Each person home at the time the enumerator calls is supposed to give all the information required for every member of the house.

The enumerators for Springfield are A. B. Anderson of 30 Maple avenue and Mrs. John J. Kulp of 119 South Maple avenue.

**JRS. CARD PARTY APRIL 18**  
Plans for a card party to be held Friday evening, April 18, under the auspices of Battle Hill Council 120, Jr. O. U. A. M., were made at a meeting of the council last Friday evening in the Municipal Building.

Motorist Found Guilty of Driving After License Was Revoked; Companion Pays \$50.

### DRUNKEN DRIVER ASSESSED \$220

For operating an automobile after his license had been revoked for drunken driving, Fred Peterson, 38, of 18 Balmisrol avenue, Summit, was fined \$250 and costs by Recorder Everett T. Spinning in police court Monday night, and was placed under a \$400 bond for action before the Grand Jury on a charge of assault and battery with an automobile.

Michael King, of 11 Prospect place, Summit, who permitted Peterson to drive the automobile, was fined \$50 for allowing an unlicensed driver to operate the car.

King, together with Charles Bjurning, of 6 Vain street, Jersey City, a passenger, were arrested February 26 shortly after midnight by Patrolmen Stiles and Seagles, after the automobile in which they were driving collided with a telephone pole and seriously injured another passenger, John Peterson, of 6 Vain street, Jersey City, not related to Fred Peterson. The injured man was taken to Overlook Hospital, with a fractured skull, and is still in a bad condition. Fred Peterson fled from the scene of the accident before the police arrived, and it was only by a casual statement by King to Patrolman Thompson that it was learned that Fred Peterson was the driver of the automobile. The latter was arrested by Patrolman Thompson and denied the guilt, but after twelve hours of grilling confessed and signed a statement to police that he was the driver.

Peterson in police court March 17 denied driving the car and King corroborated the statement by saying that he, King, was the driver, but after much deliberation, Recorder Spinning decided both men

## LARGE BRUSH FIRE ATTRACTS MANY

### Long Line of Automobiles And Passers-By Watch Firemen Fight Mountain Fire.

The past week produced more dangerous brush fires this season than any other period. One fire, in Bryant avenue to the rear of the Balmisrol Club, last Friday afternoon, attracted hundreds of motorists and passers-by. It began at 3:45 o'clock in the late afternoon and continued for three hours. It could be seen for miles around. It was finally extinguished by firemen.

Another, in the rear of the Springfield Coal Company, at Morris avenue, near Millburn avenue, Monday noon, seriously threatened the coal trestle by the side of the railroad. Several buildings, valued by firemen at \$50, burned to the ground, and sparks flew near the trestle, but were quickly put out by the firemen's chemicals.

Twenty bales of hay and other packing materials were burned to the ground at the E. & F. Nurseries later Monday afternoon at 5 o'clock. Water was sprayed on the plants nearby and other materials menaced by the flames.

The patch of land along State Highway 29 burned Saturday morning at 10:10 o'clock and continued for more than a half-mile toward the Rahway River, near Kenilworth, but caused no damage.

Other brush fires were as follows: Friday—2 p. m., Morris avenue and Seven Bridge road, brush, no damage; 3:30 p. m., Bryant avenue, brush, no damage. Sunday—4 p. m., Tucker avenue, brush, no damage. Monday—7:45 p. m., Evergreen Park, no damage.

## Petitions For And Against Swimming Pool As Town Committee Refuses Permit

Eighteen In Favor and Fourteen Opposed; Several of Former Contested.

### REMER AVE. PAVING WILL BEGIN APRIL 15

A permit to build a swimming pool in Seven Bridges road and Maple avenue by the State-Wide Bond and Mortgage Co., of Elizabeth, was refused by the Township Committee at a special meeting Monday night. Paul Jones, of Union, representing the company, presented a petition, signed by eighteen property owners, approving of a bathing place, while a petition signed by fourteen property owners living close to the proposed site, objected to the pool as a "public nuisance" and asked the Township Committee to deny the permit.

The committee was also informed that four persons who signed the petition approving of a pool, wished to withdraw their names after they learned of the "undesirables" it would bring to the township, and that the four persons would write to the board and would ask to have their names crossed off the petition. Several of the signatures approving of a pool, represented as property owners, were declared by Building Inspector Reuben H. Marsh to be tenants, and not land owners.

