Gala Fete Will Be Held At Meisel, Morris Avenues—Merry-Go-Round Included.

ELECTRIC REFRIGERATOR GRAND PRIZE

The Volunteer Fire Company will hold a carnival on the plot of ground at Meisel and Morris avenues the week of June 9 to 14, it was announced at the meeting of the company Wednesday night.

A General Electric Refrigerator will be raffled off, and it is planned to hold a contest for the most popular girl in Springfield. Tickets at ten cents each, will be on sale next week. Each ticket is to be signed by the purchaser for the grand drawing for the electric ice box, and the purchaser's favorite for the most popular girl is to be written on another part of the ticket. Ballots in the popularity contest will be left at the Lyons-Conley office, at 277 Morris avenue, three floors west of the Post Office.

The girl having the largest number of tickets in her favor will be awarded a wrist watch valued at fifty dollars. Each stub is equivalent to one vote, and all votes are to be turned in by Saturday, June 14. Any girls in Springfield, fifteen years old and over, may take part in the contest by registering at the Conley office.

The carnival will consist of a merry-go-round as well as other attractions, and the affair is headed by E. C. Davidson, Jr., assisted by Reuben H. Marsh, assistant chairman, and every member of the fire company. Merchants will be asked to contribute to the carnival and the profits will go towards the fire department.

Standings in the popularity contest will appear each week in the SUN.

"WHERE IS THAT KEY?"

The Men's Republican Club was scheduled to meet Monday night in the Lions' rooms in the Brookside Building, and after many of the members had gathered together in front of the meeting place, it developed that no one had a key to gain entrance to the rooms, and that the janitor was not to be found. Someone persuaded the tenant upstairs who had an extra key, to open the rooms. At first, the Republicans believed their political rivals were conspiring to prevent their session, but this is how "the mystery of the missing key" was solved.

The door had been opened by the janitor before he had left the building some time before, but one of the clerks in the office of Bunnell Brothers next door, thinking that the keeper had forgotten to lock the door, slipped the latch into place, and thus the story was spread the following morning.

START WORK ON WATER IN SOUTH NEIGHBORHOOD

Close To Six Hundred Feet Already Installed In So. Springfield Avenue

FINISHED SOON, OFFICIALS PREDICT

Work on laying water pipes in the "south neighborhood" began the early part of this week. Up until today, close to six hundred feet had been installed, and with rainy weather hindering the past few days, no pipe has been placed since Tuesday.

Trenches have been dug on South Springfield avenue, above the Raymond Chisholm School, and the entire water system will include South Springfield avenue through to the township boundary line, and also the main streets intersecting. Additional fire hydrants are being planned by the fire authorities, and are to be installed.

JACK SLIPS, PINS MAN UNDERNEATH CAR

Pinned underneath an automobile when the jack slipped, Philip Shaffery, 55 years, of 2 Crowell place, Maplewood, was taken to the Overlook Hospital Wednesday afternoon at 3 o'clock with a broken ankle.

The injured man was employed in a garage in Flemer avenue, owned by J. S. Wintermute, of Elizabeth. He cried for help when his leg was stuck under the wheels and after calling a half-dozen, aroused the aid of several boys who were walking closely. The boys summoned Patrick Flay and Shaffery was taken to the hospital by Robert S. Bunnell and his brother, Richard, who have their real estate office next to the garage.

REMER AVENUE PAVING ORDERED

Township Committee Passes Ordinance Wednesday Night—Special Officer Also Appointed.

An ordinance to pave Remer avenue was passed on first reading by the Township Committee Wednesday night. The ordinance calls for a thirty-eight foot water-bound macadam street, with concrete curb and gutters. The second and final reading will be held Wednesday evening, April 20.

John Hasselman was appointed a special policeman to serve on duty in Evergreen Park, upon the recommendation of Chief of Police Runyon.

FLASHES FROM THE POLITICAL CAMPS

Men's Republican Club

The Men's Republican Club held its first meeting of the year in the Lion's Club rooms Monday night. The three Township Committeeman candidates, Fred A. Brown, John L. King, and William M. Selander, were present and made short addresses. Each said that "there would be only one winner, and that there should be no hard feelings after defeat, and that the two losing candidates at the primary should support the winner at the general election in November."

Peter H. Meisel was present and also gave a short talk, but did not speak on any of the issues. Lewis F. Macartney, president, was in charge. The date

for the next meeting has not been announced as yet.

Women G. O. P.

The Women's Republican Club meets Monday evening, May 5, at the home of the president, Mrs. Arthur Dr. Warner, of 8 Myrtle terrace. Mrs. Arthur H. Beers, president of the Rochelle Park Women's Republican Club and Mrs. John R. Voghts, president of the Women's Republican Club of Millburn, will appear and make addresses.

