# Safety tips from SPD

With the arrival of Halloween tomorrow, the Springfield Police Department is recommending that parents and guardians of children follow these guidelines in order to ensure a safe and happy Halloween: Keep front doors and walkways

-Remove any item from your yard or porch which can be easily broken or taken, such as pumpkins and milk cans.

Make sure that all other doors and

windows are locked. -Use your peephole to see who is there before you open your door,
Younger children should trick or treat during daylight hours under adult or older child supervision. If no adults or other children are available, try to have them go with a group of children to a specific

-Instruct your children not to eat any candy until you have checked for damaged, suspicious or wrapped candy. Do not allow your children to go

into homes of people they don't -Warn your children about strangers and accepting gifts or candy from people on the street. If your child meets up with strangers or is accosted in any manner, report it to the police with as accurate a description as

treaters, try to recognize to whom you are giving the candy. If you can't recognize the individual or feel uncomfortable, do not feel obliged to

Our choices be making a decision that could have more of an impact on their lives than any previous election within the past two decades. The choice is one that must be made carefully.

After a year in which town residents have seen their property taxes increase as a result of revaluation, the resignation of a police-chief, the opening-of-an-interstatehighway system and a crisis involving the former Houdaille Quarry, the need for strong leadership in the years to come continues to be critical.

During this year's campaign, both political parties have engaged in the usual war of words, charges and countercharges over which party will have a majority on the fivemember governing body next season. From this climate ofpolitical hostility, we believe two candidates have emerged with the ability and the insight to lead-Springfield-in-theimportant, perhaps critical, years to come.

William Welsch and Stanley Fink may be newcomers when it comes to elective politics, but they are no strangers to leadership, integrity and concern. Each has held positions of importance and each has conveyed the ability to compromise and a respect for fairness, characteristics vital to an office

As the associate registrar at Montclair State College, Welsch has dealt with many of the responsibilities and pressures a township committeeman might face. He also is a certified public manager, eucharistic minister at his church and Little League manager. The 40-year-old Hawthorne Avenue resident has a list of achievements that speaks for

Fink has nearly 40 years of executive management and administrative experience to help him tackle many of the problems that still loom in Springfield's future. The 64-yearold Forest Drive resident served as a Rent Study Commission member in Middlesex County and is president of the Short Hills Village Tenants Association.

While both men differ on future tax revaluations, they agree on several issues: preservation of land that is currently zoned for public use and the need for quality

While history shows that town voters do not usually split their ballots - to be sure, there have been only two such results in the past 25 years - we feel this year's election will offer them the opportunity to do so with confidence. Regardless of which party has control of the township committee in 1987, partisan politics deserve no role in deciding issues that are so critical at this time.

We urge voters to cast aside party labels and elect Welsch and Fink to the township committee on Nov. 4. We encourage everyone who is registered to go out and vote. Remember, an active voter is the important ingredient in any democracy.

# Other races

This year's freeholder board has exhibited better management, but is still marred by clashes of parties and

The freeholder board needs to show a sincere determination to keep the county taxes, which have been such a burden on local communities, down to a manageable level!

After reviewing the performance, qualifications and stand on the significant issues of all six freeholder candidates, we endorse the three incumbents running for the board, Brian Fahey, Michael Lapolla and Paul O'Keeffe.

It was on Democratic initiative that plans for Runnells finally began. Fahey and Lapolla have acted as watchdogs against some of the ill-advised decisions of their Republican counterparts. Fahey and Lapolla voted against the hefty. salary increases the freeholders awarded themselves earlier

Lapolla has helped push the idea of expanding the county a project that will showcase the historical legacy of Union college into urban areas and es County, Republican incumbent O'Keeffe has shown that he can act as an independent individual, not always following the party lines on important board decisions. He also has extensive municipal experience as councilman and mayor in

Plainfield. Experience is the issue in the county race for sheriff, according to the candidates, who both have impressive records in law enforcement. Republican candidate John Truhe, who has an excellent track record as Union Township's police chief, is our choice, He has earned the respect of law enforcement personnel at all levels throughout the county.

We are endorsing incumbent county clerk Walter Halpinwho not only excels at his job, but has extensive experience, and helped push the idea of a county museum.

In the 6th Congressional District, incumbent Bernard Dwyer of Edison, for the perseverance he displayed in finally securing the release of Linden Airport, gets the nod.

