### Dan Lucy & H. Flammer Swamp GOP

Springfield will be ruled by Democrats for the first time in history come January 1. "100 years of Republican rule" came to an end Tuesday when Democratic candidates Howard A. Flammer and Daniel M. Lucy buried their opponents beneath a more than 1,700 plurality.

The election of the two Democrats paves the way for Vincent J. Bonadies to become Springfield's first Democratic Mayor. Their three Democratic votes will be pitted against two Republicans on the Township Committee, present Mayor Albert G. Binder and Committeeman Eugene F. Doinnelly.

The Democrats are assured of control of the town for at least two years because next year it is the Republican seats which come up for re-election.

There is no doubt but that Flammer and Lucy will elect Bonadies Mayor at the organization meeting on New Year's Day. A wild victory celebration Tuesday night by Democrats convinced observers that there is complete unity in the party behind Bonadies.

There is also no doubt but that Irwin Weinberg, who engineered the overwhelming victory Tuesday, will be named to replace Max Sherman as Township Attorney.

RECORD VOTE  
Everything about the Democratic triumph was a record. Lucy's 3,605 votes is the most ever rolled up by a candidate in Springfield. (Continued on Page 2)

### Gov't Change Rejected By 400 Votes

Springfield turned thumbs down on Council-Manager Plan E Tuesday. The voters rejected the proposal to change the form of local government by 2,368 to 1,960.

The results were considered a surprise by most observers. It was felt that the support of the League of Women Voters and the Springfield Greenback Party Charter Study would be more effective than the disorganized opposition of Mayor Albert Binder, Committeeman Raymond W. Forbes, town hall officials, several citizens plus this newspaper.

Several factors contributed to the downfall of the recommendation of the Charter Study Commission. One is that one out of every five voters ignored the issue. In view of the fact that it lost by only 400 votes, this could have been decisive. Another is that in a few election districts the Council-Manager was swamped under. District 1 (Riverside Avenue), District 2 (Columbia Avenue), District 10 (Kipping Avenue) snatched the proposition under 180 to 57.

A year ago Springfield voters cast 2,548 votes in favor of Charter Study as against only 760 opposed to it. This vote elected the commissioners who studied the local government and made the recommendation that it be changed to Council-Manager.

If Council-Manager had passed it would have taken some of gloss off of the Democratic victory in the Township Committee race. It would have meant that all five seats on the town's governing body would be up for election next year. By rejecting Plan E, the voters have assured the Democrats of at least two years in office.

Mayor Binder said Tuesday night that the only thing he was glad of in the election was the defeat of the Manager government. Raymond Forbes echoed his sentiments.

## Organization Plus New Residents Have Turned Tide To Democrats

Despite the 2 to 1 defeat by the Democrats the Republicans are still the majority party in Springfield. But the once impenetrable plurality has shrunk to the point where a shift of 50 votes among the Regulars can dump the ticket.

Five years ago more than two out of every three Springfield residents were Republicans. All told only 1,000 voted the straight Democratic ticket. Last Tuesday 2,600 voted for the Democratic Freeholders, an indication of basic party strength.

It took just five years for the local Democratic party to rise from complete obscurity to control of the Township.

It can all be traced to Jan. 10, 1953 when political novice Vincent J. Bonadies attended a Democratic Club meeting against what he calls his "better judgement."

Bonadies had lived quietly in Springfield since 1945 with no more interest in politics than in flying to the moon. On the strength of Tuesday's election, the chances are Bonadies may even reach that moon.

Of the handful of people active in party affairs that January evening, only Leo Moran and Emanuel Holms are still around. The rest of the organization that rolled up this year's record vote has been gathered by Bonadies.

After a lethargic meeting, Bonadies returned to his home convinced that the Democrats would never amount to much in Springfield.

But a few of the faithful prevailed upon him to run for Township office. He rolled a rousing 89 votes in the primary, and along with running mate Moran (94 votes) faced the Republican steam roller in November.

About the only accomplishment in the slaughter at the polls which Bonadies was led to was that the 900 votes Bonadies collected killed the Independent movement in Springfield.

