerging nations improve their fermentation industries. The fermentation process, Professor Gaden explained, is so versatile that it is industrially adaptable to almost all countries. The equipment needed is simple in both design and construction, and the process utilizes farm products which are commonly available. For those reasons, it is particularly helpful as a first step in a country's development.

Fermentation, used in brewing wine and cheese making since ancient days, is the chemical transformation of one substance into another through the action of microorganisms.

Fermentation products in-clude such things as yogurt, yeast, sour cream and sauer-kraut, as well as alcohol in countries where cane and beet sugars are plentiful, Fermentation is particu-larly important in the manufacture of antibiotics (such as pencillin), vitamins steroid hormones. and

In a significant de velopment, microorganisms are also being employed to produce protein from such commonly available substances as urban waste, petroleum, and bagasse (a sugar cane cellulose residue), at a lower cost and higher efficiency than protein ob-tained from the usual fish,

animal or plant sources. In some of their current research at the Columbia University Engineering School, Professor Gaden and his colleagues are working on the design of microbiological processes for the production of this kind of microbial or single-cell protein, known as SCP.

FRIDAY DEADLINE All items other than spot news should be in our office by noon on Friday.

Jupiter described as planetary lab

The planet Jupiter is composed primarily of hydrogen and helium and is thus very much like a star in its chemical composition; in particular, very similar to our special star, die sun.

According to Dr. Tobias Owen of the Illinois Institute of Technology in Chicago, this glant planet in its present state of development may be a type of solar fossil retaining the relative abundance of chemical elements in its make-up that existed in the primordial nebula from which our solar system was formed,

This possibility has interest beyond its cosmological significance from the standpoint of theories of the origin and evolution of life. It is commonly agreed, writes Dr. Owen in Science, that life originated on the earth under conditions very different from those we know today. The primitive atmosphere of the earth may have been composed mainly of methane and ammonia-gases that are known to exist on Jupiter. Experiments in which electrical sparks are

sent through mixtures of methane, ammonia, and water vapor (and it is now virtually certain that there is water on Jupiter) have led to the formation of complex organic compounds that are considered essential pre-

cursors to the development of life. ' Jupiter, says Dr. Owen, may be offering science a giant natural laboratory in which these prebiological organic chemistry experiments are spontaneously going on, again and

FDU shows facsimilies

of Islamic calligraphy

An exhibit of facsimiles of monumental Islamic calligraphy from the seventh century to the twentieth century will be on display in the main hall of the Mansion of the Florham-Madison Campus of Fairleigh Dickinson University until May 16. The exhibit is open to the public Monday through Friday from 9 a.m.

to 9 p.m. The facsimiles, made by Tosun Bayrak, assistant professor of art, were made from originals from the Turkish-Islamic Art Mu-seum and the Topkapi Palace Museum in Istanbul, Turkey,

Art museum to show film

A public showing of the film, "The lvory Knife," about the painter Paul Jenkins, will be given at the Montclair Art Museum on Sunday, Admission is free. The film will be shown at 2:30, 3:30 and 4:30 p.m. in the museum's upper

gallery. "The lvory Knife" is part of a series of special programs being presented to ex-plore the exhibition of abstract expressionist paintings currently on view. Paul Jenkins is one of the artists repre-sented in the exhibition.

Monmouth Fair

art show slated Monmouth County's largest art show is being organized for the Monmouth Fair at Freehold Raceway from June 28 through July 4.

The art show will cover three classes -- oils, water colors, and other media (sculpture, graphics, acryl-ics, etc.) -- each offering cash prizes for first, second and third place. A special award will be offered for the best art with an equine theme.

Heat in root area

believed top cause

of death of plants

Cornell University researchers have dis-

covered that high temperature in the area of plant roots may be the primary cause of

death of many heat-sensitive agricultural

Professor Peter L. Steponkus, plant phy-siologist at the New York State College of Agriculture, Cornell, said that high soil tem-perature affecting the roots sets off a chain

of biochemical events in the plant causing it

tively cool, the plant can survive crop-killing heat above ground," Professor Steponkus said.

In explaining the cause of plant death as a result of heat, he said that heat has a detri-

mental effect on the ability of the root system to manufacture a group of chemicals called cytokinis. These chemicals are vital to plant

On the other hand, he added, when the root

plant above the ground is subjected to

temperature is maintained at 65 degrees while

the 104 degree heat, the plant shows no ill

The finding may have important commercial

applications in crop production in the tropics

and in desert areas.

Assembly line for living cells

New living amebas can be assembled from parts taken from other amebas report biologists K.W. Jeon, I.J. Lorch, and J.F. Danielli in a recent issue of Science.

Using the cell membrane and some of the cytoplasm of one cell, an additional batch of cytoplasm from another cell, and the nucleus of a third cell, these scientists reassembled these components and made a new cell that could not be distinguished in appearance from "nor-mal" amebas. Moreover, these "synthetic" cells reproduced in a normal fashion,

None of the parts from which the new cells were assembled can survive on their own; within a short time after a cell is disassembled, the sucleus, cytoplasm, and cell membrane disintegrate.

Basic procedures of reassembly are removal of the nucleus from one cell; then most of the cytoplasm remaining is removed to the extent that the part remaining could not survive even if a new nucleus were inserted into it; "refilling" the membrane with new cytoplasm; and

RESISTANT NYLON FIBER

Nylon fiber has been modified so that it's fire-and-heat-resistant. Nomex nylon is being used in airplane interiors and military garments, will become popular for ironing board covers and other consumer products.

Scientists rebuild amebas insertion of the nucleus taken from another

cell.

Components are obtained by microsurgery under the microscope or by high-speed centri-fugation that separates cell parts from one another.

Thursday, May 7, 1970

The success of these reassembly experi-ments means that scientists now have the technical ability to assemble amebas which contain any desired combination of components. This capability in turn can be used to test the condition of particular cell components, and perhaps give more precise information on how cell components relate to one another in a functional sense.

Iversen on today's youth Generation should be prepared

"I like to put things together and see them work—to solve problems," ays Dr. Kenneth W. Iversen, new president of t mon College. Dr. lversen was answering the question, "What do you like to do " but he rught just as well have been describing the role of a college president. And according to that definition, Dr. Iverson must be a very contented college president. Lewer places offer more problems today than college campuses. lversen admits that colleges have changed since his first teaching job in the late '30s at Appalachian State College in Boone, North Carolina, 'For assemblies, men and women sat on different sides of the auchtorium." he recalls.

But despite external differences, the former psychology professor doesn't really believe are much different today from stustudents

dents in the past. Socrates, he says, complained about the lack of respect and unmannerly conduct of the students of his day.

Dr. lyersen doesn't dismiss collegiate behavior, however, as just lack of respect, He sees it as the natural rebellion of youth, an impatience to be on their own, to create a life style that's different from their parents - and he is sympathetic.

