VA insurance dividend report termed 'a hoax'

James R. Purdy, director, Veterans Administration Regional Office in Newark, announced this week that a false and misleading pamphlet on insurance again is being distributed throughout New Jersey. The pamphlet advises that a special dividend is available to all World War II veterans who held National Service Life Insurance as being distributed after separation from service.

The pamphlet urges veterans to apply directly to the VA Center, Philadelphia, Pa., to receive the "special" dividend. Purdy said that the information is "erroneous and a cruel hoax." He advised that his type of material has been distributed on many occasions over the past several years. The volume of inquiries received has seriously disrupted the VA's ability to carry on its normal operation.

In spite of thorough investigation, the VA has been unable to determine the source of this rumor or its purpose, Purdy said.

46 million openings in jobs seen by 1985

New projections estimate 46 million job openings are expected in the United States between 1978 and 1985, Herbert Blenstock, regional commissioner of the U.S. Department of Labor's Bureau of Labor Statistics, has announced.

Approximately two out of every three of the 46,124,000 anticipated job openings between 1978 and 1985 will result from the need to replace workers who die, retire or otherwise leave the work force, Blenstock said. The remaining 16,841,000 openings are expected to arise from industrial expansion as well as from the need to replace workers who die, retire or otherwise leave the work force, Blenstock said.

White-collar occupations, which now account for half of all the jobs in the United States, are expected to account for almost 25 million, or more than half of those job openings, Blenstock reported. Professional and technical occupations, mainly of the white-collar group, are expected to provide more than 6 million job openings between 1978 and 1985, with about 2.5 million arising from industrial growth.

Among the other white-collar occupations, clerical workers, the largest and fastest growing of all occupations, are expected to provide more than 10 million openings between 1978 and 1985. Job openings for managers and administrators, reflecting a strong demand for salaried managers, are expected to number 5.4 million, while those for sales workers are expected to provide 3 million job opportunities, Blenstock said.

Although blue-collar occupations as a group are expected to grow more slowly and provide only half as many job openings, as white-collar occupations, there should be about 13 million openings in these occupations. Within the blue-collar group, craft occupations are expected to have 5 million openings. Employment opportunities for painters, the largest blue-collar group, are expected to number almost 8 million between 1978 and 1985. Jobs for nonfarm laborers are expected to be 1.6 million openings, Blenstock noted.

More than 8 million openings are expected in service occupations by 1985, or almost one out of every five jobs to be filled. Farm employment, which has been declining for decades as a result of increased productivity and improved technology, is expected to decline by an additional one-third to 1.9 million workers. Despite that, Blenstock noted, the need to replace farm workers who leave the labor force is expected to provide more than one million jobs.

COMMUNITY PLAYERS REHEARSE THE PRODUCTION OF "ONE FLEW OVER THE CUCKOO'S NEST" ON SATURDAY AT CHISHOLM SCHOOL. REPEAT PERFORMANCES ARE SCHEDULED SUNDAY AND THE FOLLOWING WEEKEND WITH 8:30 P.M. TICKETS AT \$4

Athletes' prizes haunt Regional board again

The Union County Regional High School District Board of Education "did not act... in its best wisdom" when it spent more than \$50 per student on material rewards for top athletes in the fall season, board president, Charles E. Vitale Jr. of Kenilworth, conceded Tuesday night.

The fall season spending returned to haunt the board again this week when Carl Peterson, coach of the girls' basketball team at the David Breenley campus in Kenilworth, said he had written a letter to the board asking for more money to reward the team.

Peterson said his girl basketball players, who won the Valley Division championship in the Mountain-Valley Conference this year, are wondering why their prizes "cannot be on a par with those received by Breenley boys who won a comparable championship in football."

"If anyone walks out of here thinking that we are going to give out more money to the athletes, that's not what we're doing," Peterson said.

The board is expected to meet again on Tuesday at 8 p.m. at Arthur Johnson Regional High School in Clark.

Grid coach soon

The Union County Regional High School District board is expected to name a new football coach at the Jonathan Dayton campus. Charles Bauman, assistant superintendent in charge of personnel, says he expects to give a recommendation to the board next week or very soon thereafter.

The board meets at 8 p.m. next Tuesday at Arthur Johnson Regional High School in Clark.

