County flood funds could be real help for committees . . . or just more water over the dam

The Union County Board of Freeholders took action earlier this month to help municipalities solve some of their flood problems; but Springfield-if it wanted to take advantage of the offer-and if the county agreed to help-would still find it an expensive proposition.

The proposed project "does not adversely affect any adjoining municipality." The municipality or municipalities involved must "have demonstrated, or formally agreed to demonstrate, that they are willing to expend local funds to help correct their flooding problems."

Small donations are generated by Dem's wine party

The Democratic organization wine and cheese party June 2 at the American Legion Hall will be a "most successful kickoff to Ed Fanning's and Stanley Brader's campaign for Springfield Township Committee," according to Harry Pappas, chairman of the day's events.

Pappas said, "Advance sales indicate that the combination of a gourmet assortment of wines and cheeses plus the presence of Democratic figures of national, state and local prominence is a great attraction. Sen. Harrison A. Williams has committed himself to be there."

In addition Congressman Peter W. Rodino has indicated he will make every effort to attend. Congressional candidate Adam Levin, State Sen. Alex Menza, Shadrach Ralph Orsello, Assembly representatives Betty Wilson and Arnold D'Ambrosia and freholder candidates Walter Boright, William McCool and John Mellegri will also be present.

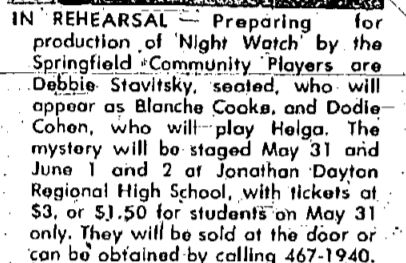

The public has been so responsive that we had to print another run of tickets for the party. The capacity of the American Legion Hall is limited, we will have to stop when these tickets are gone.

Kicking pointed out, "In addition to offering a good value for a \$5 ticket, the Springfield Democratic Party is stressing the importance of spreading out the burden of financing political campaigns over many, many small contributions. It is most important to broaden the participation of the public in political activities."

Truder added, "The arithmetic is there: If every voter in Springfield gave a small contribution, both political parties could completely finance their activities for a year. This wine and cheese party is a step in that direction and we are grateful that it is turning out so well."

Pappas concluded, "This gathering in Springfield of federal, state, county and local officials affords an excellent opportunity to 'cut through the red tape' and talk directly with their representatives at all levels of government on the issues that affect them."

For further information or tickets, readers may contact Ruth Schwartz, 376-3632, or Marty Mays, 685-4881.

Coal leasing project studied Dayton grad writes report

The report is highly critical of the project, although it is "a keystone of the nation's energy policy." It has failed to encourage resource development, has failed to provide market value to the public and Indian tribes, and has saddled the nation with a huge load of leased but unmined coal that may well frustrate energy resource planning for decades to come.

"Over 15 billion tons of recoverable public coal and five billion tons of Indian coal are under lease," the report notes. "That is 35 times the amount of coal produced by the United States in 1973. Although western coal development will have a staggering impact on that region, the Department of the Interior has not planned for, or even considered, the environmental, cultural or economic effects of its leasing practices."

The Council, based in New York, is a non-profit public interest organization established to research and disseminate unbiased and detailed information on the practices of U.S. corporations in such areas as employment practices, environmental quality, military production and consumer practices.

Cannon, a 1967 graduate of Jonathan Dayton Regional High School, Springfield, attended Princeton University and has been affiliated with the Council on Economic Priorities for two and a half years.

"Copies of 'Leased and Lost' are available for \$3 each from the Council on Economic Priorities, 94 Fifth Ave., New York City 10011. The council also publishes a bi-monthly report, available on a subscription basis."

VISITING ARTISTS - Student violinists from Pennington schools, under the direction of music teacher Barbara Binn, are shown in a recent concert at Springfield's Thelma Sandmeyer School. The performance, which featured an entire string orchestra of fourth, fifth and sixth graders, was part of the school's 'Musical May' program. Mrs. Binn is the sister of Dorothy Stallworth, Springfield music teacher, who originated for the concert.