Dwyer's efforts in regard to the airport issue alone, which many Linden residents believed to be a lost cause, are more than enough reason to give him our support.

In the 7th Congressional District, incumbent Matthew Rinaldo of Union gets our vote. During his seven terms in the Congress, Rinaldo has shown that he is a politician who "does his homework.

In past years, Rinaldo, a Republican, has been a top votegetter, drawing support from both parties; but this has not caused him to sit back and take being re-elected fon granted-We believe his hard work and years of experience makehim the best choice as the 7th District's representative in

Washington Voters should also vote yes on the two public questions on the ballot, both of which deal with raising funds for the removal of hazardous waste.

will ensure that the town "is run properly."
"I'm seeking to help people," says Fink, a Union Realtor and a former member of the Springfield Zoning Board of Adjustment. "I think I'm very, very qualified. I have no further political ambitions. I want to

see that our town is run properly. I want to see that things are done."
"I'm running this year to finish what we started last year," says
Massler, a resident of Ashwood Road and an adjunct faculty member at Seton Hall University. "I bring extensive business, legal and proven management skills to the people of Springfield."

Both candidates have expressed opposition to the recent proposal that would bring a branch of the Union Boys and Girls Club to the former Raymond Chisholm School, claiming that the 65-year-old building would probably "be given away" to the organization at "tremendous At the same time, both men say they are in favor of retaining the

school for township recreational purposes, and would favor the proposed renovation of the Municipal Building, but not by "firing money down the drain" in approving the project without knowing wha exact costs will be involved.

Both candidates also say that the Walton School property's restrictive ovenant, which-designates the 12.24 acre site to be used "solely for public school purposes, athletic, recreation and accessory public uses, should be left intact. The property has been the subject of litiga involving several parties in the case, including the Board of Education and a local developer, who reportedly wants to construct housing at the

"I am against lifting the restrictive covenant by the township committee," says Massler. "With the coming planned unit development, we're going to have a lot of young children coming directly into

"Now and to the foreseeable future, I would like to keep the Walton School as is," says Fink. "I don't see any way of bailing a businessman out of a bad business decision that he made.' Fink and Massler-also express an intent to leave the issue of a

proposed amphitheater in regard to the former Houdaille Quarry, in the hands of township residents by way of referendum. Recently, the township committee sent a resolution to the Union County Board of Chosen Freeholders thanking them for their recent

motion promising that no quarry development would take place without the town's consent. The township committee also told the freeholders that any approval by the town would be contingent on the wishes of its residents, namely by way of a referendum,
"We have always come out against construction there," says Fink.

"This is a issue that the Democrats are really pushing for, because "They're filling a contract that was made before 1982," he adds in reference to the current grading being done in the quarry's southern sector by state-hired contractors, "But it's like the Canterbury Ghost;

it keeps reviving itself. And for what reason, I don't know. "Our position is simple: if the people of Springfield want an amphitheater, so be it." says Massler, who says he would not be ashamed" to use his influence with county and state officials in regard

Democratic ticket gets support

We are endorsing Sy Mullman and Bill Welsch, Democratic candidates for Township Committee. Mr. Welsch and Mr. Mullman have been the only Springfield Township Committee candidates who have been opposed to the

bage dump and amphitheater in the Houdaille Quarry. Mr. Mullman and Mr. Welsch called a meeting for August 13 at the Sarah Bailey Civic Center. We told them we were in agreement with their goals to find alternate uses for the quarry, but did not want it to be political since it affected all residents of Springfield. Mr. Mullman said, "Fine, form your

own group and come to our meeting. We will turn the meeting over to you so that you can accomplish these goals on a non-partisan basis."

All Township Committee persons were contacted and a meeting with them on August 17 produced a unanimous decision to oppose both the dump and

Our immediate goal was to alert the residents of Springfield about the county freeholder's public meeting on Sept. 11-addressing these issues and making our feelings known.

Sy Mullman and Bill Welsch are aware of the devastating consequences of an amphitheater in Springfield, and have emphatically opposed it. They leserve our support. MARYLIN SCHNEIDER

#### Challenges 'Democratic arithmetic'

Last week, your newspaper contained a letter to the editor from Beatrice Levidow who thanked God for "Democrat arithmetic" and chastised Committeeman Jeffrey Katz, After re-reading Mr. Katz's original letter to rour paper and watching the candidates debate-last-Wednesday, Ms.

