BETTIQUETTE SAYS

MISCELLANEA: A New Jersey grandma, Mrs. Mabel F. Dilks, has been selected as finalist in the national conservation cooking contest, sponsored by the American Grandmas' Association, in cooperation with the government's nutrition and conservation programs. It was announced today. The novel competition was held throughout the country to prove that grandmas are as good cooks as ever and that all housewives can learn about conservation from their grandmothers.

Thousands of New Jersey grandmas were invited to send in their favorite old-fashioned molasses recipes and non-grandmas were asked to submit their grandma's molasses dishes. Over 20,000 entries were received in the nation-wide contest. Molasses being rich in Nature's iron... and at the same time one of the best substitutes for sugar, it was decided to give the awards on the basis of the best grandma's old fashioned molasses recipes entered.

Mrs. Dilks' prize winning recipe is for a "Molasses Pound Cake." It is one that is a perfect sugar-saver. The recipe is as follows: MOLLASSES POUND CAKE

Here is Mrs. Dilks' prize-winning recipe for Molasses Pound Cake—a delicious and unusual pound cake made with old fashioned, unsulphured molasses. It is richly laden with fruits and flavored with spices—it will please the most discriminating taste.

Keep this recipe handy when you need a cake for some special holiday or festive occasion—it would make a grand wedding cake.

1 cup old-fashioned, unsulphured molasses 2/3 cup butter 2/3 cup milk 1 cup seedless raisins 1/2 pound citron, cut up (or part orange and lemon peel, candied) 1/2 cup nuts, broken 1 teaspoon vanilla 1/2 teaspoon baking powder 1 cup sugar 2 eggs, beaten 1 cup seeded raisins 1 cup currants a few dill weed up 1 teaspoon cloves 1/2 teaspoon salt 2 cups flour

Method Cream butter and sugar; then add eggs, one at a time. Stir dry ingredients. (Keep a little of the flour aside to flour fruits). Mix molasses and milk together. Add dry ingredients alternately with molasses solution. Mix batter smooth.

Mix fruits and nuts together with some flour, and add to batter. Bake in well-buttered pan lined with paper.

Madam Marie Feytit Funeral services for Madam Marie Feytit of 92 Battle Hill avenue, who died Wednesday at the home of her niece, Mrs. Bartlett Moore, with whom she lived, will be held at the Howard Funeral Home, 809 Lyons avenue, Irvington, this morning and mass will be held at St. James Catholic Church. Burial will be in the Greenwood Memorial Cemetery, Kenilworth.

Madam Feytit, a citizen of France, came to the United States eight years ago. She was born in Bordeaux, France, in November, 1865. Besides Mrs. Moore she leaves a sister, Madam Rose Rouquet of 69 Battle Hill avenue, and two granddaughters, the Misses Colette and Arlette Moore.

Mary Galvin Completing Work in Montclair State

MARY E. GALVIN

Miss Mary E. Galvin, daughter of Mr. and Mrs. Edward J. Galvin of 98 Tooker avenue, will graduate tonight from Montclair State Teachers College. The commencement exercises will take place in the Mount Hebrew Auditorium, Montclair. Baccalaureate services were held Sunday at the Presbyterian Church in Montclair.

Miss Galvin will receive a degree of bachelor of arts. She majored in science. A graduate of Regional, she was active at Montclair State Teachers College in the band, Science Club, Women's Athletic Association and is a member of the Kappa Delta Pi Honor Society.

Recognition Given To Malory Algebra-Text Dr. Virgil S. Malloy, head of the mathematics department at Montclair State Teachers College, has had his algebra textbook selected by the Army Institute for use in rehabilitation courses among soldiers who wish to continue their education. It is interesting to know that Dr. Malloy's text book is used at Regional High School.

Dr. Malloy's text was selected on the basis of its self-teaching features. The new edition of "First Course in Algebra" published by the Benjamin Sanborn Company will be put out in workbook form for Army use, and the edition will be flexible so that it may be carried easily. The self-help workbook will replace the correspondence courses which have been made difficult by the fact that so many men and women are now in overseas duty.

