Against Rats

Help of Chamber Sought in Ridding Town of Nuisance

The Board of Health last light took initial steps to start a campaign to rid Springfield of rodents. It named Board Secretary Robert Treat to launch a local publicity series on the subject and directed a letter to the Chamber of Commerce asking its cooperation insofar as the business district is concerned.

Hilding S. Thyberg, 71 Warner avenue, head of a Newark firm of exterminators, discussed the rat problem with the board at great ength. He offered his Services without cost to the community to assist in the program. Thyberg spoke of Millburn's business district as being "infested with rats" and urged that local merchants cooperate in an extermination pro-

Chief Lists Rules To Rescue Children

Many citizens expose their chilfren to-death by fire and disease very day, Fire Chief Pinkava for the organization, polled 864 varned residents of Springfield in Spring Clean-up announcement. Fire kills more children in the iome than any other single-cause I accidental death, he pointed out n an appeal to every citizen to join this year's community cleanip in an effort to rid the city of fire hazards.

The chief cited figures of The National Board of Fire Underwriters which showed that out of 6,000 children who die from home accidents every year, more, than First District where both he and 2,000 or 33 per cent are burned or sealded. Thousands more are crippled by burns.

Yet many of these tragedics could have been prevented by a little care, the chief continued. He suggested that parents spend a little more time in cleaning out" home fire hazards and protect their children's lives. He called for wholehearted

operation from every parent, every householder and civic group to check homes and community for possible fire dangers, and to clean up disease-harboring rubbish in acant lots where children play. Specifically, he listed recommendations of The National Board of Pire Underwriters to be used as a fire prevention guide by parents: Never leave children alone in the home. Be sure your sitters are mature and responsible enough for the care of young children, 2. Make certain your sitters know how to call the fire department.-

3. Be nositive-that matches. hote liquids, lighted candles and lamps are out of children's reach. 4. Don't permit children to play with bonfires or fireworks. Fires for murshmallow toasting and popcorn roasts should be held in tireplaces only, and always under adult supervision. 5. Don't dross your children in

highly flammable clothing, such as fluffy net dresses, brushed coffonor brushed rayon suits; ---6. In case of fire, get the children out of the house first, then call the fire department.

July 4 Celebration Plans Are Launched

Initial plans for Springfield's 1948 Independence Day celebration were made at a meeting in the Town Hall Monday night of representatives of nearly a dozen organizations.

Eugene Haggerty was named chairman of the event's general committee and Albert J. O'Niel was appointed assistant chairman. Harry Hart will again serve as trensurer.

Fireworks, a dance, athletic events, baby parade are being considered as part of an all-day program. A house to house canvass s being planned to solicit funds to aponsor the celebration.

Representatives attended the meeting from the Colonial Gardens Association, Bryant Park Civic Association... Citizens's Lengue. Veterans of Foreign Wars, Pire Department, Police Department, M. E. Church, Recreation Committee, Democratic Club and Sher Another meeting of the general committee will be held Monday night at the town half. Represen-Itutives from other organizations

Despite organization opposition, Brown's victory was not unexpected. Brown is to Springfield what ice cream is to a cone. The two go hand in hand. 'He's known us the man who is as tough to

lick as a bull moose. When Handville entered the campaign, even with organization support, he knew he had a rough battle on his hands. Political observers say he did surprisingly well in face of heavy omosition. Old timers in Springfield openly express the belief the sun rises and sets on "Brownie" and it was their votes which spelled the margin of defeat for Handville, Running as an independent Republican, Brown repeated his 1945 victory over the organization by

T. Callahan. His heaviest vote, 165 to 73,... was garnered by Brown in the Handville live. Handville capfured two districts, the Second and Fourth, by majorities of 28 and 42

Of the four candidates for the two Township Committee sents in November's election, only Brown has held public office. He is 73 years of age and is completing his

fifth term on the governing body. Frecholder Lee S. Rigby, local resident and businessman, led Republican freeholder aspirants with a home town vote total of 640. In the Senate race, chief interest in the state, Robert C. Hendrickson polled 589 votes here to Harry C. Harper's 410.