Levidow owes Mr. Katz and your readers an apology.

In his letter, Mr. Katz merely reported that the legislature is recommending more frequent revaluation. Mr. Katz merely reported that the legislature appears convinced that more frequent revaluation is fairer for all taxpayers. He never said that he supported the legislature's findings; however, since the legislature dictates our tax law, Mr. Katz argued that alities should not bear the additional cost of hiring consultants t perform the revaluation. If it's to be done more frequently, he wants local ssors to be allowed to do the job. This will lower the cost. That's all he said in his letter. No matter how badly Ms. Levidow distorts the facts, she can't change what he said! 🕟

One last point. It's obvious that Ms. Levidow wrote her letter without knowing where the Democrats stand. She wouldn't praise "Democrat arithmetic" if she had watched her friends debate, First, during the debate, Mr. Mullman claimed that the Republicans have controlled recreation for the last seven years. Baloney! According to the

Township Clerk's office, they were in charge of recreation for only four of the past seven years. Seven does not equal four: That's more than a 40 Second, in response to a viewer question, Mr. Mullman disagreed that the

Democrats have ruled our town for 13 of the past 15 years. He said, "...the Republicans had control for two of the past 15 years." I don't know where Mr. Mullman went to school, but the last time I checked, 2 from 15 was 13. So much for Ms. Levidow's "Democrat arithmetic"

"I like the town," said Welsch, who is 40 and a former Men's Group president. "It's a good place to live. My roots are here. What I'd like to o is to return something to the town that's been so good to me." "It's in your head," said Mullman, a member of the Junior Baseball League Board of Directors, "It's in your heart. You have to get involved in the community if you care about the community. Instead of complaining, you do it yourself."

 Both candidates are expressing an intention of improving the quality of township recreational services and concur that the Chisholm School should be preserved for such use. Both men also reserve guarded feelings about the possibility of leasing the facility to the Boys and Girls Club of Union, a proposal they are admittedly not "crazy" about.

"I know that we don't need the Boys Club," said Mullman, a former recreation director in Orange. "I know that we don't need the Y. I know that Springfield has been passed by for recreation in this town and no one does a thing about it. "I would be interested in getting the most for our money," stated

Welsch. "I'm not particularly in favor of a Boys Club; all I'm looking for is a quality program. I'm in favor of whatever is going to be able to supplement our programs."

Mullman and Welsch also favor leaving the Walton School property's

restrictive covenant alone, agreeing that the town is seeing more ounger people "moving back." "At this point, I would want to leave the land as it is," said Welsch, crediting the developer with an interest in the land as being an "astute

"Once we lose that land for public use, the land is gone forever." "I would never lift the covenant," promised Mullman, "I would never change the zoning. I have no sympathy for the builder. The town is changing again, I do feel that younger people are moving back into

Both candidates, however, while supporting a referendum in deciding the amphitheater issue, worry that the current grading being done by state-hired contractors in the former Houdaille Quarry is "well past the

point" of the earlier agreement reached between the county and state. 'I hope that the garbage dump is a dead issue, but I'm not so sure that the amphitheater is a dead issue," said Welsch. "We are not in a position to handle the traffic and all the other problems cited that could

"We were the first ones to come out against the quarry, and then we turned it over to SCOPE because we did not want it to become political," added Mullman in regard to the environmental group that has strongly opposed either a solid waste dumping site or an amphitheater. "The streets in town aren't big enough to handle it. As to grading the quarry, I think it's a total waste of money or a big lie." The candidates also support the proposed renovation of the Municipal

"They already were given the final cost of the estimate by the architect," Mullman said of the current township committee members who remain divided on approving the project's bond ordinance. Otherwise, how could you come up with a figure of \$1.2 million? It.

While we greatly appreciate Mr. Mullman's fine fund raising support this year, to suggest that this effort was the main catalyst in getting the program off the ground would be an over-statement and would ignore the collective efforts of everyone who spent their time with us in the formative 10 months. Replies to committee post criticism

I am sick and tired of the rhetoric and lies from our distinguished town fathers, Cieri, Kaish and Fanning, and their fan club. How dare they criticize my "last minute" appointment to the Recreation Committee!

