Imagine eating the best of Japanese, Chinese, Korean cuisine and never taking a plane to go to Japan, China or Korea. That's what you will find when eating at Silver Dragon International Buffet - great American fare too! Silver Dragon is now open all of a few months & it's Union newest hot spot to dine. Upon entering this Restaurant I noticed etched oriental figures on glass with cascading water flowing over them depicting the 8 famous Chinese Gods crossing the ocean. When seated looking at the dining room. I noted it had just been newly renovated & redecorated mirrored ceilings, comfortable booths & chairs, new carpeting, chandeliers, large screen TV's and large pictures of scenes from Hong Kong. When seated my companions & I gave our drink orders & approached the buffet. The buffet

over 150 items to choose from even the pickiest of eaters would be satisfied here. Everything prepared beautifully & so fresh. It's impossible to sample everything here - so much to choose from. We did try the Snow crab Legs, Roast Chicken, Lobster, Peppered Shrimp, B-B-Q Spare Ribs, Roast Pork, Pork Fried Rice, Chicken & Broccoli, General Tso's Chicken, Shrimp Chow Mein, Vegetable Lo Mein, Beef with Garlic Sauce, Sushi & the Mongolian Barbecue. Everything was so good, so fresh, so wonderfully prepared. Absolutely Fabulous are the only

were really so satisfied but we did sample only a small portion of what was offered. Flan, all types of mini pastries, ice cream, fruit, puddings - everything so decadent. & good. Before we left we met 1 of the Bwners - Alvin a charming young man from China whose main focus was making sure all his customers were totally satisfied -how could they not be? Alvin told us one of his chefs was from Hong Kong, one chef from China & one from a 5 star restaurant in New York - a winning combination by the taste of the food. Everyone should try this restaurant, you won't be disappointed and surely you will return over & over!

The facts of frico are many, varied and always tasty

By Marie C. Hunt Copley News Service Air tasty as it is, fried cheese doesn't get much play here. There's saganaki, the flaming cheese dish; or the guilty seack of breaded mozzarells offered at those, happy-hour restaurants with fake anti-ques on the wail. Occasionally, a lawy cheese tuilte, usually made from Parmigianon-Reggiano, fluids its way not a salad of baby greens or a bowl onto a salad of baby greens or a bowl of soup.

But in a little-known region of northern Italy called Friuli Venezia-Giulia, there's a beloved little cheese

Gibla, there's a beloved line cheese disk called frice. In the rest of listy, let alone in the world beyond, it's practically unheard of. ", For outsiders who get to visit the region, frice is a delicious discovery that can come in any form from a crisp-wafer of Monasio cheese served with a conforting lump of, poleta, to a crisp-edged cake of melting cheese stuffed with polaices. "The appeal of frice, first and fore-most, is that it's cheese that crunches in the most appealing way," said Fred Piotkin, a New York-based autor. "It can be either soft and cream or cris-

can be either soft and creating or cris-py ... and it matches perfectly with prosciutto di San Daniele and matches

prosciuto di San Daniele and ritatches perfectly with tocai wine." Plotkin has spent the past 20 years traveling to Friuli Venezia-Giulia, leorning the beel dialect and uncover-ing the area's cutinary secrets. His lat-est book, "La Terra Forunata." includes stories and recipes for hun-dreds of foods from the region that borders Slovenia and was for years roled by the Austro-Hungarian empire. ennire

Despite its appeal, frico remains a regional disk. "New Yorkers know frice better than Florentines," said Plotkin. That's thanks to chef Lidja Bastia-nich — who is from the Istrian penin-sula "neat Trieste — and her son, Joseph, They introduced Americans to frice when they opened a restaurant called Frice Bar in New York's thea-ter district.

