Town Meeting

park in the streets.

He asked all those who can do so to keep their cars in garages or driveways at night, calling for "as much cooperation as we can possibly get."

Committeeman Arthur Falkin disclosed that the committee plans introduction of an ordinance to bar overnight parking of commercial vehicles. He said that trucks, generally wider than private cars, tend to block narrow residential streets.

Previously Opposed
Committeeman Jay Bloom recalled the introduction of an ordinance at the ordinance at the earlier meeting. He noted, "I do not deny the benefits of the measure, but there are too many hardships involved."

"Now is too late for an ordinance like this one. We could have used it 15 or 20 years ago, when several nearby communities took such action, and the town would have developed in accordance with the ordinance."

Mayor Planer closed the discussion and summed up the majority feeling when he said, "As an elected official, I don't want to rain this down the throats of so many people."

During the public discussion period, Harold Bishop of Remer ave. asked what could be done to reduce traffic hazards along Mountain ave. He cited two recent pedestrian accidents on Mountain ave. near Remer ave.

Bishop commented that many people fail to use off-street parking facilities in the business district there. He asked for construction of curbs to prevent cars from parking across the sidewalks.

Committeeman Falkin noted that the county will start repaving Mountain ave. in May, from Shurtleff rd. to Rt. 27, and that curbs will be installed at that time, on a "local assessment" basis.

He added, "We will probably have no on-street parking at all—on about 60 days, and we will see just how adequate the off-street facilities are."

Cars belonging to Anthony Cloffi, 30, of 218 Keller crescent, Union, and Donald, Schwardt, 37, of 23 Brook st., Springfield, were damaged Wednesday in an accident at the intersection of S. Springfield ave. and Shunpike rd.

Teachers To See Volumes Offered For Library Use

An exhibit of new books available for school libraries will be presented for teachers in the Springfield school system next Monday to Thursday at the Raymond Chisholm School. There will be some 600 books from 68 publishers.

The display will be open for the teachers during the noon hour and after school.

Joseph H. Anderson, assistant superintendent, declared, "The exhibit will provide each teacher with ample opportunity to peruse the latest in children's books and to make specific recommendations for library book purchases."

"Many teachers feel that curriculum-oriented library books can make a real and lasting impact on their classroom program."

The books are graded from kindergarten to ninth grade. They range from picture books, easy-to-read books and read-aloud books for the very young to challenging volumes for teenagers.

They include both fiction and non-fiction, in such areas as personal development, career stories, mysteries, adventures, history, the sciences and sports.

Testing

(Continued from Page 1)

ing tests, IQ tests, continue through grade seven.

The full battery, for grades four through eight, also includes testing in reading vocabulary, reading comprehension, arithmetic reasoning, arithmetic fundamentals, mechanics of English and spelling.

WITH SIX AREAS of testing for five grades, the testers are able to provide the local school system with a report on achievements in 30 categories.

Besides providing teachers with information about each individual child, Dr. Micall says, the test results also provide the administration with a yardstick against which the progress of the entire system can be measured.

When he first came to Springfield six years ago, he reports, local youngsters were two months or more below their anticipated norms in only four areas: four months in fourth-grade mechanics of English and two months each in fifth grade reading comprehension, fifth grade reading vocabulary and fifth grade arithmetic fundamentals.

"You can't get much better than this," Dr. Micall states, adding that several categories where Springfield was below the anticipated norms last year are now reported above that figure.

The negative team of Katz and Hammen, scoring a major victory over the traditional enemy of

Trenton Central, which won three and lost one. The varsity debating record so far this year stands at 18 triumphs and 8 losses.

On Saturday, Dayton sent a student delegation to the third and final NPL District Congress of the year. The students attending were Robert Budish, Myron Meisel; Scott Hammen, Stan Katz and Eric Krueger. The congress, held in the Union County Courthouse in Elizabeth, was patterned after the National Congress in Washington. It contained one Senate and unlike Washington, two houses of representatives. Each house had committees to consider future bills in the areas of foreign affairs, economic affairs, health-welfare and local-state affairs. These committees considered bills for future congresses, submitted by students, that ranged from declaring war on North Vietnam to the establishing of an American Foreign Legion.

The bills discussed by this session were: A resolution to end foreign aid to all pro-communist or anti-American nations; a resolution to remove the name "God" from all coins, seals and offices of the Federal Government; a resolution to censor pornography in the mails; a resolution to establish a negative income tax. All were defeated.

