## LISTEN

### FRIENDS!!

A couple of years ago an individual scoured this general area in an effort to select the community offering the best advantages for apartment project developments in which he planned to invest hundreds of thousands of dollars. . . .

The lead story in today's paper carries full and complete details of the latest project. . . . it involves a cost of more than \$10,000,000 (that's ten million dollars). . . .

Remember the opposition to Short Hills Village? . . . it was hot and heavy for a time. . . .

Just in case you're interested there is an average of less than one-third child per family in General Greene Village. . . .

Springfield put the damper on industry for years and now it has come to realize that a community without industry, unless it's full of millionaires, is a doomed community. . . .

# \$10,000,000 Apartment Planned

## Who Can Resist That Smile?

Betty Hillman, 5 1/2, whose twin sister, Linda, is recovering from polio at the Eastern Area Sister Kenny Institute in Jersey City, is working with her daddy, Norman Hillman of 150 Linden Avenue, to make a substantial thank-you gift to the Sister Kenny Foundation. Betty has collected gifts amounting to more than \$10 from 58 playmates and their pets, and the fund she and her father are raising was nearing the \$500 mark last week.

## Polio Victim's Twin Sister Scores High for Kenny Fund

Cats, a dog, a cow, a rooster, a canary and even a turtle have jumped the gun on the Sister Kenny Foundation Campaign which starts on August 20, and are contributing ahead of time. It came about this way: Five-year-old Linda Hillman, who lives at 150 Linden Avenue, Springfield, came down with polio, and was taken on June 20 to the Eastern Area Sister Kenny Institute at the Jersey City Medical Center. The Kenny treatment has benefited her greatly, and she is now well on the way to recovery.

So great was the gratitude and thankfulness of Linda's father, Norman Hillman, that he decided to make an all-out effort to do something in return for the Sister Kenny Foundation. All Kenny facilities are entirely supported by voluntary contributions, and serve polio victims regardless of their race, creed, color or ability to pay. When Betty Hillman, the twin sister of Linda, heard of her father's plan to aid the Sister Kenny

## County Swim Meet Set For Aug. 11th

Union County's top amateur swimmers are expected to compete in the 25th Annual Union County Swimming Meet held at Rahway River Park Pool, Rahway, on Saturday, August 11, at 2 p.m.

The meet, sponsored by The Union County Park Commission, is sanctioned by the Amateur Athletic Union and open to residents of Union County only. The program will consist of the following events: For senior men—18 years and over, 100 yard free style, 100 yard back stroke, 100 yard breast stroke, diving and 200 yard free style relay; for senior women—18 years and over, 100 yard free style, 100 yard back stroke and diving; for junior boys—11 to 14 years, 100 yard free style, 50 yard back stroke, 50 yard breast stroke, 100 yard free style relay and diving; for girls—11 to 14 years, 100 yard free style and diving; for midjet boys—11 to 14 years, 50 yard free style, 50 yard back stroke, 50 yard breast stroke, 100 yard free style and diving; for midjet girls—11 to 14 years, 50 yard free style, 50 yard back stroke, 50 yard breast stroke, 100 yard free style and diving.

## STUDY OF CAVES

An introduction to the science of Speleology—the study of caves—will be presented at a special Sunday afternoon program at Trentside Museum, Watchung Reservation, when Dr. James A. Powell of the Academy of Natural Sciences, Philadelphia, discusses "Caves and Cave Exploring" on August 5, at 3 p.m. The talk will be illustrated with colored slides, the Union County Park Commission announced. Host club for the month of August, at Trentside Museum is the N.J. Mineralogical Society, C. Neuburg, Westfield, is secretary. The public is invited to attend this lecture and discuss any mineralogical problems or questions they may have with members of the host club.

## New Zone Law To Restrict Use of Land

### Public Hearing On Measure Set For August 8th

Use of land as well as of buildings may be restricted here if an amendment to the 1938 zoning ordinance which was introduced last week by the Township Committee receives final approval. The measure would require that vacant properties meet the same zoning conditions as buildings in the respective districts. It was introduced as a result of complaints by residents of Alvin Terrace against Columbia Millwork and Lumber Company of Maple Avenue. Home-owners told the governing board that the company is storing lumber in the extension of its rear lot. They charged the lumber has been falling into their adjoining back yards.

At a recent Township Committee session residents asserted the company used the property for storage both before and after its application for a zoning variation was denied by the Board of Adjustment. Max Sherman, representing the company at the meeting of the zoning board, contended that utilization of vacant land was not restricted under the zoning law. Sherman's opinion was shared by Township Attorney Robert F. Durby, who said that an amendment to the zoning ordinance would be considered. He explained that when the measure was adopted in 1938 statutes forbade restrictions on land-use. This provision of the state law recently was amended, he pointed out.

## Egler Attends Engineering Camp

Emory G. Egler of 300 Morris Avenue, was among the 150 freshmen students from Stevens Institute of Technology who left Sunday for the college's engineering camp at Johnsonburg.

During the six-week summer course, which is required of every Stevens freshman, outdoor life and a program of sports are combined with a civil engineering course in which the students have an opportunity to do actual field work.

