Show Need To Build School On Smith Farm

The Springfield Board of Education made public this week its reasons for feeling that another school is necessary in town.

A report issued this week showed that expected enrollment was going to be even higher than predictions made a year ago. The Board also stated that they still have eyes only for the Smith farm tract on Evergreen Avenue. This site is recommended by the Union County Superintendent of Schools, Dr. William H. West.

"My recommendation is that you proceed at once to acquire the wooded plot on the rear of the Smith farm . . ." West told Springfield educators after touring the area.

Following is a statement from the Board:

Enrollment on May 16, 1958, was 1,795 in all four buildings, with the fifth grade being housed in the upper-grade Gaudineer School instead of the Christlorn School as it should be. On the basis of expected growth, the projected school enrollment in 1960 will be 2,337. With our present 66 classrooms and make-shift arrangements, this will bring the average class size to 35.4 ranging as high as 45, even if we continue to use our temporary facilities on a permanent basis.

Actually we could not expand class size to this extent for two reasons: (1) the state recommended class size is 25, and (2) the special provisions we are now making for housing our pupils are not such as will accommodate 45 pupils.

Furthermore, the P.T.A. en-

Leonard Best Takes Fight To Governor

A Springfield businessman has returned from personal visits with Governor Robert B. Meyner and Highway Commissioner Dwight R. G. Palmer with both encouraging and discouraging news on the highway.

Leonard Best, president of the Richard Best-Pencil Co. in Springfield, reports that Palmer is disturbed that there is a feeling in Springfield that the course of the highway is already set.

"We listened to Leonard's arguments on a similar case," Palmer is reported to have said, "and moved a highway at considerable expense to save the town."

However, Best also says that Meyner dismissed the revitalization plan with "You can't do anything with Route 22." Palmer also described the widening of Route 22 as "impractical."

Best, who headed a delegation from Summit, says that everything said at the public hearing Monday, June 30 will be of vital importance.

CITIZEN OF THE YEAR—Miss Phoebe M. Briggs receives the Citizen of the Year plaque from Union president Anthony P. Fiorilli in a ceremony at the Club Diana Sunday. Fiorilli said that "it is particularly appropriate that this honor be accorded Miss Briggs, whose ancestors came to Springfield in 1717." She was selected from among all Springfield residents for her many civic services, including many years on the staff of the Free Public Library. She was honored by a large attendance at the annual "I Am An American Day" dinner dance of Union, (Micky Fox photo).

Stormy Session Over Shunpike Sewer Site

Boys Find Rocket Toy Is Dangerous

Two Springfield boys won commendations from the Springfield Fire Department this week for reporting a dangerous toy on sale in local stores.

The boys, Jack Heller of 29 Garden Oval and Stuart Schwartz of 14 Berkeley Road, told firemen of a rocket toy with a propellant that is explosive and "very dangerous." Fire Chief Ormond W. Mosker investigated and banned the sale of the toy, "Auobee-Hi-Rock-A-Chute," in town.

Fire Commissioner Frederick A. Handville commended the boys for "being so public spirited and safety conscious."

Help Mental Care

The Springfield Board of Education recently gave \$300 to the Union County Psychiatric Clinic to enable local residents to take advantage of mental health care. The board reports that there has never been such a service available before to Springfield residents.

The Town Committee voted last night by a 3-1 majority to have an outside attorney represent the town in drawing up a developers agreement for a playground area adjoining the Henshaw Playground and to draft an ordinance regarding the new storm sewer along Shunpike Road involving Jeffrey Estates.

Committeeman Vincent J. Bonadies, the dissenting vote, felt that the whole idea of the storm sewer was "inconsistent with past policies" and "that the developers share was not commensurate with the direct benefit."

The purpose of an outside attorney is to avoid any charges of conflict of interests; for one of the officers in Jeffrey Estates is Township Attorney Max Sherman.

The question of conflict of interests was the basis for some sharp exchanges from members of the Committee and interested citizens and charges and counter-charges flow back and forth.

The background on the situation starts with the hiring of a hydraulic and sanitary engineer, Elson T. Killam, in 1954. He was asked, for \$1,500, to survey the flooding problems in the Henshaw area.

His work was dramatized in the Fall of 1955 when a hurricane hit Henshaw Avenue and Hawthorne Avenue under water. Citizens deluged Town Hall with

demands that something be done.

Killam outlined a series of storm-sewer construction projects that could be undertaken at costs ranging from \$90 to \$100 thousand. The gist of his plan was to take the storm sewer water from the corner of Tooker and Henshaw and run it to the brook south of Franklin Place.

However, the town was never able to round up the money. Some residents of the area feel that since the town has been keeping the present 30 inch sewer pipe clear it has relieved the flood situation. Township Engineer Alfred E. Swenson says all that is needed to cause another flood is another two day storm like the hurricane in 1955.

The majority of the Township Committee feel the problem can best be licked by taking advantage of a Union County offer to pay a percentage of a new sewer plan. They would also take in some money from the developer of the Baltusrol Golf Club tract north of Shunpike road.

The developer is Jeffrey Estates, owned by Nathan and Isidore Sherman, brothers of Township Attorney Max Sherman.

The group will meet with Israel's Chief Rabbi, Dr. Isaac Halevi Herzog, and government leaders. There also will be participation in seminars in conversational Hebrew, Bible, archaeology, geography, and government. Yeshiva University, America's first university under Jewish auspices, comprises 17 schools and divisions located at six teaching centers in New York City.

Town Gives Up Alternate Route: Asks State For Study On Present Rt. 22

Big Crowd Due At Road Hearing Mon.

On Monday, June 30 at 10:30 A.M., the public hearing by the State Highway Department will be held at Jonathan Dayton Regional High School.

The State Highway officials will present their case and views on a new Route No. 22 (F.A.I. 102) after which the various governing bodies of Berkeley Heights, Summit, and Springfield will vote for their approval or disapproval.

The Union County Park Commission and the Union County Board of Freeholders will bring forth their objecting resolutions to the State proposed route.

After this time any residential group or individual citizen may enter the discussion. A tape recorder will record the words and spoken documents for later analysis by State Highway Department officials, who, in turn, must send the tape to the Federal Bureau of Roads in Washington, D. C. for review by their personnel.

It is estimated that the final decision on the highway alignment will not be made until all the hearings are completed—perhaps many months.

Citizens who have attended previous hearings on the highway say that it is wise to arrive early for seats are at a premium.

Jacob Gross To Tour With Teenagers

Jacob Gross, of 372 Meisel Avenue, is among the 23 teenagers from the United States and Canada participating in Yeshiva University's second annual-Summer Institute in Israel, scheduled to depart from New York's International Airport, Sunday, July 6. The trip, sponsored by the university's Youth Bureau in cooperation with the Jewish Agency, will last six weeks.

The youths, ranging between the ages of 15 and 18, will join with teenagers from South America, Europe, North Africa and the Middle East, and will be quartered in Jerusalem along with youths from France, England, Norway, Sweden, Brazil and other nations.

They will visit Bar-Ilan University, a military camp, a kibbutz (settlement), Israel's schools, and Kfar Batya, the children's village of Mizrahi Women.

The group will meet with Israel's Chief Rabbi, Dr. Isaac Halevi Herzog, and government leaders. There also will be participation in seminars in conversational Hebrew, Bible, archaeology, geography, and government.

Yeshiva University, America's first university under Jewish auspices, comprises 17 schools and divisions located at six teaching centers in New York City.

Early SUN for 4th Copy Due On Tues.

The Springfield SUN will publish on Tuesday night next week so that it will be available on newsstands and in the homes two days before the Fourth of July.

All publicity releases must be in the SUN office by Tuesday noon, July 1. Classified advertisements will be accepted until 4:30 p.m. on Tuesday as usual.

Newsboys are urged to report to the office early Wednesday morning.

The Springfield Township Committee gave in to pressure from civic groups last night and asked the State Highway Department to delay consideration of proposed highway F.A.I. 102 until the preparation of a study on the feasibility of revitalizing the present Route 22.

A resolution passed unanimously by the Committee asked the Highway Department to explain in detail why Route 22 couldn't be improved to handle the traffic planned for the new Route 102.

At the same time the Committee tabled the long standing plan to present arguments for the alternate route for which the McGresky report was prepared. Until Route 22 is convincingly killed, Springfield officials feel that there is no point in presenting alternate proposals.

This represents a victory for the Mayor's Committee and Joint Highway Council who have been keeping the revitalization of Route 22 plan alive for weeks despite official Springfield indifference to it. These organizations, composed of representatives from civic, social and fraternal groups, voted unanimously Thursday night to back the widening of 22 rather than the town's alternate route.

The resolution pointed to the day to day adverse impact on the economic life of the town by the effect on traffic and the established zoning patterns. It mentioned most emphatically how the new proposed state route would stifle future development and how the State had not even set up any preliminary hearings to consider the full impact of such a project.

In an effort to forestall the scheduled June 30 hearing, the Township resolution asked for a postponement until a time when complete comprehensive studies could be made concerning the expansion of the present Route 22.

Whether this consolidation of effort by the Township Committee, along with the Mayor's Citizens Group and the Joint Highway Council will have any effect on officials in Trenton is difficult to determine.

But evidently, the solid united front has strength. Union and some of the other surrounding communities, who will be represented at this hearing on June 30, have taken similar action in supporting a "revitalized No. 22" rather than a "new F.A.I. 102."

Mayor Albert G. Binder said yesterday from his home that State Highway officials lately ruled out the widening of Route 22 over a year ago when queried by Springfield officials.

"They didn't give us any reasons like the study they did on our proposed alternate route for fixing Rt. 22," Binder declared. "They just said it was out."

The mayor said that he felt the State had a moral obligation to make a study of the feasibility of "revitalization." The people deserve to know why this new highway is necessary, Binder stated.

He also deplored what he called "immature statements" by some of the proponents of revitalizing the old route. He felt that laymen

(Continued on Page 5)

Citizens Formally Back Old Route 22

To the surprise of no one, the Joint Highway Council, a citizens group, voted unanimously last Thursday, June 19, to back the revitalization of Route 22 at the Public Hearing on Monday.

For weeks this organization has leaned strongly toward the proposals put forward by J. Robert Proctor and Henry Such Smith. After weighing the arguments for fighting for an alternate route or the revitalization at a meeting Monday, June 16, the Council took its vote Thursday night. They delivered the following letter the next day to Town Hall:

Gentlemen: At a meeting held last night, June 19, 1958, at 8:00 P.M. in the Planning Board Room of the Municipal Building, the following motion was made, seconded and passed:

"I move that we, the Joint Highway Council and the Mayor's Highway Committee, vote in favor of the Revitalization Plan of the present Route No. 22 because, in our considered judgment, this plan is in the best interest of the people of the Township of Springfield and neighboring communities and that we join with all other interested groups—who are also supporting the Revitalization Plan of the Present Route No. 22 and that the 'Springfield' Township Committee be so notified."

