### Former Policeman Is Arrested For Arson And Larceny Charges

A weird tale of a special police officer being implicated in cases of automobile thefts and arson while on the local force, came to light this week in the arrest of Lester Mumford, 30 years old, of Dondar road. Mumford and three other men were held without bail by Recorder William Winkler in MountainSide Monday night when they admitted the charges. They were turned over to the county jail to await Grand Jury action.

The others arrested were: Thomas Lyons, 26, of 374 Morris avenue, this township; Thomas Miranda, 17, of 84 Ashwood avenue and John Westberg, 18, of 27 Pearl street, both of Summit.

Police Chief Charles Honecker of MountainSide said the arrests solved a series of car thefts and thefts of articles from parked cars in Summit and MountainSide during the past two months. In further questioning, the arrests also cleared up the Howard Johnson restaurant fire September 10 in Springfield, in the latter case both Mumford and Lyons were on duty as special police officers, but left the force in October, together with the "battered" flames and were said to have even returned back to the firehouse on the fire truck.

The arrests resulted from suspicions in MountainSide Friday morning at 5:20 a. m. by Patrolman Christian Fritz when he found Mumford and Lyons loitering around a parked car in Summit lane. Fritz summoned Chief Honecker and they found a gasoline ration book on Mumford, issued to Charles H. Burnett of 24 Somerset street, North Plainfield, whose car was found near where the pair were picked up.

On the seat of a car Mumford said he was driving was found a revolver also stolen from Burnett's car. Lyons admitted stealing a car, owned by Police Lt. John Gannon, of Summit.

Mumford and Lyons admitted theft of other cars, as well as articles from parked cars and implicated both Miranda and Westberg. The latter two admitted stealing a car owned by Donald Bender of 3 Bank street, Summit, with Westberg held likewise for malicious arson. Lyons was said to have been accomplices with two Summit boys in this case.

Lyons and Mumford were implicated in the theft of a car owned by Frank Mea of New Providence, which was stolen September 5 from in front of Sals Spa, MountainSide and taken to the Springfield Heights section and burned in the early morning. They admitted stealing three tires from the car before burning it, and police report that one of the tires with the owner's name inscribed on it, was found on the wheel of Mumford's car.

### Retirement Question Up For Approval

In the heat of the Presidential campaign and the State Constitution revision question, Springfield voters may have overlooked a public question to be submitted at Tuesday's election on having full time employees join the State Employees Retirement System.

Township Council Robert A. Kavin explained to the SUN this week that this act enables employees, not covered by such pension systems as the police and firemen and likewise not enjoying social security benefits, to be protected by state and local benefits in addition to retirement clauses.

Any township employee at this time has an option whether they will join the system. It approved by the voters. It would go into effect July 1, 1945 and all employees appointed after that time, would automatically be obliged to be a part of the retirement system. The employee pays a percentage into the fund to which the Township also contributes.

The county and State employees are also a part of this system, and if a municipal employee joins the upper brackets or returns from a county or State job to a municipal one, the benefits are transferrable. Should he enter private industry, a portion of the monies turned in will be refunded.

Such employees as janitor, clerk in the tax office, assistant in the township clerk's office and full time road workers would be affected by the new law, if adopted. Local officials believe no opposition will be created to passage of this question.

### Ration Boards to Close Election Day

The Office of Price Administration Regional Office announced that all War Price and Rationing Boards will be closed on Tuesday, Election Day, at 1 P. M.

### Regional Drops All But 2 Home Football Games

The insurmountable task of trying to collect paid admissions at the Union County Park gridiron for Regional High School football games, insufficient to pay visiting teams after necessary expenses are deducted, will bring disappointment to local followers next year. Only two home games will be played at the Meisel-avenue playground in 1945, and the other seven will be worked out in arrangement with the local school eleven. This year, five home games and four away, comprised the schedule.

Cranford High, which played here October 7, expressed dissatisfaction at the receipts taken in, which will result in all future games between Cranford and Regional played at the former's gridiron, somewhat similar to arrangements made with Rahway for annual Thanksgiving contests. In 1938, Rahway played at Springfield and since then all the Turkey Day games have been held away from home for Regional.

With no barriers to prevent non-payers from gaining access to the Meisel-avenue field, Regional sport authorities have been handicapped. Visiting schools are aware of this deficiency and many of their students and followers neglect to buy tickets in advance, on the theory that they "get in anyway." In many instances, this also applies to adult supporters of Regional. Students buy season tickets, which enable them to attend on a cut-rate basis.

Attendance at home games have been good, but the receipts in contests in enclosed fields naturally bring considerably more revenues. Umpires, referees and timekeepers receive standard fees, whether the home team gets paid and the balance, to be divided with several opponents, hardly makes it worthwhile for Regional adversaries to schedule the Orange Blue, a handicap not usually found with any of the other schoolboy teams which have their own private playing fields.

When Regional High School was formed, the Board of Education appropriated additional funds to cover this lacking revenue, but it has not produced enough to make up a deficit.

### Thelma Sargent Sworn In Waves

Miss Thelma E. Sargent, of 62 Marlon avenue was sworn into the U. S. Naval Reserve as apprentice seaman in the enlisted youth of the Waves, on October 24. Miss Sargent is awaiting orders to report to the U. S. Naval Training School, Hunter College, Bronx, N. Y.

Two brothers of Miss Sargent, Harry Rochelle, U. S. Army and Kenneth Sargent, U. S. Navy, are both in the South Pacific.

### Protest Removal Of Broecker Dam

As a result of a promise from the Union County Park Commission to the Springfield Township Committee that it will proceed with elimination of the Broecker Dam in the Rahway River, Milltown road, at the Springfield-Union line, the Union Township Authorities, who are opposed to the removal of their "old swimming hole," have entered a formal protest with the Park Board. The protest was sent this week to the Commission by Township Clerk William W. Friberger.

Mayor F. Edward Bierthoff, declaring the township would never have given the commission liquid along the dam area if it had known this sort of step would be taken, pointed out that Union has made every possible protest to point out that the dam provided a much-used swimming spot for many children.

