RETIRING CHIEF—Chief Edward Mullin, Mountainside police chief for 32 years, shown here in his office, will retire July 1.

## Chief Mullin recalls 32 years on force

How does a community say goodbye to an employee with 32 years of service? For Mountainside Police Chief Edward Mullin, who will retire officially July 1, it won't be easy saying goodbye either.

That's because Mullin has made Mountainside his life.

Born and raised in the borough, Mullin has witnessed the growth of the police department from a five-man force with one patrol car to a 20-man squad with sophisticated equipment and a new headquarters. The old headquarters housed the force from 1905. He's also seen the borough grow from 2,500 when he joined the force in 1948 to more than 8,000.

"There are more patrols now, more specialization and better technology," he says. "We now have detectives, juvenile officers and traffic safety where before, this work was handled by whoever happened to be on the shift at the time."

In addition to more centralization and improved administration in the new headquarters, the chief labels better training and the use of scientific techniques as major advances in the fight against crime.

"We still don't have a crystal ball yet," he says, "but the use of the computer for vehicle identification and crime information plus other advances such as radar are tremendous tools and time-savers."

Mullin, 56, served as a patrolman for 10 years before being promoted to sergeant in 1958. Two years later, he was promoted to lieutenant. He served

as captain from 1967 to 1969, when he was appointed to replace Police Chief Christian Fritz, another 32-year veteran of the force.

After graduation from Jonathan Dayton Regional High School, Mullin served in World War II with the Second Infantry Division and participated in the Battle of the Bulge, the Rhineland and Ardennes Forest. His participation in the fight across Europe all the way to the Czechoslovakian border won him four battle stars, a Purple Heart, a Bronze Star and a Presidential Unit Citation.

Mullin served as a command sergeant major in the 50th Armored Division of the National Guard and was called to duty during the Newark riots in 1967.

"It's been very satisfying to have an active job working with the public," he says. "Everyone is worried about job security. It's a job with good benefits and pension, but it's very tough on your social life since your activities are often limited by shift work."

He met his wife, the former Betty Shelby of Plainfield, at a family wedding, and they were married in 1949. Two years later she won the title of Mrs. Union County in the Mrs. America Contest.

He says his immediate plans will focus on his family, which includes Diann, 23, and Kathy, 25, a special education teacher in Manassas, Va.

The Borough Council recently passed a resolution honoring him for his years of service. It's been an honor to have served, he says.

## Regional board looks at transportation costs

The Union County Regional Board of Education voted Tuesday night to look into transportation problems in the school district.

A resolution to renew a contract with the Wussler Bus Co. for transporting Mountainside students to Jonathan Dayton Regional High at last year's price was tabled so the members can get other estimates.

Under the present contract, the company provides 10 buses and two standby buses at a per diem rate of \$66.28. The total contract is \$121,292.40, based on a calendar of 183 days.

Budget allocation for bus transportation for Mountainside students is \$133,000.

In other transportation business, the board voted to continue to supply two buses for June to three special education students at a total cost of \$4,312. It will investigate other methods of transportation for the 1980-81 school year.

The Squire Transportation Co. charges a per diem rate of \$33.40, or a total fee of \$2,004, to transport two Springfield students to and from David Brearley Regional High. It charges \$38.60, or a total of \$2,316,

to transport one Berkely Heights student to and from the Arthur L. Johnson school.

In other business, the board granted a request from the Jonathan Dayton Varsity Club and the Jonathan Dayton Band Parents Association to use that school's parking lot for a fund raiser during the U.S. Open Golf Tournament. The parking lot will be used as a fund raiser on June 14 and 15 from 8 a.m. to 8 p.m.

The board also introduced on a first reading a drug policy to be printed in the student handbooks in September. The policy states that a student

possessing or under the influence of drugs while on school property will be suspended from school for up to 10 days for a first offense.

On second offense, a student will be expelled or given another suspension after a hearing by the board of education.

In addition, the proposed policy states that the incident will be reported to the police.

The penalties for selling drugs under the proposed policy are expulsion or suspension for a first-time offender and permanent expulsion for a second-offender.

## Kennedy sweeps in borough; local candidates unopposed

Like the rest of the state, Mountainside Democrats supported Senator Edward Kennedy over President Jimmy Carter by roughly a 3-2 margin. Kennedy received 174 votes and Carter garnered 104.

Less than 20 percent of the borough's registered voters turned out, with Republicans outvoting Democrats about 2 to 1.

In the Republican "beauty contest" for president, Ronald Reagan, with 482

votes, garnered more votes than all the other candidates combined. George Bush received 110, while perennial candidate Harold Stassen received 12. On the Democratic side Lyndon Larouche received a token 7 votes.

Unopposed Republican Borough Council candidates Timothy Benford and Louis Maas received more than 500 votes each, while Democratic hopefuls Stuart Lutz and Frances Ehman garnered 97 and 95 votes, respectively. Congressman Matthew J. Rinaldo,

running unopposed for renomination in the 12th District, received 533 votes.

While Democratic Party choice Charles Leary defeated Rose Monyek, running on the slogan "checkmate inflation," 59 to 49.

Running opposed for the Republican nomination for county sheriff, Alfred Vardalis received 506 votes. Ralph Froehlich, running on the Democratic party line, garnered 64 votes, defeating Nicholas Maruschak in the borough by 16 votes.

In the 16-candidate contest on the Democratic side, incumbents Walter Boright and newcomer Gerald Green, both on the party line, led all candidates with 67 and 61 votes, respectively. Joan Allen, running with the "regular" Union County Democratic Organization, received 61. Incumbent party line candidate Thomas Dillon garnered 54 votes.

Republican Freeholder candidates were unopposed.

## Committee maps plan for farewell fete to honor school superintendent

Reservations are now being accepted for the community reception for retiring Mountainside Superintendent of Schools Dr. Levin B. Hanigan. The event will be held June 29 from 3 to 5 p.m. at the Mountainside Inn on Route 22.

Hanigan has served as superintendent for 20 years.

Tickets are available from any one of the 28 members of the organizing committee for the event, the secretaries of the Beechwood or Deerfield schools, the Board of Education offices and Borough Hall. Tickets are \$10, which covers hot and cold hors d'oeuvres and cocktails.