The Dayton team gained special recognition when Myron Meisel was elected president of the Senate. At the end of the session, Eric Krueger was elected best speaker of the House. Scott Hammen was also nominated as a best speaker but he could not run again because he had already received the distinction once.

Modern Homes Are Too Kind To Pests

Everyone applauds the idea of "being kind to dumb animals." But humans are carrying it too far, says the National Pest Control Association, by being too kind to dumb insects-as well.

The Association, in its annual look at the best ways we encourage and nourish the pests that they're pledged to control, listed these as illustrating man's insistence on being kind to insects, bright and dumb alike:

- In all too many homes, carpets are thoughtfully

- mothproofed. But the lint that collects around the mothproofed rugs can and often does support a happy colony of carpet beetles. They find equally pleasant dwellings in baseboard cracks and floor-to-molding crevices where lint is allowed to accumulate.
- Stored piles of newspapers left forgotten in an attic can be the happy hunting ground of silverfish; if left in the cellar, termites find them delightful.
- The heated concrete slabs beneath cellarless homes pro-

- vide comfortable climate for termites and ants which cause laid off for the cold winter months. They use the extra time to try and find new ways to join the family in the living room—all too often with success.
- The newly-fashionable use of dried seeds, flowers and even ornamental Indian corn in interior decorating goes nature one better—in instead of making insects come to the house, the householder now delivers them right to the living room. Beetles and

- grain moths appreciate this very much.
- Dogs confined to a small yard or kept tethered near the house help tick infestations. The dog which once wandered widely now concentrates engorged ticks right outside the back door. Ticks appreciate this because it means that dogs or animals will frequently be passing and make handy targets when it's time for another meal.
- The modern hollow door provides some of the best living quarters for carpenter ants, often confused with termites, don't need any encouragement at all to continue being one of the most destructive of domestic pests.

- Firewood brought into the house can be carrying wood-loving beetles. So can wicker baskets and antique furniture, or even just plain old furniture brought from an infested house.
- Broken containers of various metals, spices and herbs—even fruit cakes—are the standard haunts of cereal moths, drugstore beetles, bean weevils and lots of other unpleasant characters. We don't find them in cereals from the store very often any more, but both storekeepers and householder often overlook the fact that these pests like pet foods just as well as human

Federal Tax Facts

This column of questions and answers on Federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q. My wife is filing her own income tax return. When I file will I still be able to claim her as an exemption?

A. No. If she has income, you may only claim her exemption when you file a joint return and include her income—and deductions, if you claim them—on that return.

Q. I made less than \$10,000 last year, including interest on a savings account. Will I be able to use the short form when I file?

A. Assuming you are otherwise qualified, you can use the card form 1040A if all but \$200 or less of your income consisted of interest reported on withholding statements and the remainder consisted of either wages not reported on withholding statements, dividends or interest.

Q. If any of your income came from a capital gain, for example, you could not use the short form.

Q. What do you have to do to be able to claim someone as a dependent? I support my mother's brother but I've been told that I can't claim him since he's not a member of my household.

A. Since your uncle is one of the blood relations listed in the law, he need not be a member of your household to qualify as a dependent. You must meet the other requirements—age, how- ever they are the support test, gross income, test citizenship or resident test, and the joint return test. See the 1040 instructions for explanation.

Q. Does a common law marriage entitle you to file a joint return?

A. If a couple is living together in a common-law marriage recognized by the state in which it was entered into, a joint return may be filed.

Q. Is there any limit on what you can deduct per week for sick pay?

Women Legislators Seeking Ban On Jury Discrimination

WASHINGTON — A bipartisan group of eight women of the House and Senate has called on President Johnson and Attorney General Katzenbach to support a ban on discrimination against women in the selection of juries in both Federal and State courts.

Appeal, were Senators Margaret Chase Smith (R-Maine) and Maurine B. Neuberger (D-Oregon) and Representatives Frances P. Bolton (R-Ohio), Catherine May (R-Washington), Julia Butler Hansen (D-Washington), Charlotte T. Reid (R-Illinois), and Patsy T. Mink (D-Hawaii).

In letters to the President and the Attorney General, the women lawmakers referred to the President's assurance in his State of the Union message that he will "propose legislation to establish unavoidable requirements for non-discriminatory jury selection in Federal and State courts."

Pointing out that only 21 States apply jury selection laws equally to men and women, they also noted that many Federal

District courts have failed to give full effect to the purpose of the Civil Rights Act of 1957 which made women eligible to serve on all Federal juries.