Friberger said the commission action was "unjust and unwarranted" and came without proper notice to Union authorities. He challenged the local contention that removal of the dam was needed to end flooding.

### One Mail Delivery For Election Day

MacKenzie resided with his uncle and aunt, Mr. and Mrs. Eugene Rochelle of 112 Marlon avenue, prior to entering the service. His brother, Private first class Francis MacKenzie, a local resident is on sea duty in the Atlantic fleet.

Mrs. Rochelle received a letter from her nephew written on day before he was wounded. He said in his letter he was "somewhere in Germany" and there was "hot stuff fighting." Pfc. MacKenzie has been in the service for 4 years and went overseas in April of this year. He participated in the France invasion. He recently wrote to his aunt that he received shrapnel in his head and he was being moved from one hospital to another.

### Boy Injured In Auto Accident

Wayne Pesola, son of Mr. and Mrs. Wayne Pesola of 275 Short Hills avenue was injured on Sunday, October 22, when he was struck near his home by a car driven by Frank B. Wade of East Orange. The youth is home and reported to be doing "nicely." He was confined to the hospital for a week. The ten-year-old boy is in the fifth grade at St. Rose of Lima's School, Millburn.

The driver of the car stated he was driving east on Millburn avenue when he saw several boys standing at the corner. When his car was within fifteen feet of them, the Pesola boy started across the street. Wade said he swerved his car, but was unable to avoid the boy.

### Service Ballots To Be Counted Early Tuesday

Extra election tabulators 200 if necessary will begin counting absentee voters' ballots from service folk at 8 A. M. on November 7, Schuyler Bogart, clerk to the Union County Board of Elections, announced today.

Ray E. Carey, county superintendent of public works, has assigned the record room of County Register Edward Bauer's office in the Court House as the site for the task. This will provide space not available in the already cramped quarters occupied by the election officials in the Courthouse basement.

Bogart reiterated belief that the service ballots will total 15,000. The number, as of last week, was 11,000. Throughout the country, many believe that the so-called "soldier vote" may decide the National election.

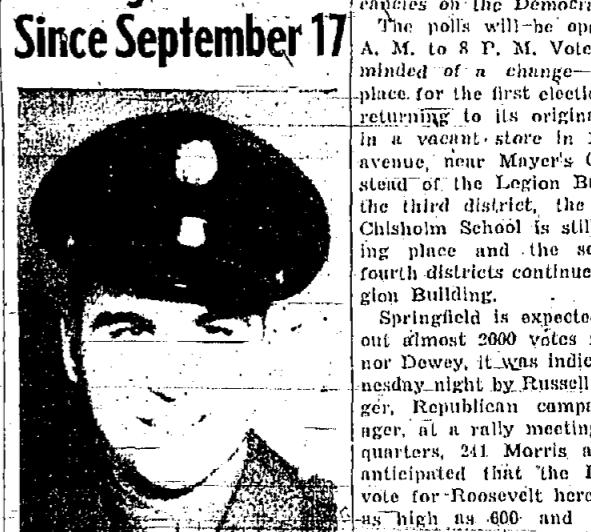

The board's staff is now on a twenty-four hour basis, correcting registrations and caring for the thousands of other details prerequisite to a Presidential balloting. One crew works from 11 p. m. until 9 a. m., when the regular duty shift appears.

The extra workers for absentee ballot tabulation will be divided into district board of four members each, two Republicans and two Democrats. The tally will be representative of the pre-voting machine era for Union County, but results will not be so tardy as in the old days because the tabulation will start so early.

### Heaviest Voting In History Expected For Presidential Contest

The general election Tuesday will bring out the heaviest Presidential balloting in the township's history, although the absence of local contests, except for a write-in candidate, is not expected to arouse as much interest as will be shown in the Dewey-Roosevelt race and the question of revising the State Constitution.

### Pfc. Chas. Honecker Missing in Action Since September 17

In town, Wilbur M. Selander and Harold G. Nenniger are Republicans on the Township Committee ballot. George M. Turk is a write-in candidate for one of the two Township Committee vacancies on the Democratic ticket. The polls will be open from 7 A. M. to 8 P. M. Voters are reminded of change in polling place for the first election district, returning to its original location in a vacant store in 143 Morris avenue, near Mayer's Garage instead of the Legion Building. In the third district, the Raymond Chisholm School is still the polling place and the second and fourth districts continue in the Legion Building.

Springfield is expected to bring out almost 2000 votes for Governor Dewey, it was indicated Wednesday night by Russell J. Pfitzinger, Republican campaign manager, at a rally meeting in headquarters, 241 Morris avenue. He anticipated that the Democratic vote for Roosevelt here might be as high as 600 and urged his workers to get out the largest number of voters to overcome the plurality in the big city vote which the suburban communities must match or surpass.

State Senator Herbert J. Pascoe also addressed the group, emphasizing that county-wide enthusiasm has never been exemplified as in the current campaign. He asked support of the Constitution revision question, insisting that the opposition with headquarters in Jersey City is not telling the complete story in its breakdown of various articles of the revised measure.

Both Mayor Selander and Nenniger addressed the group and as the Boston radio talk of Governor Dewey was about to be heard, Senator Pascoe arrived and delayed his talk until the completion of the Presidential candidate's speech.

Pfitzinger told the gathering that arrangements have been made to use the Legion Hall, after the voting machines are locked and tabulated. To serve refreshments to Republican workers and a gathering place to hear election returns from throughout the county. A last-minute meeting of challengers will be held in the Morris avenue headquarters Monday night, he also announced.

### Murphy Heard In Broadcast From Germany

Many persons in town heard a local soldier's name mentioned in a broadcast by Radio Poughkeepsie, N. Y., on Sunday, October 22. George Hicks, WBC correspondent, broadcast from a German home taken over by an American outfit of which Charles A. Murphy, son of Mr. and Mrs. Charles Murphy of 353 Mountain avenue, is a member. Mr. Hicks told of the capturing of the homes, the people, etc. He also mentioned some of the names of the American soldiers with him.