Natural gas when we pay more, your bill goes up.
Like most utilities, PSE&G contracts to buy gas from pipeline suppliers. The pipeline supplier, in turn, buy from the producers. But in recent years the nation's supply of natural gas has been dwindling. And as the producers increase the price to pipeline suppliers, the higher costs are passed on to us. It's been rough. In fact, the average price of gas to PSE&G has jumped 32% in five years.

Chickens, hams stolen at market

Someone in Springfield discovered a way last week to beat the high cost of meat for awhile; he accompanied with 60 pounds of chicken breasts and a box of boiled hams which had been left at the rear of Loria's Meat Market at 238 Mountain Avenue.

Township police said the store manager reported several packages of meat had been delivered to his store at 11:15 a.m. May 14, and at 6:30 a.m. he discovered the box of chicken, worth \$37.25, and the hams, valued at \$23.25, were missing.

A portable television set and \$227 in cash were the booty collected by thieves who broke into a Madison Terrace home May 15 or 16, police reported.

Gold coins are framed

"Throughout the world markets today, the value of gold is soaring to unprecedented heights and owners of gold coins have a blue chip investment."

These valuable gold coins can be preserved and become fashionable jewelry accessories in 14-karat gold frames, and he added, "the coin is not damaged in any way."

Gold coins are one of the few blue chip investments that can be used as adornment to delight the owner and eye of the beholder.

Ever since last May, Paul explained, gold has been hitting record highs, practically daily and the precious metal has been continually in the limelight.

All Wisconsin gold coins are framed in gold settings—with or without jewelry—ranging from \$29 to \$600 and higher. Wis designers will show how gold coins can be framed into fine jewelry accessories, while at the same time protecting the coin, as a framed coin investment. Wis can furnish gold coins along with the jewelry setting if customers desire.

Senior aid supported by Freund

A. Howard Freund, Democratic candidate in the 12th Congressional District primary, this week called for a Homebased Act for senior citizens.

"I refuse to accept the present situation in which people who have worked all their lives must lose their homes to pay for a bunch of maffios, who are able and refuse to work and eat the 'thousands' of wasteful programs, which includes subsidizing ungrateful world-at-the-expense-of-the-American-people-and-especially-our-senior-citizens who built this country," Freund continued.

"It is disgraceful in America that our senior citizens are being their homes because of inflation and taxation. If our so-called leaders, who are spending us into bankruptcy would curtail their spending programs in everything, except national security, we could win the war against inflation," he concluded.

VA offers 'release' on mortgages

The Veterans Administration this week announced a new program that will allow veterans and their families to "release" their VA mortgage loans to other lenders.

During May and June birds build homes and raise families. Often a precocious fledgling gets too near the edge of the nest and falls to the ground before he (or she) has learned to fly.

"My first advice is to be able to feed baby birds in the nest if at all possible. The mother bird can do a much better job of raising it than any human. Sometimes, however, this isn't feasible. Then I get out my copy of 'Bird Ambulance' by Avine Thomas. Perhaps there's a copy in your local library. It's easy to read and full of good advice when it comes to dealing with young or injured wildlife.

Once Mrs. Thomas wrote a piece about saving birds off an international magazine. Soon after the mailman brought a letter to her Queens home from far away Sweden. The writer wanted to know what to feed an injured Swallow. Swallows, she knew, feed almost exclusively on winged insects. Hence the suggested diet was a mixture of scraped lean beef, dried flies and unflavored gelatin. The Swedish correspondent replied that the swallow completely recovered.

"I've never taken care of any species other than human and bird if I pressed I would guess it's the robin. Perhaps this is because robins frequently build in our doorknobs. The Swedish correspondent replied that the swallow completely recovered.

If the young birds have few or no feathers when they come to you, keep them warm. Put them in a box lined with grass and tissues and cover them with a bit of woolen cloth. This makes up for the lack of a mother's brooding, consisting of chopped beef, some grated hard-boiled egg, dried baby cereal plus wheat germ and liquid vitamins. Include a bit of powdered egg shell too. Then if you are ambitious you can come even closer to the tiny feathered food and dig worms.

DISC 'N DATA

ALBUM OF THE WEEK: BIG BAD BOY by Bo Diddley (CHESS CH-5007). Selections include: "Bite You," "He's Got All The Whiskey," "Hit Or Miss," "I've Got A Lot Of Nerve," "Stop The Fishin'," "I've Been Workin'" and "Eveleen."

