Selander Votes With Democrats On Budget Item

By a three-two vote the Township Committee last night authorized an expenditure of \$2,500, to be included in this year's budget, for the purpose of hiring the necessary engineers and appraisal experts to re-assess industries and utilities within the

bounds of Springfield. The action was taken on motion nate inequality which now extax burden on the individual home owner by increasing ratables. "Industries and utilities have not been paying their just share of

taxes," Turk asserted. Surprise Vote

It was the surprise "yes" vote for Mayor Sciander, Republican, which resulted in the approval of Turk's notion. Committeeman Keane. Democrat, also voted in the affirmative, while Committeemen Brown and Marshall, Republicans, vere opposed. Brown and Marshall, who east their votes on the subject before Selander, were obviously surprised at the mayor's action, observers said.

In opposing the proposal, Marshall declared: "What assurance do we have we aren't throwing good-money after bad? How do the opening of the drive will be we know-industries and utilities held this year at the American aren't assessed properly right Legion Hall on Thursday eve--(Gentinued On Page 3)

In Springfield the Red Cross is always on call for home service work. It supplies nursing service and its station wagon is available to any citizen of the town when needed. Last summer the Red Cross contributed largely to the success of the awlmming project of the Recreation Committee, and it is hoped that this particular project will be greatly enlarged next summer. Citizens of Springfield are asked to help in this worthy cause again.

TO ATTEND HEALTH **EDUCATION CLASS**

Dr. F. W. Lathrop, vice-president of the Union County Medical Society, will explain the four basic points of the plan agreed upon by the Medical Society of New Jersey and the State Education Association, to school physicians of Union County and their wives.

Time will be given at the close of his talk for discussion.

New Tax Rate Set at \$6.11; **Jumps 62 Pts.**

Public Hearing On Budget to Be **Held February 25**

Springfield's 1948 tax rate will be \$6.11, exactly 62 points higher than last year. f a budget passed on first reading by the Township Committee last night is approved without changes. Public hearing on the measure will take place Febru-

arv 25. On Friday night, when civic group representatives met with the Township Committee to discuss the budget's preview, the tax rate rise was estimated at 59 points, but last night an additional appropriation of \$2,500 was voted which sent the rate figure up an additional three points. The Item ls for an appraisal of utilities and leavy industries by experts for the purpose of reassessment at a higher level. (Another story in today's

Sun outlines the mutter in detail). The estimated tax rate of \$8.11 is broken down as follows: For local school purposes, 25 points; for Regional School purposes, 8 points; for county taxes, 3 points, and for local municipal purposes, 26 points. The budget calls for \$439,450.36 to be raised by taxation s compared to \$375,640.86 In 1947. Budget Summary

Following is a brief summary of the budget increases: Under ocal purposes, salaries and wages, the figure is \$6,000 of which \$5,000 represents a 5 per cent salary adjustment for all municipal-employees; under-other expenses, the rise-is \$14,000, of which \$6,000 represents collection of garbage; \$3,000, fire and police, new cars, equipment, etc.; \$1,200, sewers, and the \$3,000 balance consists of increases and decreases in all-other

operation expenses. Under road construction with state-nid, the figure is \$8,000, of which Springfield receives approximately \$7,700 back from the state. Debt service figure is \$9,000 for bond anticipation notes to be paid off in excess of the amount paid off last year. Emergency revenues total \$3,600 which were the 1047 emergencies for legal, traffic regulation and snow

removal. get for a new patrolman for the nolico-department and a \$600 appropriation for the purchase of a second-hand ambulance, if available, to replace the present 1929 model. The new budget also provides for the purchase of a new truck for the road and sewer departments and for the purchase of a new snow plow.

Voters Approve Regional Budget

Regional High School's new budget, totaling \$283,845, of which \$150,607 is to be raised by taxation, Was approved Thenday average of about one dissenting palities including Springfield.

Isadore Himpele of Kenilworth, and Thomas Nolan of Clark Township, were re-elected to their third consecutive three-year torms on the Regional Board of Education and Richard N. Southgate became the New Providence Township representative.

Southgate succeeds Joseph Mulholland, board president, and an original member of the board, who did not seek re-election because of the pressure of private business. When the board reorganizes next Thursday night a presdient will be chosen to succeed Mulholland, who has headed the board since

its incention. It is expected the new president will be James M. Duguid of Springfield, the only original member of the board. He now holds the

vice-presidency. Himpele tallied all of the 31 votes_cast in his township, while Noland received 28 of the 29, and Southgate 27 of 29. No write-in selections were made.

Boy Scout Week

This is rather blunt. We-hope, however, that will take it in the spirit intended.

The Boy Scouts of America will be 38 years eld on February 8th—a date to remember. The boys, their parents and leaders will celebrate Boy Scout Week with them. Will we in Springfield?

