More bids sought to buy fire engine

By FRANCIS X. MURPHY

Tuesday the Mountainside Borough Council met and wrestled with problems ranging from the simple closing of a passbook savings account to the eternally complex issue of procuring competitive bids on fire apparatus. Also discussed were return of cash bonds; awarding of professional service contracts; financial auditors recommendations; special banking service proposals, and liquor license renewals.

The most tedious item on the agenda was discussion on the bid for a new fire truck. Because of the manner in which bids were solicited, only one bid was received while several other equipment distributors declined to respond at all. Fire Chief Walter Duda said he had designed the specifications for the new truck to be "tight enough to eliminate 'fly by night' manufacturers." However, Duda did not intend to eliminate all but one manufacturer.

The only manufacturer to bid was Pierce Truck with a bottom line figure of \$139,500. That price is about \$19,000 over what the council wanted to budget for equipment. However, what concerned council members most, in the words of Councilman Tim Benford, "Why was only one manufacturer willing to place a bid a such large sale?" The problem arose from the fact that Duda based his specifications on recommendations from a Pierce Truck representative. Other manufacturers recognized the Pierce specifications and erroneously assumed that Pierce had been given preconsideration. The other manufacturers felt it would not be worth the expense of preparing a bid if there was no real prospect for making the sale.

Mountainside parties name district leaders

There were no contests for seats on the county committee last week, and almost 30 persons were endorsed for the positions.

Elected from the 1st District were Republicans Edward Gbaido and Eleanor Harb with 34 and 32 votes, respectively. Democrats Victor Spolarich, 7 votes, and Isabelle Papik, 8 votes, also were elected from the first district.

Republicans Frank Harridon, with 44 votes, and Florence Parent, with 45 votes, were elected from the 2nd District, while Democrats Ann and Ralph Conti each received 14 votes from the district.

There were no Democrats from the

3rd and 4th Districts, but on the Republican side, Tim Benford, 81 votes, and Marjory Bradshaw, 82 votes, were elected from the 3rd district and William van Blarcom and Barbara Niermin each were elected with 36 votes from the 4th District.

Democrat Rose Holleran received eight votes to qualify her to serve from the 5th District, while Richard O'Neil and Joan Nemick each received 76 votes from the 5th District.

No Democrat filed from the 6th District. From that district, Republicans Matt Bistis and Virginia Hafeken received 51 and 55 votes, respectively.

Two Democrats from the 8th District, Virginia Heinz, 13 votes, and Horace Cardoni, 14 votes, were endorsed. Democrat Stu Lutz received 10 votes in the 9th District.

Deerfield quickness pays off

Inspired base running led the Deerfield School baseball team to a win and a tie in their final two games, bringing their record to 5-2-1.

In their last game, Mountainside turned four hits into a 9-6 victory over

Winfield. Deerfield stole 14 bases, received 11 walks and used sacrifice plays effectively to bolster doubles by Matt Dooley and Kyle Wissel and singles by Mike Tomko and Dan Leon. Jim Dascoli pitched five innings, striking

out six, and Tom Perrotta relieved for the final two innings, fanning four.

In a thrilling last-inning finish against Garwood, the score ended 3-3, though Garwood outhit Mountainside 11-6. With the score tied 2-2 at the end of the seventh inning, Deerfield took the offensive when Dascoli walked and stole second and third. Perrotta drove him home with a single.

In the last inning, Perrotta struck out the first two batters, but Garwood loaded the bases on an error, a single and a walk. The next hitter singled to center, scoring the tying run, but centerfielder Jerry Pares rifled the ball to catcher Rob Fericola, who tagged out the man at the plate. Perrotta struck out 10 in the game.

Calls are reported by Rescue Squad

The Mountainside rescue squad logged 167 man hours and traveled 812 miles during May, according to a spokesperson.

The squad answered 51 calls, including 24 emergencies, seven accidents, seven transportations, two fire stand-by, one dead-on-arrival, one revival and nine miscellaneous.

Borough women in key jobs bringing cable TV to seniors

Three Mountainside women are playing major roles in bringing to senior citizens in Union County a cablevision series developed by the Junior League of Elizabeth-Plainfield.

Harlene Tancred of Bayberry Lane, Elizabeth Bellezza of Stony Brook Lane and Trisha Yurochko of Evergreen Court together make up half of the group of women working on "Up to You," a monthly, half-hour program dealing with such topics as nutrition and cooking, exercise, consumer information, and book reviews. A new series of programs is planned for this fall. Tancred and Bellezza are serving as co-chairwomen and co-producers. The program is aired on Plainfield Cablevision, but the league expects the program to be carried by other Union County cable systems, as a public service.

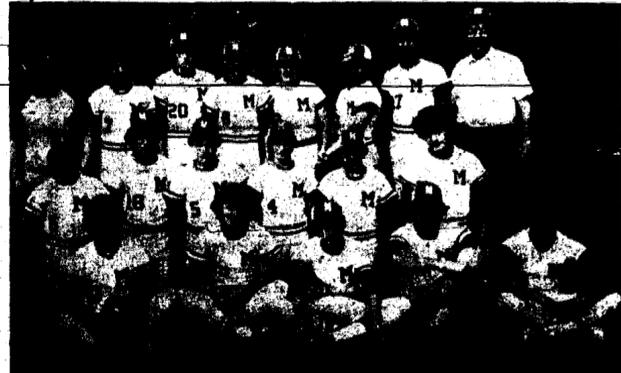

Tancred is the on-air hostess and a scriptwriter. She originally is from Australia where she received her earliest broadcast training. For two years she was the on-air moderator for a series of closed circuit television bingo programs for patients at Rahway Hospital.

Bellezza is co-producer, a scriptwriter and stage manager. She wrote for "The Captain Kangaroo Show" when she lived in New York.

A veteran of television training courses, Yurochko is co-cameraperson,

SCRIPTWRITERS—Elizabeth Bellezza, left, and Harlene Tancred, both of Mountainside, take a breather outside the studios of Plainfield cablevision where they write for a program geared to the interests of senior citizens.

Police look into local burglary

The Mountainside police are investigating the burglary of \$5,000 worth of jewelry from a home at Creekbend Road. The crime took place some time between 6 p.m. Friday and 10 p.m. Sunday, while the residents were away.

The investigating officer reported the intruder entered the home by forcing a rear window to the dining room. The burglar ransacked both the dining room and the master bedroom and made off with an assortment of women's and men's jewelry.

