DiFrancesco: get tougher on violent crimes

Assemblyman Donald T.
DiFrancesco (R-22nd District), was
called for stiffer prison sentences, without parole, for murder, rape, kidnapping and other violent crimes. DiFrancesco pointed out that, under the present wording in the state's Penal Code, a person convicted of first-degree murder and sentenced from between 30 years to life in prison could be released

"We have had several recent cases where paroled prisoners have repeated savagely-brutal acts." said DiFrancesco. "By allowing early probation on even the most violent, offenses, we encourage a disrespect for the law while returning undenlably dangerous criminals to society where, as statistics on recidivism show, they are apt to repeat their crimes."

The legislator supported an
Assembly amendment that would
provide a mandatory sentence of 25 years, without parole, for first-degree

murder. The amendment failed to pass "We must continue to fight for stiffer penalties for all violent crimes, including rape, kidnapping and murder," said DiFrancesco. "I am disappointed with the Senate action that temporarily killed the move for longer sentences without parole, but this will not end our attempts to oughen the law regarding the criminal justice system."

What new ideas have we heard in the last several years from these in the last several years from these

Cohen stated, "It is evident that having been in office so long these individuals have ceased to exercise the supervision and control over our Township, government and in most respects, have left the direction that should be coming from Township Committeemen to the municipal departments. departments, We say, unequivocally that this leadership by our opponents.
has resulted in an erosion of confidence in government and a general demoralization among not only Township employees but the general citizenry itself."

Cohen and Condon stated, "We intend over the next several weeks to demonstrate firm and positive programs that should be initiated within township government we do not believe that Springfield should be subjected to tired government any longer