Playing the guitar he designed himself, chopping out his familiar rhythm pattern known as "the tradesman's knock" or "Shave-and-a-hair-cut-two-bits" and gyrating with the energy of a man 20 years younger, Bo Diddley, "The Drifter," blizzarded to the microphone as 20,000 fans roared their approval in the Rock and Roll Revival at Madison Square Garden and said:

"I would like to thank... all those who survived the rock and roll crisis... for my 18 great years in show business."

Born Ellis McDonald, Dec. 30, 1928, in Macon, Miss., he studied classical violin in grade school. In high school he joined a rhythm band, switched to guitar at 17 and began recording in 1955.

English and American rock and blues bands continually recorded Bo's songs. It was not until the late '60s that a full-fledged wave of sentimentality and rediscovery swept over the "oldies" craze, introducing past masters of rock to a new generation.

Bulldogs tie for first place in Union County track meet

The Jonathan Dayton track team rebounded from its third-place finish in the Suburban Conference meet to tie for first place in the Union County track and field championship Saturday at Williams Field in Elizabeth. Dayton had 29 points to share first place with Scotch Plains.

Following were Union, 27; defending champion Westfield, 21; Plainfield, 20; 10-16 Catholic, 15; Cranford, 13; Rahway, 9; New Providence, Berkeley Heights and Lodi, 8; Clark, 7; Union Catholic, 6; Summit, 4; Kenilworth, 3; Linden, 2; and Roseton Park, 1.

Edison Tech, Holy Trinity and Pliny failed to score. Dayton's victory, the first in this tournament, is a great tribute to the team and Coach Martin Tagliapietra, who worked very hard this year to make up for graduation of several key performers.

Dayton will defend the State Sectional Group 1 title this Saturday and a victory would propel the Bulldogs into contention for a state crown.

Bruce Heide led the discus and shotput and a second in the high hurdles. Hank Matzbeiner finished second in the high jump.

Tim McCormick took a second, just missing victory in the 320-yard intermediate hurdles. Ten Goltzner finished fifth in the 400 yard run. Rick Sterchio took second place in the pole vault, missing a 10-foot first by six inches.

The mile relay team gave Dayton its only victory of the meet. Winning in 3:26.5 were Gavin Widom, Jeff Spilthoff, Ben Gelfand and Tim McCormick.

Dayton nine ends dismal year today, will meet Verona

The Jonathan Dayton Regional baseball team faces Verona today in a Suburban Conference game that will inevitably draw the 1974 season to a close. Last Saturday's 17-0 loss to Hillside ended the Bulldogs' eighth in a row and dropped their record to 4-12.

What had started out as a promising season—including a victory over Suburban Conference rival Summit—has turned into a dismal showing. Dayton's pitching fell apart the last part of the season—but so did the hitting and fielding.

The hitting—which was excellent early in the year, rarely producing fewer than four runs a game—has had an unbelievable turnaround. Fielding, which was a strong point, is now shaky.

All this was evident in the loss to Hillside. Earlier in the season, the Bulldogs had beaten Hillside, 4-2, behind the pitching of Joe Pepe and the hitting of Bill Polozzi. This time out, Hillside pounded three Dayton pitchers for 11 hits, including a home run, while holding Dayton to only three hits. The fielders didn't give the pitchers much help—committing eight errors.

The Bulldogs have suffered some tough losses to New Providence, Millburn and Union Catholic in games which they had led until the final inning. Victories in these games would have bettered Dayton's record to 7-3-1.

Playing their last game for DP Bulldogs today are Jim Lofredo, Bill Polozzi, Frank Zavello, Tim Pimpinelli, Joe Pepe and Gary Treason.

Picks, Blue Gigs remain unbeaten in DIPPER play

The Silver Picks and Blue Gigs sport 24 records as the Dayton Intramural Program Physical Education Recreation (DIPPER) National Basketball League (11th & 12th grade and faculty) early morning play begins its third week of action in the boys' gym.

The Picks doubled the score on the Red Hoops as they posted a 52-23 victory, with Barry Stollab, Al Weisman and teacher Dave Cowden hitting double figures of 14, 13, 12 and ten points respectively. Art Krueger, Steve Hill and 7. The Hoops' scores were credited to Mike Esposito, 4; Marc Hoffman, 4; Bob Toth, 2; and four each by John Zarkoff, 2; and Tom Huscovnic, 2.