If, as so many of us do, we take the Boy scouts-for-granted, they'll mark the occasion by themselves. For nearly four decades we have seen the Scouts quietly performing worthwhile service. Have we really watched — and appreciated?. —

Certainly, the boys themselves ask for no specific recognition — their "Daily Good Turns" have always been without any reimbursement... 'A Scout is Helpful." Nevertheless, do they not merit more than a friendly, distant approval - or a casual acceptance of their efforts to be better citizens, a model for all?

Their theme this year is: "The Scout Citizen at Work: In His Home, His Community, His Nation, and His World."

Let's focus our thoughts on them now-give them our whole-hearted support now — and help them succeed in their character-building mission the year 'round.

By voting, in addition to the budget for the proposals we can turn our

present school grounds, which are too often so wet and rough as to be unusable, into really good playrounds which will be of benefit o all; and we can change, our symnasium in the James Caldwell School into a recreation center with good lighting, ample seat space, and adequate heating. The cost to each home owner would be small, when spread over a period of years, and the benefits would be derived and appreciated

for many years. The proposals for the gymnasium include the following: (1) erecting new celling, (2) providing new modern bright lights, (3) removing the moving picture machine booth, which is no longer being used with the present modern type movie projector; and providing seats in the space the booth now occupies, (4) purchasing a new stage curtain to replace the old worn-out one, and new window shades to keep the sun out and the heat in. The total cost of this project is utimated at not more than \$6,-

Good playground facilities are in important part of our educational program. Under the present conditions, the cinders and gravet the play areas are hard on children's clothing and the school floors, particularly during incloment wenther. Also, the grounds have limited use due to prolonged wet and muddy condition of large areas. It is possible to make the present "fair weather" grounds into excellent recreational areas to be used by Springfield children during and after school hours and to be available to all people of Springfield for recreational purposes in conjunction with the Township Recreational Committee.

Girl Scout Corner

February is International Month on every Girl Scout calendar from Arabia to Alaska and from Australia to Sweden. There are more than two and one-half

million Girl Guides and Girl Scouts -scattered-throughout alnost overy Syllized country World scouting has grown in areas surrounding the school and spite of war oppression. In the accupied countries where Guiding and Scouting were banned under the Nazi regime, membership is now double. New Scout and Guide troops are forming in Korea, Germany, Japan, and in other countries where never before

Some of the ways in which Girl Scouts and Guides carry on their across-the-seus activities include Hundreds of letters to each other; studying each others lanvide sub-surface drainage to avoid guage, customs, history, folk the small ponds which now remaindances, and 'food; exchanging for long periods during the spring gifts; and meeting at international camps. The Girl Scouts of the United States are undertaking this year to send a million garments to children in Europe and, Asia,

This international fridenship program is rapidly becoming a force for peace, and its effect may be very far-reaching.

Board of Directors' Resolution At the Girl Scout Board meeting last Monday, a resolution was assed expressing the board's thanks to Cocil M. Benadom of Colfax road, who audited the books for 1947. In Mr. Benudom's report, there was special commendation for Mrs. Frank Bies, treasurer of the Scout Association last year.-

storms has caused serious_leakage n the class rooms and gymnasium so that it is now imperative that new roof be put on this year. It ppears desirable to spread the cost of this new roof over a numer of years by voting for the hond issue rather than having the roof constructed as an emergency neasure which would necessitate nyment in a much shorter time.

The amount requested in these proposals, as well as in the budget, ire of necessity top estimates. If roof over the James Caldwell the work can satisfactorily be School Annex, at a cost not to exdone for less, the cost will, naturally not be as high to the citizens. "The Township Committee was unable-to-agree-on an adequate ordinance regulating parking on Morris avenue. The Chamber of Commerce accepted the request of this Committee to submit a solution of this controversy which had been a source of great annovance to the town. We conducted meetings and after wide discussion made concrete recommendations to the Township Committee which were incorporated into the present ordinance regulating parking on Morris wenue. Of our own volition and at our own expense, the Chamber erected an attractive sign in the business section directing persons to the public parking place. I have been informed by police officials that this has materially proposal for rear store parking.

"A great deal of discussion has been had in connection with our proposal for .rear tore parking. One of our directors, Arthur Lennox, very graciously and without compensation prepared sketches showing the proposed improvement. ### it's in-NEW JERSEY!

This is a scene from above a busy-New Jersey highway. From your car or bus, you would -recognize it as one of the many oil refining centers which-can be found in our great state.

Here some of the largest oil companies in the world have operated since 1873. Today, New Jersey's oil refineries are continuing their forward progress. Plants are being expanded here to meet the greatest demand for oil in the industry's history. New techniques are being applied to production of resins, detergents, insecticides. Higher quality gasoline is being developed for automobiles—for farms—for the wheels of industry in New Jersey and throughout the nation. Electricity and gas-play important roles in many refining processes.

Public Service Electric and Gas Company, public servant of a great state, commends the oil refining industry on its accomplishments and its plans for future growth.

