A good-bye morning kiss is a pretty wifely gesture, but bacon and eggs last longer. Bows in your hair are beauty experts' ideas for keeping the man in your life still in it, but more beautiful are biscuits. Take-out's against wearing morning "wrappers" are doted out by advisors to the lovelorn, but a Jack of food is sadder still.

Buy U. S. War Savings Bonds Out Of Income

Whatever else you may be doing, it isn't enough unless you are also buying War Savings Bonds to the limit of your ability. The only assurance of freedom for the future, the only hope for a durable world peace lies in victory for the United States and her allies. To win the war, we must produce the necessary arms, ammunition and supplies. To get and maintain production on such a stupendous scale costs billions of dollars—money that must be raised one way or another. The more each one of us puts into War Savings Bonds, the less will have to be raised through taxation. Equip our fighting men with the best. Be loyal! Be generous.

You're In The Army!

New Jersey housewives, a million strong, are serving today on America's Home Front. Many of them are in uniform, in the Red Cross, the Motor Corps, or performing other War duties. But thousands more are serving in their own homes, making America stronger, healthier, and better able to perform the new tasks which the times have placed upon us.

As a public utility serving large areas of the State with gas and electricity, we are literally busting our buttons to give people the same high standard, efficient service to make the home run economically and well.

Vitamins, new standards of nutrition and health, have a meaning today which we appreciate more fully than ever before. And modern appliances are playing their part too, enabling the busy home maker to conserve time and energy, to prepare better food, and to save money on the family budget, key factors in winning the war.

New appliances are precious due to the necessity for saving vital materials, so that the ones you have should be given the best of care. It is our job to "Keep 'em Working" for the duration. So, if your appliances need attention, find out about our new Appliance Conservation Plan by calling your local Jersey Central office.
