HELPING FAMILIES OF POLICEMEN

The lot of a policeman was never too easy and very often the front pages tell of some "punks" whose nervous fingers pull the trigger of a menacing gun—and a cop is killed.

Patrolman Louis Quinton of the Springfield P.B.A. is anxious to have local residents join in having some legislation passed in the legislature that will help the bereaved families of men killed in the line of duty.

The campaign to help pass such bills started with the issuance of a statement by Detective William M. Connelly of Elizabeth who is president of the New Jersey Patrolman Benevolent Association, commenting on the recent slaying of Patrolman Robert Strone of the Passaic police department.

Connelly stated that the incident was another in a long list of unfortunate occurrences involving the policemen of this State as well as policemen throughout the country. In recent years, Connelly stated, there have been three policemen killed in New Jersey alone, Sgt. Clinton Bond of Union Township, Trooper John Anderson of the New Jersey State Police, and Patrolman Jack Woomer of the Newark Police Department.

As one reads his daily paper it is difficult indeed to find a day go by in which some police officer has not been assaulted by roving bands of "punks" or fired upon by some desperate person intent on committing some criminal act. Connelly said. All this points up to the drastic need for pension revision which will benefit the widows and children of those deceased men who gave their lives in service, protecting the lives and property of the citizenry.

There are four (4) bills now before the State Legislature which are approved and backed by the State P.B.A. in an effort to correct the present inadequate benefits. He advised that Senate Bill 118 sponsored by Senators Harold and Ridolfi provides that municipalities may, by ordinance, pay pensions to widows and children of policemen and firemen killed in line of duty in amounts not in excess of the salary being received at the time of death.

Also Assembly Bills 377 and 393, sponsored by Assemblymen D'Aloia, Matthews, Michnevich, Connelly and Lynch are bills designed to offer a more realistic pension benefit to widows and children. These bills would provide for increasing the service-connected death and disability benefits payable to members of the Consolidated Police and Firemen's Pension Fund composed of men who were in service prior to July 1, 1944, and to the members of the Police & Firemen's Retirement System who came in service after July 1, 1944, and would raise pensions from the present \$1500. per year to one-half salary and disability pensions from the present one-half salary to two-thirds salary.

Connelly stated that passage of these bills is urgent in order to protect the widows and children of this state's law enforcement officers and prevent the continued exodus of trained personnel from the profession in their efforts to secure a more adequate salary and more liberal widows benefits.

Failure to enact legislation of this type constitutes a serious threat to the well-being of the citizenry at a time when there is an apparent upswing in crime. Connelly issued an appeal to all persons in responsible positions in their respective municipalities to make a sincere effort to aid in the passage of this important and needed legislation so that the widows and children of your enforcement officers who may give their lives in protection of your rights and safety may be assured the opportunity to live a normal life.

HOW TO STAY ALIVE

Everyone knows you can't stop a car on a dime. But do you realize just exactly how far your car does travel before it can be stopped?

"It's a lot further than you may think," the National Safety Council says.

Tests show it takes the average driver, under most conditions, about three-fourths of a second to react to an emergency and hit his brakes.

At 15 m.p.h., in the time it takes to react, you've already traveled at least 17 feet — theoretically, over three six-foot tall men. It takes another 14 feet — about two more six-footers — to bring your car to a halt. That's a total of five six-footers you've run over — and at only 15 m.p.h.!

Most motorists, though, don't drive quite that slow. Let's assume you usually whiz along at, say 60 m.p.h. A pretty reasonable speed, you'd say.

Keep your eyes on the road and reach for a cigarette lighter. Put the cigarette in your mouth, glance down and flick the lighter. That flick and in that puff on the cigarette took about two seconds. During that time, you traveled at least 126 feet — more than half the distance of a football field.

If you saw an accident situation ahead after looking up and hit the brakes immediately, before you could stop your car would have traveled 368 feet further — equal to another football field, and then some.

Your trouble may not be lighting cigarettes. But everyone's distracted sometime or other by something in the car. Best protection is to be alert, and to hold down your speed so if you do face a situation, you'll have time to stop safely.

If you do find yourself facing an emergency, you'll be better able to stop in time if your tires and brakes are in good condition. An emergency is no time for added problems.

If, despite all your precautions, you find yourself in an emergency, remember this tip: Better that you head for the ditch than ram an oncoming car.

