OF THE PEOPLE BY THE PEOPLE
AND
FOR THE PEOPLE**

FELLOW CITIZENS:

Springfield is over 200 years old, and rich in historical background. Many years ago the town included in its boundaries not only our present municipality but also what is today Summit, Short Hills, Millburn and Maplewood. These offspring communities have gone ahead while Springfield has mostly stood still. Standing still is not the worst that could have happened; we must not slip downhill.

Springfield in recent years has grown. Unless you were born in the town or brought in as a child, the place must have strongly appealed to you to move here. The strongest appeal has been the fact that it is a solid, middle class, residential community ready to do more than its share in any worthy endeavor. Most of us are buying our homes and have no desire for cheap development or undesirable industrial expansion. Let us preserve these advantages by electing persons to the Township Committee whose records show they have sufficient knowledge and experience of public service and have the real interest of all the people of Springfield at heart.

Springfield is a business; in fact it is a six and one-half million dollar corporation (1943 assessed valuations) operated by a board of five directors and each taxpayer is a shareholder. Let us then protect our interests by electing directors most capable of running a six and one-half million-dollar corporation—let us elect men without selfish interest and without obligation to any individual or self-serving group. Elect Nulph and Phillips.

CHARLES PHILLIPS
23 Years Home Owner and Taxpayer.

HARRY B. NULPH
7 Years Home Owner and Taxpayer.
3 Years' Service as Member of Board of Education.
2 Years Treasurer Local Parent-Teachers Association.
30 Years Telephone Equipment Engineer for the Bell Telephone System.

Phillips and Nulph Stand For:

- 1. PLANNING**—Charles Phillips during his present one year term has sponsored and succeeded in introducing an ordinance creating a Planning Board of seven members in accordance with the provisions of New Jersey Revised Statutes. The Statute requires that two members be the chairman and a member of the Township Committee. The third must be a town official (usually the town engineer) and the other four are chosen from the citizens at large. In addition the ordinance provides for an advisory board of citizens representing all groups and sections of the town. We will work to maintain a board and advisory committee composed of members with vision and progressive ideas.
- 2. COOPERATION WITH THE BOARD OF EDUCATION**—Harry Nulph as a member of the school board completed a study of the possible future need for school facilities for the entire township. The results of this study were presented to the school board and town committee early this year with recommendations that three parcels of Town owned property be reserved for future school sites. These recommendations have been favorably acted upon by the Township Committee and property for future schools will be available when needed without additional burden to the taxpayers.
- Harry Nulph has also recommended that our present school grounds be enlarged to provide for additions known to be the most economically operated plant and to further provide proper playground facilities. Matters of education are properly in the hands of our very capable Board of Education in whom we have full confidence.
- 3. LOWER BUS FARES TO UNION—AND SUMMIT**—A great many of our citizens find it necessary to travel frequently to both of those towns. The present ten cent fare is exorbitant and discriminatory. We will work for a five cent fare.
- 4. FLOOD CONTROL**—We pledge a continuance of the efforts in the past few months of the present township committee towards the control of flood waters within the town.
- 5. INDUSTRY**—Realizing that Springfield has reached the place where there is a definite and immediate need of a cooperative trade organization to advance the advantages in and for business and industry in our community, we therefore, urge the organization of a Chamber of Commerce, or Board of Trade. Such a group would be of inestimable value in improving our business area and obtaining desirable industry acceptable to our citizens. We pledge that we will initiate a complete survey of this all important problem to the end that a Chamber of Commerce or other Board of Trade shall be organized.
- 6. COMPLETE REPRESENTATION**—The election of Harry Nulph and Charles Phillips will give each election district a member on the Township Committee otherwise the representation would be: First District—1, Second District—2, Third District—NONE, Fourth District—2.
- 7. MEN AND WOMEN IN SERVICE**—We promise them to preserve and protect their and our community so that they shall not be disappointed when they return but will find Springfield a happier and better place to live. We promise this sincerely and not for the purpose of vote-getting thru flag-waving. We will not capitalize upon the service of others.

We stand before you as men with personal experience in public affairs without obligation to any individual or self-serving group. We do have a great many supporters, your neighbors as well as ours, persons who have worked without reward for the betterment of Springfield. We trust we can count you as one of these on Primary Day.

Unique Gift Ideas For Xmas Overseas Boxes At Frankin's

The fall season brings a new crop of surprises. What with the Third War Loan Drive and the necessity of mailing Christmas packages before mid-October, one must be prepared for any emergency. The two-way stretch cord has gone into deep throats. So ingenious substitutes are available. B. H. Frankin, Inc. has giraffe anchors to hold your stockings up or your girdles down. In other words, you can use these anchors without stockings or without giraffe. The girl overseas would really appreciate one of these anchors tucked into her Christmas parcel. For the actively fighting patriots, and our home front workers, whether they be in industry, or at home, B. H. Frankin's has dozens and dozens of the hard to find items. Metals are in neck-ack jeans—but there are a few snaps, hooks and eyes and safety pins to be found there. Knitting needles, even double pointed ones, which are used for the socks and helmets that the Red Cross and our own unique Refugee Relief Workrooms need, so badly (wool for you to knit into these and other articles may be bought there too).