A case involving a 21-year-old North Plainfield man arrested on six charges

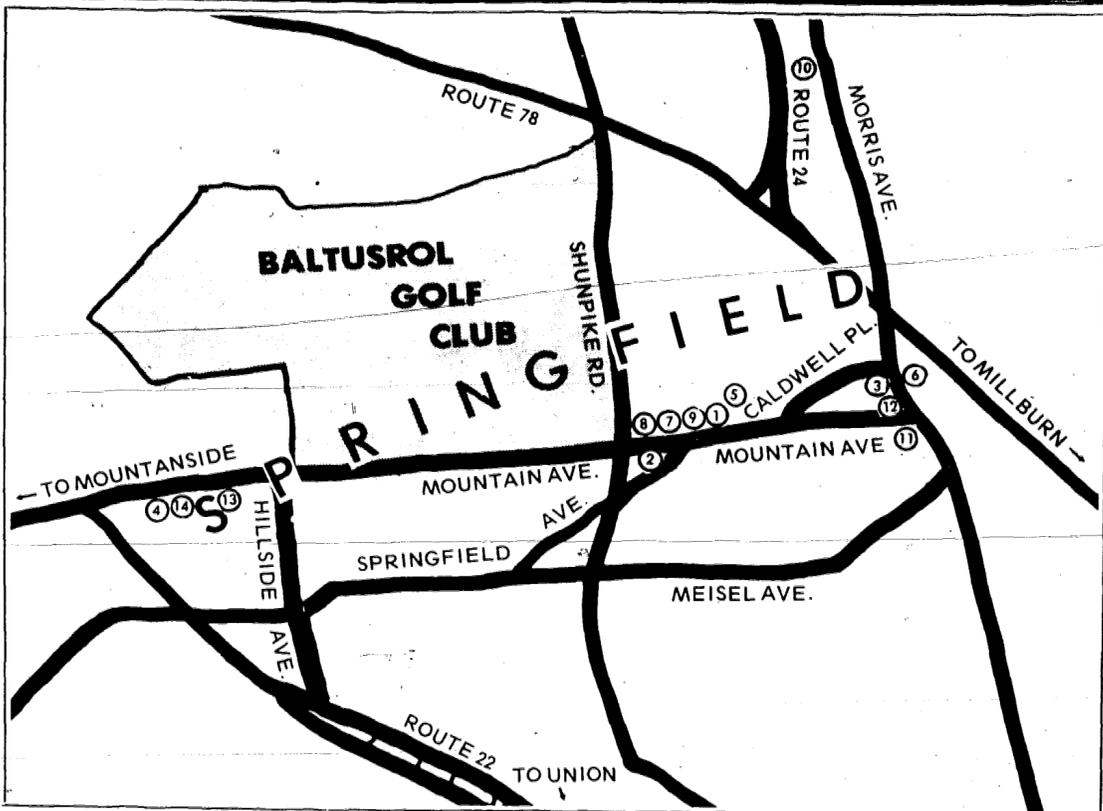

in the Loop section of the Watchung reservation was forwarded to the grand jury last week in Mountainside Municipal Court.

John Newberry is charged with threatening a police officer, possession of a knife, driving while on the revoked list, operating an unregistered vehicle and parking in a prohibited area. He also is charged with running away after being told he was under arrest.

Bobby Joe Roberts, 31, of East Orange pleaded guilty to driving while on the revoked list and was fined \$215.

Brian Kirk, 21, of Elizabeth was fined \$215 and had his driver's license suspended for two months for drunken driving. He pleaded guilty to the charge.

In other action, seven persons were fined \$50 each for possession of alcoholic beverages in the park. Fined were Edward McEvoy, 20, of Roselle Park; James Wolf, 19, of New Providence; Brian Smith, 20, of Springfield; Neal Sabo, 18, of Berkeley Heights; Glenn Wood, 22, of Berkeley Heights; Peter Feo, 22, of Union, and Wayne Sonnet, 23, of New Providence.

In Assembly DONALD T. DiFRANCESCO

School's out this month, and with the economy slipping deeper into recession, chances are likely that many of our young people will be unable to find summer jobs. For most of New Jersey's youth, summer unemployment means disappointment and less spending, but for some, a long hot summer with nothing to do can lead to mischief.

During the recession of 1973-74, juvenile crime statistics jumped dramatically. In the past several years, the number of serious crimes committed by people younger than 18 has led to problems in the schools and in many communities—rural and suburban as well as urban.

The rise in juvenile delinquency makes many question past attitudes toward the type of punishment appropriate for young offenders. Juvenile justice codes have, until recently, tended toward leniency on the basis of age, stemming from the idea that we must not "scar" young people with harsh penalties.

As a result, teenagers who commit crimes such as arson, rape and armed assault have been tried in family courts, where the punishment is often no more than a slap on the wrist. A local prosecutor told me that he knows of no case where an offender younger than 18 served longer than a year, even after repeated serious crimes.

It has long been a cliché on city streets that teenagers "can get away with it," and those young people most likely to engage in criminal activity know all too well that the system will "go easy" on them. A recent case where a 15-year-old beat and robbed an elderly woman illustrates how we make a mockery of law enforcement—he was back on the streets within two months and repeated his attack.

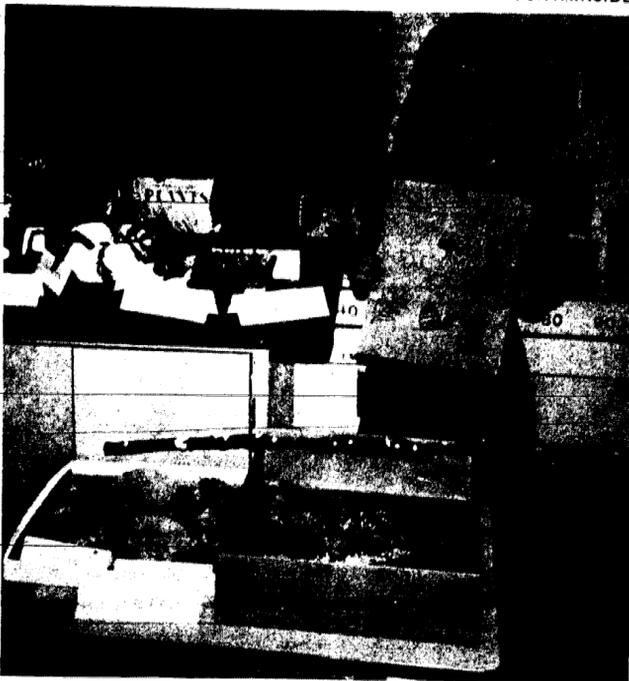

Under New Jersey's juvenile justice statutes, anyone younger than 18 who commits any crime other than homicide is assigned to Juvenile and Domestic Relations Court, where relatively lenient attitudes toward punishment prevail.

Other states, such as New York, have revised their laws so that those older than 13 who commit serious crimes such as arson, armed robbery and atrocious assault are assigned to adult court. This makes it easier to match the punishment to the crime, rather than to just the age of the offender. The criminal court judge can still use his discretion to reassign certain lesser offenders to juvenile court.