This information was given by the writer to Township Committeeman Frederick A. Handville in a telephone conversation this morning at 8:00 A.M. for transmittal to other members of the Township Committee.

Very truly yours,
J. Russell L. Nixon
Chairman
Joint Highway Council

Milltown Road Due For Face Lifting

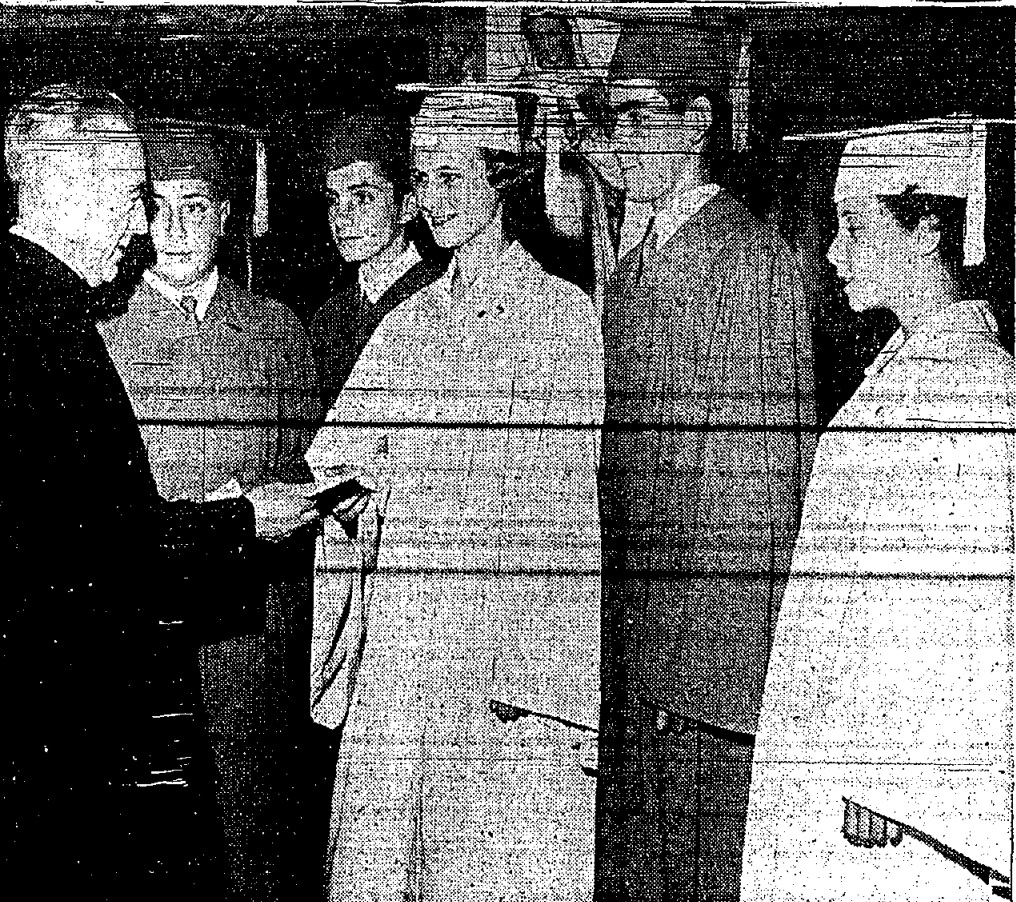

The Township Committee has introduced an ordinance to improve Milltown Road between Janet Lane and a point 100 feet east of Cottler Avenue.

The town has reached an agreement with the State on splitting the cost. Springfield's share is \$14,000.

New curbs, surfacing, widening and storm sewers are included in the project. The road is to be 36 feet wide and 9 inches thick.

For that reason, the Park Commission passed another resolution on June 17, 1958, stating that it is "unalterably opposed" to the taking of Watchung Reservation or other park lands for highway purposes; also suggesting that the proper authorities give further study to the acceptance of a program to revitalize present Route 22 instead.

To assist the Springfield 1st Aid Squad in their drive for funds you are asked to fill the coin card in the space dated June 28 marked UNIFORMS. Cards will be picked up by the squad in September. Make it a habit to fill the coin card regularly each week.

HONOR STUDENTS—Reverend John A. Farrell, Pastor of St. James Church, presents awards to honor students on graduation night, last Friday. Left to right: Joseph Grosso won the American Legion Award for Citizenship; Nicholas Sileo won the Union County Award for Citizenship; Nancy Stoffik won the Rosary Society Award for Religion; a Special Medal for prayer; Prize in Archbishop Boland Religion Test and the Mother's Guild of St. James Award for Scholarship; William Ehrhardt won the Holy Name Society Award for Religion and the Mother's Guild of St. James Award for Scholarship; and Roberta Finney won the American Legion Award for Citizenship. (Ed Sileo photo)

GETTING WELL! WHO COULDN'T??? Mrs. L. G. Rector of 66 Springbrook Road. At the bedside of Sun Publisher Sam O. Sarokin, in Overlook Hospital, Summit, where nurses, in addition to regular hospital services, are dispensing the usual daily quota of smiles to help patients recover quickly. At center is Nurse Marlene Smith, the former Marlene Rector, daughter of Mr. and Mrs. Rector. To Nurse Smith's left is Nurse Pat LaRocca of Short Hills. Patient Sarokin, the other face in the photo, has been in Overlook since June 3 with a heart condition and doesn't appear to be in any rush to get away from this. (Mr. Sarokin arrived home via First Aid Squad yesterday morning)

LETTERS TO EDITOR

An open letter to Township Committee members.
 Dear Vince:

I was present at the Township Committee meeting when you expressed your falling of "chagrin" and deplored the lack of confidence by the people at large who were exploring the possibility of re-vitalizing the present Route-22 in addition to the officially proposed alternate to F.A.I. 102.

The right to disagree with our elected officials is traditional and an inherent right in our Democracy and it behooves you to criticize a concerted action by a large group of people who are acting in self-defense against the

destruction of their lives and homes.

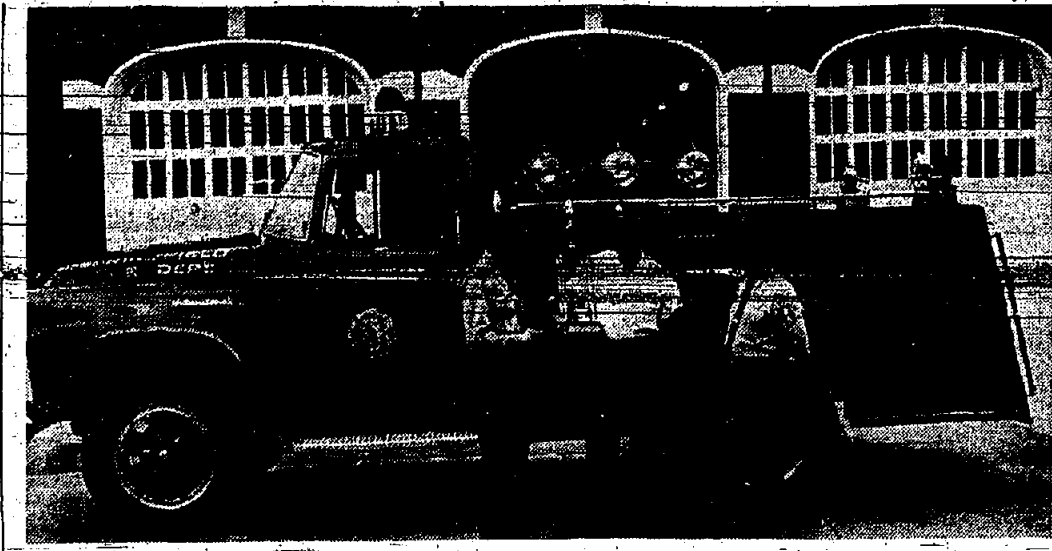

It is entirely possible that you might have been more sympathetic to this movement if you had not so bitterly attacked this same proposal when it was presented to the people nine months ago. You claimed then that Federal funds not be used to improve existing highways. It's a pity you didn't look into it more closely then. It is a greater pity that you so successfully diverted the people from their danger for they would have had nine valuable months to accomplish what they are so desperately trying to accomplish in days.

Whether they succeed or not it will not be for lack of trying. They are entitled to respect for having the courage of their convictions and for taking the time and effort to examine the proposal.

Mr. Forbes was more forthright in his stand on the Town proposed alternate route and was completely respectful of the citizen movement which differed from the official one. Mr. Forbes has never indulged in fence riding or waiting to see which way the wind blew before committing himself.

It's time to measure up to your job, so won't you try, honestly, to see the people's side?

Henry Grabarz

RED HOT FIREMEN—Pictured are the men of the Springfield Reserve Fireman: Fire Chief Ormond W. Mesker, and Robert Marino, President of the Springfield Fire Department who led the firemen to first prize in the parade in Morristown last Saturday. Left to right, Edward Fahrer, President of the

Firemen Cop 1st Prize In Parade

Springfield Fire Department's marching unit won first prize for the best-appearing Fire Company at the Fiftieth Anniversary Parade of the Morris Township Fire Department held Saturday, June 21.

The local fire-fighters were led by Chief Ormond W. Mesker in the line of march through the town of Morristown. Springfield's new Rescue Squad truck with all its equipment was paraded for the first time.

The North-Hudson Girls Band of North Bergen, New Jersey, an all girl unit of fifty members, provided the music for the Springfield Fire Department. The parade consisted of over 2,000 men with over 100 pieces of fire apparatus and 40 bands. It was viewed by more than 25,000 spectators lining the broad avenues of Morristown and Morris Township.

Mayor William Shultz of Morris Township presented the prize winning trophy cup to Volunteer Fireman Frank E. Harlow of 72 Garden Oval who accepted it in the name of the Springfield Fire Department. The cup represents the third trophy won by the Department in the past two years.

Correction
 Eugene F. Donnelly was named chairman of the local chapter of the American Red Cross last week and not the GOP Club as reported in the Springfield SUN headline. Also Howard Caselman was elected to the Board of Directors of Red Cross for a one year term.

Obituaries

Percival B. Baldwin
 Percival B. Baldwin of 11 E. Troy Dr., a director and consultant to the Collins & Aikman Corp., a New York textile firm, died last week in Orange Memorial Hospital of a heart attack. He was 62.

Born in New York, he lived in Short Hills 40 years, moving here last year. Mr. Baldwin was employed by the firm 35 years, having served 10 years as vice president. He was named to the board of directors last year.

He was a member of the board of the Orange Valley Social Settlement, West Orange, for 15 years. He also was a member of the Rock Spring Club, West Orange, and the Baltusrol Golf Club.

He leaves his wife, Mrs. Sarah Ann Baldwin; two sons, Robert of Chatham and Kenneth of Dallas, and six grandchildren. Services were held in East Orange.