Orbach sees 'Cuckoo' as a hit

Community Players widen scope

BY HELEN REYNOLDS

Nine years after the Springfield Community Players were organized, founder Manfred Orbach believes they are ready for changes of space and pace.

"They will be moving from the Jonathan Dayton Regional High School auditorium, which holds 900 people, to the Raymond Chisholm School gymnasium, which holds 200 people," Orbach says.

"The 'Cuckoo's Nest' is this coming weekend and the next."

Orbach says the "Players" are paragonically trying to "widen our whole scope" by thinking small for part of the season. After "Cuckoo's Nest," they plan to use Chisholm School again for a production of "Pinocchio" in June.

Each of our big musicals at the high school draws from 3,000 to 5,000 people (during a run), and we're proud of that in a town this size," Orbach points out.

Orbach believes "Cuckoo's Nest" is "a type of social drama, requiring a more intimate setting."

"The very young. With fewer than 1,400 pupils in kindergarten through eighth grade in the town school system, Springfield has no 'built-in' mass audience for children's theater. But the Players will produce 'Pinocchio' in June, Orbach says, and hope children's show will become an annual event. This would expand the Players' schedule from two to three productions per year.

Orbach says the "Town Board of Education and the superintendent of schools, Dr. Fred Baruchin, have been extremely decent to us." With a grin, Orbach adds: "And they've been very smart."

ORBACH SAYS the board, watching its budget, was looking for a way to enrich cultural offerings to children without spending tax dollars.

"We're very grateful for the use of Chisholm, and you could almost call our plans for 'Pinocchio' a repayment to the board."

"But right now, of course, we're most concerned with 'Cuckoo's Nest'—our first chance to do something more intimate and, perhaps, more important," says Orbach, who is directing the production scheduled Saturday and Sunday at 8:30 p.m. at Chisholm, with repeat performances at the same time the following weekend.

"It's a major and difficult undertaking for us," says Orbach. "Many shows can carry amateur talent... The people can climb onto a popular vehicle and ride it: the script or the music, or both. 'Cuckoo's Nest' isn't that type of show. The writing is excellent, but it demands very hard work from the cast—more dedication, greater understanding of their own parts and each other's. It should be done quite expertly, or it shouldn't be done at all."

Audiences will find the local production "worthy of doing and worthy of seeing," he predicts.

"I have some pride—pardonable pride. I hope—in my background and experience in the theater," says Orbach.

The last time "I was introduced by the Leader (nine years ago), my wife Evelyn and I were founding the Players. I predicted that the group had a future, unlike many others that had tried and fallen flat in Springfield. I expected to feel very foolish if we didn't survive."

"The town recreation department gave us \$1,500 as seed money for our first production. Now we're in the budget for only \$500 a year for a new scrim or another major purchase. But basically we're self-supporting, with some money in the bank. That," he adds with a smile, "is no small achievement for a group in a town that doesn't even have a movie house."

New ambulance has stretcher on 'elevator'

The Springfield First Aid Squad has recently taken delivery of its new modular ambulance, custom built to specific specifications by Wendel Truck Body Builders.

The \$35,000 modular pack unit which will enable squad members to constantly monitor the condition of their patients while en route to the hospital.

A unique feature, attached to the rear of the 22-foot-long ambulance, is a stretcher-lifting mechanism.

"This device allows the stretcher to be elevated from ground level to floor level automatically," the spokesman said. "It will help under-staffed day crews and reduce back problems. It is a first for the ambulance industry and took more than one year to perfect."

The ambulance also has compartments which are accessible from outside and contain extrication tools, a burn kit, a medical kit, extra splints and a backboard.

"All these modern features will allow the squad to render the best possible emergency medical care to township residents," said the spokesman. "This new ambulance was made possible through the generosity of the Springfield residents and the support of the municipal governing body."

In appreciation, the Springfield Association of Ambulance Drivers will present a plaque to the squad.

County budget keeps tax rate virtually stable

The Union County Board of Chosen Freeholders has adopted a 1978 county budget maintaining a county tax rate that has remained virtually stable at approximately 51 tax points for the past three years; in 1977, it was slightly above 53 tax points.