I am currently drafting legislation to revise New Jersey's Juvenile Justice Code to allow our system to deal more effectively with juveniles committing serious crimes against society. Leniency has not worked; we are protecting the criminals rather than the victims, at the same time fostering a disrespect for the law among many young people.

While we may not be able to improve this summer's economic climate, we can begin working on changes in our justice system that will help alleviate the problem of increasing juvenile crime.

to purchase. The council has two hurdles to cross to achieve this goal.

One is the nature of fire truck industry. According to council president, Bruce Gieger, "Every fire chief in the country has his own idea of what he wants in fire truck," and the manufacturers respond to this by submitting bids only to those fire departments who show a predisposition to the manufacturers' equipment. The other hurdle is how to design bid specifications which will not appear to favor a particular manufacturer.

Duda feels he is not qualified to design a truck from scratch and the borough hasn't a purchasing agent who can research the advantages and disadvantages of a variety of manufacturers.

In other council business, an application for a raffle license by the Berkeley Heights Rescue Squad Auxiliary had to be rejected because there was no Mountainside resident in the organization to sign the application. Resolutions to return a \$1,000 cash bond to Gerardo Pares and a \$200 cash bond to Thomas Fiorivanti were approved. A resolution to award a professional services contract to Barrett Associates was tabled pending approval of a change in the agreement.

A "Major Capital Improvement" consists of a substantial change in the housing accommodations such as would materially increase the rental value in a normal market and will provide tenants with a benefit or service which they had not previously enjoyed. Replacement of facilities, materials or equipment so as to maintain the same level of services as previously provided shall not constitute a capital improvement.
13.1.7 Operating Ratio. "Operating Ratio" is defined as the ratio between operating expenses and total income.
13.1.8 Operating Expenses. "Operating Expenses" is defined as maintenance costs, administrative expenses, fuel and real estate taxes. "Operating Expenses" does not include depreciation, amortization or debt service.

Any landlord seeking a capital improvement surcharge shall apply to the Rent Leveling Board (hereinafter sometimes referred to as the Board) which shall, upon a showing of satisfactory proof, determine if said improvement is a major capital improvement and, if so, shall permit such surcharge. In no event shall any permitted capital improvement surcharge exceed ten percent (10 percent) of the last rent charged and allowable for the housing space in question in the last prior calendar year. No tenant shall be liable for an annual capital improvement surcharge exceeding the annual cost of the capital improvement per room, not dwelling, multiplied by the number of rooms occupied by the tenant.
 The landlord must notify each tenant by Certified Mail, not less than thirty (30) days prior to any proposed hearing by the Board of any application for increase. Such notice shall include a description of the proposed capital improvement and state the proposed hearing date, the total cost of the completed capital improvement, the number of years of useful life of the improvement as claimed by the landlord for purposes of depreciation for income tax purposes, the average annual cost of the improvement, the total number of rooms of the dwelling, the total number of rooms occupied by the tenant, and the capital improvement surcharge the landlord is seeking from each tenant.
 Any capital improvement surcharge granted by the Board shall be payable by tenants in equal monthly installments.
13.3.2 Vacancy Decontrol. Notwithstanding any limitations or prohibitions on rent increases under any other provisions of this Chapter, upon the occurrence of any apartment, unit or room which is controlled in this Chapter, the landlord shall have the right to fix the rent for such vacant apartment at such sum as he deems appropriate subject to the following:
 (i) In order for a landlord to qualify for the vacancy decontrol rent increase, the landlord shall first be required to file with the Rent Leveling Board a written statement, signed by the vacating tenant, certifying to the Board that the landlord has, in any way, harassed or pressured the tenant into vacating the housing space unit and that the vacating tenant is voluntarily acting on the part of the tenant. For the purposes of this Chapter a vacation caused or occasioned by substandard, unsafe, or unsanitary conditions on the rental premises shall not be deemed a voluntary vacation. Such non-coercion certification shall not be required in order for the landlord to qualify for the vacancy decontrol increase if:
 1. The increase does not exceed the total of a permissible increase authorized by any other provisions of this Chapter; with any amount from the unit without notice to the landlord;
 2. The unit has been vacated pursuant to a judicially mandated eviction;
 3. The tenant has refused to sign such certification, and upon appeal by the landlord the Rent Leveling Board has found that such refusal was in fact no coercion exerted by the landlord upon the vacating tenant;
 4. Above shall be held before the Rent Leveling Board upon at least seven (7) days notice to the tenant and the vacating tenant. The decontrol provision of this section shall apply only to dwelling units which are physically vacant subsequent to the effective date of this section.
 The maximum rent for a vacant apartment has been rented, it shall immediately be subject to all of the other terms and provisions of the Ordinance of the Township of Springfield, including, but not limited to, maximum rent, and until it shall become vacant and again qualify for vacancy decontrol.
13.3.3 Subsequent Vacation of Housing Space. Upon vacation of any apartment hereafter, the landlord shall file with the Rent Leveling Board, certifying to the Board:
 1. The apartment and building numbers of such dwelling unit;
 2. The rent paid by the vacating tenant;
 3. The maximum rent increase that would be permissible under Chapter XIII, Rent Control, and decontrol provisions of this Chapter;
 4. The number of days such apartment remains vacant.
 5. The rent agreed to by the new tenant.
 The Rent Leveling Board shall submit monthly reports to the Governing Body, summarizing the number of apartments vacated during each such month and the difference, if any, between the rent charged to the tenant and that which would have been allowed were it not for the vacancy decontrol provisions of this Ordinance. Such monthly reports shall also include a statement of the number of complaints received by the Board with respect to the alleged coercion by landlords for the purpose of forcing tenants to vacate apartments.
13.4 Tax Surcharge.
13.4.1 Formula. A landlord may seek a tax surcharge from a tenant because of an increase in municipal property taxes. The tax surcharge shall not exceed that amount authorized by the following provisions:
 1. The landlord shall prior to July 1 of each year make the following computation:
 The landlord shall divide the difference between the property tax for the year in question and the municipal property tax for the year 1979 by the number of rooms in the dwelling to obtain the tax increase per room. The tenant shall not be liable for a tax surcharge exceeding the tax increase per room multiplied by the number of rooms occupied by the tenant.
 If the taxes in any given year do not exceed the 1979 taxes on a dwelling, the tax surcharge shall be zero.
13.4.2 Notification of Surcharge. Any landlord seeking a surcharge shall notify the tenant by certified mail of the calculations involved in the tax surcharge including the present property tax for the dwelling, the property tax for the year 1979, the total number of rooms in the dwelling, the tax increase per room, the number of rooms occupied by the tenant and the maximum allowable surcharge.
13.4.3 Payment of Surcharge. The tax surcharge each tenant is liable for shall be paid in six monthly payments, commencing July 1 of each year.
13.4.4 Tax Appeal. In the event an appeal is taken by the landlord and the appeal is successful in the appeal and the taxes reduced, the tenant shall receive 50 percent of the reduction as applied to its tax portion, after deducting all expenses incurred by the landlord in the appeal.
13.4.5 Surcharge Not Considered Rent. A tax surcharge shall not be considered rent for the purpose of computing permitted increases hereunder based upon the six and one-half percent annual increase allowed.
13.5 Hardship Increase. In the event that a landlord cannot meet his current expenses for mortgage payments, and/or maintenance or repairs and/or heat-utility expenses, as a result of insufficient rental income from a subject property, he may apply to the Board for a rental increase which increase shall be granted upon an adequate showing by the landlord after:
13.6 Rate of Return Increase. In the event that a landlord cannot obtain a just and fair rate of return, he may apply to the Board for a rental increase. No application for a Rate of Return Increase shall, however, be considered unless the landlord has demonstrated that his operating ratio has exceeded 66 2/3 for at least one calendar year. Any rental property having an operating ratio of 66 2/3 or less than 66 2/3 shall be conclusively presumed to be yielding a just and fair rate of return. Any Rate of Return Increase granted shall be considered to have adjusted the rental amount used to compute the allowable rate of return pursuant to Section 13.2.2.
13.7 Exemption. This Ordinance shall not apply to hotel units, nor shall it apply to owner occupied dwellings containing two or less housing units. However, the provisions of this Ordinance shall apply to the initial rental charged by the landlord for a housing space being rented for the first time, provided, however, that no landlord of any housing space previously subjected to rent regulation pursuant to the terms of this Ordinance may increase rent charged for said housing space, either in any otherwise set forth by the provisions of this Ordinance, notwithstanding that said landlord changes the character or nature of the housing space by supplying furniture, furnishings, or the like, nor previously supplied by the tenant, such as, but not limited to, a change or conversion from unfurnished to furnished housing space. Any landlord seeking higher rent due to such change or conversion shall comply with capital improvement surcharge provision of this Ordinance.
13.8 Responsibilities of Landlords. Landlords in violation of this Chapter for any landlord, or any representative, agent or employee of any landlord, or any person any payment or consideration for the rental or renewal of any rental of any housing space. During the term of the provisions of this Chapter, the landlord shall maintain no less than the same standards of service, maintenance, furniture, furnishings, and equipment in the housing space and dwelling as he provided or was required to do by law or ordinance at the effective date of this ordinance. Landlord's failure to comply with the foregoing provision shall, in addition to constituting a violation hereunder, be construed to be an increase in rent for all purposes set forth herein. Every landlord shall, within thirty (30) days of the date of the effective date of this Ordinance, file with the Rent Leveling Board a list of the members of the Board shall be appointed by the Township Clerk for a term of three years each with each member serving without compensation.
 The terms of the first board so appointed shall be as follows:

