# Dwyer, parochial student, earns Merit Scholarship

GERARD J. DWYER

Gerard J. Dwyer, son of Mr. and Mrs. James F. Dwyer of Wood Valley road, Mountainside, has been named a recipient of a corporate-sponsored four-year Merit Scholarship. He is a senior at Roselle Catholic High School.

Gerard, who plans to major in biomedical engineering at college, was awarded a Western Electric Fund scholarship, one of several supported by the fund for Western Electric Coemployees' children who attained finalist status in the National Merit Scholarship program.

At Roselle Catholic, Gerard is vicepresident of the National Honor Society, a member of the math team and a tutor. He also is a member of the varsity golf and soccer squads and was named to All-State Parochial and All-County soccer teams. He plans to attend either Brown University or Washington University. The following is the full text of Schmedel's comments:

"It has become fashionable to blame the state for the problems of our school system, financial and otherwise. The results of last week's election make it pretty clear that this school board faces its most crucial problems right here in Mountainside.

# ballot cast by Councilman William Cullen, who had recommended a cut "in the range of \$30,000." Councilmen Nicholas Bradshaw, Bruce Geiger, Donald Halbsgut and Abe Suckno were in favor of the \$20,000 figure; John O'Connell was absent. Approximately 15 persons attended the open session and heard proposed initial figures ranging from a low of

polls last month.

\$10,000, by Bradshaw, to \$32,000 suggested by Cullen. There also was disagreement on whether or not council should view the election results as a "voter mandate" to reduce the budget considerably, if at all.

Bradshaw was the first to comment in the discussion, noting his "bias would be to hold the reduction to a minimal figure... in the neighborhood of \$10,000 to \$15,000."

Geiger said he would like "to go on the high side" of Bradshaw's proposal. He noted that the educational cost per pupil in Mountainside must "necessarily be higher" than in larger school districts because "fixed costs are spread over fewer students. There's not a lot of money that can be cut out of this budget and still be able to retain the type of education the majority of board members recommend," he said.

He warned the board, however, that in the future "it has to look very carefully at ways to keep the perstudent cost from skyrocketing to a ridiculous amount of money" and suggested the board study "better utilization of people—teachers and the managerial staff."

Cullen said that unless there was a cut in the \$30,000 range, he would vote "for a zero cut." "To lower the budget by \$10,000 would be an exercise in futility... Are we to say to the citizens who voted it (the budget) down, 'You're all wrong'? The reason for that vote is self-evident. They believe the budget is

too high."

After casting his "no" ballot, he reiterated his belief that the figure was "an insult to the taxpayers" and that he "would vote for a zero cut, so people do not get the impression I am antieducation."

Suckno stated he did not view the election results as a mandate from the voters. "What the people have said to (Continued on page 2)

# Little League lists opening

The Mountainside Little League will open its 24th season of play on April 23, it was announced by the league's president, George Yoggy. The parade will start at 9 a.m. from the corner of Wood Valley road and Stony Brook lane and continue through town, ending at the entrance of the Little League field behind Deerfield School.

The Girls' Softball League, the Fire Department and Rescue Squad representatives will also be in the parade accompanied by the Jonathan Dayton Regional High School Band. Bill Biunno is chairman of the opening day festivities.

# GOP selects officers; membership drive set

The Republican Club of Mountainside elected officers for the 1977 term and announced plans for a vigorous membership drive by calling attention to its "rebirth" with regular monthly meetings. Elected county and state officials will be speakers whenever possible.

The new officers are: Roy Mumford, president, 878 Standish ave.; Monroe Nestler, vice-president, 1103 Saddle Brook rd.; Tom Bailey, treasurer, 312 New Providence rd., and Tim Benford, secretary, 1464-Whippoorwill way.

Assemblyman Donald Di Francesco was guest speaker at the club recently. He detailed the difficulties of being a minority member of the legislature. The lawmaker cited a number of examples in which the majority party exercised procedural rules to "frustrate" Republican assemblymen

from adequately perusing bills before the legislature.