Residents of Remer avenue asked that paving on their street begin April 1, but were told by Mr. Larsen that with the details attached to the work, it would be impossible on such a date and that the quickest possible time would be by April 15.

Arthur H. Lennox, local surveyor and engineer, gave a report of the quantity of water used in the southern neighborhood, and Township Clerk, Robert D. Treat, was instructed to notify William J. McMane, vice-president of the Short Hills Water Co., and Commonwealth Water Company, that the board was favorable to his proposition of installing water pipes in the southern section from the Raymond Chalmers School.

## FRED A. BROWN RETURNS FROM HOSPITAL TUESDAY

### Committeeman Injured In Blast Five Weeks Ago; Still Uses Crutch To Get About.

Committeeman Fred A. Brown, who was injured in the Bayway blast at the Standard Oil Company explosion five weeks ago, returned to his home at 28 Washington avenue Tuesday afternoon from the Elizabeth General Hospital, where he was treated for a broken leg, and considerable bruises about the body, as well as shock.

Mr. Brown must still use a crutch to get about and it is considered difficult to say when he will undertake his duties on the Township Committee again. Mr. Brown is 55 years old, and the shock to his nervous system may keep him from doing any work for several months.

### LACKAWANNA DINNER PLANNED FOR APRIL 10

#### Annual Bowling League Banquet Will Take Place In Chatham — Local Team To Be Present.

Widmer, H. Rae, will be present. Mr. Huff and Mr. Schmidt are members of a committee in charge. Others on the committee are H. Peck of Madison and P. Carley of Chatham.

Last year, the dinner was held at the Lions' Club rooms in Springfield and about seventy-five persons were present.

### COP ON CYCLE HURT IN CRASH

Patrolman Nelson P. Stiles was slightly injured Saturday afternoon in Morris avenue near South Maple avenue on patrol duty when the motorcycle he was driving was struck by an automobile operated by Jerome W. Lyons, of 18 Fords avenue, Dover. He was treated at the office of Dr. Henry P. Dengler and returned to duty the same afternoon.

Stiles was driving east on Morris avenue, and Lyons was in the rear, going the same direction, when he attempted to pass the motorcycle on the right and struck the right side of the cycle, throwing Stiles to the ground and injuring the patrolman's right foot.

## Careful Mothers Guard Youngsters in Constant Battle for Good Health

"Mary, come play in your own yard!" Playful youngsters do not draw lines when they seek playmates. The most disheveled ragtag and bobtail urchin, with a frowsy puppy or a grimy lollipop, frequently has charms not possessed by the neighbor's children.

And so every vigilant mother sees that her carefully reared youngsters play with only their kind. They are exposed enough in the democracy of our public schools. In all their other waking hours, therefore, she insists on controlling their play, their companions and their health.

"Vital, active children make a laundering problem for every mother," says the household research bureau, conducted in Peoria, Ill., by the makers of ABC washers. "She insists on having their garments washed by themselves, away from any risk of

contamination from others' clothing. Now she finds it easier than ever to obtain immaculacy and perfect sanitation. Swishing the little garments clean is not the task it once was. Into a shining porcelain washer tub they go to be cleaned perfectly in almost less time than it takes to tell about it.

"Increased ease of keeping children's clothes clean, even with three or four romping boys and girls in the family, is a marvel of today's house-keeping. The busy housewife sees to it they are cleansed where she can supervise every bit of the operation and does not pause even to use a wringer. ABC Spinner washers extract the water, instead, by centrifugal force.

"Then they are ready for the final drying on the line, out in the open air, as good for clothes as it is for kids."

## Fashionable Women of World Learn Modes at Same Time

All roads of fashion lead from Paris, it seems. And now Main Street is just as close to the style center of the world as Fifth Avenue.

If it's whispered along the Rue de la Paix, it will be shouted from Main Street the next moment, according to the newest plan of consolidated buying inaugurated by Montgomery Ward & Co.'s fashion and style service.

The recently completed plan of consolidated buying of all wearing apparel for both men and women in New York City will enable the mail-order and retail store house to give up-to-the-minute fashions to all parts of the United States simultaneously with their appearance in New York, according to D. T. Webb, vice-president and general merchandise manager.