## State Civil Defense Plan Featured By Medical Phase

TRENTON—Detailed information on how to plan for medical and health aspects of civil-defense was given to local civil defense planners in New Jersey this week with the release of the "New Jersey Plan for Emergency Medical and Health Preparedness." The plan was prepared by the State Medical and Health Preparedness Committee, one of several committees appointed by Leonard Dreyfus, State Director of Civil Defense, as a unit of the state civil defense organization. Dr. Daniel Bergman, of Trenton, state commissioner of health, is chairman of the Medical and Health Preparedness Committee. The committee was appointed in the summer of 1950. Sub-committees of the parent committee worked on different areas of the overall plan and prepared specific portions of it. Much of it involved breaking new ground because no similar plan had been published. The plan assumes that the most destructive single force with which civil defense personnel may have to contend is the explosion of an atomic bomb over a sizable city. Authors of the Plan feel that if civil defense agencies are prepared to meet this kind of attack, they will be prepared to meet attacks of lesser severity or untidiness not necessarily associated with war. The Plan also includes, however, consideration of civil defense activities in the event of other types of warfare, such as bacteriological, psychological, etc. The first chapter of the Plan describes an atomic explosion, indicates the distances from the point of blast at which injury and damage are likely to occur, tells

## Architect And Developer

William Chirgolis

Nicholas Angleton

## Secretary Needed By Zoning Board

Wanted—a secretary of the Springfield Zoning Board of Adjustment. Former Township Clerk Robert D. Treat who recently resigned that post also gave up four other municipal jobs. One of them was the secretaryship of the zoning board. Eased with the vacancy the board postponed its regular session until the next scheduled meeting on August 23.

Fred H. Compton, board chairman, indicated that it was hoped that Mrs. Carolyn Harrison, acting township clerk, until the end of the year, would serve in the post. The board has not discussed filling the vacancy. He expressed belief that the person elected township clerk in November will be appointed to the post. He pointed out the clerk's job is a full-time position and no appropriation would have to be made for geographic work.

It was indicated that only routine matters were on the agenda of the postponed meeting.

## 17-Yr.-Old Drivers Told of N. Y. Law

Motor Vehicle Director Martin J. Forber cautioned 17-year-old New Jersey licensed drivers that they chance arrest if they drive in New York State.

In the Empire State the minimum age for drivers is 18 years and it does not recognize licenses issued to persons under that age by other states.

New York has one exception to the 18-year-old restriction. It does issue senior licenses to 17-year-old high school students who sign up for the driver training course.

But because New York does not recognize New Jersey's licensed 17-year-olds, New Jersey, in turn, has refused to recognize New York's senior licenses.

## Township Seaman At Turkish Port

James G. Catello, seaman, USN, of 394 Morris Avenue, Springfield, visited Izmir, Turkey, July 23, when the light cruiser USS Worcester anchored at the Asik Marmara port for a five-day call. The most important town in Asia Minor, and a principal port of the Turkish Republic, Izmir is one of the earliest homes of the Christian Church. Many churches in the United States now bear its ancient name of Smyrna. Tours of the city will enable the crew of the ship to see many Roman ruins that dot Izmir. The Worcester operates with the Sixth Fleet in the Mediterranean.

## Permanent Pastor For Lutherans

An event in the religious history of the Springfield Community was marked recently with the official opening of the Springfield Lutheran Church with a permanent pastor in charge of service. Preliminary services were held in the auditorium of the Raymond Chisholm School. It is expected that some time in the future the congregation may have its own building.

Rev. Eric H. Rieker is the permanent pastor of the new church. He conducted his first service here on Sunday, July 15. The new congregation has been assisted by pastors and members of neighboring Lutheran churches.

Rev. Mr. Rieker is the son of Mr. and Mrs. Hans Rieker of Woodside, L. I. He is a native of Queens. He attended Townsend Harris High School and Stuyvesant High School. He graduated from Concordia College, Bronxville, N. Y. He received his degree in June from Concordia Theological Seminary, Springfield, Ill.

The new pastor was ordained and commissioned at Trinity Lutheran Church, Astoria, L. I., as a missionary at large of the Atlantic District of the Missouri Synod.

Rev. Mr. Rieker was married on June 24 to Miss Mary Ann Kleinhardt of the Bronx. The ceremony took place in the same church in which he was ordained.

## Overlook Receives Bids for Addition

The bids for construction of the New Building at Overlook Hospital were received from eight contractors and ranged from approximately two million dollars to two million three hundred thousand dollars, the lowest bid being made by Fred J. Brotherton, Inc. of Hackensack.

To this must be added the separate cost of elevators, the architect's fees, a contingency fund required by the state, equipment costs and other expenses totaling three hundred and fifty thousand dollars more.

The Hospital authorities are disappointed that no lower bids were received, but in the present state of uncertainties concerning material prices and deliveries, results are not wholly unexpected. Nevertheless, it poses a serious problem to make both ends meet.

Now that the construction costs are known further intensive efforts are being made with the architects and others to work out within the next 30 days a satisfactory adjustment of plans and finances so that actual construction can start without delay.

## 1100 Unit Project Design Similar to General Greene

A huge garden-apartment construction project which embraces a total of 1,100 units with 3,612 rooms to be built on a site of seventy acres has been placed before the Zoning Board of Adjustment by the Troy Corporation of which Nicholas Angleton, developer of General Greene Village and Short Hills Village, is president. Location of the giant development, which will cost more than \$10,000,000 will be on the property now owned by the Flemer Holding Company at Meisel Avenue and Milltown Road.

## First Aid Drive Nears Completion

Many merchants had made contributions during the second week of the third annual first aid campaign of the Springfield First Aid Squad. A portion of the proceeds will be used to finance construction of the group's first headquarters building. The 1951 fund goal is \$5,000 as compared with the \$2,500 which was collected last year.

Present plans provide for the allocation of \$3,000 of the contributions for the building project. Mrs. John Wilson, of 163 Linden Avenue, squad dispatcher, said. Currently the group meets at her home.

