

## What Do YOU Think?

Beverly Rappoport

Question asked by your inquiring reporter: "Since the building plans for the lot on Flermer and Morris avenues have been made known, how do you think the fulfillment of the proposal will affect Springfield?"

Mr. O. de Berjeois,  
372 Morris Avenue

"I think it would be well because that's just what the people are looking for. It will be wonderful having big stores so we won't have to go out of town. I have five men to feed in my family and do most of my shopping in town. Since we have small stores I have to go early in the morning in order to get everything I need."

Gladys Rawicz,  
35 Rose Avenue

"It will be a fine thing for Springfield. It's a pity that they don't make the corner better for traffic too. I do feel that the new stores will bring people into town and thus help business."

Mrs. L. Patterson,  
50 Fieldstone Drive

"It's a good thing—they could use some competition around here. Since the other suburban towns in this vicinity have their own large shopping centers it may not bring outsiders in but it ought to keep the people of Springfield shopping in town."

Mrs. Jeff Kisch,  
25 Renner Avenue

"Some people that I have spoken to don't think it's such a good idea. The traffic problem will be terrific. Of course we need more and bigger stores in Springfield but that particular is not such a good place to put them. Also I really wonder if it will do any good."

Mrs. Charlie Schaffernoth, Jr.,  
5 Shuppik Road

"I think that all Springfield needs is a unit by itself where people can go and buy all their purchases at once. I'm sure the town will be very happy with it."

Mrs. Helen Schramm,  
1 Remer Avenue

"I think it will be very good. It will save people from going out of town."  
(Continued on page 3)

ROTC CADET ANTON C. BRANDNER, son of Mr. and Mrs. A. E. Brandner of 111 Tooker Avenue, Springfield, has been commissioned as a second lieutenant in the Ordnance Corps Reserve.

During the six weeks encampment he spent two weeks in bivouac at Letchworth Ordnance Depot, Chambersburg, Pa., learning the operations of a field service depot. At Frankford Arsenal, Philadelphia, Pa., he observed the steps in the development and manufacture of ammunition, fire control instruments, and recoilless weapons. At Aberdeen Proving Ground, Md., he performed military duties in the field while "learning-by-doing" practical instruction in Ordnance technical subjects was emphasized.

## Democrats to Continue Fight For Tax Group

Despite the summer quiet—the Springfield Democratic Club believes in keeping the political pot boiling and they're not going to permit the matter of a Citizens' Budget Committee to be filed away. A special meeting was held at Chateau Baltusrol early this week and the main discussion centered around the rejection by the Township Committee of the proposal to name a Citizens' Budget Group.

George A. Aubin of 445 Morris Avenue was named chairman of a special club committee to organize and further the effort for an early adoption of the proposal to name such a committee. He and his group were instructed to contact all civic groups in Springfield.

The members condemned the action of the Township Committee and, one of the committee referred to the governing body as "a biased and politically-minded group who have placed politics on a level higher than the welfare of the taxpayers. We will carry our story to all taxpayers."

Officers of the Democratic Club were more than pleased by the size and enthusiasm of the group attending this summer meeting. The evening's festivities came to a close with an enjoyable hour of sound movies and refreshments.

## Teenagers Injured As Auto Overtakes

Four teenagers were injured, police reported, when a car in which they were riding with a novice driver, swung out of control and turned over on its right side in Riverside drive near Battle Hill Avenue, at 5 p.m. last Saturday.

The four—all taken to Overlook Hospital, Summit, in the First Aid Squad ambulance, were: Daniel Woodland, 17 years old, of 97 Battle Hill Avenue, owner of the 1937 Ford car; Miss Loretta Young, 17, of 51 Morris Avenue, who was teaching to drive; Arthur Woodland, 16, Daniel's brother; and William Young, 13, Loretta's brother.

Daniel was treated for scalp lacerations and abdominal injuries; Miss Young for scalp lacerations; Arthur for cuts on the face; and William for multiple bruises. All have been released from the hospital.

Patrolman Robert Polewka reported that the car was going east on Riverside drive, with Miss Young at the wheel, operating on a learner's permit. After the car swung around and rolled over, it skidded along on its side for some distance, police said.

## Springfield Cadet Completes Training

Kerry J. Dalton, son of John F. Dalton, 54 Spring Brook road, Springfield, has just completed six weeks' intensive training with the Signal Corps Reserve Officers' Training Corps summer camp. He was one of approximately 1,100 cadets in training here.