Defense workers have relinquished some cotton fabrics for household in these "days of doing our own work." There are giddy aprons in many styles, hues and sizes. These make working really fun, especially if we use the scientifically treated Ritx cloths for windows and silver.

To get back to those Christmas packages that are going overseas to friends and relatives, in addition to the War Bond watch will be sent, enclose an Army or Navy sewing kit, money belt, cigarette case, play cards, writing kit, comb and some of the other items suitable for both sexes. For your daughter, sweetheart, or wife overseas, Frankin's will be glad to spare a package of baby pins, hair pins and hair nets. Furthermore, a ray all-wool sweater or frivolous blouse should be included.

Uncle Sam has been generous this year in allotting a considerable amount of wool for we non-uniformed fighters on the home front. So put your clothing allowance into a real good wool skirt or two-way plaids, men's wear flannel, all in 100% wool! To top off the skirt, Frankin's have a galaxy of sweaters, like the variety of sweaters of long or short—that is, the sleeves are long or short; styles are pullovers or cardigans. They have one to meet everyone's needs, whether young or old, fat or thin, tall or short, working in or out of the home.

B. H. Frankin, Inc. will be glad to sell you all of these items and many more including War Stamps to help the Third War Bond Drive.

3-Way Duty Shoes For Home-Front Use At Summit Shoe Shop

When neighbors chat of Home-Front activities, the talk often turns to feet and shoes. Both get a strenuous workout—so shoes must do three-way duty. They must take care of feet through the use of correct lasts. They must fit to perfection for walking ease. Their quality must be the enduring, ration-stretching kind. Fona Jetticks, a complete line of which are first stock at the Summit Shoe Shop, 444 Springfield Avenue, are such shoes and they're walking in victory by the hundreds of thousands on the feet of American women.

The Summit Shoe Shop carries the Junior-Boh Shoe for growing girls, a lower heel type shoe, attractive and yet suitable and practical for the Junior Miss.

Children and babies will have their shoe problems admirably solved by the well known Dr. Posner's walking and dress shoe in stock at the Summit Shoe Shop, which is suitable for every occasion and prepared to give hardy service during ration times. Boy Scout shoes for the sturdy school boy are guaranteed to take the roughest, toughest treatment of the young man of today.

Fitting the growing foot is acknowledged to be a very important factor when buying children's shoes and the Summit Shoe Shop is ready to help you the correct sized shoe for your youngster with the aid of their X-ray machine. Any adult with a difficult foot too, will also find this an expedient measure. Men will find satisfaction with the Mansfield and Bostonian, durable, well known standard brand shoes in stock at the Summit Shoe Shop.

Good news is the fact that there is a nice selection of non-rationed rubbers and galoshes for children and men and women at the Springfield Avenue shop as well as a wide selection of bedroom slippers. Buttoning the buttons and zipping the zippers on your wooleens when you hang them up will keep them in shape and cut down the need for pressing.

Bed socks are a bit of cozy comfort for cold winter nights. Make now in all styles and sizes, they're worth your investigation.

ALL WOOL, ALL WONDERFUL, ALL-DE LEON

Everything's right about these new deLeon sweater classes... the necklines, the shoulders, the soft-as-down doleam 100% pure wool, the fancy new fall colors... and there are 26 of them. "Boxie," left, hand-fashioned, hand-sewn, \$4.98. "Campus Cardigan," right, \$5.98. It's the deLeon Shop for Summit's largest assortment of sweaters.

Kresge Features Fashions, Not Fads, In College Clothes

Fashions rather than fads are apparent in the collections of clothes catering to the college customers this year. Prominent in the Kresge Department Store's "third floor of college fashions" are the classic casual dresses to wear to classes or informal dates. These are especially popular in the cozy kind of materials, such as the rabbit's hair-and-cashmere pictured, and in rayon gabardines. Sporty corduroy frocks and wide-tailed jackets have a wide appeal, too, while crepe dresses, usually with a feminine trim of ruffles or bows, still hold their place as date favorites.

Rivalling the perennially popular plain or plaid skirts this year are slacks of increasingly smart tailoring. These come in checks, plaids and plain colors and are designed to flatter trim, youthful figures. They are worn on campus, too. There is no doubt of course, that skirts are popular for the post-teen-agers. Their complementary sweaters or shirts do double duty with skirts, as do the matching or contrasting jackets. One particularly good looking pair in a fine check boasts its own matching vest.

Tailored suits, the good kind that wear through college days and on into business, are among the most important current campus demands.