 b. Two members, one year.

 In addition, the Township Committee may appoint two alternate members for term of one year, with such alternate serving without compensation.

 A Majority of the Board shall each year choose one of its members as chairman and another as assistant chairman, to act in the absence or unavailability of the chairman, each for a term of one year.
13.9.2 Powers of the Board. The Board is hereby granted and hereby exercises, in addition to other powers herein granted, all the powers necessary and appropriate to carry out and execute the purposes of this chapter, including but not limited to the following:
 a. To issue and promulgate such rules and regulations as it deems necessary to implement the purposes of this chapter, which rules and regulations shall have the force of law until revised, repealed or annulled in writing by the Board in the exercise of its discretion, providing that the rules and regulations are approved by resolution of the Township Committee and filed with the Clerk.

 f. To utilize the services of an attorney appointed by the Township Committee to advise and counsel the Board in the proper exercise of its functional discretion. It shall not be the function of an attorney to advise any landlord or tenant whether or not that person is a participant. In any proceedings before the Board, only to advise the functional members of the Board. The attorney shall be remunerated in accordance with a properly filed fee schedule of the Township of Springfield.
 g. To utilize the services of a secretary to be appointed by the Township Committee.
13.9.3 Application to the Board.
 a. Any tenant aggrieved by any increase in rent by any landlord, may notify the Board, in writing, of the nature of the grievance and the grounds therefor, determining whether the grievance is within its jurisdiction as set forth herein. Upon making such a notification, the Board shall immediately advise the landlord that all affected tenants have received a notice of the time, date and nature of the appeal hearing and a copy of Section 13.8.5. In the event the Board is unable to hold the hearing within the time periods set forth, the application shall be deemed denied. These time periods may be extended except by consent of the applicant.
13.9.4 Appeal to Township Committee. Both landlord and tenant may appeal the findings of the Board to the Township Committee within twenty (20) days from the date of the determination and request a hearing thereon by the Committee.
13.9.5 Discovery. Unless otherwise delimited by order of the Rent Leveling Board in a particular case and for good cause shown, the scope of discovery shall be as follows:
 The appellant to the Rent Leveling Board shall, no later than twenty (20) days prior to the hearing, file with the Township Clerk all documents and things to be introduced at the hearing, including but not limited to all appraisals and all reports of all experts to be called to testify at time of the hearing. Experts' reports shall set forth the subject matter on which the expert is expected to testify, and give a detailed summary of the grounds for each opinion. No later than ten (10) days prior to the hearing any opponent of the application shall file all documents and things to be introduced at the hearing in opposition to the application, including but not limited to all appraisals and all experts' reports as above defined.  No provisions of this section shall be construed as limiting the power of the Board, in its discretion, to limit, relax or enlarge the scope of discovery allowed herein upon its own motion or on good cause shown in any particular case.
13.10 Penalty. A violation of any provision of this Ordinance including but not limited to the filing with the Board of any material misstatement of fact, shall be punishable by a fine of not more than \$500.00 or imprisonment for not more than thirty (30) days or both. This reduced rate of increase shall be effective for the remainder of the annual period of that rental increase which had been imposed pursuant to this Ordinance within the calendar year prior to this amendment.
 Where, by virtue of prior action of the Rent Leveling Board and the Township Committee, a percentage increase allowable under this Ordinance within the 365 days before this amendment equalled or exceeded six and one-half percent (6 1/2 percent), then no additional rental increase will be permitted for the remainder of the annual period of that previous increase in excess of 2 1/2 percent.
 Repeal. Any Ordinance or portion of any Ordinance which is inconsistent with the terms of this Ordinance is hereby repealed to the extent of the inconsistency.
 Severability. If any word, phrase or clause of this Ordinance shall be adjudged unconstitutional or invalid, such judgment shall not affect, impair or invalidate the remaining provisions hereof. Steve Blöch (junior) and Mike Pine (senior) did service at first doubles. Each filled in at singles. Tom Daniels, a sophomore in his rookie year, first saw action with two weeks left in the season when regular Mark Dooley suddenly left the team at second singles Tom played at the doubles and singles spots winning several games. Best season is over for girls' track team

The Jonathan Dayton Regional High School girls' track team completed the most successful season in the history of Dayton track. The team, with many extremely talented athletes competing, won the State Sectional Group II Championship, was runner up in Suburban Conference and second behind Plainfield in Union County.