Among the seventeen Republicans seeking nomination for twoyear unexpired terms, one incumbent by appointment. Donald M. Pearsall, led with 281 votes here. Second was Albert J. Benninger of nearby Mountainside, who had 263, while W. Seward Lyon, Penrsall's bracketed running mate, polled 231.

Girl Scouts Heads **Complete Training**

An impressive investiture service was held last week by the Springfield Girl Scout Association for new leaders who recently comnleted a six-weeks' training course. Mrs. John Kennedy presided at the ceremony and Miss Shirley Paulson, professional Girl Scout trainer, presented each new leader with a Girl Scout pin

Mrs. Kennedy said this was the first of leader investitures and it is a goal towards which Girl Scouting has long been working. It is the aim of the local council to ask no adult volunteer to do a job for which she has not been trained. Future training courses will give volunteers an understanding of Girl Scouting, the

interests and needs of the girls, Mrs. Kennedy said. Miss Paulson, in her remarks to new leaders, emphasized influence and guidance to young Scouts, showing them a proper outlet for their energies and stability of the democratic program of the Girl

Scouts. Those invested were: Mrs. Richard Allen, Mrs. Harry Anderson: Jr., Mrs. William Buckley, Miss Victoria Buffalo, port and help with details: Mrs. Mrs. Charles Collins, Mrs. John Dreher, Miss Alice Egler, Miss Viola Egler, Mrs. John Hopping, ert Dussfer, Mrs. William Melick, Mrs. Charles Martelack, Mrs. Wal-Mrs. Russell Stewart, Mrs. Rob-ter-Meyer, Mrs. Theodore Olsce-

Mrs. Clarence Wyckoff. Porfect-attendance certificates were-awarded Mrs. Allen, Miss Buffalo, the Misses Egler, Mrs. Dreher, Mrs. Hopping, Mrs. Martelack. Mrs. Meyer, Mrs. Wyckoff and to the present leaders Mis John Hall, Miss Anne Richards

and Mrs. William-Thompson. -This gathering of both leaders and hoard members afforded. Mrs. Kennedy the opportunity to preeent to Mrs. Joseph E. Worthington, Jr., the association's gift in appreciation of her sincere efforts towards Girl Scouting in Springfield. Mrs. Worthington, past president, served from December, 1945, through December, 1947. Under her leadership, membership grew necessitating several new troops being formed. Her gift was an engraved gold

Delinquency Talk Heard by Parents

MOUNTAINSIDE-Judge Libby Sacher of the Juvenile Court Elizaboth, spoke to members of the Mountainside Parent-Teacher Association last Thursday on "Our Responsibility as Parents and Teachers >

Listing various types of juvenile delinquency, she stressed those children desiring attention as leading in delinquency, and socalled sex-crimes as second. The first Judge Sachar blamed on emotionally unbalanced home-life where the youngster will do practically anything to attain attention. So-called sex crimes are derived from children's curiosity. Judge Sachar emphasized, and stem from lack of not only proper education on the subject, but any

education whatsoever. She stated it would be her aim. not only to have proper sex education taught in the home but in the sshools, and-claimed that such education should start in grammar schools not alone in higher education.

In her most interesting talk, Judge Sachar described many of the cases which appeared before her in Juvenile Court, and also discussed the operations of the court which take in not only juvenile delinquency, but all family matters short of divorce.

Prior to Judge Sachar's talk Mrs. Edgerton Newcomb read a paper on "Pop's" activities in the Twenty-five guests from Newark, P.T.A., what he could do to help and what he would get out of it This was in honor of "Fathers Night" which was celebrated at the meeting.