"The consolidation of our so-called 'Group A' buying in New York City," Mr. Webb said, "makes it possible for Montgomery Ward & Co. to give customers in all parts of the nation im-

mediate accessibility to the latest styles in wearing apparel for men and women.

"Our buyers abroad send styles direct from the fashion originators of the world to our New York clearing house of fashions. The New York office, with no delay, sends them on to our branch plants and to hundreds of our department and retail stores scattered throughout the nation.

"The textile group commodities which are affected by the new consolidated method of buying include frocks, gowns, and wraps for women, millinery, lingerie, shoes, and accessories, men's suits, coats, and haberdashery, and piece goods. Fabrics, colors, style trends and fashion hints are made available to people all over the United States at the same moment that they are being featured on Fifth Avenue.

"Our fashion experts are constantly in touch with developments in Paris and other notable European style centers, as well as with New York and other domestic centers."

## BORGLUM RESUMES WORK AT RUSHMORE IN APRIL

CALVIN COOLIDGE'S famous 500-word history of the United States will be chiseled on this mountain-side as part of the colossal memorial being carved here by Gutzon Borglum, sculptor, shown directing drillers from granite boulder at the left, one mile above the valley below.

Gutzon Borglum, who is carving the world's largest sculpture on Mount Rushmore, in the Black Hills, by resuming work the latter part of April will have the head of Washington and probably Jefferson ready for unveiling and dedication by July 4. The memorial carving, when completed, will show four heads of presidents—Washington, the founder; Jefferson, the expansionist; Lincoln, who preserved the Union, and Roosevelt, who fulfilled Columbus' dream of a western passage to India, by the opening of the Panama Canal. It will also include a digest of the Declaration of

Independence and digest of the Constitution written by Calvin Coolidge. Mr. Borglum expects to complete carving and all inscriptions in four years. An experienced marble carver himself, he designs and directs personally all work. He is a highly-skilled engineer, and has himself solved the intricate and seemingly insurmountable tasks presented in colossal mountain sculpture thousands of feet removed from his power plant. He determines the size of the sculpture and its location. These two items, Mr. Borglum states, are the most difficult.

"Mount Rushmore was chosen," he said, "because it has not been exposed to the air and destructive elements of heat and cold as many million years as other rocky peaks, and because it lies on its bed and for that reason sheds destructive moisture. Geologists estimate Rushmore will hold the carved forms a half-million years. It is one of the most eastern peaks of the Harney Range in the Black Hills, the Druid Hills of America. In the days of the ancient Sioux it was the home of their gods. In our day it becomes a memorial to America's great."

## RADIO HAS 25 COSMIC ELEMENTS

McMurdo Silver, radio manufacturer, shows chemical elements in receiver to Emily Kustka and Catherine Cavanaugh.

A third of the chemical elements which make up the heavens and earth are required to build a radio-receiving set, it was pointed out today by McMurdo Silver, president of Silver-Marshall, Inc. Twenty-five of the known eighty elements play parts in the drama of radio, the manufacturer said, in outlining the complexity back of the process by which the housewife gets music from the air by a twist of the wrist.

Molybdenum, tungsten, thorium and caesium are some of the rare actors in the intricacies of vacuum tubes, while magnesium has the special role of flashing the tubes during the process of exhaustion, he pointed out. Silicon has such diverse duties as refining the steel in transformer laminations and forming a constituent of the glass bulbs of tubes and dial lamp. Hydrogen, oxygen and carbon are in all the organic com-

pounds, from the cabinet wood to the cotton insulation on coil wires. "Radio sets utilize larger quantities of iron than of any other element," said Mr. Silver. "The chassis, the steel transformer laminations and the wire of the screen antenna are some of the major parts based on iron and its compounds. Shapers of the burden of iron are cadmium which plates the chassis, manganese as an element in steel, and tin which plates the soft iron wire in the antenna mesh. Condenser plates are of aluminum.

"The greater part of radio wiring is copper, but fuse wires are of a bismuth alloy and the resistance wire contains chromium. Sodium, nitrogen, calcium, zinc, lead, antimony, phosphorus and rare elements whose presence we have not proved, play small but essential parts in the building of Silver radio."

