Hour of discussion at Board meeting

By ABNER GOLD

Controversy over coaches' regulations requiring members of girls' varsity athletic teams to take part in all practices and games, even during vacations, occupied nearly an hour of the Regional High School District Board of Education meeting Tuesday night at Arthur L. Johnson Regional High School in Clark. The audience of about 45 persons included a

dozen members of the Jonathan Dayton Regional, Springfield, girls' basketball team along with several parents, as well as two fathers from Clark who spoke on a related

The Dayton contingent spoke in opposition to an appeal to the board from an administrative ruling which supported the dropping of two members from the team.

In other business, the board reported some progress in obtaining county funding for flood control work on the Dayton property. A parent voiced strong criticism of the special education program for youngsters with learning disabilities at David Brearley Regional in Kenilworth. The board sent a formal complaint to Trenton concerning what was termed a state-mandated lack of visibility in fire doors at

CHARLES VITALE of Kenilworth, board president, tried with little success to limit discussion of the girls' basketball dispute. He stressed that a formal complaint submitted to the board by an aggrieved father will be discussed fully and voted on at a private meeting with that parent.

However, the players and parents present Tuesday expressed strong support of the action taken by their coach, Ruth Townsend. She had dropped two members from the team, and denied them varsity letters, because they went out of town with their families and missed both practices and games during midwinter

Miss Townsend said following the meeting that she had warned all players of such a policy at the start of the season. The other players and parents declared that any action to overrule this policy would destroy the discipline and dedication needed for varsity sports. The parent filing the complaint was not present at the meeting.

Vitale said several times that comment from the audience on just one side of the issue would tend to prejudice any decision the board might make. The dismissal of the girls had been endorsed by the Dayton athletic director and principal and by Dr. Donald Merachnik,

The Major League saw its share of excitement, too, with fast-moving, high-scoring games. The Gants and Chiefs met twice this week with the Giants winning both times. Donald Garretson was the winning pitcher in the first game, 21-10, and David O'Connel pitched the second victory, 13-9.

The PBA Blue Stars and First Federal Savings Cubs played twice, and split the games. The Dodgers won a tight one, 15-14, in a game marked by a grand slam home-run hit by Steve Colline for the Dodgers, and two home-runs by Kieth Hanigan for the Chiefs. Hanigan pitched a superb game in their next meeting, striking out 13 batters in a game called because of darkness, but crediting the Chiefs with the victory, 11-1. The Dodgers' only run was a homer by Frank Gagliano.

The Vikings swept two from the Mets, winning the first, 12-10, under the pitching of Dave Anthony Mazzuca and Ed Mayer.

The news on flood control was contained in a letter to the board from George Albanese, county administrator. He said that county help for work along Van Winkle's Creek in Springfield, long sought by the board and by that township, had been "approved for funding" by the Union County Board of Freeholders, and that a bond ordinance to provide the money should be voted on by early

The Dayton fire doors were the subject of a resolution presented by Natalie Waldt of Springfield, buildings and grounds chairman. In approving the measure, the board criticized state standards which limit the amount of glass in each door to 100 square inches.

The board also approved a district vocal workshop to be held May 20 at Johnson Regional. A total of 240 youngsters from all four schools will take part in the program, to include an evening concert

The Braves beat the Mountaineers, 10-7. Kirk Yoggy was the winning pitcher, supported by Bill Rose and Ben Mirto who both hit triples.

In the American League, the Royals played twice. In the first game against the Yankees, home runs were hit by Ricky Brahm of the Yankees, and John Schone of the Royals. Key plays were made by Tim Sexton and Andrew Stypa. In their second game, the Royals beat the Angels 2-1, thanks to strong pitching by

Bicentennial symposium Legislative history to be topic

In the spring of 1775, a year before American independence was declared. New Jersey's 13 counties sent 85 delegates to a Provincial Congress formed to lead the colony in the struggle with Great Britain.

On May 24 the New Jersey Historical Com-mission, the Mercer County Cultural and Heritage Commission and the State Bicentennial Commission will present a Bicentennial symposium on the history of the New Jersey Legislature at the State Museum auditorium. Trenton. The program will commemorate the 200th anniversary of the First Provincial Congress of New Jersey. The State Legislature, the State Library and the State Museum have

also joined as sponsors of the program.

The Provincial Congress, which met in Trenton May 23-June 3, 1775, was an extralegal body. Local meetings and ad hoc committees popularly elected the delegates, and the Provincial Congress quickly superseded the colonial assembly. It assumed governmental functions and enacted tax, militia and election laws and created a Committee of Safety.

The program will consist of three speakers.

EARTHBOUND

The parks and remaining open spaces within our metropolitan area are just now coming alive with spring foliage. Although much of the wildlife that was characteristic of metropolitan New Jersey prior to the urban sprawl of this century is now gone, the birds-or many of thera-have survived and continue to reside in. and migrate through, our area.

Pick any city park, as I did one morning recently; bring a simple bird guide and a pair of binoculars.

The lower branches of the trees in the park I chose contained no less than 20 of the beautiful. delicate Myrtle Warblers which winter in the south and travel through our area in the spring

There were a number of Palm Warblers, Ruby-crowned Kinglets, and White-throated Sparrows, Hermit Thrushes, Brown Creepers, and Song Sparrows filled the park with their various calls and mimicry. Rufus-sided Towbees, Black and white-Warblers, and Goldfinches busily made their way around in the midst of mating rituals, nest-building, and early morning food gathering.