A spokesman stated, "With regard to the June 7 primary election, the club advises residents who have not previously voted as Republicans that if they wish to do so they must file a party

SCHOOL BUDGET

As parents of a Mountainside school child, we are quite disturbed at the defeat of the school budget and the election to the Board of Education of the anti-budget ticket of Mr. Speth and Ms. Knodel

Mr. Speth and Ms. Knodel have alleged there is waste in the school budget, but they have not done a very convincing job of identifying it. Their allegation that our ratio of only 15 pupils per teacher is wasteful is totally misleading; the relevant fact is that Mountainside has an average of aboute 23 pupils per class, which is hardly low.

In a letter published in the Echo several months ago, Ms. Knodel decried the board's approval of the hiring of a kindergarten aide at a salary of about \$2,000 for the remainder of the year, even though the overcrowding in the kindergartens was in violation of the state maximum number of pupils per class. Could the \$1 in property taxes per home that would have been saved by not hiring the aide possibly have outweighed the potential harm to the children?

The real thrust of the Speth-Knodel campaign seemed to be that the budget should be automatically reduced from last year because some of the school system's costs have gone down. This nores the fact most other costs have gone up.

The proper inquiry is why Mountainside, which has the highest mean family income in Union County, has rejected a budget that was under the state spending limit at the same time that its less-wealthy neighboring communities are distressed over the adverse impact of the state limits on their schools' quality.

If there is anyone in Mountainside who fails to believe in the merits of good education for its own sake, then perhaps he will be moved by the fact that the small savings in property taxes that may result from educational penny-pinching will be far outweighed by the harm to his property values that will surely ensue.

That this is a real possibility is demonstrated by the fact that much is already made of our high school situation in the area's real estate market

CLASS SIZE

Mountainside voters have long supported a fine school system.

Those of us not directly involved with the schools have relied upon Board of Education members and candidates for assessments of our system's progress.

A figure widely disseminated by the reelected Knodel-Speth team last week clearly misinterpreted the trust voters have traditionally given to board members and candidates.

It is, perhaps, one thing to recommend a "no" vote on the school budget. After all, that's the candidate's value judgement at work. But to manipulate figures, giving a false reflection of what our local taxes have bought—that's something else.

Our 851 kids are served by 38 classroom teachers. The studentteacher ratio, thus, is 22.4 to 1. Not 15 to 1 as Speth-Knodel repeatedly told us. A glance down the school roster shows that each kindergarten has 25 little ones, one first grade room has a population of 27, and two middle school classes contain 28 students.

Other figures in this team's camwere gross "political" exaggerations. I urge all voters to come to Deerfield gym any Tuesday night to hold their Baord of Education accountable. Don't be short-changed on what our taxes are buying.

(Continued from page 1) budgets last week, our beautiful town was in the minority of 20 percent that lost out. And I mean just that. Our town and our school system lost.

'Our budget was defeated by people: "Who accepted the increase in the regional high school budget;

Who did not attend our budget

'Who did not attend the meeting at which the board adopted the budget: 'Who did not accept the board's repeated public invitations to learn the

facts behind the budget figures; "In sum, who did not make the effort to find out why this was a good budget - fair for both the schoolchild and the

taxpayer.
"Worse: The budget was defeated by people who preferred to believe the worst - not the best - about our schools and about the dedicated men and women who run them and teach in

'Two members of our present board led the attack on the school system by

distorting the truth. Three examples: "First, we are budgeting for a drop in enrollment next year of 50 children -

not 100. "Second, this year we have 38 homeroom teachers for 851 children, an average of 22.4 children per teacher even allowing for the small, transitional classes that have been so successful. In addition to these 38, we have 13 teachers for physical education, art, music, home economics, shop, typing, and a math clinic - all vital programs. We also have three librarians, one guidance counselor, and eight members-including two parttimers-of a child study team. They are important to the success of our system, too. By dividing the total number of children by the total number of teachers to arrive at a teacher-pupil ratio of one to 15, the opponents of the

system have given a false picture of it. "Third, we have not given our superintendent a six percent pay rise for next year on top of his present salary. The board members have not discussed pay for next year with the superintendent or even among themselves. The superintendent, moreover, has no expense account. He is reimbursed for travel on school business and for attendance at conferences, and only for out-of-pocket expenses supported by

vouchers and approved by the board. 'The attitude toward our schools of those who voted against the budget last week hurts. However, I believe that, in fact, the board is at fault.

'It is at fault because it has not gone to the voters and shown them that we have a school system to be proud of and that we have every reason to continue to support it.

"I believe the board must begin immediately to use every possible means of educating our community about our good schools. Then, next year, the budget will pass."