Arrangements tentatively would divert \$1,000 for the reserve fund for a new ambulance, Mrs. Wilson explained. A similar sum would be used for operating expenses. Purchase of a site and of as large a quantity of building materials as possible will be the first move in construction of a headquarters, according to Mrs. Wilson. Squad members will help build the structure which would have a room for drills in addition to a garage for the ambulance.

It was pointed out that the room is needed for weekly drills and to house the ambulance which now is kept in a rented municipal garage in Center Street. The garage is not heated and that makes the ambulance difficult to start in cold weather, Mrs. Wilson said.

Currently business men are being canvassed. A house-to-house canvass of residents is scheduled for next month. Willard Watkins is campaign chairman and Harold E. Marter is squad president. The group has twenty-two active members.

## War Relief Unit Headed By Mayor

Mayor Robert W. Marshall has accepted the chairmanship of the local American Relief for Korea Clothing Collection Committee. The chief executive in an appeal to township residents today urged that they search their attics, trunks and closets and send all old clothing which is clean and usable, to fire headquarters, which has been designated as local collection headquarters.

The Mayor pointed out that the campaign to get clothing for the unfortunate residents of Korea will be carried on during this month. He said that the program is a part of a \$10 million program to help Korea.

With an average of three persons per apartment the project will mean a population increase of 3,000 or more than a 48 per cent jump. Storm sewers, fire hydrants, water, and gas main and electrical connections will be installed. All construction and installation will comply with municipal requirements.

Announcement has been made that the project will be constructed in stages commencing with Section D on the west side of Meisel Avenue. This will follow in sequence Sections A, B, and C. Approximately one-third of the buildings will be ready for occupancy by 1953; one-third in 1954 and one-third in 1955. It has been estimated that about 360 families will move in for occupancy during each of the years of 1953, 1954 and 1955.

The Troy Corporation has announced that the shopping center will be located on a six-acre plot 400 by 600 feet. Buildings will be set back from Meisel Avenue. There will be parking facilities there for 600 cars. Estimated cost of construction of the center will be \$250,000.

Many township residents who have been apprehensive of the project have found difficulty in realizing the immensity of the gigantic project. Together with other garden apartment units either completed or under construction it inevitably will place Springfield among the leading municipalities of the county.

Currently the area is zoned for one-family A residence. However, the corporation is seeking a variation to have it zoned for multiple-housing units. It is expected a preponderance of the township's population will favor the project.

## TENNIS TOURNAMENT

Eliminations in the 16th Annual Union County Mixed Doubles Tennis Tournament will be held at the Warnance Park courts, Roselle and Elizabeth, beginning on Saturday, August 11, at 10:30 a.m. The tournament is open to residents of Union County. Information and entries may be obtained from George T. Cron, Assistant Supv. of Recreation, The Union County Park Commission, Box 231, Elizabeth. Entries close at noon, Tuesday, August 7.

The total mission is to preserve life and health—both mental and physical.

The mission of the emergency

NOTES & NEWS OF THE WEEK

## PEOPLE WE KNOW

By KITTY OEHLE

Major and Mrs. Edwin J. Schnell and children, Edwin Jr., and Carol, of 16 Roser avenue, returned Sunday from a two-week vacation at Chadwick Beach. Major Schnell who was on furlough, has reported to Camp Kilmer for reassignment.

Mr. and Mrs. Hugo Seibenbusch, of 190 Teater avenue, returned last Thursday on the Queen Elizabeth from a two-month European tour. They visited relatives while travel-

ing through France, Germany and Austria.

A daughter, Nancy Elizabeth, was born July 27 at Overlook Hospital, Summit, to Mr. and Mrs. Adam LaSota of 16 Country Club Lane. The couple have a son, Larry, 2½. Mrs. LaSota is the former Vera Hafemann of Hillsdale.

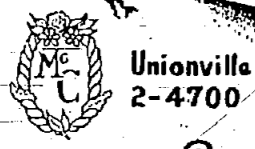

Mrs. John Cain and children, Cathie and Paula, of 133 Meisel avenue, have returned from a month's stay at Quincy, Mass., where they visited relatives.

Miss Anne Cubberty, of Roselle, formerly of Springfield, is confined to Presbyterian Hospital, Newark, following a knee operation.

The William Merkels, formerly of 85 Henshaw avenue, are now residing in Clark Green, Pa.

Mr. and Mrs. William E. Kennedy and daughter, Susan, arrived aboard the Murostania after residing in England for four years.

### To Become Bride Of Anthony Smar

Miss Edith Blumberg's engagement to Anthony Smar of 19 King street, Clark Township, has been announced by her aunt, Mrs. Lillian Block, of 1293 Clinton avenue.

The bride-elect attended Plainfield schools and is employed by Fanny Farmer, Plainfield. Mr. Smar is a graduate of Regional High School and is a member of the Clark Township Police Department. He served with the Navy in World War II.

### St. James Bridal For Miss Billich

Mrs. George Roessner

### Regional Grads' Troth Made Known

Announcement has been made by Mr. and Mrs. William J. Wiatroski of 190 Washington street, Berkeley Heights, of the engagement of their daughter, Dolores Ruth, to Robert L. Corveley, son of Mr. and Mrs. Frank M. Corveley of 349 Hickory street, Garwood.

Both are graduates of Regional High School. Miss Wiatroski is employed by Ciba Pharmaceutical Products, Inc., Summit. Mr. Corveley is with the Hester Construction Co.

They are staying with Mr. Kennedy's brother-in-law and sister, Mr. and Mrs. Robert Dvor of 79 Baltusrol way.