Gartner W. Caselton
 Gartner W. Caselton of 4 Norwood Road, manager of the New Jersey Distributing House of the Western Electric Co., died Friday, June 20, in Lenox Hill Hospital, New York of a short illness. He was 59.

Mr. Caselton was born in Sheltonville, Mass., and had worked in the New England area before coming to the metropolitan area in the 1940s. He had lived in New York before moving to Springfield recently.

He had been manager of Western Electric's New Jersey Distributing House, 650 Liberty Ave., Union, for the last six years. The concern manufactures telephone equipment, chiefly for the American Telephone & Telegraph Co. Mr. Caselton had been employed with Western Electric since 1921. He had worked in its manufacturing, installation and distributing organizations before assuming the post in Union.

He leaves his wife, Mrs. Catherine Caselton; a son, William J., and two grandchildren. Funeral services were Tuesday in New York.

Leonard Best

(Continued from page 1)
 importance. He said his group is not backing the Proctor-Smith plan for revitalization or anybody's plan. They are simply asking the State to consider another proposal because "the 102 alignment is not acceptable to the people."

When Best told his old friend Meyer of some complaints about Palmer, the governor is reported to have replied "Well, I could have him fired, but I had such a hard time convincing him to take the job in the first place." The Governor set up the appointment with Palmer.

Best is optimistic about chances of killing the State's alignment of 102.

Another group to call for a State study on the widening of Route 22 is the Union town government. Added to Springfield, Summit, Union County Board of Freeholders and the Union County Park Commission, it makes quite a clamor for the study.

Only Millburn and Kenilworth are supporting the State's alignment.

Teacher Association Executive Board held its first meeting last evening in the Edward V. Walton School building. Mrs. Edwin G. Davenport, president, announced the following executive board for the school year, 1958-1959: Honorary president, Mr. E. F. Newschwager; vice-president, Mrs. Robert Jackson; vice-president, Mr. Daniel Murray; secretary, Mrs. Norman L. Boeuf; treasurer, Dr. Saul Gladstone; achievements, Mrs. Joseph Bender; parliamentarian, Mrs. F. Haydu, Jr.; finance, Mrs. Meyer Laskey; founders day, Mrs. Leroy J. Mumford, Jr.; health, Mrs. Harry K. Farby; historian, Mrs. R. R. Van Riper; hospitality, Mrs. William Alexy; hostess, Mrs. Bernard D. Borrus; intellectual, Mrs. Leonard Alkin; legislation, Mrs. L. A. Winkler; music, Mrs. I. S. Yablonsky; nominating, Mrs. John Jordan; education, Mr. Daniel Murray; pre-school, Mrs. T. H. Seagull; program, Mrs. Robert Jackson; publications, Mrs. William H. Franklin, Jr.; publicity, Miss Lee Steinholz; room representative, Mrs. Stephen Beno;

Your Library

This week when the League of Women Voters have presented to the Library a new Bulletin Board, it seems fitting to call attention to the many ways the organization and the Library help each other.

The Library as an institution does appreciate all the help it gets from groups and from individual citizens.

There are certain publications about the town which people like to own and so the library makes these available. One which families moving into the area enjoy is the publication entitled "Springfield A Survey..." published by the League of Women Voters.

Another important publication is the "Battle of Springfield." This was published on the 175th anniversary of the Battle, June 23, 1955. It includes all the latest information about that famous day and is a valuable historic record.

The Historical Society also had four picture post cards made. These show The Cannon Ball House, the Presbyterian Church, the Sayre House on Balmston Mountain, and the Swaim House, built in 1744. Visitors to Springfield often look for pictures of local scenes. The Library is pleased to help out by selling them for the Historical Society. It would be a fine thing for the organizations in Springfield to get together and have cards made of some present day buildings. Appropriate ones would be the Regional High School, the New Town Hall, the Library, the rebuilt Methodist Church, and the new Presbyterian Parish House.

Books are often taken to be displayed to meetings of the PPA and other groups. The Girl Scouts and Boy Scouts have come to the Library to help to move books from time to time.

The Community Calendar is important for every group in town. By posting on it dates of important meetings, conflicts may be avoided and the public reminded to attend. Since the new Bulletin Board has been put in place, there will be a good location for the page of the calendar current for the month.

In all these ways the Library and the organizations cooperate to bring better service to the Town of Springfield.

Name John Gacos "Star" Salesman

John C. Gacos of 287 Short Hills Road, has qualified as a member of the 1957 Star Club of the New York Life Insurance Company.

Membership in the Star Club is based on 1957 sales records and is composed of the most successful agents of New York Life, which has a field force of 7,000 full-time agents in 204 offices throughout the United States, Canada and Hawaii.

As a member of the Star Club, Gacos also will attend an educational conference in Swampscott, Massachusetts, June 29-July 2.

Mr. Gacos is a representative of the company's Newark general office.

Hi Neighbor!!

NEWS AND TIDBITS ABOUT YOUR FRIENDS & NEIGHBORS.

DREXEL 6-4502

Lorrie Lewis

Graduation parties kept the younger set in a social whirl last week.

Lorraine Buckley, daughter of Mr. and Mrs. William Buckley of 331 South Springfield Ave., celebrated her graduation from Regional High School at a party held on Saturday eve, June 21 at Evergreen Lodge. There were 65 guests present.

Double cause de celebre was the recent announcement of the engagement of Miss Buckley to Edward Spillman of Kenilworth.

Carol Fruchter was feted at a 10th birthday supper party on June 14 after which the guests all played miniature golf. Attending Carol's party were her sister Lynn, Carla Gersten, Marjorie Weinschoner, Marilyn Learner, Cheryl Boyle, Jade Goldman, Susan Seagull, Jacqueline Demner, Joyce Frieli, and Linda Bamberger.

The last meeting before the summer closing of Silver Rebekah Lodge No. 83, Summit, was held on June 17. Activities, however, will continue throughout the summer including a State-wide picnic in July.

Mr. and Mrs. Louis Ebert of 86 Jefferson Terrace announce the engagement of their daughter, Renee, to Ralph M. Berson, son of Mr. and Mrs. Saul Berson

of Hillside. The couple plans to wed next year.

The sun made a special effort to shine brightly last Sunday in order to make Barry Waldorf's graduation party a success. Over 100 guests attended the lawn party held at the home of his parents, Mr. and Mrs. F. Waldorf of 391 Milltown Rd. Barry graduated from Bowdoin College and will enter Harvard Law School in the fall.

Mr. and Mrs. Al Blaser of Arebridge Lane happily announce the birth of their daughter, Bonnie on Saturday, June 21. The Blasers have three other children - Richard, Pamela and Natalie.

Members of a Tuesday night club treat their male folk to an annual night out. This year the group chose dinner and dancing at the Washington House in Watchung. Present were Mr. and Mrs. Edward Ries, Mr. and Mrs. Barry Baron, Mr. and Mrs. Fred Litzbauer, Mr. and Mrs. Eugene Bataille, Mrs. T. Decker, and Mr. Sal Perriotti.

Former Newarkers, Mr. and Mrs. Anthony D'Uva are now residing at 17 Woodcrest Circle. The D'Uvas have three children - Bettina age 15 1/2 years, Jose-

Anne Marie McEvoy Married At St. Rose of Lima Church Sat.

Miss Anne Marie McEvoy, daughter of Mr. and Mrs. Chester M. McEvoy of 16 Colfax Road, Springfield, and Mr. Thomas Patrick Glackin, son of Mr. and Mrs. James Glackin, of Millburn, were married June 21 last at St. Rose of Lima Roman Catholic Church. Rev. John F. Ryan was celebrant at the ten o'clock Nuptial Mass. A reception followed at the Suburban Hotel, East-Orange.

Miss Geraldine McEvoy, sister of the bride, was maid of honor. Bridesmaids were Miss Elizabeth Curran of Springfield, and Miss Margaret Glackin of Millburn, sister of the bridegroom.

Mr. James F. Fallon of Millburn served as best man, and the ushers were Mr. Thomas F. Campion Jr., of Springfield, and Mr. James Glackin, brother of the bridegroom.

The bride is a graduate of Oak Knoll School, Summit, and the College of St. Elizabeth, Convent, N. J.

The bridegroom graduated from Xavier High School, New York and Stevens Institute, Hoboken, N. J., and is a member of Chi Psi Fraternity and Tau Beta Pi. He is with the Esso Standard Oil Company of Elizabeth, N. J.

phine, age 13 and Anthony Jr. age 5 years.

Irene and Mort Weiss of Irwin St. returned home from a business trip to Los Angeles, Calif. On the return trip, they stopped at Las Vegas and had themselves a real gone time.

Mr. and Mrs. Joseph G. Slater of South Orange, held a surprise party for the celebration of the tenth wedding anniversary of their son and daughter-in-law, Mr. and Mrs. Jack M. Slater of 20 Warwick Circle on Wednesday evening, June 18th at their home.

There were some seventy-five friends and relatives who attended this affair, including the following friends from our town: Mr. and Mrs. I. Gershen; Mr. and Mrs. L. Newman; Mr. and Mrs. A. Jacobs; Mr. and Mrs. M. Fruchter; Mrs. F. Cooperman; Mr. and Mrs. J. Gans, and Mr. and Mrs. M. Weinstein.

Robert Hannon Jr. celebrated his fourth birthday on Saturday, June 14th with a party held at home, 72 Twin Oaks. The party was attended by the following relatives and friends: cousins Jimmy, Cathy, Maryann and Donald Hannon, Patty Ann and Johnny Pat Browne, Nicholas and Jerry De Liberato, Holly and Robin Rath, Janet and Ellen Zervakos, Sheryl and Michael Sanders, Amy Geanis, Ronnis Sasiack, Dale Szanger, Melony and Stephen Kerzizman, Andrea and Wendy Stein, Dale and Scot Grabois.

Mrs. Thomas Patrick Glackin

Gloria Schnipper Engaged To Wed

GLORIA SCHNIPPER

Mr. and Mrs. Sol Schnipper of 64 Linden Avenue, announce the engagement of their daughter, Gloria, to Wallace Shakun, son of Mrs. H. Schwartz and the late Mr. Herman Shakun, of Plainfield.

Miss Schnipper attended Ohio State University, and was graduated from Upsala College.

She is a member of the national dramatic honorary, Alpha Psi Omega.

Mr. Shakun was graduated from the City College of New York, and is a mechanical engineer. He is now serving in the Army. The wedding is planned for August 17.

One-Third Grads Off To College

BY MIKE GOODMAN

Springfield Regional graduated 252 students last week. The "great trek" to college now begins for approximately one-third of the graduating class.

These students will become members of sixty-six institutions of higher learning, ranging from the University of Kansas to the United States Naval Academy. But the most important item to be noted in this influx to college is the trend back to New Jersey schools. Of the 95 college-bound graduates, 23 will attend State schools.