Senior captain Trish Taylor led the team in each of its dual and invitational meets. Taylor's accomplishments include best all-around Suburban Conference Athlete, a 17-9 Union County long jump record, a State Sectional title in the 100 yard dash and sixth place in the Meet of Champions.

Senior captain Maria Sannino set the Union County record in the shot put, was named First Team All-Conference in the shot put, was Sectional State champion in the discus and javelin and also was sixth at the Meet of Champions.

Senior Captain Debbie Keller was voted First Team All-Conference in the long jump, was a member of a second place Union County mile relay team and a Summit Relay record-setting long jump team.

Senior captain Linda Spina was Second Team All-Conference in the 110 yard low hurdles and was a second at the State Sectionals Hurdles. Junior

Kathy Kelly was named Second Team All-Conference in the 3000 meter, was third in Union County 800 meters and a member of second-place Union County mile relay team.

Graduating seniors who contributed to the team's success were throwers Mari Ann Boogar and Linda Roth, and hurdler Penny Levitt.

Returning next year to Dayton's spring track program are sprinters Laura Clarke, Kathy Rickerhauser and Karen Rickerhauser; distance runners Janis Levine, Barbara Taylor, Dana Levinson and Kathy Rodgers; middle distance Marcia Irving, Elinor Sedin, Maureen Kelly, Beth Mortimer, Shirley Salemy and Alice Barry; hurdler Judi Hockstein and high jumper Carol Hays.

Head Coach Bill Jones was proud to see the team achieve several of its goals, including an undefeated dual meet season. Although he is disappointed in the defeat at the conference championships, he said the team put forth their best effort at all times.

"There is a certain degree of sadness in seeing the seniors leave because these are the girls who formed the foundation of the girls' track program at Dayton. Yet the sport has tripled in popularity and there will be many new and veteran athletes to work with in the future," Jones said.

JV baseball team ends up at 6-10-1

This was a building year for Jonathan Dayton's junior varsity baseball team, which ended with a 6-10-1 record.

The purpose of a JV team is to prepare players for the varsity and the Dayton JV team did just that with many players moving up to the varsity.

Another problem faced by the JV team was the illness of coach Bill Kindler. Freshman coach Jim Ricitelli had to take over.

Promising JV players who hope to

make varsity next year include Ken Palazzi, third baseman who batted .286 with two triples and four doubles; Larry Savodny, a pitcher and short stop, with a .319 average and two doubles; Lenny Glassman, outfielder with a .298 average and two triples and two doubles. John Klimas was the team's leading pitcher with a 3-3 record and a 2.53 ERA.

Some freshmen who were on the team were Nich D'Achille, Ron Fusco, Kyle Higgins and Pat Essemplate.

Jayvee softballers prepared for future

The Jonathan Dayton junior varsity softball team, devoting the season to building for the future, concluded a long, hard season last week.

Most of the better JV players ended up on the varsity squad. They included Linda Leese, Lana Tannaro, Melica Monticello and Karen Flynn. The absence of these players was one reason for the team's 0-14 record.

Coach Nancy Harter noted that her team always had good spirit and work-

ed together.

Among the skills being stressed this season were bunting and stealing. Harter indicated that the strong point was pitching.

Harter seemed optimistic about next year when some of her players will be returning with more experience.

The coach said the team was aggressive and hard working and never quit.

Sam's beats Elkay

Only three Springfield Minor League baseball games were played last week with Keyes Martin winning a pair and Sam's Friendly Service winning one.

Keyes defeated FMBA, 11-6. Scott Leonard won with help from Eric Storch and Darren Marcantoune. Eight Keyes players had hits, including Leonard (home run), Marcantoune, Gilon Rubanenko and Storch, with three hits each, and Jeff Levy and Steve Barison two hits apiece.

Keyes then defeated Volunteer Fire Department, 10-9, scoring six runs in the sixth. Fire Department rallied in

the final inning but fell a run short. Marcantoune had a homer, double and single; Levy and Rubanenko hit home runs. Leonard and Storch were on the mound. Leading Keyes' defense were Michael Zucker, Rubanenko, Storch, Leonard and Marcantoune.

Sam's scored nine runs in the fourth inning to defeat Elkay Products, 14-3. Robert Valentine and Barry Rodberg pitched for Sam's. Tom Sebolao had a home run and a single, Valentino, a home run, Rodberg four hits, Roger Bassin two triples and Andy Grossman a double.

Boys' team finishes second in sectionals

The boy's track team of Jonathan Dayton Regional High School placed second in the state sectionals behind state champion Clifford Scott. Dayton scored in nine of 15 events at the state sectionals and the Union County championships. The team also set three school records—two conference records and three Group II records.

Senior Jeff Knowles broke his own record in pole vault at the State Sectionals, fourth in the Groups and was a member of the second-place Union County pole vault team. Senior John Alexy earned a championship at the conference and sectional meets in the 400 intermediate hurdles and placed third in the 110 high hurdles at the sectionals.

Returning next year as veteran competitors will be hurdlers Matt Smith and Ed Mac Donald; middle distance men Steve Salemy Scott Connoley, Bob Carol and Glenn Eitz; sprinters Ed Francis and Anthony Bachus; distance men Jim-Roche, Steve Wright, Steve Halpin and Bob Krop.

Head Coach Martin Taglienti was pleased with the skill and pride the team demonstrated, noting they had a unique combination of athletic strength and sheer determination. He is looking forward to next year with obvious enthusiasm because a large percentage of talented runners, throwers and jumpers are returning.

In his first year of track competition, senior Jeff Engelhardt placed fifth in the 800 meters at the sectionals and third at the conference. Junior Paul Commarato was a champion high jumper at the conference and sectional meets. Commarato also was an outstanding long jumper, placing first at the conference, fifth at the sectionals and third at the groups.

Junior Keith Hanigan high jumped to a bronze and placed fifth in the 1500 meters at the sectionals. Senior Robert Irene placed third at the state sectionals in the pole vault.

Senior Anthony Circelli was a dependable sprinter. Also graduating will be Harry Weiss, Scott Worswick, Ken Klebous, Lou Salemy, Jay Bruder and

TRADE UP TO SNAPPER DEPENDABILITY!