Committee member Mabel Young is compiling a booklet of communications and good wishes from those unable to attend the reception. Telegrams and letters should be addressed to Young at 1454 Deer Path, according to a Board of Education spokesperson.

In addition to Young, committee

In the search to replace Hanigan, Williams, board president, has announced that the board is on schedule.

The board received 69 applications, with many of the candidates from New Jersey and the East. But applications were received from as far away as Arizona and the Middle East.

After screening all applicants, the field has been reduced to 15, who now face individual interviews with the board. The target date for selection is July 1.

PLANNERS—Members of the committee planning the reception to honor Dr. Levin B. Hanigan are, from left, Dr. Edward Nolan, Robert Britton, Sylvia Levy and Wilhelms.

## Dayton 'bowl' team has most of the answers

The Jonathan Dayton Regional High School quiz team last week won the championship of the "High School Bowl" competition over Suburban Cablevision TV-3.

The Dayton team of Alan Efron, Robert Schwab, David Wasserman and Andy Peskin overcame a 20-point deficit in the final period to edge Union Catholic, 395 to 335.

The contest was a rematch of an earlier confrontation in which Dayton defeated Union Catholic, 240 to 220, last October. Dayton also outscored New Providence, Summit and Hillside en route to the top spot in the 32-team competition.

Each contest was a test of knowledge in such fields as science, math, history, literature, the arts, sports and current events. The Dayton team also scored particularly well in the spelling bee round in each contest. Speed in determining the right answers was a vital factor in the "toss-up" rounds.

Victories in the earlier rounds were rewarded with several hundred dollars worth of book for the Dayton library. The tournament crown brought with it a trophy and a videotape recorder system.

Dennis Fox, the team adviser, noted that Dayton has been invited to defend its championship in next year's "College Bowl."

SCHOLAR-ATHLETE—Gerhard Scheich, son of Mr. and Mrs. Hermann Scheich, receives from Richard Everson, dean of student affairs at Stevens Institute of Technology, Hoboken, the Joel E. Crouch award for the most significant contribution to soccer at the institute during his four years there. # Dayton High golfers finish with 90 log

The Jonathan Dayton Regional High School golf team finished up its 1980 season last week with a record of 9 wins and 10 losses.

The squad was defeated by the conference championship Verona even though it totaled the best team score of the year. Verona had a 202 and Dayton a 215. Martin Swanson stroked 37, Tod Leonard a 41, and Jay Davis a 42. Frank Kelly scored a 47 and Tedd Nugent broke 50 by two points.

Coach Ray Yanchus said he felt the season was a frustrating one. He had only three experienced golfers which made it necessary to rotate the remaining three positions with relatively inexperienced athletes. This drawback became seriously detrimental when the team was involved in a close match, he said.

Senior Martin Swanson clearly played the key role in the team. He earned many honors during his final year on the team; four-year letter winner, most valuable player award, third in the conference and qualifier for the sectionals. Swanson was also the only golfer to break 80 at the Union County Tournament, placing him first among a

tough field of competitors. This is the second consecutive year Dayton has held the number one position in the county.

Tod Leonard will be a strong hold for the team in 1981. As a junior, Leonard qualified for the Union County Tournament and he also achieved the third-lowest stroke average for the season.

Three-year letter winner Jay Davis had the second-lowest stroke average. Davis, a senior, was also named the most improved golfer.

Dayton is also losing a large number of seniors who held up the fourth, fifth and sixth positions: David Wheeler, Tedd Nugent, Glenn Bardack, Brian Silber, Robert Schwab and Linda Telscher. Returning next year with a season of skill and experience behind them will be David Luchenbach, Frank Kelly, Timm Nugent and Chuck Van Benschoten.

**TRADE UP TO SNAPPER DEPENDABILITY!**

SNAPPER walk mowers include these performance features:  
1 "Vacuum" power for a smooth professional cut and the ability to bag cuttings under tough conditions.  
2 With an optional Mulcherizer, your SNAPPER is converted to a mulching mower which chews up cuttings so fine they become lawn food.  
3 Another option, the Snapperizer, converts your SNAPPER to a leaf shredder and lawn vacuum so you can go over four times as far without emptying the bag.  
4 Self-propelled models have rear wheel drive and six forward speeds for mowing slowly in tough grasses or quickly in normal situations. A fingertip control disengages the drive for trimming in tight places.

The rear-engine SNAPPER Hi-Vac rider gives you a smooth, even cut. Plus: immediate response steering for cutting in tight places; on-the-go adjustment of cutting height and speed; and a floating cutting unit which minimizes scalping damage.

SNAPPER Hi-Vac riders can vacuum cuttings, leaves and litter into an optional 60 or 30 bushel bag, when cutting in normal conditions.

Before you buy, compare the quality and performance features of a SNAPPER. You'll find SNAPPER is worth more because it does more. And its price is competitive with other quality mowers.

The Mountainside Lions Club recently sponsored White Cane Days, a sight conservation project.

Club members distributed miniature white canes throughout the borough as a fund-raising effort, according to Ed Savacol, club president. "White canes are traditionally associated with the worldwide efforts of Lions International to aid the blind and foster better vision," he said.

The fund raising supports the Eye Institute of New Jersey, a Newark-based facility affiliated with the College of Medicine and Dentistry of New Jersey. Other Lions projects include operation of eye and hearing clinics in New Jersey hospitals as well as sponsoring "eyemobiles" or mobile eye-testing units, scholarships and Eyes for the Needy. The club also aids several other institutions for the blind in the state.

## Cancer drive half-way there

Byron Dimmick of Mountainside, chairman of the borough cancer drive, has headed one of the most successful drives in the county, according to a spokesman for the Union County Unit of the American Cancer Society.

The Mountainside drive has surpassed the 50-percent mark with two months remaining in the countywide drive, the spokesman said.

More than 5,000 volunteers have participated in the county drive, raising funds through memorial donations, door-to-door solicitations, individual special gifts and special events, according to the spokesman.

Of each dollar collected, half is used to carry out local programs of patient service, and public and professional education in Union County, and the remaining 40 percent goes to the national society for research and programming. Ten percent is used for statewide programs.