"Stay alert — stay alive," the Council says. "Think ahead."

AN ANSWER FOR A FOUR-YEAR-OLD BOY

Not so long ago a man writing a letter to the editor reported a chat with his 4-year-old son on the subject of the figure "120" on the car speedometer.

First the lad asked why his father didn't go up to 120. Told that he'd be jailed if he did, the boy wanted to know if that was the fate of all who hit 120. Since the answer was yes, his next question, following rigid child logic, was why have such a number on the dial at all.

Father couldn't answer. But the motormakers have a standard reply: Those fantastic figures represent reserve power every driver needs for passing and for maneuvering in countless other touchy, difficult spots.

This may well be so. Let the reserve power be there as a safety factor. But couldn't the manufacturers remove the super-figures from the speedometer face? They're an open invitation to thrill-seekers. They can even beckon to the conservative drivers who might respond to the surge of that usually untapped power.

Regional High Honors Athletes At Booster Dinner

Springfield Regional's Booster Club honored participants in Regional's athletic program last Thursday, May 19. A dinner was held at the Chi-Am Chateau on Rt. 22. Thirty-two graduating seniors were among the honored guests as guest speaker Frank Kirbleski spoke to the assembled group.

A sumptuous turkey dinner was served to approximately three hundred guests and Booster Club members. After dinner, notables in the Regional High School system spoke. Among the distinguished speakers were: Doctor Minor C. Jones, R. T. Jacobsen, and Warren Davis. One of Regional's retiring teachers, Mr. Arthur Boutot, spoke also. Mr. Boutot had been active in Bulldog athletics for a number of years.

The guest speaker, Frank Kirbleski, was introduced by the master of ceremonies Michael Suchena. He gave an interesting talk on his athletic experiences of and of the playing field. It was quite interesting since Mr. Kirbleski drew on his experiences in the pro football ranks, his high school coaching at Jefferson and Woodbridge high schools and his trials and tribulations as the principal of Cleveland Junior High School in Elizabeth. Mr. Kirbleski played pro football with the now defunct Brooklyn Dodgers.

The high point of the evening came when the Booster Club presented their annual awards. Berkeley (Continued on page 5)

Deadline Near In Contest For Sp'gfield Motto

The Chamber of Commerce contest to pick a slogan for Springfield ends Monday at 2 p.m. when the judges will gather up the last minute ballots in the boxes located in the bank and high school.

So far the majority of the suggestions for a town motto remain sealed in their original envelopes or are stashed away unlooked at in publicly chairman Jack Stiefelman's safe. He has stolen a look at a few of them, though, and reports the quality excellent.

"They show that the people who are sending in entries are really putting on their thinking caps," Stiefelman commented.

The five judges plan to meet Monday night to decide who will win the six prizes ranging from a \$50 U.S. Savings Bond to \$5 in cash. They will accept all entries in the polling boxes in the National State Bank of Elizabeth (Springfield branch) or Springfield Regional High School by 2 Monday afternoon. All entries mailed to the Chamber of Commerce "Slogan Contest" at P.O. Box 113, Springfield, must be in the hands of the judges by the same time. So to play it safe, suggestions should be mailed by midnight, May 21.

Stiefelman emphasized that the entries should have a business or historic significance, or both. He says that the slogan selected for first prize will be used by the Chamber of Commerce in all their promotional signs around town and encouraged for inclusion in individual store ads.

The five men who have been selected to judge the contest are: Dr. Randolph Jacobson, principal of Jonathan Dayton Regional High School, Mayor Albert G. Binder, Martin Steinhardt of the advertising firm Keyes, Martin & Company, Lawrence Rogers, manager of Saks Fifth Avenue, Springfield, and Abel V. Del Vecchio, postmaster in Springfield.

Town Purchases Hague Land For Parking Lot

THERE'S GOOD NEWS FOR MORRIS AVENUE MERCHANTS.

Especially those on the north side of Springfield's business thoroughfare.

The Township, last night, introduced an ordinance authorizing Springfield to purchase the Hague property in Morris avenue — facing Mountain avenue — and appropriate money for the grading and construction of a hard-topped, free parking lot.

Providing for this off street parking on the north side of Morris avenue has been the pet project of Township Committeeman Raymond W. Forbes and the introduction of the ordinance last night ended his long fight to have the Township purchase the necessary property for a free municipal parking lot.