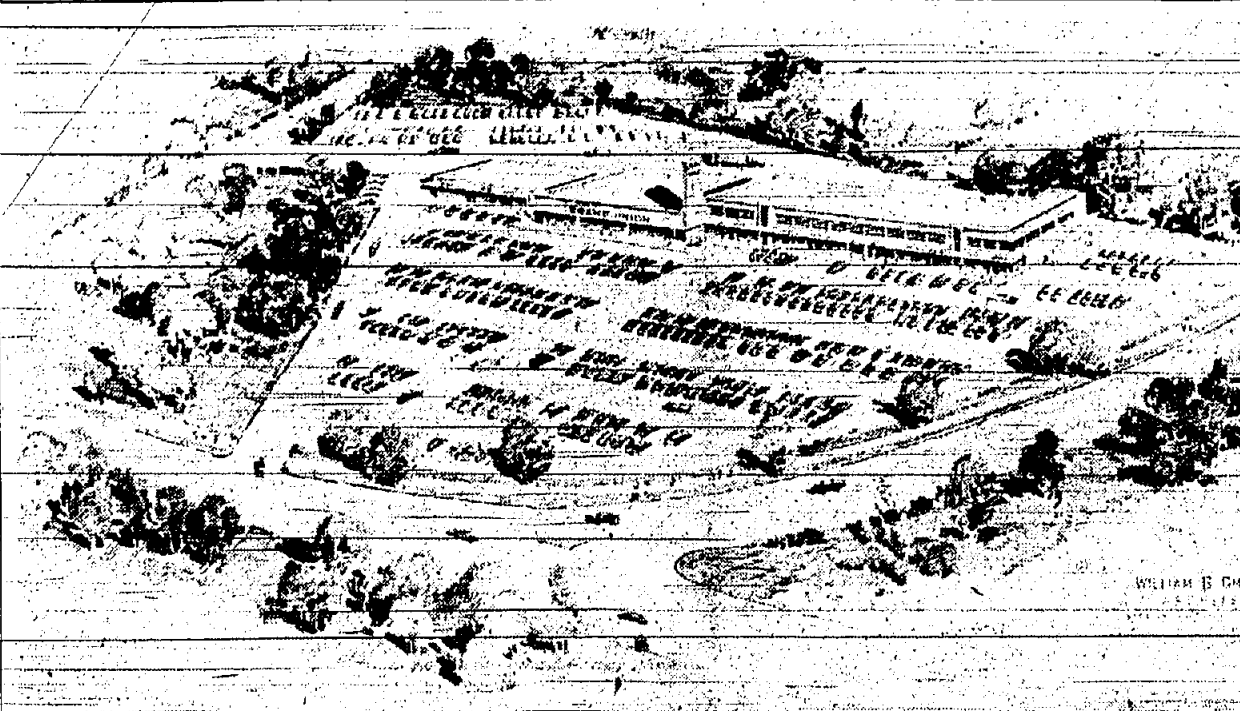

Attendance at summer camp is required before the ROTC cadets become eligible for commissions in the reserve.

In the early part of the training period, the total man had in individual instruction in basic military subjects and signal communications.

Emphasis was placed on application of theories previously studied in college classrooms. Combat lessons learned in Korea and World War II were driven home by instructor personnel who are veterans of those wars. Each cadet has installed and operated radio and wire networks comparable to those used in an infantry division, and each student has been rotated through command

## Architect's Sketch of the New 20-Store Shopping Center

## Local Man to Ride High Wheel Bicycle in Pageant

## POPULAR IN 1880—but Donald B. Palmer of 4 Flermer Avenue intends to ride this one in the big Sea Day Pageant at Point Pleasant this Saturday.

A feature of the big Sea Day parade in Point Pleasant this year will be a high wheel bicycle of the vintage of 1880, to be ridden by Donald B. Palmer, of 4 Flermer Avenue. This machine has a large wheel in front, measuring 50 inches in diameter, and a little wheel behind which is only 17 1/2 inches high. The solid rubber tire on the big wheel is one inch in diameter.

It is something of a trick to ride one of these "old timers," and a novice can easily get hurt in the attempt. A single step on the frame, just above the little wheel, is provided to assist the rider in mounting.

This is accomplished by hopping along on one foot until the pedals is in just the right position, when the rider gives a leap, lands in the saddle and catches the pedal on the way down at the same time. If he fails to time this properly, he has to start all over again.

