## AMENDED GOLF LAW TO BE INTRODUCED

### Ordinance to Permit Sunday Play Gets First Reading Next Wednesday Night

An ordinance to amend the present  
ordinance prohibiting opening mini-  
ature golf courses on Sunday and allow-  
ing Sabbath operation, will be intro-  
duced for first reading next Wednes-  
day night at a special meeting of the  
Township Committee. It will not be  
at public hearing, and a definite date  
will be announced later, at which time  
everyone interested, will be allowed  
to speak in favor or against the ordi-  
nance.

The action to amend the present  
ordinance, which was adopted for final  
passage on July 25, was brought about  
last week when a petition with 557  
signers was presented the town Board,  
asking that Sunday opening be legal-  
ized. In view of this a vote was  
taken as to whether or not Township  
Attorney Charles W. Weeks be author-  
ized to draw up a new ordinance, and  
a deadlock arose, when Committeeman  
Brown and Macartney voted in  
favor of the present closing, and Com-  
mitteemen Leslie and Geiger voted for  
opening. Chairman Larsen's vote to  
open Sunday broke the tie.

The amended ordinance will allow  
play from 1 p. m. to midnight.

## Cop Nabs Bandit 5 Minutes After Westfield Police Reports Robbery

A speedy record for catching band-  
its was set here last Saturday after-  
noon at 3:50 o'clock when Patrolman  
Leslie Joyner apprehended a bandit  
in Meisel and Morris avenues, five  
minutes after Westfield police had  
notified the local department that an  
escaped robber was headed towards  
Springfield.

The captured man, Samuel Moore,  
29, colored, 677 North Eighth street,  
Newark, was alleged to have stolen  
\$38 from a cash register in Angelo's  
Garage, North avenue, Westfield, a  
short time previous to his arrest. His  
accomplice, Joseph Reed, also colored,  
of 502 North Ninth street, Newark,  
was not so lucky in escaping when

### Board Discusses Plan to Build A Unit Of High School-Voted Down

Part-time classes will be effective  
in the James Caldwell School this  
year, the Board of Education decided  
Tuesday night, after Supervising Prin-  
cipal Fred J. Hodgson reported that  
the first grade is overcrowded with  
sixty-nine pupils, when the capacity  
is only forty.

This grade shows the largest in-  
crease in the entire system, in which  
the 1930 figures of enrollment for the  
James Caldwell and Raymond Chis-  
holm Schools are 751 as compared to  
685 for 1929. However this does not  
include the pupils in the Westfield,  
Summit and Roselle Park Senior High  
Schools, which are believed to show  
a gain over the 1929 figures of seven-  
ty.

Mr. Hodgson recommended several  
possible plans, that of constructing a  
temporary building, but the cost of  
furniture and other details resulted in  
its being turned down. Another was  
to erect a unit on the high school site,  
to be used for grammar school pur-  
poses, but the opinion of the board  
was that when the other high school  
units were being erected to join the  
lone section the latter would not con-  
form with high school requirements.  
The last idea rendered by a member  
was to rent some room space, but it  
was opposed, since no location is avail-  
able.