"Discrimination in the selection of a jury," the women wrote, "undermines the very foundation of democracy in the administration of justice, whether such discrimination is based on race, economic class, political

affiliation or sex. We, as Members of Congress, believe that this Nation has far too long tolerated the wholly arbitrary discrimination against women's participation in the jury system."

They concluded their appeal by urging the President and Attorney General to "include the ban on sex discrimination as a part of the Administration's

proposed jury selection legislation. A draft bill is understood to be under study currently in the Justice Department, Mrs. Dwyer said.

COMBAT-RHEUMATIC FEVER

Start Heart Association Fund As Memorial To Mrs. Stamler

Foundation of the Gertrude A. Stamler Memorial Fund has been announced by the Union County Heart Association. The fund will be financed by contributions to the Heart Association in memory of the wife of State Senator Nelson F. Stamler of Union, Mrs. Stamler, who died

Feb. 16 after a heart attack, had been afflicted with a rheumatic heart.

According to Dr. Bernard Rosenberg, president of the Union County Heart Association, the memorial fund will support a primary rheumatic fever prevention program. He explained that the Heart Association already sponsors a rheumatic fever treatment program under which physicians in the county administer penicillin to victims of the disease.

Under the new program, physicians will be provided with materials to take swabs of the throats of all persons suspected of having beta hemolytic streptococcus — the rheumatic fever germ.

The Heart Association will provide a special analysis of the culture — to determine whether the rheumatic fever germ is present. If the germ is found, the physician will administer penicillin over a ten-day period. Dr. Rosenberg said the therapy can prevent as much as 98 per cent of the possibility of the patient incurring rheumatic fever.

Dr. Rosenberg said the Heart Association was "grateful to the many friends of Mrs. Stamler" who have donated the monies to make this program operational.

Additional contributions to the Stamler Fund can be made to the Union County Heart Association, 617 Pennsylvania ave., Elizabeth 07201.

Ask Amy

BY AMY ADAMS

Dear Amy: I am a 58-year-old widow, work for the state and live alone. I have no relatives and letters mean so much to me. I often think of the servicemen when the mail is delivered and no letters arrive because of no relatives. Do you have any way of obtaining information regarding servicemen who might enjoy a letter. I am sure the younger men are thought of, but what about an older man who might be alone. I am sure a letter just from a pen pal would make him feel good.

Dear Amy: I would enjoy writing to such a person giving him news of home, your answer would be appreciated.

Dear Amy: I am 18 years old and in love with 'M'. I met him over a year ago and we went with each other for several months. Then we broke up. I've gone with more boys than you could possibly count since then, but none of them seem to compare to 'M'. I just had an 8 x 10 oil color portrait made of him by a professional photographer (from a small snapshot) and I was wondering if you think it would be all right if I asked 'M' to autograph it for me? It would mean so much to me to have his signature on the photo. I paid \$8.50 for it but I think he's worth it. I don't think he cares for me anymore, but I think he knows that I still like him, but he doesn't know to what extent.

Dear Amy: I am 53 years old and I am interested in a man who lives out of town. His wife has been deceased about seven months and I have known him for years. I want to know if it would be proper for me to write to him, send him a gift, call him, or just wait to see if he is interested in anyone else.

Dear Amy: Since this man is now a widower, and you want to renew your acquaintance with him, you may send him a note, nothing more.

FAMILY LIFE TODAY

APPEALING MUSIC rhythmic expression, and listening. The ability to enjoy and appreciate music always is of value. This does not necessarily mean learning to play an instrument, although being able to produce music will be an even greater asset.

Anyone who can hear can learn to enjoy music, and many can also learn to sing or play. When you musically educate children, music can play an important part in their lives. Musical education brings to mind music lessons and practice periods. Let us forget about these now because musical education means exposing the child to music through singing.

Tips for Today's Homemaker

From Carolyn Yukus, County Home Economist

Peanuts, potatoes, prunes, rice and eggs are listed as plentiful foods for March as reported by the U.S. Department of Agriculture. Take advantage of the bountiful supply of peanuts, peanut butter and peanut oil. Main dishes, puddings and other desserts are just a few ways this protein-valuable product can be used in the menu. Potatoes and onions remain in the forefront of plentiful vegetables. Both 1965 fall potatoes and the new 1966 winter tubers are expected to rate among the top buys at the market. With regard to onions, we in the Northeast are particularly fortunate in having a heavy supply.

