Now you are asking us to take a most radical_step_in-pioneering-an-around-the-clock-ban-on-parking-at-all

> I am not questioning the necessity of this suggestion but I-dofeel it is unreasonable to make this request of Springfield, and ignore the bottlenecks on either side of our town, as well as the full length of this highway, between Elizabeth and Morristown.

It is my understanding that State Highways come under the sole jurisdiction of the State, therefore, it would be logical to assume that the State could use its sovereign powers to regulate traffic control on such highways, that would best serve the public interest. I am a firm advocate of Home Rule in many phases of local government, but when it comes to such an important matter as control of traffic on State Highways, then I believe that the only progressive step to take is to delegate such authority to the State. "Oh, I can steer all right, when I want to! You ought to see me steer the Buick all over town!"

I scoffed at the boast, but after dinner we all went out for a drive and Dickie proved beyond any question his infallibility as a steerer. Usually children are reluctant to-start something new, especially if it's known to be difficult and complicated. So it came as a pleasant surprise when the new chess set proved to be on overwhelming success. No one, not even the playground director, had ever played the game before. Nevertheless, we read the rules and learned together. Chess is now outranked in popularity by no other game on our playground, tion quite a few are now able to play and enjoy the game. We don't claim to have any chess experts-yet, but they're in the making and we're very proud of their progress.-

YOUNG'S SERVICE HOME ALFRED L. YOUNG, Funeral Director

Today's bride is a canny young creature. She realizes that financial security is one of the most important ingredients of a happy marriage. So naturally, one of the most appreciated gifts she can receive is a U. S. Savings Bondthe gift of security.

A Savings Bond earns extra dollars as it grows older (3% interest, compounded semiannually, when held to maturity). And with the earning power extended to 19 years and 8 months, Bonds can pay back \$1.80 for each \$1.00 invested!

Bonds can mean a step toward a home or toward-linancial independence. But most important, Bonds build a comfortable feeling of security.

So give the gift of security. Give a U. S. Savings Bond.

Suggestion for bridegrooms:

One of the surest-ways to provide financial security for your new family is the Payroll Savings Plan. Sign up now at the pay office where you work. Just tell the people there how much you want to save, and they'll put that amount aside for you each payday. When enough accumulates, they'll buy and turn over to you a Series E Bond.

> Want your interest paid as current income? Invest in 3% Series H.

United States Government Series H Bonds are new current income Bonds in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on one month's written notice. Mature in 9 years, 8 months and pay an average of 3% per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased through any bank.