Democrats Card Party Wed.

The card party of the Men's and Women's Democratic Clubs will be held Wednesday evening at 8 o'clock in the Lion's Club rooms in the Brookside Building. Re-

members will be invited, and a large assortment of prizes awarded.

The committee in charge consists of Mrs. Joseph H. Gunn, chairman; Mrs. Virginia Shea,

Mrs. Katherine M. Blake, and Mrs. Howard T. Potter; George H. Gaskill, chairman, Vincent Shea and Cyril S. Jenkins.

Women's Democratic Club

The Women's Democratic Club meets May 1, in the Villegiant Club. The president, Mrs. H. J. Hodgson, will be in charge.

Men's Democratic Club

A meeting of the Men's Democratic Club was held last night in the Village Club. The next meeting is scheduled for May

Begins May At Huff Hardware Store—Only Registered Voters May Deposit Ballots.

WEEKLY STANDINGS WILL APPEAR IN SUN

The Sun is planning to hold a "straw vote" primary among the three Republican candidates for Township Committeeman, as a forecast of the election to be held in June. The Democratic candidate, George B. Gaskill, is not affected, since there is no opposition in his field. Neither of the Freeholder nominees, Howard L. Potter, Democrat, and Charles H. Huff, Republican, take part in the contest, since they, too, are unopposed. The three names on the ballots will be those of John L. King, Fred A. Brown and Arthur M. Selander.

The first day of voting begins in May, the last filing date for petitions to be announced by the County Board of Elections, and the place is the Huff Hardware Company, at 269 Morris avenue, next to the post office. The sole judge in the contest is the editor of the Sun, and he is the only person to count the ballots.

One need not purchase the Sun to vote. A complete list of registered voters is at the polls, and as the voter is given a ballot and deposits it his name is crossed from the list.

There will be no voting by proxy. Only that person whose name is taken from the registration list may deposit a ballot.

The results will appear from week to week in the Sun, and the final tabulation will appear in the June 13 issue of this paper.

The time for voting will be on Mondays and Tuesdays between 8 o'clock and 6 o'clock; Wednesdays and Saturdays between noon and 6 o'clock. No ballots will be distributed before or after these specified periods.

The ballots are not to be numbered and there is a square on the left of each candidate's name. The voter will make an "X" besides his name and place the ballot in a box. The name of the voter is not required.

After the primary election, the Sun is also contemplating a general election "straw vote" for both Democratic and Republican candidates for Freeholder and Township Committee.

DRIVER PAYS \$200, TWO OTHERS FINED

County Prosecutor Secured To Convict Newark Man of Drunken Motorist

With Assistant Prosecutor John B. Walsh, of Elizabeth, representing the State, John Joseph Knox, 29, of 771 South Twelfth street, Newark, was found guilty of drunken driving in police court Monday night by Recorder Everett T. Spinning and fined \$200 and costs, and his license was revoked for two years.

Knox was arrested early on St. Patrick's day, at 12:25 a. m., by Patrolmen Sorgs and Brill. Brill testified that Knox drove his car at a speed of between fifty-five and sixty miles per hour on Mountain avenue towards Mountainside, and that the car went in zig-zag fashion, from one side of the road to the other. He was corroborated by Sorgs, who was a passenger in the police car which gave chase for a mile and a quarter.

Knox admitted taking four drinks of gin before driving the car, about three hours before his arrest. Walsh admitted as testimony the certificate of Dr. Henry P. Deueler, in which the physician declared Knox unfit to drive, and also that part of the certificate bearing Knox's signature, with the middle name spelled "Joseph."

Knox was defended by J. L. J. Murphy, of East Newark. In all efforts to secure a conviction on the drunken driver, Chief of Police M. C. Ryan, secured the services of Mr. Walsh to prosecute the case.

Thirty-six hours before his trial, two other drunken drivers arrested over the week-end, were both fined by Recorder Spinning several hours after their arrest. Percy Dittych, 401 E. 2d, Orchard street, arrested by Patrolman Siles on Seven Bridges road 8 o'clock Saturday night, was declared unfit to drive a car by Dr. H. P. Deueler, and was fined \$200 and costs, \$6.95 and his license was revoked for two years in court Sunday morning at 10 o'clock. Asked by the doctor to sign his name, he stated he could not read or write, but the license he produced had his name signed on it. He pleaded guilty.

Edwin J. Weitzman, of Staple Station Island, was arrested at 7 o'clock Sunday morning by Patrolman Seales on Main street. After being examined by Dr. Deueler and found in a condition unfit to drive an automobile, he was fined \$200, costs and forbidden to drive in New Jersey for two years. He also pleaded guilty to the charge.

