The walls of the church have been painted_a_colonial_grey while the woodwork is white with a dark mahogany trim. New carneting has been placed on the first floor and a new system of concealed-lighting has been installed in the ceiling. All work was

done, by Jocal, artisans, The church itself is one of the historic landmarks of New Jersey known throughout the country for its conspicuous role in the Revolutionary War: The present building has been in constant use since t was erected in 1791. Since the organization date of 1745 the church has always presented a well rounded program in Christian leadership and education. Noticeable also through the years has been the cordial welcome extended to all who worship here. More recently a new Parish House has been erected on Main street thus enabling the church to present an ever widening program for its members and friends.

Your new Telephone Directories WILL BE DELIVERED SOON SUBURBAN ESSEX COUNTY NEWARK Including a Portion of Union County -TELEPHONE -DIRECTORY IMPORTANT

In SUBURBAN ESSEX COUNTY Delivery starts Sept. 7th

You'll find your two new directories—one for Suburban Essex County, and one for Newark and Vicinity-so much easier to use than the old directory which combined both areas. You'll find having one simple alphabetical list for the entire directory easier, too. Now, instead of looking up both the heading and the person you're calling, you will need to look up only the person you are calling.

AND HERE'S A SUGGESTION:

So many new 'phones have been added and so many numbers changed since the last directory was printed, it's a good idea to consult your new directory before making calls. It's also a good idea to bring your personal numbers list up to date.

Incidentally, if you would like a new Personal Numbers Booklet, your Telephone Business Office will be glad to send your one without charge.
