War Veterans' Problems

Not since the period of the World War has the Red Cross faced a greater problem in handling the claims of World War and other veterans. Due to the changes in the regulations covering veterans' claims, chapters all over the nation have been crowded with veteran applicants for relief and for service in preparing appeals. During last year Red Cross home service workers in 8,968 chapters dealt with the problem of 411,124 ex-service men or their families. The chapters also aided 7,346 men still in the regular army, navy and marine corps.

An Army of Children

The membership in the Junior Red Cross last year was 6,629,856 boys and girls in schools, private, public and parochial. They enjoyed volunteer work in hospitals and for orphans, the aged and crippled, and also aided their schoolfellows by providing attention for their eyes, purchasing their glasses, and giving many other types of service to them. The Juniors aid their school work by carrying on correspondence and the exchange of portfolios with school children in other nations.

Republicans offer this year . . .

For Surrogate, a man of legal training, whose honesty, fairness, and leadership resulted in his elevation this year to Speaker of the House of Assembly.

For Register, the present incumbent with 15 years of experience in conducting an office that has made money for the taxpayers and is a model for efficiency for New Jersey.

For Assembly, two veterans and two new men. Muir who has served longer than any man in the history of the Assembly. Pascoe, a human encyclopedia on current legislation, who handled fiscal bills by which Republicans reduced cost of State government 25 per cent this year. Molson who is a lawyer and police judge. Van Fleet who is a retired business man and a former councilman in his municipality.

For Freeholders, two men from the present large board to make easy the transition to the new small board. Three former Freeholders with experience in county government. Four men whose business and professional training bring new viewpoints to aid in the solution of today's important problems of economy.

All are pledged to greater economy and efficiency.

Springfield Tops Lackawanna League 1st Time in History

For the first time, a Springfield team is leading the pack in the Lackawanna League as a result of last Thursday night's matches when Springfield B, newcomers in the circuit, swept three games from Chatham to take top position.

David Thornton, anchor man, shot a neat total of 215, 191 and 227 to feature the victory on the home alleys. In team averages, the locals are one pin to the rear of Millburn Recreation who are in second place, one game behind.

Springfield A lost two games at Madison this week.

Springfield F. C. Laments Lack of Support by Fans

The Springfield Football Club which is playing home games at Fiomerr Oval each Sunday during the past month, is seeking the support of Springfield fans, sadly lacking since the season got under way. For the first time, only local players are being used and the club, although not winning all its games, urges a good attendance next Sunday against the Stud A. C. of Newark. Captain Peer anticipates a struggle and is confident that the home boys will win.

Last Sunday, a strong West Orange squad defeated the locals, 7-0. The visitors scored in the second quarter when one of their players fell on the ball across the line after a pass from center had gone over the head of the receiver who was about to kick out of danger.

Support Peter H. Meisel

PETER H. MEISEL is Springfield's candidate for Freeholder, at the polls next Tuesday. Regardless of the local contest for municipal office, every citizen of this township should vote for its home town representative in the county government. As the SUN "endorsed" Mr. Meisel when he was seeking the office last Primary, so do we again call attention of our readers to elect their fellow neighbor and insure not only representation for Springfield but also choose a man who has had the experience in the office for which he is running. Let's give Pete Meisel a big majority in his own home town!

The Issue As It Really Is

VOTERS of Springfield have probably decided by this time for which candidate their ballots will be marked when polls open Tuesday. We feel, however, that in justice to the Republican candidate for Township Committee, Ebert B. Johnson, a misunderstanding issue should be cleared up. It concerns the sewer assessments levied by the Sewer Assessment Board, of which Mr. Johnson was chairman. Two other able men, assisted him in his work. The duties of the board principally centered on distributing equally over the entire township the cost of building a sanitary sewer from the angle of benefits received, size of property affected and certain allowances whose these allowances were felt most advisable. The assessment board did its duty. It followed the procedure set up by State law and acted within strict advice of not only its own township counsel but an out-of-town disinterested engineer who had valuable experience in the work. Simply because a public official performs his duty is no reason to crucify him on so outrageous a step and the SUN feels voters should not allow the sanitary sewer angle to affect Mr. Johnson's chances for election. Although we are committed to no candidate in the race, it is unquestionably fair to present issues as they really are and we do it in this editorial.

The cost of the sewer was, in the opinion of the greatest majority of township residents, levied justly as the sewer assessment officials had done. We conclude by urging voters to keep this most important factor in mind and not crucify a candidate, be he Democrat or Republican, simply because he did his duty.

