 cases, share the blame for the misdeeds of their boys through negligence—why not print the names of the parents? Why not try the healing properties of embarrassing publicity?

There is sort of an unwritten law against printing the names of youngsters who get into trouble with the court. There is no law against printing the names of parents who equally are guilty through their negligence. Print them.

If Judge O'Connor were to announce tomorrow that beginning with the next session of his court he would release to the newspapers the names of parents of erring boys who are contributing to the delinquency there would be an immediate falling off in customers.

Once let the probability of being pointed out on the street as a pop or mom neglecting children take root and pride alone will bring a lot of parents into line. And if the courts ever get around to putting such parents on probation a sure fire shortcut to a minimum of this juvenile delinquency nonsense will have been found.

Meanwhile only a very dull juvenile would fail to heed what Judge O'Connor has said about Union County refusing to stand for any parallel to New York street gangs. Even the dull ones ought to be catching on to that warning by now.

CAN ABSORB PLAN
 The Planning Board has been operating on the basis that Springfield can absorb such planned industrial development provided they are zoned for the proper areas.
 The Board has made possible the opening of a new industrial development in an area near the Millburn-Union line. Careful screening of applications and proper planning are already paying off. The Vickers Company, a division of Sperry-Rand has already moved in and the rest of the development is being pushed for completion.

PROVIDES MUSIC — Sy Mann and his orchestra will provide the music for the 1st installation dinner dance to be held by the Reform Jewish Congregation of Springfield at the Far Hills Inn, Scramville, on October 13. The Reform Group plans to have a prominent star of stage and TV to head the floor show of the gala event.

Mrs. Dwyer Reports To Student Press

Rep. Florence P. Dwyer today disclosed that she has extended invitations to all Union County high schools to participate in a "Student Press Conference" at her home in Elizabeth on Saturday, October 12.
 The Sixth District Congresswoman will make a brief report on the first session of the 85th Congress and answer questions on national issues and problems of government during the press conference.

What Springfield needs now and in the future is planning know-how. As Chairman of the Planning Board, as a former Building Inspector and having almost thirty years of building experience I have studied the situation here and there is no question in my mind that the answer is planned zoning to offer an attractive location for these desirable tax ratables. Other municipalities have cashed in on their potential. We can do likewise.

"However, acquisition of these millions of new ratables is not going to be accomplished through an ad in a newspaper and sitting back to await results. That procedure was followed by the Democratic candidate. It brought no results. This move must be planned. It involves conferences with property owners, sessions with industrialists in nearby congested areas and meetings with industrial realtors. This is where contact and planning know-how pays off. As a member of the governing board I would pledge unlimited time to this project."

Eleanor Ritter To Finish At Drew

Eleanor Jane Ritter, daughter of Mr. and Mrs. Edward Ritter of 23B Forest drive, is among 185 new students who began fall semester classes in the College of Liberal Arts at Drew University.
 A graduate of Jonathan Dayton Regional High School in Springfield in 1953, she is entering the College with advanced standing. She attended Sweet Briar College in Virginia for three and one-half years.
 Drew is marking the start of its 91st year. Its liberal arts program is now in its 30th year. The undergraduate enrollment this year will be 425 men and women.

Letters to Editor

Editor, Sun:
 Just a brief note to say thank you for the kind cooperation your newspaper has extended to me during the recently concluded first session of the Eighty-Fifth Congress.

It has been a long and hectic session, and for me the months ahead also will be crowded with work. During adjournment, the House Intergovernmental Relations Subcommittee, on which I serve as ranking minority member, will be conducting a series of important hearings on grants-in-aid programs throughout the nation.

However, I do hope I will have an opportunity to drop by your office for a visit before the second session begins next January 7th. I would like to discuss with you the various major issues facing the Congress, as well as ways in which my office can improve its press service and fit it more adequately to your news requirements.

With kindest regards,
 Sincerely yours,
 Florence P. Dwyer,
 Member of Congress.

Editor, Sun:
 On behalf of the Springfield Civil Defense and Disaster Control Council I would like to express my appreciation for the splendid cooperation you have given our efforts. We feel that the means of publicity you have afforded us have been of considerable help in dispelling the general apathy we have faced in presenting civil defense to Springfield.

Our biggest problem has been and still is, overcoming a "short sighted" viewpoint of civil defense. It has been our objective to promote the ever increasing important part of our government by stressing the civic responsibility of each citizen.

Sincerely,
 Robert G. Planer,
 Municipal Director,
 Civil Defense and
 Disaster Control.

Editor, Sun:
 I wish to express my thanks to you for the kind article which you wrote about me in the last issue of the Springfield Sun. As a new resident I find "The Sun" interesting and very helpful in helping orient me to the tenor of the community.

I hope I will have the pleasure of meeting you before long. Thanks again.
 Very truly yours,
 Leonard Harris, M.D.