The county goal is \$250,000, according to the spokesman.

### Mill hires a builder

Angelo Del Rossi, executive producer at the Paper Mill Playhouse, Millburn, has announced that the playhouse has hired Ashok M. Bhavnani as the architect for the rebuilding of the historic Millburn theater destroyed by fire on Jan. 14.

Del Rossi and the Playhouse Rebuilding Committee have stated that plans include keeping the spirit of the old Paper Mill Playhouse and its setting by restoring portions of the original existing building, thus maintaining contact with the theater's historic past.

The plan to improve seating arrangements will bring spectators closer to the stage and provide

more comfort and better visibility. There also will be increased facilities for handicapped patrons and a more flexible stage arrangement that will enable the Paper Mill to broaden its range of offerings to the public.

The target date for reopening the theater is fall, 1981.

The Paper Mill is organizing a major fund-raising campaign to pay for the new building. It is seeking leadership support from New Jersey, the National Endowment for the Arts and other major foundations. The Paper Mill is one of the oldest non-profit theaters in the country and is the official state theater of New Jersey.

Pick Of The LPs... MANOLO (A&M RECORDS SP-4783). Manolo first displayed his distinctive approach to percussion on Weather Report's Mr. Gone and Heavy Weather albums, which featured two of his compositions. Since then he has recorded with George Duke, Herb Alpert, Gino Vanelli, and Joni Mitchell on her Don Juan's Reckless Daughter LP. Now Manolo has an album of his own and the infectious enthusiasm that made him such a valued addition to these other artists' works shines through every note.

relaxed atmosphere and provided the open direction necessary to bring Manolo's spontaneous music to life. "The One Thing" serves as an introduction or overture for the album. Manolo punctuates a remarkable percussion track with bursts of vocals and Jaco Pastorius adds an elevated bass line for an explosive combination. "Canals," a love ballad, which features the high range voice of Sybil Thomas to "Got Some," a dance rhythm and blues composition. The ear-thrilling and driving momentum of Manolo's music is irresistible.

Like his animated personality, the music on his debut LP, MANOLO, co-produced by Herb Alpert and Manolo, is robust, energetic and full of celebration. Neither cerebral jazz nor pop fusion. MANOLO is richly textured with traces of rhythm and blues, jazz and Latin influences. "I feel invisible as to what inspires me," the percussionist said, "it can be anything from Indian ragas to country and western. I heard some bluegrass last week that was kicking some ass! Anything that feels natural inspires me, anything without jive."

Mobile Meals delivers hot meals to the ill, elderly or convalescent who are not able to provide nutritious meals for themselves. The program has six clients in Mountainside. The meals are packed at the First Baptist Church, Westfield.

Information is available from Mrs. Robert Ball at 233-6407 or the Mobile Meals office at 233-6146 from 9 a.m. to noon.

With proceeds from the fall production, which was directed by Adele Magnolia and Aden Lewis, the MMA has been able to donate to the rescue squad and the Children's Specialized Hospital; to give records and tapes to the library; to support the summer music program at the Deerfield School; to contribute to the Paper Mill Playhouse building fund, and to provide a scholarship to the Newark Community School of Arts. The association also has helped to support the New Jersey Youth Symphony; to contribute to the fund for the Christmas lights at Route 22 and New Providence Road, and to support, in conjunction with the Mountainside PTA, the Deerfield productions of "H.M.S. Pinafore" and "Tom Sawyer."

Two of the most gratifying events the MMA sponsored this year were the Festival Brass and the Julie Maloney Dance Co., assembly programs at the Deerfield and Beechwood schools, according to te spokesman.

The MMA also gives vocal, instrumental and fine arts awards to graduates at Jonathan Dayton Regional High School, Springfield, and Deerfield. The awards will be presented at the schools' graduation ceremonies.

## Fawn Lakes shows how quality pays off

Among the reasons Fawn Lakes, the adult residential-recreational community on Route 72 in Manahawkin, has been experiencing an unusual upswing in its sales charts are quality craftsmanship and design.

Bill McCleery, sales manager for Fawn Lakes, explains, "Our objective is

to build solid homes for people who have worked most of their adult life and now feel that they have earned the right to purchase a home of true quality."

Built in "old world" tradition, much thought has gone into the design and construction of the homes. With an overwhelming rise in sales, Fawn Lakes continues to offer to its residents and prospective homebuyers a lifestyle found nowhere else in the state. "No substitutions have been made for quality features," states McCleery.

Priced from \$32,990, Fawn Lakes homes are equipped with maintenance-free aluminum siding, brick fascia, insulated crawl spaces and Anderson windows. Also standard in all the models are ceramic-tiled bathroom flooring, smoke-detector units, luxurious wall-to-wall carpeting, dishwasher, range, self-cleaning oven and a self-defrosting refrigerator-freezer.

For those residents who enjoy swimming, the community has its own heated outdoor pool. Other recreational activities include dancing and parties at its private recreation center. Fawn Lakes is also watched over by its personal security force.

All residents also have more freedom to enjoy their surroundings. Located near one of the most expansive forest and natural sanctuary networks in the entire region, the area can be considered a "sportsmen's paradise."

It offers boating, fishing, and canoeing during the summer months, ice fishing and ice skating during the winter. Just to the east are the beaches, bays and inlets that attract hundreds of thousands of visitors from throughout New Jersey, New York City and Eastern Pennsylvania.

The homeowners' association handles such chores as exterior home maintenance, landscaping, snow removal on driveways and walkways. To qualify for residency at Fawn Lakes, only one member of a household need to have reached 45.

Fawn Lakes is a one-of-a-kind community. The key to its success is summed up in three words: Quality Not Quantity.

To reach the community, take the Parkway to Exit 63, then the first U-turn on Route 72 and proceed west following the hospital signs. The entrance is one mile past Wawa Supermarket. Visitors are welcomed at the sales office from 10 a.m. to 5 p.m. daily.

Just outside the clubhouse is the swimming pool. The fully detached two-bedroom Greenbriar II homes are priced from the upper \$60,000's.