In the past almost all of Springfield Regional's graduates have journeyed out of the state for their education. They felt justified since New Jersey allocated little or nothing to state's universities and colleges. In fact, New Jersey was ranked by the Federal Government next to the likes of Arkansas and Mississippi in funds allocated to higher education.

But times have started to change, as witnessed by the new Union State Teachers' College down the road in Union. Rutgers in New Brunswick is steadily being expanded to handle approximately 10,000 students in the coming years. Fairleigh Dickinson has opened a beautiful new campus in Madison in its expansion plans. This school may well become the college to be watched in the future of higher education planning in New Jersey.

Pennsylvania Popular

This year The Quaker State took the greatest number of Regionals from New Jersey. Sixteen boys and girls will attend Pennsylvania schools. Lehigh and Lafayette are the most popular of these schools. A list now follows of the members of the 1958 class attending college and where:

Allan, Frances, Kent State University; Anderson, Nancy, Katharine Gibbs; Baker, Don, National Agriculture School; Ball, Russell, NCE; Basalone, Marie, Antioch; Bellas, Eric, Kansas University; Benson, Gary, Seton Hall; Biddelman, Janet, Boston University; Blahut, Dennis, Stevens; Blair, Martha, Rhode Island School of Design; Broderick, Gail, State Teachers College-Union; Brown, Rick, Lafayette; Bruder, Warren, Rutgers; Bruh, Ann, Berkeley; Buthe, Nancy, Cedar Crest; Campbell, Philinda, Ohio U.; Carpenter, Don, Gettysburg; Cinquina, Carl, Albright; Chifba, Barbara, Berkeley; Christensen, Gail, Lafayette; Colvin, Dave, Cornell; Cooney, Carole, Averett; Curtis, Anita, Colby Junior; Cyre, Myrna, State Teachers at Union; Dally, Lorna, Vermont; Dalrymple, Eric, Dartmouth; D'Andrea, Ellen, Berkeley; Davenport, Ned, Lafayette; Del Duca, Leeanna, State Teachers-Montclair; Donington, Mary Ann, Conn. College for Women; Erickson, Ken, Carnegie Institute of Tech.; Fitzsimmons, Di-

State Teachers-Montclair

Fornell, Amy, Berkeley; Fox, Carol, Baldwin Wallace; Freedman, Dave, Rutgers-Newark; Gubben, James, Dartmouth; Gubben, Fairleigh, Dickinson; Gumbrell, Betsy, Goucher; Gorman, Kurt, NCE; Goddman, Mike, Rutgers-New Brunswick; Gould, Ken, Lincoln Tec. Inst.; Greene, Arnold, Rutgers-Newark; Haggerty, Edugene, NCE; Haggert, Martha, Mary Washington; Harter, Dennis, Georgetown; Hartig, Peggy, Cedar Crest; Haselmann, Joan, Berkeley; Herrwagen, Barbara; Wilson; Heine, Bill, US Naval Acad; Heller, Marvin, Pa. Military Acad.; Holland, Natalie, Penn State; Hoss, John, Middlebury; Jackson, Bill, Un. of Rochester; Jacobsen, Bonnie, Bucknell; Jones, Keith, Western Maryland; Kelsay, Bill, Springfield; Keith, Bob, Brown; Klier, Marcia, State Teachers at Union; Koster, Betty, Seton Hall School of Nursing; Krown, Ken, Rutgers; Ken Krown, Rutgers; Bert Kuenzel, Rutgers School of Ag.; Paula Lubarsky, Wood Secretarial; Dan Lucy, Pa. Military Col.; Lou Ellen Martin, Monmouth; John Mertz, Nat. Ag. Coll.; Louis Munch, Rutgers-N.B.; Ray Nesbitt, Rutgers-N.B.; Joyce Munich, Gettysburg; Bernie Nolte, Clarkson Coll. of Tech.; Audrey Pfeiffer, St. Vincent's College; Tony Pinto, Un. of Maryland; Priscilla Pollock, Bucknell; Dave Potter, Lehigh; Capole Powell, Lab. Inst. of Merch.; Estelle Puel, Fairleigh Dickinson; Fred Puro, Rutgers-N.B.; Frank Rehring, Fairleigh Dickinson; Gertrude Rosenberg, Douglass; Richard Rotman, Rutgers-N.B.; John Saxton, Wesleyan Un.; Barry Shaol, Fairleigh Dickinson; Carol Smith, Laboratory Institute of Mechanics, Newark; Roger Smith, Un. of N.C.; Dan Staruch, Rutgers-N.B.; Dan Varick, Windham; Nancy Walker, Gettysburg; Carole Weitzel, Wheaton; Cathy Thompson, Denison; Judy Thompson, Eliz. Gen. Hosp.; Judy Tyska, State Teachers-Union; Ruth Valois, Fairleigh Dickinson; Sue Whitecomb, St. Vincent-Hollins; Carol Voorhes, Southern Seminary; Betsy Wright, Springfield; Arlene Wyckoff, State Teachers-Union; Gus Zeissig, Cornell.

The Town Talks

By BRUCE GOLDSTEIN

Question: Do you think that Springfield should conduct regular dances for the teenagers of our town?

Mr. A. H. Lennox 178 Morris Avenue. "I'm in favor of anything that can be done for the teenagers to bring them properly together. (Elliot Koretz 9 Archbridge Lane, student) "Although Kenilworth has the teen club and Mountain-side and Berkeley Heights has dances Springfield does not have any. There should certainly be teen-age dances in Springfield because it will decrease juvenile delinquency in our town."

Mrs. Martin Bachrach 12 Garden Oval. "I think it would be good society for the teenagers of Springfield."

Sue Keane 33 Henshaw Avenue (student). "Since Springfield has no form of entertainment for teenagers I think that a Teen-Night like Kenilworth has would be a good thing to help keep the delinquency rate down. Everyone always complains about the 'kids on the corner' but they never seem to do anything about it."

Skating, Dabbler, Tree, Garden Flower, and Needlecraft; Ann Kameen, Second Class, First Aid Skating, Cook, Games and Child Care; Victoria Keller, Animal Raiser, Child Care, Cook, Sewing and Story Teller; Deborah Kolarick, Good Grooming, Drawing and Painting.

Also: Kathy Kozak, First Aid, Skating, Dabbler and Cook; Barbara Kozak, Needlecraft, Sewing, Drawing and Painting, Needlecraft, Tree, Cat and Dog Skating, Landscaping, Home Gardner, Animal Raiser, Dancer, Housekeeper, Handywoman, Good Grooming and Player; Judy Pinkawa, Cook and Dog, Child Care, Bird, Good Grooming, Games, Radio and Television and Garden Flower; Elizabeth Russo, First Aid, Needlecraft, Dabbler, Animal Raiser, Cook, Tree, Garden Flower, Good Grooming, Bird and Dressmaker; Dorothy Sammond, First Aid, Skating, Cook, Reader, Child Care, Hospitality, Housekeeper, Good Grooming, Games, Tree, Cat and Dog, Garden Flower, Home Nurse, Poultry, Home Health and Safety; Suzanne Simon, Cook, Swimming, Child Care, Needlecraft and Home Gardener; Sandra Tatasko, Pottery, Needlecraft, Dancer, Traveler, Swimmer, Garden Flower, Skating, Child Care, Cook, Housekeeper, Sports and Games, Home Health, and Safety.

Troop 853, Mrs. Dorothy A. Kameen and Mrs. M. Ehrhardt, leaders presented the Second Class Badge, the Roller Skating Badge and the One Year Star to the following girls: Barbara Cataldo, Valerie Del Vecchio, Karan Ehrhardt, Mary Jane Hoock, Pamela Huntton, Charlotte Morgan, Charlotte Matta Rose, Russi, Jacqueline Smith and Irene Ziegenfuss.

Troop 882, Mrs. William Bobcock, Mrs. Carroll and Mrs. William Plant presented the Second Class Badge to the following: Doris Baldasarre, Marie Catron, Marie D'Andrea, Eleanor DiFranco, Cathy Evans, Jacqueline Franzese, Natalie Ivinic, Lucille Lamorgese, Patricia Latella, Christine Miller, Margaret Nerf and Frances Toto.

After the Badges and Awards were presented, Father Edward Oesling spoke to the Scouts and their parents and friends. Troop 882 sang "O Most Holy One" and Troop 853 entertained with a skit on their Second Class Requirements. Miss Cathy Keegan of Troop 752 played a piano selection and Miss Barbara Myhrberg of Troop 756 entertained with a tap dance. Cathy Cain and Veronica Speisbach, with the help of others, were in charge of refreshments, which were served to all after the entertainment.

Five Seniors Top Regional Honors

The final honor roll of the year from Jonathan Dayton Regional High School shows five seniors making the highest honors prior to graduation.

SENIORS
Highest Honors—Dennis Harter, Joan Haselmann Barbara Jacobson, Roger Smith, Carol Weltzel.
Honors—Barbara Alola, Marie Basalone, Janet Biddleman, William Brown, Nancy Buthe, Robert Cather, David Colvin, Ellen D'Andrea, Kenneth Erickson, Joan Furie, Betsy Gambrell, William Heine, Natalie Holland, John Hose, William Jackson, Leslie Jones, Robert Keith, Laura Libby, Paula Lubarsky, Carol Marrese, Ruth Meyers, Diane Mondelli, Joyce Munnich, Dave Potter, Josephine Rice, Gerardo Rosenburg, Mary Ann Sacks, John Saxton, Catherine Thompson, Nancy Walker.

JUNIORS
Highest Honors—Donald Bookler, Diana Bouehard, Carol Ann Fisher, Janlyn Forster, Victor Goldberg, Johanne Hartz, Randi Kristiansen, Robert Mitchell, Patricia Pratt, Susan Richey, Edward T. Sheldon, Judith Short, Jeffrey Taylor, Lois Tuttle, Judy Vanse, Arthur Von der Linden, Marsha Wilson.
Honors—Barbara Aman, Ronald Barz, Judy Bodner, Margot Breier, Eileen Brenna, Michael Cenci, Judith Crowley, Emily Drain, Patricia Dreher, Patricia M. Durand, Michael Hendricks, John Hettlinger, Michael Hopta, Virginia Keegan, Marion Kessler, Harry Lake, Nancy Manger, Cal-

vin Mankowski, Paul Meade, Diane Menig, Carol Moseman, Barbara Peters, Karen Rogers, Peter Rupp, Stephen Shiefer, Loran Skousen, Alex Vannauker, Margaret Wood, Patricia Wrigley, Elaine Zroninick.

SOPHOMORES
Highest Honors—Lois Anthony, Michael Besch, Peter Besch, Barbara Boole, Patricia Capron, Walter Duga, Timothy Duffree, Alfred Fiegler, Carol Fisher, Gail Guenther, Frederick P. Kluge, Carolyn Kordalski, Richard Lessa, Rita Lester, Claire Longfield, Neil Macmillan, Carol Marano, Richard Mazzarisi, Timothy McCarthy, Katherine Murphy, Leslie Rink, George Rupp, Julie Rydar, Paul Sock, Richard Van Horn, Douglas Voight, Allen Westerber, Barry Woodruff.