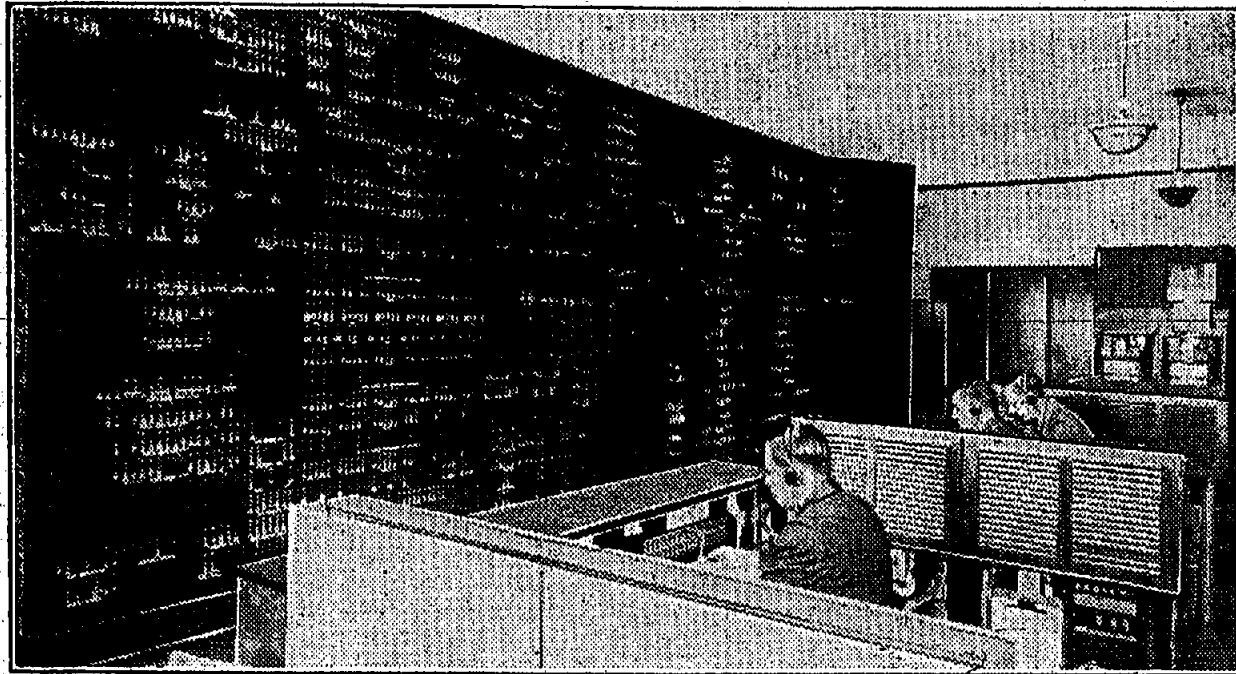

A report was made that title to the  
purchase of \$500 worth of gymnast-  
ium equipment for the James Cald-  
well School.

A report was made that title to the  
elementary school site in South  
Springfield avenue, would be taken on  
or before October 15.

Tuesday. The good and welfare com-  
mittee, consisting of Charles M.  
French, Louis B. Parsell, Jr., and Otho  
M. Hooper, Sr., will be in charge. All  
games will be played, and tickets at  
fifty cents, are on sale now from the  
committee or any member.

# How Electric Company's Load Dispatcher Handles System During a Thunder Storm

LOAD DISPATCHER'S CONTROL BOARD

(A huge blackboard, 24 feet long and 12 feet high, shows location of transmission lines connecting five generating stations, nine switching stations and eighty-three substations in Public Service territory as well as those which connect the Public Service system with neighboring companies. The board is dotted with red, green, violet, white and amber lights to indicate how the system is functioning. Red and amber show service normalcy; green and white indicate trouble on the lower voltage lines and violet, trouble on the higher voltage lines.)

**K**EEPING tabs on the movements of all electrical storms within a hundred miles or so of New Jersey is one of the important jobs of the Public Service load dispatcher, for the approach of a thunder storm must be carefully watched by the operating men of any great electric power company.

As everyone knows an oncoming electric storm brings sudden darkness causing hundreds of persons to reach for the switch of their electric lights simultaneously. This results in an almost perpendicular increase in the load on the electric generators at the power station as hundreds of thousands of lights flash on.

This sudden increase in load must be anticipated by the load dispatcher and explains his keen interest in the

weather. By means of direct telephone wires the Public Service load dispatcher is in contact with the load dispatchers of the Philadelphia Electric Company, New Jersey Power and Light and other companies with which Public Service is interconnected. These men keep him informed as to the direction and intensity of all electrical storms either in or approaching their respective territories. It is the load dispatcher's job to see that sufficient power is available at any point where needed, and that this power shall be made available without strain on any part of the distribution system.

But the problem of meeting the sudden demand for power during a thunderstorm is only part of the load dispatcher's worries. With hundreds of miles of open transmission lines extending in all directions heavy electric

charges may be absorbed by any electric system during severe electric storms causing carefully designed protective devices guarding the system to momentarily cut certain lines out of service. The load dispatcher is made immediately aware of this fact by the lights flashing on his board and he must keep on the job until this line is either restored to service or he has arranged a supply of power for it from another source.