## THE OLD RESIDENT AND THE STRANGER

The story is told of a new-comer to a city who asked a wise old resident what manner of people lived there. The resident asked the new-comer what sort of persons lived in the town he came from.

"They are all narrow-minded, selfish, unprogressive and constantly bickering," was the reply.

"I am sorry," said the old resident, "but that is just the kind you'll find here."

Another stranger came to the city, and he also inquired about its people, and he also was asked about the people in the town he left.

"They are a fine type," said the stranger. "Business made it necessary for me to move, or I would be there yet. The people are kindly, generous, have civic spirit, and work together for the good of the town."

"Well," said the old resident, "I am glad to hear that, for that is just the kind of people you will find here."

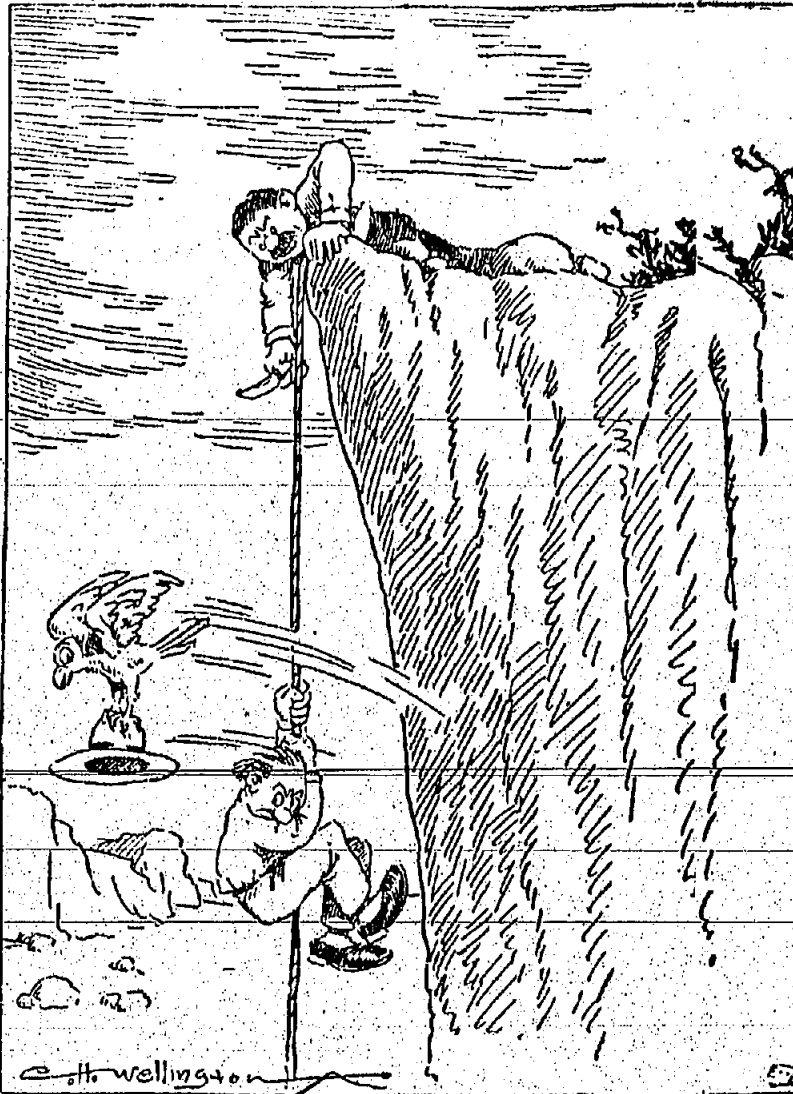

The story is an adaptation of the principle that we find what we look for, that the external world is a reflection of our inner selves.

We could apply the tale to Springfield. Here, as everywhere else, we can find what we seek. But we do not hold with folks who now and then may be inclined to deride Springfield. Our township is a cross section of the country, displaying the average of qualities to be noted anywhere else, with (and this is said with excusable pride) an undoubted predominance of favorable qualities.

There are, of course, always persons difficult to satisfy, some because they are honestly particular, and some with whom dissatisfaction becomes habitual. But they do not stand in the way of the forward movement, and their number is no greater than in other places. They even serve some usefulness in keeping workers on their toes. When everybody is completely satisfied there is greater chance of error. Criticism is part of construction. It is not pleasant when it is unjust, but even then it can be a tonic, and in any event it is inescapable with any undertaking.