Leaks are usually not isolated accidents but symptoms of all-over deterioration of an old roof. This is one of the many reasons why a complete new roof such as asphalt is advisable as soon as the first leak is noticed.

Unattended leaks may seriously damage interior furnishings and the house structure. Workmen removing old, leaky roofing, frequently find that the wood substructure of the roof has been badly rotted. Walking on an old roof to patch it, often starts new leaks as old, dried out shingles split and loosen their nails.

Meeting Held Yesterday By Bible Study Group The Bible Class of the Ladies' Benevolent Society of the Presbyterian Church met yesterday morning at 10 o'clock at the home of Mrs. Peter Meisel of 81 Morris avenue. Mrs. Harry Marshall of Summit is the group leader. "Gospel of St. John" is the text under study. The group plans to take a chapter each week. Mrs. Marshall is an active Christian worker.

On Mondays and Tuesdays she conducts Bible classes for children in the morning. On Wednesdays there is morning prayer for men in service in her home. On Sunday evening a neighbor's service is held in her home in which members interested in a Sunday evening religious service participate. This is held because the Churches of Summit do not have Sunday evening worship services.

The Springfield group will meet Thursday at 10 o'clock at Mrs. Meisel's home to continue their studies.

HIGHER TAX RATE LOOMS AHEAD Mayor Moxon Sees OPA Pleasure Driving Ban As Cutting Down Revenues, Offsetting Any Drop

MOUNTAINSSIDE—A drop in revenue from tavern licenses and anticipated decline in court fines and penalties, combined with predicted higher local school and Regional school tax levies, will probably bring about a higher tax rate this year, Mayor John Moxon pointed out to the Borough Council Tuesday night.
Reversing his stand of New Year's Day when he said he looked for possibly a slight tax rate drop, Mayor Moxon explained that the OPA pleasure driving curb in the meantime produced complications which were not taken into consideration at that time.
"With traffic on Route 29 down to a trickle and few patrons at local roadhouses and night clubs, the possibility exists that the borough will face the risk of securing lower income in liquor licenses. In 1942, the borough received \$5,500 in revenue from this source and while 'we won't lose all, we will lose substantial amount,' he went on to say.
"There was \$1,600 realized in fines and penalties in the Recorder's Court," he added, "which we hope to cover."
Then he cited additional Regional High School appropriations, an approximate \$2,000 rise in the local school levy due principally to salary increases, and higher county and State taxes as further contributing factors.
A temporary budget totaling \$20,172 was adopted to cover expenses of the first quarter of the year. The Council ordered idle funds, not in excess of \$11,000 invested in 1-year obligations of the U. S. Treasury, to be redeemed in December of this year.
Chief Charles Honecker reported that the new police car, a 1942 Mercury club sedan, was ready for use. It replaces a model which has traveled almost 60,000 miles. Earlier in the meeting, a check of \$9.19 was received as a safe driver insurance award, indicating the police vehicle had gone through the year without any claims.
Charles J. Wadas and Mrs. George Force were appointed for 3-year terms to the Board of Health by Mayor Moxon. Herman Honecker was named for a 1-year term on the Planning Board and the following special officers were reappointed: Wallace Vinkler, Charles Herrick and George Brahm.
Request of the Rescue Squad for \$175 toward insurance costs of the borough ambulance in the 1943 budget was referred to the finance committee.

Lindentfeller Renamed As Rescue Squad President

The Mountainside Rescue Squad at a recent meeting re-elected their entire slate of 1942 officers.
Organizational officers include: Joseph Lindentfeller, president; Austin Johnson, vice-president; W. Rainier, treasurer; and Richard G. Keller, secretary; while those in charge of field operations are Richard G. Keller, captain; Joseph Lindentfeller, first lieutenant; and Joseph Holzhauser, second lieutenant.
The group meets the first Monday of each month at 8 p. m. at Squad Headquarters. In 1941 transportation cases constituted one third of the total calls, but the number of cases rose to fifty per cent of the total in 1942 showing not only an increased use of the ambulance facilities for transportation but a decrease in the number of accidents.

