

# OUR GUEST CORNER

From this to the SUN invites its readers to contribute to "Our Guest Corner." This week's article is written by WARREN W. HALSEY, Principal, Regional High School.

WARREN W. HALSEY

The purpose of this article is to acquaint the public with the objectives of the Regional High School in aiding students in the transition from school to employment, and to describe briefly the methods used in attaining these objectives.

Looking back at the high school of a graduation year ago, I remember that I offered students, but little consideration was given to assisting the students in obtaining a job after graduation. Today, many high schools give definite instruction in how to obtain a job, and all students in securing their first and even succeeding jobs. At least one of every ten students who graduate have attended high school for four years with the expectation of securing employment upon graduation. It is, therefore, the policy of the school to help place students in jobs upon graduation.

The placement service functions as a part of the guidance service under the direction of William S. Steiner, Director of Guidance. One guidance counselor, Miss Jane Krumaner, devotes the one period per day during which she is assigned to the guidance office solely to placement work. Miss Krumaner has shown great interest in placement of students and aptitude for discovering vacancies which our students can fill.

In the late fall and early winter of the senior year, each student fills out a placement form and is interviewed by the placement counselor. The purpose of this procedure is to familiarize the counselor with the special abilities of each student. These forms are filed and the counselor becomes the source of information when the counselor recommends students for jobs.

During the senior year, numerous home room programs are devoted to some means of aiding students in securing employment. Some home room programs feature vocational speakers who talk upon such topics as "Job Hunting," "The Importance of Personality," and "Opportunities in the Civil Service." At one home

## Do You Understand Gas Rationing? If Not, Read This

Because there seems to be some confusion in the public mind regarding rights, privileges and responsibilities under auto rationing books, The Springfield SUN asked chairman Oliver B. Merrill of War Price Rationing Board No. 7 for clarification.

The thing to remember according to Mr. Merrill is that every passenger car owner gets an "A" card. Assuming you get 15 miles per gallon from your car your "A" book should give you 240 miles of travel per month at the present time.

Of this 240 miles it is assumed that 90 miles will be personal and 150 miles occupational driving.

If you need additional gasoline for business or occupational use and can qualify for a "B" or "C" book—this merely extends the amount of gasoline available to you for occupational purposes. You still have 90 miles (at 15 miles per gallon) of gasoline for personal activities, neither more or less. The added gasoline extends your occupational driving only.

Occupational may also include voluntary services such as Red Cross, Defense Council, Air Spots, and like war services.

Personal activities include shopping, visiting friends, going to church, entertainments, etc.

If you do not get 15 miles from your car, nothing can be done about it.

Another regulation seems to be misunderstood. That is about the stickers. These stickers are on the rear window of every car. Only one sticker. If one has only an A book use an A sticker. If one has a B or C book use only the B or C never an A.

## New SUN Feature

A new weekly column entitled "Consumer Activities" as prepared by the Consumers Interest Committee of the Local Defense Council, makes its debut this week in the SUN. It will be found on page 3.

## Six Springfield Men Reporting For Duty

Six Springfield men are among the personnel of men who leave Tuesday morning for military service at Fort Dix. They were inducted into the Army last week. The local men are:

John William Cardinal, Milltown Road.  
Freeman H. Huntington, 27 Mountain Avenue.  
George William Johnson, 30 Marion Avenue.  
Michael J. Marino, 268 Morris Avenue.  
Philip J. Thompson, St. Gladside Avenue, Summit.  
Raymond John Williams, 415 Meisel Avenue.

Of the group of men to be inducted, three already went to Fort Dix without taking the two weeks' furlough allowed. One of the men, all of whom are from Union, is Police Sergeant Charles Tenfel, a veteran of the World War I. Selective Service board officials have already indicated that they will not grant group deferments to police or firemen, in which case each individual application will be considered, disregarding any preference for either type of municipal officer.

## Daughter to Harrison

Mr. and Mrs. George D. Harrison of 145 Short Hills Avenue announce the birth of a daughter, Joyce Lee, on October 1 at the Presbyterian Hospital, Newark.

## FALL COLORING AT BEST IN PARKS

Amending its annual invitation to nature lovers to visit the Walden Reservation when fall coloring is at its best, The Union County Park Commission is stressing this year, the beauties of other areas closer to the centers of population in the various municipalities.

For those who can still get to the reservation, whether by hiking, on a bicycle, by bus, or in an automobile, the greatest treat is in store, according to W. R. Tracy, engineer and secretary of the Commission. For it is here that the most massive display of coloring may be seen, ranging from mellow greens to flaming scarlets. Dogwood trees, whose blossoms provide the magnet that draws thousands of persons to the reservation each Spring, are among the first to start their blood-red leaves and vivid red berries, closely followed by maples, low-growing sumacs, and others, it is reported.