IN CONGRESS

# **Matthew Rinaldo**

12th District

In a few days, President Carter will announce his energy plan to a special session of Congress. Judging by the news leaks and the reported comments of energy czar James R. Schlesinger, the administration plan will call for national sacrifice and far-reaching changes in the way we live, travel and use the earth's energy resources.

Since energy conservation offers the dual advantage of immediate returns and reduced pollution, it will undoubtedly-and quite properly-be the key theme of the president's proposals. Such a policy would be justified, too, by the fact that as the world's biggest oil user, the United States bears a heavy responsibility to curb waste and promote energy efficiency.

Whatever program is offered, the Carter Administration must convince the American people that there really is a shortage of energy and that it is not just some contrived device of oil and gas producers to force prices even higher and to voraciously boost their

# Skrynas given executive post

Robert F. Bladis, president of Atlantic Metal Products Inc. of Springfield, has announced the appointment of Eugene T. Skrynas of Forest Hill way, Mountainside, to the position of vice-president, engineering.

Skrynas joined Atlantic in 1965 as a staff engineer and was promoted to chief engineer in 1967. He received his undergraduate degree in engineering from Rutgers University and his master's degree in industrial engineering from the New Jersev Institute of Technology (formerly Newark College of Engineering).

This should not be difficult, for virtually every responsible study in Congress and by independent experts in the field has shown that energy demand

is outstripping energy production. It is clear that unless we change our patterns of energy use, a worldwide shortage of oil will be experienced by 1985. The kind of fuel shortage that last winter forced factories, schools and businesses to close would become a chronic condition throughout the world, even during a mild winter.

New oil discoveries, like those in the North Slope of Alaska, are inadequate to avert the impending shortage. All of the North Slope reserves would meet worldwide oil demand for only six months. The same is true of the North Sea oil resources.

Fuel consumption in the U.S. was slowed only during the Arab oil boycott. Since then the U.S. has become even more vulnerable. New Jersey, for instance, now receives 90 percent of its oil from abroad, according to the state energy office.

President Carter's energy program will probably renew the commitment made by Congress in 1975 to build up a strategic oil reserve of at least 500 million barrels by 1982. It would provide a short-term cushion against another oil boycott in the event of a new Mideast war. The cost of the oil reserve is estimated at \$8 billion. So far we are one-fifth of the way towards meeting the schedule.

Tax incentives and penalties for oil and gas conservation and waste will be included in the President's program, according to White House sources. Attention will be given to auto travel. This is hardly a surprise since Americans have shown a preference for gas-guzzling cars. But under the Carter plan, they probably will pay a penalty of several hundred dollars if they continue to purchase cars whose gas mileage exceeds certain standards.

Reliable estimates show that the United States would reduce its annual payment for oil'imports by \$20 billion a year through a 25 percent reduction in auto travel. Accomplishing that goal will require widespread car pooling, including inducements to employers.

us is 'Please review the budget. We seem to be confused.' I don't look on the vote as a mandate to cut out or a mandate to raise." He then submitted a \$23,000 cut, with \$20,000 to come from the board's unappropriated \$60,000 surplus.

Halbsgut, who noted the council has no say in how the line items should be reduced, proposed a reduction of \$14,000. He also stated he thought the budget figures had not been broken down "so I could determine for myself what's important and what is not in this budget." This was disputed by school board president William Biunno, who was in the audience. Biunno stated the council had been given "an absolutely complete package of every line item in

Biunno also commented prior to the vote, "I'm hopeful that when you make the final determination, it will be based on the children and the school system first and that the taxpayer be considered second. I'm concerned about insulting the children. The burden of cuts or no cuts always falls on the Board of Education. The majority of the board is ready to accept any reduction but we hope it is as small as possible and as small as necessary."

Concerning the question of voter mandate, board member Scott Schmedel asked that council compare the number of votes cast in opposition to the budget, 907, to the total number of registered voters in the borough, 5,368, and the fact that "at least 909 persons voted in favor of a losing candidate who campaigned openly in favor of the

# Tax on rebate to be due in '78 --McDonough

State Senator Peter J. McDonough (R-22) warned this week that most taxpayers are not aware that the homestead rebates received under New Jersey's income tax program must be treated as taxable income on the 1977 federal income tax return. He said the governor's "silence" on this fact is "one of a long series of deceptions" surrounding the rebate program.