The chief asset of a town is the militant character of its people. We have confidence in Springfield's people. A community that in so short a time emerges from village surroundings, that builds schools, lays down streets, multiplies its houses and in a few scant years takes on the habiliments of a city, must inevitably contain people possessed of a confident, courageous spirit.

## Boy Scout Notes

**CAMPAIGN FOR FUNDS**  
Due to the recent financial distress of the Union Council, the supervising body under which the local troop operates, in which the Chief Scout Executive A. W. King, decided to resign from his post in September, since he has not been paid for some time, a campaign to obtain more funds will be taken the early part of next month throughout Union County. Local residents will be asked to contribute.

A district inspection will be held tonight in the James Caldwell School and troops of Union, Unionville, Kenilworth as well as 66, will be inspected by Captain Parks of the County Park Commission, Scout Commissioner, Chief Executive King, and District Deputy Commissioner Harry Quick.

**Board of Health to Meet**  
A meeting of the Board of Health will be held in the Municipal Building Wednesday evening at 8 o'clock.

# Theatre Offerings of the Week

## American Legion Benefit at Lyric Summit Wednesday

Summit is truly indebted to the American Legion of Summit for the presentation by the John E. Coutts' Stock Players of "Seventh Heaven." It was suggested and accepted by that organization as the play to be staged at the Roth-Lyric Theatre, Summit, next Wednesday, for the benefit of the Summit American Legion Fire and Drum Corps Fund.

A special matinee will be presented on that afternoon at 2.30 in addition to the usual night performance at 8.30 p. m.

"Seventh Heaven" was made a famous movie by Janet Gaynor and Charles Farrell. And "Seventh Heaven" made Janet Gaynor and Charles Farrell famous as screen stars.

When "Seventh Heaven" was first staged a decidedly finished performance was given. And Messrs. Goutts, Tennis and Corbett, the executives of the Coutts stock organization, realized their expectations. In past seasons wherever Mr. Coutts has used this play it has in every instance been greeted with capacity audiences, and its presentation in Summit at the Roth-Lyric next Wednesday should prove to be no exception to the rule.

Holder of the American Legion benefit tickets can exchange those tickets for reserved seat tickets for either the matinee or night performance. In the exchange of benefit tickets for the matinee reserved seat tickets there will be no charge. At night the American Legion benefit tickets exchanged for an evening reserved seat ticket will require an additional admission charge of 25 cents to be paid at the time the exchange of ticket is made.

American Legion Drum and Fire Corps benefit tickets must be purchased from members of that organization; and the exchange of those tickets for reserved seat tickets may be made in advance at the Roth-Strand or at the Roth-Lyric theatre at either matinee or night presentation of "Seventh Heaven."

were giving false testimony and found them guilty. Fred Peterson was arrested August 29 by Patrolman Thompson and found guilty of drunken driving, and was fined \$200 and costs, and his license was revoked for two years.

Victor Dunder, 29, of 34 DeForest avenue, Summit, was found guilty of driving an automobile while under the influence of liquor and was fined \$200 and \$22 costs Monday night and his license was revoked for two years.

Dunder was arrested by Patrolman Stiles March 2 after his car was in collision with an automobile, driven by Grover A. Stanton, of 811 Dorian road, Westfield, in Mountain avenue, in front of the

Municipal building. He was declared unfit to drive by Dr. Henry P. Dangler, after a complaint was made against him by Stanton.

## W. C. T. U. INSTITUTE TO BE HELD APRIL 11

County President To Attend Regular Monthly Meeting Tuesday Afternoon

An institute of the local W. C. T. U. will be held in the lecture room of the Methodist Episcopal Church Tuesday, April 11, it was planned at an executive meeting of the union last Friday afternoon at the home of the president, Mrs. Edwin D. Pannell, of 135 Main street. The institute, which will be an all-day session, will be attended by the county president, Mrs. E. M. Currie of Cranford, and will consist of an exhibition by the various departmental heads and their assistants. Mrs. Pannell will be in charge, and efforts are being made to have a speaker address the members.

The regular monthly meeting of the union will be held Tuesday afternoon at 2.30 o'clock. The union has recently enrolled as a "Light Line Union," and will help contribute for missionary work.