Possible Budget Raise Discussed By Taxpayers

MOUNTAINSSIDE—The Mountainside Taxpayers Association Wednesday night discussed the possibility that the borough tax rate for 1943 may show a rise, due to the loss of revenues derived from tavern licenses and court costs, as caused by the curb of pleasure driving.
Wilford Twyman told the gathering, which drew an attendance of ten directors and many members, that Mayor John Moxon explained at the Council meeting this week that whereas it had been thought possible to maintain the tax rate or even show a slight drop, that the recent OPA order had a decided effect upon the finance situation.

Four Youths of Borough Eligible For Service

MOUNTAINSSIDE—The sixth registration conducted by Selective Service Board of Westfield which covers Mountainside, reveals that four borough youths have become 18 years of age and are eligible for induction into the armed forces. All were born between July 1, 1924 and December 31, 1924. It has been announced. Names of local registrants are: Charles Thomas Boyton, Summit road; Charles Albert Honecker, Locust avenue; Howard James McDowell, Walnut avenue; and Peter Ferdinand Abella, Route 29.
There are 84 youths in the district, other registrants being 51 from Westfield, 25 in Scotch Plains and 3 from Fairwood.

High School Active In Federal Program

The Dayton Regional High School is co-operating with the United States Department in the program submitted to all high schools in the country, the Schools at War Program.
A War Scrapbook is being kept in which there is a report of all the war activities of the school. There are three divisions of the Schools at War program, shown in the slogan—Save, Serve, Conserve.
Under the topic Save, the school is collecting scrap and promoting the sale of War Stamps.
As part of the program to Conserve, the Hostess Club and the Home Economics department are studying ways of conserving food and substituting for necessary products. Also, the sewing classes are learning how to remodel clothing, and how to conserve material generally.
Under the heading Serve come the varying services of the whole school. Red Cross groups are knitting for soldiers and sailors. In case of an Air Raid, first aid groups and messengers have been established.
Pre-induction courses are now offered the students preparing to join the Armed Services. These are a Radio Course taught by Lawrence Hall, an Auto Mechanics course by Henry Holz, and a course in Aeronautics instructed by Harold Stephens.
The art department has made menus and favors for ships and hospitals, and has been busy in the sending of over 125 packages to the U. S. O. at Wrightstown, and 100 packages of cookies to Camp Kilmer.
Phogela—a committee for this activity, supervised by Miss Kay Johnson, head of the Art Department.
It consists of Laura Morrison, Springfield; Edith Kramm, Springfield; John Kundrat, Gorwood; Harry Speicher, Springfield; and Fred Bellevue, Springfield.

Resolution Adopted On Hoppaugh Death

The Township Committee at their regular meeting Wednesday night adopted the following resolution on the death of the late Rev. William Hoppaugh, former treasurer of the Township of Springfield:
"Whereas, Rev. William Hoppaugh, former Tax Collector and Treasurer of the Township of Springfield, recently passed away; and Whereas, the death of the late Rev. William Hoppaugh, former treasurer of the Township of Springfield, in the County of Union, that it is the feeling of the Township Committee that the passing of Rev. William Hoppaugh, for many years Tax Collector and Township Treasurer should not go unmarked, for the Township of Springfield for many years had the benefit of his loyal, faithful and efficient services as its collector and treasurer, and the abiding integrity of the deceased not only served the Township in its municipal affairs, but likewise enriched the life of the whole community, and it is with deep regret that the Committee notes his passing, even though it be in the fullness of years and
"Be it Further Resolved that a copy of his resolution be spread upon the Minutes."

GAS

A VITAL WAR FUEL

IT MUST BE CONSERVED!