Mr. and Mrs. Thomas E. Lloyd of 25 Oakland avenue, have returned home after spending their vacation at Ocean Grove.

Leaving Saturday for a vacation trip to Maine and Vermont, is Mrs. M. P. Brown of 121 Meisel avenue.

Judy and Nancy Widmer, daughters of Mr. and Mrs. Dean Widmer of 132 Meisel avenue, are at Camp Madeline Milford, Girl Scout Camp at Branchville, N. J. Nancy is a counselor-in-training at the camp.

Mr. and Mrs. Erwin S. Doerries and son, Leo, and Mrs. Erwin F. Doerries, formerly of 35 Keeler street, have moved to their new home at 83 Battin road, Fair Haven. The Doerries have been residents of Springfield for many years.

Mr. and Mrs. Robert Phillips and sons, Robert and Michael, of 140 South Maple avenue, have returned from a two-week vacation at Bohmer.

Mrs. Frank Holter and children, Anita and Bill, of 137 Meisel avenue, have returned from a week's stay at her mother's home in Baltimore.

Miss Elizabeth Billich, daughter of Mr. and Mrs. Emil Billich of 529 South Springfield avenue, became the bride Saturday at 4:30 p.m. of George Roessner, son of Mr. and Mrs. Anton Roessner of 53 Battin Hill avenue. The double ring ceremony was performed in St. James Church with the Rev. John Mahon officiating. A reception followed at the Old Evergreen Lodge.

Miss LaVerne Smith was maid of honor and bridesmaids were the Misses Barbara Wate and Mary Ann Roessner, sister of the bridegroom. Edward Roessner was best man for his brother, whose ushers were another brother, Robert Roessner, and William Billich, cousin of the bride.

The bride wore a gown of champagne lace over nylon tulle and satin with a seed pearl necklace and a nylon veil arranged from a seed pearl crown set with rhinestones. She carried a prayer book with an orchid and lilies of the valley.

When they return from a honeymoon trip through the South, they will reside in Springfield.

Mr. Roessner and his bride are both graduates of Regional High School, and both are employed by the Springfield Sheet Metal Works.

### Selina Meissner Is Church Bride

The wedding of Miss Selina Meissner, daughter of Mr. and Mrs. Herman Meissner of Madison Hill road, Clark, and Russell A. Dumont, son of Mr. and Mrs. Frederick Dumont of Swanton, Vt., took place Saturday in St. Mark's Church, Rahway. The reception followed at the Meissner home.

The bride was attended by Miss Joan Beers as maid of honor and by her sister, Miss Dorothy Meissner, as bridesmaid. Henry Shuster was best man and Anthony Kinick served as usher.

A gown of satin fashioned with a French lace neckline, a tight bodice and a long train, was worn by the bride. Her finger-clip veil was attached to a satin trim trimmed with orange blossoms and she carried a spray of assorted white flowers.

A graduate of Regional High School, the bride is employed by the Hyatt Roller Bearing Co., Clark. Mr. Dumont attended Vermont schools and is a seaman I-C aboard the destroyer Rich. On their return from a trip to Canada they will make Swanton their home.

### Playground Activities

James Caldwell Playground  
Angela Chiaravalle  
Susan Black

With added leadership many new activities are possible. Dodge ball and hand ball are still popular despite the heat wave. Peter Coan was the winner for his team in an exciting game of dodge ball.

In tether ball Richard Coggianno and Ed Coan seem to hold top places in our tournament. In arts and crafts, braided bracelets are replacing lanyards in popularity. These bracelets give the children a chance to use original ideas and to do a great deal of quiet work. Ed Coan completed the first one at this playground.

Beaded rings are still very popular. The following people worked on them this week: Joan Steels, John French, Richard Norman, Peggy Haggerty, Sharon Lore, Patty Dreher, Patty Cawley and Stella Byan.

The Doll and Stuffed Animal Show was held last Friday. Again we thank our judges, Mrs. Coan and Mrs. Cawley, for helping to pick our winners.

Helen Mitwacht won the prize for the cutest doll, a German baby doll. The prettiest dolls were "Ann" and "Sue" entered by Peggy and Patty Haggerty, and "Patty" and "Peggy" entered by Patty Cawley. The most realistic doll was a crying doll owned by Sharon Lore. Patty Dreher entered the biggest doll, "Patty Lou." The largest collection was entered by Annabel Bartlath. Ceramic dolls entered by Ed Coan were most unusual.

The stuffed animal prize was awarded to Peggy Cawley who entered a large brown bear. Ribbons were presented to all the winners and lollypops, thoughtfully donated by one of our mothers, were enjoyed by all.

Our next show will be "Wheels on Parade" tomorrow, Friday, at 2:30 p.m. This show calls for the decoration of anything on wheels. We expect a colorful parade and urge mothers to come to see it.

### Raymond Chisholm Playground

Although hot weather prevailed throughout most of last week, tether ball remained our most popular game. The children didn't seem to mind the heat as our paddles were in constant use. Dennis McDonough, Albert Meslar, Charles Perrygia, Richard Battelle, Care Haupt, Joe Schaffernoch, Charlie Davis, Sue Klach and Ed Klach are all energetic players. We expect to pick a champion in each age group and these same people will be sent to James Caldwell Playground to play against that playground's winners.

As usual, we had Arts and Crafts on Monday and Wednesday afternoons last week. Leather purse bracelets were made by: Bobby Siles, Kathleen Glynn, Marilyn Schroeder, Arleen Straver, Dick Alder, Edna and Frank Zurawski. Pot holders were made by: Kathleen Glynn, Bobby Clifford, Frank Zurawski, Tony Colatruglio and Bobby Siles. Richard Strickler made a lovely glimp bracelet. We also had some lovely beaded rings made by: Charlotte Bodnar, Lorie Rosinger and Carol Becker. Lanyards and key chains were also made by many of the children.