Parks, such as Warmanco, in Roselle and Elizabeth; Cedar Brook and Green Brook, in Plainfield; Echo Lake, in Mountainside and Westfield; and Highway River Park, to name a few, combine the attractions of a massive display with the beauty of specimen trees that, standing alone, contrast sharply in their Autumn dress with the verdant green of lawns that have benefited by an abundance of rainfall this past summer. Trees bordering the lake in each park enhance the scene, with the colored leaves reflected in the water.

In undeveloped park areas, open fields seem to have produced more than their usual abundance of fall-blooming wild flowers.

The Park Commission invites inquiries from persons who are not familiar with the location of the parks mentioned as well as other units of the park system. A handbook and list of bus routes, issued some time ago, are still available for distribution to interested persons. These may be obtained by sending a postcard request to Post Office Box 231, Elizabeth, N. J.

## ROAD TO VICTORY!

By STUART CLOETE

Why should anyone buy War Bonds? There is no compulsion to buy them. There is no winter relief. . . no SS man standing outside the grocery saying, "Buy, or else." Nothing is at stake but the future of the country . . . perhaps of the World.

What then is a stamp or bond but a vote of confidence in ourselves? In our capacity to drive on, to break all opposition and then to reconstruct upon a new and better design, a world that will be different. A world of surplus instead of one of scarcity. But a bond is more than this. It is an investment. It is something of a miracle that freedom can be bought and that in addition it should pay a dividend of almost 3 percent. And this is not all, bonds stand between us and the spiral of inflation which could engulf us more easily than any enemy outside our gates. For the first time in many years, demand backed by money exceeds supply, which normally equals demand, and even stimulates it by advertising and credit purchase plans. Are we to save money against the time when we may need it, or bid for the few consumer goods that are left against ourselves?

There is one more reason for buying bonds. The President, who is also the commander in chief, has asked us to do so.

Meanwhile, . . . while we hesitate . . . while we complain of nonchalant hardship . . . men die . . . not only fighting men, but women and small children also. They die for a good cause. A good reason, . . . for freedom. But we who are not dying must pay in time and money, or we shall find ourselves dishonored. The time is short. It passes . . . and having passed, is forever lost.

Men in France, in Poland, in Norway . . . men all over Europe are regretting this . . . are saying, "If only we had known."

But we do know. The writing is on the wall. Corregidor, Pearl Harbor, Singapore, Dunkirk, are not dreams. They are evil things that have happened, and now this evil approaches us. It lies in wait for our consent.

Time is money . . . but money cannot buy time, nor bring dead men to life, nor purchase freedom once it is lost.

That is why we must buy bonds now . . . today, and tomorrow, and the day after. Buy bonds until this thing is destroyed utterly . . . because time is not subject to manipulation . . . because the past is dead and the future mortgaged . . . because the world cannot live half free and half slave. Nor, we free, allow the mortgage upon our freedom to be foreclosed. Failing now, we fall forever. Never before could so much be bought for so little. Never so much lost for lack of that little.

—U. S. Treasury Department.

## URGES SUPPORT

MAYOR JOHN MOXON

Mayor John Moxon, on the eve of the Community Association's drive to raise \$2,750 for war relief agencies and local organizations, asks all borough residents to contribute toward making the campaign successful.

## Residents Asked By Letters To Aid Fund

MOUNTAINSIDE — The Mountain Community Association has issued letters to all borough residents requesting their financial support of the 1943 Fund raising drive, which has been launched today and continues until October 31.

Mayor John Moxon announces that the borough has been receiving numerous requests from charitable and war relief organizations for donations, which are deserving of consideration.

The goal of the drive is \$2,750.15, which is \$1000 more than was collected last year. Theodore V. Mundy, association president, states that the funds will be for numerous war relief societies and local organizations.

Organizations participating are: Relief, War Relief, United Church of Christ, United Methodist Church, American Council, National War Relief, American Social Hygiene Association, War Prisoners' Aid (YMCA), Emergency War Fund (YWCA) and United Service Organizations. It will be noted that the Army and Navy Relief units are not included. Both were contacted and advised that since both budgets have been over-subscribed, no more funds are required.

## Paper Mill Playhouse Shows Water Colors

Patrons of the Paper Mill Playhouse who attend the current performance of "The Moon" will have an additional pleasure in viewing the present exhibition by the New Jersey Water Color Society. This exhibition, the largest of the season, has overflowed the gallery into the upper hall and lobby.