He has no desire to suppress student protests, provided they aren't destructive. But he would like to persuade them to have a little patience. "Today they want instant answers to instant questions," he said.

DR. IVERSEN would also have them learn how to solve problems before they occur. Problem solving isn't just an interest to Dr. lversen. He truly believes that this is probably the most important lesson students can learn today, "No one can foresee the problems this generation will face," he says, "but we can help them learn the process of problem solving

To accomplish this he advocates a solid

EARLY COPY

Publicity Chairmen are urged to observe the Friday deadline for other than spot news. Include your name, address and

course approach to education. He definitely opposes the trend to survey courses, which he describes as a "smorgasbord approach, a

little bit of everything, not much of anything, If he is critical of today's youth, Dr. lversen resents the attack of some students on what they describe as "our materialistic society." What is it, he asks, that has given these students their guitars, 'TVs, cars, motor-cycles? — "perhaps a materialistic culture" "They also have forgotten some words like industry and hard work, We need to get back to pride in our own efforts," [Dr. [versen said.

But, if he is critical of some of the attitudes 'f today's youth, he is quick to say that these are the attitudes of only a small minority of college students. The press, he says, has so exploited the actions of the few that we fail to recognize that the great majority of students are primarily interested in getting good education and becoming constructive a good concerning, members of society,

DR. IVERSEN ATTENDED Rutgers Univer-

sity and received his bachelor of science degree from Louisiana State University, He a master's degree and doctorate from

New York University, As a psychologist and college president, Dr. Iversen is very much a 20th century man. But as a man, he is very much a throwback to the Renaissance. He is the ideal "do-ityourselfer." A wedding gift of a 35 millimeter camera from his wife led him to building an enlarger and developing his own pictures. He has added romms to his home, built his own workshop and handcarved his own pipe. A geologist friend introduced him to semi-precious stones and he has made his ownlapidary equipment for polishing and finishing stones, which led to designing and making jewelry.

While a 20th century car is a necessity in today's world. Dr. lversen forsakes the four wheels for a two-wheeler most evenings and can be found bicycling through Cranford.

When time permits, he also plays a little golf, and platform tennis. He is a prolific reader and favors sea stories. Renaissance man-Yes, but isn't that what

education is all about-educating the whole

Civil Service lists eight county exams

John J. Farrell, chief examiner and sec-retary of the New Jersey Department of Service, announced this week that the May 1970 open competitive examination bulletin contains eight examination announcements for Union County positions. The bulletin also contains 17 examination announcements for the various municipalities in Union County under

civil service. Those interested in receiving the May examination bulletin and applications should contact the main office, Department of Civil Service, State House, Trenton 08625 or the nearest branch office, 1100 Raymond blvd., Newark 07102.

Local New Jersey State Employment Offices have the examination bulletin and applications available. the last date for filing of applications for examinations is May 27.

Mrs. Dwyer

from two-year and four-year colleges $h_{\rm H}$ suphout the country will highlight the in- $W_{\rm c}$ disesday at 3 p.m. of Dr. Kenneth W. Iver-sector is the second president of Union College, and.

a. Jeremiah Finch, president of the Middle $S_{1,1,2,3}$ Association of Colleges and Secondary S₁ as Association of Colleges and Secondary S₁ as and secretary of Princeton Univer-S₁, will be the principal speaker, Greetings was be extended by U. S. Senators Clifford P. (a) A be extended by and Harrison A. Williams Jr. of Westfield, and New Jersey Higher Educa-tion Chancellor Ralph A. Dungan of Princeton. (ar. Abert E. Meder Jr. of Westfield, charrof the inaugural committee and chairman of the education committee of the board of trustees, will preside at the ceremonies, which are expected to attract several thousand per ons to the Union College campus.

Hugo B. Meyer of Suminit, chairman of the board of trustees, will install Dr. Iversen a d will present the medallion of office to him. Never will be assisted by Prof. Hormann J. tha teteld of Summit, chairman of the Humanities Department, representing the faculty; Kachard P. Muscatello of Elizabeth, president the Union College Alumni Association, representing the alumni, and Thomas J. Taylor of Westfield, president of the Day Session Student Council, representing the students.

An inaugural prayer will be delivered by Dr. Gershon B. Chertoff, rabbi of Congregation R'nai Israel, Elizabeth, and a trustee of Union College.

The invocation and benediction will be offered by alumni. The Rev. Donald Killian, (.P., of St. Michael's Monastery, Union City, one of eight members of the McGowan family who attended Union College, will deliver the invocation, and the benediction will be pro-nounced by the Rev. Raymond Harrison of Drew University, Madison.

AN UNUSUAL HIGHLIGHT of the academic procession will be delegates from each of Union College's 35 graduating classes, in-cluding Superior Coutt Judge Chester A. Wei-

ies ye

represent the Class of 1935.

In addition to delegates from other colleges and universities and learned societies and from each of Union College's 35 graduating classes, the academic procession will include the Board of Trustees, the Board of Fellows, the Council of Educational Advisors, the faculties of Union College and Union County Technical Institute, Scotch Plains, the Union County Coordinating Agency for Higher Education, the Board of Education of the Union Conty Vocational and Technical Schools, and the Day and Evening Session Student Councils.

Marshals for the academic procession will include: J. Harrison Morson, director of student activities; platform guests and Board of Trustees; Prof. Harriette Trumpore of Cranford, a member of the Humanities Department, Union County Coordinating Agency for Higher Education; Board of Fellows and Council of Educational Advisors.

Also, Prof. Elmer Wolf of Cranford, acting

dean; Union College faculty: Prof. Forrest P Dexter of Cranford, a member of the Engincoring-Physics-Mathematics Department; faculty of the Union County Technical Institute; Peter Drenchko of Belle Mead, a member of the Class of 1949; Richard Hillitano of Union, Day and Evening Session Student Councils; Prof. Farris S. Swackhamer of Cranford, director of institutional research, and delegates of colleges, universities and learned societies.

The processional and recessional music will be played by the 70-piece Cranford High School concert band under the direction of Robert Yurachko. While the crowd is forming, the band will play a concert of music by Alfred Reed, Beethoven, Hayda, and Dello Jolo.

FOLLOWING THE CEREMONIES, Dr. and Mrs. Iversen will be guests of honor at a reception in the symnasium of the Campus Center sponsored by the Friends of the College of Union College under the leadership of Mrs. Bedford H. Lydon of Cranford,

up gives your doctor a chance to give you a chance. Because many cancers are curable if they are detected early and treated promptly. Ask your doctor to include a procto in your exam, for early diagnosis of rectal and colon cancer.

Women should have a Pap test. Cancer of the uterus is curable in almost 100% of cases and this simple, painless test is your best protection.