Four-Piece Suits For City and Country By Madame Delia

One costume to carry you through the entire week-end is something every woman has dreamt about but seldom considered attainable. Madame Delia, couturier, located at 333 Springfield Avenue, offers not one, but two such outfits. One for

This Year's Frocks Are Slim and Svelte

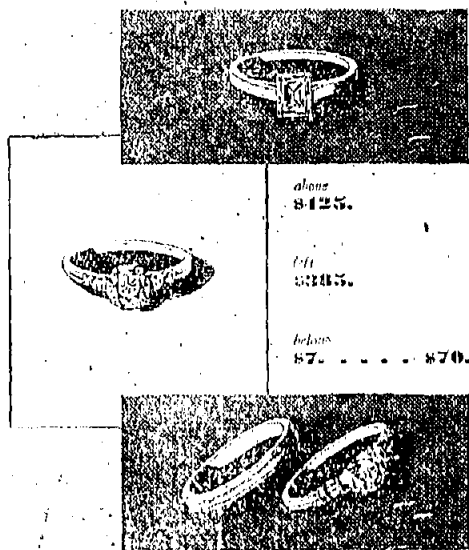

The slim silhouette of the twenties has returned for practical as well as fashionable reasons. OPA regulations governing the amount of material to be used in dresses have eliminated the full, draped skirts so popular for the post-teen-agers. The well dressed woman of 1941 will wear a svelte, close-fitting frock with modified drapery for figure flattery.

Sleeves are short caps or the popular elbow length. Touches of gold and sequins add brilliance to the season's dressier frocks.

Fifty thousand patriotic women are needed in our war factories. Our men have gone to war.

YOUNG, FLATTERING, EXTREMELY WEARABLE

city week-ends and another for the country.

For the city, Madame Delia has designed a black crepe suit which she calls her "twenty-four hour" dress. With the short skirt it is "bright" from morning shopping, through afternoon cocktails. Cut in simple figure-flattering lines it is the basic dress so vital a part of every wardrobe.

The blouse with a dainty collar or frilly jabot, adds the feminine touch Madame Delia considers so necessary in any costume not for active sportswear. This blouse, worn with the longer skirt is ideal for dining at home. By slipping off the jacket you have a creation perfect for the theater and Manhattan's gayest night spots.

For the country, Madame Delia suggests a woolen suit in plaid or solid color with matching slacks. A suede vest or jerkin in contrasting shade adds the warmth so necessary in these days of gas and coal shortages.

Hats and accessories to suit the costume and the individual are a special feature of Madame Delia. Now, with time so precious, no woman can afford to shop around for days in an effort to find the right hat or flowers that match a belt or gloves. This opportunity to obtain a complete outfit in one spot seems heaven-sent to women a war.

Let Liberty Cleaners Save Your Time And Wardrobe

With everyone busy aiding the war effort there's very little time left over. One of the easiest ways to keep your wardrobe in prime condition—ready for any occasion. Despite adverse conditions and wartime restrictions, Mr. Balto has maintained his high level of service and quality cleaning all along. Cleanliness is next to godliness, with neatness running a close second. A well pressed suit may get you that job and it's nice to be sure that you'll have it back on time. The Liberty Cleaners are justly proud of their reputation for prompt, efficient service and perfect garments. Mr. Balto's first desire is to please his clientele and in this endeavor he has never failed.

Life in wartime is filled with problems which are a drain on your time and demand constant attention to detail. If you're sure that you look your best, then your mind is free for maximum efficiency.

This dress is made of wool and rabbit's hair, a soft luscious fabric. The dress is typically Jane Engel, young, simple and extremely wearable. Notice the fine impuato work, the well-fitting gored skirt and the flattering neckline. It's fine in sizes 10 to 20; purple, red, blue or aqua. \$17.95 at Jane Engel, East Orange.

Every woman wants to be attractive and good grooming is more than half the battle. Liberty Cleaners will handle your problems with care and promptness at their branches which are conveniently located at 459 Springfield Avenue in the Strand Building, at the Lackawanna R. R. Depot, and at 639 Morris Avenue, which is the main plant. Sam Balto will be happy to handle your cleaning problems no matter what they are.

Colorful Wooleens From Style Shop Fall Essentials

Bright wooleens of every description are to be had at the Style Shop this season. Colorful plaid skirts are in abundance—and the neatest trick of the year is to pick up the dominant color of your plaid skirt with a sweater to match it.

Pastels in sheer wool are always right and they're here—with no dearth of your favorite color and with a wide selection of styles and weaves. To light up your dark office corner or cheer your spirit on the way to work one of these charming models is indicated.

Tweeds are sturdy, warm, and always in good taste. These are three excellent reasons for investigating the Style Shop's well-chosen stock of suits and coats in various patterns. There's a long, cold winter ahead and the wise woman will choose her wardrobe with this in mind. War jobs and volunteer posts leave little time for dressing and mending so these wooleens are the answer to how to be well groomed in a hurry. They're also rated as fuel savers and efficiency raisers since they keep you warm and able to work your best when the temperature goes below the patriotic sixty-eight degrees.

