PARRIS ISLAND, S.C. — Marine Pvt. Louis EXECUTIVES read our Want Add when hiring a C. Vasilow/son of Mrs. M. C. Vasilow of 48 Pitt — employees—87-99-about yourself for only \$3.201 Call prd., Springfield, N.J. has graduated from 445-7700, daily 9 to \$100.

Mrs. Leonard Scelfo of 139 S. Maple ave., president of the Caldwell PTA emphasized three major factors to be considered in the purchase of the property:

"1. The largest K-5 school in Springfield, Caldwell is situated on the smallest school site." Parkway Caldwell is situated on the smallest school site:

"2. Acquisition of the land will provide space to construct an entrance to the building so that no child need effect the school through the parking lot. Children and cers entering and leaving together are a dangerous combination.

"3. The additional land will provide much needed play space and areas for physical education." cycle ban defended

Chairman John P. Gallagher of the New Jersey Highway Authority said-this week that "in the public interest the commissioners have decided that any action challenging the molorcycle ban on the Garden State Parkway will be vigorously tested. He made the statement

the report of court action against the Barkway's long-standing motorcycle ban by former State Senator Malcolm Forbes. The authority operates the Parkway.
His statement follows:
"I am reluctant to discuss the subject of motorcycles on the Parkway at this time since the matter is either in court of

about to be taken there. The
editorial comment so far
following the Malcolm Forbes
story has been very encouraging and very much
against disturbing the ban
that has been in effect for
admost 11 years. almost 11 years,

almost 11 years,

"I'personally feel that the
general public-at-large
aupports the authority's

position that motorcycles are position that mororcycles and not compatible with Parkway traffic Judging from volunteered reactions, I am volunteered reactions, I am

volunteered reactions, I am convinteed that the great preponderance of New Jersey Citizens would have us maintain the Parkway ban, "In the public interest, therefore, the commissioners have decided that any action challenging the motorcycle ban will be vigorously contested. The outstanding safety record of the Parkway over the years is not the result of good luck but can be credited, we believe, to the design and operation of the roadway and, in no small measure, to the exclusion of the motorcycle. exclusion of the motorcycle.
"Mr. Forbes, bimself, in
speaking of motorcycling, has
conceded You're aware some

with age. nt the automotive world.

We keep getting better every year.
Since 1949, we've improved our little car over 2,200 times.

NOTE OF **THANKS**

This column is normally limited discussion of events and issues rectly involving the people of pringfield, but we do feel an obligation to comment on the recent disclosure that Dr. Fred Hagedorn will not seek reelection in February as a member of the Regional High School District Board of Education representing Berkeley Heights.

Though a board member for less three years, and president of edorn must-take a substantial share of the credit for a major expansion of the board's educational

The board, which is responsible for Jonathan Dayton Regional High School in Springfield as well as schools in Berkeley Heights, Clark and Kenilworth, has progressed steadily in its pursuit of excellence

ight years ago. There is still ample room for nprovement, of course, and we have not always been content with he pace of that progress, but the ments have been substantial. The outstanding step forward came last spring when the board, under Dr. Hagedorn's leadership, won voter approval in the million expansion program which schools for some time to come-Gaining acceptance of the xpansion plan in the board's third try at a referendum, may well be Dr.

We feel, however, that tribution has been more valuable another direction. A major difficulty for any regional school district is that of resolving the approaches to education

Hagedorn's major tangible

towns, whose -primaryterest is in keeping costs, and taxes own. There are others who may want primacy for -vocational lvanced training for the top tudents, never mind the cost, or for reaching out to the newest—in

All approaches may well have some segments-of-the. populace. A-board of education, and particularly a regional board of ucation, has the responsibility of Dr. Hagedorn's year of leadershipexcellence, for all of the more thanmed_effort_to settle on a instructive consensus. The achievements are, of course

the work of more than the one man. There are the other board members, many of whom have worked equally hard for excellence.

There are the younger-more progressive administrators who have come into positions of authority in

advances of the next few years will stem directly from the wheels which he has put in motion. For this, while we regret the business pressures that force him to leave the board, we can all be grateful for many years to

Eyeglasses can break

Although there is a new government regulation requiring all eyeglasses and sunglasses to have impact-resistant lenses, the National Society for the Prevention of Blindness reminds us that for eyewear purchased prior to the ruling's effective date—January 1, 1972—there are no such guarantees: Protect your vision: make sure the glasses you and your children are wearing, either for corrective purposes or to keep the sun out, have lenses made of shatter-resistant glass or plastic.

