commission have separately retained David Sive, a Park avenue attorney, to

aren't going to take a course if they t's boring. Today's student absolutely turns off a teacher whose course he thinks is boring."

THE DEPARTMENT administered the questionnaire last year to discover which classes bored foreign language students. The computerized poll asked students to react to statements such as "Hearned a lot," To this, the student could be reply—with guaranteed anonymity—"yes" or "sort of" or "no," Each teacher was confronted with "sort of" or "no" answers, as well as enrollment decreases from one level to the next.

"What is remarkable is that the teachers themselves really took each 'sort of' or 'no' to heart," said Collura "The results are hard to interpret.
"For example, at the fifth level, th negative reply by just one of them would show up as a high percentage of students who didn't feel they learned a lot ... But instead of just justifying

Collura said the French-German-Spanish workshop was a first step in overhauling foreign language courses. to make them more appealing to students. In addition to increasing the emotional impact, workshop participants said they will be trying harder to show practical applications of foreign-language proficiency.
The Regional high schools are already working with the business epartment at Rutgers University to try to develop a course that would turn

lingual secretaries. This would be a pilot program, Collura said, toward increasing foreign language at-tractiveness to students who might not want a four year college degree.

Meanwhile, instructors have been looking at the "show biz," aspects of their teaching. At the workshop they examined the latest offerings in audio equipment and textbooks, teamed up to prepare lesson plans and ndividually researched practical

THE STATE WE'RE IN

By D.F. Moore, North Jersey Conservation Foundation

Every hot summer the practice of as if we had ingested them directly.

dumping sewage studge in the Atlantic

Ocean gains attention because of fears

but it is guaranteed to bring an outcry sludge. Sludge is an Important part of

are converted into new living things. But that's a land-based cycle; sludge can be helpful on the land but not in the dustrialized area like New Jersey-especially the northern half of the states putting sludge on land to grow crops for us to eat remains an impractical dream.

That's because so many kinds of ndustrial and chemical wastes 'pollute' the sewage that it's unsafe or agricultural uses. Heavy metals like

nercury, cadmium and others are present in the sludge, along with a multitude of toxic and often carcinogenic chemicals. mogenic chemicals.

Those unwanted materials would permeate our vegetables and the feed eaten by cows; getting to us as certainly

To Publicity Chairmen: preparing newspaper releases? Write to this newspaper and ask for our Tips on

the carbon cycle, in which our wastes described into new living things.

But that's a land-based cycle; sludge because no dangerous industrial wastes New Jersey's Department of Environmental Protection is fully aware of this, and proudly points to a pioneering step in which Camden's sludge will soon be used for composting. When that happens, no more Camden sludge will go to the ocean. Thus it was with real regret that DEP recently had to support temporary continuation of ocean dumping, during testimony at a hearing of the U.S. Environmental Protection Agency.

If the millions of people in New
Jersey could know that their wastes were being used to nourish crops in 'their "Garden State," they would know that they were reducing the need for

petroleum based fertilizers and saving money now spent on unwise posal methods. Thu pressure has to be built for in-dustrial pre-treatment of sewage so this sensible solution, to pollution can realize that nature's way of doing things is best. We cannot continue to

County college brochure listsall fall courses

The Union County Community College System has published its fall educational programs open to Union County residents through Union College and Union County Technical Institute. The 24-page tabloid, listing all-courses and programs for the new semester, will be mailed to every residence in the county this month, according to Richard Lucas, director of the Union County Coordinating Agency aegis the two institutions are serving

the community college needs of the County.
The brochure contains a schedule of all credit and non-credit courses in academic, technical and vocational programs, as well as a description of all ourses available. Tuition and fees and registration dates are also included.
Union College and Union County
Counties Institute will be offering some 300 credit and non-credit courses this fall in all major disciplines. College programs will be conducted at Union ollege's main campus in Cranford and Center, South Broad street and Bayway. - : Technical and vocational_progra

That's the report on MERIT. and the remarkable breakthrough called Enriched. Flavor tobacco.

Tobacco that for the first time delivers flavor you wouldn't expect in a low tar cigarette -

MERIT and MERIT 100's were packed with this special tobacco. And taste-tested among thousands of smokers like yourself.

If you smoke, you'll be interested.

Taste-Test Proof MERIT and MERIT 100's

Kings: 8 mg/ tor/ 0.6 mg. nicoting av. per digerate. FTC Report Dec. 76 100 s: 12 mg - tar/ 0.8 mg-nicoting av-per digerate by FTC Mothod.

Updated state TB laws praised by association

The State Legislature's adoption of a gathered to present interesting cases their peers for discussion. With the Ne

portant event in the 71-tear history of the American Lung Association of New Jersey, according to Walter W. Hislop, president.

Referring to the association's 1976-77
annual report released this week,
Hislop said some of the TB laws dated

back to the 1800s and reflected the philosophy of isolating patients, in-sanatoriums. The bill repealed 49 statutes while making major revisions in nine others and minor changes in 14 more. Hislop noted that with modern drug therapy, a—TB patient regidly becomes noncontagious and carried treated in a community health center or

creasing," said Hislop. "Today's lungs are more often assaulted by a host of iseases brought about by heredity, the environment, smoking and cupational lung hazards." To encourage physicians trained as Jersey after they complete their postgraduate education, the association awarded-two grants totaling \$11,000-\$7,000 for a fellowship at the College of Medicine and Dentistry of New Jersey-

New Jersey Medical School and a \$4,000 institutional grant to CMDNJ-Rutgers Medical, which supplemented a \$10,000 grant given by the National Lung Association. Histor pointed out that the _state association has contributed \$181,950, to support education and training in New Jersey since 1970. In the area of occupational health, the Workshop Occupational Health-Nurses, co-

the Schering Corp.
The New Jersey Thoracic Society, the medical arm of the association, held 14 physicians and allied health personnel

College of Chest-Physicians, the NJTS sponsored the Fifth Joint Conference, which explored environmental occupational cardio-pulmonary