Everyone is working for the war effort but not all of us do it in overalls and slacks. A few woollen dresses will fill your working wardrobe vacancies with color and variety. This year it's smart-to-be warm and wool is unrated, so be sure you have plenty. Colds mean abstinence and it's easy to avoid them when such delightfully cozy styles are available.

A loose-knit woollen shawl keeps the draughts from your shoulders and is both warm and light. These can easily be made at home from old woollen sweaters, using large wooden needles.

Lillian Furman Advises On Care Of Hair and Skin

Summer sun and sea water cause the natural skin oils to disappear, and it is this dryness, according to Miss Lillian Furman, that causes more wrinkles than anything else. Miss Furman also adds that persons with oily skin are greatly benefited by the same sun that does so much damage to those with normal or dry skin.

Lovely hair is one beauty within the reach of everyone. The regular hairless summer routine added to the frequent wetting of the scalp with salty sea water makes the hair dry and brittle, often burning and bleaching it. Then, when fall permanent time comes, your scalp is in such poor condition to start that to have a natural looking wave is impossible. To remedy these conditions, Miss Furman recommends the Parker-Herhex treatments which restore softness and flexibility, making the hair healthier, easier to set, and infinitely easier to keep well-groomed. Since hair problems arise from many and varied causes, no single treatment can meet the needs of every woman. These treatments are adapted to meet each special need and whatever your case, there is a specific Palmer-Herhex conditioner to fit it.

To counteract the drying action of the sun on delicate skin and thus eliminate the prime source of unsightly wrinkles which add years to the most youthful face, Miss Furman offers facials, designed to smooth away frown marks and lines. The first step towards real complexion beauty is cleanliness that is more than skin deep. Miss Furman carries a full line of creams and cleansers which will stimulate the circulation, promote activity of the pores, leaving the skin fresh and sunny.

Fall fashions demand that you look your best—an impossibility when summer exposure has left your skin and hair dry and lifeless. Soon rough winter weather will be here to complete the havoc so now is the time to take precautions. Flaky skin needs oils and similar preparations to restore its tone. Dull, fuzzy hair needs scalp treatments to make it again your crowning glory. Good grooming is every woman's first duty to herself, especially during these trying days. If you have answered the appeal of the Woman-Power Commission and have gone into the industry, then you know how important it is to save time. A healthy skin requires less care than one in poor condition—a soft tractable permanent takes less time to arrange than one with dry brittle ends.

Miss Furman's skilled ministrations can provide the answer to your beauty and grooming problems. Why not bring yours to now and let her get to work on them?

Important Factor In Winter Shoe-Diet Is Shoe Mileage

It's surprising how pretty a shoe can be when it's a trim, young Gold Cross shoe of rich luxurious suede; a wonderful investment in morale as well as in feet and the kind of mileage that lets you part with your coupon without a pang. For this investment you have to go no further than to Nee Dell's Red Cross Shoe Store, 386 Springfield avenue.

"Take a good look at the shoes in your closet. Decide what type you need to round out your wardrobe. A shoe-diet like most others should be well-balanced. It should include an active duty shoe, a versatile middle duty shoe, a dressy one. Because we live in a walking-working wartime world, insist on shoes with a forget-you-have-feet fit. Besides right length, width, be sure to get a shoe made over the last that conforms most closely to your own individual foot.

Nee Dell is certain that the smart active American women, of which there are many in Summit, will make sure of getting the right shoe this fall and will, therefore, choose America's largest selling shoe footwear, perfect fitting Gold Cross Shoes. Come in, they urge, choose yours from their large selection.

All are cautioned to remember it's a long walk between ration coupons. So choose shoes whose quality you've always been able to count on: shoes made by highly skilled craftsmen of the best materials available. Good shoes give good mileage and that's something you need today.

Also choose shoes, it is stressed at Nee Dell's, that "do something" for your spirit as well as your feet. Even the simplest, trimmest shoe can rave a young feminine air, if the maker "has a way" with the classic shoe, has long experience in combining "good sense" and "good fashion."

Nee Dell's carries Gold Cross, formerly Red Cross Shoes, and Country Club Shoes for Women, White-Ox and Jannan Shoes for Men, and Junior Brown Shoes for Children. In other words, the whole family can be fitted at Nee Dell's Red Cross Shoe Store, 386 Springfield avenue.

COLUMBIA CLEANERS BOASTS NEW, MODERN PLANT

The Columbia Cleaning and Dyeing Co. located on Chatham road pride themselves on still using pre-war methods to clean and care for your clothes. "Only the best is used in our new, modern plant," says George Boorady, manager. A special feature is the cold storage plant where many Summerites keep their winter clothes safe throughout the summer.

Window Shop Shows Full Line of Fall Drapery Styles

The fact that the Window Shop, 25 Maple street, has a full selection of curtains is in these times a real boost for priorities have made life difficult for those handling materials. Wise and planned fore-

thought, however, enable the Window Shop to serve their customers this fall and provide for them an attractive array of curtains of all types from which to choose their new fall color schemes and prepare the home for winter days.