Mrs. F. H. Stedman presided at the business meeting, during MOUNTAINSIDE-A First Aid which Mrs. E. If clothes make the man, then New Jersey does the making for men's ready-to-wear is a thriving industry here. There is a concentration of men's clothing manufacture in the middle Atlantic states, and New Jersey is responsible for the sartorial smartness of many men. This industry. is not confined to the manufacture of civilianclothes. A big business in uniforms is carried on, not only for the military services, but for the uniformed personnel of a number of private

In the field of taxes, too, was the public hearing on a proposed state income tax-proposed by GOP Assemblyman Lewis Hermann of Essex and opposed by the state GOP organization. At the hearing last week, the idea got healthy support from a variety of organizations, including the State Federation of Labor, the State CIO Council, the New Jer- Industrial Sites sey Education Association, the State Federation of Teachers, the S Underway New Jersey Independent Citizens' League, and, in a somewhat different category, the State League of Municipalities.

GOVERNOR OPPOSED

On the other side of this particular fence were the State Taxpayers' Association and the Newark Chamber of Commerce. With them were Governor Driecoll, who at a press conference and in a letter, went out of his way to emphasize the point that he was, and is, again in both a state income tax and a state sales tax.

Chances of an income tax going through in the face of that kind of opposition are small indeed, As for the sales tax, an interesting commentary was supplied by a news service, which calculated that sales levies in 23 states produced \$1,179,000,000 in 1947, making that tax the largest single producer of state tax revenue.

APPROPRIATIONS

While all this in the realm of taxes was going on, the Legislature's joint appropriations committee has been studying laboriously on the ways and means of \$153,611,469 during the year commencing July 1, compared with anticipated receipts of \$166,272,000. -Included-in-the-planned_outgo column is the \$10,000,000 for additional state aid to public school districts, which we have discussed frequently, and an Item of \$5,374,-000 for raising the salaries-of-the state's 17,000 employees. While this latter expenditure tops Governor-Driscoll's recommendation by \$3,724,000, the committee left out \$5,000,000 which the Governor had suggested as a starter for construction of new institutional buildings.

In connection with that building program, Squator Samuel_L. Boding of Hunterdon, chairman of the appropriations group, said consideration was being given to a plan to put a hond issue question to the voters in November, Although surveys have made it clear that institutional and educational construction is essentiala_referendia-ie a fair and-properway to decide it

Survey of Future

A thorough survey of potential industrial areas is now underway in New Jersey according to an announcement by Charles R. Erdman, Jr., commissioner of the State Department of Economic Development. The study is being conducted by private development interests represented in the membership of the Land Use Advisory Committee of the Department of Economic Development. While the work has been going on for over a year, it will be intensified in connection with a survey being conducted for the State by Dr. Homer_Hoyt, nationally known

land economist With Dr. Hoyt's help, the Department of Economic Development is now studying trends in basic industries in the several economic regions of the State. New Jersey Poll

Public Favors Daylight Saving Time

By KENNETH FINK, Director, The New Jersey Poll

Daylight Saving Time, which New Jersey, as well as many other states, will change to next week, has the overwhelming approval of the state's citizens. A New Jersey Poll just completed reveals that four out common folks in the Garden State can rest our political of five residents of the state favor the idea of setting the clocks ahead

Many people throughout the state are so en thusiastic about Daylight Saving that they suggest it be continued throughout the entire year. New Jersey Poll interviewers asked a representative group of people from all walks of life, in the city "Would you be in favor of having daylight saving

time during the coming months, that is, setting the clock an hour ahead like we did last year so that we could have an extra hour of daylight?" The replies were: "

Yes, favor 82% No opinion 6% MORE TIME FOR RECREATION

People of New Jersey approve of Daylight Saving Time primarily occause it gives them more time for recreation, such as gardening, sports, or just plain sitting and watching the sun set; and because they like the extra hour of daylight in the evenings.

Other reasons mentioned are that children have more time to play; that people can get more work done; and that working people enjoy getting home during daylight.

"Why do you favor Daylight Saving Time?" More time for recreation; for gardening; for sports; for sitting and watching the sun set; an extra hour for pleasure 42% Makes the day longer; evenings longer; gives you an extra hour of daylight 41% I like it; general approval 7% Children have more time to play; children can get more Can get more work done; can work longer 6% Save money on electricity; saves electricity 5% -Can get home from work in daylight 5% Other reasons 9% (Figures add to more than 100% because some people gave more

I DON'T GET ENOUGH SLEEP

The main opposing thoughts are that people don't get enough leep; that the change causes too much confusion, and that clock shifting is unnecessary.

