At its executive session Monday even-ing, the Township Committee discussed

fficial acceptance of the JoAnne Way-

Riverside Drive flood project, across from Meisel Field near Meisel Avenue.

It also discussed a possible recycling

program. Water Kozub, lownship engineer,

said that he needed official approval of

the flood project from the committee so

from the county for work done there.

the township could receive \$175,000

Kozub said the project, which in-

five-mile_link_of_Route_78_batween____ Springfield and Berkely Heights.

The signing came Nov. 4, just minutes after Robert Doherty, Union County counsel, informed Grisi that County Superior Court Judge Edward H. McGrath had rejected an appeal by environmentalists seeking to stop construction of the highway through the resservation, a county park.

According to Doherty, the Parkland Preservation Fund, an environmental group which has been leading the battle against the interstate highway, filed on the grounds that the 48-hour notice which the Union County Board of Freeholders supplied to the news media did not leave enough time for input by interested members of the public.

Doherty said the Sunshine Law only requires 48 hours advance notice. which was provided.

The McGrath decision was the second court ruling within a month to go against the anti-Route 78 forces.

Bob Barrett of Winer, Neuberger and Sive, a New York law firm which is handling the case on behalf of the opposition, said that on Oct. 18, the 3rd Circuit Court of Appeals in Philadelphia denied an application for an in-

. I

A bright voice gone Farris Swackhamer died last week.

We were never fortunate enough to meet Mr. Swackhamer. But we did know him. We knew him through his monthly column, "For the Birds," which was distributed by Union College to weekly newspapers, including this one.

Mr. Swackhamer was an authority on birds, among other subjects.

A_one-time_physics_and_chemistry_teacher_at Morristown-Beard School, he also, at other times in his life, was a research chemist for American Cvanamid Co. in Stamford. Conn.: director of the technical service laboratories for Shell Chemical Co., Union; research associate for South Jersey Wetlands Institute of Lehigh University; instructor at the Union County Police Training Academy, and chairman of the chemistry department at Union College, now Union County College.

It was, however, in his capacity as an ornithologist that we knew him.

Learned but never obstruse, he delivered a column each month that was as bright as the plumage on some of the birds to whose conservation he was so devoted. He will be missed.

JOYCE PALAZZI

-Springfield Educational Secretaries Association

FLOYD C. MERSER

President

If each of you takes turns paying for joint expenses, be sure money is available when needed. For instance, if your rent is due on Monday, and your roommate gives you a check the follow ing Sunday, your own check might not be covered in time.

Remember also that shared expenses as one roommate occuping the master bedroom with a second bath. But what about paying for furnishings and all the extras - how can you keep track of who pays for what and whether or not it's fairly divided? for utilities will probably be charged to CPAs suggest a detailed record your name, you're the one responsible your name, you're the one responsible for payment. Any tate payments are noted on your credit history, even if they're not your fault. On the other hand, payments on your roommale's.

Education Saul Cooperman has recom-mended that only 5th graders take the mended that only sth graders take the Minimum Basic (MBS) test in reading and math this school year. In this "Commissioner's Column," he answers questions about the MBS program and the future of statewide testing in New society.

Q. Commissioner Cooperman, why makes did you recommend that only 9th mance? 🖉 A. Yes, a statewide accountabilit graders be tested this school year? A. First, the high school graduation program can be a powerful agent for law of 1979 requires all 9th graders in public schools to take a graduation proficiency test. Second, the shortfall in low and the problems are clear the state budget this year made it impossible to fund testing in grades three, six and eleven. And third, the MBS test

has outlived its usefulness for students in the 3rd and 6th grades, since the vast majority pass with high scores. Under this plan I recommended, the department meets its immediate responsibility to the students and the istering the test to 9th graders. And it also meets our longterm responsibility in education by beginning a revision of the program that will lead to testing for higher level asic skills in the luture

Q. What prompted the department to review the MBS testing program? A. The primary reason is that the test is passed by so many pupils that it is no longer an accountability measure for the great majority of the districts. For a cost of \$250,000 and use the remaining example, 95 percent of the 3rd graders grade writing test as the first step in passed the reading test in 1981-82. The average score was 93.4. Sixth graders sowed similar results. Now that a majority have a firm mastery of minimum basic skills, it is time to refocus on bisher level basic skills. towards graduation this year, costs ap-proximately \$311,000. The total cost for higher level basic skills.