Prunes and prune juice continue on the list, as well. Heavy supplies from last year's California production and large carryover stocks create a favorable situation for the food shopper. Use dry prunes and cooked or canned prunes in salads, pastries, pies and casseroles. Suitable items for round-the-clock meals. Prune juice is delicious and nutritious as is, but also goes well in a variety of pleasing drinks and food preparations. Rice will also figure on the March list. A popular item of the month, this bland grain adapts to many needs in appetizers, main dishes, and desserts. Rice will be amply available for some time to come because of last summer's record crop. Because the United States is a great rice export

A comparatively new neighbor dropped in to call on Mrs. H. and found that her little daughter not only had an upset stomach but also had toothache. Thinking it might be advisable to know a good doctor and a dentist in case she needed one, she asked their names. After Mrs. H. answered those questions the little four-year-old spoke up, "But mommy, don't forget Dr. Casey too!"

Dear Amy:
I will soon be a teen-ager but I am small for my age. All of my friends are bigger than I, and I'm older than most of them. Their parents buy them teen-age clothes and permit them to use make-up. All this helps to make them look older, but I have to stick to little girl's dresses which include lace and bows. To me, the dresses I have to wear are very 'kiddish' looking.

Six Teams Quality For Play-Offs In State Basketball Competition

Six teams qualified for play-offs in the State League basketball play-offs starting on March 12 at the Florence Gaudineer School. These six teams are Texas, Utah, Iowa, Kansas, Florida, and Ohio. The six qualifiers were chosen on the basis of their superior records for the regular season to be concluded next Saturday.

Texas received the top-seeded position, as the Big Red squad leads the league with a winning record of 7 to 1.

Wyoming, California, Oklahoma and Idaho will fight it out next Thursday evening, March 10, for the final two spots in the eight-team, single elimination play-off competition.

Texas Wins 7th

Texas ran its season mark to 7 triumphs last week as it downed Wyoming by a 23 to 18 final score. Texas rolled to its seventh straight victory. Texas dropped its season opener and has not been headed since that initial loss. The Texas center, Karl Mende, paced his club last week as he hit for 10 points and gathered many important rebounds.

Bobby Miesel was an equally important factor in the Texas victory, as he set up many of the Texas scoring plays, played hard defense, and tallied four points. Seven players hit the scoring column for the winners.

Bobby Reichman, the top performer all season for Wyoming, paced the losers with five points and showed some fancy ball handling. Bobby Zueker also tallied five points for Wyoming.

while Larry Sternbach drilled home four points.

Kansas Victory

In the opening game last Saturday at the Gaudineer gym, Kansas sent Iowa down to its second consecutive defeat by the score of 20 to 12. Iowa had been undefeated through the first six games this season.

Kansas, which started the season strong only to suffer a mid-season slump, has regained its form and bids to be a strong play-off contender.

Bruce Jeffery headed a well-balanced scoring column for the green shirted Kansas team. Bruce tallied five points, as eight boys tallied for the winning Kansas team. Ray Danziger topped all scorers in the game, as he tallied eight points for Iowa.

Florida Ramps

Florida scored an impressive victory last week as it crushed California by the score of 35 to 8. Florida promises to provide much excitement in the play-offs, as it has drawn high scoring Kansas as its first opponent.

Ira Shulman had his best afternoon of season last week, as he paced the Florida squad with 15 big points. Ronnie Shapiro and Jeff Rogers were also effective for the winners, as each boy tussled in eight points. Howie Fleschman was the top scorer for California with four markers.

Utah Scores

Utah rolled to another victory last week as they dumped Idaho by the score of 18 to 10. Jim Shoch again paced the Utah attack with seven points. Just behind Jim in the scoring column for the winners was Larry Silverstein with six points.

Mark Tannenbaum played well for Idaho and kept the team in the game when things were the worst. Mark finished with six points in a losing cause.

Ohio On Top

The final match of the day saw Ohio earn itself a play-off position by downing Oklahoma by the score of 19 to 12. Ohio evened its record at four and four for the season with this important victory. Ohio filled the final automatic play-off position and drew Iowa as its opening round opponent.

Todd Herman and Barry Pemp with 4 points were also effective. George Malgeri was the top scorer for Oklahoma as he garnered four points.

Action at the Gaudineer School this Saturday afternoon will conclude the regular season State League play. The play-offs will begin the following Saturday at the same site.

Thursday evening, March 10, will feature two games for play-off qualification.

The feature game this week will be the opening match between Utah and Texas. Texas holds first place, while Utah is one of three clubs tied in second position. A victory for the Utah team would throw the league into a four-way tie.