"Every taxpayer who itemizes his deductions must declare the full amount of the rebate as taxable income for 1977," McDonough said. "The state has not withheld the federal tax share so the full impact will be felt in one lump when taxpayers file their federal returns next spring.'

McDonough criticized the rebate program as a "\$268 million bribe," and accused Gov. Brendan T. Byrne of "Clumsy club house politics" for having his name and office imprinted on the checks and mailing envelopes. He also criticized the timing of the checks as "politically motivated," as they are mailed just before the primary and general elections

"I expect we will have enough Republican votes in the next legislature to kill the entire income tax package and the 'turnstile taxation' rebates as well," McDonough, the Senate's minority whip, said. "The fact that the rebates are taxable income is another bitter pill for the taxpayers to swallow. and I doubt they will be impressed by the Byrne administration's highpowered public relations program aimed at convincing us the income tax program is worthwhile."

# Daas stars but Dayton loses, 8-3

By MICHAEL PETRO The Jonathan Dayton Regional High School baseball team dropped an 8-3 decision to Caldwell for its second loss in as many games. The Bulldogs will play Summit today and Hillside Saturday, both on the road.

Dayton was never in the game as Caldwell took a 5-0 lead after the first two innings. The margin grew to 8-1 before the Bulldogs rallied for two runs in the final frame.

Mike Petro absorbed his second loss for Dayton. Rich Galinkin took over in the fourth, and Dave Ironson came on to finish up in the seventh.

The Bulldogs scored in the third on singles by Henry Daas and Bob Boh. od. Coach Edward Jasinki's squad added the final runs in the last inning. Frank Zahn led off with a walk, John Kronert singled and Daas doubled both home with his second hit of the day. The final

The Union County SC will enter regional play Sunday when they travel to Philadelphia to meet the German Hungarians in National Amateur Cup competition.

The Union booters won the right to represent New Jersey when they defeated the Woodbridge Hungarians a few weeks ago for the State Amateur Championship. There will be a bus leaving Farcher's Grove with the team at 9 a.m. with plenty of room for a few Union County fans. There will be a slight charge for non-team members.

Last night was to have been a busy one for the Elizabeth Lancers. The first team was scheduled to meet Inter in New York and the junior team was to have played against a high school allstar squad.

THE COSMOS will be on the TV tube tonight over WPIX, channel 11, at 8 p.m. The game will come from Hawaii and it will be the second match of the regular season for the Cosmos. The Cosmos dropped their opener to Las Vegas, 1-0, Saturday night.

I said last week that the Cosmos will start slow and then become unbeatable, so let's see what happens tonight. You fans in the area can hop over to the Meadowlands this Sunday and support your team when they play their home opener against Rochester at 2:05. If you can't make the game you will be able to hear it on WOR radio, 710 on your dial.

ONE OF THE FIRST soccer interviews ever to appear in this column one that featured the Elizabeth Lancer goalie, Andy Teutlich. Andy was a little on the controversial side. During the off-thecuff-part of our talk, Andy told me about the way he would like to play the goal position. He told me he would like to play almost in the fullback position. Andy wanted to come way out of his net and meet some of the forwards 15 and 18 yards out. Teutlich told me that the man would have to be good enough to go around him or over him. With a goalie like Andy in front of you, you don't have a chance of shooting for the goal and it would tend to make you shoot wide of the net. If he is in close enough you can't go over him and in those days Andy could stop anyone from going around him.

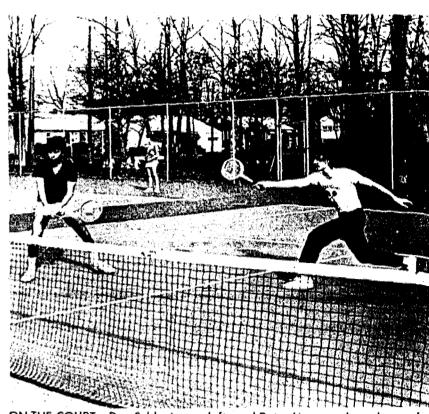

To me this sounded good but a little risky. Andy knew the team management would never stand for it, so he never tried it at Farcher's Grove. All this took place in the early 70s when Teutlich played with three National Championship teams. Twice with the Lancers and once with the Greek Americans.