Editor, Sun:
 Please accept our sincere thanks for the excellent coverage and picture which your newspaper accorded the installation service at Holy Cross Church. It was deeply appreciated and elicited

SCOUT NEWS
 BOY SCOUTS OF AMERICA
 Cub Pack No. 62 will welcome back its old cubs and all new members interested in becoming a

member. The pack meeting will be held at the Edward Walton School at 7:30 p.m. on Tuesday October 8, 1957.
 New members are asked to bring either parent or both parents if possible, in order to make out their applications.
 Cub Master Syd Faber will outline some of the events we hope to have in the near future.
 There will be a committee meeting after the pack meeting at Temple Beth Ahm 9 p.m., for all parents interested in helping their

children, to be good scoutmen.
 At the last meeting of Boy Scout Troop No. 62 the following new members joined—Louis Cohen, Garry Jacobsen and Richard Mayer. At a meeting held by Seymour Wortzel and Otto Granick to assign duties, Mark Biddleman was appointed Senior Patrol Leader, Elliot Wortzel Patrol Leader, Frank Katz-Activities, Richard Koretz-Scribe and Steven Levitt-Patrol leader. Bernie Gersten volunteered his services as Assistant Scout Master.

TROOP 70
 Meetings are held each Thursday evening from 7:30 to 9:00 in the James Caldwell School Gymnasium. Mental Health

(Continued from page 1)

munity level to supply additional comforts or important special needs. An example of individual service is Mrs. J. Dillard Collins of Cranford. She is an artist who volunteers her special skill by teaching painting to some of the patients at Marlboro. Women with any particular talents are eagerly welcomed to the volunteer ranks. On the community level, the work to be undertaken is limitless. Magazines, especially pictorial or digest type, are needed and collections of these could be made and volunteers driving to Marlboro could take them to the hospital—periodically. Used playing cards in good condition as well as games and puzzles are always in demand, since they wear out quickly owing to constant use by the patients. Costume jewelry is another item which appeals to the feminine population of the hospital and can be put to use in various ways at the party which are given to entertain the patients. Other projects—like the seat-cushion one now in operation in Cranford, or clerical assistance in the office can be undertaken by volunteers.

Women wishing to aid in any phase of this urgent and gratifying work should contact Mrs. Hillier, telephone DR 6-5281, or call the Summit Office of the Association, CRenford 3-8555.

A high fidelity sound system should be designed to harmonize with the room and home in which it is installed. Its installation should be a permanent step in the completion of your dream home. Therefore, be sure to consult a firm of sound engineers, like us, before investing in high fidelity. We particularly urge you to listen to dual recorded stereophonic sound before selecting your system. This major advance in sound brings an incredible "living presence" to music in your home. We will be glad to demonstrate sound systems either in our laboratories or in your home.

Back to school and study — Is study hard work? The book by William H. Armstrong tells us that it is, and that the time to begin is in our youth. However, we are never too old to learn. Since almost everyone spends approximately 10,000 hours in elementary school, then add another 6,000 hours for those attending high school, plus an additional 6,000 for those who go on to college, and we have a grand total of 22,000 hours. It would seem that the book "Study is Hard Work" should be a reading must for those who want to get the most from those study hours.

Because we are hearing so much today about electric computers, we are inclined to wonder if study is necessary, but there are computers so complex they require extensive study by their operators. Complex as they are, the human brain is much more complicated. It is the student's instrument for learning, and the student does not always have sufficient instruction in its use.

To help him use his brain effectively, it is suggested he read "This is the Way to Study" by Howard Elmer Brown. This book is addressed to high school students, college freshmen, and adults who need advice and help in concentration and study.

For the busy college-bound person, time would be well spent reading the following two books: "You Can Always Tell a Freshman" or "How to Get the Most Out of Your College Years" by Elizabeth Ann Hudnut; and especially for girls, "She's Off to College" by Alison, a girl's guide to college life. Still another very important book dedicated to students of theology is "Practical Study Methods for Student and Pastor" by Donald F. Rorsin and Palmer Ruschke.

Anyone can profit from reading "Communication" by Roy Ivan Johnson and others. Its subtitle is "Handling Ideas Effectively" and has chapters on "Getting the Most Out of College," "Rules for Better Reading," "The Art of Discussion," and "Making Reports."

Anyone interested in studying and reporting ideas for school, social organizations, or business will find a great deal of help in any one of these books.

Books mentioned in today's column are:

- Alsop: She's Off to College.
- Armstrong: Study is Hard Work.
- Brown: This is the Way to Study.
- Hudnut: You Can Always Tell a Freshman.
- Johnson: Communication.
- Rorsin: Practical Study Methods for Student and Pastor.

P.B.A. Wins Two To Tie for Lead

P. B. A., bowling like professional bowlers instead of professional cops, took two games from Conte's Delicatessen in the Springfield Sports League last week to tie for first place.