Light, fluffy, ruffled curtains for the feminine, enchanting room or tailored curtains for the more simple tastes are awaiting inspection at the Window Shop. Something new and different are the new Victory Nets made of a dur-

able and yet attractive material. The fact that so many people are interested in buying quality merchandise for lasting wear will make this new fabric a popular feature in many homes this fall.

Many homemakers will be wanting to replace last year's drapes with new ones and will find a large assortment of prints and solid colors in damask, chintz, monk's cloth, and other fabrics to choose from. The curtains to form the background for drapes in nylon, textured cotton or marquisettes can be selected at the same time.

The Window Shop does special window shade work, will estimate and install the shades. They have a wide range of quality and prices to suit every need. When doing fall house-cleaning many will find that new shades are needed to add to that ship-shape appearance which is the ultimate aim of the good and thorough housewife. It will, therefore, be with a great sense of relief that she will turn over that problem to the hands of experts. Custom-made work is done at the Maple street shop on bedspreads and draperies to match for those who desire to create a harmonious "picture" room. Those Venetian blind advocates can have them estimated and installed by a call to the Window Shop.

Pillows are an item also in stock at the Shop and may be found in floral and striped or plain colors in soft, comfortable, nicely stuffed models of all shapes and sizes to satisfy the most exacting tastes.

THE NEW HIGH

Proof that the upsweep need not be severe is shown in the flattering curls of Martha Scott of Collier Artists Studio. After Parker-Herhex treatments at Lillian Furman's, your hair will regain its natural beauty, lustre and vitality and will fall easily into the soft as silk curls shown above.

A loose-knit woolen shirt keeps the shoulders from your shoulders and is both warm and light. These can easily be made at home from old woolen sweaters, using large wooden needles.

Quality Cleaning, Like Good Fabrics, Lasts Longer

More than ever before quality cleaning has become important to the American wardrobe. This year we must "wear it out" not "toss it out" and a dress too snug in the hips and with a sagging hem caused by cheap cleaning fluid does nothing for the morale.

Columbia Cleaners pride themselves on the fact that their cleaning methods are of pre-war quality, "like good fabrics," says George

Boorady, manager at Columbia's good cleaning lasts longer.

This is especially important today when most cleaners cannot handle the staggering amount of business offered to them. Labor shortages and curtailment of deliveries, too, cut down on the speed of their work.

"Save money for war bonds," says Mr. Boorady, "by having your old clothes cleaned but have them done at a good place where they will be cleaned well and the effects will be lasting."

Eat it up. Wear it out. Make it do. Do without.

McElgunn's Features Arrow Shirts For Durability

The Arrow trademark has long been a standard of quality on shirts, ties and handkerchiefs, and in these days of wartime shortages, quality and durability are what every shopper is looking for. It's not always easy now to find an Arrow shirt, but McElgunn's Men's Shop at Springfield avenue and Maple street still has a goodly supply.

Tailored to give long wear, they are made of fine fabrics, pre-treated for durability. The sanforized label testifies to fabric shrinkage of less than one per cent.

Arrow shirts are shaped to fit and will neither bind nor bag at the waist. Their collars are stiff without being starched and will not shrink, wrinkle or wilt even when they have been worn for months.

McElgunn's has Arrows in a wide selection of colors and in white. Featured at the shop this month are the Arrow ensembles of harmonizing tie, shirt and handkerchief.

For eight ways to make your shirts last longer, read McElgunn's advertisement in this issue.

Home-Sewer Will Find Botany Woolen Fabric For Sale At Carroll's

Carroll's Department Store, 435 Springfield Avenue, is featuring specially this fall their large and complete line of woolen yard goods. This year they have the famous Botany Woolens which may be found in checks, stripes, plaids, tweeds and fancies, all of which is good news to the woman who sews for herself. This year it is not easy to buy a ready-made skirt of just the material desired or of the color needed to match up with your winter coat.

The woolen fabric yard goods are, of course, in varying degrees of weights and are therefore respectively suitable for dresses, and skirts as well as coats. All this material is in 54-inch widths.

Of course the woman who is doing war work or the school age girl too busy with homework may not find time to make dresses, but they will find a large assortment of ready-to-wear dresses at Carroll's and will be sure to find an easy fit and becoming style for most any occasion. The newest-styled one and two-piece fall dresses in gabardines, wools and silks, are now in the showcases.

To top a pretty dress one needs a hat and right on the spot while buying that new dress it is possible to match or contrast properly your new frock with a chapeau from the assortment carried by Carroll's. To make an ensemble complete many may desire a purse and gloves for which one still doesn't have to leave Carroll's.

Right now they are featuring a complete line of sample-bags which have the new hard to get metal frames. All colors, sizes and shapes can be found in the unusual offering.

Sweaters for the school girl and the sports woman are not missing from the shelves of the department store and this year's selection prefers many soft warm shades to complement all complexions, fair or brunette.