Once in the saddle, he must keep in mind the fact that the handlebars and the pedals are on the same vertical axis, and a strong push on the right pedal calls for an equally healthy pull on the left handlebar to counteract it and keep the wheel in line. The rider must also keep in mind the possibility that if the front wheel hits a stone or hole in the road, he may take a nose-dive over the handlebars and be prepared to counterbalance the machine by leaning backward. He must learn too, to land on one foot if he gets stalled and tips

(Continued on page 2)

## Historic Landmarks Being Preserved Throughout N. J.

Other municipalities have found some means of restoring and maintaining historical buildings and those who want something done about the Cannonball House at 126 Morris Avenue still hope to arouse enough interest to save this site.

A well-known New Jersey landmark in Wood-Ridge is to be preserved according to a story in the New York Times, as follows: "The dual goal of preserving a historic landmark and establishing a library as a war memorial is the aim of the Borough of Wood-Ridge in hiring an architect to convert the old Brinkerhoff house here.

The house itself, of hand-fashioned stone and hand-hewn timbers, has housed the Brinkerhoff and their descendants since Colonial days. It is on Polity Road, developed as one of the area's first highways from an ancient Indian trail, and stands on a part of the original purchase of 200 acres by the immigrant George Brinkerhoff, who came from Holland with three of his brothers before the Revolutionary War.

## Charge He Left Accident Scene

A restaurant employe who was so anxious to get home after his work at the Howard Johnson restaurant, Route 22, will appear before Magistrate Henry C. McMullen on Monday night to answer the charge of leaving the scene of an accident.

He is John Jones, 47, of 43 Sussex Avenue, East Orange, who surrendered at police headquarters in Springfield after learning that police were searching for him.

Three physicians from the Norwegian Hospital in Brooklyn, Drs. Francis Grendell, Erling S. Wedding and Janis Upnalls were standing in the driveway at the restaurant when an auto backed out and struck two of the group, knocking them to the ground. The driver, according to the doctors, swung around and sped out of the driveway.

Patrolmen W. Paltz and John Ennis who investigated followed the description given by the doctors and a partial license plate listing. A teletype alarm was sent out and Jones came to headquarters. The doctors, according to the police report, were not badly hurt.

## Charge He Left Accident Scene

Patrolmen W. Paltz and John Ennis who investigated followed the description given by the doctors and a partial license plate listing. A teletype alarm was sent out and Jones came to headquarters. The doctors, according to the police report, were not badly hurt.

## High Army Officer Local Resident

Springfield has been selected by a high-ranking Army officer as a home and 45 Morris Avenue—the new Walker Court—is now the official residence of Lt. Col. Charles E. Voorhees and his family.

Col. Voorhees was returned from duty in Korea last April and after being shipped to various stations throughout the States, he has now been assigned to the Transportation Control Depot of the New York Port of Embarkation and stationed at the Port of Newark.

## Young Bike Riders In Two Accidents

Bicycle riders are getting somewhat careless in automobile traffic as evidenced by two accidents this past week. Tumbling from his bicycle in front of 68 Lyons place, Saturday afternoon, Walter Strubbe, 12 years old, of 130 Flermer Avenue, suffered a fracture of the left shoulder and possible fracture of the left collarbone, police reported.

Taken to Overlook Hospital, Summit, in the First Aid Squad ambulance, the boy was released to his apartment. Patrolman John Baber said Walker was going downhill in Lyons place when he apparently caught his foot in the front wheel of his bicycle.

Jeff Moxey, 12 years old, of 108 Irwin street, escaped with brush burns and bruises, police reported, when his bicycle was in collision with a car Monday afternoon on Mountain Avenue, near Flermer Avenue.

Jeff was taken to Overlook Hospital by the First Aid Squad, where X-rays were taken. Police said no broken bones were found, and the boy later was taken home by his parents.

Listed as driver of the car was Donald E. Meler, 37, of Allaire road, Wall Township.

## Mildred Clark Dies at Home

Mrs. Mildred C. Clark, wife of Mrs. L. Clark, died last Friday at her home, 2A Prospect place, after a long illness. She was born 46 years ago on Cape Cod, Mass., and came here five years ago from a Chicago suburb.

She leaves two daughters, Misses Barbara L. and Shirley J. Clark, both at home; her father, Herbert Cahoon, and mother, Mrs. S. Bernice Cahoon, both of Cape Cod; two brothers, Herbert Cahoon of Dayton and Kenneth Cahoon of Cape Cod; and a sister, Mrs. Richard Welch of Cape Cod.