Other reasons cited are that the change is too hard on children; that it's no good for farmers; that there's plenty of daylight anyhow, and that the time should be the same all year—the way God intended

"Why do you oppose Daylight Saving Time?" I don't get enough sleep; have to get up too early; I'm always tired Too much confusion; too hard to get adjusted; get all mixed up; upsets everything 25% Not necessary; doesn't do any good; all right without it .. 22% Too hard on children; upsets children's schedules; "My kid

During the next two weeks thousands of Union and Essex Countyites will make special trips to Branch Brook in Newark to view this annual fantasy in cherry blossoms and forsythia and leave reassured that Spring once more is actually on the way.

In past years as many as 100,000 persons have visited Branch Brook in one day to view this display, according to estimates of Essex County Park officials. The main display follows the winding of Second River, dividing line between Newark and Belleville. through Branch Brook Park.

Compares with Washington Carl P. Witte, horticulturist for the Essex County Park Commission, says this display compares favorably with the world famous display of cherry blossoms in Washington, D. C. The first blooms, he said, appeared a little over a week ago and should last into the first week in May.

Origin of this collection of therry trees dates back to 1927 when Mrs. Felix Fuld of Orange donated money for its acquisition and establishment. A nucleus of 2500 trees was secured from local dealers in 1928.

At that time, however, the park area for which these trees were intended was not completed and only 180 were planted in their permanent location at the Heller Parkway end of Branch Brook Park Extension. It was not until 1937 that the first creditable display occurred and since then the display has increased in grandeur and public interest.

Witte said that there are at present about 2500 Oriental Cherry trees in the Essex Park system. Other cherry trees have been planted in lesser displays in Oraton Parkway, Orange Park, Weequahic Park, Brookdale Park and Verona Park.

I have had particularly fine results with an insecticide and fungicide dust called "EndoPest." Not only have I found it excellent for roses, but for a general dusting program on flowers, fruits and vegetables. The handy dust gun package makes it most easy to use, and the action of the gun itself provides good coverage of the entire plant, including the underside of the leaves. Furthermore, it is possible to avoid the

unsightliness that usually follows dusting.

Black Spot Attacks Roses Black Spot, the most serious fungus discase attacking roses, can be controlled with this dust. You will first notice it when tiny, irregular black spots appear on the upper surface of the leaves. As the fungus spreads, the spots become larger until finally the leaves turn yellow and drop off. Black Spot results in a serious weakening of the plants attacked and is especially prevalent during hot, humid weather. During such periods, special precautions should

be taken against it. Public Invited To Inspect Model Homes

Well Built Manufacturing Company, Somerville, will hold open house Saturday and Sunday, April 24-25 from 8 a.m. to 5 p.m. for a public showing of four model homes recently completed in the Well Built factory.

These four-room homes priced between \$2,500 and \$2,600 and consist of a house shell which can be transported to the building site chosen by the owner. After the house has been delivered and erected on the site the home owner completes the interior.

Well Bullt estimates that one of their 34x30 foot homes_can_be completed inside and out for less than \$6,500 , Much of the work, officials say, can be done by the owner himself, but Well Built has compiled a list of tradesmen to do that part of the work which the nome owner does not wish to indertake.

Cabins and garages will also be n display.

You would be amazed at the variety of tests are a number of things you can tions of filter factors, developing erly should be handled by the time and other details for your booklets, articles, talks and other forms aimed at making your photography more successful -

But most of us seem to have a slightly cussed streak in our nature that makes us unwilling to take advantage of this free good advice. Take those exposure charts that come in every package of film. Use them intelligently and faithfully and it is hard to make a had exposure. Decide for yourself that a film is faster than the manufacturer says it is and the results are often disappointing.