Several artists are represented by two or three examples. Kent Day does a striking example of dry brush work in "Vernon Road" almost Oriental in style and content. Another, "Pastel Study in Blues and Greens" of "Braden's Cove" the delicately tinted drawings by Gertrude Schwelger "White Ballet," "Pastel Group" and "Pony for Your Thoughts" suggest a pastel technique. Henry Gassner's depictions of wharves and city courtes shows how virtue in this medium can be as also how much pretentiousness can dwell in dingy stone and lumber. Outstanding "Hekwe" are Carl Dudley Peitchett's "Passie River," Helen Oobler's "Old French Dwelling" with its mystic greys and greens and Estelle B. Armstrong's fantastic snow scene "Outside Manhattan." Marguerite Polville in "Along The Gaspe" and Lucilla Duros in "Landscape" show that moderate treatment is capable both of wide variety of handling and subtle gradation of color.

Gerald Davis contributes only three pieces "Autumn," a vivid study of black-eyed Susans, Maurice King has a nearly life-sized portrait "Young Man of Irvington."

Other artists exhibiting are Anne Steele Marsh, Kathleen Voute, James Carlin, Herbert Scherer, Avery Johnson, Herbert S. Pierce, Mary Lawrence and Haysworth Halder.

## Republican Club Plans On "Candidates Night"

The first Fall meeting of the Springfield Republican Club will be held Monday evening at 8:15 in the Legion Building, with Mrs. Edith S. Hanks presiding. It will mark "Candidates Night" and a representative candidate for United States Senator will speak as will other State, county and local candidates. Everyone is invited to attend.

## Union Motorist Held After Auto Accident

Erlich Vieth, 35 years old, of 2264 Kent place, Union, was released in \$250 bail Sunday by Recorder Everett T. Spaulding to answer a charge of drunken driving in Police Court October 10.

He was arrested Saturday night at Plover and Mountain avenues, near Regional High School, by Patrolmen Lamb and Stiles after his car collided with another vehicle, driven by Miss Muriel Getchell, of 92 Salter street.

The local motorist had stopped to allow a pedestrian to cross the street when Vieth's machine, according to police, struck it. Dr. Henry P. Deuler declared Vieth unable to drive.

His companion, Max Matern, 44 years old, of 725 South 14th street, Newark, was being held as being drunk and disorderly and interfering with the police in making the arrest. He was released in \$50 bail, after pleading not guilty.

## Medalist Award To Regional Yearbook

The medalist award, premier designation of the Columbia Scholastic Press Association, went to the 1942 edition of the Regionlogue, the year book of Jonathan Dayton Regional High School, it was announced in New York Saturday.

Although the Regional High School book has won several first places in its division, this is the first time that it has attained the coveted medalist award.

The book contains large sections devoted to the senior class members, club activities, athletics and other school news. Sherman Williams, of Springfield, was the editor. Other members of the staff included: Art editor, Richard Tompkins, Springfield; business manager, Marie Salvatorelli, Mountain Side; literary editor, Alice Valentine, Springfield; and sports editor, Waldemar Duberlin, Garwood. James Campbell was literary advisor and J. S. Norman was business advisor.

The book has a circulation of more than 50 per cent of the student body, a figure unusually high for a year book.

## How B and C Gasoline Books Will Be Renewed

"The renewal of the 'B' and 'C' gasoline rationing books will be deferred to those persons—fishermen—in Springfield whose applications have been approved at the Town Hall on Tuesday, Wednesday and Thursday, October 20, 21 and 22, from 1 to 5 P. M. and Tuesday and Friday evenings, from 7:30 to 9 P. M. Notice cards will be sent to all 'B' and 'C' applicants.

It will be necessary to present the civil insider for approval a new book. Holders of B, non-highway and other ration books, should not apply. They are not being renewed at this time.

## BETTIQUETTE SAYS

Howdy, readers! This sure is sticky weather. Without the heat in one's house, it is very cold, and with the heat it is very hot, so what to do about it is the question. A good antidote is getting some new clothes. That always builds up one's morale. We found it most successful; however, it did deplete the bankroll. Well, what's money but a thing to keep circulating? Frankly, we can never see the virtue of "having money, just for the sake of same. We recently heard a program where a comedian said he came in the world with nothing, and that was how he was going out. More or less, we agree with that theory. Certainly when we are doddering around, we will not enjoy the same things we do in our youth. So we say, "Take advantage of the present, for who knows what the future will bring?"

You know you have been receiving much favorable comment about this column, but more or less verbally, so please readers we urge you to write in as we certainly do enjoy receiving mail.

Isn't it fun to get mail? Maybe somebody is coming to visit, maybe a present is on the way, or maybe it is just a nice big juley bill; in any case it is fun. We suspect when one receives a letter from someone one is in the service that whole day must be just a happy one.

A relative of ours who is a physician is going in the service as a Captain. It is certainly a revolutionary thing to his family. They must close up their home, the wife must go to work to support the family, and the husband will be down South. We do not realize what a sacrifice such things are until they hit home. Here is a man who has to give up his whole life's work and upon his return must start all over again. Of course, any thing he might possibly have would be useless, if the Nazi regime were in

control here, and that is the only possible way anyone can regard the matter. So to him, and all his compatriots, we salute you!