The story of the gift that took a lifetime to make...

Like all grandfathers, he thinks the world of his grandson. Like all grandfathers, he'd give him the world, if he could. And, in a way, that's what he's done during all the rewarding times they have always spent together. He has tried to give his grandson a gift that will last the boy a lifetime, a gift that has been a lifetime in the making.

Faith... Faith that has been the strength and nourishment of his own life... that's what he has tried to show the boy, day by day. Faith in God, in himself,

in his parents, in the town they live in, in the people he calls his neighbors. And so, every week, you'll see them, grandfather and grandson, worshipping with the rest of the family, at their church.

If you would like to leave as much to your children and to your children's children... remember this: only if you yourself have Faith, can you hope to give it in any measure. Begin this week to find the Faith for your life. Worship with all the family, at your Church or Synagogue.

These Messages are being published each week in the Springfield Sun and are sponsored by the following interested individuals and business establishments:

Show Needs To

(Continued from page 1)

rollment expectation survey recently completed indicates that we will have 44 more entering kindergartens in September, 1958, 44 more in September, 1959, and 77 more in September, 1960, than we had in the corresponding months of the previous year.

In addition to these facts, we are presently using the following makeshift arrangements: (1) in September, 1959, the 4th grade will be moved over from the Chisholm School to the Gaudineer School which was originally planned as a 6-8 building; (2) we will be using the basement rooms in the Chisholm School for classes in September; (3) the teachers' room in the Gaudineer School is at present being used for instructional purposes; the class size is now 30, without grade 4 of Chisholm School, which is far above the 25 recommended by the State Department of Education; such special-purpose rooms as the cafeteria will be used for instructional purposes next September.

A further point on the subject of the need for new construction is the fact that there will be double sessions, with the accompanying part-time education, in September, 1959, if we do not have added classroom facilities. The solution of the problem of a rapidly growing school population is the construction of a new fourteen-room school building in the area of greatest current and projected need.

This location will have to be such as will serve the most rapidly growing section of town and also take some of the pressure off the presently overcrowded facilities (Chisholm School). The area is east of Meisel Avenue from the railroad tracks on the north and including the New Brook homes on the south. It will release the Chisholm School from its burden sufficiently to enable it to provide room for children to come from the Springwood development (30 homes presently being constructed); the development opposite Baltusrol entrance (work to begin this summer—58 homes); and other smaller developments presently being built.

After looking over the vacant available land in Springfield, we find that the only unimproved property suitable for the proposed construction which is located in the area of greatest need and of adequate size is the wooded area of the Smith tract bounded by the Union County Park property on the east, Evergreen Avenue on the south and Arch-bridge Lane on the west. There are approximately 245 children in this area at the present time. We find that 85% of this area is wooded and has never been put to economic use.

Another very good reason for this location is that ingress to the school property would be from a light-traffic street—something which we cannot now say about any of our schools. The Smith family need not fear that condemnation proceedings would strip them of fair representative value for their property.

According to a number of legal experts interviewed, the consti-

Blind Boy Passes N.Y. State Regents

Mr. and Mrs. Edward Greene of 10 Ruby Street, Springfield, N. J., are proud to announce the passing of their son, Howard, from the New York Institute for the Blind, 999 Pelham Parkway, New York City. Howard, having met the requirement for graduation with the necessary academic credits of his school, also passed the New York State Regents. He will attend the Swedish Institute for Massage in New York in October.

Members Vote To Get New Temple

A new building for Temple Beth Ahm, and a fund-raising drive to pay for the building, were authorized by a near-unanimous vote of several hundred members June 18 at the Temple. Final plans for the building fund campaign will be announced in the near future. Milton Kappstatter, Temple President, conducted the meeting. Background information for discussion of the motions was provided by Sheldon A. Fried, chairman of the architectural committee; Dr. Arthur Williams, finance committee chairman for the campaign; and Ephraim Weinger, head of the committee on choice of fund-raisers.

ANOTHER REALTY CORNER SALE—Residence at Thomas of Newark this sale was negotiated through Battle Hill Avenue, Springfield, sold for Mr. and Mrs. Terry Smith, an associate of ANNE SYLVESTER'S Mrs. Robert T. Marino to Mr. and Mrs. Frank REALTY CORNER.

AN ORDINANCE PROVIDING FOR THE CONSTRUCTION OF A CONCRETE SIDEWALK AND WORK INCIDENTAL THEREON ALONG CERTAIN SECTIONS OF MOUNTAIN AVENUE AND ALONG THE EAST-BRIDGE SIDE OF FRANKLIN PLACE, BEGINNING AT HENSHAW AVENUE AND EXTENDING NORTHEAST THEREFROM 270 FEET TO AN EXISTING WALK, PROVIDING FOR FINANCING OF THE COST THEREOF AND APPROPRIATING THE NECESSARY FUNDS TO PAY THEREFOR AND ASSESSING THE COST THEREOF ALONG THE PROPERTIES FRONTING THEREON.

Ordinance was passed and approved at a regular meeting of the Township Committee of the Township of Springfield in the County of Union and State of New Jersey, held on Wednesday evening, June 25, 1958.

Eleanor H. Worthington, Township Clerk.

ORDINANCE TO AMEND AN ORDINANCE ENTITLED "AN ORDINANCE LIMITING AND RESTRICTING TO SPECIFIED DISTRICTS AND REGULATING THEREIN BUILDINGS AND STRUCTURES ACCORDING TO THEIR CONSTRUCTION AND THE NATURE AND EXTENT OF THEIR USE AND THE NATURE AND EXTENT OF THE USES PERMITTED IN THE TOWNSHIP OF SPRINGFIELD IN THE COUNTY OF UNION AND STATE OF NEW JERSEY AND PROVIDING FOR THE ADMINISTRATION AND ENFORCEMENT OF THE PROVISIONS THEREOF CONTAINED AND FIXING PENALTIES FOR VIOLATION THEREOF," WHICH ORDINANCE IS ALSO KNOWN AS "THE ZONING ORDINANCE OF 1955," ADOPTED APRIL 13, 1955.

BE IT ORDAINED BY THE Township Committee of the Township of Springfield in the County of Union and State of New Jersey, that the ordinance as heretofore amended is hereby amended as follows:

1. Section 24, Supplemental Use and Building Regulations, is amended by the inclusion therein of a new subsection to be known as 16-D-150 and to read as follows:

16-D-150. In all districts there shall be a minimum height of 10 feet.

2. The foregoing ordinance shall take effect immediately upon adoption after final hearing and publication in accordance with law.

Eleanor H. Worthington, do hereby certify that the foregoing Ordinance was introduced for first reading at a regular meeting of the Township Committee of the Township of Springfield in the County of Union and State of New Jersey, held on Wednesday evening, June 25, 1958, and that the said Ordinance shall be submitted for consideration and final passage at a regular meeting of the Township Committee to be held on July 1, 1958, in the Springfield Municipal Building at 9:00 P.M., at which time and place any person or persons interested therein, will be given an opportunity to be heard concerning such Ordinance.

ELEANORE H. WORTHINGTON, Township Clerk.

June 26, July 3.

TAKING CARE OF YOUR GARDEN

By Edward A. Cardinal
Chairman, Springfield Shade Tree Commission

Insects seem to be at their worst this year. Aphids have multiplied rapidly because of the succulent growth produced by heavy rainfall, and the Eastern Tent Caterpillar seems to be nearing the peak of its cycle. The caterpillars chew out pieces of the leaf and can sometimes defoliate an entire tree. Aphids suck sap from the tender new growth much the same way that a mosquito feeds upon a human. Both insects can do considerable damage to a plant, and although they rarely kill the plant they certainly can reduce the growth. Spraying will reduce their numbers, and give the plant a chance to grow.

Q. What is best—dust, or spray?
A. I prefer liquid sprays because they adhere to the foliage considerably longer, and are more thorough in reaching the partially obscured insects. However, dusts are sometimes more easily applied because they require no preparation. For simple, home garden use, the little 8 ounce dust canisters, or the spray bombs are a satisfactory method of controlling insects.

Q. I do considerable spraying, but dust guns are so small that I use too many. What type of sprayer shall I buy?
A. A six quart size is suitable for women, and most men, for they rarely use more than that at one time. A good sprayer can be purchased for about seven dollars. Better types may be purchased at prices ranging up to \$50.00. Go to a reliable garden supply store and examine the different models. Make certain spare parts are available, for they are necessary from time to time.

Q. Are the hose bottle type of sprayer satisfactory?
A. We sometimes use them at our nursery where a water outlet is available. They come in two types—course, for applying soluble fertilizers and lawn chemicals, and fine, for spraying insecticides and weed killers. The fine spray will save you money because less material is wasted, and atomizing reaches a larger percentage of insects. WRITE TO THIS COLUMN, in care of THE SUN, for a free booklet on spraying.

Q. All the fine grass has suddenly died in my lawn. Is this a disease?
A. This condition is the result of foot rot caused by the week of rain some time ago. The soil became waterlogged, forcing the air out of the soil, thereby causing the grass to die of suffocation. Bluegrasses can tolerate this condition for a longer time than the fescues which are particularly vulnerable to wet weather. Very little can be done except encourage the remaining grass by fertilization, and then reseed sometime in August.

Q. Is it time to start working on my crabgrass?
A. Yes. Proper treatment at this time should minimize your crabgrass problem. Write for free literature.

Q. My lawn has lost its nice green color. Is it bugs, or grubs?
A. I hardly think so. Beetle grub damage would have shown up some time ago, and they are now emerging as full-grown Japanese beetles. Lawn insects, such as chinch bugs, usually show their damage by discoloring circular patches of the lawn. An allover discoloration would indicate lack of nitrogen. I would suggest an application of high nitrogen fertilizer at this time.

Q. Is there such a thing as a walking sprinkler for my lawn?
A. There certainly is. It works automatically by following your hose. When it reaches the end of the hose it shuts off automatically until you are ready to move it. It

is rapidly becoming one of our most popular sprinklers. NOTE: Each week a free book on lawn care will be sent to the person submitting the most interesting question to this column. Write to this column, care of the SUN.

PERK UP PICNICS

Picnics need not be just hot dogs, hamburgers and dainties! Pretty them up with a cool crisp salad with sour cream dressing, hot dog buns, and colorful gull-flecked paper cups and plates to match. Feminine blouses and skirts help, too! Matching cups and plates make serving easy, attractive and less work. Just scoop up the "dishes" and throw them away!