And send a generous check to your local Unit of the American Cancer Society. To continue nationwide programs of research, education and service to patients.

Remember...a checkup to help yourself. A check to help others.

## Educator's group criticizes publish-or-perish syndrome

The dismissal of a Rutgers University instructor acclaimed as an "outstanding teach-er" shows the "absurdity" of the publish-orperish doctrine still observed on many cam-puses, the Association of N. J. College and University Professors said this week. Dr. Mary Allessio, assistant professor of

botany at Rutgers-Newark, has been denied reappointment because her department chairman and a faculty committee think "her publications would not warrant tenure," reports ANJCUP, an affiliate of the New Jersey Education Association, Nevertheless, the college's Alumni Association has named her "Outstanding Teacher of the Year."

her "Outstanding Teacher of the Year." "Firing an outstanding teacher is an absolute absurdity." said ANJCUP representative William Hayward, NJEA's coordinator of high-er education. "Undergraduate colleges need good teachers far more than researchers. The undergraduate faculty's first responsibility is to teach, not to write."

"publish or perish" campuses, promo-On ' tions and even salary increases generally go to professors who have authored the most articles in professional journals, says

ANJCUP. The quality of the article is seldom considered, nor is teaching ability. What counts is the number of titles published. As in the case of Dr. Allessio, the instructor who does not publish is sometimes told to look elsefor police

ment.

For many year, "publish or perish" was a private - college practice, ANJCUP reports. The public colleges - perhaps because they were heavily engaged in preparing for practical occupations – rewarded classroom perfor-mance rather than success with the pen-Faculty members who taught well were given tenure and promotions. Faculty members who did not teach well were told to seek employment elsewhere.

Now, however, "publish or perish" is creeping into the public college, ANJCUP complains — in New Jersey, at least. As one of their , complaints, faculty members who recently ousted the president of Trenton State College suddenly carried greater weight in campus promotions than did classroom ability. The basis for "publish or perish" lies in the ball of the units of the ball of th

the belief that college professors should be deeply involved in research, says ANJCUP. Undoubtedly, most college professors are doing research — whether they are being published or not. This research, however, need not be formal investigations requiring hundreds of subjects, lengthy studies, and mountains of data.

Without ever being published, a college professor can communicate the results of his research in many ways, ANJCUP says -including lectures, seminars, staff meetings, discussions and correspondence with col-leagues, conferences and conventions.

A clearer division between research and teaching is needed at the college level, ANJCUP suggests. Some professors might be hired specifically to conduct formal research studies. Others could be hired primarily to teach.

Research professors should be evaluated on the quality of their research, says ANJCUP, and teachers on the quality of their classroom performance.

Dr. Allessio – on the Rutgers-Newark faculty since 1967 – will receive the college's "Outstanding Teacher" award June 5. The alumni present it annually to a Rutgers-Newark teacher who "displays exceptional ability to inspire students and ability to present and convey subject matter and who demonstrates visible interest in the student."

Commented Hayward: "Professors should be rewarded, not punished, for interest in students. When a faculty member gets an 'outstanding teacher' award, she should receive tenure, not a pink slip in her envelope,

## It's the Hoboken sound 'Stevens Swings' on new disc

Student musicians Stevens Institute of Technology, Hoboken, have been making records while presenting records throughout the northeast in recent years. Two years ago the 65-voice Glee Club recorded a stereo "Stevens Sings," and

628 BOULEVARD 272-6580 📍 enilworth

The group has given con-certs throughout New Jersey,

1969, include a new "Govern ment" section under "G" i ment" section under "G" in the Yellow Pages which con-solidates the most frequentlycalled listings for all four levels of government. Offices are listed using terms like "draft boards," "income tax information," and "welfare department,"

In an experimental effort to facilitate directory use, some new directories will also con-tain a reference list of public, parochial and private schools in the "S" section of the White Pages. Elementary and secon-dary schools will be listed alphabetically, under ap-propriate community headings which also will be arranged alphabetically, for quick, fingertip reference. The school lists are included in the new Camden and Elizabeth direc-tories and are planned for the Bergen directory to be issued May 1.

Need additional New Jersey and out-of-state directories? Just call your local New Jersey Bell business ofice to get them without charge.

Middlesex College starts new program in civil technology

Middlesex County College in Edison will offer a new curriculum in civil technology this fall. The new program is designed to propare graduates for a career as civil engineering technicians. The civil technology curriculum will train

students to be able to work in building con-struction, highway design and layout, surveying, construction inspection, soils analysis, and sewage and water supply.

Edison township engineer John J. Zimmer-man, who assisted the college in the development of this new program, said, 'The college should be successful in producing well-trained civil engineering technicians since they are providing them with background knowledge in surveying, drafting design, construction survey and construction inspection. Since this is being accomplished within two years, it is reasonable to assume that these men will advance very rapidly within the civil engineering technology find due to having a roundness of education and practical experience that is generally not available in the average technician in this field. The educational work is tied to basic on-the-job training, which enhances the educational value."

The college's program is designed to educate students to understand the theory of various civil engineering disciplines, train them to be able to apply practical skills and theory, solve civil engineering problems, and provide the necessary training to fit into the level between craftsmen and engineer, closer to the engineer.

Four semesters of curriculum work leading to an associate degree in applied science will include the following: engineering materials, English, introduction to Fortran, technical design and graphics, physics, algebra and trig-onometry, architectural drawing, surveying, statistics and strength of materials, calculus fluid mechanics, engineering economy, reinforced concrete design, humanities, estimating and planning, steel design, soil mechanics and

physical education. The admissions office at Middlesex County College has reported that there are still many vacancies for the opening semester this fall. The college is planning to begin with two sec-tions with a total of 40 to 50 students. Interested persons are asked to contact the college, located on Woodbridge avenue, Edison, by telephoning 548-6000, ext. 263.

## Medical program gets \$1.3 million

A \$1,332,201 grant has been received by the New Jersey Regional Medical Program to continue, for another year, statewide planning efforts and operational programs relating to heart disease, cancer, stroke and related diseases, according to Alvin A. Florin, M.D., coordinator.

Now in its third year, the NJRMP seeks to improve the quality and availability of health care for the state's nearly 7 1/2 million residents. To date, more than \$2 million has been received from the U.S. Department of Health Education and Welfare for planning Health, Education and Welfare for planning and project activities.

Nine operational programs developed in 1968 were funded last year after review by the Division of Regional Medical Programs in Washington, and the current grant extends most of these activities as well as providing

for two new projects. The additions include a nurse training program at Bloomfield College designed to im-prove the care of cancer patients in hospitals, extended care institutions, nursing homes and patients' homes by increasing the knowledge and skills of nurses working in these settings, and the assignment of six additional urban health coordinators to the state's federally designed Model Cities to assist in developing local health plans.