THE WAR PRODUCTION BOARD of the United States Government has requested this company to warn all its GAS customers to conserve GAS FUEL. It is an important war fuel. It is necessary that every means be taken to CONSERVE GAS in all its domestic uses.

Gas for cooking, refrigeration, water heating and house heating is made in part from OIL—a fuel which must be conserved because of its critical shortage in this area.

Therefore—your Government asks you to cooperate in every way you possibly can.

HERE ARE EFFECTIVE WAYS TO Conserve Gas IN YOUR HOME

COOKING

1. Use your gas range for cooking only—not for heating rooms. Try to cook with 25% less gas.
2. Use burners as little as possible—cook as many meals as possible on ONE BURNER. Turn burner down when boiling starts. Turn gas off as soon as cooking is finished.

WATER HEATING

4. Don't waste hot water. Never turn on a hot water faucet unless hot water is really needed. Repair any leaky hot water faucets. Try to use 50% less hot water.

HOUSE HEATING

5. If you heat your house with gas—watch that thermostat! Keep the setting no higher than 65 degrees, and lower at night. Don't use gas for auxiliary heating.

A WEEK OF THE WAR

A summary of information on the important developments of the week made available by official sources through the Defense Advisory Committee of the National Editorial Association.

President Roosevelt will soon send to Congress information and data on his proposal that social security be extended to cover every American "from the cradle to the grave." He told reporters there is no controversy as to the objective of the program, but it will be up to Congress to work out the method for achieving that objective.

In his State of the Union message on January 7 the President had spoken of the Third Freedom—Freedom from Want—and of what the young men and women of America want beyond the winning of the war. In addition to the opportunity for employment, the people want assurance against the evils of all major economic hazards, an assurance that "this great Government can and must provide." It is possible, he continued, that this will loom very large as a task of America during the coming two years—a task for the nation to study sympathetically and to work out with fairness to all and with injustice to none.

Production

The President said the United States has reason to be proud of the war production accomplishments of 1942: 48,000 planes, 56,000 combat vehicles such as tanks and self-propelled artillery, 670,000 machine-guns, 21,000 anti-tank guns, 10,250,000 rounds of small arms ammunition and 181,000,000 rounds of artillery ammunition—"The arsenal of democracy is making good."

A joint statement issued earlier in the week by the War Department and the Navy said the revised 1943 war production program anticipates munitions production double that of 1942, with heavy emphasis placed on aircraft, merchant shipping, and naval escort and combat vessels. As revised and adjusted to fit our actual strategic plans, the program provides for about twice as many planes as built in 1942, more than twice the merchant ship tonnage of 1942, and considerable increases in naval escort and combat vessels. These are, for the most part, items difficult to make, items requiring large quantities of material, parts, skilled manpower and special facilities.

As for merchant shipping, Mr. Roosevelt told the press, the 1942 goal of 8,000,000 tons was exceeded by almost 91,000 tons. The present rate of shipbuilding is 14,100,000 tons a year, and as things look now the 1943 goal of 16,000,000 tons may even be exceeded.

The War Front

Although Nazi submarines sank fewer American ships in December than in previous months, the U-boat menace, according to OWI Director Elmer Davis, is still very serious. Reports also indicate, he said, that the Japanese are massing a large armada near the Solomons, presumably for another drive on the islands.

According to the Navy's information, there have been no Japanese landings of reinforcements and supplies on Guadalcanal in recent weeks. None of the 10 destroyers which were headed toward the island and intercepted on January 2 by U. S. air and torpedo boats succeeded in getting through the American defenses. On January 6, American warplanes in the South Pacific attacked a Japanese transport in the Shortland Island area of the Solomons and reported a possible hit on the stem of the ship.