Then there is the fellow who knows his camera will focus closer to'n subject than the instruction book recommends. He has no one but himself to blame for the fuzzy result. Or watch the photographer who

swears his secret home-made developer is better than the one recommended for a certain film, May be the results will look just as good to him-they probably won't to any one else.
When you have had a thorough

Statistics show that many housewives walk five miles a day without moving any further than the kitchen stove and pantry sink. Hold your breath when you 1800 miles a year! Mrs. America walks a distance equal to that from New York to Denver, Colorado, without leaving her kitchen. More detailed surveys show that

the average housewife takes from 300 to 450 steps to prepare a single meal. No wonder so many women have that tired feeling when evening comes around!

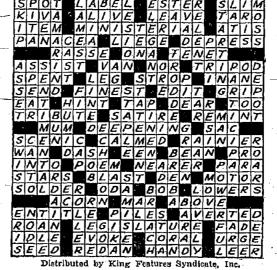

In questioning several housewives about tiring kitchen chores, the Institute For Better Living found one of the chief complaints concerned water for cooking. Stop and think how many times a day you have to run from the stove to the sink for water! Lugging a heavy pot around has always been exhausting work, and even a kettle-on-the-stove is sloppy and in-

Paramount has completed plans o re-release the Cecil B. De Mille spectacle, "The Crusades." This film was first released in 1935 and its star is Loretta Young in the first major role of her acting carcer.

It is set against a background of the world's first great war and fiercest religious war, and cost 2.000,000 at the time of its recase. Today its production would e prohibitive because of present cost levels. In one battle De Mille used 5,000 soldiers, 2,000 horses and glant catapults.

'Great Waltz" In Second Week

At Paper Mill The use of a composer's own melodies 'to build an operetta around his life has been a favorite device of artishns in the musical theatre, but in only three instances have outstanding successes greeted such works and "The Great Waltz," which begins its second week at the Paper Mill Playhouse in Millburn Monday, April 19 is one of them.

Like "Blossom Time" and "Song of Norway," built respectively around the lives of Franz Schubort and Edward Grieg with their own musical works, "The Great Waltz" used the famed Viennese waltz tunes of the Johann Strausges, father and son, to build a romantle series of incidents.

Many Striums Favorites Interpolated into the score among many other Strauss favorites are such renowned tunes as "The Beautiful Blue Danube," Tales from the Vienna Woods. "Voices of Spring," "Artist's Life," "Wine, Women and Song" and "The Emporor Waltz." As the music is played the elder Strauss appears in the person of Leslie Barrie and the younger in Arthur

For Your Health's Sake

By Herman N. Bundesen, M.D.

Since polls of public opinion are fashionable these days,

I asked ten of my non-doctor friends what they knew

about the powerful new drug streptomycin. Their vague and

confused ideas amazed me. The many inquiries on the same

Dinner Menus This Week

Corned Beef and Cabbage Plus, 1776. is one of the interesting main dishes suggested on this week's Extension Service Dinner Menus. Springtime's abundant vegetables used with the traditional corned beef and cabbage add flavor color and food value. Even "Jiggs" would enjot this dish if cooked according to the following directions: -

Have 3 pounds of corned beef made into a roll and tied. Cover with cold water and bring to the boiling point. Cover with hot water and simmer 'slowly, until done, about 8 hours. About 80 minutes before serving time, add pointoes, halved, 4 medium carrots, 4 medium onions, 2 cups green beans, whole. After 15 minntes add one small cabbage quar-And If the family isn't too hun-

gry, and there's some corned beef eft-over, the deluxe corned heef hash suggested for the next day will be just as popular. The secret of this dish is the use of the raw ground potatoes, a little grated onion, chopped parsley and pepper. Use 2 cups of ground raw polatoes to one cup of ground corned beef, not too fat: Have frying pan well greased, add mixture and allow to cook in a heavy ron skillet over a medium low flame until nicely browned. Turn carefully so all uncooked parts are close to heat, cook slowly untll potatoes are done and surface nicely browned. If heat is kept low a cover will not be needed and hash will be nice and crusty! Serve with a ponched egg garnished with hopped paraley on each portion, Menn