Until that election the only way to oppose the Republican majority effectively had been to run an Independent. Bonadies went about wooing the Independents and was successful enough to bring such Independents as Francis J. Keane back into the Democratic fold.

After the 1953 election the Republicans still were firmly in the saddle, but now there was just one opposition—the Democrats.

Bonadies then had his one great piece of luck: A split in the Republican party over Mayor Robert W. Marshall enabled Bonadies to win the 1954 election by 300 votes.

But, as everyone pointed out, Bonadies was elected with Republican votes.

By this time, though, the flood gates were down. The nurseries in Springfield sold their land to housing developers and new residents moved in from predominantly Democratic cities.

As an indication, the basic strength of the Republicans in 1953 (as reflected in the vote for Freeholders) was 2,300. By 1957 it had risen to 2,700. In the same period Democratic Freeholders received 1,000 votes in 1953 and four years later 2,200. Three out of every four new voters was a "died-in-the-wool" Democrat.

But this basic strength does not explain the heavy Democratic majorities in the last two years. This is the result of the organization, founded by Bonadies, and operated so successfully by dozens of young people who have moved to town in these five years.

Reporter-At-Large  
**Republicans Say Defeat Will Unite Party For Win**  
By PHIL HAFF  
There was, of course, little to cheer about at local Republican headquarters Tuesday night.

But a ray of light did appear to the GOP when they sat down after the returns were in and took stock of themselves.

Ray Forbes sounded the keynote: "The results show that the only thing that beats Republicans in this town is Republicans."

The other party leaders echoed this statement as they addressed the 45 downhearted workers present at defeated candidate Ike Freedman's house.

Forbes' analysis pointed up two facts—one that because the Republicans carried all State and County offices in Springfield, it must have been Republicans who switched and voted for the local Democratic candidates, and two, that bickering within the GOP organization had aided the defeat.

Mayor Binder spelled out this last point: "We have no reason to fight among ourselves," the Mayor said bitterly, "yet we snipe at each other."

Eugene Donnelly pointed out where this lack of unity had hurt the Republicans.

"We may have laughed at the 8 phones in Bonadies' house," Donnelly observed, "but that is necessary to win elections."

All during election day Republican headquarters had been comparatively quiet with only a few workers getting out the vote. By contrast, Democratic headquarters

looked like a boogie joint. NEW BLOOD  
Forbes emphasis on the fact that the Republicans are still the majority party in Springfield put some life back into the Party. The retiring committeeman urged the selection of a leader to unite the party. This done, Forbes felt that the GOP could hold its minority of two seats next Fall and win control again in 1960.

Mayor Binder also called for someone in Republican ranks to step forward and lead the party. Discounting himself and Donnelly (as too old), the Mayor said: "Let's get some young blood, some new young people."

Donnelly, the political realist, told the Republicans that once they select a leader everyone must agree with him or quit. The committeeman also said that this unity must come about soon "and not two weeks before next election."

When the speech making was over, the Republicans could see the handwriting on the wall. Victory was possible—with a leader. (Continued on Page 2)

### THIS WEEK

#### CONGRATULATIONS TO THE VICTORS

The overwhelming and well deserved victory of Howard Flammer and Dan Lucy Tuesday will give the Democrats control of the Township Committee when it meets to organize January 1st.

How long the new regime maintains control depends entirely on how the affairs of the Township are conducted—a fact the Democrats appreciate only too well.

The Republicans have been in power for many, many years and despite the landslide victory of the Democrats for the two vacancies on the governing body, the cold election figures indicate that there are still a great many GOP supporters in Springfield.

Political mistakes in the next year might solidify and unite the Republican party in Springfield and the same scramble for control would be on again.

The Democrats are fully aware of the task before them. They have a progressive plan in mind—all for the improvement of Springfield and its residents.

The Republican party didn't put its best foot forward in the campaign when closed with such a resounding beating by the Democrats. All of which probably means that the GOP will do some plain and fancy Spring cleaning.