Checkers, Dominoes, Animal Rummy, coloring and clay work have been among our quiet afternoon games.

Last Friday afternoon we held our annual Doll and Stuffed Animal Show. We had some lovely entries. The winners were: Mary Lee Moran, largest doll; Della Savitins, prettiest doll; Ruth Bodnar, best-dressed doll; Charlotte Bodnar, most unusual doll. Anita's dolls were from Holland and were dressed as a Dutch boy and girl. John Bradley won a prize for the collection of all cloth animals he made.

Many, many thanks once again to our judges. They did a fine job. Our thanks go to: Mrs. Sperling, Norma Fendel and Jeannette DeVone.

Tomorrow, Friday, we will have our "Wheels on Parade" show. The children use originality in decorating bikes, wagons, carriages and

with Linden at Wheeler Park, Linden, Tuesday and chalked up its second straight victory, 12 to 10. The lineup was as follows:

- Battelle—CF, SS
- Donington P
- Altieri—SS
- Holmarik—SS-C
- Ruby—1B
- Rohenkamm—1B
- Colburn—3B
- Tucsunuk—LF
- Puntigam—RF, 2B
- Hector—2B
- Lawn—CF
- Coan—RF

Names will be taken this week for our Annual Talent Show which will be held Thursday evening, August 16. The show will be held in the James Caldwell auditorium and all Springfield children are urged to participate.

### HAPPY BIRTHDAY

A Happy Birthday is extended this week to the following residents of Springfield:

## Know Your Government By N. J. Taxpayers Association

### MANPOWER SHORTAGE: LITTLE WONDER!

The average Federal Government employee is required to work about 31 days less each year than workmen enjoying liberal standards in industry, according to Senator Paul Douglas.

To newspaper readers in New Jersey, where manpower frequently is at a premium and federal taxation is heavy, the news comes as something of a shock. So do reports of payroll padding, hoarding of civilian workers and other examples of extravagance in Federal personnel practices. A House of Representatives investigating committee summed up the situation, stating: "In general, executive agencies could do a better job with fewer employees."

Two developments offering hope for improvement are: (1) the moves currently under way in Congress looking toward improved personnel practices, and (2) expressions from New Jersey's Congressional delegation indicating agreement among members of both political parties that "something should be done."

Legislation under consideration by Congress includes a measure to reduce maximum annual employee leave from 28 to 20 days and bring about other reforms. The "army"

of 2 1/2 million civilian employees of the Federal Government would be reduced under other proposals either by restrictions upon filling vacancies or by cutting personnel funds in the appropriations bills now being enacted.

Comments of the New Jersey law-makers were rounded up by the New Jersey Taxpayers Association. Among the forceful statements was one from a Senator who called for public support of efforts to secure Congressional adoption of the Hoover Commission recommendations. A Representative declared "any legislation to eliminate this disgraceful waste and inefficiency will have my absolute support." He added that "the only way Congress can do anything is by control of the purse strings." Another favored overall pruning of personnel, particularly in the non-defense agencies.

## CHURCH SERVICES

### From Files OF THE SUN

Ten-Years Ago

About 600 pounds of aluminum was collected in Springfield in response to Mayor Selander's proclamation urging cooperation with the Office of Civilian Defense for National Defense. Boy Scout Troop 70 canvassed election districts one and four and members of Boy Scout Troop 66 canvassed the second and third districts. Mayor Selander, who was in charge of the collection, assisted by Road Chairman Fred Brown and Township Treasurer A. E. Anderson, expressed thanks to the citizens of Springfield for their efforts in producing the vital aluminum.

Burtis J. Jones and Gordon L. Stiles of Springfield left Fort Dix for Camp Davis, N. C., where they were to be assigned to the 96th Coast Artillery for training.

Police officers of Springfield,

sick, comforts the sad, and redeems the sinner, will be the central theme at Christian Science services next Sunday.

The Lesson-Sermon, composed of selections from the Holy Bible (King James Version) and the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is entitled "Love."

The Golden Text is from Jude: "Keep yourselves in the Love of God, looking for the mercy of our Lord Jesus Christ unto eternal life." (1:21).

These selections from I John will be read: "My little children, let us not love in word, neither in tongue; but in deed and in truth... God is love; and he that dwelleth in love dwelleth in God; and God in him." (3:18, 4:16).

Citations read from Science and Health include: "Love is impartial and universal in its adaptation and application." (3:3-5). "Universal Love is the divine way in Christian Science." (266:18-19).

## YOUR GARDEN THIS WEEK

ERIC H. PETERSON, JR.  
Union County Agricultural Agent

### NEW INSECTICIDES KILL JAP BEETLES

Japanese beetle grubs which sometimes damage a lawn so much that portions of it can be rolled like a rug, may soon need some attention from home owners. If more than five grubs are found to the square foot, better get busy with the insecticide. The recently developed materials, DDT and Chlordane, effectively control Jap beetle grubs and

they are cheaper and less dangerous to handle than insecticides formerly used. A dust containing 10 per cent DDT should be used at the rate of 5 pounds for each 1,000 square feet. Dust containing 50 per cent DDT should be used at the rate of 1 1/2 pounds to each 1,000 square feet.