Mrs. Lewis P. McCartney of 33 Severna avenue was the first to notify the SUN. Many others called the paper's attention to the broadcast upon hearing the local soldier's name, while others communicated with the Murphy family.

## GIRL SCOUTS

The newly formed Brownie Troop held a Halloween party on Wednesday afternoon in the James Caldwell School. This troop consists of 45 girls, ages from 7 to 10, under the leadership of Mrs. George Bowles of 83 Linden avenue. Mrs. Bowles' assistants are Mrs. Edward Townley of 27 Henshaw avenue and Mrs. Roy Waldock of 28 Park lane. Due to the number of members in this troop, the girls will be divided into two groups, in another week. The second group will be directed by Mrs. Townley.

Troop No. 1 has been meeting every Tuesday afternoon at 3:30 in the Methodist Church under the leadership of Mrs. Edward T. Pearson, leader and Mrs. Harry Quinzel, assistant leader. During the month an outdoor scavenger hunt was held. On Tuesday, October 24, the mothers of the troop were honored at a tea. Ruth Schreter was chairman of the affair. The girls held a costume Halloween party on Tuesday afternoon. Prizes were awarded for various games. Hostesses assisting Mrs. Pearson and Mrs. Quinzel for the afternoon were Mrs. Albert Blinder and Mrs. William Reid.

At the September 14 meeting of the Scouts of Troop No. 3, plans were made for a Halloween costume party and an out of door cooking hike. The girls selected for their troop crest, "The Lilly of the Valley." On September 27, the entire troop visited the Presbyterian Church with Dr. Liggett, who explained the history of the Church and the surrounding grounds. He gave the troop a list of historic places which they will visit in the near future.

The troop, under the leadership of Mrs. Lee Andrews of Melsel avenue, have been active, for on October 5 they delivered circulars for the War Fund Drive and on October 12 invitations were made and mailed to partners for their costume party. June Konrad became a Tenderfoot and received her troop number and pin. Their planned hike was called off for October 21, due to bad weather. Mrs. A. Nanz, mother of Scout Betty Nanz, wrote the following poem in connection with the postponed hike. The Girl Scouts planned a hike, they say, Upon a bright October day. They planned to build a camp-fire hot, And cook their food in a big stew pot.

A "walking salad" and a stew with string beans, carrots, onions, too, The mothers soaked down to the store And all brought vegetables galore, Each child must take her rightful share And then a little more to spare.

But when the day arrived, no sun! The raindrops came down one by one. The storm was easy when, It isn't hard to figure out, In every home where there's a Scout. They're having stew for a dinner. Tenderfoots of Troop No. 3A, which meet every Wednesday afternoon, are: Mary Ann Huber, Lois Wagner, Betty Pasquale and Julia Rapp. On Friday evening the girls of Troop No. 3 hold their Halloween costume party. Those in charge were Mrs. Leo L. Andrews Jr.

## FROM GARDEN TO SHELF

**DON'T BE A MOTHER HUBBARD!**  
By MARY W. ARMSTRONG  
County Home Demonstration Agent

Now that your canned goods cupboard is full (we hope) of jars of vegetables and fruits you've canned this season, it's time to bleach your hands with lemon juice and it's time to do a little figuring with pad and pencil. Oh, this is the easiest part of all. Play

keeper some morning soon and check on your inventory of all the jars on your shelves. How many beets, how many carrots, plums, peaches—get it down in black and white and then work out your budget system for the winter.

Don't shy at the word "budget," for your own budget can be a flexible one. Buy it is wise to have some idea as to how many jars of each product you can use each week and still have enough left to last through until spring. Then you won't be like Mother Hubbard, who found to her dismay that her cupboard was bare!

I know several homemakers who keep their inventory of canned goods thumb-tacked beside the storage shelves. Then when they take a jar of tomatoes for supper, they put a check mark in the "tomato column," and they do the same for every jar of fruit or vegetable they use. This type of running inventory gives them an accurate check on each canned product. Pretty smart, don't you think?

Use of Stored Foods  
Let's look at this subject from two different angles. First, let's take the case of those people who, because they could arrange good storage facilities, stored a generous quantity of fresh vegetables as well as of apples and pears. Since these stored foods will begin to lose some of their crispness and food value after several months in storage, it is advisable to use the greater portion of them before too late in the year. In working out their canned goods budget, then, these homemakers who have stored fresh vegetables would plan to save some of their canned vegetables to be used after the supply in storage had been exhausted.

Now, suppose you can't manage to store fresh fruits and vegetables, and that you will have to depend upon the markets for extra amounts of these foods. Well, as we have all learned from experience, fresh vegetables and fruits are usually high in price

during March and April. Since canned foods keep well until that time, it will be more economical to buy more fresh foods now and save a greater portion of your canned products until later.  
**Green and Yellow**  
Haven't you heard it said that a colorful meal is usually a nutritious one? Nature must have planned to have our eyes guide our supply of vitamins and minerals. Yes, when you choose those three servings of vegetables daily it is well to consider variety of color as well as variety of texture. One green vegetable with one yellow and one white is an ideal combination for the day's meals.  
Two servings of fruit, either fresh, dried, canned or frozen, will fill the bill for your family as far as fruits are concerned. While we're on the subject, though, don't forget milk, eggs, and fats.  
Wise Mother Hubbard, she went to her cupboard And found it was filled to the brim. Enough jars of this, and enough Jars of that To keep up the family's vim! Be like her!

## BEST

VALUES in furniture are the better-made pieces!

We've invented nothing new when we say that the "quality buy" is the best buy in the long run... you've probably discovered that for yourself long ago. When you combine quality and good taste, you have the added joy and pride of ownership that these elements alone provide.

Fine quality and good taste have been the stock-in-trade of the Fisher Furniture Galleries ever since we opened our store on the highway. That's probably why so many New Jersey families are instinctively turning to Fisher's when they want something better for their home... that, plus the fact that our low cost location and lower cost of doing business are reflected on every price tag.