Wear-tight gloves for all the football shades are a real sport, gauntlet type glove and to be found at Carroll's. They also have a stock of which will be of special interest for the walking population of Summit. There are bare-leg cotton mesh stockings which not only wear well but look well. A sturdy stocking, they are reinforced at the heel and will give service. The surprise is that they are priced at only 50 cents.

Smartly Styled Quality Handbags At Wiss, Newark

These days, with fine leathers growing more and more scarce, a good handbag is really a good investment. The Wiss store, Newark, realizing this fact, has made a special effort to assemble a collection of handbags whose beauty is equalled only by their durability and usefulness. At Wiss you'll even find the genuine alligator and lizard bags that are getting harder and harder to secure. Smartly styled, beautifully polished, they'll do you service for years to come.

At this same store you'll find a great variety of the unusual and charming costume jewelry, the sort of pieces that form a perfect foil for this season's pencil slim silhouette and simple lines. Made with the same precision and attention to quality that distinguishes this

For Wide Selection Of New Fall Clothes Start Shopping Early

Good clothes as never before and the new fall stock at Claudia G. Nicholson's specialty shop offers a choice selection of quality dresses. Regulation sport dresses in the new fall colors with interesting, pack detail and trim will be among the first "musts" when adding to last year's wardrobe and there is a large assortment in all sizes at Mrs. Nicholson's shop.

Daytime and evening clothes which this year show a practical and thoughtful attitude toward the times are also awaiting inspection of the wise and therefore early shopper this year. The seasons have been pushed ahead by the wholesalers to a greater extent than ever due to the shortage of workers. Thus it is necessary to plan what must be replaced in one's wardrobe and then do fall shopping early in order to have a wide selection.

The Stetson hat is the sports make featured at Mrs. Nicholson's shop. This year many pert and new millinery ideas will have the effect of dressing up the plainest sport dress and will add a festive note to the popular box-style coat.

For dressier occasions Mrs. Nicholson carries a select line of hats. A simple black afternoon dress can be "made" by the choice of a becoming and decorative hat.

Again the admonition: buy quality clothes for the longer and harder wear necessitated in wartime.

deLeon Shop Has Wool Sweaters In 26 Fall Shades

There certainly is no shortage of all-wool sweaters at the deLeon Shop. This year the store is featuring sweaters in twenty-six different fall shades. The stock is considered one of the largest in Summit and certainly one of the most varied.

Anticipating a general shortage in the knitted outerwear line, Mr. Irwin, owner of this shop for women, made large wool purchases as

far back as last January. These source wools were knitted into cardigan and slip-on sweaters to his specifications. This far-sighted policy afforded the deLeon Shop the opportunity to present this large stock at savings.

Pre-War Lotions
Used in Permanents
At De Santis Salon

It is commonly said today that lotions for permanent waves are not of pre-war standards. Although there may be a thread of truth in the assertion, the waves at De Santis Beauty & Stenderizing Salon, Maple street, are giving satisfaction and comfort to a large Summit clientele.

Mr. De Santis states that he still has the best in permanent waving supplies which means the Salon can still guarantee its waves. This is an important factor today when so many women find the joys of short becoming feather bobs hard to part with. This hair style does mean that normal, healthy heads will require permanents more often and that they necessarily must be of the best in order to maintain lively, vigorous hair.

Mr. De Santis has made a plea for all to make appointments for permanent waves in advance. His operator, James, can take appointments from 10:30 a. m. to 1 p. m., as he is engaged in defense work and Mr. De Santis is available for permanents from 8 a. m. to 1 p. m. They ask their patrons to co-operate with them in this respect so they will be able to care for all their customers. The shop will be closed on Wednesdays at 1 p. m.

In the stenderizing department, Mrs. Koek, who supervises all activity, is always available to help trim down the figure and give helpful suggestions for attaining the slim silhouette more than ever a prerequisite to have that "smart look" in new fall clothes. No fullness is featured to help conceal excess weight, so those with a few extra summer pounds are urged to "get busy" and "trim down" please the eye with a trim, neat air in their fall ensemble.

Be a quick change artist in this rayon and wool jumper priced at \$7.98 at the Bab's Shop. The striped blouse is \$3.98 at the same place. The favorite-cum-able pictured beside it features a camel-tone jacket at \$14.98, and an all-wool skirt at \$7.98. The nubby slip-on is yours for only \$6.50.

Specialty Shop
Features Wragge's
Wild Game Colors

Audubon and Currier and Ives provided the inspiration for B. H. Wragge's fall collection of "Wild Game Colors" now being shown at the Specialty Shop. Echoing in both tone and title the drawings of these masters they have a varied and subtle range of colors which combine "tally" with striking contrast. Quail, Beldie or Marsh Brown will blend with the brilliant Mallard Green or may be accented with a strident flash of Wild Turkey red.

Government restrictions have been turned to advantage, thus creating fresh new effects. A new silhouette, inspired by fabric limitations, gives a slim skirt and full top feeling throughout the whole collection. The fabric itself is of pre-war quality—all-wool tweeds and flannels are here as well as soft warm cashmere jersey. The colors range through Flight Blue, Wild Plum, Finch Gold, Golden Sandpiper, Green Wing, Egret Pink, and Blue Hill.