Last week I saw Tampa Bay play in the Meadowlands and was amazed when I saw Tampa's new goalie, Paul Hammond, from England. Sometimes he met the opposing forwards on the 16meter line. I don't mean that he ran out and beat a man to the ball, I mean he was playing there and waiting for the man to come to him. I don't know why no one took any long high shots at the goal but he stopped most of the shots before they even got off the ground or they were wide of the net. Teutlich told me he could always get back if he had

Tampa will play the Cosmos on Saturday, May 29, and I am sure that will be one of the nationally televised games. If Hammond plays in this game you will see what Teutlich means about a goalie playing in the fullback position.

# Dayton golfers divide; to face Caldwell today

By MIKE MEIXNER

The Jonathan Dayton Regional High School golf team began its 1977 campaign by splitting two dual matches. The Bulldogs' beat Roselle and West Orange but lost to Millburn and Summit. The golfers will oppose Caldwell

ANDY KAPLAN, son of Mr. and Mrs. Howard Kaplan of Lelak avenue, Springfield, has earned a spot on the Dickinson College track and field team. The sophomore competes in the 220-yard run for the Carlisle, Pa., college.

Inclement weather conditions marred the opener. Dayton rolled over Roselle, 289-354. Steve Rothenberg shot a brilliant 40 to gain medalist honors. Sophomore Dave Gechlik scored a 46, playing in both matches. Jeff Scholes came through with 44 and Freshman prospect Marty Swanson chipped in with a 47. Mike Rosenberg suffered with the weather, managing only a 49, well above his usual norm. The team was beaten by Millburn, 301-275. The Millers are a highly-rated Suburban Conference opponent.

Coach Raymond Yanchus' team again split Monday's match, losing to Summit, 295-286, but overtaking West Orange, 312-332. Mike Rosenberg shot a 44 to earn medalist honors and Gechlik and Skip Ligouri each recorded a 48. The totals by these three counted for both of the matches. Also shooting against Summit were Rothenberg, Toby Lesofski, and Phil Fantozzi Pitted against West Orange were Neil Tepper, John Irwin and Swanson. The Baltusrol grass is just beginning

to sprout which could explain the higher-than-expected scores by all of the competing teams. The nine-hole par for Baltusrol is 37.

# Linden hearing for malpractice insurance bill

The State Assembly's Committee on Institutions, Health and Welfare will hold a public hearing on the Health Care Malpractice Liability Act on April 27 at 10:30 a.m. in the council chamber of the Linden City Hall on Wood avenue. according to Assemblymen Thomas J. Deverin (D-21) and William J. Maguire (R-22). The bill, introduced by

Maguire, has attracted 17 co-sponsors. The purpose of the bill is to cut down medical malpractice premiums which drive up the cost of medical and hospital care. Irene Salayi, staff assistant to the committee, has asked persons wishing to testify before the panel to contact her at the State House.

"Several county medical societies and individual doctors have endorsed the bill," Maguire said. "We have reached a critical crossroads regarding medical malpractice insurance this year. As of Feb. 1, there is not a single insurance carrier who will insure doctors or hospitals for malpractice. This has forced the state to enter the insurance industry, an intolerable, short-term solution to the problem.'

Maguire has toured the satte speaking in behalf of the bill, A-2375, and acknowledges that the public hearings might lead to amendments to strengthen the legislation.

"It is essential that the legislature face up to the problem of runaway court awards and escalating insurance costs," he said. "My bill takes a giant step in that direction. Assemblyman Deverin and I encourage all interested organizations and private practitioners to attend the hearing on April 27.'

# Cranford chief in sheriff race

Cranford Police Chief Matthew T Haney announced this week that he will appear before the Union County Republican screening committee as a candidate for sheriff in June 7 primary

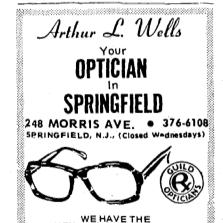

Haney, named to the Cranford Police Department on May 1, 1952, was appointed chief on March 1, 1967.

In seeking the designation to run on the Republican ticket Haney said, "I feel my total background in law enforcement, my executive experience and my ability to develop a good working relationship with all levels of law enforcement, including county, state and federal law enforcement agencies, makes me highly qualified for the important office of sheriff."

ment of Environmental Protection in

the past, but now I'm going to applaud

him for a recent tough letter ne wrote to

the U.S. Environmental Protection

Bardin addressed his letter to Daniel

J. Snyder, the Philadelphia-based

Region III administrator for EPA.