## Cellist to perform at Newark library

Subscription sales run ahead of 1969

### at state arts center

The Garden State Arts Center this week reported that the number of subscriptions sold for its third summer season has gone over 11,500, bettering by a thousand last year's record.

The new high was reached with several weeks still to go before the close of subscription sales for the 1970 season. May 15 is the cut-off date. The season itself starts June 10 with a classical subscription performance by opera star Marilyn Horne and the New Jersey Symphony Orchestra. The popular series subscriptions are run-

ning well ahead of last year in number sold, while the classical series orders are lagging behind their 1969 total. The latter season seats are still plentiful in all price sections.

Sales of popular subscriptions have been so brisk that all the Arts Center's top-priced Section A seats for such night-of-week series from Tuesday through Saturday are now filled. However, front-of-house seats remain for the Monday popular series and both classical series.

The other sections in the 5,058-seat amphitheater at Telegraph Hill Park on the Garden State Parkway remain available for all series except Section B on the Saturday night popu-lar subscription events. Box office address is P.O. Box 116, Holmdel, 07733. Each classical series offers the New York

Philharmonic, conductor Andre Kostelanetz, pianists Lorin Hollander and Vladimir Ashkenazy, the Moiseyev Dance Company, and Jose Greco, as well as Marilyn Horne and the New Jersey Symphony with singers Veronica Tyler and William Warfield and pianist Earl Wild,

The six popular series each include the musical "Hello, Dolly" with Pearl Bailey; Tom Jones; Petual Clark; Dionne Warwick; Robert Goulet and Carol Lawrence; Tony Bennett with Count Basie; and Sammy Davis, Jr.

HOURS: Daily 9 A.M. to 5 P.M.- Thursdays 'til 8:30 P.M.

308 IRVINGTON AVE. SOUTH ORANGE

Governor William T. Cahill announced this week the state has contracted with three re-search firms to help evaluate New Jersey's

Motor Vehicle Inspection Stations. The firms are: Operations Research Inc., New York; Opinion Research Corp., Princeton. Cahill said the contracts result from the ad-ministration's desire for independent professional advice to resolve the inspection station controversy while not compromising safety. Director Ronald M, Heymann said he is giv-

ing the matter top priority and expects to have an early report by the end of June. "In accordance with the Governor's order to evaluate the inspection system we searched for neutral third parties to give us independent

opinions. "The firms we have hired are attacking the problem on three fronts," Heymann said.

DIALOGUE INC. will conduct a two-phase investigation. Phase one will determine if there is a correlation between motor vehicle inspec-

---Evaluate the effectiveness of enforcement measures.

--Analyze program cost. --Examine the need for statistics to determine the relationship between vehicle defects and the probability of a crash.

Opinion Research Inc. will study how New Jerseyans feel about the system through inperson surveys. It will probe driver's attitudes

about the inspection system and safety and con-sider what the public would accept as alternatives. The probe results from Governor Cahill's campaign pledge to overhaul the inspection

## **Grand Lodge officers**

## Labor Department predicts a surging economy in 1980

WASHINGTON -- The profile of an economy with 100 million workers - producing 60 per-cent more goods and services for Americans in 1980 than in 1969 - is presented in new

In 1980 than in 1969 - is presented in new projections released by Commissioner of Labor Statistics Geoffrey H. Moore, These projections - covering productivity, gross national product, employment, and labor force -- represent a comprehensive effort by the Labor Department to help industry, govern-ment, and the educational community alan for ment, and the educational community plan for the manpower challenge in the decade ahead. These projections by the Bureau of Labor Statistics and their implications are discussed in the Monthly Labor Review. Among the findings are:

--Half of growth in the labor force will be among young workers, age 25-34. The Negro labor force will increase by one-third. -- The labor force participation of women

will continue to increase, especially among those in early childbearing ages. - The educational level of the labor force

will rise substantially. --Productivity, advancing steadily if at a

slightly slower pace than in the 1960s, will increase 3 percent a year. --Industry employment will have continued to shift toward the service industries, in-cluding trade and government.

--Occupational employment will have con-tinued a long-term shift towards the whitecollar occupations and those requiring the most education and training.

The article is a preview, limited for the most part to the major sectors of the economy. A more complete summary bulletin containing additional statistical detail covering employ-ment in over 250 individual industries and detailed 'occupations will be published in the late spring. Further publications and orticles will present more refined analysis and more detailed information on the various methodologies followed.

FRIDAY DEADLINE

All items other than spot news should be in our office by noon on Friday.

## Costs of medical care up a third in five years

"Medical care costs have increased by about 32 percent in the past five years," the Insurance Brokers Association of New Jersey said this week, "and they took another big jump May I when Blue Cross and Blue Shield rates increased again. About one half of all New Jersey residents are covered by Blue Cross and Blue Shield."

association said The 'These costs include bills for hospital, convalescent and

YEAR

## Entire pollution problem seen solved by single sewage-solid waste system

system combining sewage treatment and solid waste disposal, which would eliminate water pollution, produce potable water, reduce air pollution by avoiding incineration, and cost no more than current biological treatment, is proposed by a Purdue University sanitary engineer, according to Chemical and Engineering News, a weekly publication of the American Chemical Society. "Many people think of pollution in terms of

solving specific types of pollution problems -whether they're concerned with air, water, or disposal of solid waste," says C&EN, "How-ever, Purdue's Dr. James E. Etzel points out that often a solution for one can aggravate one or more of the others.

'The Etzel system uses no new technology, but it does introduce new methods into pol-

lution control. A hydropulper (similar to those used by the paper industry), reverse osmosis, and extensive use of pipelines are notable features of the system.

The hydropulper is used to grind up solid wastes, Glass, wood, bones -- everything but metals -- are reduced to sand-sized particles. Metals are reduced to chunks the size of golf balls. The centrifugal process throws the metal chunks to the sides of the hydropulping tank, where they can be removed, sorted, and reclaimed,"

DR. FTZEL MAINTAINS that his system can be used in conjunction with existing biological water treatment programs, which consist primarily of removing undissolved particles by sedimentation and filtration, and

## PUC cites U.S. report in water bid

Commissioner Brendan T. Byrne of the N.J. Board of Public Utility Commissioners this week cited a report by the Federal Bureau of Water Hy-giene to support the PUC's request for state regulation of government-owned water systems,

The report, reprinted in the May 2 issue of the Saturday Review, rated 12governmentowned municipal water sys-tems in New Jersey as substandard, They are Bayonne, Camden, Deepwater (Lower Penns Neck Twp.), Hoboken, Jersey City, Kearny, Newark, Paulsboro, Perth Amboy, Westville, Woodbridge-Se-waren and Wrightstown, None of the private systems regu-lated by the PUC was rated as sub-standard.