Q. What about those districts whose students have not mastered the present minimum basic skills?

count toward high school graduation: A.I realize that the department can-Courts in Florida and other states have not ignore the minimum competenc required that students be given "fair problem, since more than 40 percent of the students in the state's 14 largest ura graduation test." Since between two ban districts failed the 9th grade and four years is considered sufficien reading test. I also realize that if the time to prepare, we must wait to deter-mine when the writing test would be department designs a test that emphasizes higher level educational proli-ciency, more students statewide and, in counted as criterion for graduation. particular, more students in our large this column should be addressed to urban districts will continue to encounter difficulty in meeting the reuirements of the test. State We're In

Garibaldi is lauded by realtors

SPRINGFIELD-Joseph J. Garibaldi III was honored in the "win-ner's circle" at the Meadowlands Racetrack recently...and he didn't even have a horse in the race! Garibaldi, president of the Garibaldi

Realty Corp. of Springfield, was howored with the fifth annual Real Estate Broker of the Year Award by Summit Associates Inc. of Edison, prominent office and industrial developera Presented during a special "Night at

the Races" dinner at the Pegasus Restaurant atop the racetract complex. he affair was attended by close to 200 of New Jersey's leading real estate brokers.

Summit Chairman of the Board Vincent Visceglia opened the presentation ceremony by saying, "by holding this event on an annual basis, Summi Associates wishes to say "thank you" to the many real estate brokers across New Jersey who have ... through their hard work and effort...made our state a eader in industry and commerce. Summit Associates recognizes the vital contributions brokers have made to the Raritan Center Office and Industrial Park and the entire state...and we dedicate this evening to you."

Garibaldi was presented the award by Diego R. Visceglia, President o Associates Inc. Viscoglia described the recipient as "having the ability_10_generate_new_business development in the state despite the dark economic clouds that have been

overhead for far too long. Garibaldi's efforts in relaining and bringing numerous business concerns o the state have been outstanding...and we at Summit felt they should not go unrewarded. A graduate of Villanova University.

The measure of your success starts with the best. Investors Savings

Individual Hetirement Accounts. No matter how young you are, there has never been a better time to consider retirement than right now. And there's never been a more rewarding place to save for retirement than at the best, investors Savings.

The benefits of opening an IRA have been expanded by the federal government. By opening your IRA at Investors, you will be permitted to contribute up to \$2,000 of earned income annually to your retirement account; if you have a non-working spouse, the limit is raised to \$2,250. For the first time, even if you're in a qualified pension plan where you work, you can open an Investors' IRA -- and contribute up to \$2,000 annually; if you have a working spouse, you can open two plans and contribute up to \$4,000. Every dollar you contribute to an Investors' IRA -- and every dollar of interest it earns over the years -- is completely tax deferred until you retire, when you'll probably be in a lower tax bracket.

Best of all, at Investors you'll earn a lot. And you don't have to deposit your funds all at once. Come in for full details.

Federal regulations require substantial interest and tax penalties for early withdrawal. Investors Savings. Tax benefits now, a richer retirement

later . . . because you deserve a full measure of success.

Local athletes eyeing medals **In gymnastics**

By RON BRANDSDORFER A 10.0 may be perfection in gymnastics, but a 13-4 team record and a third place finish in the Union County championships isn't too far off that pace. But don't expect Dayton's nted squad to be satisfied with nything less than perfection.

"With a 13-4 record, it's been ; treal season," explained head room Howard Cushnir. "But by our stan-dards, it's a little disappointing." After all, Dayton's girls captured the Union County title back in 1980 and finished second in the sectionals and ninth in the state a year ago. But when 28 schools and 95 cometitors, including the local girls. isit Dayton Regional on Saturday for the sectional meet, only six of those teams will battle for the sectional title.-

And Dayton won't be among the competitors. Despite the 13-4 record and strong effort in the county, the girls just missed qualifying for the top six. And so Randolph. Scotch Plains, Montelair, Columbia, Union Catholic and Hanover Park will batle it out for a spot in the state chamoionships, while Davton can on

Dayton co-captains Gina Pashaian and Karen Rose have qualified for the sectionals in all-around competiion, while Carol Carpenter and oanne Fusco will also compete.

row, as well as the entire nation. America's national salute to veterans on Nov. 11 is an annual time for prayers, parades, and speakers attempting to mulate an address delivered 119 vears ago.

There was no Veterans Day hen. There was only a time of uncertainty during the Civil War when also in Abraham Lincoln poke of an obligation to those who died.

"It is for us, the living ... to be dedicated here to the unfinished work which they ... have thus far so nobly advanced.

"It is .. for us to be here dedicated to the great task remaining before us-that from these honored dead we take increased devotion to that cause for which they gave their last full measure of devotion.

The meaning in Lincoln's words is enhanced by the fact that 85 percent of today's 30 million living Americanveterans served during one of our country's wars.

Veterans Day is more important than statistics. Just as it is a day for all citizens to recall battles and dark periods of adversity, it also is a day to

votion, and bravery

is a day when we should ededicate the country to Lincoln's call to the Congress and the American people "to care who shall have borne e battle, and for his nd his orphar

This charge has become the motto of an agency that honors veterans all year long

The Veterans Administration which administers congressionally-mandated benefits to veterans and their families is the third largest agency in government.