Bardin is justifiably angry at a

proposal to allow a higher sulfur con-

tent in fuel oil burned in Philadelphia.

Even without raising sulfur levels in

fuel oil, the City of Brotherly Love has

been blowing very bad breath across

the Delaware River to Camden and

other New Jersey neighborhoods.

Bardin cited plenty of statistics to show

that EPA has been pretty lax in en-

forcing its own air quality regulations

"While you procrastinate, major

sources in the city continue to pollute

Philadelphia air with thousands of tons

of sulfur dioxide to unhealthy levels,

"Failure to enforce federal law af-

fects the health of residents of the city

and New Jersey residents who travel

into the city. A significant portion of the

sulfur dioxide emissions from

Philadelphia sources travels to New

Jersey where it causes property

damage, damage to crops and con-

tributes a major portion of the high

sulfur dioxide levels measured in

Camden where the New Jersey ... air

quality standards are still not being

Bardin showed figures proving that

Camden had the highest sulfur dioxide

12-month average reading anywhere in

New Jersey during 1975. Preliminary

figures for 1976 showed things no better,

and the first two months of 1977 were

Bardin pointed out that EPA is in

violation of the Federal Clean Air Act

# Growing

Older Most men and women

who reach 62 in 1977 can collect monthly social security checks if they've worked as little as six and one-half years in jobs covered by social security.

People earn retirement benefits by credit for work covered by social security done in or after 1937, the year social security started. The work credit is measured in calendar quarters.

Most employees get credit for a quarter of work if they're paid \$50 or more in that quarter for work covered by social security. Most selfemployed people get social security credit for four quarters in any year annual employment net income is \$400 or more. Most jobs are covered by social

security.

To be eligible for social security retirement benefits you need, at a minimum, quarters of work equal to the number of years between 1950 and the year you reach 62. So. if you reach 62 in 1977, you need-26-quarters-or-six and one-half years - of work credit.

Eligible workers can start collecting their full social security retirement benefits at 65 or reduced benefits at 62.

# Leisure Technology stresses 'light' aspect

the most significant characteristic of the new homes now being offered at our Leisure Technology communities, I'd probably have to sum it up in one word: 'light',''.says.Justin... Segal, regional community concept.

"Obviously," continues Segal, "we consider hundreds of factors in planning our homes and their surrounding en-

This conclusion is evident in the new series of town homes and detached houses recently

neighborhoods at Leisure quality, they also share another element. Regardless of style, each one is constructed and oriented in a manner that emphasizes the com-

placement of windows. The initial impact of each model is one of spaciousness and brightness. Interior floor plans have been designed to emphasize the effect of large windows that present a view of the constantly changing moods of the outside.

"A sense of freedom and openness is found in all of our communities," says Segal. "Each site has been selected for its natural beauty and convenience. As a result, our adult residents enjoy a tranquil atmosphere, yet they're not far from important ocean. metropolitan centers."

Leisure Technology determined long ago that while mature families requirements in a comand gracious homes, there ferences. Some couples dining room and bedrooms tract seek the camaraderie inherent in social activity and recreational facilities. Others are more interested in having a home that serves as a base for traveling. In addition, while many adult families prefer living in modern town homes, others can only be happy in a detached home

The planners at Leisure Technology have created the company's communities with this information in mind. The result has been continuing success in this important and growing segment of the housing market.

Leisure Village West and Leisure Knoll, on opposite sides of Rt. 70 in Manchester Township, are excellent examples of this planning

# Office sold in Verona

Gebroe - Hammer Associates, a Cliftonbased real estate brokerage company, has arranged the sale of a twoand-one-half-story office building at 210 Bloomfield ave. in Verona.

According to Martin Ostroff, G-H vice-president, and Stuart Falkin, sales representative, Gebroe-Hammer Associates sold the property to Fenton Realty for Verona Professional Center, Inc. The new owners intend to upgrade the 12,400 square foot building.