Sour Cream Dressing
Recipe
1 cup dairy sour cream
1 tablespoon chopped chives or minced onion
2 tablespoons vinegar (tarragon is excellent)
1/4 teaspoon salt
1/4 teaspoon black pepper
1/4 teaspoon sugar
1/2 cup mayonnaise or cooked salad dressing
Mix all ingredients together carefully, except mayonnaise, which is folded in last. (Extra flavor for garlic lovers—rub clove of garlic cut fine into salt.)

Hot Sandwich Specialties

PICNIC PLANNING—what to serve? With little fuss, here's a menu suggestion that'll be sure to add zest, vim and interest to an outdoor picnic gathering... the main attraction is Dill-Burgers broiled over glowing coals. The rest of the menu is supported by a host of other picnic foods... baked beans, potato chips, coffee, fruit and cookies. Shape your favorite ground beef mixture around strips of tart dill pickles, wrap a slice of bacon around each Dill Burger and broil. When done serve in hot dog rolls.

PRIZE-BASSET—Springfield's latest resident to win acclaim out of town is Duke, a red ribbon winner at the Sussex Hills Kennel Club on Saturday, June 21. Duke, who resides with Robert Bryson of 24 Ferry Place, was in a match show in the novice class at the Madison judging. Bryson is a local milkman.

Child's Glasses Found At Strawberry Festival

A pair of children's glasses and a child's wallet were found at the Girl Scouts' Strawberry Festival on Saturday, June 7 and haven't been claimed yet.

Mrs. Thomas Doherty, chairman of the Festival, reports that the items can be retrieved if the owner or parent calls DRexel 6-5981.

Ever since the most popular gambling-card game in the world, dates back to the 15th Century, when it was called Pharaoh because the back of the French cards used in playing the game bore a picture of an ancient Egyptian king. The game was introduced to this country by the soldiers of Lafayette and Rochambeau.

Don't sizzle... stop in for a cooling treat!

It's fun to keep cool with a tasty fountain confection. Choose your favorite from our tempting array.

Our cones are the most to say the least! Super-toppings of luscious ice cream in pastry cones. Wow!

AN ORDINANCE CONCERNING PUMP, OIL AND HEATING EQUIPMENT AND MAINTENANCE THEREOF IN THE REVISED ORDINANCES OF THE TOWNSHIP OF SPRINGFIELD, NEW JERSEY.

BE IT ORDAINED BY THE Township Committee of the Township of Springfield, County of Union, New Jersey, that the following be adopted as the Ordinance of the Township of Springfield, County of Union, New Jersey, to read as follows:

CHAPTER 2. PUMP, OIL AND HEATING EQUIPMENT.

ARTICLE I. ANALYSIS.

Section 1. Definitions.

1-1. Flash point, mixing or blending.

1-2. Applications, permits and inspections.

1-3. Location of storage tanks.

1-4. Material and construction of tanks.

1-5. Venting of tanks.

1-6. Filling pipe.

1-7. Manhole.

1-8. Oil level indicating device.

1-9. Installation of underground tanks.

1-10. Filling auxiliary tanks.

1-11. Pumps.

1-12. Pumps.

1-13. Burner controls.

1-14. Automatic devices.

1-15. Installation of burner, flues, ventilation, instructions.

1-16. Fire protection.

1-17. Enforcement.

1-18. Violations and Penalties.

1-19. Definitions.

shall terminate outside the building at a point not less than 3 feet measured horizontally or vertically from any window or other building opening and shall be provided with a weatherproof hood, and shall be at least 5 feet above finished grade.

1-10. Filling Pipe.

Underground tanks and storage tanks inside a building shall be filled only through fill pipes extending outside the building at a point not less than 3 feet above finished grade. The fill pipe shall be closed tight, when not in use, by a metal cover designed to prevent tampering.

1-11. Pumps.

Manholes shall be provided with securely fastened covers. No manhole shall be used for filling purposes.

1-12. Oil Level Indicating Device.

A tank with a gauging device shall be installed on each tank of a design which shall prevent escape of oils or vapors into buildings. Gauges employing glass parts, the breakage of which would permit the escape of oil or vapor, shall not be used. Gauges located outside of buildings shall be kept locked.

1-13. Installation of underground tanks.

Underground tanks up to 1000 gallons shall be so buried as to have a cover of earth at least 2 feet thick; underground tanks over 1000 gallons shall be covered with not less than 1 foot of earth, on top of which shall be placed a slab of reinforced concrete at least 4 inches thick. The slab shall be set on a firm, well tamped earth foundation, and shall extend at least 1 foot beyond the tank in all directions. Each tank buried underground shall have a concrete slab foundation. Underneath tanks shall be set on a firm foundation and be surrounded with soft earth or sand well tamped in place. When necessary to prevent floating, they shall be securely anchored or weighted.

1-14. Automatic devices.

(a) Unless filled as indicated by Section 1-7, auxiliary tanks shall be filled by pumping from storage tanks. (b) Tanks shall be provided with a float valve which shall be set to shut off the overflow pipe of an auxiliary gravity tank shall not be provided with valves or obstructions, but overflow pipe of an auxiliary pressure tank shall be provided with interconnected valves or other approved means for automatically venting tank when filled.

1-15. Pumps.

(a) Pumps used in connection with system where oil is pumped directly to burner without the use of pressure or gravity tanks shall be so automatically controlled as to insure their shut-down in case of abnormal discharge of oil at the burner, or rupture of discharge piping.

(b) Oil pumps used for filling auxiliary tanks from main storage tank shall be of an approved type to be secure against leaks with check valves located as close to pump as convenient. Pumps shall be rigidly fastened in place.

(c) Automatic pumps not an integral part of the burner shall be arranged to stop automatically in case of total breakage of the supply line to the burner. Effective means shall be provided for shutting down the pump from a conveniently located point, except where a quick closing valve outside the burner is provided in accordance with Section 15.811 (b) "Fire Prevention Code, National Board of Fire Underwriters", 1953 Edition.

(d) Standard full weight, wrought iron steel or brass pipe with standard fittings shall be used for the entire length of the supply line. The pipe shall be permanently separated from open wiring by a continuous and firmly installed conductor as referred to in Section 15, Article 4 of this ordinance.

(e) Supply pipe shall not be less than one fourth inch pipe size, of three-eighths inch O. D. copper tubing when oil is pumped to burner. Return pipes shall be at least of equal size.

(f) Appropriate allowance shall be made for expansion, contraction, jarring and vibration. Pipe lines shall be supported by hangers, connected to underground tanks, except fill lines and test wells, shall be provided with double swing joints arranged to permit the tank to settle without impairing the efficiency of the pipe connections.

(g) Openings for pipe through masonry walls shall be watertight and shall be securely packed with port-

land cement and sand.

(h) All connections shall be made tight. Unions shall be used on pipe to facilitate removal; they shall have conically faced joint, obviating use of packing or gaskets.

(i) Burners under pressure shall be designed for six times the working pressure and shall be tested at twice the maximum working pressure.

1-16. Burner controls.

(a) There shall be located at the wall where auxiliary line enters the building a fusible link device which shall be a fusible valve directly beneath the tank, in place of the one at the wall at entry point.

(b) Oil burning equipment and gas burning equipment shall be provided with an effective, approved device for manually stopping the flow of oil or gas to the burner from a conveniently located point at a safe distance from the burner. With electrically driven equipment, the stop and start shall be controlled by a switch in the motor supply circuit placed near the entrance to the room where the burner is located in compliance with Section 15-215 of the Fire Prevention Code, National Board of Fire Underwriters, 1953 Edition.

(c) On application, other than for one or two family residence buildings, the Fire Department shall be contacted as to the location of the emergency switch, and the painting RED

of adjacent window glass, with white wording "OIL BURNER SWITCH" so as to be read from the outside of building.

(d) Automatically operated burners used in connection with hot water heating or warm air heating systems shall be equipped with approved automatic device to shut down the burner, in the event of burner pressure in a steam boiler, or overheating within 5 not water boiler or warm air furnace.

1-17. Installation of burner, flues, vent.

(a) Oil burners subject to automatic ignition must be provided with a permanent automatic device so designed that oil or gas, upon being turned into the combustion chamber, will immediately become ignited or automatically shut off.

(b) Oil burners and gas burners shall be securely installed in a workmanlike manner, in accordance with the instructions of the manufacturer, by qualified mechanics experienced in making installations.

(c) Oil burners and gas burners shall be installed in a workmanlike manner, in accordance with the instructions of the manufacturer, by qualified mechanics experienced in making installations.

(d) Where oil burners are installed in furnaces originally designed for solid fuel, the ash door of the furnace shall be removed or bottom ventilation

otherwise provided to prevent the accumulation of vapors in the ash pit, unless the burner is of a type which mechanically purges the ash pit.

(e) Boilers and furnaces in which oil burners or gas burners are installed shall be equipped with flues having sufficient draft at all times to insure safe operation of the burner; a suitable draft regulating device shall be installed to prevent overheating of stack or chimney.

(f) Smoke pipe sweeps shall be removed completely or permanently fastened open.

(g) Rooms in which oil burners or gas burners are installed shall be insured against fire by the owner.

(h) In systems where steam or gas is used for atomizing the oil, the equipment shall be so arranged that in case of interruption of the atomizing supply, the oil supply will be immediately shut off.

1-18. Automatic devices.

(a) All burners subject to automatic ignition must be provided with a permanent automatic device so designed that oil or gas, upon being turned into the combustion chamber, will immediately become ignited or automatically shut off.

(b) Oil burners and gas burners shall be securely installed in a workmanlike manner, in accordance with the instructions of the manufacturer, by qualified mechanics experienced in making installations.

(c) Where oil burners are installed in furnaces originally designed for solid fuel, the ash door of the furnace shall be removed or bottom ventilation

otherwise provided to prevent the accumulation of vapors in the ash pit, unless the burner is of a type which mechanically purges the ash pit.

(d) Boilers and furnaces in which oil burners or gas burners are installed shall be equipped with flues having sufficient draft at all times to insure safe operation of the burner; a suitable draft regulating device shall be installed to prevent overheating of stack or chimney.

(e) Smoke pipe sweeps shall be removed completely or permanently fastened open.

(f) Rooms in which oil burners or gas burners are installed shall be insured against fire by the owner.

(g) In systems where steam or gas is used for atomizing the oil, the equipment shall be so arranged that in case of interruption of the atomizing supply, the oil supply will be immediately shut off.

1-19. Violations and Penalties.

Any person who shall violate any provision of this ordinance, or fail to comply with any of the requirements thereof, or any order or equipment made pursuant to enforcing authority in this chapter, or who shall install, alter or replace equipment in violation of the detailed statement and plan submitted as application for such equipment, shall be liable for the electrical inspector with the Fire Department. A certificate shall be filed by the electrical inspector with the Fire Department.

9-19. Enforcement.

It shall be the duty of the Fire Chief or the Building Inspector to enforce the terms of this chapter in the several categories, respectively, committed to each and to initiate the necessary proceedings to prosecute its violation and enforce its violation in accordance with law.