In our work here, we come across many and interesting types of persons. If one becomes extremely interested in a subject, don't let such interest warp one. We cannot mention specific hobbies, as we do not wish to offend any particular persons. However, remember you may be interested, but the other fellow might not be, so do not "force" your ideas down his throat. The psychological principle of "too much" certainly applies. If we eat too much candy, talk too much, or wear too much, it is all for the cause of "too much."

You know sometimes in writing such a column, reader, you might think we need a "soap-box"—maybe we do. However, this column is strictly for female edification, and any male reader is trespassing.

Question.—I met someone, a boy, a short time ago. It is his birthday, would I be rushing him, if I send him a card?

Answer.—No. Send him one, but pick it out carefully, and do not have it too personal.

Question.—What would you suggest as a wedding gift for a War bride who will remain with her parents, while her husband is in Service?

Answer.—A very beautiful photograph album, or a fine scrap book, for this bride to keep and retain permanent memories of his time. A bulky gift I strongly advise against, as she probably hasn't too much room to keep things.

Question.—We are repapering a living room. What color would you suggest?

Answer.—You did not de-

**TIME AND FUEL SAVERS**  
An oven meal, if carefully planned, is one of the best ways of saving both time and cooking fuel. It is, of course, fairly simple to plan a meal of baked-dishes, which require different cooking periods, and these do save some time and fuel. However, they are not nearly so practical as the oven meal made up of dishes which require the same amount of time.

These are the accompanying recipes:

**BAKED HALIBUT AU GRATIN**  
2 lb. halibut steak  
1 tsp. salt  
1/2 tsp. oil  
3 lbs. butter

3/4 cup bread crumbs  
1/2 cup grated or American cheese  
Place halibut steak in greased baking pan; season with salt and pepper; dot with 2 tablespoons of the butter. Bake in moderate oven, 350 degrees F., for 15 minutes. Cover with mixture of soft bread crumbs and grated cheese, dot with remaining butter; continue baking for 15 minutes or until crumbs are browned and the fish tender, 6 to 8 servings.

**NOODLES**  
1 1/2 5-oz. pkg. noodles  
1 lb. salt  
4 cups boiling water  
4 lbs. melted butter  
2 lbs. chopped parsley

Four boiling salted water over noodles; cover and place in 350 degrees F. oven for 30 minutes; drain. Pour melted butter over noodles and sprinkle with chopped parsley, 6 servings.

**BAKED TOMATOES**  
Wash tomatoes; remove stem end but do not peel. Season with salt, pepper and a little sugar; place in greased baking dish; bake in moderate oven, 350 degrees F., for 30 minutes.

**APPLE CRISP**  
4 to 6 apples, sliced  
1 tsp. cinnamon  
1/2 cup water  
1/2 cup flour  
6 lbs. shortening  
1/2 cup brown sugar

Put apples in buttered baking dish. Sprinkle with cinnamon; pour water over. Work flour, shortening, and brown sugar together and sprinkle over apples. Bake in moderate oven (350 degrees F.) 30 to 40 minutes, 4 to 6 servings.

# A WEEK OF THE WAR

A summary of information on the important developments of the week made available by official sources through the Defense Advisory Committee of the National Editorial Association.

Following passage by Congress of the Second Price Control Act, President Roosevelt ordered ceilings placed over wages, salaries, profits, prices and rents, and appointed Supreme Court Justice James P. Byrnes as Director of Economic Stabilization with the job of developing a national economic policy.

### Maximum Prices and Rents

Immediately following the President's Executive Order, Price Administrator Henderson imposed emergency 60-day price ceilings on virtually all exempt food items, bringing 90 per cent of the family food budget under rigid control. Previously only 60 per cent was controlled.

Administrators Henderson also completed new orders freezing all uncontrolled urban and rural rents at levels of last March 1. He announced the Office of Price Administration would cancel existing regulations to prevent eviction of tenants resulting from sales of rental property, a practice which he said in many cases has become a device to avoid the effect of rent control.

### Stabilization of Wages

The President's Order had the effect of freezing all wage rates for the time being until the National War Labor Board has it charged to act in individual cases. Wage rates may not be changed up or down without the approval of the N.W.L.B.

### Farm Prices and Production

Mr. Roosevelt ordered prices of raw and processed agricultural commodities "stabilized, so far as practicable," at September 15 levels, and in conformity with the standards laid down in the new law.

Agriculture Secretary Wickard, speaking at Tylerstown, Miss., said agriculture in wartime must be limited to "producing only the farm products which are absolutely essential."