SNAPPER walk mowers include these performance features:
 1 "Vacuum" power for a smooth professional cut and the ability to bag cuttings under tough conditions.
 2 With an optional Mulcherizer, your SNAPPER is converted to a mulching mower which chews up cuttings so fine they become lawn food.
 3 Another option, the Snapperizer, converts your SNAPPER to a leaf shredder and lawn vacuum so you can go over four times as far without emptying the bag.
 4 Self-propelled models have rear wheel drive and six forward speeds for mowing slowly in tough grasses or quickly in normal situations. A fingertip control disengages the drive for trimming in tight places.

The rear-engine SNAPPER Hi-Vac rider gives you a smooth, even cut. Plus: immediate response steering for cutting in tight places; on-the-go adjustment of cutting height and speed; and a floating cutting unit which minimizes scalping damage.

SNAPPER Hi-Vac riders can vacuum cuttings, leaves and litter into an optional 6 or 30 bushel catcher, even during high moisture conditions.

Before you buy, compare the quality and performance features of a SNAPPER. You'll find SNAPPER is worth more because it does more. And its price is competitive with other quality mowers.

May's weather records — a month of extremes

The YWCA of Eastern Union County is accepting registrations for a 10-week summer day camp program. Camp YAWACA begins June 23 and concludes August 29.

Day camp fee is \$25 per week for one child. All other children in the same family will receive a \$5 discount. A limited number of partial scholarships are also available.

Camp hours are from 9 to 5. Parents may make special arrangements for those children who need to be at camp early or late.

Nutritional breakfast, lunch and snacks are provided by the State Summer Feeding Program.

For further information and a brochure describing the day camp are available by calling 355-1500.

The mercury slid up and down the thermometer last month, making May a month of extremes, according to Raymond J. Daly, head of Union College's Cooperative Weather Station.

Temperatures ranged from 90 degrees on May 23 to 35 degrees May 10. In general, the month was warmer than usual. The mean temperature was 63.6 degrees, almost three degrees higher than average.

The highest daily average of (75 degrees) was recorded May 24; the lowest 49.5 degrees May 9. The highest May temperature on the weather station's 20-year records is 97 degrees, recorded in 1962; the record low (15) was recorded in 1978.

The month was a bit drier than typical. Total rainfall was 2.86 inches, 1 1/2 inches less than normal. There was rainfall, however, on 16 days in May, including 11 days with "measurable" rainfall and another five with 1/4 inches or more.

The greatest precipitation to fall in any 24-hour period came May 8, when 3 inches fell. Total precipitation from Jan. 1 to the end of May was 20.3 inches, compared to the 28.6 inches last year.

The greatest May rainfall (8.38 inches) was recorded in 1968, the lowest (1.32 inches) in 1965.

The relative humidity for the month reached a maximum of 72 percent May 18 and a minimum of 12 percent May 26. The average relative humidity per day was 31.83 percent.

Wheelchair tourists overcame 'barriers'

Being handicapped is getting to be less of a handicap — particularly when it comes to traveling.

Even though the barriers to travel still exist, five youngsters in wheelchairs managed to have a fun-filled weekend in New York City recently, under the sponsorship of Children's Specialized Hospital, Mountainside.

The youngsters ranging in age from 8 to 13, and five chaperones visited New York despite the fact that doors to some restrooms were too narrow for a wheelchair; they could not be accommodated for a ride to the top of the Empire State Building and the lack of ramped street crossing in Manhattan made it virtually impossible for someone in a wheelchair to travel through midtown without assistance.

After checking into the New York Hilton, which has set aside three rooms on each floor for the handicapped (wide entrance and bathroom doors, for instance) the young travelers saw "Annie."

"We needed clearance from the New York Fire Department to allow more than two wheelchair-bound persons per performance and the seats had to be on the aisle, but the children had a wonderful time," Tibaldo said.

"Let's face it. Getting around New York City is a challenge to an able-bodied person. It's even more so for the disabled. These youngsters met the challenge," said Linda Tibaldo, chief recreational therapist at the hospital.

"The plusses of the trip far outweighed the minuses. The youngsters proved they can go almost anywhere despite being in a wheelchair. All it takes is some advance planning and making sure where you want to go is accessible."

The weekend started with a trip to Battery Park in New York, in the specially-equipped hospital van, for a ride on the Liberty Ferry to the Statue of Liberty where the youngsters rode the elevator to the museum level of the statue.

Seeing the sights from the observation deck at the World Trade Center was no problem.

The weekenders managed to squeeze in a visit to the Museum of Natural History (where all exhibits are accessible and the main entrance is ramped), tour Central Park and the zoo, and lunch at Tavern on the Green.

The restaurant where dined Saturday night set up a special dining area so the children could maneuver their wheelchairs.

"Everyone we came in contact with at the restaurants, the theater and the tourist attractions was very accommodating and helpful — but it took lots of advance planning," said Tibaldo. "It was such a good learning experience that we are scheduling a weekend trip to Boston for a group of handicapped teenagers later in June."

The New York trip was financed by the youngsters and from funds donated to the rehabilitation facility to give the disabled the opportunity to travel as a learning experience.

Storage lease for publisher

Archie Schwartz representative Guy Matraxia was responsible for the transaction. Matraxia was responsible for the completion of a several lease arrangements throughout the Essex-Hudson area.

Old Tappan site for new custom units

Introducing his new "open door financing" plan recently, Bob Adamo, president of Adamo Homes Inc., Old Tappan, developer-builder of luxury custom homes, commented, "Progressive builders have an obligation and responsibility to assist prospective home buyers in structuring 'creative financing' that will meet their particular needs." Adamo's innovative financing arrangement is designed to provide buyers of custom homes at the builder's two new single-family communities—the existing "Tappan Wood" in Old Tappan, and the planned "Cobblestone Crossing" in Norwood—with a more "personalized" mortgage plan.

The components of such a plan include deferred payments, short term mortgages, interest discounts, lease-purchase programs, cash discounts, and no pre-payments penalties, among others. "Regardless of the economic pessimism within our industry, it is our job to assist in 'customizing' home financing for the residents of our communities," Adamo said.

"We are committed to providing them with flexible financing rates and terms, tailored to meet their particular needs." Adamo is accepting priority reservation deposits for full delivery at Cobblestone Crossing. Adamo is accepting priority reservation deposits for full delivery at Cobblestone Crossing. The Tappan Wood 1980 Showcase Home are located at 156 Birchwood Road, off Old Tappan Road in Old Tappan.

Mall to be featured in Sussex

Olde Lafayette Village, a 17-acre shopping village that will be situated between Routes 94 and 15 in the rural Sussex County municipality of Lafayette, is based upon the design of a country colonial town.

When seeking conceptual approval for the village earlier this year, developers Jerry Olson and Joyce Olson Regan of Connecticut (the principals in Olde Mystic Village, Mystic, Conn.), and William Tubito of Lafayette, owner of the Century 21 Marquis Webster Agency, were quick to point out the

qualities of their proposed venture.