The DDT powder can be mixed with fertilizer or soil as a help in getting uniform distribution. Watering the lawn after application will wash the DDT into the soil

and produce quicker results. DDT appears to remain effective in the soil at least 4 or 5 years. Chlordane, newer than DDT, does a quicker job of killing grubs, but it has not been tested long enough to determine exactly how many months it remains effective. An area of 1,000 square feet should be treated at the rate of 5 pounds of 5 per cent dust or one-half pound of 50 per cent wettable Chlordane in 25 gallons of water. A combination of Chlordane and DDT gives both quick and lasting control. Use one-fifth the recommended rate of Chlordane, plus the DDT treatment.

## First Church of Christ, Scientist

322 Springfield Avenue, Summit, N. J.  
A BRANCH OF THE MOTHER CHURCH, THE FIRST CHURCH OF CHRIST, SCIENTIST, IN SPIRIT, MASS.  
Sunday Service 11:00 A. M. Sunday School 11:00 A. M.

# AUGUST 10th IS THE DEADLINE!

At that time the Chamber of Commerce will go to press with its new edition of the Springfield Business Directory.

The directory will be distributed to every family in town and will contain a classified list of all businessmen, professional men and industries who are members of the Chamber of Commerce. Your \$10 dues for the year entitle you to a listing.

Remember -- deadline is August 10th. Mail your checks today to:

RAY BELL, Secretary  
CHAMBER OF COMMERCE  
SPRINGFIELD, N. J.

## Your Library

Summer seems to have arrived with considerable less fanfare than usual, but with its usual enervating results. No need to sink into the doldrums though, there are many interesting and quiet ways to pass your leisure time during the hottest weather.

How about a new book for instance? Summer or Winter makes no difference to the authors for the books come from the presses in a never-ending stream. Mysteries, westerns, historical novels, biographies and all kinds of reference books—something to fill every need. Even summer cook-books are included, offering recipes for easy, nutritious meals for jaded appetites; and attractive table settings and other suggestions for summer entertaining.

Hints for the gardener too, and helps on canning and freezing. In fact there are hints and helps for every phase of modern living. But for sheer relaxation and (if you've a good imagination) a sense of coolness, you will enjoy books such as "We Took to Cruising" by Talbot and Jessica Hamlin—"Pittsylvania Country" by George Swetnam—"Trees, Trails and Hobbies" by Ruth Cooley Cater and "Country Country" by Ralph Nading Hill. These are just a few suggestive titles from among the newer books; there are many others written so interestingly about the cooler regions of the country that they help bring vacation and right into your home.

Other new titles include "Return to Fawcett" by James Michener—"The Catcher in the Rye" by J. D. Salinger—"The Homes of America" by Ernest Flekering—"The Southwest Corner" by Mildred Walker—"Flora" Arrangements" by Carolyn Peterson and "Antique Collecting for Everyone" by Catherine McClinton.

### Shope 18, Sheet Metal 3

#### Indians Defeated By 15 to 3 Count

By DONALD ROSSELET

A spectacular catch, 18 catches and five Springfield Sheet Metal miscues all added up to 12 runs and an 18-3 triumph for the league-leading Regional Shoppers over the Metal team. The Shoppers hit three homers and four triples while increasing its lead to two and one-half games. Tommy Palmer and Chet Searles bombarded Freddy Daneman for eight errors. Cliff Smith and Don Eichhorn relieved him. Bill Kozak accounted for the remaining four runs. The Shoppers scored twice in the second, and three times in the third to sew up the contest. They added insurance runs in the fourth (1), fifth (2), sixth (2), and seventh (3). Herb Penney, playing left field, made the best defensive play of the game. He went after Gerry Perera's long fly, leaped high in the air, grabbed the missile, and took a corner-sault; but hung on to the ball.

The Shoppers dropped the Indians deeper in the standings with a 15-3 romp at the Meigs avenue diamond. Jack Schock and Penney lost two bulls deep in center field. The PBA lost a 9-1 decision to Straus Staves and as a result found themselves in third place.

Frank Callery had the game's only home run. Straus Staves had the plate six times in the first frame and the margin was 100 great for the PBA in six games.

Twilight Softball League

W 1, 1st	9 2 818
Regional Shoppers	5 2 690
Straus Staves	4 4 690
PBA	5 5 500
Springfield Sheet Metal	5 6 455
Indians	4 6 400
Braves	2 8 200

That the Regional Shoppers' potential is sadly lacking when it comes to hitting is a proven fact. It was evidenced anew at Waremeo Park Sunday when the Union Braves best them 4-1 in the opening round of the County Softball Tourney. The Regionals fell behind in the first inning when Bert Jones walked four to give the Braves an early lead. The only hit off Jones followed. The only hit off Jones followed. The only hit off Jones followed.

THE CHOICE FOR THE CHOICE STAKES—Uncle Miltie, one of the nation's top three-year-olds, faces his sterner sophomore test in Saturday's \$25,000 Choice Stakes at Monmouth Park over a grassy mile and a quarter run. Left—the flashy son of Heathbroom inactively eyes his groom as he washes out his harness; top center, a close-up of the horse's finely etched head, and upper right, Uncle Miltie in action through the Monmouth Park home stretch. Below is a clubhouse view of the racing course and, right, trainer A.C. Colands, who is guiding Uncle Miltie in his quest for the three-year-old title. The Choice Stakes tops a program of eight races on the season's final Saturday of racing at the beautiful seaside course.

### Golf Tourney Set By County Park

Gallopers Hill Golf Course, Kenton, will play host to public-link golfers on Sunday, August 19, at 9 a.m., when 18 hole qualifying rounds will be held in the 24th Annual Union County Tournament. Match play will be held on August 26, September 1, 2, 8 and 30 hole finals on September 9.