9-20. Violations and Penalties.

Any person who shall violate any provision of this ordinance, or fail to comply with any of the requirements thereof, or any order or equipment made pursuant to enforcing authority in this chapter, or who shall install, alter or replace equipment in violation of the detailed statement and plan submitted as application for such equipment, shall be liable for the electrical inspector with the Fire Department. A certificate shall be filed by the electrical inspector with the Fire Department.

A certificate shall be filed by the electrical inspector with the Fire Department.

1-20. Venting of tanks.

(a) Every underground storage tank shall be provided with an open or automatically operated vent pipe without trap and drainage to tank.

(b) All outside above ground tanks and auxiliary tanks shall be provided with open vent pipes.

(c) All vent pipes shall be of 1 1/2" pipe size for tanks 275 gallons to 1000 gallons; 2" pipe size from 1000 gallons to 2000 gallons; and 3" pipe size from 2000 gallons to 10000 gallons. The lower end shall extend at least 12 inches, not more than 1 inch. The outer end

shall be so buried as to have a cover of earth at least 2 feet thick; underground tanks over 1000 gallons shall be covered with not less than 1 foot of earth, on top of which shall be placed a slab of reinforced concrete at least 4 inches thick. The slab shall be set on a firm, well tamped earth foundation, and shall extend at least 1 foot beyond the tank in all directions. Each tank buried underground shall have a concrete slab foundation. Underneath tanks shall be set on a firm foundation and be surrounded with soft earth or sand well tamped in place. When necessary to prevent floating, they shall be securely anchored or weighted.

1-14. Automatic devices.

(a) Unless filled as indicated by Section 1-7, auxiliary tanks shall be filled by pumping from storage tanks. (b) Tanks shall be provided with a float valve which shall be set to shut off the overflow pipe of an auxiliary gravity tank shall not be provided with valves or obstructions, but overflow pipe of an auxiliary pressure tank shall be provided with interconnected valves or other approved means for automatically venting tank when filled.

1-15. Pumps.

(a) Pumps used in connection with system where oil is pumped directly to burner without the use of pressure or gravity tanks shall be so automatically controlled as to insure their shut-down in case of abnormal discharge of oil at the burner, or rupture of discharge piping.

(b) Oil pumps used for filling auxiliary tanks from main storage tank shall be of an approved type to be secure against leaks with check valves located as close to pump as convenient. Pumps shall be rigidly fastened in place.

(c) Automatic pumps not an integral part of the burner shall be arranged to stop automatically in case of total breakage of the supply line to the burner. Effective means shall be provided for shutting down the pump from a conveniently located point, except where a quick closing valve outside the burner is provided in accordance with Section 15.811 (b) "Fire Prevention Code, National Board of Fire Underwriters", 1953 Edition.

(d) Standard full weight, wrought iron steel or brass pipe with standard fittings shall be used for the entire length of the supply line. The pipe shall be permanently separated from open wiring by a continuous and firmly installed conductor as referred to in Section 15, Article 4 of this ordinance.

(e) Supply pipe shall not be less than one fourth inch pipe size, of three-eighths inch O. D. copper tubing when oil is pumped to burner. Return pipes shall be at least of equal size.

(f) Appropriate allowance shall be made for expansion, contraction, jarring and vibration. Pipe lines shall be supported by hangers, connected to underground tanks, except fill lines and test wells, shall be provided with double swing joints arranged to permit the tank to settle without impairing the efficiency of the pipe connections.

(g) Openings for pipe through masonry walls shall be watertight and shall be securely packed with port-

land cement and sand.

(h) All connections shall be made tight. Unions shall be used on pipe to facilitate removal; they shall have conically faced joint, obviating use of packing or gaskets.

(i) Burners under pressure shall be designed for six times the working pressure and shall be tested at twice the maximum working pressure.

1-16. Burner controls.

(a) There shall be located at the wall where auxiliary line enters the building a fusible link device which shall be a fusible valve directly beneath the tank, in place of the one at the wall at entry point.

(b) Oil burning equipment and gas burning equipment shall be provided with an effective, approved device for manually stopping the flow of oil or gas to the burner from a conveniently located point at a safe distance from the burner. With electrically driven equipment, the stop and start shall be controlled by a switch in the motor supply circuit placed near the entrance to the room where the burner is located in compliance with Section 15-215 of the Fire Prevention Code, National Board of Fire Underwriters, 1953 Edition.

(c) On application, other than for one or two family residence buildings, the Fire Department shall be contacted as to the location of the emergency switch, and the painting RED

of adjacent window glass, with white wording "OIL BURNER SWITCH" so as to be read from the outside of building.

(d) Automatically operated burners used in connection with hot water heating or warm air heating systems shall be equipped with approved automatic device to shut down the burner, in the event of burner pressure in a steam boiler, or overheating within 5 not water boiler or warm air furnace.

1-17. Installation of burner, flues, vent.

(a) Oil burners subject to automatic ignition must be provided with a permanent automatic device so designed that oil or gas, upon being turned into the combustion chamber, will immediately become ignited or automatically shut off.

(b) Oil burners and gas burners shall be securely installed in a workmanlike manner, in accordance with the instructions of the manufacturer, by qualified mechanics experienced in making installations.

(c) Oil burners and gas burners shall be installed in a workmanlike manner, in accordance with the instructions of the manufacturer, by qualified mechanics experienced in making installations.

(d) Where oil burners are installed in furnaces originally designed for solid fuel, the ash door of the furnace shall be removed or bottom ventilation

otherwise provided to prevent the accumulation of vapors in the ash pit, unless the burner is of a type which mechanically purges the ash pit.

(e) Boilers and furnaces in which oil burners or gas burners are installed shall be equipped with flues having sufficient draft at all times to insure safe operation of the burner; a suitable draft regulating device shall be installed to prevent overheating of stack or chimney.

(f) Smoke pipe sweeps shall be removed completely or permanently fastened open.

(g) Rooms in which oil burners or gas burners are installed shall be insured against fire by the owner.

(h) In systems where steam or gas is used for atomizing the oil, the equipment shall be so arranged that in case of interruption of the atomizing supply, the oil supply will be immediately shut off.

1-18. Automatic devices.

(a) All burners subject to automatic ignition must be provided with a permanent automatic device so designed that oil or gas, upon being turned into the combustion chamber, will immediately become ignited or automatically shut off.

violation be liable to a fine not exceeding \$100.00, or imprisonment in the County or Township Jail for a term not exceeding 30 days, or both. Each day that such violation continues shall be deemed a separate and distinct violation. The word "person" shall include any person who installs, alters or replaces equipment herein provided for, or who authorizes, arranges or contracts for such installation, alteration or replacement. All said persons being held accountable jointly and severally for compliance with the provisions of this chapter.

2. The above entitled ordinance shall take effect immediately upon adoption, after final hearing and publication in the official newspaper of the Township.

ELEONORE H. WORTHINGTON, do hereby certify that the foregoing Ordinance was introduced for first reading at a regular meeting of the Township Committee of the Township of Springfield in the County of Union and State of New Jersey, held on Wednesday evening, June 25, 1958, and that the said Ordinance shall be submitted for consideration and final passage at a regular meeting of the said Township Committee to be held on July 9, 1958, in the Springfield Municipal Building at 8:00 P.M. at which time and place any person or persons interested therein, will be given an opportunity to be heard concerning said Ordinance.

ELEONORE H. WORTHINGTON, Township Clerk
June 26, July 9

SERGEANT IN HOLLAND—Pictured above is the air and ground combat crew of an F-100, Super-sabre. M/Sgt. Charles B. Sinclair, right, Armament, of 58 Clinton Ave., Springfield, is a member of this close knit team. The men and aircraft are members of the 32d Fighter Day Squadron, United States Air Forces in Europe, stationed in Soesterberg, Netherlands. The fighter interceptor unit is the lone military component of American Armed Forces in the Netherlands.

Overlook Given \$72,000 for New Nursing Program

A John A. Hartford Foundation, Inc. grant of \$72,000 to Overlook Hospital, to initiate a hospital school of practical nursing and to develop a practical nurse as a part of a hospital nursing team was announced recently by Ralph W. Burger, president of the Foundation, and Walter Beinecke, Jr., president of the hospital board.

The grant will cover a three-year program which is expected to get under way early this fall.

This program, the first of its scope in New Jersey, was described by Mr. Beinecke as being of great potential significance. He related that the hospital nursing personnel problem is

great and that it is doubtful whether it will be possible to meet the need solely through the registered nurse.

Among the promising solutions, he pointed out, is a new concept of nursing service in which a professional nurse and one or more licensed practical nurses work together as a team; the registered nurses performing the more complex and costly training; the licensed practical nurse performing the many functions for which they have been trained and licensed, but which are presently being performed by registered nurses.

The Overlook administrative and medical board, he stated, believes the licensed practical nurse who is trained in a hospital operated resident school can perform an important nursing service and that a registered practical nurse team is feasible and will be helpful in

solving the nursing problem at Overlook and in many other hospitals.

Informational material regarding all phases of the special security insurance program is available at the Irvington office and a representative of the office is available to meet with groups desiring a speaker. Arrangements may be made by telephoning Essex 4-5500. The office address is 1040 Springfield Avenue in Irvington.

Lane and a point 100 feet eastward from Cottler Avenue be improved in the following manner:

a. By constructing a granite block curb along both sides of Milltown Road between the points hereinafter specified, where such curbs already exist.

b. By constructing a modified penetration median driveway with a bituminous concrete top having a width of 20 feet and a total thickness of 4 inches.

c. By constructing a storm sewer and catch basin at the intersection of the driveway improvements, retaining the driveway improvements to said driveway to be constructed due to change in grade and alignment.

d. By doing all other work incidental and appurtenant thereto required in effectuating the improvements herein provided for.

2. That said improvements shall be done and performed in accordance with plans and specifications prepared for and approved by the Township Engineer and on file in the Township Office and on file in the Township Office of the State Highway Commissioner, subject, however, to the approval of the State Highway Commissioner.

3. The owners of all lands on the line of said improvements are hereby ordered to make all necessary house connections with sewers, water and gas mains within a specified section of Milltown Road, where said connections, if later installed, would require excavation into the improvements to be constructed, pursuant to this ordinance, said connections are to be made at the owner's own cost and expense within 30 days from and after the adoption of this ordinance; in case any of said landowners shall make such connections within the said period of time limited, the Township of Springfield shall cause such connections to be made and pay the cost and expense thereof and cause such work and expense to be assessed upon the lands benefited.

4. The improvement of Milltown Road heretofore recited shall be done pursuant to an agreement between the Township of Springfield and the State of New Jersey, acting through the State Highway Commissioner.