LABOR REPORT

From U.S. Department of Labor

Speaking at a recent conference on state and local government, U.S. Secretary of Labor J.D. Hodgson pointed out that the federal government has no "canned remedies" on how state and local governments should solve their labor its early phases."

can help, and here we are anxious to make that help-just as useful as possible."

Adding that he had observed with intense interest the chaotic growth and present turnoil of bargaining within the public sector, the secretary noted that what works in the private restormand that work in the oublic one.

The provided that was a possible. The provided that was 3.8 pt the smallest year in February 1968.

Pointing out the differences between bargaining in the public-and private sectors—the often overriding political influences, the clearly essential nature of many public services, the controlling and limiting effect of statutory or constitutional law, the division of managerial power between legislative and executive branches, the secretary concluded:

"Collective bargaining in the wholes are the secretary concluded: it has not yet emerged into full maturity. It is more accurately described as being in its adolescence, and adolescence is a turbulent time. The formative days of any activity always seem-to be characterized by confusion, turmoil, and even extra-legal behavior. This into effect on Aug. 15, since some prices are collected only grown three months, or least was certainly true of collective bargaining in collected only every three months or less the private sector. We should work to see that bargaining in the public sector suffers as little price changes for items exempt from the as possible from these growing pains. Then we can hope, as maturity sets in, as tools and techniques are developed, as experience is

Dear Double Trouble,

relations problems.

"We think that's something that should be left up to you," said the secretary. "But of course there are areas in which we think we can help, and here we are anxious to make that reported. Adding that he had observed with intense interest the chaotic growth and present turmoil of hargaining within the public sector, the secretary noted that what works in the private sector may not work in the public one.

"I am sure many of the techniques developed in the private bargaining area can be used in the October index was 0.1 percent; the sargaining," the secretary said. "But we cannot transfer the whole bag of tricks from tember, and an average monthly increase of 0.4 percent during the six months from March decreased 0.1 percent, the first decrease since. charges rose 0.2 percent in October; compared

Profile-- Rev. Joel Yoss

"A large part of my job is to help people find-the presence of God everywhere from Attica State Prison to folk festivals like Woodstock, This is the comment of the Rev Joel Yoss, new pastor of Holy Cross Dutseran Church, Springfield, serving a congregation primarily from Springfield and Mountainside The young clergyman (just 31) went on to-say, "Too many people start to think or ask

say, "Too many people start to think or ask where is God only when their backs are up against the wall, in times of confusion. Actually, there is little help for anyone in slogans. The question we should all ask is; where is the presence of God."

He commented, "A clergyman's job of course is to minister to the people's needs. My question is how to reach the many people who are more attuned to the Today show than to the Sunday morning worship. There's nothing necessarily wrong with that, but we must all get on the same wavelength:

"Take the Rowan and Martin comedy show or pop art or the Woodstock folk festival. they all seem removed from the Christian church. But the pastor and the people together must be But the pastor and the people together must be

its own principles?"

He continued, "I do not necessarily mean social action: Plenty of other groups are doing that. The church should be involved in

the suburban areas of Daluth, Minn,

He served for five years at Christ Latherin.

Church in Falmouth, Mass., on Cape Cod,
before coming to Springfield last menth.

Pastor Yoss noted, "My congregation in
Falmouth consisted primarily of personnel
from Otis Air Force Base and their families, as
well as non-military Falmouth resident,"

While there, he was also active in an area
counseling Clinic, working with other
clergymen to help people resolve is wide
variety of personal problems.

"There are no major differences between
people here at Holy Cross and those on the
Cape," he added. "Besides, since my Dad was Cape," he added. "Besides, since my Dad was a minister I grew up in very much the same environment."

He continued, "As far as any special goals in the Springfield church are concerned, it's much loo soon for me to discover any deep needs that might be special to this community.

The State We're In

By David F. Moore, North Jersey Conservation Foundation flows are getting higher and low flows lower.

We could take away the pavement and rooftops and plant forests. But the advocates of governments with great frequency and who loudly uphold their humane duty to provide housing and other facilities for our exploding their humane duty to provide housing and other facilities for our exploding their foundation and elsewhere have a proposal

Local flooding this year is proof that the land beneath us will stand for only a certain amount of buildozing, paving and roofing before it retaliates. Eaw have dealt realistically with the threats of flooding. One reason is that the threat either has not existed or until lately has only been slight in many areas But now, as suburbia spreads across hill andvalley, it's getting easier for water to seek its own level. More and more rainfall is taking shortcuts through splif-level living rooms as it rushes down to the sea. It's the same water that always fell as rain—but because so much land is paved or roofed, it has less chance to soak into the ground. into the ground as nature intended.