### The War Front

The Navy announced that U. S. Army troops "covered and supported by units" of the U. S. Navy, have recently occupied positions in the Andeano group of the Aleutian Islands.

During a week of heavy fighting in New Guinea, Gen. MacArthur's ground forces drove the enemy back some 40 miles from a point 32 air miles from the Allied base of Port Moresby past Elogi village, last important Japanese base on the southern side of the Owen Stanley mountains.

U. S. submarines operating in the Far Eastern waters sank five enemy ships and probably sank two more, and damaged another. Army, Navy and Marine Corps forces from September 28 to 29 destroyed 42 Japanese aircraft and damaged three others in the Solomons, without combat loss of any U. S. planes, and hit two enemy cruisers, damaged another ship and probably sank a large transport.

### War Production and Small Businesses

Following an 8,754 mile two-weeks tour of the nation—kept secret as a special wartime safeguard—President Roosevelt said the war production program is going, on the whole, extremely well, allowing for a normal small percentage of lag in a program made a bit higher than human inactivity could carry out.

American shipyards produced 93 vessels during September—a rate of average ship production, the Maritime Commission announced. The total tonnage (announced) of 1,009,500 was the greatest record in world shipbuilding history, the Commission said, and assures that the goals of 8,000,000 tons this year and 16,000,000 tons next year will be met.

### Army and Selective Service

The War Department opened an intensified campaign to recruit 18 and 19-year-old volunteers for the Army. They may now volunteer for the Quartermaster Corps, Ordnance Department, Chemical Warfare Service, Medical Department and the Corps of Military Police, in addition to the previous choices.

Selective Service Director Hershey said he hoped mobilization for the armed services will reach its peak this year and will go downward with the start of 1943, but no one can make a prediction with any high degree of certainty because of world military developments.

"A Week of the War" summarizes information on the important developments of the week made available by official sources through noon EWT, Monday, October 5.

## Describes New Rationing Book Due Before Christmas

War Price and Rationing Board No. 7, which includes Springfield along with others throughout the State were informed Saturday that distribution of the new "all-purpose" ration books would begin shortly before Christmas. A bulletin containing this information and a description of the new book has been received by the Summit board from the office of James Kerney, Jr., State director of the OPA.

The new book will contain 192 coupons on eight pages, each page of a different color and each coupon designated by a different number and letter. This arrangement, it was explained, makes possible the use of the book for straight coupon rationing such as is now used for sugar, or the use of the point system whereby the consumer may "spend" his ration on various grades and kinds of a general type of commodity.

Distribution of the new books will be based on the registration for war ration book No. 1, now being used for sugar rationing. An adult representative of a family group will apply for books for all members of the family by presenting all the sugar ration books of that group. Consumers will retain their sugar ration books as their use will not be affected in any way by the new coupons.

## Consumer Activities

In introducing the first of a weekly column under the above heading of "Consumer Activities," it might be well to devote the principal contents to a clear picture of what the Consumer Interests Committee of the Springfield Defense Council actually covers in a broad sense.

The manual of the State organization defines objectives of the Consumer Interests Program as follows: "Protection of consumer interests is one of eight functional areas recommended by the National Defense Council to be included in the programs of State and Local Defense Councils.

"For the first time, the American consumer is made a part of the defense program. Total war and total defense must be built on a sound coordinated plan of all civilian activities. Back of the armed forces there must be a citizen army convinced that its Government is committed to preserve the privileges and elevate the living standards of the whole people.

"The most effective organization of the Consumer Interests Program must be built on the protection of each consumer in every community. Organization

"The Consumer Interests Program operates on three levels, National, State and Local. On the National level, activities are directed by Leon Henderson, of the OPA; on the State level they are centered in the Consumer Interests committees operating through local defense councils. Responsibilities

"1. Build civilian interest into the defense program by suggesting means to control the flow of essential consumer goods.

"2. Guard against price rises through cooperation of producers, retailers and consumers.

"3. Protect existing living standards and raise standards of low-income groups through activities of local consumer interest committees.

The State's Manual goes on to state that the Consumers Interests Committee promote school lunch programs, nutrition education classes, co-operative gardening and pre-

take water. This is one of the reasons for early fall planting. All woody material is better moved in late October than in November, even if the leaves have not already fallen. Digging and moving will be a shock to the plant and the leaves will then fall, or they can be stripped off. The plants or shrubs should be pruned back heavily in the fall, the same as if transplanting in the spring. This will balance the top to the roots, for the roots are heavily pruned by any method of digging. If you reduce the top to correspond to the root reduction, the plant is better able to re-establish itself and will make top as fast as roots. In a few years it will be absent of the plant that is not cut back. With the exception of this, this applies to all woody plants.