The final results of the essay contest, conducted in the public schools, on the subject of "Why Flier and Driver Should Keep Free of Alcoholic Liquors," will be announced April 15. One hundred and fifty entries have been received, of which fifteen, five each from the seventh, eighth and ninth grades, will be submitted to the judges for final consideration. The judges are Mrs. Walter White, Mrs. William I. Reed, Miss Carol Day, Mrs. G. Arnold Wright and Mrs. Robert D. Treat.

## TO ADDRESS METHODISTS

The Rev. Dr. Charles S. Sitterly, professor of Biblical Literature at Drew University, in Madison, will be the preacher at the Methodist Episcopal Church, in the absence of the pastor, the Rev. William I. Reed, who is attending the District Conference at the St. Luke's Methodist Episcopal Church in Newark.

in South Springfield avenue, through Springfield Square, to Dunder lane, which he submitted several weeks ago.

This added utility will be a major improvement and together with excellent transportation facilities and sewerage will be of aid to residents in that section. Well water is used there at the present time, and fire hydrants will extend into this neighborhood with the installation of the water pipes.

Several property owners in Tompkins lane appeared before the board to petition that since their street was only ten feet wide, a dead-end thoroughfare and situated so that the sewerage is easily disposed of, a sanitary sewer should not be placed there. The Township Committee approved of the petition and notified the petitioners that no sewer will be installed in Tompkins lane.

On the recommendations of Chief of Police M. C. Runyon, Manning Day, a second class patrolman, having satisfactorily served for three years, was promoted to a first class officer and Nelson Stiles, a probationary patrolman, having also satisfactorily served for one year, was promoted to the second class.

The committee, on the advice of the resident engineer, C. S. McNulty, approved of changing the sewer pipe in the south part of Hillside avenue, adjoining the Weber farm, from eight to twelve inches, for the possibility of the development of that thoroughfare.

## "HOLLYWOOD REVUE" AT STRAND-SUMMIT

Many problems complicated the not otherwise serene day of the average working day of Bob Barnes, one of the property men during the making of "The Hollywood Revue," when a dancing chorus of 72 boys and girls rehearsed on the sound stage. This revue is coming to the Strand, Summit today and tomorrow.

The principal short subject to be screened in conjunction with "Hollywood Revue" is "Clark and McCullough" in one of their funniest comedy sketches, "Beneath the Law."

Saturday's matinee special this week is Chapter No. Four of "The Voice from the Sky" entitled "Danger Ahead."

John Ford's newest directorial effort, "Men Without Women," is a gripping story of the submarine service, and is considered his finest achievement. This all-talking Movietone opens next Monday and Tuesday with Kenneth McKenna and Frank Albertson heading the all masculine cast.

"Hello Sister," an all-talkie, starring Olive Borden with Lloyd Hughes, is scheduled for this theatre next Wednesday and Thursday.

PETER H. MEISEL TO BEGIN COUNTY DUTIES APRIL 1

Continued from page one

is deemed advisable for the better standardizing of the purchasing of materials and supplies for the county government that a purchasing agent be appointed and elected for this county, therefore,

Be it resolved that this board, deems it advisable to create the office of purchasing agent and that said purchasing agent shall classify and standardize under the direction of the Board of Chosen Freeholders all materials and supplies to be purchased for all departments, commissions of the county. He shall purchase all supplies and material for the use of all institutions, departments, boards, and commissions of the county. He shall act and execute all contracts in the name of the county in connection with the purchase of materials and supplies and shall from time to time perform such other service as said Board of Chosen Freeholders shall direct. The term of said purchasing agent shall be for three years.

The salary is \$9,000 per annum. Mr. Meisel, who is a resident of Springfield practically all his life, resigned as director of the Board of Freeholders last December, to take the present position. He was chairman of that body for seven years, and the local representative twenty-five years.

Mr. Meisel has been instrumental in having placed here the present county roads, and one of the thoroughfares, Meisel avenue, is named by the Freeholders for him, as a token of esteem, four years ago when he was on his deathbed. Mr. Meisel played an important part in having Flemer avenue cut through from Mountain avenue to Morris avenue, which helped to relieve the traffic situation considerably, and has been active in county affairs.