They should thank me for offering to be involved, since I have been able to accomplish things they couldn't handle for years. For example, at no cost to the town, I obtained 50 new litter barrels for our township parks and recreation facilities. I secured an agreement from a local vending machine company to return to recreation 50 percent of the income derived from their machines in the Chisholm School. I performed a cost effectiveness study on

the use of various lighting schemes for Irwin Field. I challenge them to tell us how their Democrat appo

In fact, if the Democrats have their way, we can expect more of the fiscal mismanagement that put us in the current mess. Just call a recreation mittee member or, better yet, the recreation director to learn the truth that they forgot to tell you.

Some people always promise to improve services and programs, but the record speaks for itself! During the past 15 years they reduced the staff of our Road Department from 18 workers to 10 workers — and two of them can't drive — they failed to implement bond ordinances, they scuttled recreation programs and they mismanaged recreation finances. Our town

# Civil service reform 'elusive'

It has been called New Jersey's version of the "Thirty Years War." Reforming the state's\_archaic civil service system-that governs more than 200,000 state, county and local public employees had eluded governors and legislatures for decades. Few New Jerseyans thought it could ever be done.

But at a historic bill-signing ceremony in the Senate Chamber recently, we proved the skeptics were wrong. After a lot of hard work and negotiation, we have enacted sweeping civil service reforms that system that was slow, sloppy and stifled employee initiative. A.—The illegal drug business in this country generates about \$100 billion annually, which is more than any-U.S. corporation makes per year. Like any industry, the drug dealers realize how important marketing and creating a demand are. Hence, rather than selling just ocaine, they come up with "Free Base" and "Crack," and instead of just marketing PCP, they sell "Omen" and "Crazy Eddie": very catchy names. The media, in turn, picks up on these terms and gives illegal drugs free advertising through its stories. Once people see these drugs on television or read about them in the newspaper, they feel that it must be the drug to do, and many times an illegal drug fad is created Q.—Isn't it true that alcoholics must-drink to get drunk every time

A.-No. In fact, many alcoholics work very hard to prove that they don't get drunk every time they drink; going so far as to abstain from rinking at some social gatherings. The sad truth is that an alcoholic is a Berson who loses control over some parts of his life when he drinks he life parts often being the ability to maintain relationships or the ability to keep a firm outlook on life - and this can result in extreme depression. It is the loss of dependable control rather than drunkenness

that distinguishes the alcoholics.

A.—Fortunately, we do not have an age law on love. It is legal and possible for anybody to be "in love." The problem each of us has with love, however, is its definition. I can remember a 16-year-old boy once telling me that "love is a dangerous word because whoever you say it to defines the word according to their own expectations. Therefore you often end up disappointing that person because their expectations are not-your-expectations." Unfortunately, this is what often happens to

# State commission to study gambling's impact

Assembly Speaker Chuck Hard-, while Gov, Thomas Kean was out of state, signed legislation this week establishing an advisory commission to examine the role and impact of legalized gambling in the state of New Jersey.

Speaker - Hardwick was the sponsor of the legislation, which will create a 17-member Governor's Advisory Commission on Gambling, a measure he lobbied for in the Legislature throughout the past three years.

THE OVERFED HEAD—There was this girl monster that had her head 70 feet tall, and her body six and a half feet tall. She had teeth as long as fingers. She was mean and angry all the time. She ate 75 things a day that added up to 12,000 calories that all went to her head. Her hair was seven inches thick which made her head wobble.

SON OF VINEYARD OWNER KILLED

A certain man who planted a vineyard, put a fence around it, dug a hole for the winepress and built a watchlower. He allowed some farmers to rent his vinepard while he went away to visil's country.

When harvest time came to gather the grapes, he sent a servant to the farmers so that he could receive some of his fruit from the vinepard. The farmers caught the servant and beat hing and released to give him any of the fruit. So the man sent another servant to the farmers. They threw stones at the servant, he received a head in Jury and they sent him away shamefully. The man their sent another servant, who was killed by the farmers. They treated many others the same way, beating some and killing others. The man then decided to send his only son, for he fell the farmers would reverence his son.

When the farmers would reverence his son.

he felt the farmers would reverence his son. When the farmers saw the man's son, they killed him so that they would become the heirs of the vineyard. What do you think the owner of the vineyard will do? The Lord will destroy the farmers who killed his son and the vineyard will be given to others. PROVERB of the West: Don't take it on yourself to repay a wrong; Yrust the Lord and he will make it right.