If you get your roses and plant

## What SUN Advocates

1. Side walks wherever needed.
2. 5c bus fare to Union Center.
3. Extended local telephone scope to Newark and Elizabeth.
4. Federal Post Office building.
5. Removal of dilapidated buildings which are sore spots.
6. An active Board of Trade to stimulate "Try Springfield First" in purchasing.
7. Full-time position for the Township Clerk's office.
8. Encouraging clean industry, to increase tax rates.
9. Municipal parking lot.
10. Extension of mail delivery by local R. F. D. routes, to all portions of the township.

## Rubber Footwear Ration Regulations

Local dealers in six types of rationed rubber boots and rubber work shoes will file inventories of their stocks by tomorrow. Rationing regulations provide that no dealer may sell the rationed footwear after October 10 to holders of purchase certificates unless he possesses an official certificate of registration. These are issued by rationing boards when inventories are filed.

Persons whose work is essential to the war effort or to public health or safety may purchase the half dozen rationed types which include all men's boots, size six and up from below knee height to hip height in light and heavy weights, and rubber para and booties, ten inches and higher, with or without laces; also para and rubber work shoes less than ten inches high.

## County Youth Council Selects Meeting Theme

South Faces the Future" will be the theme of the sixth annual conference of the Union County Youth Welfare Council in Plainfield High School late in January.

This was decided by the conference committee, which met in Elizabeth September 23 at the Court House. A Clifford Bernard of Summit is chairman.

## Your Garden This Week

BY FRED D. OSMEN - County Farming Agent

October is really the month of fall planting, although you can carry on some of this work throughout the Eastern Seaboard until almost December 1. But from mid-October on, we have ideal conditions to get the fall planting done.

One of the main reasons for heavy losses of fall plantings is planting so late that the roots do not become established and the plants die during winter because of lack of moisture. The only way the plant can get sufficient moisture is through the root system, and remember that the feeding part of the root system is the root hairs. The more of these you have on the roots, the better the roots are established and the better the plant can

## British War Relief - Aid Is Acknowledged

MOUNTAINSIDE - In a recent letter received by Theodore V. Mundy, president of the Mountain-side Community Association, from the British War Relief Association, the Borough of Mountain-side is complimented for its cooperation in connection with war relief. An excerpt from the letter sent by A. B. Grant, president of British War Relief, follows: "From your letter it would appear that Mountain-side is one of the smallest communities to organize a War Chest and we would like to assure you of the deep admiration we feel for your fine effort. It is perhaps not always realized that largely the world will from this country contribute to the morale of the other allies, but I do assure you that tokens of friendship and sacrifice, emanating particularly from a small community, play a very substantial part in the maintaining of this morale. I would, therefore, be most grateful if you would convey to the citizens of your community the most grateful thanks of the British War Relief who have been most stimulated by this tangible evidence of their understanding and desire to help."

## Student-Aid Sponsors Neighborhood Benefits

MOUNTAINSIDE - The Student-Aid Fund is sponsoring a series of neighborhood breakfasts and teas, under the chairmanship of Mrs. Daniel Waters. This is an opportunity, she points out, to encourage neighborliness, create social activity and share all to swell the Student Aid Fund, which is constantly increasing and enlarging its sphere of work. Among the members of the committee who have pledged themselves to act as hostesses in their own homes, are: Mrs. Charles Shomo, Mrs. Thomas Doyle, Mrs. Charles Honecker, Mrs. George B. Danenhour, Mrs. Fred Roeder, Mrs. Henry C. Weber and Mrs. Gilbert Pittenger. Any resident who wishes to participate, by offering their homes or acting as co-hostesses, is asked to communicate with Mrs. Waters.

## Room Representatives Named In P. T. A. Group

MOUNTAINSIDE - Mrs. Frank Chapot, membership chairman of the Mountain-side Parent-Teacher Association, has announced the following room representatives at the grammar school: Kindergarten, Mrs. Charles A. Dunn; first, Mrs. Elmer Hoffarth; second, Mrs. Frederick Long; third, Mrs. W. D. Trayman; fourth, Mrs. L. A. Jennings; fifth, Mrs. Frank Chapot; sixth, Mrs. George B. Danenhour; seventh, Mrs. L. L. Soybeck; and eighth, Mrs. Charles Shomo.

## Essay Contest Held On Fire Prevention

MOUNTAINSIDE - Pupils in the Mountain-side School this week have been preparing essays in conjunction with National Fire Prevention Week on the subject of "Have Boys Fire Prevention Help Our War Effort?" Pupils in the fourth to eighth grades, inclusive, are eligible for two prizes, \$25 War Bond to the pupil submitting the best entry, in the opinion of the judges, and \$5.00 in War Stamps for the second prize.