From Secretary Stimson comes word that on all fronts the outlook is "favorable." In North Africa, the British First Army has scored gains in the north toward Bizerte, the French have ably fought off German attacks in the southern sector, and Allied aerial activity against enemy shipping has been highly effective. Mr. Stimson interpreted the German position in Russia as grave and pointed out that in the Caucasus a German withdrawal appears to have begun. Turning to the Pacific, he said American and Australian forces have virtually completed ejecting the Japanese from New Guinea Island, and in the Solomons American forces have been reinforced and supplied and their positions strengthened. He pointed out, however, that the Germans and Japanese have suffered few major reverses, and cautioned against underestimating their offensive capabilities.

A U. S. Fifth Army, to be commanded by Lt. Gen. Mark Wayne Clark, is now being formed to fight in North Africa. This will make Lt. Gen. Dwight D. Eisenhower Supreme Commander of two Allied armies, the other being the British First Army commanded in the field by Lt. Gen. Kenneth A. N. Anderson.

The Cost of Living

An OPA report on three typical months of residential rent control gives complete details of how the nation's eight billion dollar annual rent bill has been held in check. Covering the period of August 1 to October 31, 1942, this is the first detailed analysis of the operation of rent control. At the end of October there were 191 defense-rental areas under maximum price regulations, but since October rent control has spread over 306 areas, and now covers more than 76 million Americans. Tenants in these areas are assured of stable rents in 1943 and freedom from fear of evictions.

Moving toward simplified and standardized retail food prices, the OPA has established uniform retail and wholesale markets on nine food commodities—coffee, canned fish, cooking and salad oils, shortening, corn meal, canned citrus fruits and juices, evaporated and condensed milk, pure maple and corn syrups, and flour and flour mixes. Thus every housewife in the principal population centers will now know exactly, in cents per package and per pound, the ceiling prices on these items in her food budget. This is only the initial step said OPA, broader action later on will cover a wide range of products including meat and many staple groceries.

Food Distribution

The Food Distribution Administration is establishing machinery to deal with widespread local food shortages. Since national food supplies are not adequate, these local food shortages are almost entirely the result of maldistribution, and the new program is intended to obtain more equitable supplies of foods until such time as rationing begins. To handle these critical supply problems, Food Administrator Wickard has directed the FDA to organize at once local and State committees, such committees to be composed of Government representatives and representatives of the food manufacturing and distributing industries for the territory concerned, including a representative of each of the food retailer groups and of each type of general line food wholesaler as well as wholesalers of dairy and poultry products and meats. Public officials with marketing functions will be invited to serve as advisers and FDA officials will serve as chairmen.

The plan and procedure, as outlined by FDA Administrator Hendrickson, provides for the committees to establish publicly announced headquarters, to receive and investigate food shortage complaints from consumers, dealers, institutions and organizations. The aim will be to give one-day service to verify complaints, such verification to determine whether actual critical shortages of essential foods exist.

If the situation cannot be corrected locally, it will be referred to the FDA State chairman who will try to obtain supplies elsewhere within the State. If it cannot be corrected within the State or at the regional level, it will be referred to FDA headquarters in Washington. FDA headquarters will then deal with appropriate national trade or industry associations. And in view of the success of recent arrangements with the American Meat Institute and the others of similar cooperation by other industries, the FDA believes this can be an effective means of meeting the more critical problems of shortages.

Meanwhile, manufacturers of creamy butter have been directed to set aside for direct war requirements 30 per cent of their monthly production, beginning February 1. Purpose of the order—Food Distribution Order No. 2—is to obtain sufficient supplies of butter for the needs of the armed forces and for minor export to Allied nations. After January 9, the production of all citrus juices, except concentrated grapefruit juice, will be reserved for war requirements. This is Food Distribution Order No. 3, and its purpose is two fold: to insure adequate supplies of canned citrus products for Government war requirements and to conserve the by requiring civilians to use fresh citrus fruits instead of canned fruits.

"A Week of the War" summarizes information on the important developments of the week made available by official sources through 2 p. m., EWY, Friday, January 8.