Jesus was killed so that the life may flow from Him to all who will drink, Jissl as the will all the will be reverence by the farmers who later killed him; Jesus is God's only begotten Son, who was sent to save us froip our sins. Through his crucification we can obtain eventaging.

WILL BONO FIDDLE WHILE UNION BURNS?

Here's what Mike Bono's "experience" has given us:

- → A FIRE DEPARTMENT CRISIS: Manpower slashed by 22% thanks to Bono's management study.
- → A POLICE DEPARTMENT CRISIS: Manpower cut 20% because of Bono's management study.
- AN OVER-DEVELOPMENT CRISIS: Hundreds of townhouses being built by
- land-speculators while fire and police protection is being cut.

  A CRISIS IN UNION CENTER: The Union Center merchants rejected Bono's Union Center revitalization plan.

# A "FIRE SAFE" COMMUNITY REST ASSURED

"Union is a fire safe community and has one of the finest departments in the State" says Fire Chief Bachefski. The Township Committee was shocked and dismayed by statements and advertisements of some firefighter labor delegates which attempted to instill fear in our residents. The Township Committee and Chief Bachefski would like to set the record straight ----

#### Here are the Facts....

Fact- Fire losses are almost 70% less than 1983 and a whopping 90% less than 1984. These successes are attributable to better management and fire prevention activities.

Fact- The Township has directed all fire houses to remain open. Firefighters are called in when needed for emergencies. This policy has remained unchanged for many years.

**Fact-** The management study consultant has recommended a 105 department with 99 firefighters. We presently have a larger complement.

Fact- The management study consultant has stated 99 firefighters as the optimum level of fire protection given the size, population and real estate makeup of the Township.

Fact- Other municipalities depend upon Union to help out with multiple alarm fires. By participating in this mutual aid program, Union can depend upon other towns, should the need arise.

FCCt- Other municipalities have attempted to model themselves after the Union Fire Department and many are desirous to become a part of our mutual aid pact.

Fact- More effective deployment of fewer men has resulted in improved response time as well as savings to the

Fact- Chief Bachefski said the "Union Fire Department is as well equipped as any other Fire Department in the State."

Fact- The Township Committee is dedicated to improving fire protection in Union that's why they employed a consultant who is a expert in fire safety.

Fact- The Township Committee has supported other activities by the Fire Department such as:

1. "Tot-Finder" Program 2. Invalid Sticker Program - 3. Lectures and demonstrations to

community groups & schools 4. A free Smoke Detector Installation Program for Senior Citizen Homeowners.

"We have structured our department to be productive as well as innovative", said Chief Bachefski. "We will continue to serve our citizens with the fine service they have come to expect".

Fact- More training is being provided each year in order to prepare our force for any problem whatsoever.

This dedication to providing the finest firefighting force available, is and always has been, a top priority.

# The Hansons just bought a great new house. Here's how.

Finding their dream house was easy. But the Hansons were alraid getting a mortgage would be a nightmare. Until they came to the Howard and sat with their Howard banker.

First they explored all of the mortgage loan options the Howard has available. Fixed-rate mortgages with terms from 15 to 30 years for maximum

One and three-year Adjustable Rate Mortgages that take full advan-tage of current market rates.

 Bl-weekly mortgages that can save over 40% in interest payments over the life of the loan. Then, with the help of their Howard