## Two Youths Sent To County Jail In Larceny Case

MOUNTAINSIDE — Raymond Brandt, 21 years old of 141 E. Front street, Plainfield, and John F. Thorpe, 19, of 45 Manning avenue, North Plainfield, were arraigned at a special session of Police Court last Wednesday before Judge William Winkler and held without bail for Grand Jury action, on a charge of attempted larceny and having a concealed weapon in their possession.

The youths were arrested by Patrolman Christian Fritz on Tuesday, at 2:30 A. M., when they were found in front of a gasoline station in Route 26 and Summit road. After questioning the boys, Fritz examined the building and found a window broken in the rear. Although the building had not been entered, Fritz took the boys to Police Headquarters where a loaded .32 caliber revolver was found in their car. The youths said they had found the gun.

Upon further questioning the following evening, police said Thorpe and Brandt admitted that several weeks ago they held up J. A. Nelson, who owns the Nelson Taxi Service of 121 North Washington avenue, Dunellen. Thorpe allegedly admitted he had telephoned Nelson and asked him to drive him to Surprise Lake. Nelson, not knowing just where Surprise Lake was, drove to the mountains behind Plainfield. Brandt followed Thorpe in another car and the pair allegedly attempted to hold up Nelson. A shot was fired by one of the boys and Nelson fled from his car. Brandt allegedly admitted he and Thorpe attempted to follow the Nelson taxi, but Nelson escaped.

## LAST CALL FOR PROGRESS

Time and tide of good government will greet the voters of New Jersey in a rare juncture of opportunity on Election Day, November 7th. On that day the electorate will be given the chance, which may never come again for many a long year, to adopt a modern structure of State government with many gains in economy and efficiency plainly blue-printed in the proposed new Constitution.

That shaky relic of 1844, the present State Constitution, can no longer stand the stresses and strains of the modern demands of government. Pleas for its revision have been voiced by many New Jersey governors who well know the faults and draw-backs of its outmoded mechanism. Public opinion gradually rallied to their viewpoint and within the past two years, the sentiment for revision has grown to the proportions of a civic crusade. At last year's referendum election, a big majority of the voters expressed a wish to declare themselves on the issue of Constitutional reform.

And now the hour of opportunity has come—November 7th will decide whether New Jersey will now put its governmental house in order so as to meet the perplexing problems of the present and post-war era. There can be no second guess after November 7th. That is the day of days in New Jersey's bid for a place abreast the many states that have

said good-bye to the dead past and are meeting the complexities of modern times with modern tools of government. The opportunity to effectuate New Jersey's future progress and welfare is enshrined in a single day of the calendar—November 7th. A single day that carries in its fleeting hours a decision of far-reaching importance. And upon the people of New Jersey, on that day, will be thrust an opportunity to strike for their own welfare such as has not been afforded them in many years.

## HISTORY

Most of the things that really matter in your life and mine are events that took place before we were born. Whether we are rugged or frail, rich or poor, happy or miserable result in large part from decisions and struggles that somebody made long ago. The old saying, "Life is what you make it," is partly true. Life is what you make it from what you had to begin with.

Of course men and women are free moral agents and can do a great deal with their own lives if they will, but the past influences every generation. It affects everybody more or less and has more to do with some people's lives than they do themselves. In order to take from the past what helps us and avoid what hinders, men have to study history and learn its good from its bad.

## A Patriotic Duty

American history, and I don't mean a sketchy catalog of wars and elections, should be a required study in every American school. How can the youth of the United States be proud of this country's success and prosperity without some knowledge of their background? Decisions and struggles out of which our institutions have grown will tell the important "why" of America's power in the world.

Many encouraging stories have come back to America from the European theatre of war recently. Not one of them has shed more hopeful light on America's future, however, than a feature article in the New York Times relating that American soldiers in many foreign lands are calling for books on American history. They want to know what makes them different from people they see over there. What do we have?

The article quoted a Pennsylvania buck private as saying, "Something in our history makes us different. Why aren't we taught about it at school?" It is my sincere hope and belief that this soldier's children will be taught more about it at school. At least I hope we don't have to wage a foreign war every quarter of a century so our sons can go see how comparatively poor other people are.

Our fighters have begun to realize that something goes on in America which encourages and promotes better living than people in foreign countries can enjoy. Farmers' sons in the invasion can't help but see that France, for example, has fertile soil, favorable seasons, and abundant crops but poor people. There's a reason. It's a long story but an interesting one.

# SUMMARY OF THE Revised Constitution FOR THE STATE OF NEW JERSEY

*To be voted upon as a whole by the voters of New Jersey at the General Election, Nov. 7, 1944*

*To the People of New Jersey:*  
The Revised Constitution for the State of New Jersey will replace the present New Jersey Constitution which was adopted in 1844 if a majority of those who vote on the question at the General Election, November 7, 1944, vote "Yes".  
I have prepared the following Summary of the Revised

Constitution, by comparison with the present Constitution of 1844, at the request of the Secretary of State, Hon. Joseph A. Brophy, the President of the Senate, Hon. Howard Eastwood, the Speaker of the House of Assembly, Hon. Dominic A. Cavicchia, who are together charged by law with the duty to inform the people of the contents of the Revised Constitution.

This summary is published at their direction, by the Secretary of State, to further inform voters of the nature and significance of the contents of the Revised Constitution.

TRENTON: JULY 15, 1944

*Walter D. Van Hook*  
WALTER D. VAN HOOK, Attorney-General

## Sovereignty of the People

The present New Jersey "Bill of Rights," setting forth the basic rights and freedoms of all the people, without distinction of group, class or sex, is carried forward without any change from the Constitution of 1844.

## Government and Laws

Briefly, the Revised Constitution can be characterized not by any changes it makes in the form of our government, but rather by its important changes in organization of the business of state government and in the functions of public officials.

All the laws now on the statute books would continue fully effective upon adoption of the Revised Constitution except where they are in conflict with its provisions.