What the SUN Advocates

Believing that the following improvements are vital necessities to nourish Springfield's betterment and substantial progress, the SUN advocates:

1. A high school.
2. Removal of dilapidated buildings which are "sore spots."
3. Sidewalks wherever needed.
4. Encouraging clean factories, to increase the ratables.
5. An active Board of Trade to stimulate "Buying in Springfield."
6. Postal-carrier delivery.
7. Reduced bus fare within town limits and to Millburn R. R. station.
8. Full time position for the township clerk's office.
9. Set of Building Zones, before township is developed.
10. A county park.

The Red Cross Roll Call

NO more valuable a township institution than the Red Cross starts on a drive today to collect funds to operate nursing service and other indispensable functions for the benefit of Springfield's unfortunate and sick.

All townspeople should contribute what they can to the Roll Call Fund, for without assistance from those who are in a position to do so, the chapter cannot successfully keep "out of the red." It cannot give all and get nothing in return in the form of financial support. Elsewhere the SUN lists statistics of the organization's activity for the year, its receipts and its expenditures. Look the figures over: If you feel the Red Cross is deserving, give till it hurts. No great service is being rendered to Springfield than that of the Red Cross.

The State Relief Question

RELIEF officials in town call attention to special State questions on the ballot at general election which require explanation, so that the voter may be acquainted with the issues. Question No. 3, to reduce the State Highway Bond issue to \$58,000,000 already authorized, should be voted upon as "yes" as well as "yes" for Question No. 4 for relief of unemployed and dependents.

No. 4 authorizes the creation of \$5,000,000 to pay for State relief from the old Highway already created. Unless this is done, respective communities will bear the entire burden. It is essential that both Questions No. 3 and No. 4 be voted upon as favorably.

Eli Whitney's Wealth

Eli Whitney did not gain wealth from his invention of the cotton gin, but later from the manufacture of firearms.

SPRINGFIELD

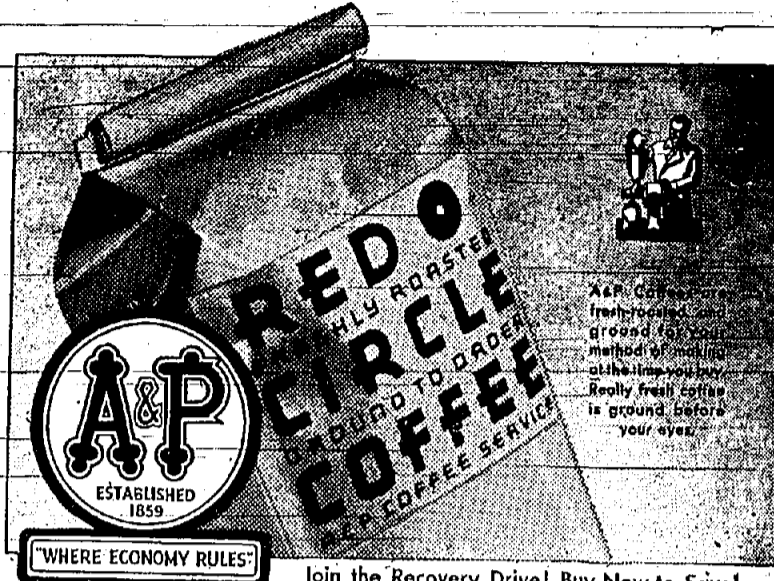

Population—1925 4,000 (est.) 1920, 3,715. Assessed valuations—1928, \$5,498,310. Tax rate, 1928—\$2.50 per \$100; state and county, \$1.05. Incorporated 1857; settled early in 1700's. Springfield is essentially a township of homes. It is 15 minutes from New York City on the electrified L. & W. Railroad and has excellent bus connections to Newark, Elizabeth, Summit and Plainfield. The railroad stations at Millburn and Short Hills are less than a mile from Springfield Center. The Railway Valley Railroad has a freight station in Springfield, giving service for factories, commercial and industrial purposes. State Highway Route 28 makes it convenient to reach New York in thirty minutes by car when completed. Numerous state and county highways pass through the township. It has good streets, water, gas, electricity and a newly opened sanitary sewer system. Of interest in Revolutionary history with its historic Presbyterian Church where Rev. James Caldwell cried, "Give 'em wattle boys." In the midst of the Battle of Springfield fought on June 23, 1780. Several colonial landowners are to be found in Springfield—one of the oldest communities in Union County.