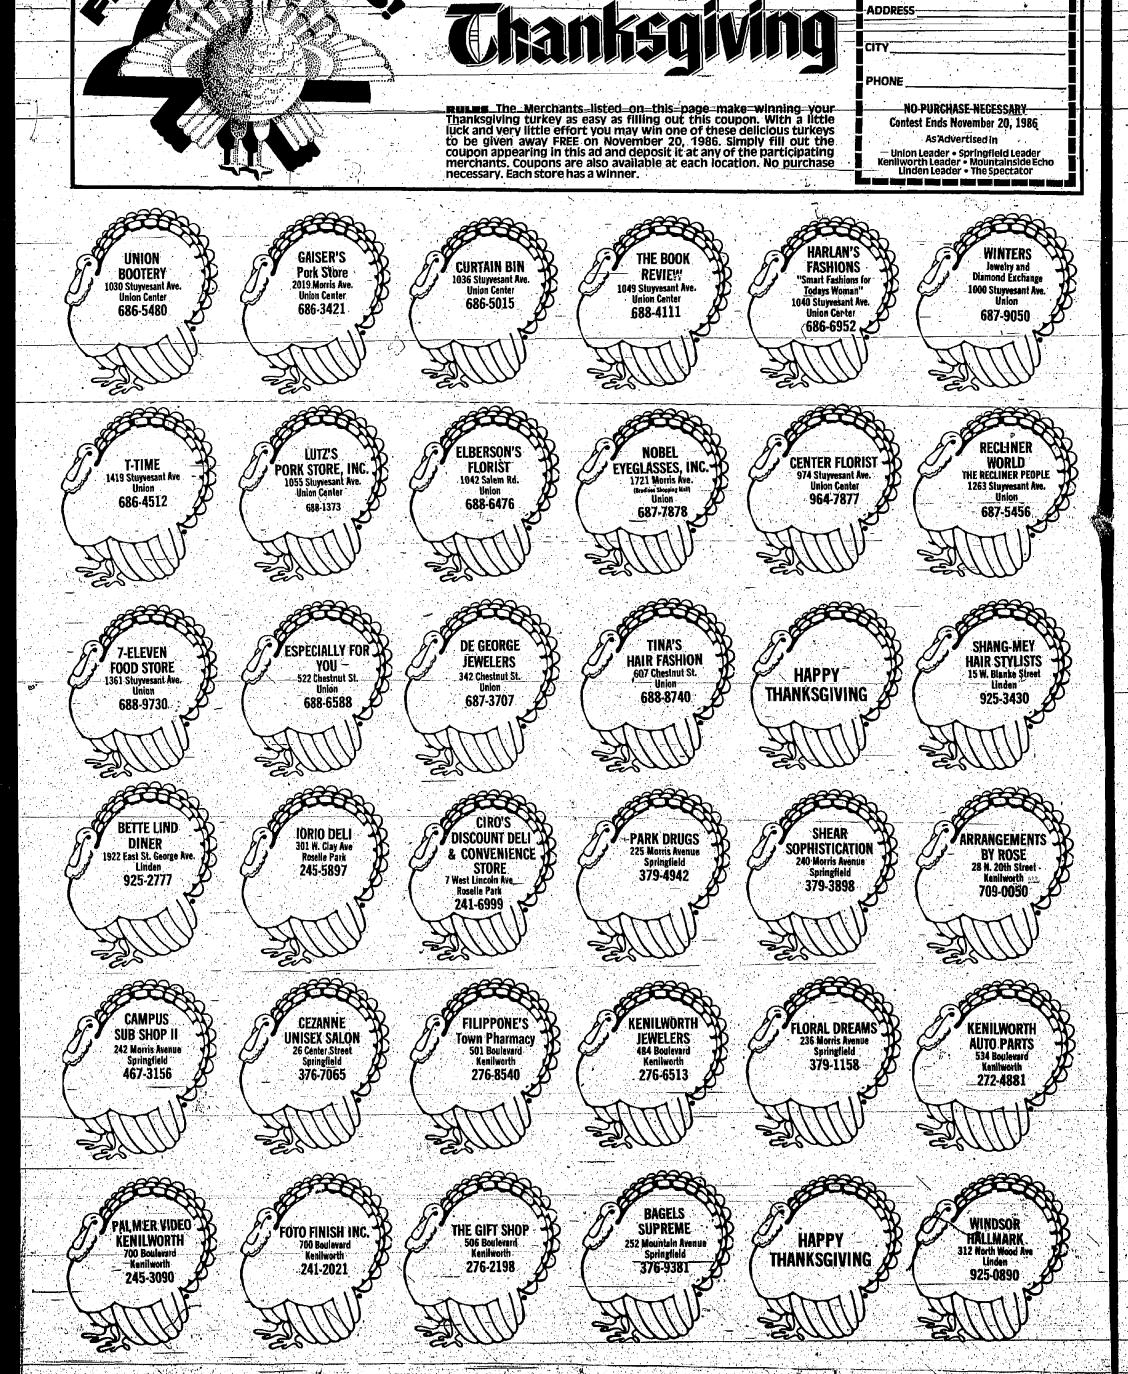

banker, they selected the plan that made the most sense for them. Like the Hansons, you can count on the Howard to be your bank for life. Because we understand the needs and concerns of home buyers today,