Other action this week will feature Florida vs. Idaho, Iowa vs. California, Ohio vs. Kansas, Wyoming vs. Oklahoma.

Children Entered 10-Week Course For Arts, Crafts

The Springfield Recreation Department will offer a 10-week "Spring Semester" arts and crafts program for children starting this Tuesday and on Saturday morning, March 12. No classes will meet during Easter week and Passover (April 5, 9, 12, 16). The course will terminate on Tuesday, May 24, and Saturday, May 28.

Among the projects planned are: textiles, paper mache, puppets, printmaking, copper enameling, and drawing and painting in a new manner from which the children will benefit, the department announced.

The classes will be separated into three groups, according to grade, age and ability level. Kathy Barry, Karen Bruder and Judith Stenkewicz will be the instructors.

The projects vary within the groups to allow the more talented students to advance and enable the others to become better prepared in art and its processes.

"This is done with the overall enjoyment and appreciation of the student in mind," the announcement stated. "We want them to learn, but more so to enjoy what they are learning so that they may be more prepared to work on their own at home or in school, using their individual imaginations to the fullest."

Hurricanes Reach Tie For First Place

It was a long haul for the Hurricanes, but they finally reached first place in the Thursday Boys' Bowling League. Last week the Hurricanes moved into a first place tie with the high scoring Bombers.

The Hurricanes, who lost their first eight games of the season, have fought since early in the season to reach the top spot. They are now tied at 24-12.

The boys meet in competition at the Springfield Bowl each Thursday afternoon. The Recreation Department sponsors the league.

The Hurricanes reached their lofty pinnacle by topping the high-scoring Raiders in two games last week. Stuart Leibkind, Todd Herman and Bob Zuekerberg each played a contributing part in this important sweep.

Stuart rolled 288 for the two games to pace both teams. Todd rolled a series of 278, while Bob Mark rolled a 274 total for two games, while Steve tallied 288 for the same number of games.

The final match of the day

The Bombers fell into their first place tie-by-dropping one of two games to the last place Jets. Mickey Harmon and Gary Katz rolled well for the Jets to mark the upset victory. Phil Stoker topped all bowlers for the Bombers, as he rolled a series total of 272.

The Bombers moved into sole possession of third place as they tripped the Pirates last week. Don Lan rolled his best effort of the season as he paced all bowlers for the afternoon with a series total of 330. Don's top games paced the Atom-victory. Gary Fox was also effective for the Bombers as he rolled 269 for the series. Mark Berkowitz and Steve Brown paced the Pirates. Tiny Camera Helps Diagnoses By Physicians At St. Barnabas

Color photographs taken with a camera about the size of the two end joints of the little finger are helping physicians diagnose stomach diseases these days at Saint Barnabas Medical Center, Livingston.

The Medical Center was recently given a fiber optic gastroscope with a gastric camera which will take 32 photos of the interior of the stomach without reloading. It is the first one in New Jersey and the second in use in the United States.

Members of the gastroenterology section at Saint Barnabas explained that a patient who is an engineer and inventor, donated the \$3,000 instrument when he learned that there was a more comfortable and effective way to have the inside of

one's stomach photographed than the one used on him.

William Grupe of Saddle River, the donor, underwent a gastroscopic examination with the standard equipment used in diagnosing ulcers. The examination showed that surgery was not necessary. However, he expressed unhappiness at the second procedure, a stricture photography done with an older technique, because it is a time-consuming and uncomfortable procedure.

The examining physician had investigated a newly reported, fully flexible gastroscope with a built-in camera and described it to Grupe. He offered to donate the \$3,000 instrument to the Medical Center, a gift accepted by the medical staff. Its virtues,

including lack of discomfort, were proven to Grupe when it was later used on him.

It was explained that one of the drawbacks of earlier equipment was that it had "blind spots." Because of the discomfort to the patient, the physician had to work rapidly with the risk of not getting adequate views.

The new equipment, which permits a greater view, allows the physician to get excellent photos which he may carefully study in making his diagnosis.

It has been learned that marginal ulcers which at times can be spotted by X-ray can be photographed with the new equipment. In addition, abnormalities not clearly definable with X-ray, can also be diagnosed with the new camera.

Physicians feel that a major value of the gastroscopic camera is that it may eliminate the need for exploratory surgery performed to precisely define the nature of a stomach disorder.

It is also regarded as a valuable tool in medical education because students can see photos of stomach lesions as they occur in their natural state.