Last year's field of 149 found Joe Birofka, Summit, defeating John Edwards, Scotch Plains, for the public links championship, while J. Tingley, Westfield, defeated Robert Eckert, Union, in a playoff off 73-74, for low man in the qualifying round.

U. S. Golfing Association rules will govern play, but local rules will be enforced. Play is open to male residents of Union County, qualifying as amateurs, but not members of private clubs.

Entries should be submitted to P. S. Mathewson, Superintendent of Recreation, The Union County Park Commission, P. O. Box 231, Elizabeth, before 12 noon, August 13.

The first steel pipe was made in 1815 by screwing old musket barrels together.

Youth Development Thru Vocational Agriculture  
or  
'Know Your Aggies'  
by Adam P. LaSota

This week I will endeavor to tell you more about the Future Farmers of America.

At Regional the F.F.A. Chapter is known as the Pioneer Chapter. To become a member a boy must prove that he wants to become one by receiving a passing grade in all of his courses. There is no room for a lazy mind in this organization.

In the photograph you see most of our present membership surrounding our banner. I would like to explain the significance of the banner to you.

The colors of the banner are: a background of royal blue with the emblem and the lettering in corn yellow. Rich and cheerful, these colors appear in connection with all meetings and in all the equipment and paraphernalia used by all F.F.A. chapters throughout the land.

In the center of the banner you see our National Emblem. The National Emblem of the Future Farmers of America is significant and meaningful in every detail. Used by members in all recognized units of the organization, it is made up of five symbols: the owl, the plow, and the rising sun, with the cross-section of an ear of corn which is surmounted by the American eagle. Upon the face of the emblem appear also the words "Vocational Agriculture" and the letters "F.F.A." The owl is symbolic of wisdom and knowledge; the plow is the symbol of labor and tillage of the soil; the rising sun is emblematic of progress and the new day that will dawn when all farmers are trained and have learned to cooperate; the cross-section of an ear of corn represents common agricultural interests since corn is native to America and is grown in every state; and the eagle is indicative of the national scope of the organization.

You can readily see that under such a banner a group of boys learns agriculture and other essentials which help them to improve agriculture, better local communities, obtain a more satisfying farm home life, and become more efficient citizens.

The F.F.A. Motto under which the boys work and study is also the motto of the organization.

another tool which helps the youngsters to realize some of their duties and responsibilities to themselves and to their fellow man.

The F.F.A. Motto which consists of only four lines has a practical philosophy, reflecting a spirit and sincerity that shows the true viewpoint of farm youth, "the backbone of a nation." The Motto is as follows:

Learning To Do  
Doing To Learn  
Earning To Live  
Living To Serve

Any youngster who lives, works, and learns with such a motto as a guide will most certainly develop into a good, useful citizen.

Next week I will endeavor to explain the aim and purposes of the F.F.A. organization.

Before I close I would like to list four questions which pertain to home answers. I hope that you can answer all of them in the positive because a Home is not a bulwark of democracy until it is a safe home. Make your home safe by taking care of those danger spots which cause accidents.

1. Are electric cords and plugs in good repair?
2. Have you a step ladder in good repair?
3. When using a sharp knife, do you always cut away from you?
4. Is some member of the family qualified to give "first aid"?

Remember — Work safely and play safely.

Tea Tricks For Torrid Weather!

There's nothing more refreshing than iced tea when you're hot and tired. And here's a trick to make it look extra tempting!

Frost-Rimmed Glasses — Rub rims of iced tea glasses inside and out about 1/2 inch down with cut lemon. Pour powdered sugar onto waxed paper and dip moistened rims.

into sugar. Chill before filling. Make tea double strength to serve iced. Choose flavorful, full-bodied A&P Nectar or Our Own Tea. They cost less than 1¢ a glass. Many people save up to 20% on A&P Teas... proof that fine teas needn't be expensive!

\*Based on national survey averages.

### VETERANS QUERIES

#### QUESTIONS AND ANSWERS

**Q**—I dropped my National Service Life Insurance as a civilian, and now that I am returning to active military duty, I would like to reinstate my policy. Will the armed forces do this automatically for me, or are there any steps that I have to take?

**A**—The armed forces will not renew your policy automatically. You either must apply to reinstate your old policy, or apply for a new one.

**Q**—As a member of the National Guard, I receive drill pay for short periods of training each week. I intend to enroll in school under the GI Bill. When I do so, must I render my drill pay as income, in order for VA to determine the amount of subsistence allowance I will get?

**A**—No. Remuneration for such National Guard training is not considered as income from productive labor and need not be reported, for it has no bearing on the amount of subsistence you will receive.

**Q**—I am a veteran paralyzed from the waist down, and on my own I bought a home a few years ago. May I obtain a housing grant to be used to remodel my home with ramps and other special adaptations, so that I can get around more easily in my wheelchair?

**A**—Yes, if you meet the eligibility requirements of the law. Application may be made at any VA office.

**Q**—I am a serviceman covered by \$10,000 indemnity. What happens to the money if I die without leaving a beneficiary?

**A**—The indemnity will be paid to your wife if you are married; to your child or children, if your wife is not living; to your parent or parents if you have no wife or children, or to your brothers or sisters if you have no one in any of the other categories.

**Q**—I am training several veterans on-the-job under the GI Bill in my automobile repair shop, and I plan to grant a slight raise in the wage scale they are receiving. How do I go about it?

**A**—You must notify the State Approving Agency in your state. The agency will then notify VA, at which time necessary adjustments in subsistence payments will be made.