The neophytes—the eager beavers who didn't know all the tricks of campaigning—will no doubt retire to private life and leave the job to the "stalwarts and the no-how Republicans" to get the GOP back on the track.

The Democrats now have a responsibility—a mandate from the voters as the politicians like to put it. We feel confident that both the victors and the now minority members of the Township Committee will put aside their political differences and cooperate to continue the kind of government that has made Springfield one of the most progressive communities in the State.

#### THEY SAID IT COULDN'T BE DONE!

The most startling result in Tuesday's election was the defeat of the Council-Manager proposal which would have done away with the present form of government.

It appeared to be an almost hopeless task. There was no organized campaign against the proposed change in government although many of the Township officials had privately expressed themselves as being opposed to the change.

It became a political hot potato when the two Republican candidates endorsed the proposal but the Democrats side-stepped every attempt to have them take some stand on the issue.

Those who were guiding the question on the ballot made the wording of the referendum sound as if a "yes" vote would be "all things to all men" but a "no" would bring the horse drawn wagon back to Morris Avenue. Literature advocating the change to Council Manager flooded the Township, letters were published which could have been left unpublished and everybody seemed resigned to facing a change in our form of government.

Mayor Albert G. Binder, opposed to any change from the start, displayed the courage to publish a series of articles on why he thought Council Manager wouldn't do the job for Springfield.

Township Committeeman Raymond W. Forbes issued a statement in the final week of the campaign, joining with Mayor Binder and other Township officials, in pointing out the weaknesses of the proposed Charter change.

A concise and objective pamphlet, prepared by Paul T. Murphy and H. Lee Sarokin flooded the Township over the weekend prior to election day, in which residents were asked to vote against the Council Manager Plan.

All this defeated the proposal. Now any further Charter Study plans will have to wait for four years.

#### WEINBERG SHOULD BE TOWNSHIP ATTORNEY

In politics—especially when one party takes over control—there is usually considerable talk regarding that business of "dividing the spoils."

However, the Democratic leaders insist that nothing will be done to interfere or interrupt the orderly processes of the township's administration.

One appointment is certain—Irwin Weinberg as Township Attorney—and that is just as it should be. Mr. Weinberg (continued on Page 5)

### Flo Dwyer Is Tops Here On County Ticket

Springfield Republicans, and some Democrats, gave Congresswoman Florence P. Dwyer a solid majority in town during her successful bid for re-election Tuesday.

"Flo" Dwyer fell just two votes short of 3,000 while her opponent, Jack B. Dunn, only polled 2,334. Mrs. Dwyer won the election in Union-County by approximately 8,000.

Because Dunn fell about 200 votes short of the Democratic Freeholder candidates in Springfield, it is assumed that there were Democratic votes for Mrs. Dwyer.

The town had a much harder time voting for U.S. Senator. In what appeared to be a straight show of party strength with little crossing of lines, Springfield gave 2,635 to Robert W. Keane and 2,552 to successful candidate Harrison A. Williams, Jr. This is thought to be the party strength because the Freeholders from both parties polled approximately the same totals.

In the curiosity department, Springfield did not ignore the fringe candidates. Daniel Roberts, the Socialist-Workers Party candidate for Senator received 70 votes. All told 165 local votes went to Henry Krajewski and his opponents on rows C and D.

### Winners Pledge To "Keep Faith"

Township Committeemen-elect Howard A. Flammer and Daniel M. Lucy today issued the following statement in connection with their victory in the November 4th election:

"The overwhelming vote of confidence which you, the voters of Springfield, gave to us in the election fills us with a deep sense of humility and gratitude.

"We recognize the historical significance of this victory and that it far exceeded any party considerations. It was the result of a community-wide desire to restore confidence in our local government.

"We realize the obligations to the people of Springfield which this huge victory imposes upon us and we will do all in our power to keep faith with all the people and will do our utmost to justify the trust placed in us.

"We deeply appreciate the congratulatory remarks and pledges of cooperation made to us personally following our victory, by our opponents Messrs. Freedman and Handville.

"To all those supporters who worked so tirelessly and faithfully in our behalf, we express our sincerest appreciation."