## The Circus Is Coming to Town

A circus will be held at 115 Satter street featuring 15 acts at 7 o'clock this evening. Included will be singing, tap dancing, acrobatics, accordion playing, and a magic show. Door prizes will be given.

The children participating are Joyce and Lynne Field, Gail and Merrile Post, Sherrill Trulls, Peggy Haggerty, Patty Dreher and Judith Crowley.

## New Shopping Center Plans Building Soon

Even though no date could be given for the actual breaking of ground and start of building operations, William G. Chirgobis of Union, architect of the new six acre shopping center for Springfield, said yesterday, "once we get started, things will move rapidly." The sign board on property announces that leases are available "for Fall occupancy" but there is considerable doubt that the job can be moved along fast enough to complete the work before

## Bedroom Prowler Finds Couple Home

At least that is the only explanation they can give for the presence of a prowler in their bedroom early yesterday morning who had nonchalantly lighted a match to get his bearings and then scooted out of the house when, much to his chagrin, he discovered that he wasn't alone.

According to the story the Rolles were awakened early in the morning by the movement of an intruder in their bedroom and, when the prowler struck a match and discovered the couple at home, he bolted out of the room and was out of the house before Mr. Rolles could get close to him. They were certain, they told the police, that he was a youngster, about seventeen.

A thorough search of the house was made and nothing was found missing. They have no idea how the prowler gained entrance but he evidently knew his way around the house and thought the family was still on vacation.

## New Merchant to Open in August

Mr. David M. Bruh of B. Bruh and Son is soon to formally open his store at 278 Morris Avenue as jewelry, silverware and optician. Mr. Bruh is a resident of Orange but hopes to move to Springfield shortly. He also operates a store in Newark.

Mr. Bruh has been in business since 1929, his father starting the company in 1902. As a silversmith Bruh and Son is able to recondition old or monogrammed silver, copy any article and make it into jewelry form, and as a licensed optician duplicate any broken lenses or doctor's prescription. The company is a direct authorized dealer for Reed and Barton, Durille and other popular makes of sterling silver.

Although the exact date of opening is not definite, Mr. Bruh expects it to be some time between August 20 and September 1.

## Paper Mill Playhouse to Hold Chorus Auditions

The Paper Mill Playhouse announces that Chorus Auditions for its new season opening September 8 will be held at Main Studios, 225 West 48th Street, New York, on Wednesday, August 19.

Chorus Equity members will be heard in the morning, other applicants in the afternoon.

EVERYBODY'S FINE—Mark, Nadya and Barbara Cataldo, children of Mr. and Mrs. H. Cataldo of 20 Tooker Place, are just as proud as Ginger, the thoroughbred boxer, who presented the youngsters and the neighborhood with 10 puppies. All the puppies are doing nicely but, with the cost of hamburgers and dog food being what it is, Mrs. Cataldo has decided to sell the pups and just keep Ginger around who has become quite attached to the children.

## SPRINGFIELD SKETCHES

BEVERLY RAPAPORT

Although he has only been practicing in Springfield for a little more than two years, Felix (Phil) G. Forlenza has become a very familiar figure in town both as a lawyer and this year as president of the Chamber of Commerce.

Phil is a product of New Jersey through and through. Born and raised in South Orange, he attended Seton Hall Prep School, Seton Hall College and the Rutgers University school of law. His service three years in the navy during World War II on an A. K. A. (Amphibious), and is now a Lt. in the inactive reserve. In April of 1951 he opened his law office in Springfield and hopes to move into town from Bloomfield soon.

As president of the Chamber of Commerce, Phil does double duty so far as tending to the needs of Springfield and its residents. The Chamber, which has 92 members and welcomes any reputable business, professional, or industrial man, is responsible for such projects as erecting decorations and lights at Christmas time, putting out a business directory and maintaining a large correspondence.

People from all over the country write for information about accommodations, students, ask for historical facts of statistics, and of course complaints crop up. After hearing about the efficient workings of this organization and after speaking with the man at its head, this interviewer feels certain that any case the Chamber of Commerce is faced with will be carried out with the betterment of Springfield and the interest of its residents at heart.

Although he's past his Cut days, Phil has been chairman of the Boy Scout Drive for two years and in that time he and his committee has raised more money than has ever been raised for the scouts in Springfield. The Rotary Club is also fortunate in having him as its new president.