Called Price Bar in New York's thea-ter district. The restaurapt has since been renamed Esea and has a different con-cept, but for a while it served a selec-tion of fillion frico that changed every day. The fillings might be potatoes, shrimp, sausage, broccoli di rape, or whatever came to mind.

whatever came to mind. "It's great with everything in it," sid Joseph Bastianich, who is also a winemaker. "We used to make one with lebster in it. It had nothing to do with Fridik, but it's really delicious." Frico is still served at Lidia Bastia-nich's other New York restaurants, Folidia and Becco, as well as at her restaurants in Kansas City and Prinsburgh. Frico can be a whole meal, an appo-tizer or a snack. For partice, Bastja-

Prito can be a whole meal, an appe-tizer or a snack. For parties, Bastia-nich makes frico, cuts it into wedges on a thecker board and lets guests serve tigansolves. Site also makes one with Grupuy Smith or Golden Deli-cious apples and raisins that can be used as a cheese course at the end of a med-

used as a cneese com-meal. "If you have that baked soft frico with a little potato and a piece of polenta, that's a nice, filling meal," she said, "Putting salad on top really freshens if up." Humble origins Poico is one of the most universal

and versatile foods from Friuli Venezia-Giulia Plotkin believes the name is based on a word for "fried" in the Friulian dialect. The dish grew out of the poverty that haunted the region for years.

for years. "You never want to throw anything out," he said. "This originally was a shock so when the cheese out," he said. "This originally was a very poor place, so when the cheese got old, they would melt it in a pan slowly until it became a crisp." Price was also a suffaining, port-able meal that could be faken along to

Introduct is easy to imagine doing this with any cheese? Plotkin said the traditional frice only uses Montasio. Montasio is a firm cow's milk cheese: named after a mountain in Priuff Venezia-Giulia where it was first made, according to "The Cheese Primer" by Steve Jenkins. In the 13th

Primer' by Steve Jenkin. In the 13th century, a mountain with pastures ter-raced into its slopes belonged to a monastery that became well known for making Montasio. Today, the cheese might come from Friul Veneziz-Ciulia or other parts of the Veneto region. Montasio was granted DOC status in 1986, meaning there are strict controls governing the milk that goes into the cheese and the milk that goes into the cheese and the milk that goes into the cheese and the milk day. Montasio has a mild, earthy flavor, with butterscotch and toffee qualities. It can be aged anywhere from a couple of months to two years. In Italy, 4-month-old cheese is used at the table or for mak-ing frico.

Whole Foods in Hillcrest carried Whole Foods in Hillerest carried the cheese for a while but it wasn't a big seller, so it was discontinued. Cheese buyer Elaine Wong can order cheeses on request, and she recently brought back a 2-month-aged Mosta-sio for \$10.99 per pound. In her book "Liddi's Italian Table." Bastianich mentions Asiago cheese as a possible substitute for Montasio in making frico, but using another cheese produces somewhat different results.

Making frico

On the first few tries, it can be tricky to get the crispy frico to turn out right

right. Is can be difficult to flip the cheese without ruining the circular shape. If you're not deft enough to flip it midair like a movie short-order cock, the easiest way is to slide the disk out onto a plate, horwn slide down. Then, using the plate, flip the frice back into the hot pan to finish eooking the other side. side

ide. The pan must be already heated, ver medium-low heat, before you put the grated cheese. If the pan is too or, the cheese will source, giving it a tter flavor and a dried-out quality.

bitter traver and a dried-out quality. Recipes instruet you to let the cheese size undisturbed until the fri-cor releases itself when the pan is jiggled, but that might not happen with an older pan. Using a new non-stick omelet pan with curved size to vastly improves the chances of getting the frice to side out of the pan on cue.

While is a natural part of a meat throughout flaty, and Friuit has many excellent white and red whites that many perfectly with frieo and other regional diskes. While frieo can work with a light red wine, such as refosco. ibe regi the classic pairing is with tocai, a white wine that can be crisp and cit-rusy, or sweeter, with honey, acacia and apricot notes and an almond nose. Joe Bastianich said.

"It's got that whole if-it-grows-together, it-goes-together kind of thing happening," he said. "I firmly believe all wine and food pairings have that sensibility to a certain extent."