Also in evidence at Lillian O'Grady's Specialty SHOP are Beaulieu tweeds in two and three piece outfits in solid colors or in mixtures. All are beautifully tailored and fit as only fine tweeds can.

Innovations at the Specialty Shop include a new range of half sizes for the woman who is hard to fit. Junior members have not been forgotten. Lane of Kitzburg has a complete line for school or college in velvets, woollens and silks with gay embroidery and applique. Other Lane creations include suits and coats with bright linings and trim. Featured for this season is a 100% wool coat lined in white early baby lamb—the very coat that every girl has always wanted and with the inimitable Lane styling.

All this—and lots more at the Specialty Shop where the smartest fashions are to be seen.

Buttoning the buttons and zipping the zippers on your woollens when you hang them up will keep them in shape and cut down the need for pressing.

Leeds Set Style
With Smart Fall
Hat Fashions

No woman can present a smart complete fashion picture without a hat to complement her costume. And this year's hats are small and neat—easy to keep on your head and just right to set off the new pompadour. Tricornees, pill-boxes—skull caps and the ubiquitous turban—there's your top-piece range for the coming season.

Green and brown are the ranking favorites in the color line with shades taken from the Army dispatches, Jungle Brown, Camel Beige, Patriot Green, and for a neat spot of camouflage finish, Dusty Leaf.

Although hats are small, there is a vast variety of sizes and shapes. One featured Dohbs model is the "cavalcade" which is worn to work at a rakish tilt or set squarely on the head. A neat Fedora by Brewster takes you to market or to a movie in style, while for grander occasions there are irresistible feather toques, close as a helmet and gay beyond belief in many colors.

Purses to match your hats are top news for this season. Leeds has them in all colors and fabrics—kid, alligator, capeskin, and genuine Korde. There are shoulder bags, sassy bags, and the popular draw-string models for those who must carry everything all at once. Plastics gay and neat, appear in darker colors for fall, with the same attractive features which made you envy them during the summer months. Paths and silk continue as favorite fabrics for evening bags.

More than ever before it is important to brighten up your outfits with smart well-chosen accessories. At Leeds, you will find everything to be desired in this line.

Wartime Fashions At Halkne & Company Are Gay and Festive

American women today are well aware that they have no little time to spend with their loved ones who, in many cases, are off to war. Because of this, today's women are making a sincere and definite effort to look their prettiest and most feminine at all times, in preparation for the last-minute furloughs and shore leave when they can be with the men of their choice.

It is, therefore, not surprising to find the fashion market abounding with dainty suits, dressy dresses, dainty hats, dressy coats, and even dressy blouses. Blouses are gay and festive enough to wear with ankle-length as well as street-length skirts.

The fringe trim is popular for suits. Lace trims—many woollens, and dresses appear with ruffles or flounces. Sparkling sequins, beads, and lovely soft velvets trim many a smart outfit.

Color is important, as always, this time of the year. The bright, brilliant shades lend a festive note, while there are also the ever-present darker, more conservative shades.

Hats have never been more suitable or charming. They are young and sweet and very feminine and are really the kinds of hats to make your man-on-leave exclaim, "What a pretty hat!"

There's no doubt about it. The fashion industry has taken the war in its stride. Despite L-85 restrictions, today's dress manufacturers continue to produce pretty, feminine, memorable clothes, clothes that can help us fight more speed us faster toward victory.

Mills-Grayer Shoes Show Main Fall Fashion Trends

Dress shoes take precedence over all others in this year's fall fashion parade, says Mills-Grayer. Despite government restrictions there is a wide variety of styles from which you may choose. Suede is very popular, both in open and closed toe models, but for those who prefer it, there are attractive presentations in smooth leathers of various types.

Repelle has come into its own this season with a happy finalness. This is a hard-working leather with a bright finish which stays glossy and shiny without benefit of polishes and dressings. Very smart in walking shoe styles, repelle is a natural for wear with suits and those gay woolen dresses.

Although black is the dominant color for fall, brown is fast becoming the most fashionable shade. This is, in part, due to government restrictions in dyes, but whatever the reason, you'll want to be in the fashion with rich brown suede or a smooth brown calf, depending on your mood and the occasion.

Children's shoes of every type are plentiful at Mills-Grayer. Sturdy oxford types in calf skin will answer your child's require-

ments for back-to-school footwear. There are also fine patent leathers for dress-up days, which boast the same durable, long-wearing construction as the other models.

Authorization of contracts with the Federal Government were made Tuesday night by the Board of Education whereby the government will subsidize the cost of milk for school children to the extent of two cents per half pint. Get Back in Harness For a Slim Silhouette In New Fall Clothes

After a summer of ease-in-clothes it is with a sense of relief that women get back into harness in order to achieve that neat, smooth appearance in new fall dresses. The Smoothie Faithless Frocks, featured at the Amy McDowell Shop, 9 Beechwood road, with adjustable lacing in girdles and one-piece foundations, are the new corsets stressed. They give abdominal control while being light, flexible and easily adjusted.