The Revised Constitution continues our present form of state government unchanged, with its powers divided among three distinct branches: the Legislative, the Executive and the Judicial.

The Legislative branch, just as under the present Constitution, would consist of a Senate and House of Assembly. The Senate would, as now, consist of one senator from each county (making 21 senators) and the House of Assembly would, as now, consist of 60 representatives apportioned among the counties according to population, with each county having at least one assemblyman.

## The Legislature

**Senators:** Term increased from three to four years; salary set at \$2,000 a year instead of the \$500 fixed in 1844.

**Assemblymen:** Term increased from one to two years; salary set at \$2,000 a year instead of the \$500 fixed in 1844.

The Legislature would meet annually in regular session, on the second Tuesday in January, as at present, but a new provision would limit regular sessions to 90 calendar days thereafter. Provision is made for special sessions, to be called for specific purposes if necessary.

Other important changes affecting the legislative process, as compared with the present Constitution of 1844, are these:

1) The Legislature would no longer be permitted to appoint various state officers, as it has in the past, except the State Treasurer, the State Comptroller and the State Auditor. These three officers would be required to be appointed by the two houses of the Legislature in joint meeting—which is the way they are now appointed.

2) The Legislature would have its power to investigate the conduct of public business—which is now narrowly restricted by court decision—broadened and specifically defined. This power would be implemented by requiring public officials to testify on matters relating to their public duties on pain of losing their privilege of holding public office.

3) Members of the Legislature would not be permitted to accept an appointive state job while the Legislature is in regular session; and their present disqualification to accept any state job created, or increased in compensation, during the term for which they shall have been elected is redefined.

4) Lobbying in the Legislative chamber of either house would be prohibited.

5) The organization of the state militia, now fixed largely by the Constitution, would be left for future legislative determination.

6) Various legislative provisions relating to the protection of public improvements, zoning of land use, and prohibiting private, special or local laws are redefined (Art. III, Sec. VI).

## The Governor

The office of Governor would be changed by the Revised Constitution from one of limited constitutional authority, under the present Constitution of 1844, to an office of substantial executive powers and duties. Beginning with the new Governor to be elected in 1946, the Governor's term of office would be increased from the present three years to four

years, but the present provision which does not permit a Governor to succeed himself would be continued.

The major changes fall into two categories: first, those that redefine the present constitutional relationship between the Governor and the Legislature, and second, those that redefine the present constitutional relationship between the Governor and the various state administrative departments and agencies. These two groups of major changes follow:

### A. Governor and Legislature

1) The Governor's veto of a bill or appropriation item passed by the Legislature would require a three-fifths vote in each house to override, instead of the present majority vote.

2) The Governor is given ten days to act upon a bill while the Legislature is in session and thirty-five days after its adjournment. Pocket vetoes are abolished. If the Governor vetoes a bill and the Legislature has adjourned since die, he must call a special session for its reconsideration.

3) The Governor may no longer make so-called legislative recess or ad interim appointments to office, unless authorized by law. Nominations to office by the Governor will become effective without confirmation by the Senate unless confirmed, rejected, or returned by the Senate within 6 weeks after submission.

4) The initiative and power to effectuate state administrative reorganization is transferred from the Legislature to the Governor, to be exercised by executive order.

5) The Governor's authority for administrative reorganization is checked and balanced by provisions staying the effective date of an executive order for six weeks, during which the Legislature may by resolution veto any executive order relating to administrative reorganization; and by absolute legislative control over the state's pursestrings. The Legislature will also retain exclusive power to create, increase or diminish functions, powers and duties under the state government.

### B. Governor and the Executive Branch

1) The Governor would be given new responsibility and power for reorganizing the state government into not more than twenty principal departments. He could appoint a cabinet of such state officers as he might designate.

2) The Governor's power of administrative reorganization is required to be exercised so as to group "all the executive and administrative offices, departments and instrumentalities of the state government . . . according to major purposes."

3) As part of such a reorganization, the Governor might redistribute functions, powers and duties which have been created by law but he could not create any new or additional function, power or duty. In any case he would be required to act "in such manner as to promote efficiency and economy in the operation of the state government." The present Constitution of 1844 makes no provision for administrative organization.

4) The Legislature would determine those principal departments which shall be headed by a single executive and those which shall be headed by a board, commission or other body. In either case, the appointment of heads of principal departments would be by the Governor with the advice and consent of the Senate. Single executive heads would hold office concurrently with the Governor appointing them. The members of boards and commissions heading a principal department would serve for such term of office as provided by law. Future appointments of chief administrators by boards or commissions heading principal departments could be made only with the approval of the Governor.

5) A new constitutional basis would be given the merit system of appointments and promotions in the civil service of the state, as well as in the civil service of all local governments. The Governor's power of administrative reorganization is limited by provision that no person shall be

deprived of any right or privilege that may be accorded him by civil service law; and veterans' preference is expressly recognized.

6) Pardons would be granted by a board of pardons with the concurrence of the Governor. Reprieves could be granted by the Governor without the existing 90-day limitation on the time for which a reprieve may be extended.

7) Fees or other compensation paid to an appointive state officer or employee for official services, other than his annual salary, must be paid into the State Treasury unless otherwise provided by the Legislature.

## The Courts

The Revised Constitution would replace the present constitutional state and county courts with a unified court system, under the administrative supervision and direction of a chief justice. The chief justice is made responsible for efficient administration of the business of all courts in the state.

### Organization of the Courts:

1) The present Court of Errors and Appeals of 16 judges, who also sit in other courts, is replaced by a new "top court," a Supreme Court of seven full-time members appointed by the Governor with the advice and consent of the Senate. Supreme Court justices serve during good behavior with a compulsory retirement age of 70 years.

2) The jurisdiction of all the present constitutional state and county courts, except the court of last resort, is merged in a single state-wide court, called the Superior Court, with power to try and fully decide cases of every kind throughout the state. This court would replace the present Supreme Court, Court of Chancery, Prerogative Court, Circuit Court, orphans' courts, common pleas courts, courts of oyer and terminer, courts of special sessions and courts of quarter sessions.