The ordinance calls for the purchase of the land directly opposite Mountain avenue which then extends east and west in the rear of the Morris avenue land. The space between the diner and the Kravis building will serve as the entrance to the large parking area in the rear. According to Township Committeeman Forbes there will be space for 88 cars in the Hague property alone with plenty of room for egress and ingress.

WILL ENLARGE PARKING

News that the Township had taken the legal steps to construct a parking space on the Hague land, led James Fincheon, of the Springfield Market, to announce that he is calling a meeting of all property owners with the idea of extending the free parking area so that it would include the rear of all stores from the Kravis building to the Springfield Pharmacy.

The plan is to have all available land in the rear of the stores on the north side of Morris avenue graded and hard-topped so that shoppers will be able to use this additional parking space. Several of the property owners are also discussing the possibility of making rear entrances and dressing up their stores to take care of the shoppers within easy walk to

Palmer Ignores Another Letter From Township

New Jersey State Highway Commissioner Dwight R. G. Palmer has another letter from Mayor Albert B. Binder and the governing body of Springfield — which the highway boss, no doubt, has stuffed into his well filled "don't answer" file.

Mayor Binder addressed this latest begging letter—a groveling plea "to reconsider the matter of eliminating the exposed trolley tracks in Morris Avenue." The exposed rails have caused many accidents in this busy thoroughfare and Springfield has been asking to have them covered or eliminated for many years. Commissioner Palmer has stated that the rails should be eliminated and that the Highway Department could do it with ease BUT THAT HE WOULDN'T AUTHORIZE IT UNLESS SPRINGFIELD BANNED ALL PARKING ON MORRIS AVENUE.

In the hope that the highway commissioner would change his mind on the matter, Mayor Binder enclosed copies of letters written by Magistrate Henry C. McMullen regarding a recent accident caused by the exposed rails. Mayor Binder's letter with the accompanying copies were mailed to Palmer May 8, 1958. Up to this writing—three weeks later — Springfield hasn't been shown the courtesy of a reply.

The following letter tells the story:

LETTER TO PALMER
Dear Mr. Palmer:

Once again I am forced to call your attention to the continuous hazards created by the exposed car rails on Morris Avenue (State Highway No. 24) in Springfield.

One of the many accidents which recently occurred, as a result of these trolley rails, (Continued on page 2)

Support Grows To Kill Rt. 22 Plan Anywhere

A group of citizens are rallying around a movement to not just move the new Route 22 out of Springfield, but to kill the highway altogether.

Robert Hardgrove, president of the Twin Brooks Civic Association, has called a meeting for Monday, June 2 at 8:00 p. m. at James Caldwell School to try and enlist support from many Springfield organizations.

The catalyst for this new movement is a Mr. J. Robert Proctor of a New York-New Jersey Committee to combat highways. He proposes eliminating routes FAI-102 and FAI-107, the spur.

Hardgrove reports that the executive board of Twin Brooks was so impressed with Proctor's "sound and plausible plans" that they feel they have a real chance of reaching fruition.

Proctor is reported to be in possession of information that will show how New Jersey can have adequate highway facilities without constructing the proposed new highways.

This will save New Jersey taxpayers twenty million dollars and many times that amount on the Federal level. Hardgrove states, "and Springfield will not have these routes massacre its territory."

Proctor got in touch with the Springfield group as a result of Hardgrove's letter to the SUN on May 8. The group emphasizes that they are non-political and encourage anyone who is interested to attend the coming meeting.

Charter Panel See Manager For Town

A panel of local citizens met Tuesday evening to discuss the Charter Study that may alter the form of Springfield government.

They voted to recommend the "council manager" set-up for this town.

Forty-five to fifty people met at the Springfield Public Library to hear Joseph Bender, Norbert Berberich, Mrs. Francis Keane, Donald Lenny and Louren Skousen examine the pros and cons of various phases of township government as well as other forms of government offered under N.J. laws.

The panel concluded that Springfield's government is big business and in need of full time professional services to handle the spending of the million dollar budget.

Elks Set Date For 3rd Annual Picnic

Plans for the 3rd Annual picnic of Springfield Lodge of the Elks are now underway. Anthony Labracio, chairman of the picnic committee, has announced that the picnic will be held on Sunday, August 21 at the Old Evergreen Lodge.