Freeholder Chairman Walter Boright stated, "On the average, a homeowner with a home assessed at \$40,000 had \$204.88 of property taxes utilized for county purposes in 1977 when the tax rate was \$51.22 for each \$10,000 of assessed valuation. With a tax rate of \$51.24 for 1978, a typical \$40,000 assessed home will contribute \$204.96 in county taxes. This is an increase of only eight cents for the entire year.

"The \$204.96 paid annually toward county taxes — approximately 66 cents per day — makes possible the provision of numerous programs and services in the county budget. Some of the services and programs supported in total or in part by the county budget are the county's two community colleges, John E. Richter Hospital, County Jail and Sheriff's Office, County Clerk, County Register, County Surrogate, Park Commission, Union County Welfare Board, Board of Taxation, Board of

Conference on noise set for May 18

The Association of New Jersey Environmental Commission, (ANJEC) under a contract from the U.S. Environmental Protection Agency (EPA) will sponsor a noise control conference in Princeton on May 18.

ANJEC, a private, non-profit organization, was formed in 1969 to coordinate the activities of the state's 300 environmental commissions, volunteer groups appointed to advise municipal governing bodies on environmental affairs. This conference is one of its educational programs. In addition to education ANJEC offers professional guidance, research services and provides liaison with state and federal government for its member commissions.

The conference will be held at the Princeton Unitarian Church on Cherry Hill Road. The program will consist of speakers in the morning, a lunch and workshop in the afternoon.

The speakers include Dr. Joseph Danto, director of acoustics for the City College of New York, whose topic will be, "Detrimental Effects of Noise."

Putterin' Pete

Robert Corman, assistant deputy public advocate, Division of Public Interest Advocacy, will speak on "Municipal Opportunities and Responsibilities," and Jeff Evert and Jeff Yost from Allentown, Pa.'s Quiet Community Program, will discuss "Improving Community Involvement."

After lunch there will be three workshops that will cover basic noise measurement techniques, information gathering, and utilization methods for accurate mapping, and adapting noise ordinances to a municipality's individual problems.

The fee for the entire day (including lunch) will be \$6. Checks and vouchers are payable to: Association of New Jersey Environmental Commissions and should be sent to: ANJEC, P.O. Box 157, Mendham 07955.

Israeli entertainer set for anniversary fete

Chai Ezer, an Israeli performer, will entertain at the Jewish Heritage Center's celebration of the 30th anniversary of Israel's Independence on Wednesday evening, May 24 (Lag B'Omer) at the YM-YWHA, Green Lane, Union.

Considered one of Israel's best entertainers, Chai Ezer brings to his audiences a high degree of professionalism, and his program of songs ranges from traditional to modern, a spokesman said. Through his music, Chai Ezer teaches the changing moods of Israel. He reaches deep into tradition, into the riches of the past, takes art and poignant songs of the present, and weaves both strands into the fabric of Israel's life-song.

A versatile artist, he has been an actor, singer, comedian, balladeer, folksinger and cantor. He has appeared in numerous stage performances, and in concerts throughout Israel and the United States. He has been featured on many radio and TV programs, and has recently performed in concert with Herzel Bernardi and Theodore Bikel in "Proclaim Liberty."

Weather analysis

Dr. Robert Harnack, professor of meteorology at Rutgers-Cook College, will speak on the recent winter's heavy snowfall, and unusually cold temperatures as well as the methods and difficulties in weather forecasting.

Additional information on the tour and lecture is available at 527-2511.

At 8 p.m., before the free lecture, the public is invited to tour the facilities of the earth and planetary sciences department. The lecture will begin at 8:15.

According to Dr. Harnack, the past two winters have been several degrees colder than the milder winters of the early and middle 1970's. This winter, snowfall was double the normal amount with more than 50 inches measured at Newark Airport.

In his lecture, presented by the American Meteorological Society, Dr. Harnack will explain how satellite, balloon and radar observations are fed into high-speed computers to produce forecasts by mathematical procedure.

Shadow Oaks boasts lowest taxes in state

Based on its recent tax rate in the state of New Jersey, the 1978 property tax rate is half of the 1977 rate of \$1.10 per \$100 of assessed value. The new rate of 55 cents per \$100 means that this year's taxes on a Shadow Oaks home valued at \$71,900 will be less than \$400 or only about \$33 per month. Compared to neighboring townships such as Clinton, Readington or Hillsborough, the savings amount to more than \$100 per month.