Grass, weeds, trees and matted leaves provide an infinite number of tiny openings into which a reindrop can soak. The longer the traindrop tays in one place, the better it can be absorbed by the earth below and help replenish understand formations that carry water to the longer water to the longer than the l

director of Women's Safety Activities of the Allstate

Activities of the Allstate Insurance Company, there are two basic reasons for this. First, there is more activity in the kitchen than in any other area of the home; and second, people are so familiar with the area that they are not likely to notice potential dangers. "Three elements are hecessary to make kitchens accident free," Mrs. Beaton points out. "Safe planning, safe equipment and safe habits."

New Jersey horse population gallops New Jersey has seen its horse population just about double in the past decade despit the fact it is the most urbanized state in the union. tor spring institute

Students and teachers from more than 30 high schools have already signed up to attend next spring's annual Monmouth College Government Institute.

Paul E. Zigo, assistant director of community relations and institute coordinator, asid the schools are being registered now, even though the institute is still months away, to give interested students enough time to work on original research papers on some aspect of the program's theme.

The day-long program is scheduled to be held Saturday, March 25, and will study "Our Welfare System - Challenge of the 70's.

Zigo said the best papers submitted by the students will be read by their authors during the institute before an sudience which will include federal, state, county, and municipal officials, as well as hundreds of students and teachers. in a state so heavily populated has been documented in a study done for the New Jersey Equine Advisory Roard, a unit-of the New Jersey Department of Agriculture.

Conducted over a six-month period beginning last spring by Opinion Research Corporation, an internationally known research firm based in Princeton, the survey is believed to be one of the first in-depth studies of equine trends carried out in any of the 50 states in trends carried out in any of the 50 states

racing and pleasure horse branches, represents a quarter billion dellar a year asset to the Garden State in direct economic activity.

Nearly 35,000 horses are currently stabled in New Jersey, as compared to approximately 18,000 horses accounted for in 1961, when the last definitive horse census was taken. Horses are stabled in all 21 counties, with all geographic regions but one showing substantial

herring...and you could inadvertently commisuicide or kill a friend. suicide or kill a friend.

None of those snack ingredients is dangerous by itself. But all of them are dangerous to a person undergoing some kinds of medication. This is the essence of a development in the science of pharmacology discussed recently by Dr. Alvin Felmelster of the Rutgers College of Pharmacy. His specialty is the study of drug action. And drug action now is more frequently recognized as a pharmacy are proported to the study of t

stances consumed by people.

"Awareness of drug interactions has developed only in the past five years," Dr. Felmeister said, "and the medical and pharmacy professions still have not decided whose responsibility it is to watch the patient because the average patient has not the training to understand that he might be placing himself in danger." PERHAPS THE CLASSIC SITUATION is the one used as the example at the beginning of this story. A group of chemicals called pressor

beer. Chianti wine, aged cheese and pickle medication.

There is also a group of drugs called MAQ inhibitors (the letters stand for "monoaming oxidase," which is an enzyme). MAO inhibitors depressed patient.

NEW YORK—The leading civic, trade and work and where the workers live.

"We have liad enthusiastic cooperation thus far from 17 business associations, nine public far a.m. and 5 p.m.

Gustav S. Eyssell, chairman of the Midtown—pears to be general recognition that staggered hours can go a long way toward relieving it and

> volume of new office construction now under way, substantial job growth will undoubtedly occur throughout the decade of the 1970's.
> "Moreover, with the failure of the transportstion bond issue and the reduced availability of capital monies for physical improvements which this implies, we feel it is doubly important to examine the potential of staggered work-hours at this time," Eyssell noted.

The work schedule surveys will be supplemented by a series of transportation studies to be conducted by the Port of New York Authority, the Metropolitan Transportation Authority and various agencies of the City of New York also members of the Task Force.