RED CROSS CLOTHES THE NATION'S NEEDY

Flour, Bread, Clothing Reach Into More Than Five Million Homes of Jobless

The greatest task ever undertaken by a relief agency in the history of private charity is drawing to a close with the final distribution of cotton clothing to more than five million families by the American Red Cross. At the direction of the Congress, beginning eighteen months ago, the Red Cross undertook to convert the wheat and cotton surpluses of the Farm Board into food and clothing for the unemployed and needy. In the consequent operation, this relief agency entered upon a commercial enterprise greater than any single commercial firm has ever undertaken in the same period of time.

In the ensuing months the Red Cross converted 85,000,000 bushels of wheat into flour and bread and gave it to 5,803,000 families. The distribution was through 3,700 Red Cross chapters and hundreds of other charitable agencies. During the severe northwestern drought of 1931 the Red Cross also gave wheat in the form of food for livestock to 184,188 families.

The clothing—dresses, underwear, overalls, jumpers, sweaters and stockings for men, women and children, and even blankets and comforters—was distributed to 5,465,410 families. More than 54,000,000 ready-made garments and 92,000,000 yards of cotton cloth were given to the needy. This clothing came from 844,000 bales of cotton.

The wheat distribution was concluded in June, 1933, and final distribution of cotton clothing is occurring in the fall months.

In handling these tasks voted to it by Congress, the Red Cross will expend from its own treasury \$735,000. At the same time the organization carried on its regular program of disaster relief; of service to the veterans of all our wars; of educational and welfare work through the Junior Red Cross; of health education and public health nursing and of life saving and first aid. Funds for this work come from the membership roll call the Red Cross chapters conduct from Armistice Day to Thanksgiving Day, when every one is invited to join the Red Cross and aid in this vital relief work.

Seven hundred thousand women volunteers under the Red Cross banner sewed for the needy last year and many thousands still are making cotton garments for their Red Cross chapters.

The Red Cross has 3,701 chapters and 10,000 branches of chapters. Thus it can be mobilized nationwide in great relief task within 24 hours.

Rules Applicants Work For Relief

Relief applicants who refuse to work for their aid from emergency relief departments, may be "cut off" the lists, according to a decision handed down by Judge Richard Hartshorne of Essex County recently. A test case was held in the court of Judge Hartshorne affecting L. Cheyno Stout, a resident of West Caldwell Township, who appealed to the Court of Common Pleas as to his privilege under the Poor Act of 1924. The case was decided against Stout.

The decision follows: "The State of New Jersey through its emergency relief administration, is extending aid to those in economic distress and is doing this in the form of work for relief in order to help them save their self respect. For such persons to refuse this aid, freely offered by the

LIBRARY ELECTION SET ON WEDNESDAY

The second annual meeting of the Springfield Free Public Library Association will be held Wednesday night at 8:30 in the library rooms, Morris avenue. Officers and trustees will be elected for the coming year and a few changes may be effected on the Board of Trustees, owing to the increased amount of work. The annual report of activity during the past year will be submitted. Members are urged to attend since an amendment will be offered, enlarging the membership of the Board of Trustees and it will be necessary to have a quorum.

"Every one every so often should read a foreign novel, a novel from a scene and language as remote as possible, just for the sake of a new slant on people and minds and expressions in order to realize variations to the local pattern," so says George Britt, a fellow columnist.

To this we add a fervent amen because there is the meat of our thoughts about the use of the non-fiction of Our Library.

If we were to draw a curtain before these shelves or put these books in a private room, marking them for use only by special permission of a certain official, the natural reaction of most readers would be to find why these books were withheld from

Food Market Advice

By ANN PAGE

AT THIS season the choice of foods which are plentiful and reasonable is wide whether it be fresh fruits, vegetables, fish, meats, or poultry.

Among the fresh fruits which are plentiful or rapidly becoming so are melons: watermelon, cantaloupe, honeyball, and honeydew. The cantaloupe are even better flavored than they have been recently. Not every one believes in summer but with new apples, peaches, sour cherries, and saskiberris (or blueberries) waiting to be popped between two flaky biscuits, pie seems to be indicated. Or for raw fruits, fruit salads and fruit cups there are oranges, bananas and sweet cherries. Plums are refreshing either raw or poached (cooked gently) in syrup. Lemons are always with us for beverages, and to lend that tart flavor which gives zest to numerous dishes.