3) At least two Appellate Divisions of the Superior Court, each consisting of three justices assigned for three-year periods, would be constituted to decide appeals from sections of the Superior Court.

4) The Superior Court, except its Appellate Divisions, will sit in each county; and each county must have at least one resident justice. Superior Court justices shall be appointed for a term of seven years and upon reappointment shall serve during good behavior with a compulsory retirement age of 70 years.

5) The Legislature may create or abolish inferior courts of original jurisdiction as at present. These courts may be integrated with the new court system so far as the Legislature finds practicable. Present constitutional status of Justices of the Peace is eliminated.

6) The first justices of the new Supreme Court shall be appointed by the Governor with the advice and consent of the Senate from among the Chief Justice, the Chancellor, the justices of the Supreme Court, judges of the Court of Errors and Appeals who are attorneys-at-law of at least ten years' standing, Circuit Court judges and Vice-Chancellors, who are in office under the old Constitution on July 1, 1945. All of the foregoing members of the judiciary who are not appointed to the Supreme Court and the judges of the courts of common pleas in office when the Judicial Article takes effect (November 1, 1945) shall be justices of the Superior Court, each for the balance of his unexpired term.

### Decisions and Appeals:

1) The Superior Court will have a law section and an equity and probate section. In cases of conflict between equity and common law, equity will prevail, but every controversy shall be completely determined by the court or justice hearing it.

2) Appeals to appellate divisions of the Superior Court may be taken as a matter of right from any final order, judgment or decree of a section of the Superior Court. Appeals to the Supreme Court may be taken as a matter of right

only under specified conditions. Upon appeals, the appellate court shall exercise all jurisdiction necessary to do full justice and make final determination of cases before it, unless the constitutional right of trial by jury or the ends of justice shall require a new trial.

### Administration of Justice:

1) The Supreme Court shall make rules governing the administration of all of the courts in this state. It shall have power, also, to make rules as to pleading, practice and evidence, which may be applicable to all of the courts in this state, and which shall have the force of law unless changed or abrogated by law.

2) The chief justice is made the responsible administrative head of the court system, to be assisted by an executive director of the courts. There is no comparable authority under the present Constitution of 1844.

3) The responsibility of the chief justice will include, in particular, the assignment of judges according to the needs of judicial business, except that each county must have at least one resident judge. The chief justice will also direct publication of reports and prescribe records, reports and audits for the inferior courts. These matters are not provided for under the present Constitution of 1844.

## State Finances

**Property Taxes:** The present requirements of general laws and uniform rules for the assessment of property taxes is continued without any change with the further provision that property shall be assessed "according to standards of value as may be provided by law, but not in excess of true value."

All state revenues are to be payable into a single fund and be subject to appropriation for any public purpose except in the case of trust funds, grants, etc. for restricted use; or funds directly or indirectly payable to, collected or retained by counties, municipalities or school districts as provided by law.

**Balanced Budgets:** A new requirement designed to prevent expenditures from exceeding revenues, would be added by the Revised Constitution. "No general appropriation law or other law appropriating money for any state purpose shall be enacted if the appropriation contained therein together with all prior appropriations made for the same fiscal period shall exceed the total amount of revenue on hand and anticipated which will be available to meet such appropriations during such fiscal period, as certified by the State Comptroller."

There is also a new constitutional requirement that all state expenditures shall be budgeted, so far as reasonably foreseeable, in one general appropriation law covering a single fiscal year. This would prevent the practice of a "highway fund" budget covering a calendar year and "state fund" budget covering a fiscal year ending June 30.

## Amending Process

The present amending process would be changed by the Revised Constitution in these four ways:

1) Legislative approval would be given by a 3/5 vote of members of each house instead of the present majority vote requirement.

2) But proposed amendments would require the approval of one Legislature instead of two as at present.

3) The present 5-year bar against successive submission of amendments is clarified to apply only to submission of the same amendment or an amendment effecting substantially the same change as one previously disapproved by the people.

4) Amendments must be submitted to the people only at a general election (first Tuesday after first Monday in November) instead of at a special election as now required.

The Revised Constitution if approved will take effect on the second Tuesday in January, 1945, with the exception of the judicial article, the provisions of which would become effective November 1, 1945.

# VOTE Nov. 7 on the Revised Constitution

**"Violet" Opens At the Belasco**

"Violet," a gay new comedy about an adorable but whooping consumptive, is her capricious, susceptible father whose life she considers her duty to manage, opened this week at New York's Belasco Theatre.

Those who have read Whitfield Cook's Redbook magazine stories are familiar with Violet, the lovable, profound, bespectacled brat who admits she is "inured with a nimble brain." Put Hitchcock, fifteen year old daughter of movie producer Alfred Hitchcock, plays the amazing Violet with the sort of personal charm that makes audiences love and sympathize with her.

Harvey Stephens, just seen opposite Ruth Gordon in "Over 21," plays her divorced father who is renewing a romance, broken off fourteen years before a romance which Violet at first views with alarm and then schemes to bring to a head.

Helen Chaire, the Cindy Lou of "Kiss The Boys Goodbye," is the hurried ex-fiancee with Paula Trueman and Dora Merande also prominently featured in the cast of this rollicking fare.

If it happened in town, read it in the SUN.

**POLICE and FIREMEN FIGHT REVISION**

Opposition to the proposed new State constitution, because it reputedly fails to provide safeguards for the future of pensions for police and firemen was announced today by the Federation of Police and Firemen of Union County.

The organization formally went on record against adoption of the new charter after votes on the issue were cast by two representatives of each local of the Firemen's Mutual Benevolent Association and the Patrolmen's Benevolent Association comprising the federation, according to William F. Mallon, vice-president.