The Public Utilities Commission, in a decision released Jan, 6 had urged 'the enactment of appropriate legislation to give it full jurisdiction over all government-owned water systems rendering service within the state,'

Byrne commented this week that "the seriousness of the deficiencies cited by the Federal Bureau should be sufficient evidence that customers of government-owned systems are not as well protected as customers of private systems. The customers of municipal systems are treated as second class citizens because they have no recourse to any regulatory agency with respect to rates and service.'

Byrne again urged the enactment of legislation "which would allow the PUC to insure that the service rendered by all water systems is safe, adequate and proper." He said, "the PUC is not seeking direct control over water supply and health stand-ards but feels that overall regulation and supervision by the board will motivate municipalities to conform to the health standards,"

killing bacteria by oxidation or chlorination. He suggests that sludge from the sedimenta-tion tanks of the sewage system be used as the liquid in the hydropulper. Since the hydro-pulper and contents are heated to 180 degrees Fahrenheit, the resulting slurry is free of disease - causing bacteria. Once the metal chunks have been removed, the slurry is carried away by pipeline to be used for landfill. The water which passed through the sedimen-tation tanks is 90% pure after biological treatment, but still contains dissolved impurities, mainly inorganic in nature. Since new Federal pollution control regulations demand that in-organics be removed from sewage, the remaining 10% impurities are concentrated by reverse osmosis unit and added either to the hydropulper or, after disinfection with chlorine, to the slurry being piped for landfill. Lighty percent of the sewage plant in-put becomes pure, drinkable water, according to Dr. Etzel.

Among the advantages claimed by Dr. Etzel for his system are: (1) solid wastes are brought directly to the sewage treatment plant rather than to a remote site, reducing long-haul costs, (2) the bulk handling problem is reduced since the slurry is only about one-third the volume of refuse, (3) sludge handling is eliminated, halving the cost of sewage treatment, (4) the total capacity of existing sewage treatment plants is increased by diverting sewage to the hydropulper, (5) incineration in or near metropolitan areas is avoided, and (6) wasteland can be converted into ar able land, . . .

"THERE IS ENOUGH WASTELAND, Dr. Etzel claims, to handle the final slurry with-in 100 miles of every metropolitan area in the U.S.," C&EN continued, "For a population of 10,000 people, 40 acres of land are needed to dispose of the slurry, which is the total sewage, sludge, and municipal refuse for the population. The slurry would be applied to alternate-strip crop land, The water, after depositing the organic material, would pene-trate the ground and, flowing latterally, act as irrigation for the crops in alternate rows. Etzel estimates land surface buildup at 0.05 foot per year, so the same 40 acres could be used for many years.

'Even if the product slurry were used in conventional sanitary landfill sites, it would more than double the capacity of the site because the material is free of voids and more than twice as compact as untreated refuse. Also, since there would be little or no edible material in the slurry, the rat control prob-lem would be greatly reduced."

Eventual replacement of biological treatment of sewage is proposed by Dr. Etzel, according to C&EN, by placing hydropulpers at stragetic locations throughout a metropoli-tan area and using sewage to hydropulp solid wastes. The resulting disease-free slurry would be conveyed by trunk sewers to the treatment plant where heavy particles would be allowed to settle out before the liquid was subjected to sand filtration and reverse osmosis. Slurry from the latter process and from sedimentation would be combined and piped for landfill.

The city of Indianapolis reportedly plans to try Dr. Etzel's system on a pilot basis as soon as possible.

### Terminal marks day with displays The Military Ocean Terminal in Bayonne

will salute Armed Forces Day with a full program of displays and entertainment Saturday, May 16. The open house from 9 a.m. until 3 p.m.

will be the only Armed Forces Day activity of this kind in the New York metropolitan area. Emphasizing the "Forces for Freedom" theme, indoor exhibits from transportation services working with the terminal and out-door displays of military hardware will be available for public inspection.

Three ships open for boarding will be the USS Robert K, Huntington, an active reserve destroyer homeported at the terminal; the USCGO Red Beach, a Coast Guard bouy tender; and an Army tugboat. In addition, a New York Fire Department fire boat will spout off a water spray, Local high school bands and marching units

will be performing throughout the alternoon. In keeping with the transportation mission of the terminal plenty of on-base transporta-tion will be available. MOTBY buses and a train provided by the Jersey Central railroad will transport visitors from the large free parking area at the front gate to the display ar∉a. jeep rides will be available for the kiddies.

Buses will give the visitors a tour of the terminal enroute to the ship berthing area.

### Ihree promoted at Rickel Frothers

Promotions of keypersonnel were announced this week by A.M. Rickel, president of Rickel Brothers Inc.

Charles Davis of Edison was named to the newly-created position of assistant store operations supervisor. Archie Matonti of Brick Township, was named manager of the new Edgewater Park store, and Joseph Balzarotti of Paterson, was named manager of the Union store.

All three men started with Rickel Brothers Home Centers as salesmen, Davis has been with the firm nine years, the last six as manager of the Union store. Mantonti was a department manager in the Menlo Park store and Balzarotti, assistant manager in Union. Rickel Brothers is a chain of do-it-yourself home centers with locations at Route 22, Union; Route 17, Paramus; Menlo Park Shop-ping Center; Route 10, Succasunna; Route 18, Last Brunswick; Hamburg Turnpike in Wayne, and Route 130 and Woodlane Road, Edgewater Park.

## Math grant to college

The Saint Peter's College Department of Mathematics has received a grant of \$11,555 from the National Science Foundation for its in-service institute for high school math teachers. This is the 11th consecutive

year the college has been awarded National Science Foundation funds for its program.

Associate Professor Francis A. Varrichino said the grant will be used for two courses. One will be "Basic Topics in Modern Algebra, Analysis and Geometry" and the second will be "Digital Computer Programming and Computer Oriented Mathematics.'

The courses will be open to 45 high school teachers and classes will be offered Satur-

Governor William T. Cahill announced this week the state has contracted with three research firms to help evaluate New Jersey's

Motor Vehicle Inspection Stations. The firms are: Operations Research Inc., Silver Springs, Md.; OR/MS Dialogue Inc., New York; Opinion Research Corp., Princeton Cahill said the contracts result from the administration's, desire for independent profes-sional advice to resolve the inspection station controversy while not compromising safety. Director Ronald M, Heymann said he is giv-

ing the matter top priority and expects to have an early report by the end of june. "In accordance with the Governor's order to

evaluate the inspection system we searched for neutral third parties to give us independent opinions.

"The firms we have hired are attacking the problem on three fronts," Heymann said.

DIALOGUE INC, will conduct a two-phase investigation. Phase one will determine if there is a correlation between motor vehicle inspec-

CHARGE ACCOUNTS INVITED

lution control. A hydropulper (similar to those used by the paper industry), reverse osmosis, and extensive use of pipelines are notable features of the system. "The hydropulper is used to grind up solid

wastes. Glass, wood, bones -- everything but metals -- are reduced to sand-sized particles. Metals are reduced to chunks the size of golf halls. The centrifugal process throws the metal chunks to the sides of the hydropulping tank, where they can be removed, sorted, and reclaimed."