## Stone Hedge: good news to home buyers

Homebuyers have had their share of uncertainty in past months but one home builder, Donald Glendenning, has taken the offensive in meeting the demands of a new economy and planning to reduce or eliminate the effects of a changing economy on prospective home owners.

Glendenning, the young, dynamic, second-term Shore Builders Association president and developer of Toms River's prestigious new community, Stone Hedge, has introduced new mortgage options for buyers as well as a solar energy package designed to cut the spiraling cost of energy.

"Consumer demand for housing continues strong," reports Glendenning, "but demand is now tempered with a cautious outlook toward the carrying cost of home ownership. Builders must stay tuned to the sophistication of today's housing market and provide sound, long term, secure investment potential to their customers."

In keeping with Glendenning's "conservative" approach to homebuilding, he is now offering several excellent financing programs at Stone Hedge. No-money-down Veterans Administration mortgages up to \$100,000 are available, as are the innovative FHA 245 graduated interest mortgages with first year rates at 9 1/2 percent interest.

"Considering the rate of inflation and our buyer's ever-increasing earning potential," Glendenning said, "either of these programs is an excellent financing tool which we're happy to have available to our customers." Conventional mortgage financing is available, as are other FHA programs. Glendenning added that arrangements for a mortgage for the buyer of a customer's present home also is available.

Stone Hedge is pioneering the use of a solar hot water system in the community as an option to the already efficient energy package included in each home. "We're concerned about energy usage and its cost," notes Glendenning, "and this solar water system is a useful tool in

making our residents less dependent on costly energy, thereby reducing the operating costs of our homes."

Standard features at Stone Hedge include gas-fired hot water heater, clock thermostat, storm windows, thermal front door, extra thick insulation and thermal patio door. In fact, Glendenning's approach to energy conservation at his project has earned him Jersey Central Power & Light Company's National Energy Watch Award.

Glendenning said, "We have a responsibility to our customers to consider and plan carefully to assure comfortable home ownership for years ahead. We are making a commitment of time and expertise, demanding exacting attention to every detail of each home. That is why I am proud to put my name, my reputation, behind each home at Stone Hedge."

The community has lived up to Glendenning's reputation. Located on Church Road in North Dover Township, one of Toms River's most desirable locations, Stone Hedge's six models include an assortment of custom features in the price of the home. Prices at Stone Hedge begin at \$89,900 and the project offers ranch, Cape Cod and two-story Colonial designs offering spacious, well-appointed room plans.

Two-car garage, full basement, sodded front lawn, cedar barn shakes with cedar clapboard siding and oak kitchen cabinets with full formica backsplash are several examples of Stone Hedge's standard features.

Also included are such luxury detail items as entry door handsets, lever interior door locks, chair rail and crown molding in formal dining rooms and wood framed and screened basement windows.

Visitors are invited to the community from 10 a.m. to dusk weekends and from 10 to 5 daily. Stone Hedge is easily accessible via the Garden State Parkway to Exit 88 and Route 70 West toward Lakehurst; turn left at the second traffic light (New Hampshire Avenue) to

Church Road, turn left approximately two miles to the model area on right.

## Regency Park puts Florida within reach

Soaring costs may seem to be making dreams of Florida living disappear—but not as the successful Suncoast community of Regency Park, USA, where more than 2,000 families enjoy an exceptional lifestyle.

Builder-developer, Carl Minieri, who has created what may be the best housing deals in America, and Minieri Communities of Florida have unveiled an all-new Regency Park Model Center, displaying homes designed and priced to fight inflation and high energy costs. On display are nine attractive models to meet a wide variety of tastes and needs.

Minieri's commitment to quality housing at an affordable price began in 1959 when he broke ground for his first Suncoast home. To date, more than 6,000 Florida homeowners have relied upon Minieri's reputation for integrity, and nowhere are these original goals better realized than at Regency Park.

Regency Park is approximately 20 miles north of Clearwater in the rapidly-blossoming Port Richey region. This contemporary community is serviced by central sewer and water, paved roads, security patrol and offers an ideal location convenient to all Suncoast attractions—sun-drenched beaches, fresh salt water fishing and parks and country clubs just minutes away. For

sports enthusiasts, nearby horse and dog racing, baseball, soccer, jai-alai and football, including the NFL Tampa Bay Buccaneers.

Surrounding the community is a large choice of shopping plazas, led by the giant Gulf View Square Mall featuring five major department stores and more than 100 fine specialty shops. This regional shopping complex is a moment's drive from the community's U.S. 19 entrance.

Nearby are hospitals, houses of worship, contemporary educational facilities, fine restaurants and major commerce centers (Tampa, Clearwater and St. Petersburg).

Residents benefit from Florida's favorable year-round climate and low taxes. There is no state income tax, no inheritance tax, only a 4 percent sales tax and low property taxes. In 1979, Regency Park homeowners paid an average annual real estate tax of \$270.

The new model center offers a mixture of Regency Park favorites and some exciting new introductions. Each incorporates proven design which caters to comfort, convenience and minimum maintenance.

Consistent with the Minieri tradition for quality are such construction standards as steel-reinforced concrete block construction, durable engineered roof trusses,

crafted mica cabinets, wall to wall carpeting throughout, and central climate control systems with energy-efficient "heat pump" engineering. Among the new additions on display is the luxurious Regency II. This two-bedroom, two-bath model blends elegance and casual Florida living. The home's contemporary exterior is highlighted by zircon stone and natural wood accents as well as a courtyard with tiled entry porch.

Complete with lot and two-car garage, the Regency II, at \$54,490, is an outstanding buy. With complete home and site packages available from \$23,990 to \$60,000, Regency Park is indeed a place where you can cope with today's cost of financing. Financing is available in the immediate area.

In keeping with the Minieri reputation for integrity, all homeowners also receive at no extra cost an Owners Title Insurance Policy, 10-year structural coverage under the National Homeowners Warranty Program and a professional decorator consultation.

With values as attractive as Regency Park, USA, it's no wonder the West Coast of Florida is becoming the new Gold Coast of Florida. Details about Regency Park and all the affordable homes are available from Minieri Communities of Florida, Inc., 276 Closter Dock Road, Closter, N.J., 07624.