The transportation studies will define the present levels of peak hour congestion on subway and commuter rail lines, bus routes and key nedesting considers in the Middown

schedule survey and of the transportation studies with the appropriate transportation—agencies and Midtown business associations to determine whether we should recommend a staggered hours program for Midtown," Eyssell said. "If it looks favorable, we would porations in the spring of 1972," he added. The examination of staggered work hours in midtown is a natural extension of a highly midtown is a natural extension of a highly successful program which is now operating in the Lower Manhattan business community. The Lower Manhattan program, sponsored jointly by the Downtown-Lower Manhattan Association and the Port Authority, includes participation by—116 private and publicorganizations. More than 70,000 men and women have already changed their work schedules in Lower Manhattan, mostly from 9-to 5 to 8:30 to 4:30, and a goal of 120,000 participants is now being pursued. Opinion surveys ticipants is now being pursued. Opinion survey conducted among the participants indicate tha they are enthusiastic about the schedule changes. Moreover, surveys after the initiation of the program indicated that peak volumes on PATH trains have been reduced and congestion has been alleviated at PATH'S World Trade—Center Terminal and at three main subway stations in Lovey Manhattan. stations in Lower Manhattan.
Eyssell, chairman of the Midtown Development Council, was named to head the Midtown Staggered Work Hours Task Force at

Big band singer Brito heads 1972 Heart Fund campaign

Brito, after a 12 year struggle with heart disease, had successful open-heart surgery a year ago. The surgical techniques had not been discovered in 1959 when Brito was told of his illness. Fully recovered, Brito will return to singing Monday with a concert at Carnegle Hall in New York, backed by Hugo Winterhalter's Orchestra, He diso recently introduced a new single release, To Be the One You Love', and a new album, "Sweet Sounds and Good Vibrations of 1871." miner, his family moved to Newark when Philiwas only an infant. At the age of 17, he was a featured vocalist with several name bands including Al Donahue. During this period, Philintroduced several Italian songs with American lyrics and became an instant suc-

cess, Among his records which sold more than a million were, "Mama," "Come Back to Sorrento," and "Five Minutes More." When his career was in full awing, Phil starred in four

community service programs of the local heart.
associations. According to Phil, it-was he who one night while singing at the Strand Theater in New York, invented the technique of walking into the audience, singing into a hand microphone. He recalls that the new technique in vocalizing was an instant success, receiving rave reviews from Walter Winchell and Sullivan.

Throughout the years, Phil Brito has done much for charity During his illness, he did many benefit performances for charity in the metropolitan New York area. His latest He and his wife, Edith, live in South Orange.
The Heart Association is dedicated to the prevention and cure of heart and circulatory diseases. The New Jersey Heart Association consists of 17 chapters and divisions throughout New Jersey.

Case: Navy plans to study off-shore sites for dumping

of at sea.

"You have raised a number of important question," Chafee told Senator ase in his letter, "and I have had our research people carefully review this whole subject.
"I am happy to inform you that we have decided to schedule a survey off the New Jersey coast."

Menu happy to inform you that we have decided to schedule a survey off the New Jersey coast."

Over current models, which people will mercury cells the mercury cells and one survey cells the mercury cells that reversely the said. The mercury cells are mercury cells the mercury cells that reversely compared to the surject of the new people carefully down after 18 to 24 months of use and must be replaced by a surgical operation, and that means anesthesia, hospitalization, exposure to infection and a good deal of money."

Recharging pacemaker batteries without surgery, he said, is an obvious improvement.

Chafee said the survey would be conducted "at the earliest possible lime" and promised to contact Senator Case with "a complete description of our plans" as soon as the details are worked out.

In his earlier letter to the secretary, Senator Case urged expansion; of current studies to include a survey to determine the precise location of aix munitions-ladened hulks that were sunk and abandoned off the New Jersey coast. Once the fulls are located, Senator Case urged, the Navy should conduct periodic and sustained moniforing of all these vessels, aparticularly those containing nerve gas and other chemical munitions.

Three of the hulks sunk off the New Jersey coast contained only conventional munitions.

Three of the hulks sunk off the New Jersey coast contained only conventional munitions.

Two others, known as the details are opposed to the list each year now. Essentially, the device is needed to keep now

American, Israelis team up on development

Sensitor Clifford P. Case said this week the Navy has acceded to his request to conduct a survey of deep water munitions dumping sites off the coast of New Jersey.

The senator said, be was informed of the Navy's decision in a letter from Secretary of the New Jersey of deep water munitions dumping sites that can be recharged without removing the patient's chest.

The hickel-cadmium batteries, which are current programs of monitoring munitions dumping sites seemed to ignore the fact that shiploads of nerve gas and chemicals suite of the New Jersey coast represent the greatest threat of any of the New Jersey coast represent the greatest when the new Jersey coast represent the greatest from any of the New Jersey coast represent the greatest for any of the slores of munitions disposed of at sea.

"You have raised a number of important question," Chafee chafee should be steriled to last for about 25 years, are recharged by transmitting radio frequency power to them through the patient's skin, according to Dr. Robert I. Bernstein.