Veterans have access to 172 VA Medical Centers and 226 VA Outpatient Clinics which treated 1.3 million inpatients and 18 million outpatients last year. The VA also operates 136 outreach Vet Centers for Vietnam veterans.

VA medicine is affiliated with more than 100 of the Nation's leading medical schools. Its medical budget is more than \$6 billion a year.

Since 1973, the VA has been running the national cemetery system, composed of 107 cemeteries, with several more opening in the next few years. Since 1944, 19 million

by its citizons to the men of the town terans and active duty personnel have received educational benefits under the GI

The VA sends compensation and pension checks totaing \$12.5 billion a year to 5 million people. It administers a life insurance program with more than \$100 billion worth of policies.

The VA has guaranteed home loans of more than \$184 billion for nearly 11 million veterans. But the VA story cannot be told in abstract figures. Each veteran, each dependent, and each survivor served by the Veterans Administration is a separate story.

Despite its size, the nature of the VA's mission requires personal service.

Success in carrying out President Lincoln's call depends largely on individual ability and willingness.

It depends on the ability of a doctor in Massachussetts—or a

died in the Korean and Vietnam war nurse in West Virginia—to care for a patient

It depends on a counselor in Delaware to help plan a veteran's future, or work out a personal problem. It depends on the willingness of a volunteer in Florida to say a kind word at the proper time. For while it is large in numbers of buildings, in its range of activities, in dollars used, the VA is also large in the dedication and compassion of those who make up the system.

More than any other government agency, the VA is people helping people.

One at a time, VA people meet with veterans-in hospitals, clinics, and offices in person, on the telephone, or by mail to help answer veterans needs or solve veterans problems.

Veterans wanting benefits information should call the tollfree number listed in the white pages of the telephone book.

'Robert and Elizabeth' is excellent choice for Paper Mill Playhouse opening musicc!

By BEA SMITH "Robert and Elizabeth," a new British musical, based on "The Barretts of Wimpole Street," is an appropriate vehicle to open the fully ovated Paper Mill Playhouse in Millburn...

The 40-year-old-theater, which was destroyed by fire on Jan. 14, 1980, after serving millions of patrons, and which has been rebuilt literally from scratch and ashes, is attracting audiences throughout the Metropolitan area. The theater is filled to capacity every night, and the audience appears to be caught up in the fever of the practically-legendary love story of Robert Browning and Elizabeth Barrett. The voices of the cast are resounding

ly beautiful, although there is no number within the two acts that is so memorable that it sends a patron home humming Regardless, the play, which is set in

1845 in London, with a scene in Italy, tells a dramatic story of Elizabeth Barrett, the eldest of the 11 children of Edward Barrett. Barrett, a stern, domineering widower, who keeps his grown sons and daughters in constant fear of him, has a fanatical, unhealthy attachment to his bedridden daughter. Elizabeth. His conflict with Browning, who is determined to cure Elizabeth with his strength and love, is menacing and cruel.

Leigh Beery is excellent as Elizabeth. She has a lovely operatic voice, and her subleties in a difficult performance are. exceptionally good. Mark Jacoby, as Robert, gives an equally fine and forceful performance.

The large assembled, cast has a remarkable sense of music, drama and comedy. Particularly outstanding are Jeannine Taylor, who plays Elizabeth's flercely-determined sister, who despises her father; Larry Grey, Eleanor Glockner and Thomas Bar bour. Veteran actor Ron Randell is extremely effective as the stern and inrelenting father.

The poetry of Barrett and Browning is interspersed in the story, and to the romantic followers of Barrett and Browning (and who isn'1?), it provides its own rare and wonderful music! "Elizabeth and Robert" was directed

facility, and choreographed by Robert Johan-son. Jim Coleman served as musical

County population down 7 pct. Page 14

The population of Union County has • changed markedly over the last 20 1982 years with an approximate seven per ent decline in the number of residents here from 1970 to 1980, according to a ္ကည္ရဲ report prepared by Union County Col-lege's Office of Institutional Research. Five significant trends in the population of the county are cited in the report. Ven entitled, "Population Characteristics of Union County for 1960, 1970 and 1980 and the Profile of Students at Union County Š College in Spring Term, 1982." The report is based on statistics provided by the U.S. Census studies of 1980, 1970 and ш 1960.

2 The report prepared by Patricia Biddar of Rahway, director of institutional BANA research, looked at changes in the make-up of Union County's population over the last 20 years. The College will use the report, to identify changing Ľ \supset trends in the county, and then use that SUBI nformation to plan to meet the educational needs of students.