As Phil said after a discussion of his "extra-curricular" activities, "I practice law, too." He's happy to have put out his single in Springfield since "It's a friendly town where the people take a personal interest in each other."

Unfortunately for the unattached females in the area, Phil is married and he and his wife Peggy have a seven month old baby girl which Phil describes as having "blond hair, blue eyes, and a turned-up nose." She looks like her mother.

When asked for some words of wisdom for aspiring young lawyers, Phil immediately replied, "Plenty of hard work and a well rounded personality." This interviewer

FELIX G. FORLENZA.

viewer can easily give a plus to Phil for the latter. His easy flow of conversation and quiet charm are evidence that he has fulfilled this requirement perfectly.

## What Do You Think?

(Continued from page 1)  
town to shop and I also think it will bring outsiders into town."

Francis Bayley, 15 Tompkins lane  
"I don't think it will do a great deal of good. I think that there are many towns around here that can offer more in the way of stores and once a person has dealt with stores in other towns they will continue to do so. Rather than building stores the town would do better by putting a road through to clear up the traffic congestion. We need that more."

## Chicken Adds Menu Changes

No longer are there seasons for broilers, fryers, roasters and stewing chickens. Modern poultry production methods make it possible to buy whatever type of chicken you want at any time, but the basic methods of cooking the different kinds of poultry remain the same.

"Whether you're cooking young birds or older ones, low or moderate heat is best for good juicy meat," says Miss Marie Doornman, extension nutrition specialist at Rutgers University. "Broilers, usually under five months of age, can be cooked in halves or in quarters, depending upon their size, in the broiler or in a shallow pan in the oven."

"When pan frying chicken, brown it slowly in fat and when well browned on all sides, lower the heat and cook slowly 50 to 60 minutes or until tender. This will make it possible to have a good brown gravy. Buying cut-up poultry by the piece assures everyone's getting his favorite part. "Fowl," which is one year old or older, is less tender than other kinds of chicken but very good for fricasseeing, stewing or cooking whole for serving in slices, chicken-a-la-king, croquettes, chop suey, creamed on waffles or other favorite calling for cooked chicken."

"The New Jersey State University specialist offers this recipe for a good dish calling for cooked chicken meat."

**Chicken Timbales**  
3 tablespoons butter or other fat  
3 tablespoons flour  
1½ cups broth, milk or thin gravy  
3 eggs  
Salt and pepper to taste  
3 cups ground cooked chicken and skin  
1 tablespoon chopped parsley  
Make a sauce of the fat, flour and liquid. Add the well-beaten eggs, seasoning and chicken and mix thoroughly. Pour into greased mustard cups. Place the cups in a pan of hot water. Bake in a moderate oven (350 degrees F.) about one-half hour, or until set in the center. Turn the timbales out and serve hot with mushroom sauce made by diluting concentrated mushroom soup.

## People We Know

If you have any items—please send them to the Springfield Sun Office or telephone Millburn 6-5000

Springfield is adding four to its population with the births of four new babies at Quaker Hospital during the week of July 23 through July 31.

Boys have been born to James and Marilyn Catallo of 24 Morris avenue, James and Louise Pulley of 445 Morris avenue, and Richard and Margaret Harker of 34 Battle Hill road.  
Doris and Stephen Schmidt, Jr. of 20 Warner avenue have added to the female population with a baby girl.

Mr. and Mrs. Robert Travis Southward of 194 Bryant avenue entertained friends at a lawn party last Saturday afternoon. Guests included Mr. and Mrs. William G. Radler, Mr. and Mrs. William Myers of Livingston, Mr. and Mrs. William Farrington of Plainfield and Mr. and Mrs. James Braunwood of Berkeley Heights. Also attending were Mr. and Mrs. Lincoln Wood, Mr. and Mrs. Robert Muthaupt, Mr. and Mrs. Edward Medlin, Mr. and Mrs. Robert Briggs, and Mr. and Mrs. Charles Proto, all of Springfield.

Two Springfield young women have accepted positions with well-known business concerns.  
Miss Loraine Altieri of 158 Meisel avenue is associated with

the American Marking Corporation, Newark. Miss Dorothy Seal of 721 Mountain avenue is employed by the General Electric Company, Springfield.