## Heather Mead lists low mortgage rates

Government-insured mortgages at low interest rates for a home priced \$20,000 below anything else in the area has helped make Heather Mead at Howell one of the most successful and fastest-selling communities in Monmouth County.

The 113-house subdivision being developed by Vahak Hovnanian of Hovbitt, Inc., offers single-family houses and duplex units with two bedrooms and one- and two-car garages priced from \$53,990. The community is just off Route 9, only minutes south of Freehold Circle.

Ideally located for easy commuting to North Jersey and New York City via major bus lines, Heather Mead is within five minutes from the county seat, 15 minutes to the famed Jersey shore, and has shopping malls, recreation facilities and excellent schools in the area.

William Steinfield of Countrywide Marketing Corp. of Red Bank, the sales director, also points out that the industrial growth of the area has created many job openings and makes it possible for Heather Mead residents to work within minutes of their homes.

"It's an ideal community for the young people starting a family, especially those who are living in apartments," says Steinfield. "We have the lowest-priced house in the area which can be purchased by veterans with no down payments and by others with graduated mortgage terms under the FHA program."

Under VA terms, a Heather Mead duplex house with two baths and garage priced at \$53,990 can be purchased with as little as three percent down with a 30-year mortgage by qualified buyers. Payments are \$555.46, plus taxes and insurance. For those who purchase under the graduated mortgage plan, whose formula calls for payments to increase as income grows, terms for the first year are \$404.91; in the third year it increases to \$465.11, and

from the sixth through the length of the mortgage payments are \$373.35 monthly, plus taxes and insurance.

These terms, especially for young couples living in apartments and collecting rent receipts, make the purchase of a Heather Mead house the best hedge against today's inflation, says Steinfield. Furthermore, he adds, when you own your own home, all interest and real estate taxes are deductible, making monthly payments even lower.

For example, veterans whose annual salary puts them in the 25 percent

bracket would actually be paying \$506 monthly after normal real estate deductions.

To make living at Heather Mead even more attractive, homes are being placed on lots which enable the owner to have less yard work and more leisure time. Home owners also have city sewers and water and get the HOW (Home Owners Warranty) plan, which is provided without additional cost. The homes also have economical gas-fired heat, insulation designed for energy conservation, and other features.

**GRAPHIC DISPLAY**—Joe Famoso, a resident of Crestwood Village, is also an enthusiastic exhibitor at the annual Crestwood Communities Outdoor Art Show. This year's event is on Saturday (rain date next Sunday, June 8) in the model home area at the retirement community on Route 530, 10 miles west of Exit 80 of the Garden State Parkway.

**THE SYCAMORE**—This four-bedroom model is typical of the many homes, in six models, featured in Donald Glendenning's Stone Hedge community in Toms River. Prices start at \$89,000.

**FAWN LAKES**—Single-family model pictured above is one of several models featured at Fawn Lakes, Jersey Shore oriented community. Built in Old World tradition, the highly successful adult residential-recreational community is located west of the Garden State Parkway Exit 43 on Route 72 in Manahawkin.

## Crestwood complex art show Saturday

More than 50 artists, all residents of Crestwood Communities, will exhibit paintings in oil, acrylic and watercolor in the fifth annual Outdoor Art Show at the active-adult community on Route 530, Whiting, Saturday, June 7, from 10 a.m. to 4 p.m. Rain date is the following day.

Visitors from many states in the northeast will attend the show if previous years' attendance is any indication since many of the artists participating have exhibited throughout the United States and some internationally. Although dubbed a "clothesline exhibit," paintings will be hung on 350 feet of fence winding through open parkland between and behind model

homes in the Exhibit Areas. Crestwood Communities Cultural Committee, sponsors of the event, hope for more of the sunny skies that graced their previous outings.

Works of art will be available for sale at the exhibit. Through the large percentage of works will come from the Crestwood Artist Guild, which holds workshops each week throughout the year at Hilltop, one of six Crestwood clubhouses, any resident of Crestwood and Pine Ridge, its adjacent sister community is eligible to participate. Last year more than 400 pieces were exhibited, and an even larger turnout is expected this year.

Crestwood resident John Steger is general chair-

man. Co-chairman Don Hyatt is a portraitist of note. His specialty is quick sketches of passerby at the show, for which a small donation to charity is requested.

Elsie Midgley is chairman of the sponsoring Cultural Committee, which also holds musical, dramatic, discussion and study programs during the year at Crestwood Communities.

Crestwood Communities is clustered around Whiting in Ocean County, about 10 miles west of Toms River Exit 80 of the Garden State Parkway, on Route 530. The site of the exhibit is the Crestwood model area where 14 model homes, priced from the \$20,000s to the \$70,000s on view seven days a week from 9 to 6.

## Stone Hedge offers luxury, innovations

Donald Glendenning's Stone Hedge community in Toms River is another success for the young, innovative builder in the Shore area. The Sycamore model is a four-bedroom, two-story design featuring elegant entry foyer, formal living room, traditional dining room with chair rail, country kitchen, large master bedroom with private bath and walk-in closet, two car garage and full basement.

The Stone Hedge project follows Glendenning's development of a prestigious community of 80 single-family homes in Lakewood. Now he is repeating his excellence at the Toms River community on Church Road, one of North Dover Township's most desirable locations.

Prices for homes at Stone Hedge, which include ranch, cape cod and two-story designs, begin at \$89,900. Six models with

three to four bedrooms and two to two and a half baths are available, with each home featuring an exceptional list of included extras.

Stone Hedge is easily accessible via the Garden State Parkway to Exit 88. Take Route 70 West toward Lakehurst. Turn left at the second traffic light (New Hampshire Avenue) to Church Road. Turn left approximately 2 miles to the model area on right.

## Builders find quality extras bring in sales

How do you win friends and influence people when you're developing a 262-home community? Builders Arnold Silverman and Henry Opatut of American Planned Communities, Inc., Freehold, discovered they could accomplish this and build sales by offering prospective purchasers house with quality features above the norm.

"A quality house is a saleable house," say the developers, who attribute much of the success of Colonial Acres (Pond Road and Route 9, Freehold) to the extras they offer at the basic price.