The Picks had to struggle in their second contest last week as they eked out a 41-31 win over the Blue Gigs. The game was a hard-fought affair with 16 points by Jeff Schneider, 4; Chris Barry, 6; and Cowden, 2; tallied for the Picks, while Bruce Heide, 8; and Tom Huscovnic, 4.

The Brown Buffs, playing without their complete team, dropped a 38-27 game to the Blue Gigs. Gigs' center Jeff Schneider, 14; John Zarkoff, 10; and Tom Huscovnic, 4.

DIPPER director John Swedish announced league action will continue every morning except Friday through Saturday. The championship are being held on Fridays until the week of June 10, when the one-on-one championships will be held. A new event, the one-on-one DHA foul shooting championship, also is scheduled. Students and faculty members desiring to compete must register with the director and bring along a letter of recommendation from their coach.

They dropped consecutive matches to Madison by 4-1; to Caldwell by 4-1; to West Orange by 3-2; and to Millburn by 4-0. Losses cut local netmen from state tourney play

Last week was a "hot" one for the Jonathan Dayton netmen as they lost four of five matches to send their record plummeting to 10-8.

Coach Bob Meyer's Bulldogs netmen got the week off on the right foot as they defeated Morris Knolls High School in the first round of the State Tennis Tournament by a 3-2 margin, but everything after that went wrong. They dropped consecutive matches to Madison by 4-1; to Caldwell by 4-1; to West Orange by 3-2; and to Millburn by 4-0. Millburn High also eliminated the Bulldogs—over State Tournament play on the Friday match with a 4-1 victory.

Feinberg by 3-6, 7-6 and 6-0.

Mike Tabakin and Dave Garner carried the only win in the Madison match as they defeated Mary McLaughlin and John Batertwerth by 6-2 and 6-3. Franklin State president: No link with N.Y. bank

Anthony D. Scherbel, president of Franklin State Bank, Somerset, this week reassured depositors that the bank is completely unconnected with the organization from the Franklin National Bank of New York, which is undergoing financial problems. Franklin State Bank received its charter from the Department of Banking, State of New Jersey; the New York bank is federally chartered. Although the names are similar, existing banking regulations prohibit interstate banking. Franklin State Bank operates 24 branch offices in central-New Jersey and currently ranks as one of the top 20 banks in the state. It also has four subsidiary corporations: Franklin Data Information Corporation and Franklin Mortgage Company; and a newly formed division, the Franklin State Money Shop.

Franklin State Bank was recently cited as the 20th largest bank of 14,000 commercial banks in the United States.

Dear Pat and Marilyn: What can I do about my son? He refuses to answer questions about anything he does. Last Saturday he attended a wedding. I asked what the bride wore, what was served at the reception, what they received as wedding gifts, etc. I couldn't pull one bit of information out of him. What do you think?

Dear Tom: Unless you're writing a book, stop the questioning. This is going to sound ridiculous, but I am 21 years old and still painfully shy with anyone I haven't known for years. When I was in high school, talking with others was like "the Chinese water torture." I spent 90 percent of my time in the school library.

Restudy of Rt. 78 impact will stall highway

By BOB LUKKIND The State Department of Transportation, notified by negative response to its draft Environmental Impact Statement on Rt. 78, this week decided to restudy alignment, interchange and environmental aspects of the superhighway through Springfield, Summit, Mountaineer and Berkeley Heights.

The decision will delay construction of the highway by at least one year, possibly more. Another public hearing will be held next spring after the second draft of the Environmental Impact Statement, E.I.S. is released.

The highway was first proposed in 1957 with a targeted opening date in the early 1960s. The road is now open between New York and the vicinity of Harrisburg, Pa., with construction under way between Springfield and its terminus at Newark Liberty Airport.

The decision to prepare another draft E.I.S. will have no effect on construction of Rt. 78 through Union and Springfield, which has been progressing rapidly. However, it will delay the eventual completion and opening of the highway through Union and Springfield.

Environmental Commissioner Alan Sagner said additional studies on the highway will include the following possible alternatives: —Original alignment for Rt. 78. —Original alignment for Rt. 78 with modified interchanges.