**Q**—I am a Korean campaign veteran in receipt of compensation for a service-connected disability. If I show a need for it, would I be eligible for Public Law 16 training?

**A**—You may be eligible if you are in need of training to overcome the handicap of your disability, and your disability resulted directly from armed conflict or during extremely hazardous service. Both requirements must be met.

**Q**—Is a veteran who lost his sight for reasons not connected with military service entitled to VA's special aids to the blind?

**A**—Yes, provided the veteran is entitled to compensation for any service-connected disability. However, need not be blindness itself.

**Q**—About 62,000,000 women and girls in the United States enjoy sewing.

### Highway Safety

By Martin J. Forber  
Director

N.J. Division of Motor Vehicles

At this time of the year when thoughts turn to that most American of all holidays—Independence Day—it's good to keep in mind that in traffic we are mutually dependent on each other for "life, liberty and the pursuit of happiness."

The test of this dependence comes especially on week-ends and on holidays. At these times, travel is at its peak, and more travel means more hazards. The young and elderly pedestrians depend on us most of the time to do their thinking for them. Our passengers depend on us to bring them home safely. Of course motorists depend on each other for efficient and accident-free driving.

Although this principle of dependence should be known and respected by everyone—there is, however, a small class of motorists to whom it means little. They are the ones who must pass every car, who are bumper-chasers, who "jump" the light, who glide past stop signs and do all the other inconsiderate and dangerous stunts on the highway. However, the person who is in the habit of flouting the rules of safety and courtesy often is the very one to shout "violation" when he is the victim of his own type of driver.

All of you have met the driver who boasts of his speed and the amount of mileage he has piled up on various occasions within specified time. To set these speed

records he shows no consideration for his terrified passengers, who are depending on him, to say nothing of the other highway users. This type of motorist depends on others on the road to do more than their share and when they can't—or won't—a very serious accident can result.

Another type of dangerous driver is the person who takes the wheel after having been drinking. He is too careless and inconsiderate to others to realize how his drinking threatens the principle of interdependence on the highway. This small but growing class of drivers, judging from accident records in New Jersey, shows little regard for either public or personal safety.

But fortunately most motorists are aware of their responsibilities and their mutual dependence. These drivers observe the regulations, drive neither too fast nor too slow, yield the right of way when they should and in countless ways show they are cognizant of the privilege granted by their license.

Let's all do our part on Independence Day—and at all times—to show our worthiness as Americans on the highway. Let us obey all the regulations, ever mindful that American liberty is based on respect for the rights of others.

### Home-Freezer Protection

"Of course, you're proud of your new home freezer, but try to confine your admiration to the outside—for opening and closing the door too much is tough on the best of makes," says Mrs. Doris Anderson, extension home management specialist at Rutgers University.

"This is especially true during the summer months, the New Jersey State University specialist remarks. When you open the lid of your door in warm, humid weather, frost forms quickly on the lining and dividers of the box just as it does in the refrigerator. Mrs. Anderson suggests you plan what is needed from the freezer and take a tray to the box and remove the food at one opening. The supply of frozen foods for several meals or even for two or three days can be taken out if there is a place in the household refrigerator to keep them frozen.

"A systematic storage system will pay dividends, too," she says. "If you have developed a plan for putting certain kinds of foods in a particular place, it won't take so long to find a package of strawberries or a tightly wrapped turkey cut away early in the spring. You do not have to defrost a freezer as often as you do a re-

frigerator. Complete defrosting about once a year is usually enough. It should be done before there is more than one-half inch of frost over most of refrigerated surfaces, however. The thicker the deposit, the more the compressor has to run to maintain the required temperature. But if the humidity is high and the freezer has been opened often, more frequent defrosting may be necessary."

To delay the time for complete defrosting, a deposit of frost alone can be removed while the freezer is in operation if it is not completely filled. Scrape the surface with a broad putty knife, a stiff spatula or one of the scraping tools on the market. Mrs. Anderson suggests. Catch the frost on paper, cardboard or cloth as it is scraped from the vertical dividers or from the walls. Or the frost can be collected from the bottom by using a cold dust pan and whisk broom. If the dust pan and broom are cold, the frost won't melt as sweep up. Work rapidly so the freezer will not have to remain open long. Also, do this scraping on a day that is not too hot and when the humidity is low. If the deposit contains ice and is over one-half of an inch thick, a complete defrosting is needed.

"Read the instructions for defrosting your particular refrigerator before you start," Mrs. Anderson says. "And don't do it during the summer unless it is absolutely necessary. Do not try to chip-off the ice with a pick or other sharp tool. The coils might be damaged and you'll wish you had left the ice where it was."

Tel. Millburn 6-0406

**GAS**

is the Popular Choice

Ask a homemaker. Ask a manufacturer. Ask a factory worker. They all say the same. Where automatic heat control is required, gas is the fuel chosen. Where a wide range of heat is necessary, gas is used. Its quickness, cleanliness, dependability and economy are other reasons for the wide popularity of gas. In factories, in commercial establishments and in home kitchens the trend is to GAS.

**PUBLIC SERVICE**

**HOW Water Works**

The WATERS OF THE COLUMBIA RIVER ARE THE MAIN SOURCE OF LIGHT AND POWER FOR THE PACIFIC NORTHWEST!

IF YOU ARE TAKING A VACATION—BE SURE TO CHECK YOUR FAUCETS FOR LEAKS—BE SURE TO SEE EACH OUTLET IS SHUT OFF—LEAVE OPEN THE MAIN VALVE, FOR EMERGENCIES, (IF A WINTER VACATION CLOSE THE MAIN VALVE)