Fred Beiswinger of 507 Meisel avenue has been presented a cash award for a suggestion accepted by the "Coin Your Ideas" Committee of the Standard Oil Development Company. The suggestion submitted by Mr. Beiswinger provided for a change in the method for taking product samples from a research pilot plant in order to increase its efficiency.

On Saturday, August 1, Joyce Dauser celebrated her sixth birthday at a luncheon at her home, 245 Baltusrol avenue. Those children present were Dale and Donald Dauser, Judy Graber, Carolyn Cowles, Sherry Sylvester, Mary Ann O'Neill, Barry Blais, Ned Billings, and Pam and Valerie Paha.

Farewell to Mr. and Mrs. Joe Martin of 28 Toward drive who are moving to Bernardsville. Last Wednesday they were entertained at a dinner party at the Orchard Inn by the Colonial Gardens Association. Thirty-nine neighbors, friends, and members of the Association were present.

## Playground Activity of the Week

**JAMES CALDWELL**  
The James Caldwell School playground held a Costume Show on Friday. The following won prizes: Gwen Grant, most original as Miss Comic Strip of 1949; Laura Metz, prettiest as a Christmas present; Christine D'Andrea, funniest as a red devil; Elaine Pollock and Cynthia Puntigam, cutest; and Gary and Greg Anderson as clowns.

Pictures were taken of the winners, and crayons and lollipops were given as prizes. Following the show some of the smaller children sang songs for the audience.

The boys and girls continued practicing for the Amateur Show which will be held on August 13. Shell jewelry was made as turtles, pins, fish pins and earrings.

**RIVERSIDE**  
Last week the boys from the ages of 12 to 14 had a horseshoe pitching contest. Denny Lucy took first place honors by nosing out Bob Keith and Dave Friedman.

Most of the activity in the playground has been that of baseball playing.

**HENSHAW**  
Making plaster of paris molds was the feature of the crafts program this week. However, the children have also been busy making board rags, lanyards, coasters, and lanyard bracelets.

Last Friday a costume contest was held with prizes given for the funniest, cutest, and most original costumes. Ann Conlon walked off with the honors for the most original while Nancy Schwartz received the prize for the cutest. Tied for the funniest costumes were Philip and Valerie De-Vec, Marie La Bocc, and Jeff Hitchings. The judges were Mrs. Schwartz, Mrs. Conlon, and Mrs. Plesano.

A Scavenger Hunt is planned for Friday.

Headlining this week's events at Irwin were a checker tournament and scavenger hunt. At the end of the week of deliberating and challenging in checkers, the champion proved to be Roy Lialecki. Close behind him were Mike Lesser, second, and David Allardye, third. Roy proved his expected prowess at checkers against all comers. These top winners will soon meet with the top checker players from the other fields.

Last Friday afternoon a large group set out to obtain the twenty entries demanded in the scavenger hunt. After a forty-minute search and turn-in, the winners of the hunt were: Arthur Morse, Edwin Schmitt, and Barry Mien found the most arti-

cles. Tied for second place were Carol Kordalaki, Paulette Morse, Linda and Susan Kilburn, Johnny Johnson, and Lefty Scharenberger. All these winners plus Herby Etzold and Stuart Chesler, who came in third, also earned prizes. Following this hunt everyone enjoyed a marshmallow roast over a makeshift fireplace.

The last few weeks will be crowded with special events. A large turnout of boys practicing softball each day should prove of worth when Irwin meets Henshaw and Raymond Chisholm in final softball games this week. These last weeks will also have special contests in tether ball, baseball throwing, foul shooting, washer throwing, and in the 50-yard race. Each contest will be held to choose winners in three classes: over ten years old, under ten and above 14. These winners will compete in an all-parks tournament on the last Friday. Also coming up is the annual talent show to be held at James Caldwell School. Irwin hopes to have a large participation of entertainers plus their families and friends to cheer them on.

## Trailside Lists Alaskan Lecture

Dr. G. W. Rawson, of the Ciba Pharmaceutials, Summit, will speak at Trailside Museum in the Watchung Reservation on Sunday, August 9, at 3 p.m. His topic is "Wild Life in Alaska" and will be illustrated with colored slides made by himself at Point Barrow, 400 miles inside the Arctic Circle, and in adjacent areas.

Also to be shown are slides of the famous arctic tundra of mosses and lichens, Eskimo huts, lummings, flowering lupines, cottongrass, and spectacular views of the Brook mountain range with peaks 4,000 to 7,000 feet high.