and the hopes and desires that will

AFFILIATED WITH NATIONAL LICENSED BEVERAGE ASSOCIATION LINDEN, NEW JERSEY

OCT. 21, 1986

The paid advertisment that appeared in the October 16, 1986 issue of the Linden Leader thanking Robert Coner Council President, for his actions on council was strictly the sentiments of the owners of the go-go bars and entertainment centers of Linden. While some are members of the Linden Tavern Keepers Association, the Association itself emphatically denies what appeared to be a political endorsement and remains as always, free and independent of any political involvement.

Consumer tips

# Safe trick-or-treating

To insure a happy Halloween the Union County Division of Consumer Affairs recommends the following safety tips from the U.S. Consumer

Warn children not to cat any of their treats before they get home. Examine all treats carefully for evidence of tampering before allowing children to eat them.

Look for costumes, masks, beards Resistant." Although this does not mean these items won't catch fire, resist burning and should extinguish quickly once removed from the gnition source. Flimsy materials and outfits with big, baggy sleeves or billowing skirts should be avoided to minimize risk of contact with candles or other sources or ignition.

Make or buy costumes hight and bright enough to be clearly visible to molorists. For greater visibility at night, costumes can be decorated or trimmed with reflective tape which headlights, Bag or sacks should also reflective tape which is usually available in hardware, bicycle, and sporting goods stores. Children should also carry flashlights to see and be seen more easily.

Costumes should be short enough to prevent children from tripping and falling. Children should wear well-fitting, sturdy shoes, Mother's high heels are not a good idea for

Hats and scarves should be tied securely to prevent them from slipping over children's eyes.

Apply a natural mask of cosmetics rather than have a child wear a loose-fitting mask which might. eathing or obscure vision. If a mask is used, however, make sure it fits securely and has eycholes large enough to allow full vision Swords, knives and similar costume accessories should be of soft or flexible material.

Smaller children should always be accompanied by an older responsible child or an adult. All children should use the sidewalk rather than walk in the street, and they should walk, not run, from house to house. Children should be cautioned against running out from between parked cars or across lawns and yards where ornaments, furniture or

Children should only go to homes where residents have outside lights on as a sign of welcome, Children should not enter homes or apartments unless they are accompanied by an adult.

Those receiving trick-or-treaters should remove anything that could be an obstacle from steps, lawns and porches. Candlelit lack-o'-lanterns should be kept away from landings and doorsteps where costumes could brush against the finme: Indoor ack-o'-lanterns should be kept away rom curtains, decorations or other furnishings that could be ignited.

One such book is "Jane Wyman, illustrated biography by Lawrence do in Warner films. In 1946, she was J. Quirk, published this year by loaned out to Metro-Goldwyn-Mayer Dembner Books in New York City and distributed by W. W. Norton & Co. Inc., New York-

According to Quirk, an established author and biographer, who has written a novel and 15 biographical books on stars, such as Joan Crawford, Paul Newman, William Holden, Robert Taylor, Warren Beatty and Gloria Swanson, Wyman was nominated for four Oscars and won one for "Johnny Belinda." She has been married five times, including twice to the same man, and once to the president of the United States, Ronald Reagan.

But perhaps this reviewer is getting ahead of herself. Quirk begins with a lonely child in ouri who turned to dancing as an escape and tackled Hollywood scattered roles as a chorus dancer in films, and from 1936 to 1939 became a—contract player at Warner Brothers Studios, She\_appeared in numerous B movies in roles that were so similar that one couldn't differentiate between them. # Cosmopolitan distribution By DR. JOHN B. WOLF

Plovers, shorter-billed but stouter-built birds than the sandpipers, often seen scurrying about the cosmopolitan distribution. Generally migratory, they cover great distances between their breeding grounds and winter haunts.

#### For the birds

One of them, the Golden Plover nests on the shore One of them, the Golden Flover nests on the Short of the Arctic Ocean. During its fall migration, large flocks of these golden-yellow feathered shore birds travel non-stop from the Canadian Maritime Provinces to Brazil. The bird spends its winter on the pampas of Argentina.