Mallon, member of the Elizabeth Fire Department, explained the federation's action in the following statement:

"This pension question has been before the public for a great many years and the association endeavored as an organization, with the best interests of the State at heart, to prevail upon the legislators to insert a clause in the proposed constitution, similar to one in the constitution of New York State, which would amply protect the future of the pensions of police and firemen of this State and which would once and for all settle the pension problem. We were ignored, although we believe there was a great deal of merit in our contention. All we asked was fair treatment at the hands of the Legislature.

"There are many other provisions in the proposed constitution to which we object, such as Article VI, section 1, paragraph 2, which is indefinite in its phraseology and which would cause much litigation and could do much to prevent home rule in our municipalities.

"We believe that paragraph 2 of Article VII may work against our interests because we have a special claim for our pension funds against taxes on gasoline and motor vehicles and this paragraph would put all revenues in a single fund.

"We think that paragraph 1 of section 11 of Article IV should have contained a provision that a law enforcement officer should be made a member of the parole board. We have many times made this suggestion.

"If this new constitution is adopted in its present form we feel that our cause is lost for a great number of years and the opportunity that we have been waiting for over a quarter of a century will have passed. Therefore we deem it necessary at this time, for self-preservation and for the best interests of the police and fire departments throughout the State, to ask the people of the State to reject this new proposed constitution."

planting, however, provided it is done before the ground freezes and in accordance with certain necessary procedures.

It is a little bit late now for planting evergreens, although in the milder parts of the State they may be moved with comparative safety if the soil around them is mulched to prevent early freezing. They should have a period of at least six weeks between time of planting and the time the ground freezes, so that roots may form and become well established in their new site. The secret of success with fall planting is to firm the soil well around the roots. The best way to do it is with water. After planting, firm the soil carefully and then water each plant well. Prune deciduous stock lightly immediately after the setting. Some gardeners persist in leaving long tops on their plants during the winter, but these tops tend to dry out and they are a drain on the plant's root system.

In planting roses, be sure to mulch them well on the soil above the roots. This delays freezing of the ground as long as possible and gives the roots a chance to become established. Losses from fall planting of roses, or any other rather tender deciduous material, can often be traced to the fact that they freeze dry because they are not sufficiently protected. The main precautions in fall planting, then, are to see that the soil is well watered around the roots and to mulch it heavily so that the roots can still function through-

out the entire winter.

Much of what is sometimes called winter-killing of deciduous and evergreen material is actually winter drying. With evergreens, especially, a mulch is essential. They need more moisture than most plants to support both their foliage and their wood, and the mulch holds this needed moisture in the soil. Mulching also makes it possible to plant bulbs late in the year. It does not seem to do them any harm to set them out in November or even December provided they can be surrounded by fine, unfrozen soil and are given a mulch to prevent the soil from freezing solidly around them. Lily and tulip bulbs should not be mulched too early, however. Let a slight crust form on the top of the soil before the mulch is applied. If this crust is not permitted to form, field mice may work under the bulb beds and destroy most of the plantings.

**EXPOSES to the People of New Jersey Another Gigantic Steal Involving Hundreds of Millions of Dollars of Railroad Tax Monies in the New Proposed Constitution to Be Voted Upon Election Day!**

You Will Recall That I Exposed the Handing Over of \$66,000,000 of the People's Money to the Railroads by the Republican Legislature. The Courts Sustained My Position. Last May the Court of Errors and Appeals Declared This Huge Gift Illegal and Directed That the \$66,000,000 Be Returned to the People.

**The Same Powerful And Corrupt Influences Responsible For This Steal Are Back Again, Trying To Defraud The People, This Time By A New Constitution In Which They Destroy The Present "True Value" Provision Under Which Railroad Property Is Taxed And Substitute A Provision That Railroad Property Shall Be Taxed According to "Standards Of Value" Fixed By The Legislature. This Will Enable The Railroads To Obtain Hundreds Of Millions Of Dollars In Tax Preferences And Exemptions, Should The New Proposed Constitution Be Adopted.**

**HERE IS PROOF THAT THE CHANGES IN THE PROPOSED CONSTITUTION WERE DICTATED BY THE RAILROADS:**

For many years prior to 1875 the people were confronted with notorious scandals growing out of railroad domination of our Legislature. In that year the people rebelled and curbed the avaricious railroads from obtaining tremendous tax preferences and exemptions by writing into our present constitution the provision that railroad property, like all other property, must be taxed at "true value." This "true value" provision has been the great shield of protection for the people ever since, in the repeated attempts of the railroads to plunder the State Treasury. It caused the constant defeat of the railroads in the courts and prohibited the Legislature from passing any valid legislation favorable to the railroads. The best proof of the importance of this "true value" safeguard is that since its adoption the railroads have always been defeated by the people in the courts in litigation involving railroad taxes.

## NOW WHAT DO WE FIND?

The "true value" provision has disappeared. A "standards of value" provision has been substituted in the new constitution, giving the Legislature the power to fix any arbitrary, low standard of value for railroad property. And to make doubly sure that this substituted "standards of value" clause will stand up in the courts if attacked by the people, the railroads inserted a brand new "tricky" provision to reinforce it. This is ARTICLE III, SECTION 6, PARAGRAPH 3 (3), which gives the Legislature the specific power to constitutionally tax all railroad property as it sees fit and goes so far as to authorize the Legislature to exempt railroad property entirely from taxation.

Remember, it was the same Legislature which is now proposing this constitution that made the illegal gift of \$66,000,000 to the railroads. Can you imagine what this Legislature will do if given the "green light" to reduce or exempt railroad property entirely from taxation, with the record which the Legislature has already established? WHAT A FIELD DAY THE RAILROADS WILL HAVE IN YEARS TO COME IF THIS NEW CONSTITUTION IS ADOPTED WITH THESE CHANGED AND NEW PROVISIONS!

This Legislature chose this time, when we are at war, for this referendum. Why could not the Republican leaders have waited until over 600,000 men and women in the service of their country returned, to give them an opportunity to participate in the presentation of the most important document under which they and all of us must live?

Why was not this constitution prepared by the accepted method of a constitutional convention in which all the people would have a part, rather than secretly, behind closed doors, by a small coterie of legislators controlled by the railroads?