The idea for Olde Lafayette Village was born out of the aforementioned Old Mystic Village, a similar colonial village which Regan and her brother built in 1973.

Hovnanian's incredible new adult community.

It's Covered Bridge II.
The brand new adult community by Hovnanian. And the successor to a great success. This is where adults 48 and over will find all the luxury, convenience and non-stop value that helped the first Covered Bridge sell out. Here's what else you'll find at Covered Bridge II.

Incredible Location.
Incredibly close to family and friends. Right off Route 9, in Manalapan. Just 43 miles from the Lincoln Tunnel. That's closer to New York City than any other adult community in New Jersey. So you can get away to it all without getting away from it all.

Incredible Free Maintenance Guarantee.
There will be no Homeowner's Association maintenance fees at Covered Bridge II until 1982. None at all. Hovnanian Enterprises guarantees it — in writing.

Incredible Resort-Style Community.
Covered Bridge II will be an especially delightful place. A country-type atmosphere with all the city conveniences. A place for active, lively folks 48 and over. People who have better things to do than mow the lawn or trim hedges. So while the Homeowner's Association is taking care of exterior maintenance for you, you and your friends will be free to enjoy your own private recreation facilities. Including the sort of clubhouse you'd expect in a Hovnanian community. Plus a swimming pool, sun decks, tennis courts and more. To be shared by the residents of only 274 homes. Because that's how many condominiums there will be at Covered Bridge II. Ever.

Incredible Home Designs.
Here they are: Seven of Hovnanian's most exciting floor plans, including lots of ranch style homes. All at prices that are almost unheard of these days. And all filled with luxury touches like wall-to-wall carpeting. And features like big private terraces. So whether you prefer an apartment home or one of the spacious ranch designs,

Covered Bridge II has a new home that will be just right for your way of living.

Incredible Energy Efficiency.
It takes a little more time and a little more money to build a low maintenance, energy efficient home. But quality construction and energy conservation save money year after year. You see, we believe that the attention we're giving to the energy concerns of today will still be paying off for many, many tomorrows.

An Incredible "Last Chance."
If you missed out on Hovnanian's Shadow Lake Village, or the first Covered Bridge, you've got one more chance to own an affordable home by one of New Jersey's most respected home builders. After you compare our prices, terms, floorplans and location to the other adult communities you've seen, you'll understand why Covered Bridge II may be your last chance to get so much value for your money. Can you afford to miss an opportunity like this?

It's happening this weekend. And it's easy for you to see. Just take the Garden State Parkway to Exit 123, then South on Route 9 for about 12 miles to Covered Bridge II. Our Sales Center is open 9-5 weekdays, 9-6 on weekends. Phone (201) 536-5440.

Increase cited in cost of milk

Minimum retail prices for whole white milk increased a half-cent a quart June 1, it was announced by Woodson W. Moffett Jr., director of the state Department of Agriculture's Division of Dairy Industry.

The lowest prices at which milk may be sold is 47½ cents per quart, 90 cents per half-gallon and \$1.74 per gallon. The price change, the second in as many months, results from an increase in prices paid to dairy farmers, Moffett said, which reflects the continued impact of recently announced increases in federal milk price supports.

"Because this price increase is caused by action on the federal level," Moffett said, "it will affect consumer prices throughout the nation. However, we expect New Jersey prices to continue to be lower than most others in the nation."

Social Security rights, obligations cited

A person's rights and responsibilities under Social Security are two sides of the same coin.

Individuals eligible for benefits under any of the programs administered by the Social Security Administration have a right to those benefits. On the other hand, they also have an obligation to follow the rules and regulations which have been designed to promote the program's sound administration.

Of the 35 million people who receive monthly Social Security cash payments, about 30 million are either retired workers and their dependents or survivors of deceased workers. All of these 30 million people are required to report specific events, including any change of address, earnings above the annual exempt amount, and whether they work outside the United States.

Dependents of retired workers and survivors of deceased workers have additional reporting responsibilities. They are required to report a marriage; divorce or annulment of a marriage; adoption of a child; the departure of a child from the care of a wife, widow, or widower; any change in school attendance for a student 18 to 22; and the

death of a person who was receiving benefits. It is also important for the Social Security office to be notified if it becomes apparent that a person is unable to manage his or her funds.

The reasons for some of these reporting requirements are obvious. For example, a current mailing address or notification of the death of a beneficiary is essential if Social Security records are to be accurate and if the agency's goal of paying the right amount to the right person is to be achieved.

Other reporting requirements, however, while equally important, may be less obvious. For example, payments to a child will stop when he or

she reaches 18, except in the case of unmarried, full-time students, or if the child is disabled. When a child approaches his or her 18th birthday, therefore, it is important for the Social Security office to be notified if the child is, in fact, a full-time student or disabled.

Similarly, a wife, widow, or widower who is receiving benefits on the basis of caring for a child under 18 years of age or disabled, can no longer get these benefits should the child leave his or her care. Here, too, efficient program administration requires that the Social Security office be notified should the child leave.

A person receiving benefits as a wife,

husband, widow, or widower must report the receipt of a retirement pension based on work in public employment not covered by Social Security.

A booklet entitled, "Your Social Security rights and responsibilities: Retirement and survivors benefits", which spells out these reporting events in more detail, is available at any Social Security office. Other publications deal with a person's rights and responsibilities as they apply to the Social Security disability insurance program and to the supplemental security income program. For questions that these publications do not answer or for additional information, contact any Social Security office.

WHERE NURSES ARE

The New England states have the highest ratio of employed registered nurses to the population. The East South Central and West South Central states have the lowest.

Job training offered

Women seeking work experience can find employers willing to train them through a vocational guidance center at Kean College.

Under a pilot internship program, women entering or re-entering the work force will take unsalaried positions in exchange for training and work experience. The program is entitled EVE (Education,

Vocation, Employment). Individual assessments and counseling of each participant will be combined with a 20-hour work week, continuing support, and follow-up counseling. The fee is \$150, with some scholarship assistance available.

Additional information is available from the EVE office at 527-2210.

State colleges lure more area students

A Department of Higher Education study of the drawing power of New Jersey's colleges and universities shows New Jersey full-time freshmen tend to enroll in colleges in the counties where they live. In 1979, more than 54 percent of in-state, full-time, first-time freshmen followed this pattern. The number remains relatively stable and is in line with the trends in number of high school graduates.

All the community colleges and six four-year colleges (St. Peter's, CMDNJ School of Allied Health, Jersey City, Rutgers-Camden, Bloomfield and Ramapo) enrolled 50 percent or more of their full-time freshmen from the home county and at least two thirds from the home and contiguous counties. Eighteen colleges were regional in their drawing power, enrolling fewer than 50 percent of their full-time freshmen from the home county but at least 50 percent from the home and contiguous counties.