The Lackawanna railroad stations at Millburn and Short Hills are only one mile from Springfield Center. The Rahway Valley R. R. has a freight station in Springfield, giving service for factories, commercial and industrial purposes.

With the completion of the new State Highway 29, this year in the southern section of Springfield, it will be possible to get to the downtown section of Newark by automobile in eleven minutes, within speed limits. The Holland Tunnel in Jersey City will be reached in twenty-five minutes.

Two building and loan associations, one bank, and two schools, as well as excellent fire and police protection are afforded.

Four churches: First Presbyterian, Methodist Episcopal, St. James Catholic, First Colored Baptist.

RIDING FIRE TRUCKS

Now and then, one may see a dog, ignorant of the danger, chase an automobile, bark several times, and place his neck under the wheels. That might do for a dog. The driver may slow up, or being accustomed to the agility of a canine to avoid being struck, he may continue at the same rate of speed. In either case, he thinks to himself, "It's only a dog who'd place his precious neck under the wheels of a speeding auto, but certainly no human being would be so foolish to duplicate the stunt."

But there are human beings who are careless and unknowingly imitate the dog. They dash on firetrucks going at a speed of thirty-five miles an hour or more, and each time, they luckily mount the vehicle without breaking a neck or sustaining other injuries. Several weeks ago, a young man ran out of South Trivett avenue, saw the hook and ladder truck dart on Mountain avenue towards the south on a fire call, and leaped to the left side of the truck, with a purpose of riding on the machine. He should have alighted from the rear, so that if he failed to land properly, he could drop out without harm. No, his head was resting several inches from the ground, and his hands were holding on with dear life to a firehose. After making herculean efforts, he succeeded in reaching the running board safely and escaped injury.

There were many persons watching the incident who turned pale at the spectacle of seeing the young man play with death. They also saw twenty-five feet to the rear the other fire apparatus, waiting at a standstill for volunteer firemen who could not reach the firehouse so quickly as the others. The young man could easily have waited a minute or two and gone to the fire safely and at least without endangering his life.

The Board of Fire Commissioners might pass an ultimatum to the effect that only volunteer firemen ride on the trucks of the company, but there have been many instances where others, besides firemen, were the only persons available at a call, and aided the paid fireman considerably in putting out fires. Therefore, a provision should be made that only older men ride the trucks and young boys should be prohibited from following suit.

Why wait until someone be seriously mangled for life? Certainly the driver, with his eyes looking ahead, does not think of those at his right and left. Now is the opportunity of preventing young but still adventurous and loyal firefighters from serious injuries by refusing them the privilege of riding on the fire trucks.

The various departments and their heads who gave demonstrations were: health, Mrs. Huff, child welfare, Mrs. Elwood Marshall; scientific temperance instruction, Mrs. Walter White; soldier's and sailor's relief work, Mrs. William J. Reed; and temperance and missions, Mrs. Mark Brady.

Mrs. Pannell announced that the results of the essay contest sponsored by the union will be announced the latter part of next week at the public school auditorium.

SPINNING'S VERDICT REVERSED BY STEIN

The decision of Recorder Spinning against Gordon L. Button, of 92 Freeman avenue, East Orange, for drunken driving, was reversed in Common Pleas Court Monday morning by Judge Alfred A. Stein, and it was ordered that the fine of \$200 be refunded to Button and his driving license restored.

Button was arrested November 5 on State Highway 29 by Patrolman Selander at 2:55 a. m. He was pronounced under the influence of liquor by Dr. Henry P. Dengler and convicted December 2. He claimed his condition was due to nervousness and high blood pressure, and was represented in his appeal by Attorney Jacob R. Mantel of Summit. He also stated that he had only taken one glass of beer before the arrest, and this was the reason for the smell of alcohol on his breath. Another motorist, Peter Ezavuk, of Linden, convicted November 11, of a similar charge, also had a decision reversed in his favor by Judge Stein the same morning.

THE LONG TRAIL

By Ruth Lang

The End of the Trail

(Continued from last week)

There is an old street in Jerusalem which tradition identifies as the way Christ trod, toward Calvary, bowed under the weight of the cross. It is known as the Street of Sorrowful Man gave it that name, and the Master. They saw only the pain, the suffering, the humiliation. Had they looked beneath the surface they might have given the way of the cross another name.