Supreme Lodge Cites B'nai B'rith On Fund Support

The B'nai B'rith Springfield Men's Lodge has received a Supreme Lodge presidential citation for "exemplary financial support of the B'nai B'rith Service Fund."

The citation, signed by William A. Wexler, president of the Supreme Lodge, was presented at a special meeting of the Northern New Jersey Council of B'nai B'rith held recently at the Coconut-Restaurant-in-Irvington.

The Springfield Lodge was one of the four out of 36 lodges belonging to the council to receive the award. The Northern New Jersey Council comprises some 12,000 members in District Three (New Jersey, Pennsylvania, Delaware, West Virginia) and is among the largest in the country.

The B'nai B'rith Service Fund is used to support programs in the community and throughout the world. The B'nai B'rith Springfield Men's Lodge surpassed its commitment to the fund under the leadership of its fund-raising chairman for 1964-65, Louis Spigel. Most of the amount was raised by the ad journal chairman for that period, Lester Elias, and his committee. The ad journal is distributed at the lodge's annual spring dinner-dance.

The citation was accepted by Sidney Piller, president of the Springfield Lodge. In his acceptance remarks, he paid tribute to the efforts of the responsible committees, including Wallace Callen, the current ad journal chairman, and the other members of his committee, including Elias, Marvin Simson and Irving Maloratsky.

Answers
On Cancer

This is the first in a series
of questions and answers
concerning cancer presented
under the auspices of the Un-
ion County Chapter of the Amer-
ican Cancer Society. Read-
ers of this column are invited
to submit questions in writ-
ing, to the American Cancer
Society, 818 Westminister Ave.,
Elizabeth. All questions should
be of a general nature since
specific personal questions re-
quire knowledge of an indi-
vidual's medical history. The
names of the individuals sub-
mitting the questions will be
omitted upon request.

1. WHAT IS CANCER?

Cancer is a group of diseases
in which there is uncontrolled
and disorganized growth of ab-
normal cells which, if unchecked,
will cause death.

2. IS LEUKEMIA A FORM
OF CANCER?

Yes. It is a disease in which
there is abnormal growth and
development of white blood
cells.

3. IS CANCER CONTAGI-
OUS?

No. There is no reported
case of anyone having "caught"
cancer from a patient, how-
ever closely they have been
in contact.

4. DOES CANCER USU-
ALLY DEVELOP IN PERSONS
WITH POOR GENERAL
HEALTH?

General health seems to have
no relationship to the onset
of cancer. This means that ev-
en people with no signs of ill
health should get regular peri-
odic medical examinations.

5. IS CANCER A DISEASE
OF CIVILIZATION?

No. Cancer is found in all
cultures and areas of the
world. No color or ethnic group
is free of cancer. However,
there are rates and susceptibilities
to various forms of cancer
throughout the world.

6. ARE ALL CANCERS
ALIKE?

No. There are many differ-
ent types of cancer, arising in
different parts of the body,
growing at different rates and
differing in their response to
treatment. Cancers are alike
in that they grow and spread
and, if not treated, cause death.

7. IS HODGKIN'S DISEASE
A FORM OF CANCER?

Yes. It is a disease in which
there is uncontrolled growth
of abnormal cells arising from
the lymphatic system.

8. DO LOWER CLASSES OF
ANIMALS DEVELOP CAN-
CER?

Yes. Cancer is found in all
forms of life.

**UNITED STATES
SAVINGS BONDS**

★ Twenty-five years ago on May 1, 1941, the U. S. Treasury issued the first Series E Savings Bond to Franklin D. Roosevelt.

★ That purchase, in the words of Lyndon B. Johnson, "set into motion the greatest thrift program the world has ever known."

★ Since that day in 1941, Americans have bought more than \$150,000,000,000 worth of Series E and H Savings Bonds.

★ From these savings have come new homes, college educations, dream vacations, paid-up hospital bills, more satisfying retirements.

★ Americans still own almost \$50 billion in Savings Bonds... \$50 billion worth of personal security... security from want... from fear... from loss of independence.

★ \$50 billion worth of security from loss of freedom in today's troubled world.

★ Join the greatest thrift program in the world. For your future and your family's future. And your country's future.

Optometrists Warn On Twilight Driving

As the sun sets, the eyes of most drivers are unprepared for the change in light conditions. Optometrists warn that twilight driving is particularly dangerous because of the rapid change in light intensity. The eyes need time to adjust to the lower light levels, and during this time, the driver's vision is impaired. Optometrists recommend that drivers avoid driving during twilight hours if possible.