Along with these somewhat more uncommon travelers were some few winter residents late to leave on their summer journeys -Juncos and

There were many sorts of Sparrows, also Grackles, Flickers, and one Yellow-bellied Sapaucker, two Downey Woodpeckers, two Brown Thrusbers, a Brown Creeper, a Cardinal, and on a small lake in the middle of the park, a pair of Rudely Ducks.

I am told by bird watchers who frequent this park that the day of my visit was an "average" day population wise, and that the approaching days of spring will bring with them even greater numbers of winged life. The parks then of Newark, Paterson and virtualy all of Union and Essex County still provide a home for beautiful creatures. One must simply take the time to observe them.

Provincial Congress, and the powers of the

state legislature under the Constitution of 1776.

Gerlach is the editor of "New Jersey in the American Revolution, 1763-1783; A Documentary History," which the Historical Commission will publish this year.

Professor Peter D. Levine, History Department, Michigan State University, will deal with the legislature under the Constitution of 1844 and its adaptation to meet changing needs. He has published articles in the

On my last birthday I was 30. It was a painful milestone to hit. Between 18 and 28, my looks didn't change; but in the past two years, the wrinkles have begun to come. I have lines on my forehead, between my brows, and around the mouth. On top of this, my husband treats me as if I were

This morning was Sunday. I fixed breakfast and got the children ready for church. My husband didn't lift a finger. When I complained that he should help the four-year-old, he announced that he wanted to read the paper. We left the house with five minutes to spare. As my husband waved goodby to us, he told me that I should get up 15 minutes earlier so that we could leave on time. Tell me, how can I this insoluble

Wrinkled Maid

Dear Maid: By the time most of us are 30, age begins to show unless we are a Dorian Grey. In order to camouflage this, why not invest in a consultation at a beauty salon. Facials, exercises, makeup, and proper skin care can help. Hair styling is also important.

Why not get up earlier and take the children out to breakfast and then to church? This just might jar hubby's sense of responsibility. In any case, you'll get to church on time.

Dear Pat and Marilyn:

My job requires a lot of sitting. While at work, stress is my middle name. It is a position that may open some doors for me so I really do my When I come home, I unwind by tinkering with my old car. Naturally, my hands get dirty and my wife seems to find this upsetting. She says that no executive should go around with dirty hands. Dear Wife: Many wives have the same problem. One of the first things you can do is to make an appointment with the family doctor. He can prescribe a sensible diet and exercise program for your husband. If he won't listen to the doctor, there is one other alternative. Fix meals that are attractive but contain few starches. Place the food on his plate and cut down on the portions. Keep those meals 'weigh' down.

He established an art center in Greensboro, N.C., studied at the University of Chicago and directed Chicago's South Side Community Center.

The Pennsylvania native found his permanent home in New Jersey when, in 1947, he became director of the Princeton Group Arts for six years. Since 1965 he has been freeisneing, teaching and running his "Studio on the Canal" in Princeton.

His work in recent years, besides active painting, bas included teaching as an occupational therapist at Skillman Neuropsychiatric Institute and service as instructor and artist-in-residence at Trenton State

Eschewing "fame and notoriety," as he puts it, throughout most of his career, Goreleigh has nevertheless built a comfortable reputation in art circles throughout the state

He is perhaps best known for depicting the plight of the migrant worker in central New Jersey in a series started in 1962. The "migrant series" (a dozen oils and some 15 water colors) has been shown in numerous places and the artist hopes that someday the work will appear

Regrettably, Goreleigh notes that the series is not often regarded for what it is ... a work of art. "While I had boped to realistically chronicle the life of the migrant, I did not intend to propagandize," he says

What brought Geneleigh to Lavingston was a desire to finish his education. "I had a great sense of purpose and I said, Well, I'm going to do it," and I followed through:

Goreleigh says he had heard about the kinds of program at Livingston for "non-traditional" students. "I felt they must have something there and I wanted to be part of it.

will sponsor a series of employment workshops for veterans during May at Kean College, Union. The program will consist of three

workshops to be held today, May 15 and 22.

The Veterans Education Corps (VEC) is funded through the Department of Higher Education, Title I. One major concern of the VEC is New Jersey's low rate of utilization by veterans of their GI Bill benefits. Outreach centers have been established at Elizabeth, Newark, Jersey City, Paterson, Trenton, Camden, New Brunswick and Asbury Park, To make these centers convenient to veterans, they are located at employment centers, state agencies and storefronts. Each year the Veterans Education Corps provides counseling and supportive services to over 3,000 vets in New Jersey.

Since the expansion of the program, an employment specialist has been hired to maintain liaison with employers and training agents throughout New Jersey. Donna Sisto, the employment specialist, is helping veterans to upgrade their vocational goals through employment, on the job training programs, and

apprenticeship opportunities. The workshop programs are open to any veteran in New Jersey and the public at large All workshops will be held on campus, the first workshop will run all day on May 8, with the following two workshops to begin at 7 p.m. For registration and further information
