American Field Service International Scholarships bring together people who differ in many ways and have something valuable to share . . . Love, Peace and Understanding.

Through AFS I realized the overwhelming oneness of mankind. My friends and I shared the same ideas, responsibilities, emotions, activities and quiet moments in Jonathan Dayton Regional High School.

I discovered that through giving one receives. I came to Springfield to share my ideas, affection, knowledge, identity and culture. My family and friends in Springfield did not just superficially take things, but they took them with ability to accept and cope with a student who is different in his culture values. They are people with warmth, flexibility, curiosity, humor, imagination and perseverance.

I shall return home to the Philippines with lasting ties to the people of the United States:

- with increased appreciation of their own national life
- with deeper understanding of world problems
- with fluency in a new language
- with greater self-awareness, fitting them for roles of leadership in a time of change.

To all of you who helped promote the goals of AFS I sincerely say, "Maraming Salamat, Ini-ibig ko kayong lahat!"

"Thank you, I love you all!"

FACULTY

Mr. Robert LaVanture, Principal

During your years in high school you have been seeking success in your many endeavors. As you have learned, real success demands more from an individual than most people are willing to offer — not more than they are capable of offering. “Real success” means achieving a degree of excellence in whatever you do. To achieve this most satisfying kind of success demands the strength of character that is essential to *strenuous effort*. It requires the stretching of your capabilities and all of you can stretch them way beyond the limits you think you have.

I hope that your high school education has contributed in some small way to your achieving the degree of excellence that you may be seeking. For your future tasks, I am confident you are ready. My best wishes go with you.

To the Class of 1972:

Four years at Jonathan Dayton Regional will soon be over. But you must not look backward at the years behind you; you must look forward to the years ahead of you. For to go backward at a time in your life when you should be going forward is like starting a book at its end, and reading towards its beginning.