ш

. The report found that not only has the population declined seven percent over the past 10 years, but the present total of Union County residents is lower now than it was in 1960. The report also indicates that the percentage of males in the county appears to be decreasing over time: that in terms of racial/ thnic categories the white population is decreasing, while minority group's population is increasing: the number of dividuals under 17 has decreased by 45.624 from 1970 to 1980 with most of the lecrease occurring in the racial ethnic category of "white," and the number of individuals age 65 or older is increasing as well as the population of females comprising that group.

According to the study, all Union County municipalities experienced decreases in population from 1970 to 1980. The largest percentages of decline in population in Union County during the time were: Fanwood, 12.9; Clark, 11.3: Springfield, 11.3: Summit. 10.8; Cranford, 10.3, and Kenilworth, 10.3, Hillside. .9: Plainfield. .3. and Berkeley Heights, 4 evidenced the smallest percentage of change from 1970 to 1980. Hillside, Plainfield. Roselle and Rahway experienced a 20 percent or more increase in the number of individuals listed in a racial/ethic

Hillside and Plainfield showed a decrease in the number of persons aged 65 or older from 1970 to 1980, while by 27.4 percent. Mountainside. New Providence, Spr-inglield and Union experienced increases of 25 percent or more in the number of individuals who were 65 or

older during lie same period. The report shows that Hillside. Elizabeth and Plainfield experienced included in the 1980 numbers. The Census noted that Hispanics make up 26.7 percent of Elizabeth's population with 28,305 of them now living in that the largest declines in population in the category of "White" during the past ten. years. Hillside showed a decrease in its municipality. That number is greater , than the Black population in Elizabeth which according to the 1980 census is ite population of 35.9 percent from 1970 to 1980. Elizabeth's white popula-18.622 or 17.5 percent.

The report shows that overall the tion declined by 30.1 percent during that Census found that in the last 20 years, time span, while Plainfield's decreased Union County's makeup has changed significantly. The current makeup of The Union County College report also Union County according to the 1940 Cennoted that for the first lime in the history of the U.S. Census, Hispanic sus Study is 74.4 percent white, 15.9 percent Black, 8.1 percent Hispanic, and residents in the city of Elizabeth were

1.6 percent in other categories. The 1960 Census showed the county at that time, was made up of a very different population which was 92.3 percent while, 7.5 percent Black and .1 percent in other categories, with no statistics available for Hispanics at that time.

Several Kean courses in foreign language Remember what it was like to write a term paper in college? How would you like to write one in a foreign language? That's what some 500 students at Kean College of New Jersey in Union learn to do each year. They also are taking notes, taking tests and taking lots of courses in a foreign language

Englist Some of them are new to the United

States, some have been here a few years and still are not grounded in English. They speak mostly Spanish. They also speak Chinese, Hungarian and Polish. They are bright and ambilious and don't want to hold up their education until they learn English be thinking in Spanish and translating perfectly.

At Kean College they can do that. A number of general courses are taught in Spanish at least, and the foreign speakers concurrently take courses in a program within the English department exclusively for Kean students, english as a Second Language (ESL). Dr. Carole Shaffer-Koros of Westfield, who operates the program which now has 500 enrollees, said, "It is our purpose to teach students English language skills so that they can function in the regular college program. She said her program is aimed at students seeking a degree from Kean. Those interested only in learning-English are steered toward. Union County College and night high school

classes. Schaffer-Koros said students entering ESL are lested for their level of English and placed within the program accordingly. Her department also gives native language tests in mathematics as well as knowledge of native languages. This, she said, determines the foreign speakers' true academic level more accurately

Among the foreign speakers are many Colombians including Luis Cajiao (Ka-he-ow), a 36-year-old father of three who lives in Elizabeth. He is carrying 18 credits this semester and has seven credits to go before graduation. He has given up his work as a machine operator to accelerate his education. Although he and his wife Maria, who also is taking ESL courses, have been here to years. Caliao started his Kean program only tour years ago. Cajiao said the first year he had only a slight ability with English so he took psychology, philosophy, economics and Spanish composition, all taught in Spanish. He also began his ESL program.

By his second year. Caliao was taking courses given in English such as anatomy, physiology and other major requirements in his selected field. physical education. In the beginning, he said, it was difficult because he would

into English. Although it is easier for him now, Cajiao admitted that depending on the difficulty of the subject matter, language still is a problem. Before he applies to Columbia University where he hopes to earn a masters degree in applied physiology, Cajiao plans to intensify his study of English. He said the entry test and the face-to-face interview at Col-

Louis drives a Red Cross van for a community

Five days a week, Louis shuttles elderly people to a Help Center for a free hot meal. He also delivers hot

On Thursdays, Louis takes his passengers to the supermarket so they can shop for food.

"The important thing is that you get these people a balanced meal," says Louis. "A lot of elderly people don't cook anymore, and if you don't give them a meal, they

We could use a hand helping people in your