The seller represented by attorney William Lovell Irvington. The former owner was represented by

The public is becoming more aware that insuring their homes against high fuel and air conditioning costs through insulation is just as important as purchasing a refrigerator to insure against the waste of perhaps \$50 or more worth of food. Your home is your largest investment in most cases and protecting it against energy loss by insulation can produce proven profits by reducing your fuel bills

Houses built 10, 20 and 30 years ago were insulated, but as many home owners have discovered the insulation was inadequate in its size and improperly installed by its applicators. The layman might believe that in order to re-insulate an existing house it would require the removal of walls, partitions and etc., but this is not the case. Modern technology has provided means of funneling insulation material through channels and openings that can be reached by trained technicians in this field.

of the chronology highlights of the career of George Harrison as a member of the Beatles and as a highly successful solo artist. George was the youngest Beatle (19) when he four first conquered America

The first side of the LP contains seven Beatles tunes, all written and sung by George. The earliest is "Think for Yourself" off Rubber Soul, then "If I Needed Someone" from Yesterday and Today, and ''Taxman'' from Revolver. His famous guitar work is featured on 'While My Guitar Gently Weeps" from the Beatles White LP and made famous during the concert for Bangladesh. "For You Blue" was released as a single in 1970 (it had appeared on the "Red Apple" label's Let It Be soundtrack). Two of George's best-known songs, ''Something'' and "Here Comes the Sun," are taken from Abbey

The second side has size songs from Harrison's solo career. All were singles. 'My Sweet .Lord'' and

Pulitzer poet will recite

Snyder, making one of his infrequent visits to the East Coast, will read his poems at Kean College, Union, on Monday at 8 p.m. in Hutchinson Hall. The program, part of the college's Townsend Lecture Series, is free and open to the public.

While a student at Reed College, Portland, Ore., where he majored in anthropology and literature, Snyder shipped out as a seaman. In the years after graduation he served on a Forest Service train crew, worked for a logging company, and spent some time as a forest fire lookout.

In the 1950s he became associated with some of the San Francisco poets, and formed close friendships with such ''beatniks'' as Allen Ginsberg and Jack Kerouac (he was the model for Japhy Ryder in Kerouac's "The Dharma Bums." Like Kerouac, Snyder had been attracted to Oriental philosophy. He confirmed that interest by spending a number of years in Japan, several of them in a monastery in Kyoto, studying Zen Buddhism.

Since his return to the united States in 1969, he and his Japanese wife and their children has lived in the Sierra Nevadas in California in a house he built. There he has occupied himself not only with writing and translating, but also with local politics and ecological concerns. His essays, along with some of his finest poems, are in "Turtle Island," a book which won him the Pulitzer Prize for poetry in 1975.

Saint Barnabas Medical Center. Livingston, opened its burn treatment unit on Wednesday, April 6. It is the only certified facility of this kind in New Jersey.

"The unit is dedicated to answering the needs of New Jersey's more than seven million people who have had to live for too many years without a specialized facility of this kind in their state," Kenneth C. Nichols, president of Saint Barnabas, declared. "We believe it will save lives and help ease the trauma and suffering of critically burned persons.'

The 12-bed burn unit combines the most advanced life-support and monitoring facilities used in modern intensive care units with sophisticated special features for burn treatment.

John D. Phillips, executive director of the Medical Center, in a letter to all hospitals in the state said, "Saint Barnabas Medical Center provides a full range of diagnostic and therapeutic services for burn victims, that also includes an advanced capacity for shock assessment and treatment, hydrotherapy, multi-purpose procedure rooms, hyperbaric oxygenation, and reconstruction and rehabilitation.

Dr. Frederick W. Fuller, who has had extensive experience in burn therapy, is in charge of the unit. A physician team of four general surgeons and six plastic surgeons experienced in burn care and rehabilitation serves the unit

Support from Saint Barnabas' other medical speciality physicians is immediately available for burn victims, especially in renal and pulmonary medicine, cardiology, urology, pediatrics, psychiatry and surgical physiology. Also available is the Medical Center's large dialysis unit for the treatment of kidney failure.

Assigned exclusively to the burn unit will be a staff of 70 specially trained nurses, physical therapists, occupational therapists, dieticians, laboratory personnel, pulmonary therapists, social service workers and other related personnel.

The burn unit is served by a system that permits air supply, temperature and humidity to be controlled individually in each room. There are special facilities for hydrotherapy and minor surgical procedures.