The only new homes available in Holland Township are Shadow Oaks and, at present, the quantities are limited. At this writing, only eight lots remain on the Shadow Oaks tract, and as the spring and summer approach, sales are expected to be brisk. Sol Bernard, president of Garden State Land Co., recently stated: "We have had excellent response from the buying public in the past, and with this tax reduction, even more people will be attracted to this beautiful area of Hunterdon County."

The lots that remain at Shadow Oaks are located on the Holland West tract which borders the Oak Hill Golf Course. In addition, these homes are within walking distance of the Holland Township Elementary School, considered one of the finest in the county, and the exquisite Hunterdon County YMCA.

Among the models featured at Shadow Oaks is the Sartori Colonial. This home features three dormers and a colonial style covered portico, giving the home a unique appearance. In addition, the Sartori has many deluxe features including a large extra room off the master bedroom for use as a convenient study and a family room with a nine-foot-high ceiling and one-half inch paneling. Options include a porch with a built-in barbecue, a full wall fireplace and French doors. The Sartori starts at just \$77,900.

Shadow Oaks also offers the Cambridge Saltbox Colonial and the Hampton Ranch, both priced at \$71,900. Both of the homes are built with the quality that has become the hallmark of all Shadow Oaks homes. Features include a cathedral ceiling and oversized living room in the Hampton and a family room in the Cambridge model.

The beauty of Hunterdon County, the low taxes of Holland Township and the quality of Shadow Oaks may be reached by taking Interstate 78 to the Pattenburg exit. Following signs to Pattenburg, go 4 1/2 miles to the crossroad at the Little York Inn. Turn left, bear right and go 1/2 mile to the stop sign. Turn right for 1/2 mile and turn right again to the models on the right. Shadow Oaks is within 45 minutes of Plainfield, Westfield, Marlinton, New Brunswick or Trenton. The sales office and models are open seven days each week from 11 a.m. to 5 p.m.

Realtor offers planning guide for retirement

A "checklist for retirement planning" is now available from R. E. Scott Co., Realtors of Elizabeth and Clark. The Scotts' organization discovered some time ago that retirees and those nearing retirement age are not always prepared to cover their living expenses in retirement. Booklets are available to individuals by calling either of the local R. E. Scott offices. The information is also being offered to employers, religious groups, clubs and civic organizations. The R. E. Scott Co., long associated with housing, and quality real estate interests in the Union County area, is a member of the Eastern Union of Retirees.

Me? In a mobile home?

Yes, you, if you're looking for: Reasonably priced, modern, low maintenance housing, singles and doubles, set in a beautifully landscaped permanent community. Unique custom built hot water baseboard heat models. Community clubhouse, pool, patios, paved streets, nearby shopping, malls and houses of worship. Minutes away from the magnificent Atlantic Ocean and Garden State Parkway.

G-H sells 2 houses

Livingston-based Gebroe-Hammer Associates has arranged the sale of two apartment buildings totaling 45 units in Bergen County, it was announced by Joel Seiden, vice-president of the real estate investment sales organization. The Bogota property, previously owned by the Severson family, was sold to J.E.C. Associates.

Get away from it all. Stay home.

You get the idea. Leisure Village West has it all, including the true country village concept of active adult living. And you can count on 24-hour security, too.

The Panther Valley Dream is now a \$46,990 reality

There's nothing else anywhere like the luxury community of Panther Valley. And now, with the introduction of a new series of affordable townhomes, there's nothing keeping you from living the same private luxury life that comes with the community's single family homes priced from \$91,900. The same 1600 acres of nature, lakes and landscaping. The same tennis, platform tennis and swimming. The same option to join the Panther Valley Golf & Country Club* and play on its 18-hole course designed by Robert Trent Jones. The same safe feeling resulting from the 24-hour security. And the freedom to enjoy life where road, lawn and exterior home chores are handled for you: Panther Valley — for those who want the difference between dreams and reality.

Residents are automatically members of the Panther Valley Property Owners Association. *These facilities may be enjoyed by residents and non-residents on a proprietary or non-proprietary membership basis to the extent of available capacity.