The choice of girdles at the McDowell Shop includes the Treo pantie girdles, Lily of France girdles and corsettes and the Camp Health Supports and maternity girdles. The pencil slim girl, the large woman and those who need health supports, all can find their needs met from the selection of the well-known brands mentioned.

In the line of lingerie the shop's showcases have on display Barblon and Colony Club nighties and slips, jewelry handmaides, and the ever practical Vanity Fair rayon knit underwear. Not to be overlooked are McCallum and Vanity Fair sheer rayon hosiery which will

soon be a necessary wardrobe item to take the place of the fading summer tights.

For comforting warmth and coziness the new taffeta-lined quilted housecoats and robes just in at the Amy McDowell Shop will take care of those evenings when the thermostat is kept at the lowest possible temperature to conserve oil and coal supplies. Nice wooly robes also will be a necessary item for winter use. For the lady who uses bed jackets, there is a nice assortment in pastel shades.

Suits, always popular in the fall, can be "made" by the right selection of a shirtwaist. Something new and smart in that line is the imported English broadcloth shirtwaist. Another good bet to peg up fall tweeds is the Hendan man-made shirt for suits, smart in acetate plique. Both to be found at McDowell's.

Nelly Don and Hope Reed dresses in wools, crepes and gabardines, suitable and smart everyday dresses, are in stock now at the Beechwood road shop where, besides all the above-mentioned merchandise, one can find accessories such as pocketbooks, belts, costume jewelry, handkerchiefs and handbags. Basic Rugs Simplify Home Decoration, Says Bedrosian

Pre-harmony is the new idea in home decoration. Once upon a time it was a major struggle to find a rug to harmonize with furniture and drapes. Bigelow now has solved that problem by creating seven basic colors which go with modern drapes and upholstery. Each basic color has a range of shades—and there is a wide variety of weaves and patterns from which to make your choice at Bedrosian's Rug Shop.

Perhaps it's green that you've picked for your main color. Bigelow's Bouvard, Number 1636, gives you a fine basic green with added tints of pink and brown in a delicate floral design. A dainty pink wall which is repeated in the upholstery stripe of one piece picks up the pink tone of the rug while gold-tone lamp shades complement the brown lines of the rug. Green draperies—and a few well-chosen books in green bindings—will emphasize the basic color of the floor coloring.

This may sound hard but it isn't—not when Bigelow has done the work for you. Bedrosian has a large stock of these basic rugs and will be happy to help you plan your color scheme to suit them.

In the "make-it-do-wear-it-out" scheme of wartime conversation, it's good news that Bedrosian's has their own staff of experts to clean and freshen your old rugs. Even the best vacuum cleaner can't get out all the dirt and grime, but send them to Bedrosian and see what a good cleaning can do. The bright tones come back to life and give your rooms new and eye highlights. And—most important of all today—it will make your precious pre-war all-wool broadlooms last twice as long.

So, for a new rug or a beauty treatment for your old one, see Bedrosian. They have what it takes to keep your happy home graceful and livable.

L. Bamberger & Co. Stresses Double Duty Wardrobe For Fall

This year almost everything in a lady's wardrobe must lead a double life. She'll have a suit for instance, which may be so slim and black and unobtrusive that the change from a tailored blouse to no blouse at all, but a throatline necklace, earrings, perhaps a lapel badge and gloves in one of the new high and luscious shades will take her from daytime to evening with grace and charm—and economy.

Coats this season seem to be falling naturally into two big classifications. There is the furred tuxedo which is simply cut so that it may be worn over suits as well as dresses. Then comes the favorite for hours is the somewhat newer fur-lined coat which is luxurious in an unobtrusive manner as can be imagined.

Dresses are slim. So slim that the fashion writers are taxing their brains to dream up phrases to describe them. So far needle slim, cigarette slim and stem-narrow, leopard-stenciled lapels and thugom

description to do a very adequate job of description.

Possibly because lines are so clean and simple—partly due to 1935-fabrics are extremely important. Wool is a daytime favorite for a good many reasons. First, national honors make them a comfort. The colors available only in wool, makes them a joy to behold and their draping qualities make them wearable in a very pleasurable degree.

Blouses are important as they have not been for years. Not only because suits are so fashionable but because blouses are no longer just accessories they are really half a dress. It is the blouse, after all, which sets the tone of your costume makes the difference between a tailored and a "dressy" appearance.

A shopping tour through the fashion floors of L. Bamberger & Co. seems to us a corroboration of all the fashion news that has been coming out of New York and Hollywood and other fashion centers. There is a collection of tuxedos in this store which is probably one of the biggest ever assembled under one roof. Their fur-lined coats include such furs as muskrat, mink, leopard-stenciled lapels and thugom