Dr. Bernstein, a professor of electrical of at sea.

"You have raised a number of important question," Chafee coast of monitoring munitions disposed of at sea.

"You have raised a number of important question," Chafee cold Senator ase in his letter, and I have had our research people carefully.

The coast of the new through the patient's skin, according to Dr. Robert I. Bernstein, according to

THE PACEMAKER invented by Dr. Bernstein and his Israell colleagues is triangular shaped, about two and one quarter inches long on each side, and about five-eighths of an inch

cuits within the pacemaker.

The internal voltage of the pacemaker is about 3.5 volts, or more than twice the amount. about 3.5 volts, or more than twice the amount of the average flashlight battery. It takes approximately eight to 10 hours for a full recharge, which can take place overnight even while the patient is sleeping either in a special clinic or in his own home. There is not the discomfort to the procedure, Dr. Bernstein ? It.

> he adds, "it appears that the rechargeable batteries should be useful for up to 25 years ANOTHER PLANNED FEATURE of the new pacemaker is so-called "demand" cir-cultry. Many electronic pacemakers are in-serted only on a temporary basis, until the heart's natural pacemaker begins working

On the basis of data collected so far in tests.

properly again.

But with almost all of the present pacemakers, this presents a problem, because as the natural paternaker gets healthy and becomes operative, it begins competing with the electronic pacemaker.

The new rechargeable pacemaker, however, has built-in sensing devices which monitor and

Trailside will offer film on pollution of our environment

"All The Difference," a color, sound film, will be shown at the Union County Park Commission's Trailside Nature and Science Center, in the Watchung Reservation, on Sunday at 2 p.m. The film studies the problem of environmental pollution.

Also on Sunday, at 3 p.m. and 4 p.m., Donald. W. Mayer, director of Trailside, will present a program at the Trailside Planetarium entitled "Skies Over Palestine." The program will "Skies Over Palestine." The program will discuss the story of the skies over Palestine some. 1,900-years ago. The story of the Christmas Star will be presented from both the miraculous point view as well as the possible astronomical explanation of this event.

The same program will be presented on Wednesday at 8 p.m. and on Monday, Tuesday, Wednesday and Thursday, Dec. 16; at 4 p.m.

As the Trailside Planetarium can seat only 35 persons at a performance, it is necessary to persons at a performance, it is necessary to obtain a ticket from the Trailside office on the lay of the show. Tickets are issued on a first-

come, first-served basis. Children under eigh years of age are not permitted in the lanetarium chamber. The Trailside Nature and Science Center is open to the public each weekday, except Friday, from 3 p.m. to 5 p.m., and on Saturdays and Sundays from 1 p.m. to 5 p.m. **Bob Lee Association**

Police probe fatal beating of Westfield man

Police are investigating the fatal beating of a 23-year-old Westfield man whose body was found in a motel room in the Colonial Motor Court on Rt. 22 in Springfield on Sunday morning

The victim, John M. Dries, was the son of a

Westfield deputy fire chief. It was the first
murder in Springfield in about th years, police
detectives, said, occurring in the wake of

detectives said occurring in the wake of Westfield's List murders.

The funeral was held yesterday from the Gray Memorial Funeral Home in Westfield.

According to Springfield Police Chief Georga.

E. Parsell, Dries' body was found in the bathroom of the motel quarters on Sunday at 7:55 a.m. A motel employee, alarmed by water leaking from under the door, eventually entered the room and found Dries lying on the tered the room and found Dries lying on th floor, police said. Parsell reported that Mr. Dries had suffered multiple wounds in the back of the head and a ingle wound on the front of the head. Water was leaking from a broken bathroom tank, police said, and they reported indications of a

struggle.
Police said they did not know how Dries got to the motel, he did not own a car. He had checked in at the motel the previous night at about 7 o'clock, Chief. Parsell reported.

the investigation.

Dries was born in Bellingham, Wash, and had lived with his family in Westfield since 1953. At the time of his death, he was employed as a construction worker for a firm in Tucson Ariz., where he began working less than one year ago. He had attended Westfield schools and was a

graduate of Westfield High School, He was a member of the First United Methodist Church He is survived by his parents, Mr. and Mrs. John W. Dries, and two brothers, Mr. and Mrs. John W. Dries, and two brothers, Thomas G. and Michael J., all at home; a maternal grandfather, John W. Dries Sr. of Brooklyn, and a maternal step-grandmother, Mrs. Mabel Cooper of Bellingham.