Nine colleges had significant statewide appeal: Stockton, Glassboro, Cook College, Rutgers College of Pharmacy, Livingston College, Mason Gross School of the Arts, Rutgers College of Engineering and Douglass College. These colleges enrolled less than 50 percent from the home and contiguous counties, but at least 85 percent from within the state.

Eleven New Jersey colleges drew 25 percent or more of their full-time freshmen from outside the state, including Princeton (85.9 percent), Drew (46.1 percent), Centenary (38.3 percent), Stevens Institute of Technology (29.9 percent) and Rider (23.7 percent).

Minority, full-time freshman enrollments in New Jersey colleges increased since 1976. The proportion of blacks increased from 11.5 percent in 1976 to 13.5 percent in 1979 while the proportion of Hispanics increased from 3.9 percent to 6.1 percent over the same period. The proportion of women enrolled as full-time freshmen increased from 49.2 percent in 1975 to 51.8 percent in 1979.

Academic achievement measures (by rank in high school graduating class and SAT scores) of full-time, first-time freshmen enrolled in New Jersey four-year colleges were mixed. The proportion of full-time freshmen from the top 40 percent of their high school graduating classes dropped from 69.4 percent in 1975 to 68.4 percent in 1979. At Rutgers and NJIT, the proportion in the top 40 percent in-

creased while it decreased at the independent colleges and state colleges. However, a 1979-1978 comparison indicates improvement at the state colleges.

The proportion of full-time, first-time freshmen with SAT scores 500 or above declined from 28.6 percent in 1975 to 27.0 percent in 1979. Declines were in keeping with the national and statewide SAT Verbal declines during the same time period. An examination of Math SAT scores indicates a decline of only 2 percent a relative increase given the national and statewide declines among SAT takers. Rutgers and NJIT registered gains in the five-year period. The state colleges also showed 1978-1979 gains in this area.

(The fact that the state colleges improved their profiles in two of the three achievement categories is an indication that their strengthened admissions standards are beginning to have an impact.)

Office skills needed for jobs in summer

Vacating teachers and college students skilled in office work stand the best chance of finding short-term work this summer, according to the world's largest temporary help firm.

"The availability of summer jobs has eased from past years," says Mitchell S. Fromstein, president of Manpower Inc., "but jobs, in more limited numbers, do exist. These jobs will be harder

to find and most will be in office work."

Manpower will recruit 27,000 vacationing teachers and students for summer work nationwide — 87 percent of last year's needs. As a group, temporary services nationwide are expected to hire more than 100,000 students and teachers.

"Sixty percent of the jobs available will require skill or experience in office work," Fromstein said. "Students usually possess these skills, though they may not know it."

To aid students looking for summer work, and recruit the numbers the firm seeks to hire, Manpower has installed a toll-free line (800-331-1000); students can call to make an appointment.

According to statistics gathered from the U.S. Department of Labor, approximately 28,000,000 students and teachers will be looking for summer work this year, the same number as last year. Most will find work paying the minimum wage, currently \$3.10 per hour.

The office workers most needed include typists, secretaries, billing clerks, assistant bookkeepers and office machine operators.

"A college student experienced with typing term papers can usually qualify as a junior or senior typist. Students with note-taking abilities, though they do not know shorthand, could successfully work as junior secretaries," said Fromstein.

"hidden" skills which students most often possess:

Liber arts — general office, junior typist, statistical typist, invoice typist, statistic clerk, receptionist, receptionist-switchboard, duplicating machine operator, addressograph operator.

Business administration — accounting — adding machine-10 key operator, payroll clerk, assistant bookkeeper, accounting clerk (junior and senior).

Computer sciences — CRT typist, control clerk, magnetic tape librarian.

Marketing — demonstrators, detailer, survey interviewers, comparison shoppers, samplers.

Vocational-Trades — painter, tradesman's assistant.

Nursing — nurse aide (with certification), licensed practical nurse (with completion of educational sequence), admitting clerk and ward clerk.

Olympic games Saturday

More than 2,000 competitors and volunteers will be involved with the annual New Jersey Special Olympics track and field games Saturday at McGuire Air Force Base.

Opening ceremonies, including the parade of athletes, will be held at 10 a.m.

The games began in 1968 to provide constructive competition for the mentally retarded and have since expanded into a program involving hundreds of thousands of people nationwide.

An Olympic-style torch will be lit at the start and the special athletes will recite the words, "Let me win, but if I cannot win, let me be brave in the attempt."

The event at McGuire is sponsored by the New Jersey Special Olympics Committee. Many of the supervising volunteers are military members and their dependents from the air force base.

Competition will be conducted in Pentathlon, mile run, 400 meter run, 400

meter relay, 200 meter dash, 50 meter dash, long jump, high jump, softball throw and Frisbee throw. Special wheelchair events are set for 2 p.m.

Closing ceremonies are scheduled for 6 p.m.

Clinics will be available throughout the day. Also planned are basketball, equestrian demonstration, firetruck display, art display, karate demonstration, pitch and toss carnival games, "new" games and adult games.

Celebrities, including figures from the New Jersey Nets and the New York Cosmos, are expected to participate.

The public has been invited to all events and the ceremonies. More information is available from the air force base public affairs office at (609) 724-2465.

ENERGY BILL

The average American household's energy cost is more than \$2,000 a year. About half of that is for fuel for the car, the rest is mainly for heating and electricity.

Cancer Unit moves offices

The New Jersey division of the American Cancer Society has moved from Route 22 in Union to a new headquarters off Route 1 near Finnegan's Lane in North Brunswick.

The new building will accommodate the division's professional and clerical staff and provide facilities for committee meetings and programs of the society.

Foods festival and Carson too

An international food festival will highlight a reception at the opening performance of Johnny Carson in the Garden State Arts Center June 14. The reception will benefit the Garden State Cultural Center Fund.

Buffet tables will be laden with culinary delights from six nations, including an assortment of sea foods, Spanish, Oriental and Italian cuisine, a Deli Specialty buffet and a French Patisserie Shoppe, with ices and rich pastries.

The buffets will be under a huge tent on the Arts

Center grounds, which will be decorated in a festive mood.

The fund provides free programming each year at the Garden State Arts Center for more than 400,000 senior citizens, school children, blind, disabled veterans and other New Jersey residents. Carson's performance at 7:30 p.m. will be followed by the reception immediately following. Tickets for the performance and the reception are \$100 per person, a portion of which is tax deductible. Carson also will perform at the Garden State Arts Center Sunday, June 15, at 8:30 p.m.

Phyllis McGuire will be an added attraction for both performances.

Further information is available at 442-8600, Ext. 208.