Such a condition as this may be noticed by watching your electric light during a severe storm. When a "bump," as the load dispatchers call it, occurs the lights will dip even though the electric charge may have been absorbed at some part of a power company's system with which Public Service is interconnected, more than 100 miles away.

## Jr. O. U. A. M. Carnival Begins Next Thursday at Meisel, Morris Avenues

entertainer, will perform in several numbers.

Thirteen booths are to be operated by members of the local council. The committee in charge is headed by Louis B. Parsil, Jr., with Edward Monks and George Holden as assistants.

On Saturday the grounds will open at 3 o'clock, while on other evenings, it will open at about 7 o'clock.

### Bearded Indians

Most Indians would have a slight to moderate growth of beard and mustache if they allowed the hair to grow. Beards are not wholly unknown among them. Some of the Mexican Indians have full beards. The Guaranyas of Bolivia wear long straight beards and Cashims of the upper Ucaia are bearded.

## Five Years Ago

Sept. 19, 1925.  
Morris County Traction Company asked U. S. District Court to approve of receiver's plans to abandon trolley lines between Springfield Center and Elizabeth. Claimed it costs \$130,000 to remove tracks to the center of the street from the sides, and that it would be cheaper to rip up tracks and maintain six busses between both places. The officials of the traction company state that in 1924 their firm lost money, handling 558,000 passengers between here and Elizabeth. Actual cost of mile traveled is 31 cents, but the revenue taken it was only 21 cents.

Final plans to open the First National Bank awaits word from Washington, where every effort is being made to hasten action. It is believed the bank will open for business on October 5th.

## Press Opinion

### SAUERKRAUT

(From Caldwell Progress)  
Sauerkraut and printer's ink make a funny combination. But it has proven to be a valuable one. Not so very long ago kraut was just a lot of cabbage ground into shreds and put through an old method of fermentation. Then someone looked a little closer and found that kraut is one of the greatest health foods on earth. Doctors began to recommend both kraut and the juice of kraut, and big packing concerns began to can it. They also saw the possibility of advertising it—not as something that was merely good to eat but as the greatest strength and body builder that can be taken from the soil. The advertising hit the spot. More kraut and still more kraut was needed to meet the increasing demand. Today it can be purchased, in cans, in any grocery store in the land—and it is purchased by millions of persons where before only thousands ate it. Kraut, a lovely son of the vegetable family has become an aristocrat. Could there be any better example of the power of printer's ink?

### THE BLUE LAWS AGAIN!

(From Hudson Dispatch)  
Every now and then some little town or city pops into print because of a dispute over enforcement of the

### Blue Laws.

The latest is Kearny. There the dispute was over the legality of playing miniature golf on Sunday.

There the spectacle of a recorder actually forcing reluctant jurors to bring in a verdict of guilty in a test case sounded the death knell of the baby links as far as Sunday play goes. How long will New Jersey continue in the Blue Law hobbies? How long will the state continue to make itself a laughing stock by prohibiting an innocent Sunday amusement, such as miniature golf, in one town and a few hundred yards away, in another municipality, remove the ban completely?

The Legislature should, at its next session, remove this stigma by wiping out the old Blue Laws completely, or at least by moderizing them so that they may not be used as a bludgeon against innocent amusements on Sunday.

## BOND ISSUE HIT BY STATE A. A. A.

ATLANTIC CITY, Sept. 18—The American Automobile Association of New Jersey is opposed to the \$100,000,000 and issue which will go before the voters in November.

The executive board, in session yesterday, condemned the proposed issue with the statement it would cost each motorist more than \$210 for each car he owned.

"Less than \$70 of that amount would actually be used for roads," said Raymond Beck, secretary of the New Jersey Automotive Trade Association.

"The public is not familiar with the operations of the three bond bills. It is not generally recognized that these bills will nearly double the state debt. Taxpayers must pay a total sum of \$196,255,000 to obtain \$65,000,000 worth of road construction."