Ted Smith threw two 200 games, 200 & 226, to lead action at the Springfield Bowling Alleys. The powerful Lynn team took two games from last year's champions, Drexel Quality Cleaners, Springfield Tree took two games from Stereo Sound Corp., but the Sound men improved sufficiently to win their first league game.

Ed Geerke had high series of the night, 598. The following 200 games were bowled: Ted Smith, 226, 200; Ed Cardinal, 223; Joe Pepe, 224; Schaeffer, 225; Ed Geerke, 218; B. Lynn, 203; W. Eick, 205; and Richard Gaggiano, 210.

Ping Pong Team Wins in Upset

Springfield's Table Tennis team defeated highly regarded Batontown five games to four in the opening matches to the New Jersey Table Tennis League this week.

Al Noehenson of Springfield upset last year's New Jersey ping pong champion, John Killpatrick, 21-18 and 22-20. Last year the champ was beaten only 3 times in 56 matches.

TAKING CARE OF YOUR GARDEN

By Edward A. Cardinal
Chairman, Springfield Shade Tree Commission

In recent weeks my attention has been called to considerable dog damage. We dog owners sometimes forget that they can cause much damage by wetting on plants and very often considerate neighbors hesitate to call our attention to the damage.

Of course the folks with destructive children must close their eyes to the neighbors dog, or they are apt to start a neighborhood feud. By all means leash your dog and try to train him to use your own yard rather than the neighbor's.

Q. I recently lost four plants and on several occasions saw my neighbor's dog wetting on them. Could this kill the plants?

A. It certainly can. Large plants usually suffer only damage to a lower portion of the plant, but small plants can die quickly and even the larger ones cannot tolerate this condition too long. Use a dog repellent, or try placing wire around the plant

when the neighbor is looking your way. They usually take the hint. If this doesn't work buy a cow and let her roam over the neighbors lawn.

Q. I had a beautiful pyramid yew at the corner of my house and late spring it turned a light brown color and died. Was this dog damage?

A. We can't blame Fido this time. Chances are the drain pipe leads down to the yew and the wet spring weather did the damage. Yews cannot stand wet feet. Next time correct the drains, or dig deeply and put a layer of stone beneath the plant.

Q. When is the proper time to plant evergreens and shrubs?

A. Azaleas and other broad-leaves as quickly as possible in order to make root growth before freezing weather. All other evergreens in September and October. Trees and shrubs after the first frost, although many can be planted now if balled and handled carefully. Fruits and roses are usually planted when dormant,

Civic Groups Join Temple Beth Ahm in Auction Plan

It was announced today by Ike "Springfield Hardware" Freedman, Chairman of the Auction Committee of Temple Beth Ahm, that this year the Committee has been assured of the whole-hearted participation of the many independent social and fraternal organizations presently using the Temple facilities for their meetings and programs.

"The joining of these groups with this Committee will provide us with not only additional gifts for the Auction, but with a greater promotional program lending itself to increased audience attendance," said Ike today. It was further disclosed by Mr. Freedman that the supply of gifts for Auction has greatly stepped up in the last week. And with the many gifts yet promised, this year's

Auction will have the greatest number and variety of items for sale than at any previous Auction in Temple history.

Again the Committee would like to extend a sincere invitation to all the readers of this paper to join with us on Saturday evening, November 23, 1957, at Temple Beth Ahm, 60 Baltusrol Way, for the opportunity of enjoying not only the pleasure of competitive bidding with their neighbors, but also the professional caliber of the auctioneers scheduled to handle this event.

At press time Mr. Freedman announced that the cooperation of the combined group of Springfield merchants seemed assured, and he expects to have detailed information about their participation in time for the next issue of this paper.

that is after leaves have fallen. Bulbs can be planted now, although most gardeners feel that later planting is more satisfactory if the weather happens to stay warm.

Q. I wish to do my own landscaping and buy plants as I need them. Can you give me any advice?

It is a question mark or a period? There are certain basic essentials: food, shelter, clothing. Some folks never have more. But the richness of living requires more, and requires money. Education for your children, a car good enough to "go places" safely, a home of your own, perhaps your own business, money available for a rainy day. Not what you earn now, but what you save now for your financial future. So why not start saving a certain percent each pay day in The First State Bank.

What makes your electric dollar bigger than all the rest?

The answer's simple. The cost of living has skyrocketed, yet the cost of electricity has hardly moved! Just take a look at the clothes you're wearing. It wasn't too long ago when you could have bought two suits or dresses for the price of one today. Now, count the electrical conveniences in your home—the

light you're reading by, the TV in the corner, or the electric range, toaster, washer, dryer and freezer (you could probably name a dozen more). Your electric dollar buys more pleasure and comfort while your other dollars buy less. And you can depend on electricity for even more low cost service in the future.

Electricity is the biggest bargain in the family budget!