The unit has its own x-ray equipment and a sophisticated monitoring system for patients, with display consoles both at bedside and nurses' stations

# Alps Festival opens in July

An enlarged German Products Exposition, the first international beer exposition-featuring over 80 brands and with beer and cheese tasting included-and an expanded outdoor art show are among highlights of the fifth annual German Alps Festival to be held at Hunter Mountain, Hunter, N.Y., July

The German Products Exposition includes consumer and industrial goods ranging from glassware to printing

Continuous compah music, featuring a brass band from Schopfheim, Germany, folk dancers, Alpine horn players from Bavaria and an Alpine bell ringer are scheduled. There also will be hang gliding daily from the 3,200-foot summit of Hunter Mountain. Forty gliders from across the country will be participating in the German Alps National Meet the final weekend.

Electronic bed scales are available to precisely monitor any changes in patient weight. The unit even has its own food-preparation facility, where special dietary supplements can be made for burn victims

Saint Barnabas' helicopter pad can be used to speed the transfer of critical burn cases to the new unit.

 The Medical Center will work in close cooperation with the College of Medicine and Dentistry of New Jersey in clinical research, teaching and burn therapy in the new unit.

State approval cleared the way for Saint Barnabas to utilize a gift of \$1 million payable over two years to the burn unit by a donor who asked to remain anonymous.

The burn unit was built in 1969, but was never opened because of the high operating cost it involves and the inability of health insurance carried by most patients to cover those costs. The unit had been used as temporary quarters for surgical intensive care.

# Students to aid Kean College in fund-raiser

The fourth annual Kean College of New Jersey Alumni Phonothon will be held Mondays through Thursdays beginning Monday and lasting until May 5. This year's campaign will involve the assistance of over 200 students, manning the telephones for the 12 evenings. Money raised will be committed to the purchase of classroom equipment, scholarships and campus-wide projects.

Student groups participating include the Delta Zeta Chapter of Delta Sigma Theta, Hotline, SCATE, Graduate Student Council, Sigma Kappa Phi, Lambda Alpha Sigma, Campus Ministry, Jewish Students Union, Physical Education Club, Residence Hall Association, Student Speakers Bureau, Fine Arts Students Association, ACM and the Political Science Club.

The Alumni Association executive board and members of the Kean College faculty and administration will assist with the Phonothon activities. The student group which raises the most money will receive a \$100 prize for its organization.

Phonothon Chairman Michael Lunga of Berkeley Heights indicated that the Alumni Association has set its goal at \$35,000 for this year's campaign. The 250 students and alumni volunteers involved in this program will be calling some 8,000 alumni residing in New Jersey and neighboring states.

### Catholic university topic of symposium

# 120 lifeguards sought for state beaches, parks

The Department of Environmental Protection (DEP) will employ 120 state lifeguards at 16 inland parks and ocean beach areas this summer. About half of these positions will be filled by new lifeguard applicants; the balance by returning guards.

Director Alfred T. Guido of DEP's Division of Parks and Forestry said positions are open to both New Jersey and out-of-state residents age 16 or over. Nonresidents will be hired only if there are no qualified New Jersey applicants available, he said. Successful applicants will receive a minimum rate of \$2.50 per hour and have an average 40-hour-work-week for the summer period.

Guido said that the test includes a 400yard swim, a simulated rescue at 50 yards, a 200-yard sprint on the beach, a written exam and an interview.

Applications may be obtained from the Operations Section, Bureau of Parks, P.O. Box 1420, Trenton, N.J. 08625, or by telephoning (609) 292-3094.

Tests will begin at 10 a.m. as follows: South Jersey inland area positions; Bass River State Forest, Saturday, May 7 (Rain date—May 8);

Central Jersey inland area positions: Spruce Run Recreation Area, Saturday, May 14 (Rain date-

North Jersey inland area positions: Hopatcong State Park, Saturday, May 14 (Rain date-May 15);

12 senior citizen members of the Mount Carmel Guild's Visually Handicapped Division.

The program will include instruction on diet, insulin regulation, handling medical emergencies and planning for vacations and other travel. Participants are being asked to bring a picnic-style lunch. Beverages will be provided free of charge.

"We plan to use the foods the participants bring as a springboard for discussion of proper diet," Mrs. Robinson noted. "Many diabetics have no idea of the wide variety of tasty foods and ethnic choices available within the framework of their diet restrictions."