The Colonial-styled homes, priced from \$94,990 and available with 10 1/2 percent financing, offer such above-average features as plywood exterior sheathing instead of board, Douglas fir studs, heavier gauge aluminum for exterior siding, sub-flooring nailed and glued, and termite-treated sill and ground. Other extras include oak kitchen cabinets, a full appliances package in the kitchen, including a refrigerator, and more.

"Today's sophisticated buyer looks for and recognizes this additional value in a home," says Opatut. "We can attribute many of our more than 40 sales to these extras."

Other features offered in homes at Colonial Acres include 240-pound self-sealing roof shingles, doublehung wood windows, 150 amp electrical

service, aluminum leaders and gutters, gas-fired warm air heat with oversized ducts, gas hot water heater, electric door chimes and smoke detectors, resilient floor tile, wall-to-wall carpeting and a 10-year home warranty.

Other sales incentives are the half-acre and larger graded and seeded lots.

On display are four furnished Colonial models with three and four bedrooms and 2 1/2 baths. The builders also have plans for ranch and split-level homes.

## Fawn Lakes center of leisure activities

As summer rapidly approaches, homebuyers shopping for first-quality homes are particularly attentive to their location, setting and accessibility to recreational areas.

Fawn Lakes, the successful adult residential-recreational community on Rt. 72 in Manahawkin, fulfills all of these requirements. Located in the "center of the largest playground in the East," the community is perfectly suited to meet anyone's leisure pursuits.

Fawn Lakes residents have instant access to boating, swimming and sunning with Manahawkin Beach and Barnegat Bay at their doorsteps and the Long Beach Island beaches of Loveladies, Beach Haven and Barnegat Light only moments away.

sportsmen appreciate Fawn Lakes' immediate access to fishing, hunting and camping with Bass River, Lebanon, Wharton State Forests on the community's outskirts. And, just 28 miles to the south is the new entertainment capital of the East—Atlantic City.

Just as impressive as the location are the homes. Priced from \$32,990, seven models of single-family, duplex and quad homes are offered at Fawn Lakes. All are solidly constructed, and include many no-cost extras, such as airconditioning, ceramic tile bath flooring, smoke-detector units, all-aluminum maintenance-free exteriors, Anderson wood double-hung thermopane windows and luxurious wall-to-wall carpeting. A complete appliance package also is included — with dishwasher, self-cleaning oven, range and a self-defrosting refrigerator-freezer.

All residents also benefit from the recreational facilities available on the premises of Fawn Lakes—an outdoor heated swimming pool, a private lake for boating and fishing and a community center for parties, dances, classes, and other social activities—all maintained by the residents' Homeowners Association. In addition, the association oversees the

maintenance of all landscaping, exterior home removal for driveways and walkways and provides a mini-bus service.

Bill McCleery, sales manager for Fawn Lakes, sums up the overwhelming appeal of the community: "We are one-of-a-kind community, as evidenced by our continuing record-high sales. Adults 45 and over who are eligible to live here enjoy a lifestyle found nowhere else in the state. Our recreational facilities on the premises, as well as the natural areas surrounding the community, make Fawn Lakes ideal at any season."

To visit the community, take the Garden State Parkway to Exit 63, then take the first U-turn on Rt. 72 and proceed West for two miles, following the hospital signs. The entrance is one mile past the Wawa Supermarket. The sales office is open from 10 a.m. to 5 p.m.

# More options needed in elderly health care

**DIRECTOR**  
Division of Consumer Affairs

The problem of adequate long-term care for the elderly will grow increasingly more difficult as the number and percentage of older Americans continue to increase greatly in the 1980s, and through at least the first few decades of the 21st Century. That's why it is imperative that we act now to create new, innovative health care options that can best serve our senior citizens and our entire society.

I recently addressed the Union County White House Conference on Aging Community Forum about a very important first step in designing improved senior citizen health services. This step involves allowing the elderly to remain in their communities and receive care there, rather than herding them off to nursing homes where many spend the final years of their lives unhappy and lonely. We must resolve that older Americans deserve better treatment than this.

Many people philosophically agree with this view, but argue that it is not economically feasible to provide free of low-cost community health services for the elderly. Inflation is raging, they say, and we simply cannot expand social or medical services without worsening the economic outlook. But what these critics don't realize is that providing properly run community health services for the older members of our society probably would save money and decrease the strain on the ever-growing public health budgets.

As the U.S. General Accounting Office's 1979 report on the cost implications of nursing homes pointed out, nursing home care is an inherently inefficient method for meeting the needs of a large segment of the elderly population. Many older persons do not need all the

services provided by nursing homes. Yet, because of provisions in existing law that allow Medicaid reimbursement for nursing home care—and not for health care in the community—more and more elderly people are entering nursing homes out of economic necessity.

In fact, Medicaid now spends more money for nursing home care than private individuals do themselves. In 1969, Medicaid payments accounted for 13 percent of the money received by nursing homes in this country. By 1977, that number had jumped to 48 percent—about 10 percent more than payments made by individuals and their families. These costs consumed nearly 41 cents of each Medicaid dollar in fiscal year 1978—for a total of \$7.6 billion. By fiscal year 1984, payments are expected to increase to over \$9.5 billion.

Obviously, Medicaid nursing home payments are costing all of us a great deal of money. What's even more troubling is that they are forcing elderly people out of their communities and into nursing homes against their will. Since reimbursement for non-institutionalized long-term care is severely restricted, many older persons must enter a nursing home, even though they would rather remain at home and are physically able to do so. A Florida survey of elderly individuals with chronic health problems living in the community and nursing homes found that regardless of their place of residence, 85 percent of the sampled "dependent but mentally intact elderly" preferred their own homes to institutional care.

What is needed now is legislation that will broaden the scope of community and home health services for which Medicaid will offer reimbursement.

The Waxman-Pepper bill in the House of Representatives (HR 6194), known as the Medicaid Community Care Act of 1980, would do this. The bill would give the states a package of community care services as an alternative to putting the elderly in nursing homes. Services would include part-time or intermittent nursing services (not just "skilled" nursing services as the law presently requires); home health aides; medical

supplies; equipment and appliances; physical, occupational and speech therapy; audiology services; adult day health services; respite care; short-term full-time nursing care; homemaker services and nutritional counseling.