DR. ETZEL MAINTAINS that his system can be used in conjunction with existing biological water treatment programs, which con-sist primarily of removing undissolved par-ticles by sedimentation and filtration, and

## PUC cites U.S. report in water bid

Commissioner Brendan T. Byrne of the N.J. Board of Public Utility Commissioners this week cited a report by the Federal Bureau of Water Hy-giene to support the PUC's request for state regulation government-owned water systems.

The report, reprinted in the May 2 issue of the Saturday Review, rated 12government-owned municipal water systems in New Jersey as sub-standard. They are Bayonne, Camden, Deepwater (Lower Penns Neck Twp.), Hoboken, Jersey City, Kearny, Newark, Paulsboro, Perth Amboy, Westville, Woodbridge-Se-Westville, Woodbridge-Se-waren and Wrightstown, None of the private systems regu-lated by the PUC was rated as sub-standard The Public Utilities Com-

mission, in a decision released Jan, 6 had urged "the enactment of appropri-ate legislation to give it full jurisdiction over all govern-ment-owned water systems rendering service within the state.

Byrne commented this week hat "the seriousness of the that deficiencies cited by the Fed-eral Bureau should be sufficient evidence that customers of government-owned systems are not as well protected as customers of private systems. The custom-ers of municipal systems are treated as second class citizens because they have no recourse to any regulatory agency with respect to rates

and service." Byrne again urged the enactment of legislation "which would allow the PUC

Among the advantages claimed by Dr. Etzel for his system are: (1) solid wastes are brought directly to the sewage treatment plant rather than to a remote site, reducing long-haul costs, (2) the bulk handling problem is reduced since the slurry is only about onethird the volume of refuse, (3) sludge handling is eliminated, halving the cost of sewage treatment, (4) the total capacity of existing sewage treatment plants is increased by diverting sewage to the hydropulper. (5) incineration in or near metropolitan areas is avoided, and (6) wasteland can be converted into arable land. . .

"THERE IS ENOUGH WASTELAND, Dr. Etzel claims, to handle the final slurry with-in 100 miles of every metropolitan area in the U.S., "C&EN continued. "For a popula-tion of 10,000 people, 40 acres of land are needed to dispose of the slurry, which is the total sewage, sludge, and municipal refuse for the population. The slurry would be applied to alternate-strip crop land. The water, after depositing the organic material, would penetrate the ground and, flowing latterally, act as irrigation for the crops in alternate rows. Dr. Etzel estimates land surface buildup at 0.05 foot per year, so the same 40 acres could be used for many years.

"Even if the product slurry were used in conventional sanitary landfill sites, it would more than double the capacity of the site because the material is free of voids and more than twice as compact as untreated refuse. Also, since there would be little or no edible material in the slurry, the rat control prob-lem would be greatly reduced."

Eventual replacement of biological treatment of sewage is proposed by Dr. Etzel, according to C&EN, by placing hydropulpers at stragetic locations throughout a metropolitan area and using sewage to hydropulp solid wastes. The resulting disease-free slurry would be conveyed by trunk sewers to the treatment plant where heavy particles would be allowed to settle out before the liquid was subjected to sand filtration and reverse osmosis, Slurry from the latter process and from sedimentation would be combined and piped for landfill.

The city of Indianapolis reportedly plans to try Dr. Etzel's system on a pilot basis as soon as possible.

### Terminal marks day with displays The Military Ocean Terminal in Bayonne

will salute Armed Forces Day with a full program of displays and entertainment Saturday, May 16. The open house from 9 a.m. until 3 p.m.

will be the only Armed Forces Day activity of this kind in the New York metropolitan area. Imphasizing the "Forces for Freedom" theme, indoor exhibits from transportation services working with the terminal and out-door displays of military hardware will be available for public inspection.

Three ships open for boarding will be the USS Robert K, Huntington, an active reserve destroyer homeported at the terminal; the USCGO Red Beach, a Coast Guard bouy tender; and an Army tugboat. In addition, a New York Fire Department fire boat will spout off a water spray. Local high school bands and marching units

will be performing throughout the afternoon. In keeping with the transportation mission of the terminal plenty of on-base transporta-tion will be available. MOTBY buses and a train provided by the Jersey Central railroad will transport visitors from the large free parking area at the front gate to the display area.

Jeep rides will be available for the kiddies. Buses will give the visitors a tour of the terminal enroute to the ship berthing area.

## Three promoted at Rickel Frothers

Promotions of keypersonnel were announced this week by A.M. Rickel, president of Rickel Brothers Inc.

Charles Davis of Edison was named to the newly-created position of assistant store oper-ations supervisor. Archie Matonti of Brick Township, was named manager of the new Edgewater Park store, and Joseph Balzarotti of Paterson, was named manager of the Union store.

All three men started with Rickel Brothers Home Centers as salesmen. Davis has been with the firm nine years, the last six as manager of the Uhion store. Mantonti was a department manager in the Menlo Park store and Balzarotti, assistant manager in Union. Rickel Brothers is a chain of do-it-your-

self home centers with locations at Route 22. Union; Route 17, Paramus; Menlo Park Shopping Center; Route 10, Succasunna: Route 18, East Brunswick; Hamburg Turnpike in Wayne, 3 and Route 130 and Woodlane Road, Edgewater Park.

## **Backpeddling youth** Student is bicycle champion

about being the No. 1 cyclist

in America for the next fou months, but his mind dwells

on the mountain courses of

Europe and the enthusiasm

with which people there greet

France, Holland, Germany

- those are places where Chauner's sport is greeted

with the kind of exuberance

Americans reserve for places

people are anxious to be in step with the times, Dave Chauner admits he'd like to pedal back to the "good old days" of the 1930's. Chauner is a "with-it"

looking young Upsala College senior of 21, but he is also a bicycle racer and the sport just isn't what it used to be in the United States. Chauner will quietly go

competed for the U.S. in the Mexico Olympics, has 1968 tasted that kind of experience but he will spend this season in America because he knows he is needed to help the sport here.

Style Rite Beauty Salons

the sport.

As "EastCoastCycling News" noted on the front page

of its February issue, "Chauner's departure for Europe last year left a void in the (American) racing. . ."

Already this spring the Rosemont, Pa., youth has won all four races he has entered, starting with a repeat victory over 106 rivals in the Cross-Florida Tour event March 29.

Chauner became interested cycling races at age 15 when a friend, who knew of his interest in cycling for fun, advised Dave to take in the Memorial Day bike race at Somerville.