—Original alignment for Rt. 78 without interchanges. —Modified alignment through Commonwealth Water Company well field in Summit.

—Cut and cover (tunnel) scheme through a portion of the Watchung Reservation. —Southernly alignment below Glenside Avenue in Summit, Berkeley Heights, Highlands and Watchung Reservation.

—Northernly alignment in vicinity of Mountain Avenue, which would drastically reduce the amount of land needed from the Watchung Reservation. —Dilation of portions of the Rt. 22 corridor south of the Watchung Reservation.

Non-build alternative. SAGNER ALSO SAID that the Department of Transportation is in the process of forming a working committee consisting of representatives of the affected communities. In addition, liaison will be maintained with officials. (Continued on page 12)

Jersey, county agree to clean river and ditch

Committee Chairman William Ruocco reported Tuesday's Springfield Township Committee meeting that there is now a 2000-chance township will be able to have PWT engineers clear the sedimentation out of the Rahway River below Rt. 78 "before the flooding season begins," he said.

Ruocco said that the transportation agency had wanted to wait until October before clearing the river channel. Approximately 30 citizens attended the meeting at Town Hall.

Ruocco said that local officials and experts had met earlier in the day with Union County legislators and DOT engineers to study the site, deposits up to four and five feet in depth, which have built up below the highway construction.

He said that the sedimentation could aggravate flooding in the Marion avenue area. "DISCUSSING ANOTHER front of the township's war on flooding, Ruocco said that the Union County Park Commission had agreed to widen the drainage ditch near Alvin terrace, and at its own expense.

He said that all specifications had been completed for the dikes to be erected by the township and Park Commission along the Rahway River near Washington Avenue and Riverside Drive, and that the job should be advertised for bids in June, with work to start this summer—"finally" after two years and eight months of effort.

Ruocco also noted that the Township Committee has newly completed reclamation of the east-leveling ordinance, to cover the posting of security by landlords as well as "several other" items. (Continued on page 12)

Three groups form Heritage '76 unit to mark Bicentennial; meet on June 6

A combined meeting of three groups, marking up the official Bicentennial Commission for Springfield, will be held in the Town Hall next Thursday, June 6, at 8 p.m., with municipal officials also taking part.

The three units, designated as Heritage '76 committee, Festival U.S.A. and Horizon '76, have been appointed by Mayor Edward N. Sitar Jr. in preparation for the official observance of the Bicentennial from 1776-1976. Each of the groups is working independently, and from time to time they will convene to coordinate future events and activities on a township-wide basis.

A meeting of the Heritage '76 committee was held last Thursday night at the Cannon Hall House, Morris avenue, attended by delegates from various civic and church organizations.

Madeline Lancaster, Heritage '76 chairman, announced that the Springfield unit will work closely with the Union County Bicentennial Commission, supervised by the Board of Freeholders.

She also described a supper held Tuesday of last week at the Springfield Emanuel United Methodist Church, in which Rev. James Dewart, pastor, gave an illustrated talk on the history of the church. It was also disclosed that the Springfield Historical Society will observe on Sunday, June 23, at 7:30 p.m., the 175th anniversary of the Battle of Springfield in a brief parade and ceremonies on Morris avenue. Primary election details outlined by head of LWV

Leslie Zucker, president of the Springfield League of Women Voters, has issued a reminder to residents who wish to vote in the primary Tuesday.

Election districts in New Jersey will vote for candidates for the general election as follows: —Congressman; county officials and local officials. Also to be elected are county commissioners and women and state committee members.

Mrs. Zucker stated, "The primary is a procedure whereby the members of a political party nominate candidates to be voted for in the November election, and elect persons to fill party offices. Any registered voter may vote in the primary by simply going to your polling place, and stating your name and the political party you wish to vote for. You then enter the booth and vote for the candidates of your choice. Although you may vote for only one political party in the primary, you do not have to vote the straight party ticket in November."

Mrs. Zucker said that sample ballots are mailed to all registered voters by the county clerk, and should be consulted for the names of all candidates running for various offices. Polling places are open from 7 a.m. to 8 p.m. at the following Springfield locations: Districts 1 and 4, Presbyterian Parish House, Church Hill, lower level; Districts 2 and 3, American Legion Building, (Continued on page 12)