Serving on the arrangements committee are John Luciano, Sidney Stolz, Ronald Kane, Harry Morgan, Eugene Sams, Max Weiss, Edward Grassman, James Finn, Robert Marino, Tom Brogan and Bill Thompson.

An initiation of new members will take place at the Lodge on Monday June 9. Elk members will see the Yankee-Detroit baseball game on June 13 and the Yankee-White Sox game on August 21.

New Social Science Program In Local Schools Wins Support

The Springfield school system received an A in social sciences Tuesday night.

Superintendent of Schools Benjamin Newslinger and his staff of teachers won praise from the Board of Education and representatives of the different PTA's on a presentation of the new social science curriculum. It was the climax of a year-long evaluation and codification of the program throughout all Springfield schools. A meeting in the cafeteria of the Florence Gaudineer School saw exhibits of work from social science classes ranging from kindergarten to 8th grade. A lengthy mimeographed outline of the new program was presented to the Board for its approval.

I am enclosing Judge Henry McMullen's letter to me and you will agree, I am sure, that the language is direct and forceful. While he absolves the town authorities of responsibility, the motoring public, both local and transient, are not as kind.

Won't you please reconsider your stand in this matter, and take immediate steps to correct a condition that is becoming increasingly worse as time goes on. May I be favored with a reply to this appeal, which I humbly submit in the name of humanity. Sincerely,

MAGISTRATE'S LETTER
 Mayor Albert G. Binder
 Municipal Building
 Springfield, N. J.

Re: Trolley rails on Morris Avenue.

Dear Mayor Binder:
 I, of course, am familiar with your efforts over a long period of time to convince the proper authorities of an existing serious traffic hazard resulting from the exposed rails of the abandoned Morris County Traction Line on Morris Avenue, Springfield.

In the Municipal Court last Monday evening a responsible citizen of Springfield, Mrs. Edna McDonald of 25 Becker Road, Springfield, answered a summons charging careless driving on April 11. The charge was a technical one arising from a serious accident. Mrs. McDonald's car skidded on the wet trolley rails out of control and into a pole.

Her car was smashed and she was severely injured. Her visible

injuries consisted of contusions of the head and face resulting in a severe discoloration of almost the entire face. Her appearance was most shocking and from the facts produced, she was extremely fortunate in not having been fatally injured. There was no evidence of excessive speed in that she was proceeding on Morris Avenue when at the intersection of Mountain Avenue, due to the hazardous condition of the rails, her car skidded and into the pole. This accident appeared to be in no way the fault of Mrs. McDonald and I found her not guilty.

This accident could not have happened but for the extreme negligence or nuisance of the person or persons responsible for the continuance of this condition.

This incident may be a concrete warning of what might again result in death to law abiding citizens. I join with you in sincerely hoping that this price will not have to be paid in order to correct a wrong over which our Township has no control.

Sincerely yours,
 Henry C. McMullen
 Magistrate.

The rule against parking at certain hours of the day has affected business in Morris Avenue considerably and the merchants have been pleading for relief for years. There is nothing on the north side of Morris Avenue in the way of parking space and this project should help business considerably.

The rear of all the stores on the north side has long been a dream of the merchants in this area. The Township will cooperate with those merchants and property owners who plan to extend the parking lot all the way to the group of buildings near the center of the town.

Bath Ahm Confirms Nine Youngsters

Nine young people of Temple Beth Ahm were confirmed at service at the Temple last Sunday. The confirmation marked the culmination of a two year study program beyond the Bar and Bas Mitzvah age of 13, embracing courses of study of the Bible, Jewish history, and Jewish values.

Confirmation customarily takes place at the holiday of Shavuoss (Feast of Weeks) which commemorates the giving of the Ten Commandments on Mt. Sinai. The service was conducted by Rabbi Reuben R. Levine, assisted by Cantor Kramerman and Organist Lenore Green. Certificates were awarded to the confirmands by Milton Kappstatter, president of the Temple, and books were presented to them by Mrs. Earl Lawit, Sisterhood president.

The members of the confirmation class were: Mark Biddelman, Caryl Farb, Susan Gold, Marcia Herberg, Margo Herberg, Evelyn Reisky, Sandra Spielman, Richard Sussman and Donald Weiss. Each of the confirmands gave a talk on some aspect of Jewish religion and Judaism.