Its\_migrations,\_much-written-about,\_are-legen-dary. If you go to the Hawailan Islands during the Yuletide season, you'll surely see the Golden Plover on the grass behind the beach at Walkiki and elsewhere. These Siberian nesters winter in Hawaii, southern Asia and Australia.

Ornithology is an exacting science. Consequently I must mention that there are two distinct species of Golden Plover; the Lesser and the Greater. Whil the former is a North American bird, the latter is a rare visitor from Europe to Greenland and Newfoundland, The Greater Golden Plover is larger

and whiter than the Lesser.

The Ployer family includes the Dotterels, also a short-billed shore bird that someone once regarded as stupid and easy to catch; hence its name. I've seen the tawny-throated Dotterel in grasslands behind the beaches south of Lima, Peru. It's a gorgeous bird. Its antics cast the Dotterel as dumb. But its behavior is contrived. Try to catch one and

you'll exhaust yourself as you attempt to snare it.

If you visit Western Alaska during the summer, you could see a Eurasian Dotterel, It's a rare breeder on the Arctic-coast north of Nome. Its cinnamon underparts, grey back and white eyestrike are unmistakable.

But you don't have to travel to Hawaii. Alaska or South America to see Plovers. In the Middle Atlantic States, particularly in mid-September, the Killdeer Plover ulters its frequently relierated cry which resembles the words "kill-deer" or the syllables "kill-dee" from asphalt parking lots in uburban and rural areas. Watch for this brown backed bird as it runs about nervously, uttering its. Eight species of Ployer occur in North America.

Some of them frequent the dry upland; others such as the Semipalmated Plover and Piping Plover, prefer areas near the beaches. Although you believe parking lots in the fall are for cars, they are also FOR THE BIRDS.....

'Rose' adaptation better than book

By MARK HAVILAND

The year is 1327 and the Benedictine monks in an Italian monastery are mysteriously dying. A Franciscan monk named William of Baskerville is seeking to discover why and how they are dving.

Such is the premise of Umberto Eco's novel "The Name of the Rose" and the current movie adaptation of the book, directed by Jean Jacques Annaud, which stars Sean Connery and F. Murray Abraham. An unlikely bestseller if there ever was one, the book's 600-page-plus length included lengthy discussions on languages and religion.

### **Foundation** offering trees

Ten free flowering trees are being given to people who join the National. Arbor Day Foundation.

The foundation will give two White Dogwood, two American Redbud, two European Mountainash, two Washington Hawthorn and two Flowering Crab trees to members joining this month. The free trees are part of the foundation's efforts to improve the quality of life in America by encouraging tree

planting.
"The foundation is encouraging more people to plant trees in the fall, which is an excellent time for tree planting," John Resenow, the Foundation's executive director, says, "So we're giving these free flowering trees to people who make n \$10 membership contribution during October.

"These trees were selected because they will give a colorful flowering pink, white, and red blossoms throughout the spring," Rosenow added. "The 6-to-12 inch trees will be sent postpaid at the right time for planting through Dec. 10, with enclosed planting instructions. The trees are guaranteed to grow, or we will replace them free

of charge."

To become a member of the foundation and to receive the free trees, a \$10 membership contribution should be send to Flowering Trees, National Arbor Day Foundation, 100 Arbor Ave., Nebraska City, Neb. 68410, by

But the film eliminates all the scholarly musings and concentrates on the story. The end result is an entertaining, well-acted, beautifully photographed film which still makes you think. "The Name of the Rose" resembles a Sherlock Holmes detective story set in the Dark Ages.

# Focus on film

The censorship of ideas and the intolerance of religious beliefs is the theme of this film which takes place against the backdrop of the Inquisition. This was a time when people who dared to disagree with the strict teachings of the church, which had become preoccupied with

wealth, were branded as heretics and tortured and executed.

Annaud focuses on ideas in his dialogue, but never lets them overshadow the mystery. His attention to detail is astonishing.

Connery does an excellent job as the perceptive William of Baskerville, relying on the same dry wit he brought to the role of James Bond, as he teaches his young novice, Adso, played by Christian Slater, about the ways of the world, the church, and the flesh.

"The Name of the Rose" is rated R for some violence, and an unexpected sex scene between Adso and a peasant girl, which is out of place in the context of the movie. Notably, this is the first film I have seen in years which does not contain a