## Veterans' Queries

Q I have a 20-year endowment of insurance policy. I have elected to receive installment payments, after the endowment period is up. What would happen if I die before I receive all the payments, and I fail to name a beneficiary?  
A In such a case, the unpaid installments would be paid in one sum to your estate.

Q About two years ago, VA asked a veteran to come in for a physical examination on a claim he had filed for disability compensation. He never showed up. Now, he has decided he would like to follow through on his application. Can he do so?  
A He can't follow through on his original claim. His failure to get in touch with VA within one year after he was asked to report for an examination constitutes an abandonment of his claim. In order to get further action, he'll have to file a new application. Should his claim finally be approved, compensation may begin from the date he filed his new ap-

Q If a veteran man dies while on active duty, as of what date do indemnity payments to his beneficiaries begin?  
A Indemnity payments begin as of the date of the death of the serviceman.

Q I am the widow of a World War I veteran, and I am applying for death pension from the VA. As of what date will the payments be effective, assuming VA approves my claim?  
A If you file your claim within one year from the date of your husband's death, the pension payments will begin as of the day following the date of death. If you wait longer than one year to file, the effective date will be the date you filed your application.

Q I am drawing compensation, and I feel that my disability has taken a turn for the worse. Will VA accept a statement to that effect from my private physician, in considering my claim for increased compensation?  
A Yes. A statement from your private physician may be accepted as evidence, but his findings must be verified by an official VA examination.

## Pheasant, Quail Rearing Projects

Many youngsters of New Jersey have sent applications to the State Division of Fish and Game, Department of Conservation and Economic Development, to participate in day-old pheasant and quail rearing projects designed to transform them into youthful conservationists.

To participate in the program, four projects must be completed to simplify the activities of those interested in furthering conservation in New Jersey. The largest participation in the program estimates from the Four-H Clubs located in the various counties of the State. The Four-H Club agents have organized their portion of the program to a high degree of efficiency and any member of the organization must make application through his local county Four-H Club agent.

Publicity Chairmen--Here's How to Write a Story

From time to time organizations, civic groups and clubs appoint publicity chairmen to publicize their activities. Generally, these chairmen are not trained in journalism and have no idea of how to prepare their copy. Quite often, good stories must be rejected because the publicity chairman mislaid a deadline or because the copy was improperly prepared.

The various editorial desks of this newspaper are jammed each week with copy... some bad - but all of its news about local happenings. Unfortunately there is not always time to patch up the copy and mold it into presentable fashion for publication - feelings are hurt and the paper loses a good story.

Every group, regardless of political or religious ties, is welcome in our news columns, the only requirements being - Is It News? For obvious reasons, however, the editors must screen out objectionable or libelous material not only for the papers protection but for the protection of its readers and interested groups.

Information given must be new. Items will not be re-run, or facts repeated. When planning advance publicity for an event, it is best to start about three weeks before the date, carefully dividing the information on hand for a series of stories.

These rules may seem harsh at times - especially the deadline - but each and every one has an important meaning. In order to avoid misunderstanding and to make sure publicity chairmen are aware of requirements, we publish the following summary of deadlines, tips on reporting and miscellaneous information:

Leave two inches space at the top of a story and one inch margins. Typewrite, using double spacing. Write on one side of paper only.

Write your name, address and telephone number at top of the story, so we may check further with you if necessary. The editors will write the headlines.

Writing the Story The opening part of the story, called the lead, ought to contain the most significant or interesting statements.

A report of a meeting ought not begin with the fact that the meeting was held. This is the least interesting opening. State instead what plans were made for future events, what the main theme of the speaker was, whether there was an unusually large attendance or any other outstanding feature on the program.

Learn to summarize and condense your facts. List persons who gave reports, greetings or brief speeches, rather than make a separate paragraph or sentence for each one.

Do not try to cover a meeting by writing something that sounds like minutes. Try to include something of what the speaker said. After all, he is the main feature of many programs.

CHARLES SCHAFFERNOTH, former-Regional high school basketball star, is heading for the big leagues, judging by his work as a member of the Wisconsin Rapids team, a Chicago White Sox farm club, where he is one of the league's leading backstops. The boy who graduated Regional High in 1952 was selected as one of the Wisconsin League All Stars, the Wisconsin Rapids Daily Tribune paying great tribute to Schaffernoth on his ability as a player.