What a little lemon juice can do when combined with olive oil and salt to making a vegetable salad, or a fish, meat or poultry salad for that matter, is so tasty, is remarkable. An unusually attractive salad of seasonal vegetables recently served included green peas, lima beans and green beans, all cooked to retain their crispness, with just enough celery to give a bit of crispness and possibly a passing acquaintance with a bit of onion or garlic. This of course was thoroughly chilled in the French dressing before it was put on its bed of lettuce and the salad dressing added. For a hearty of lettuce salad the Quaker Maid Kitchen suggests a peanut butter salad dressing. To pre-

pare it, gradually beat three-quarters of a cup of French dressing made with either lemon juice or vinegar into one-quarter of a cup of peanut butter. This dressing is also delicious on a banana salad. In addition to green peas and beans the vegetable stands show that cabbage, carrots, beets, and onions are all plentiful. Celery has come in sufficiently to accompany hard-cooked eggs, fresh cooked or canned fish and shell fish and cooked - or baked - on a bed of chopped spinach are just three ways to cook them. Many varieties of fresh or salt water fish are plentiful including blue pike, haddock, cod, flounder and sole.

The ready-cooked meats and sausages make summer lunches and dinners easy to prepare and they are also economical.

Prepared spaghetti with frankfurters or bacon makes an inexpensive and quickly gotten luncheon or supper dish.

When an occasional cool day arrives is the time to roast beef, lamb, venison or pork, or to boil and bake ham. All of these are in market and reasonable in cost. Broiling and frying chickens are plentiful and reasonable and the fowls are large and plump enough to roast. Fowl, as usual, are available to serve as fried chicken or pie-jelled or pressed chicken or for stews and jellied broth.

GIRL SCOUT TROOP PLANS PARTY

Members of Troop 23, GHT Scouts, are urged to come to the Witch's Abode Monday night at troop meeting in the James Caldwell School, at 7 o'clock. There will be costumes prizes and ghosts, goblins and black cats. SCRIBE.

SOCIALS

Mary and Anna White, daughters of Mr. and Mrs. William White of Romer Avenue, entertained Saturday night at a Halloween party. There were eighteen present. Martha Ball won the costume prize for girls and Robert Berger among the boys.

Mrs. James Tansey of Morris Avenue entertained sixteen tables at dessert-bridge last Thursday afternoon for the benefit of the Springfield-Millburn Sunshine Society.

A boy was born yesterday to Mr. and Mrs. Charles Smith of Tooker Avenue in Overlook Hospital, Summit.

Highest British Honor

The highest distinction in Great Britain is the Most Noble Order of the Garter, established by King Edward III in 1348. It is limited to the sovereign and such other descendants of George I as may be elected and to 25 Knights Companions. But sovereigns and princes of other countries, and extra Knights Companions may be admitted by special statutes.

Sulphide of Iron

The widespread sulphide of iron, or iron pyrite, which frequently occurs with gold, found by prospectors, is a shining mineral of golden hue and of nearly the same weight as gold. For this reason it remains in the pan nearly as long as the gold particles, and is so often confused with the precious metal as to earn the name of "fool's gold." Once a man has seen the real article, however, he is never again mistaken.

"Dame Schools"

As early as 1625 girls were taught the rudiments of English in colonial institutions described as "dame schools." Usually such a school was simply the living room of a private home, adapted by a widow or an energetic spinster for educational purposes; and the "dame school" was very often a target for jokes from skeptical and unfeeling citizens.

Raiding Baboons

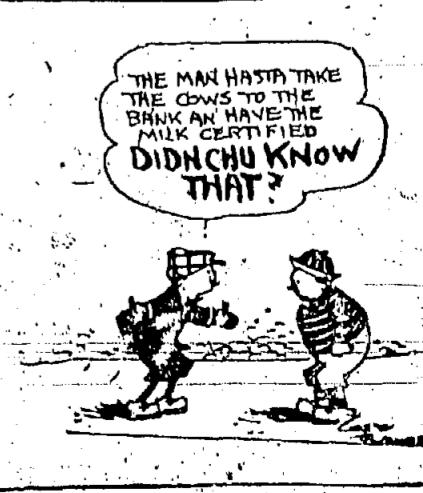

Baboons, in their native haunts, can be seen in bands of several hundreds, and are credibly reported to co-operate in raiding a plantation and in defending themselves.

The Horned Grebe

The horned grebe has no tail. Its legs are set far back upon its body and when it stands up it has the upright position of a penguin. The toes are flattened and separate, but broadly fringed at their edges. There are little flanges on each side of the toes which are a sort of apology for the webs between the toes of the other water fowls. The bill is straight and conical and the eyes red like rubies.