In one experiment program in upstate New York, 63 percent of the patients assessed were able to remain in their communities and were provided with the necessary services there. That's a great number of people that were undoubtedly much happier than if they had been placed in a nursing home.

Critics may recognize that elderly people prefer to stay at home and be treated there, but still argue that we cannot offer reimbursement for community medical and social services because Medicaid costs will skyrocket.

# State Police chief seeks citizens' help

Colonel Clinton L. Pagano, State Police superintendent, is urging all citizens to help police departments prevent burglaries.

June has been proclaimed by the International Association of Chiefs of Police (IACP) as "Burglary Prevention Month."

Colonel Pagano said, "New Jersey homes are burglarized on the average of every four and one-half minutes and many of these burglaries occur during the summer when families are on vacation or traveling."

"The success of burglary prevention and detection is dependent upon an involved public. These fundamental techniques of home protection

ted burglary would be seen. Never leave valuables lying around, keep them in a safety deposit box.

Close and lock all doors, including porch, basement and garage. Use pin-tumbler cylinder locks on outside entrances and safety latches on the windows.

Connect a lamp to a Time-All automatic timer to turn lights in the home on and off each evening. Since sound is a deterrent, connect radio or TV to a timer.

Protect all doors and windows with a inexpensive, portable burglary alarm which sounds whenever someone attempts to break in.

# Home visits higher, say Visiting Nurses

The Visiting Nurse and Health Service (VNHS), a non-profit home health agency serving 15 communities in Union County, released its 1979 annual report this week and announced that home visits in that year were up 19 percent over 1978.

Rosemary Cuccaro, RN, VNHS executive director, pointed out that in 1979 the agency made 18,973 visits by staff nurses, physical therapists, speech therapists, social workers and community health aides; the total number for the previous year was 96,500 visits. Additionally, she indicated that there was a 25 percent increase in preventive services in such areas as screening and educational programs done at schools, clinics, etc.

**"MR. BIN" says...**

QUALITY... SERVICE... SELECTION...

"Quality is Remembered After Price is Long Forgotten". This is a simple statement that is so important in today's world. How many times in your life do you buy a "bargain" and are not happy with it 2 weeks later? How many times do you have to be shoved around... not find assistance... never get just what you wanted because they were out of stock? Knowledgeable sales people are most difficult to find today. At the "BIN" we have specialized help for every department. When it comes to special situations... drapes... shades... Blinds... Roman shades... verticals... see Ed or Jack. For our huge Bath Department... curtains... kitchen ensembles... blankets... tailored curtains... panels and tablecloths see Jo, Mary, Rita, Sue, Marie or Debbie. All of us are here to serve you, no commissions, no "pushy" people to sell you what you do not want. We want you to be our satisfied customer.

We have 35 styles of kitchen curtains on display... 500 spreads in stock... 52 styles of shower curtains. And this is just a sample of the huge selection we carry in our stock.

**Curtain Bin and Bath Shop**  
1036 Stuyvesant Ave.  
UNION 688-5015

One of the major reasons for the increases both in home visits and other services, Cuccaro said, is the growing number of requests for the variety of services offered by VNHS. "This is truly a reflection of the community needs and the broad range of services and activity conducted by VNHS in the various communities in Union County," she noted.

"We feel that these figures are most important," Cuccaro said. "They portray the VNHS growth patterns in response to increased community needs on the one hand; but more to the point, they illustrate the fact that home health care, under professional supervision, represents a viable alternative to institutionalization and hospitalization. The Visiting Nurse and Health Service seeks to assist older people, for example, helping them to maintain their dignity and independence within the community. And helping them to function in a home environment is a major step in that direction.

VNHS performs services for people of all ages who need home care and are referred by their attending physicians or through direct request.

## County units receive 15 service awards

Fifteen national achievement awards have been won by Union County agencies and organizations for outstanding public service programs, according to the National Association of Counties (NACO), awards sponsor.

The program seeks to give national recognition to progressive county developments which demonstrate improvement in county government services.

Three awards went to the Union County Prosecutor's office for: the Welfare Fraud Unit,

which last year uncovered \$465,457 in welfare frauds; the Arson Squad Unit, which handled 182 investigations in 1979 resulting in 24 arrests, and the Victims/Witness Assistance Program designed to aid crime victims.

The Union County Probation Office was recognized for its Volunteer Probation Counselor Program and Vocation Service Center.

The Senior Citizens Studies Center Project of Union College was cited for its potential of providing thousands of Union

County senior citizens with educational courses of study at sites such as nutrition centers, churches and senior citizen housing projects.

Union County's Summer Youth Employment Program won an award for assisting youths in establishing and achieving career goals, through skill training and on the job training activities.

The county Ride-Sharing Program was recognized for its success in promoting vanpooling and carpooling, an energy-saving alternative.

The Watching Stable and Ride Program was honored for its unique children's troop horseback riding lessons, horse shows and adult programs.

The Union County Sheriff's Office received two awards for the Inmate Work Release and Inmate Recreation programs at the jail.

Other award-winners were the county's Free Firewood Program, Emergency Communication System, Advisory Board on the Status of Women, and Union County Transportation for the elderly, handicapped and disadvantaged.

## Vo-tech adds camera to art

The study of photography in all its aspects will be introduced into the commercial art curriculum at Union County Vocational Center beginning in the fall, school officials have announced.

Included will be the basics of picture taking, developing and printing. The added courses will enable enrollees to better prepare magazine and photo layouts, it was noted.

The commercial art course, open to tuition students and high schoolers studying on shared-time hours with their respective school districts, is designed to prepare students for careers as advertising layout artists, paste-up artist and beginning illustrators.

Roger Flynn, instructor of the two-year course, said the photography will be a welcome addition to the commercial art curriculum. He explained that the course has lacked photography in the past because of the absence of adequate facilities for such, but that with the opening of a new addition to the Vocational Center, space will be included with labs for developing and printing.

Irene O'Brien, an instructor in the commercial art's Sunset division, will teach photography in that division from 3:30 to 6:30 p.m.

Openings for the commercial art course remain available for September, as do spots in such courses as baking and vending machine mechanics.