Fire Chief Herman Honecker, through whose efforts the essay contest is being held, together with the cooperation of Principal Charles J. Widas, announces that the judges will be Mrs. William Parkhurst and Mrs. Robert Seiben-Morgan, both of the borough; and Fire Chief William Linder of Westfield.

Rosemary Honecker was last year's top prize and Richard Robbins took second, both awards being the same as those for this year.

## Mountainside School Held Class Election

MOUNTAINSIDE - Class officers have been elected at the Mountain-side School as follows: President, Rosemary Honecker; director of girls' athletics, Jean Boyton; director of boys' athletics, Robert Shomo; entertainment, Susanna Trautman; chief of police, Robert Pfeiffer.

At Assembly Friday, junior police appointed by the Junior Council were sworn in by Police Chief Charles Honecker.

Dr. P. W. Waruko, school dentist, has entered the Army service and the Board of Education Thursday night will act upon a replacement. Louis Hans of Mountain Lakes, new manual training teacher, assumed his duties last week, working in conjunction with the Columbia School of Berkeley Heights.

## Reading Hour Resumed

MOUNTAINSIDE - Mrs. John M. Pfeiffer of Central avenue is group leader of a reading hour which has resumed sessions every Saturday afternoon in her home from 2:30 to 4, for younger children. All those interested, are invited to attend the class, which is conducted in conjunction with the Mountain-side Free Public Library.

The Springfield SUN Stationery Store carries a complete line of gift wrap-pings, greeting cards for all occasions, office supplies, printed stationery and napkins. 8 Plover Ave., 2 doors in from bank - adv.

## STATEMENT TO BORO RESIDENTS

The following letter has been circulated to residents of Mountain-side from Theodore V. Mundy, president of the Mountain-side Community Association:

"Since the declaration of war by Congress, our Mayor, John Moxon, has received numerous requests for funds from various war relief agencies. Mayor Moxon has requested the Mountain-side Community Association to act as the Borough committee to collect such funds. Accordingly, we have selected from the many appeals those which, we felt, most merited our support. "The people of our allies are in the front lines; we of the United States are still enjoying the comforts of home. It is right that we should be called upon to lead, clothe and keep up the morale of our allies. Aside even from humanitarian impulses, to give to these relief organizations is to strengthen one of the major bastions upon which our own safety depends."

"American men and women who have joined the armed forces are giving everything. It is up to us to give something to keep them happy and to keep their morale fit for the fight. National organizations need funds to keep up their programs and it is our welcome responsibility to keep this work going."

"At home we have our local organizations to support, more important today than ever. Our Boy Scouts, Girl Scouts, Mountain-side Rescue Squad, Mountain-side Free Public Library and the Visiting Nurse Association must continue their activities. "We have moved our campaign for 1942 funds to October 9-30, hoping that it will be a better time for our people to contribute. Our budget is \$2759.15, approximately \$1000 larger than the amount collected last year. When our representative calls on you, help Mountain-side reach its goal. "Remember our boys, our allies and our town activities."

## Around the Borough

Fred Spitzhoff, son of Mr. and Mrs. Fred Spitzhoff of 28 Parkway was home on vacation from John Hopkins University, during semesters. He is in his freshman year.

Lieut. Alan Thompson, U.S.N., and his wife, formerly of Springfield road, have moved to Brookfield, where they will make their home for the duration of the war. Lieut. Thompson, former Mayor of the Borough, recently resigned as borough attorney.

The Mountain-side Christian Group met Friday evening at the home of Miss Doris Pittenger of Central avenue, with Mrs. George Danenhour as guest speaker. The group, which is affiliated with the Mountain-side Union Chapel, will meet this evening at the home of Miss Myrtle Messina of Parkway. The speaker will be Robert Brokaw.

The Ladies' Aid Society met last Wednesday afternoon at the home of Mrs. George Danenhour of New Providence road. Assisting hostesses were Mrs. Russell Knapp, Mrs. John Cory and Mrs. M. Powers Chaitin.

## More Books Added To Mountain-side Library

MOUNTAINSIDE - At a meeting of the Library trustees Monday night, it was reported that 11 new books have been added to the pay shelf and 7 books removed from the seven-day shelf into the general library section. Mrs. John Moxon, president, presided.

Mrs. Fredericks submitted a report about the purchasing of adult books and Mrs. Daniel Waters, librarian, reported circulation during the past three months as follows: July, 660 readers; August, 552 readers, and in September, 661 readers. It was also noted that the magazine circulation showed an increase.

Our men need tanks, ships and guns. The steel for these must be made from 50% scrap metal. But the Nation's steel mills don't have enough scrap on hand to last even 30 days more! Keep 'em running. Help build up a huge scrap stockpile - the bigger the better.

Go down into your basement - your storeroom. Climb up to the attic too. Look at the unused stuff you're sure to find, and realize how important these odds and ends can be.