"It was a fantastic sight and I decided right then that I want-ed to try racing," Chauner recalis.

More than 50 cycling victories later, Chauner still wonders sometimes "if it isn't just a little bit insane to submit to such a physically grueiling, lonely sport-just for the challenge

In january, when Dave be-gins to train in the harsh cold and winds, he tries to think of those beautiful mountain trails of the professional Tour de France, lined with thousands of appreciative fans who climb mountain for a fleeting glimpse at the leaders.

If he does well in the 1972 Olympics, Chauner would like to turn pro and race in Europe, where some of the top cyclists earn up to \$300,000 in a season.

For now though, Dave and his fiancee, Upsala senior Mary Ellen Wilson, of Madison, Conn., are busy planning the weekend race schedule which includes New Jersey events --- the April 25-26 "Tour of New Jersey" in South Branch, the May 24 John F. Egan Memorial Race in North Arlington, the May 30 Tour of Somerville, the June 7 Tour of Essex County and the Aug. 16 Tour of Raritan. Dave and Mary Ellen, who

met in a French class at Upsala last fall, plan to be married in September – after a race in Lake Canandaigua,

N.Y. They can be seen riding side-by-side around the Upsa-la campus almost any afternoon, an activity Dave and Mary Ellen recommend for all to "keep-fit." Chauner believes that cycl-

ing is making a comeback in this country-it was once a major sport in the 1930'sand predicts the U.S. will make a strong showing in the '72 Olympics.

"We have the healthiest people in the world," Chauner notes, "and so it is simply a matter of upgrading our competition to that of the Euro-

Dave believes a big indica-tion of how far the U.S. has come will be given Aug. 19–23 at the National championships in New York City. Chauner finished third in 1967, second in 1968 and was in Europe

last year. "The nationals are what I'm aiming for, and so are all the other riders," Chauner concludes. "I think the overall results will prove that cycling has made it at least part of the way back in the U.S."

## HALF-PAST TEEN

## Veterans in college must file with VA

Paul M. Nugent, manager, New Jersey Veterans Administration Regional Office, Newark, this week cautioned veterans attending classes at degree granting colleges and uni-versities under the G.I. Bill that they must file their Certificate of Attendance with the VA. Nugent said veterans whose semesters end

this month will receive their certificate with their March checks which were due and payable on or about April 10. Likewise, semesters ending in the month of June will generate certificates with the April payment due May 10.

Nugent stressed that veterans should complete and return their certificates upon receiv-ing them. "Do not hold them until the end of the semester. Failure to submit the certificate immediately will result in suspending future payments and money already paid during the semester could be subject to repayment. Remember, file your certificate of attendance as soon as you receive it," said Nugent.

### **Podiatrists** plan meeting

The New Jersey Podiatry Society this week announced the scientific program features of the American Podia-try Association's Region 3 convention, which the New Jorsey society will co-sponsor May 21-24 at Tami-ment Resort and Country Club,

Tamiment, Pa. According to Dr. Albert G. Heller of Elizabeth, scientific committee chairman, the program of seminars, sym-posia and clinics will include the following topics and load the following topics and lead-ers: Dr. Frederick J. Stare, chairman, Department of Nu-trition, Harvard University School of Public Health, "Nutrition Factors in Foot Health;" Capt. Kenneth Law-rence, D.P.M., U.S. Medical Service Corps, Denver, "Treatment of Warts by Vaccine."

Dr. Paul Schultz, Graduate School of Medicine, University of Pennsylvania, "Diseases of the Nervous System Affecting the Feet;" Dr. Roger B. Daniels, Philadelphia intern-ist, "Tests for Organic Diseases involving the Feet."

The American College of Foot Surgeons' Eastern Divi-sion will present an all-day seminar on basic and advanced techniques in foot surgery.

> Heymann names a PR director

. The appointment of Connie M. Cedrone as public information director for the N.J. Division of Motor Vehicles

## Old-fashioned fair to be held May 16 by Junior League

May Fair '70, a community fair, will be held Saturday, May 16, (rain date Sunday, May 17) on the Millburn High School field. The Junior League of the Oranges and Short Hills, Inc., is sponsoring the fair which will be an old-instrumed country fair and a schement for lashioned country fair and a showcase for the community. Forty non-profit organizations will join

the Jumor League on the field to inform the public about their services and to raise funds for their own charities. Hospitals, garden clubs, church groups and many other chari-table organizations will offer articles for sale, give demonstrations and distribute informative literature.

The Junior League will have a replica of a Country store where handmade articles fashioned by members will be on sale. A powenir 20-month calendar with an original pen and ink drawing as its cover and containing-advertising will be available to fairgoers. The money raised by the Junior League will go to its Community Trust Fund, which helps support The activity will begin with a parade at 9:30

a.m. starting from Taylor Park in Millburn. The fair grounds will open at 10 a.m. Admission will be 25 cents for children and 50 cents for adults.

Entertainment will include Thaddeus the Clown, with his balloons; Jean Frolich, a guitarist, who will sing folk songs, and a group called 'Chicken' from Springfield, who will sing western and country selections. Rock bands, a barbershop quartet, Sing Out Montclair and other entertainers will perform during the day,

### Dr. Knoppers elected

Dr. Antonie T. Knoppers, a senior vice-president of Merck & Co., Inc., Rahway, has been elected to the board of directors of the pharmaceutical and chemical firm, Charles S. Garland, board chairman, announced this week.

### Israel Verein to meet

The Israel Verein will meet at the YM & YWHA on Green lane in Union at 8:30 p.m. Thursday with George Feller presiding, Fol-lowing the meeting, refreshments will be

Day dinner, the student citation to NCE's president was signed by the 24 members of the student senate and read to an audience of nearly 600 faculty, staff, students and alumni by senate president Raymond A. Cassetta, At the conclusion of the citation Cassetta also presented Dr. and Mrs. Van Houten with a color television set, a gift of the NCE students.

THE CITATION SAID, in part: "This year we have witnessed a great deal of activity on our campus which reflects an involvement with the social issues of the times. The fact that the student body has been able to express its views, while at the same time continue uninterrupted in the education process, all adds up to the value of your leadership.

"We have never felt any trepidation at the idea of informing you of our feelings. . .we have frequently solicited your support in matters necessary to the continuing maturity of NCE. . . the fact that you have been involved with us has nurtured a communication, we feel, that many other colleges would care to emulate,

The NCE student citation concluded:

'Since this is the year of your retirement as president, we the members of the Student Senate, on behalf of the entire student body. would like to thank you for the concern you have shown us,

'The growth and development of NCE during the years of your administration is manifest in our campus. More important though, is the "We are certain that every graduate of NCE

is appreciative for the fine example of leader-ship you have shown. Finally then, we feel fortunate in having had you as president of the college during our term of office."