Baking, taught by John Ernst, a veteran baker whose past students have captured scores of awards in culinary competitions, gives students an "opportunity" to learn every aspect of baking as well as the business end of the studies. Students' baked goods are sold weekly in a small shop open to the public. Baking has proved a popular course for mature persons who wish to return to school to prepare for a high-paying career.

Vending machine mechanics, wherein students learn all areas associated with repairing machines and handling route operations, offers a skill which is much in demand. Last year, graduates of the two-year program averaged several job offers each and the demand continues, according to instructor Bob Kelly, who switched from a full-time industry job in the field to teaching future vending machine mechanics.

Barbara Kaczmarek, admissions counselor at the school, welcomes inquiries from high schoolers and adults who want information on the programs which require just three hours of class attendance daily. Information is available by contacting her at the center, 889-2000.

## Bike hike set for Saturday

A bike hike, sponsored by the Association for Retarded Citizens, Union County unit, will be held Saturday in Warinanco Park, Roselle.

Riding, walking or sponsoring a participant will help the finance unit's services to retarded citizens and their families, a spokesman said.

Prizes will be awarded and entertainment and snacks will be served. Additional information is available from the ARC office, 322-2240.

## Class of '60 to reunite

A 20-year class reunion is being planned by the 1960 class of Battin High School, Elizabeth.

A Sunday afternoon luncheon in either October or November will be held after responses are received. Members of the Class of 1960 are asked to contact the committee by phone to Lorraine Flammia Stinner at 381-0118, or write to "Class of 1960," c/o 97 Longfellow Drive, Colonia, 07067.

## Tests set for boats

The Watching Power Squadron and Flotilla 46, U.S. Coast Guard Auxiliary, are joining forces for "Safe Boating Week" at Sears on Route 22, Watchung, June 10 through 12 from 6:30 to 9 p.m.

John Gainer, commander of the Watching Power Squadron, and George Emre, commander of Flotilla 46, said "Safe Boating Week" is an opportunity for every boat owner to make sure his boat and its equipment are safe and sound. # The State We're In

In the recent past, I have criticized the New Jersey Water Supply Master Plan on grounds that it leans too heavily on moving water from one basin to another, ignores water conservation and pays little heed to Gov. Byrne's good ideas about encouraging redevelopment of crumbling urban centers instead of subsidizing development of rural areas.

I'm going to single out a horrible example of what I'm talking about. It is a 48-inch diameter pipeline to take 20 million gallons of water daily from Round Valley Reservoir, in the Raritan River basin, to Morris County for injection into the Passaic River basin.

This pipeline includes a pumping station at the juncture of the Lamington River and the North Branch of the Raritan River in Bedminster and another at Ravine Lake in Gladstone. Storage tanks would be built on the crest separating the Raritan and Passaic basins in Mendham Township. Releases would enter the headwaters of the Wippany River.

In addition to water released from Round Valley Reservoir, the removal would include a blend of waters from the Lamington and North Branch of the Raritan. At the other end of the 22-mile

pipeline, the water would be available for storage in the proposed Washington Valley Reservoir near Morristown, when and if it gets built.

The Master Plan targets 1985 for operation of the project, which would cost \$40.2 million. Appalled residents of the affected areas of Somerset and Morris counties are organizing in opposition to this scheme, generally with leadership of the Upper Raritan Watershed Association.

Emotions are running high because of the threatened uglification of a handsome stretch of the Raritan's banks in the Pleasant Valley area, and destruction of its trout fishery. But there is more.

For one thing, I do not think this engineering exercise is needed at all. The Master Plan anticipates a water deficit of 20 million gallons per day in the project region in another 20 years. Yet, a wastewater treatment master plan for the Upper Passaic basin sees no such shortage during the next 40 years—and neither do the regional water quality comprehensive plans. What is more, population statistics do not bear out much future growth for the valley.

You would think planners could talk

to each other, seeing that they work in the same office.

And on top of all that, there is the inescapable fact that development such as sewers, water supplies or highways merely raises the pressures for overall development in a sparsely populated area. That, in turn, means more people abandoning older cities and more destruction of priceless agricultural

lands by bulldozing and paving.

The governor and others in Trenton realize this, and I have complimented them for declaring that they want to focus available statutory and regulatory pressure to influence development back into the cities and away from the countryside. Now is the chance for Trenton to live up to its expressed ideals.

## Watch Pounds and Inches Disappear!

**NEW PERMATHENE-12**  
Once-A-Day Continuous-Action Capsule Reducing Plan\*—Gradually

# TRIMS AWAY FAT

Yes, it's true—NOW lose pound, after pound, after pound depending on how overweight you are

- without crash diets
- without torturous exercise
- without even giving up sensible snacks or desserts
- just read and follow important Permathene low calorie reducing plan booklet in every package

Think of it. You take just one of these time-release capsules each morning...then for the rest of the day, tiny doses of one of the most powerful reducing aids ever released for public use are gradually freed into your system to constantly curb your appetite, calm your desire for food.

**CONTINUOUS ACTION ATTACKS THE MAJOR CAUSE OF OVERWEIGHT—GENERATING THE BURNER CAUSE OF FAT BUILD-UP**

Thanks to PERMATHENE-12's "miss-no-meals" eating program, not only do you eat more wisely than ever before...but this once-a-day continuous action time-release capsule reducing plan actually helps your body **TURN FOOD INTO BURNED UP ENERGY INSTEAD OF INTO FAT!**

**Here's what happens:**

- Garbling hunger pangs are suppressed, so it takes less food to satisfy you, meaning you restrict your calorie intake. And, the food you do eat turns into burned up energy instead of fat.
- Guards against actions can help eliminate excess water and blood.

• And even though you may lose pound after pound, after pound with the reduced-calorie eating program in every package, you never need to miss a meal...never deny yourself sensible snacks or desserts...never for a moment starve yourself one iota! Remember...you must lose weight starting the very first day...see results the very first week...results you can measure on your scale and in the smaller trimmer size of your clothing...or money back from manufacturer.

\*Not a crash diet—but the most satisfying fully balanced reduced-calorie eating program you've ever seen. Read and follow label directions carefully.