All the other States revised their Constitutions by Constitutional Convention. New Jersey is the only State in the Union to attempt the revision of its Constitution by the Legislature, denying the people the right of a Constitutional Convention.

**Compare Below The Present Provision With The New Provision Concerning The Taxation Of Railroad Property And See The Way The Railroads Have Manipulated The New Constitution:**

### Our Present Constitution: (Art. IV, Sec. 7, Par. 12)

"Property shall be assessed for taxes under general laws and by uniform rules, ACCORDING TO ITS TRUE VALUE."

### New Proposed Constitution: (Art. VII, Sec. 4)

"Property shall be assessed for taxes under general laws and by uniform rules, ACCORDING TO STANDARDS OF VALUE" as may be provided by the Legislature.

DO THE RAILROADS STOP WITH THE DESTRUCTION OF THE "TRUE VALUE" CLAUSE AND THE INSERTION OF A NEW CLAUSE DELIBERATELY DESIGNED TO BENEFIT THEM? NO! TO MAKE PERFECT THEIR PLAN, THEY WANT POSSESSION OF OUR HIGHEST COURT, WHICH HAS FOR THE PAST 20 YEARS FEARLESSLY AND COURAGEOUSLY DECIDED OVER \$200,000,000 IN RAILROAD TAX LITIGATION AGAINST THE RAILROADS. THIS VERY COURT LAST MAY DECIDED THE \$66,000,000 TAX VICTORY AGAINST THE RAILROADS AND IN FAVOR OF THE PEOPLE.

THAT IS EXACTLY WHAT THIS NEW CONSTITUTION DOES. IT ABOLISHES THE HIGHEST COURT OF OUR STATE AND REPLACES IT WITH A HAND-PICKED COURT.

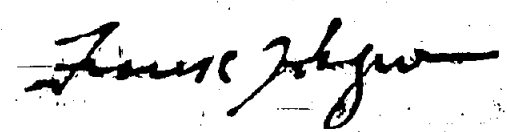

DO THEY GIVE ANY REASON WHY THIS COURT SHOULD BE ABOLISHED? NO! IS IT NOT EVIDENT TO EVERY FAIR-MINDED PERSON THAT THE RAILROADS' PURPOSE IS TO COMPLETE THEIR JOB OF PLUNDERING THE PUBLIC TREASURY BY REMOVING THIS

PRESENT HIGHEST COURT WHICH HAS ESTABLISHED SUCH AN ENVIABLE RECORD IN STANDING BY THE PEOPLE? I CAN ASSURE YOU THAT IF THIS NEW CONSTITUTION IS ADOPTED THE DAY OF YOUR VICTORIES IN RAILROAD TAX LITIGATION IS AT AN END.

**You Have Been Betrayed Once And You Will Be Betrayed Again!**

## This Is Your Fight!

This is not Jersey City's problem alone, as the railroads would like you to believe. The people of the entire state are vitally interested in this matter because 55% of the \$66,000,000 railroad tax victory, and of all other railroad taxes, goes into the State Treasury; 45% goes to all of the municipalities of the State.

  
Mayor of Jersey City

Paid for by the City of Jersey City, whose financial structure would be adversely affected because of the changed provisions for the taxation of property in the proposed constitution, and whose people have a substantial interest in the taxation of railroad property.

### War Fund Head Extends Thanks

To the Editor of the SUN: Please publish the following letter in the SUN to the citizens of Springfield.

"Please accept the thanks of the War Fund Committee and workers for your generous support in the recent drive. Those of us who have been most directly connected with the drive do appreciate your backing in the interests of our youth at home and in service.

"That we have exceeded our quota you already know. Just by what amount will not be known until final returns are received from the industrial drives in certain large companies which return assignments to local communities. In any case, this coverage and the unexpended local expense amount add to our contribution to the War Fund Agencies.

"We can all be pleased with the manner in which we are able to assist these organizations in helping our own and our allies.

ROBERT POPPENDIECK, Chairman, Springfield War Fund Committee.

Now in Italy, apart from any solid contact with the events in my home town, I find myself probing the depths of these items and attaching magnitude to their subjects.

"At times I find myself greatly amused with some columns, such as the backyard chicken incident. Still others throw a sad tear in my eye.

"During my stay overseas it has been impossible for me to write to all my friends. I would appreciate your telling them that I am well and that I have enjoyed the experiences encountered here and hope to return soon."

Mrs. Charles Phillips, Sr., wishes to thank all the workers of the Blood Bank last Wednesday. She particularly wants to thank Moritz Lichenstein who took registrations at his store, and Mrs. Helen Smith who helped send out the many letters to the donors. There were 185 donors.

A delightful lunch was served by the Canteen, Mrs. Alfred Richards, chairman, on Tuesday afternoon to the Surgical Dressings workers at the Methodist Church. The Surgical Dressings workroom is to be closed until further notice. The luncheon decorations were in the Halloween mood, even to the salad, which was orange, yellow and green. After the lunch, Mrs. L. Van Sickle of Short Hills played some songs on the accordion. Later there were games and skits. Mrs. Howard Crowell was in charge of this part of the entertainment. Corsages were given to the women with the highest number of hours of work on this project.

National - Newly captured prisoners of war in Germany will receive their first mail from home two or three months earlier than has been possible previously because of new plans for forwarding arranged by the Provost Marshal General's office. Under the new plan, the post office will accept mail for a prisoner of war immediately after official information that he has been captured by Germany is received. Before relatives in this country were compelled to wait until they received his permanent camp address - often two or three months after a man was first reported prisoner - before they could start the first letter on its long trip to the prison camp. The International Red Cross Committee has agreed to handle mail for newly captured men, and forward it as soon as it is informed of each man's camp address. It must be addressed as follows:

Rank, Name, U. S. Prisoner of War in Germany, In Care of the International Committee of the Red Cross, Directory Service, Geneva, Switzerland.

A subscription to the SUN, \$2.50, will keep you accurately informed for a year of all local happenings.