Pictures of Students Being Shown at School

The Student Council of the Jonathan Dayton Regional High School has as its project the forming of a display of regional students and alumni in service to be shown in the display case in the front hall of the school building. The case holds forty pictures. They will be on display for two weeks, and then more pictures will be substituted. The arrangement of the case will be handled by the Art Department. The special committee appointed to work on the collecting of these

pictures is as follows: Gerald Wells, chairman, Springfield; Phyllis Bunell, Springfield; Doris Lamb, Springfield; Shirley Heltkamp, Mountalido; Marge Geiger, Springfield; and Richard O'Neill, Springfield.

Regional Scared By Union Five, But Wins

Union High threw a scare into the ranks of Regional's basketball followers at home Monday afternoon as they held an 8-point lead at one time in the second quarter, but the locals rebounded to win out in a fine third period rally and won, 29-22. It was the second defeat of the season handed the Farmers by Coach Goodwin's squad.

Union held a 9-7 lead in the first quarter and three field goals piled up their advantage to 15-7. The Bulldogs, however, got into their stride and when the half ended, had run up a 13-point strafe, interrupted by a near Union foul shot, to lead at the half, 20-16. The score:

Demonstration Held By Consumer Group

The first session of the Consumer Interest Committee of the Springfield Defense Council, National Program, was conducted Monday afternoon in the Raymond Chisholm School by Miss Helen Rolly, home consultant of the Public Service Electric and Gas Co. of Summit. Miss Rolly gave an interesting and educational demonstration consisting of a complete dinner with a choice of the main course, as follows: Baked lima bean casserole or oyster stew, carrots, tossed salad, home made oatmeal bread, frozen peaches with whip cream, (evaporated milk-whipped). Thirty women and one man attended the demonstration, and it is hoped that by the next session Monday at 3 P. M., when Miss Rolly will conduct the second session, the attendance will be greatly increased. Pre-school age children will be taken care of and entertained at the school. Miss Rolly's

- YOUR RED CROSS -

A meeting of the committee on nursing activities was held in the headquarters room on Tuesday afternoon. Mrs. Stephen Windisch presided as chairman. Mrs. Charlotte Holman, regional director of nursing, was present, as were Mrs. Morris Lichtenstein, chairman of home nursing instruction, Mrs. Frank C. Geiger, Mrs. Robert D. Trout, Mrs. Charles Phillips, Sr., Mrs. Ralph Titley, Mrs. Henry C. McMullen and Mrs. Charles D. Horster.

As announced by Mrs. Lichtenstein, classes in home nursing are now being formed to meet on Monday evenings and Tuesday afternoons in the Town Hall. Sessions are for two hours. The course covers 15 sessions. It is advised that when calling the Red Cross, Millburn 6-2093, to register for either of these classes, information be given as to the number of persons in the applicant's family; and if there are small children, their ages should be stated. With this advance information, the instructor is prepared to plan the course to fit the needs of her pupils.

SUGGESTIONS FOR NO-MEAT DAYS

By MRS. MARY W. ARMSTRONG, Union County Home Demonstration Agent. Although fish may not be so plentiful these war days as it has been in other winters, there is still a good supply for use when meat will not be served at the family dinner table. Fresh water fish, salt water fish, shell-fish, pickled fish—there are so many types available that you could serve fish seven days a week and still have various menus. But since that's not likely to be the case, let's plan to include a good fish dish at least once a week. Fish may be boiled, baked, broiled or fried. It's a time-honored favorite "as is," of course, and it makes savory chowders, creamed dishes, puddings, pies, croquettes and scalloped dishes. Salt water fish served once a week insures an adequate quantity of iodine—something not readily provided by most other foods. Protein next Monday will be "The Victory Platter."

At the conclusion of the session, names were drawn and prizes. The winners were awarded the cooked food. Names drawn were: Mrs. Celia A. Landers, beans; Mrs. Marie Slander, oyster stew; Mrs. Doris Hunt, oatmeal bread; Miss Ruth Michaelson, salad; Mrs. Roland W. Nye, peaches and cream; Miss Ruth Kimmeler, carrots—consolation prize). The public is invited to attend.