Bloomfield's Safety Council has received a police report whichshows some interesting statistics regarding automobile mishaps in 1947. Perhaps the most revealing figure of all is the one that Indicates that women may be, after all, safer drivers than men; Males were involved in 548 accidents in 1947 in that area, while the femmes were in a mere 57. Some other interesting facts of the report, designed to ferret out the reasons for automobile accidents; show that most accidents (69) occurred_on_Saturday, and that there had been at least one accident every Saturday in 1947 in the Bloomfield area. The report also finds that Thursday has been the safest-driving day, and that the hours of to 6 a. m. are the safest driving period. The most dangerous time of day to have your car on the road is between

3 and 8 p. m. And about those male-female figures mentioned above-the report doesn't say how many males were involved in accidents caused by-attempting_to get out of the way of a woman driver!

While we're giving out with the statistics, let's look at the police report of 1947 from Orange, where some interesting sociological implications can be gleaned from the columns of numbers. The police reported 1,261 arrests in 1947, with an amazingly low number of juvenile (81) getting into trouble. The biggest group of offendors were male adults between the ages of 28 and 55. Very few women were tossed in the clink during the past year, only 139 facing

the men in blue. Another oddity about Orange's erime figures is that most arrests were made during the summe months. April topped the list with 147 arrests, while the pinches dropped as low as 73 in Septem

Our Example Copied It is of little use for us to prothese matters in front of our children; they get the idea from listening to the children down the block." Yes, that is true, but what was our attitude when our children reported the matter back to us? We may very carefully have explained to them that everyone in this country is just as good as anyone else. But children do not go much by what is said to them; they follow the example of what we parents do and think, rather than what we say. They are uncanny diviners of what we actually think. The contemphique lift of an evebrow or curl of a lip, the tone of voice used when speaking of a particular group, any of these is enough to set our child's own thinking on a track from which our words alone will never dislodge him. Heading for a mark of 137 performances to become the second most-performed operetta in the repertoire of the Paper Mill Playhouse at Millburn, "The Student Prince" begins its final week Monday, February 16.

Only "The Desert Song" with 159 performances has been played oftener than Sigmund Romberg's romance of Old Heidelberg. During the present run "The Student Prince" has passed both "Naughty Marietta" and "Blossom Time" which are third and fourth in the records. However, "The Student Prince" is first in length of runs saving played only three engagementa where "The Descrt Song" ans run five times and the other wo leaders four times each. Of the three productions of "The Student Prince," the current one

with enlarged and augmented scenery and ensembles is the most ambitious. It boasts an outstanding cast, as well, featuring as-it does, Frank-Hornaday, the man who has played the title role more often than anyone else, Edith Fellows, famed for her many movie roles, George Britton, the best of he "Dr. Engels," and Clarence Nordstrom, Milburn's outstandng comedian -

Among the many highlights which win applause in the production is the memory scene in the third act in which Karl Franz dreams of his student days at Heldelberg. The Scenery of the palace walls fades from the eyes and the singing student corps and Kathle, the waitress, appear in a blue haze. Another highlight is the outstanding choreography of Felicia Sorel which hits a peak in the Gavotte danced at the King's Betrothal Ball.

-Staged by Frank Carrington and Agnes Morgan, the production of "The Student Prince" is a milestone in the 69 operetta presentations during eight sensons of operetta at the Paper Mill-Playhouse during which 35 operatine have played 1,867 performances. (Dealer: North. East-West vul-

SIGNS OF OUR TIMES: Latest reliable reports from the sunny southland reveal that there are 2,400 empty apartments right now in Miami and Miami Beach, and they're on the block for whatever landlords can get for them. Hotels are still doing pretty well, but this year's business in the winter vacationland is nothing like it was only a year ago. . Night clubs are also finding it ough sledding, . . . With : prices way up, even for wholesale commodities, business men there find t difficult to lower prices, or offor much in the way of relief to thinly-lined pockets of vacationers. . , . Those that made money during the war (and there are plenty of them) through night lubs, restaurants, and hotels, are taking this year's losses without too much of a beel, but the many. little guys who flock to Florida each year with intentions of setting up a business and living off the fat of the pooketbook are

or intend to see, "Love from a Stranger," which is currently being shown at some suburban theatree, will be interested to know that for once Hollywood did not have anything to do with a thunderstorm used as background in one thrilling scene. As John Hodiak dug under the staircase of a gloomy cellar by dim lantern light, a crash of thunder pealed ovrhead, clearly audible through the heavy insulation of the sound stage. The sound man was going to cut the scene-but director Richard Whorf signaled to go ahead.

Eva Gabor, currently in Hollywood, is being paged by Gilbert Miller, New York producer, for a role with George Sanders in a new Broadway production of "The Play's the Thing." Miss Gabor has indicated that if film commitments permit, she will accept Miller's offer.

Kinematograph Weekly, British film publication, lists numerous American films which did top box-officer business in England in 1947, with Paramount productions leading the pack. "The most popular and consistent" stars in Britain included Bing Crosby, Bob Hope, and Alan Ladd.

The publicity for a forthcomng concert at the Mosque theatre in Newark by Spike Jones and his zany hand, is a model of understatement. They're billing the Jones concert as "a lesson in music depreciation."