5. For the purpose of making the provisions of this ordinance and the expense and charges incidental thereto, there be and hereby is appropriated the sum of \$14,000.00, of which the sum of \$10,000.00 is hereby appropriated in accordance with Article 12 of the Local Bond Law, from monies raised in budgets heretofore adopted under the State Highway Department "Fund Appropriation," and of which the sum of \$4,000.00 will be raised by the State Highway Department, the Township of Springfield, pursuant to the provisions of R. S. 40:16 D, 40:16 A and the amount necessary of money to be raised from all sources for the purpose of carrying out the provisions of this ordinance, the sum of \$14,000.00, sums of money are estimated to be necessary to be expended as follows:

a. For the performance of the several improvements referred in paragraph 1 hereof, the sum of \$10,000.00.

b. The sum of \$4,000.00 is estimated to be necessary for the following purposes:

(1) Interest on such obligations to the extent permitted by law.

(2) The cost of printing and advertising of ordinances, resolutions, notices of sale and legal expenses.

(3) The cost of issuance of obligations authorized for such purposes, including printing and advertising of the Local Bond Law of the State of New Jersey and anticipation notes of the Township which shall be issued in the aggregate the sum of \$4,000.00, the interest thereon to be paid at a rate which shall not exceed 6 per centum and may be renewed from time to time pursuant to and within the limitations provided by the Local Bond Law. All matters with respect to said notes shall be determined by ordinance to be hereafter adopted by the Township Committee.

6. So much of the cost of the improvements as is required to be expended in the installation of the granite block curbing referred to herebefore shall be assessed against the property thus specially benefited to the extent of the benefit actually accrued to said or lands so benefited; and the difference between the total cost required in the installation of the granite block curbing and the total of said assessments, if there be any difference, shall be paid for by general taxation at large.

7. So much of the cost of all of the improvements contemplated by the foregoing ordinance, other than the installation of the granite block curbing, as is estimated to be paid for as follows:

a. \$10,000.00 by state aid grant, as hereinafter recited, and

b. The balance of the cost thereof shall be paid by general taxation at large.

8. Special assessments for benefits against the property benefited by the installation of the granite block curbing shall be paid in three annual installments from the date of confirmation of said special assessments.

9. The period of usefulness of said improvements for which said bond anticipation notes shall be issued is 20 years.

10. The supplemental debt statement required by R. S. 40:16 D, as amended, has been made and filed in the Office of the Township Clerk, and said statement shows that the amount of the Township debt is increased by this ordinance in the sum of \$4,000.00 and that the obligation authorized by this ordinance shall all be within the debt limitations prescribed in R. S. 40:16 D, N.J.S.A.

11. Of the aforesaid sum of \$14,000.00 appropriated by this ordinance, the sum of \$10,000.00 shall be contributed by the State of New Jersey to the Township of Springfield, pursuant to the provisions of R. S. 23:14 C, et seq., pursuant to the terms and conditions of the State Aid Grant Agreement, which said grant agreement shall upon receipt thereof be deposited in the Special Improvement Fund and credited to said fund.

12. This ordinance shall take effect 30 days after final passage and publication thereof as provided by law.

ELEONORE H. WORTHINGTON, do hereby certify that the foregoing Ordinance was introduced for first reading at a regular meeting of the Township Committee of the Township of Springfield in the County of Union and State of New Jersey, held on Wednesday evening, June 25, 1958, and that the said Ordinance shall be submitted for consideration and final passage at a regular meeting of the said Township Committee to be held on July 9, 1958, in the Springfield Municipal Building at 8:00 P.M. at which time and place any person or persons interested therein, will be given an opportunity to be heard concerning said Ordinance.

ELEONORE H. WORTHINGTON, Township Clerk

Rotary Baseball Club Holds Half Game Lead As Season Nears Close

The Rotary Youth Baseball team held a slim half game lead in the battle for the coveted league trophies as they played this week.

The second placed Legion team stayed within striking distance of the leaders by also racking up wins over the same two victims, the Kiwanis and the P.B.A.

Even though the P.B.A. was the victim of the league leaders, they managed to hold to third place by percentage points with victories over the Car Hops and the Lions.

AUTO-BODY WORK

ELERY — 155 Morris Ave., rear of Chrysler-Plymouth agency—Springfield. When your rear-end is out-of-shape—1958-63—a-riem with the necessary fancy equipment, (1) the knowledge of experience, and (2) a firm with the integrity to do the best job at the lowest rate. On all 3 counts, the SUN recommends Elery Auto Body Shop.

FLOOR COVERINGS

LINOLEUM & CARPET FACTORY OUTLET—Route 22, Springfield, Drexel 6-4400. (200) Mel Horn's linoleum, tile, and broadloom emporium sports a vast range of floor coverings at low budget prices. Almost all of the nation's leading manufacturers are represented in the big display floors. The Outlet is particularly respected for the quality of its installations.

FOOD MARKETS

SPRINGFIELD MARKET—(272 Morris Ave., Springfield, Drexel 6-0431) If you're an expectant mother, or just a mother expecting good service, these boys take phone orders and deliver free of charge. Sam Panchon and Leo Schuman have only top quality foods at prices that can't be matched anywhere.

GARDEN SUPPLIES

CARDINAL NURSERY (272 Milltown Road, Springfield, Drexel 6-4400) Springfield's Garden Department Store has a winter service that deserves attention by homeowners who don't want to get caught in the Spring rush. Ed Cardinal's boys will take your power or hand lawn mowers now for servicing and do a bang-up complete job. They'll sharpen and adjust them, lubricate everything and tune-up the engine. They'll pick up and deliver at your home free of charge.

HARDWARE

HYDE AND ELLIS, INC. (715 Mountain Ave., beside Mt. Spring Lake Shop, Springfield, Drexel 6-7990) A sparkling new hardware supermarket has opened up in the growing south end of town and is showing Springfield what modern merchandising means. Everything from the builder's supplies to the big selection of housewares is arranged in neat displays to catch the eye. Free delivery is available from both the Springfield store and the even bigger Westfield home headquarters.

HI FI & SOUND

STEREO SOUND CORP. — (173 Mountain Ave., Springfield, Drexel 6-4547) Your two ears play an important part in listening to music. The story of high fidelity sound reproduction is largely an effort to add another ear to the traditional one eared speakers. This development, called stereophonic sound is available for home listeners as well as the Radio City Music Hall. This firm has set you up with stereo disc recorded tape sound systems or AM-FM radio binocular sound.

HOME IMPROVEMENTS

CHANCE LUMBER CO.—Route 22, Springfield, Drexel 6-6000. Chance's change-account system makes it possible to buy just about anything under the sun for as advertised in the SUN, and take 16 months to pay for it. Of course, includes lumber, home improvements, houseware, paints, hardware, and so on. A service to the community is Chance's standing offer to loan extra chairs for card parties, club meetings, etc., absolutely free of charge.

INSURANCE & REAL ESTATE

BUNNELL BROS.—(8 Pieter Ave., Springfield, Drexel 6-3400) Springfield and Richard Bunnell have been writing insurance of all kinds in town since 1916. Their big friendly office is in the bank building near all that big friendly money. Their advice on insurance matters, should be a good deal more than friendly; their years of experience show in the soundness of their advice.

LAUNDROMAT

COURTESY LAUNDROMAT—(288 Morris Ave., Springfield) Everybody knows that you just drop off your laundry here and come back in an hour to pick it up—fluff-dry. But did you know that Adolf Mirabelli does expert snow repairing here too? And he's fluff-dry all the time.

LUMBER & SUPPLIES

COLUMBIA (Maple Ave., Springfield, Drexel 6-9930) Springfield's reliable home improvement center has countless suggestions for adding life to your house in their two big showrooms. From ready-assembled corns called to customarily graded Della-Wood Folding Deck, the Columbia people have quality merchandise to choose from. Of particular interest is the assortment of elaborate bathroom medicine cabinets. You'd be surprised at the ingenious convenience built-in to Columbia's cabinets.

LIGHT FIXTURES

MODERN LIGHTING (615 Morris Avenue, opposite Terry Dempsey's, Springfield) — Motorists can't help being fascinated by the dazzling display of fixtures that glow upon the rubber ducky five corners. Joe Eeckel has hung tempting samples of his fixtures in the window. Inside you'll find the variety even greater, from vivid radical modern to elegant stately provincial.

RESTAURANTS

CHINA SKY—(Springfield Shopping Center, Drexel 6-3010) Here's a restaurant sampling from the most interesting that's ever practically anything under the China Sky SAM SHOP TAI — sliced lobster meat, white meat of chicken, Chinese roast pork, prepared with imported Chinese mushrooms, snow pea pods, water chestnuts, bamboo shoots and hearts of box choy. All this for \$3.75 in Jack Chin's cheerful dining room.

RESTAURANTS

MOUNTAIN AVENUE LUNCHEONETTE—1549 Mountain Avenue, Springfield. Here 25 tables, 200 seats, there is only one thing better than the best (delicious) cooking—and that is Mrs. Gernann's German cooking. She is running the premier breakfast, lunch and snack headquarters in town. The SUN recommends trying any of her homemade delicacies.

SIP & SUP DRIVE-IN RESTAURANT — (Corner of Morris Avenue and Springfield Avenue, Springfield, Drexel 6-2001) If you're one of a vastening number of restaurant-goers who will still totter out of your car and eat indoors, Jack Bullock's colonial-modern dining place offers a big new dining room. However, you'll get the same good food by simply staying in your car and let the girls run the food out to you. Either way the food is what makes stopping here an event.

TONY'S PIZZERIA — (Mountain and Pieter Avenues, opposite Regional High School, Springfield, Drexel 6-9772) There's an old saying that a pizza parlor what you make it. Tony Deia certainly makes them more than usually good. His hand with the spices is sure and his experience with flaky crusts is considerable. If you want to take one home, call in advance and pick it up hot. Better still, bring it with you.

WALTER'S INN—295 Morris Ave., opposite Millburn Ave., Springfield. The off heard comment about the pizza pie being too big to eat must have originated here where the pizzas come king size in both diameter and seasoning. We like eating a pizza among everybody at the table and ordering in individual portions of their delicious Lasagna, Ravoli, and veal and peppers. You sure know you're dined out there that.

TV SERVICE

A & A TV—(2708 Morris Ave., Union, 1/2 mile from Springfield, MURDOCK 8-5800) Al Jones has been in TV since 1938 when it was considered a laugh. Though, and by actually keeping abreast of the electronic world has made available to Springfield a shop that is tops in its field. Fixed charges, same day service, and guarantees on all work are the other reasons why people phone A & A.

SPRINGFIELD RADIO & TELEVISION CENTER — (173 Mountain Ave., Springfield, Drexel 6-4547) Five months ago, the radio repair men, as enough testing equipment to man the CBS master control room, make this a logical choice when Lawrence Walk goes bleary. The service is quick and all work is guaranteed. The proof of the pudding is the fact this firm has expanded in recent years.

PHONE NUMBERS

Table listing various phone numbers for services like Police, Fire, Public Library, etc.