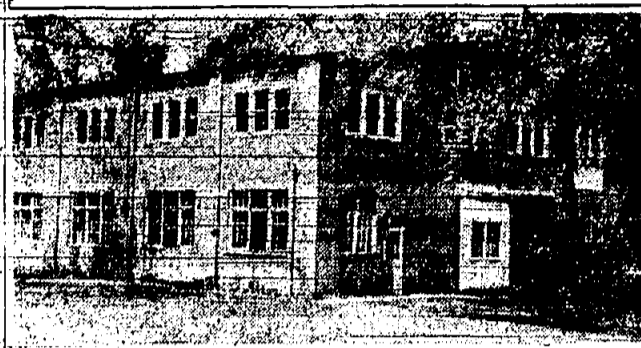

Charles has hit nine homers this season, one of them during the all star game and has a season's batting average of .364 but most of his hitting has been timely resulting in a high average batting mark. The local boy has been with the Wisconsin Rapids club since May 1 and he expected home sometime in September. His parents are Mr. and Mrs. Charles Schaffernoth, Jr., of 24 Shunpike road, and his brother, Joseph, one of Regional High star basketball players, is very much interested in baseball and looks forward to some professional play after he leaves school.

Grime's Graves in Norfolk, Eng., can be described as the Pittsburgh of the Stone Age, according to the British Travel Association. It was here that prehistoric man obtained the material for his tools and weapons - flint, which he depended on as we depend on iron and steel.

Picture should be black and white - prints with glossy finish. The more contrast between black and white there is in a picture, the better it will print. Size and position of picture in the paper, as well as acceptance or rejection of a picture submitted, are entirely at the discretion of the editors.

Picture MUST be in the office the Wednesday noon before publication. Photographs may be called for after using. Unless the editors request a specific picture, cost of reproduction must be billed to the person or group requesting publication. This is due to the high cost

Industry of Springfield

When Harold Percy Carter Bell, an English chemist came to the United States in the late 1900's he first introduced it into the United States. According to Mr. Chidester, there are two kinds of oils. The white is made by taking sulphur chloride with vegetable oils without heat. The end product is similar to a so-called soap emulsion. The material is sold in a powdered form. The brown oils are made by combining sulphur with vegetable oils in the presence of heat. This product is sold in solid form.

A few years later Louis Keller, of social registry fame and owner of the Railway Valley Railroad, offered to build a new plant for the company to their design. The offer was accepted and this Carter Bell is located at Brant Park in Springfield on the Summit line. It occupies five acres of ground on the Railway Valley line.

When building plans for the present plant were half completed the Millburn plant burned down. Thus Carter Bell was forced to operate out of doors for six months. At that time cement mixers were unheard of and the entire process was carried on by hand. Neither were modern trucks and hauling equipment known so teams of horses and wagons carted building materials. The plant was completed in 1912 and stands as a two-story building, 150 feet by 80 feet, with concrete walls and floors. Since its construction one building, a kettling house, was added in 1945.

Mr. L. Chidester, of Chatham Township and son of the pioneering W. H. Chidester, has been with Carter Bell since 1923. Mr. R. D. Knapp - of Madison and present general manager has been with the company since 1917.

Carter Bell is engaged in the manufacture of vulcanized vegetable oils as soya bean oil and rapeseed. The process that is used in this manufacture is over one hundred years old, originating in France. Mr. Carter Bell was the first to introduce it into the United States.

These products are usually used in the manufacture of mechanical rubber goods as they add the property of softness to the finished product and act as a processing aid. The white oils are used with rubber to form the ordinary rubber eraser.

The Carter Bell organization grew during the World War II years. Since their product was a compounding ingredient, it was classified as strategic. There was a great demand for the material and rubber companies learned to use it and are still doing so.

The location of Carter Bell is an asset to the company. The Newark-New York district is a rubber center and besides being close to that particular one, the company is fairly centrally located to most all other centers. The Railway Railroad station is used for shipping and incoming purposes.

Products are distributed generally throughout North America and mostly in the United States. There is a small percentage of world-wide export which usually depends on the condition of world economies.

Located on the same premises is the Carter Bell Chemical Corporation with Dr. L. M. Welch as president. This company is engaged in research development and is not connected directly with the manufacturing division of Carter Bell.

Mr. Chidester and Mr. Knapp have no immediate plans to expand. However, as they stated, "We want to keep abreast of the times and will expand if necessary." We believe that the future of this year and hope that the next 50 years will be as rewarding as the first.