Important to a kid half way around the world. Important to a blue-clad goby - to a flyer, racing to reach the target before some knifing Messerschmitt can find its mark.

That old metal means steel for these men. And steel means armor plate for safety - weapons and ships for Victory.

Without it they'll die. They're not afraid of that - but it's better to give a life for a cause than to be sacrificed by thoughtlessness. And it's better yet to live, knowing that the folks back home didn't let them down.

And we won't let them down! Monday starts our big scrap collection drive - and you're going to help make it a good one. Don't let up because you see a full junk yard or a brimming salvage depot. That's the way they've got to be to make sure the mills won't run out!

Here they come, healthy and hungry and you have a meal ready for them - a nourishing and appetizing meal. Like all modern mothers, you pay particular attention to nutrition. You leave nothing to guesswork. You make certain your children have a properly balanced diet. You see that they get the vitamins and minerals and proteins they need. If you would like food charts, new menus or new recipes, call our Home Economics Department.

You cook with gas, don't you? Then stop a moment and think of this: gas is used in factories to make bombs and shells and other fighting equipment. Gas is one of our weapons of war. DON'T WASTE IT.

CIBA CO-EMPLOYEES RECEIVE MINUTE MAN FLAG AND MINUTE MAN BANNERS

The greatest call for woman power in war time Red Cross is for the production of surgical dressings. There are now more than 200 women who make up the groups appearing each day and two nights a week at the workroom in the Methodist Church, to fold these dressings or surgical sponges, made of gauze. The attendance is slimmer in the morning hours, and probably this is a condition which prevails in every Red Cross workroom. Wednesday afternoon a very large group was present, and its they represented a considerable portion of the total number, they were requested by Mrs. Lewis F. McCartney, their chairman, to assist her in making a selection. Mrs. McCartney has felt since the room was first opened that her workers should have a creed, which, hung on the wall, would keep in their thoughts as they sit at the long tables, the ideal of a service motivating their task. Accordingly, she asked the pastor of the Methodist Church, Rev. Charles P. Peterson, to formulate a creed. Mr. Peterson wrote not one, but three, and these were submitted to the workers. The following was unanimously chosen:

YOUR RED CROSS

In unity, friendliness and helpfulness, we gladly give our time and service to the great humanitarian work of healing and helping those who are victims of war and disaster.

SCRAP METALS VICTORY
Singapore, Ceylon, Bataan are deep in the sorrowful tradition of "too little too late." Get your scrap materials out of the cellar, attic, or garage so when an American boy in Africa, the East Indies, and the Atlantic reaches for a gun, a bullet, or a protective shield, he will have it.

KEEP 'EM LOADED
An empty ammunition box on the battle line may mean an empty place at the family table. Root out your scrap so American fighters everywhere will have the materials they need for victory.

Somerville High To Oppose Regional At Home Grid Tomorrow

The regional gridlers will hold their first home game of the season tomorrow afternoon at 2:30 when they play hosts to the Somerville eleven. While many have played before with the squad this season, Coach Le Godwin's boys will be seeking their first victory of the season, having already dropped games to Bound Brook and Cranford.

CRANFORD scored in the second and fourth quarters Saturday, as they outclassed the Bulldogs, 13-0. Bob Poelz, quarterback of the home team, accounted for both touchdowns.

## Back up Your Boy—and OUR Boys—with War Bonds!

**A**MERICA'S on the march. And in the ranks is your boy, or the boy of a friend of yours, or someone you know.

You want to give these boys everything you've got—so that they can give the Axis everything *they've* got.

How can you *do* this?

You can forget "buying as usual." Sure, maybe there'll be scarcities. But we're all in the same boat—and the quicker we win, the sooner those scarcities will disappear.

You can keep the boys from coming back to

a country where the price of living has gone sky-high because of inflation—*by putting ten per cent of your salary every week into War Bonds.*

Listen. When you can really put that money to use, it'll be there—with interest. It'll be there with interest any time you really need it during the next nine years and ten months. And the interest—don't lose sight of *that*—is 2.9 per cent. Where else are you going to get a return like that?

The banks would love to buy these bonds—it's more interest than *they* can get. But these

War Bonds are for you and only for you.

Meanwhile—while they're protecting you against want, against inflation, against the future—they're building bombers and tanks and ships and everything we need to get this war won fast.

When you've bought a Bond—and when you're buying regularly—when you're thinking war in everything you do and doing everything you can to win it, you can look a soldier or a sailor or a marine straight in the eye and say, "Brother, I'm fighting, too!"

### 5 Reasons Why

① By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.

② You prove that you are a patriotic American.

③ You aid the morale of our fighting men, by showing them that the entire Nation is behind them.

④ You prove to our enemies that we are a United People.

⑤ You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's *safest* investment, by buying a share in the world's most powerful country.