### Three Teams Sure To Be Tied For First Place In Union County Circuit Race

### WESTFIELD, ELIZABETH A. A. OTHERS IN FIGHT

### Play Off Between Deadlocked Nines Has Been Arranged By League Officials

With the Elizabeth A. A. and Westfield Hawks having already clinched first place in the Union County League by virtue of their victories last Saturday, it will remain for the winner of the Springfield Stars-Elizabeth Braves contest at Flemer Oval tomorrow afternoon, to determine which team is to enter in a play-off between the three deadlocked nines, for the championship of the second half of the league. Regardless of the outcome of tomorrow's game, three teams will be tied for first place.

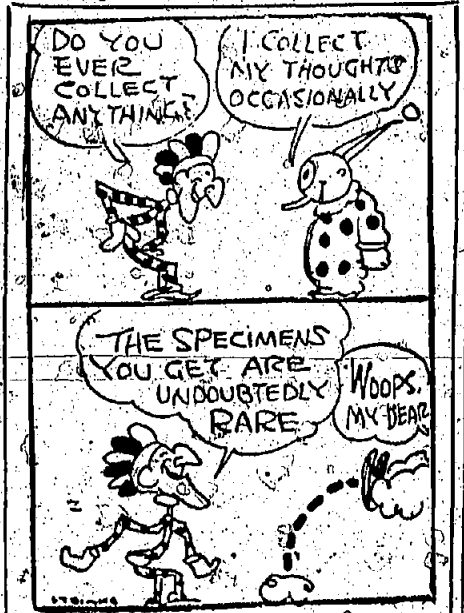

The Braves, who were a full-game behind first place last week due to a decision by the league officials that its last contest against the Garwood nine, must be replayed, due to a technicality, captured the re-played tilt, and are now tied with the Springfield team with twelve wins and five losses. A local victory means taking part in the play-off, or vice versa.

**SUNDAY**—Winner of Stars-Braves vs. Elizabeth A. A., at Warlancoco Park.

**SATURDAY, Sept. 27**—Westfield vs. winner of Stars-Braves, at either Flemer Oval or Warlancoco Park.

Each tied team plays 2 games.

It marked the second time that the weather prevented play between the two contenders. A bitter struggle is expected tomorrow, and it is impossible to install either team the favorite, due to the sensational showings both have made in the past month.

The locals have captured nine out of the last eleven games, while the Braves have been victors in nine of their last twelve contests, making it difficult to predict the winner of tomorrow's battle.

With such players as Bill Mullen, Kiggle Coplan, and possibly Ed. Palenstein in the Stars line-up, the Springfield nine has available a set of batters and a pitcher ranking high in baseball circles hereabouts.

Cecil Spittler, will start for the locals with Artie Lamb receiving. George Keller is the logical choice of the Indians with Eddie Christ on deck. Starting time is 3:30 p. m.

### Victory Over West Orange Is Tuscan's 48th Win of Season

## BAFFLED BY PITCHER IN EARLY INNINGS

The Tuscan Farmers annexed their forty-eighth win of the season Sunday afternoon when they defeated the West-Orange B. B. C., 5 to 4, at Colgate's Field, West Orange.

The offerings of Gordonier tantalized the winners until the seventh when with the sacks fully tenanted, Grot's screeching double broke the south-paw's spell over the Irvington Municipal Baseball League champions.

Going into the ninth the score was deadlocked four-all. McGovern walked, stole second and went home on Grot's bunt, aided by a wild pitch.

Things looked extremely bad for the Farmers until the seventh inning. The West Orange players had crossed the plate twice in the second inning when Smittle, the first man up, hit a high fly to Jacobus and the latter, making a running stab at it, dropped the ball, and Henry, second man at bat, was hit by the catcher's throw to first after a bunt. Dunn then tripled, and Grot struck out the next three batsmen.

The next four innings were scoreless. In the seventh, with the Farmers at bat, Dray walked, Masson was out, Rhatlean was hit by a pitched ball and McGovern walked to fill the bases. With the bags full Grot doubled, scoring all three. Grot then scored on Denton's bunt.

In the last inning, with the score even at four-all, McGovern walked and stole second. With two strikes on him, Grot bunted. Smittle, who had replaced Gordonier on the mound, made a wild throw to third and McGovern crossed the plate.

Lipkin walked and stole second and third as Eckmeyer and Denton were put out. Lipkin was caught in a close play on an attempt to steal home.

This is the second victory of the Tuscan over West Orange this year, the previous score having been 8-2.