Christ was on the last stage of the journey he had chosen for himself. He saw the end from the beginning. The last stage and the goal were as plain to his mighty eye as they are clear to us tonight. But He did not flinch. Calvary for Him, as death should be to us, was but the culmination of a mission. Looking at it in this light the Street of Sorrowful becomes the Way of Victory. Had He doubted or taken any bypath, then it would have become the way of grief, of failure, of everlasting disgrace.

That picture, The Cross at the Crossings, painted by John Oxmihain, has caught this spirit of the Christ on His last journey. He paints Him no pitiful figure, stumbling along in defeat and tears, but a strong spirit confidently facing the future with high courage and dauntless heart.

"To every man there openeth
A Way, and Ways, and a Way,
And the High Soul climbs the
High Way,
And the Low Soul gropes the
Low,
And in between on the misty flat,
The rest drift to and fro,
But to every man there openeth
A High Way and a Low,
And every man decideth
The Way his soul shall go."

Why dwell in the lowlands when the highlands are calling?
John Burroughs wrote as he stood on the summit of the years "I have not braved myself against the world nor have I used it ignobly. While I gathered its meat and bread for my body, I did not neglect to gather its meat and bread for my soul. I have climbed its mountains, roamed its forests, sailed its waters, crossed its deserts, felt the sting of its frosts, the oppression of its heats, the drought of its rains, the fury of its storms and always have beauty and joy waited upon my goings and comings." This man made the best of the world by living in it.

I read of a man who was driving his car over a very rough part of a mountainous road. The driving was difficult and he could spend little or no time by looking at the scenery. But when he approached the top he halted his car and looked back over the trail. Down the valley the road stretched like a smooth, white ribbon between borders of green shrubs and trees. The whole scene took on an pleasantness that had escaped him while driving through. He said he could see purpose in the widening of the road. The fields that seemed scraggly and uneven when one was close by formed carpets of green and red.

low. He said he was grateful for that backward and downward view. Without it he never would have known that section was called Peaceful Valley.

We need often to pause as we rise to a height where we can see things in perspective. We also need a backward glance to show us that we have made progress.

On the other hand, we do not get anywhere if we spend too much time looking at our yesterdays. I recall a cartoon in one of the national magazines.

The drawing shows a brilliantly

lighted street with a mad procession of men and autos going in one direction and the figure of an old man going in the opposite one. With bent shoulders and halting step he seemed in search of something he had lost. The title of the picture was "Looking for Yesterday."

It was a rather pitiful picture. The hopelessness of the old man could not help but hurt those who saw and understood. All of us see our yesterdays, some for one reason and some for another. But the shadows only answer our eager search along the brightly lighted road to eternity.

Some would give all they possess or expect to, to once again hold the frail form of a mother in their arms; others long for the touch of a friend; a baby's cry tears the heartstrings of others; and still others are hungry for a father's steady hand.

It is a homeless task to sum up our yesterdays before Today's review. A hurry-mad crowd does not heed nor even see. The tide of progress is too strong to be stayed even for a few moments. So we put our yesterdays behind us and bravely face our tomorrows.

Sometimes we wish that the sands of time would run more slowly in the hour glass of life. "I cannot make you walk my road, Nor can I say my road is best; And yet the little path I take Brings song and joy and rest.

I wish that you could walk my road
Each day, and yet what right have I
To say the road I walk is best,
And pass your best road by?"

for Economical Transportation

it's wise to choose a SIX!

There is one sure way to get greater value in a low-priced car today—choose a Six!

This greater value is instantly obvious when you drive a Chevrolet Six. You notice first of all its greater smoothness. There is no tremor in the steering wheel—no rattle in the floor boards—no rumble or drumming in the body.

In addition to the finer performance of its six-cylinder motor, the new Chevrolet gives you truly remarkable economy.

Its six-cylinder smoothness saves the entire car from the strain and wear of vibration. This, of course, lowers the cost of maintenance and assures a longer-lasting, longer-satisfying automobile.

From the standpoint of operating expense, Chevrolet is equally economical. No other automobile consumes less gasoline and oil. No other shows a lower expense for tires. And

no other car costs less for service.

Because of its modern engineering, Chevrolet also assures a high resale value.

Chevrolet gives you fully-enclosed, weather-proof, 4-wheel brakes; a modern fuel system—with the gasoline tank mounted in the rear; four long semi-elliptic springs, mounted lengthwise in the direction of car travel. It gives you beautiful Fisher bodies built of combination hardwood-and-steel. It gives you a heavy, rigidly-braced channel-steel frame. And it gives you a full ball bearing steering mechanism.

Before you decide on any car in the low-price field, see and drive the Chevrolet Six. The more thoroughly you investigate, the more certain you are to conclude that it's wise to choose a Six—for value, for performance . . . and for economical transportation!