VAN HOUTEN HAS BEEN associated with Newark College of Engineering for 44 years, as a "student, as a teacher and dean of the College, and as president since 1947. It has been during his tenure as president that most of NCE's 11,000 alumni have been craduated linder Van Houten's midance the

graduated. Under Van Houten's guidance the college has risen from a small localized school to its current place as a professional institution international reputation and the fourth largest producer of first-level engineering graduates in the nation.

Van Houten has contributed to the improvement of the quality of engineering education nationally and at NCE has strengthened the institution's reputation for excellence on both the undergraduate and graduate levels.

### **Compound limits** mosquito eggs A team of University of Notre Dame biolo-

ists may have pointed the way to a revolutionary new control of insect populations. Dr. Morton S. Fuchs and his colleagues have isolated a compound which reduces by at least 50 percent the number of eggs a female mosquito will lay. A purified concentrated dose of the substance, they believe, will inhibit egg laying almost completely. The egg-inhibiting compound was a spin-

off from basic research, into the general chemistry of mating and reproduction in mosquitoes. The faithful female mosquito will mate only once in her life, the biologists explained, and

soon afterwards deposits a large mound of eggs - far larger than she has ever deposited before mating. The key to her fidelity appears to be a

complex protein called matrone. It is found in the semen of male mosquitoes, and the Notre Dame group have demonstrated conclusively that females injected with matrone refuse to mate and never lay hatchable eggs. However, matrone will not be an immediate candidate for effective mosquito control. The delicate protein deteriorates rapidly in heat, and there are formidable distribution problems in getting the small amounts of matrone to the females.

#### Psychologists to speak Teenaaers warm up to at mental health confab Dr. Bruno Bettelheim, Dr. Louria will be featured speaktalent show Amitai Etzioni, Dr. Nathan Ackerman and Dr. Donald B.

The Garden State Arts Center and the New Jersey Jay= cees this week reported receiving the first 100 entries from teenaged amateur performers for the 1970 Talent Expo to run this summer. The statewide talent com-

petition, leading to a performance by adjudged finalists in the 5,058-seat Arts Center amphitheater, is open to all New Jersey residents between the ages of 13 and 18. Each winner in eight per-

forming categories of the Talent Expo is to receive \$200 in U. S. Savings Bonds and a trophy, while the run-nersup in the finals get a \$100 bond and trophies. The eight performing cate-gories available to entrants

are classical instrumental; classical vocal; popular instrumental; popular vocal; in=' strumental group; vocal group; vocal-instrumental group; and dance. The third annual Talent Expo held under the auspices

## Don't let cancer scare you to death.

If there's one thing we must make you aware of it's this: When discovered early, most cancers are curable. 1,500,000 Americans who are cured of cancer are proof. No one on record, however, has ever been cured of cancer by worrying about it. If you suspect you have cancer, do the smart thing; make an appointment with your doctor.

#### American Cancer Society Fight cancer with a checkup and a check.

## NJEA urges teachers to `speak-up' on profession

ment, but we are blueprinting an action pro-gram for the '70s. "Many people are talking about changing

MI New Jersey teachers found a Census form in their home mailbox last month, but in their rehoof mulbox they found a consensus torm.

The tarm - chocklet from the New Jersey End of the second secon fronting the teaching profession today. It also invited them to a pulse-feeling 'speak-up' meeting to register their views with the NJEA.

Assisted by a county chairman and leaders of local teacher associations, NJEA is conducting a 'speak-up' meeting in almost every one of the state's 2,500 public school buildings. In all, 80,000 teacher's have been invited.

The meetines are being beld "because teachers want to be change-makers," says Mrs. I rances Carnochan of Frenton, NJI A's president. "They want to express their views, they want their recommendations fully considered as decisions are being made. The 'speak-up' program gives them the chance to discuss the status and problems of the profes-ston as they relate to quality education,"

'Speak-up' meetings are devoted to from-the-floor discussions of such questions as: -Could college courses for teachers be better?

an integral part of each teacher's preparation? ---How can standards for certification be

Men and women, performing equal work in the same estab-

lishment, must receive equal pay for that work.

Equal pay for equal work is required under the equal pay provisions of the Fair Labor

Standards Act, The equal pay

law was passed by Congress

in 1963 and is designed to pro-

hibit wage discrimination based on sex.

This law is administered and enforced by the Wage-Hour Division of the U. S. Department of Labor, In fis-

cal year 1969, wage-hour compliance officers investi-

gated thousands of establish-ments and found over \$4.6

million due to more than 16,100 underpaid employees

under the equal pay law, Wage-Hour administrator

Robert D. Moran reports that

it has been the experience of

compliance officers that most

employers do want to comply

with the law and that the vast

majority of violations occur because the employer is un-aware of the law sprovisions.

The following questions and answers are designed to in-

form both employers and eni-ployees about the equal pay

act and is patterned on the types of questions most fre-

quently received by compli-ance officers.

Q. What is the equal pay law?

discrimination based on sex. It provides that menand wom-

-What in-service training and protessional development can be provided within school districts for their instructional staffs?

--- What kind of evaluation and supervision do teachers want?

After discussion, each teacher fills out a questionnaire registering his views. In addipanded recommendations in writing.

NJI A will use the questionnaire responses and written statements to compile a "Consensus of the Teaching Profession," NJEA's policy-making Delegate Assembly will hear a tentative report on the 'speak-up' project Saturday, May 16, at the Trenton Holiday lnn. Delegate Assembly next Nov, 5 during the NJEA convention in Atlantic City.

The Delegate Assembly is expected to use the consensus as a way to channel individual teacher opinion into NJI A policy-making. Says Mrs. Carnochan: "New legislative

proposals will be developed. Expanded con-tacts with teacher-preparation institutions will tollow. Detailed operational plans for professional growth will be developed. Pilot programs will be planned."

Not only are we building a consensus on where the profession ought to be going on standards of competence and their enforce-

> apply even though the jobs may be equal in all other respects. Q. Can an employer reduce

the wage rate of an employee for the purpose of eliminating a wage differential? en who are doing equal work

A. No. If, for example, a company is paying male doughnut packers \$1.75 per hour and female doughnut packers \$1.65 per hour, the company cannot rectify the inequality by reducing the man's pay to \$1.65. It must raise the woman's pay to \$1.75.

skill, (2) equalefiort, (3) equal responsibility, and (4) must be performed under similar Q. law? Who is covered by the working conditions, Q. Does "equal" mean "identical"?

in establishments which have employees subject to a minimum wage under the Fair Labor Standards Act, This closely related character to includes nearly two million business firms, schools, hos-Ditals unions and other inare doing essentially equal stitutions where the vast mawork but the menoccasionally may have to lift boxes or perjority of people work. It is estimated that some 44.6 milion employees are protected by the provisions of this law, form some other additional physical task, would such in-