Saturday the Tuscan Farmers defeated the Independents in the final game of the Irvington Municipal League, thus becoming champions and having an undefeated standing in the League. Lefty Dray, making his first appearance as pitcher for the Farmers, allowed only three hits.

"Huh! I could be the champion of the world, myself, if I was a little bigger. Nothing to this training. Drink a lot of Headley's milk and punch the bag and do a little road work. You just wait!"

Gene Tunney, who can rightfully be called an authority on health, had a quart of milk at each meal on the day he successfully defended his championship title against Jack Dempsey.

# THE KITCHEN CABINET

(©, 1930, Western Newspaper Union.)

Man is but man, inconstant still, and various: There's no tomorrow in him like today: Perhaps the atoms, whirling in his brain, Make him think honestly this present hour: The next, a swarm of base, ungrateful thoughts May mount aloft.—Dryden.

## SEASONABLE FOODS

When the green tomatoes are fully grown they may be sliced, dipped into crumbs and egg and fried as ripe ones, making a most tasty luncheon dish.

**Eggs Baked in Tomatoes.**—Cut off the tops and scoop out the centers of six tomatoes. Put one-half teaspoonful of butter into the cavity, then drop in a raw egg, being careful not to break the yolk. Season with salt and pepper and add another bit of butter on top. Set into gem pans to bake. Serve with a cream sauce.

Everybody likes french toast when it is well prepared. Beat two eggs lightly, add one-half teaspoonful of salt and two-thirds of a cupful of milk. Dip the slices of bread which are cut in uniform thickness into the mixture, dip on both sides and fry on a hot griddle which is lightly greased. When brown on both sides serve hot with maple syrup or cream, and add sugar mixed together.

As America produces a large part of the cheese made in the world, we should have a higher appreciation of its food value, as do the countries on the other side of the ocean. We serve it more as an appetizer than as one of the most nutritious foods.

There are those who like, buy and enjoy fresh cheeses that are chewy and tough when cooked. Cheese should never be cooked at a high temperature, any more than milk or eggs. There are countless most delicious dishes which have cheese for a basis but most of such dishes when palatable are prepared from well seasoned cottage cheese. Cheese should be kept and properly cured for a year before it is ripe enough and of good flavor.

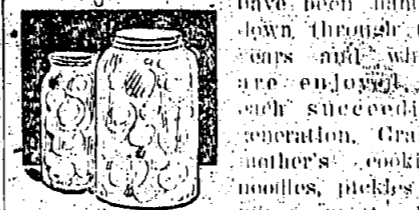

**Lemonade.**—Extract the juice from six lemons, add sugar to taste, three-fourths to one cupful, stir well, add six cupfuls of cold water, chill and serve with ice, garnished with lemon slices.

"I love the smell of apples when they're getting sticky and, I love the smell that trickles from an old-time pony bed. The earthy spice of new-plowed fields is even almost sublime. But there ain't no smell that equals the smell of picklin' time."

**PICKLIN' TIME**

In every family there are a few cherished recipes of good things which have been handed down through the years and which are enjoyed by each succeeding generation. Grand mother's cookies, noodles, pickles or mince meat. We outgrow our fondness for some foods that we liked when young, but the food mother prepared continues to be the favorite.

**Sliced Green Tomato Pickles.**—Slice a pack of firm well developed green tomatoes, also slice six good sized onions. Put a layer of the sliced tomatoes in a large dish, sprinkle with salt and add a layer of onions. Repeat until all are used. Let them stand overnight. In the morning drain, add one quart of vinegar, one cupful of brown sugar, two sticks of cinnamon, and a tablespoonful of cloves, tied in a bag. Put over the heat and cook until the tomatoes are tender but not broken. Pack into a stone jar, pour over the vinegar and when the pickles are cold add one-half cupful of grated horseradish and a tablespoonful of mustard seed. If the horseradish roots are too small to grate put them in whole. Cover with a weight and keep the jar well covered.

**Not in the Bible**

The phrase "The Lord tempers the wind to the shorn lamb" does not appear in the Bible, despite general belief. It is taken from an old book, entitled "A Sentimental Journey," written by Laurence Sterne, an English writer in the Seventeenth century.