### To Shoe Fire Truck

The sleek, new American LaFrance aerial ladder truck, pride and joy of the Springfield Fire Department will be on display in the General Greene Shopping Center today, tomorrow and Saturday, November 6, 7 and 8th The public.

### GOP Manager Says "Thanks, Workers."

Raymond Kravetz, campaign manager for the two defeated Republican candidates in Tuesday's election, issued a statement yesterday in which he congratulated the victors and "asked for a bipartisan effort for the benefit of the community."

"We want to thank all those who worked in our behalf," said Kravetz in his statement, "and those who voted for our candidates."

"On behalf of the entire Republican organization," he continued, "we want all those who supported us in the campaign to know that we appreciate their efforts all during the campaign and on election day. Isaac Freedman and Frederick A. Handville join me in expressing our thanks to all and wishing the new members of the Township Committee the best of luck."

Monday, Nov. 3, 1958.

Editor: As I write this letter, the outcome of today's Township Committee election is still "just a guess", although I am most confident that the Democratic candidates will be successful by an overwhelming majority. I mention this only because I do not want my comments to sound like "sour grapes", in the event my prediction is wrong.

I do not know what emotion this "spider letter" roused in the thousands of others who at one time or another voted Democratic. I do know that my own initial reaction was unbelievably shocked! Frankly, I have always supported and voted for the candidate I thought best qualified, regardless of party, and did not particularly relish being called a spider simply because I did not choose to support the Republican Candidates.

To your other readers, who may have experienced the same reaction, let me offer this solace: My son, Jay, looked up "SPIDER" in his World Book Encyclopedia and found this definition: "Spiders are not insects, and seldom-bites unless they are disturbed. They are very helpful to man, killing all kinds of harmful insects including many that would destroy our crops."

To further comfort your "spider readers", let me remind them of the story about the Scottish hero,

Robert Bruce, who learned to overcome failure by watching a spider try again and again to fasten a thread when the spider finally succeeded. Bruce took heart and went forth to victory in battle.

## GOP Defeat

(continued from Page 1)  
unity, and some young people. Everyone seemed a bit cheered. The defeat Tuesday may have welded the Republican Party back together. Certainly those present felt that the defeat would spur a much greater effort next year.

**LOSS IS STILL A LOSS**  
New hope for victory in 1960 is pretty cold solace for defeat this year, though. "A bitter pill" the mayor said.

Small knots of men and women in the paneled living room and entrance way of Freedman's California ranch house talked softly of the bitterness of the pill.

As one drifted from group to group one could overhear . . . "Bunnell's town insurance . . . township attorney . . . appointments . . . Mayor Bonadies . . . sewer fight . . ."

Nobody looked more unhappy than Ray Kravetz. The man who

had directed the campaign said when asked for an opinion—"I'm not news anymore."

The Democratic victory had dealt a severe blow to the "new" Republicans under Kravetz. Henry Grabarz and Walt Baldwin had staked their political ambitions with Kravetz. There was no solace for them.

Ike Freedman took defeat with a grace that surprised those who would probably have taken victory outwardly untroubled by the whole thing, he devoted the evening to urging food and drink on people with no appetite and breaking the tension with quips that made everyone laugh. The perfect host.

As for Art Handville, it meant the end of the line after nine years of service on the Township Committee. Only his wife could take heart.

"Faith is getting her husband back," Ike said.

Everyone laughed. For with all the work involved if they won who is to say that Art and Ike lost?

## Dan Lucy

(continued from Page 1)  
Flammer's 3,559 also tops any previous total.

The margin of victory over losing candidates Isaac Freedman and Frederick A. Handville is a record for low party elections in this town. Freedman polled 1,534 and Handville 1,471 votes.

Lucy and Freedman there is a separation of 1,741 votes.

Flammer and Lucy won every one of Springfield's 13 voting districts except the 4th—the area around Short Hills Village. They ran ahead of Bonadies'—winning totals last year in every district.

Nobody foresaw the size of the Democratic victory. The most optimistic Democratic prediction was for a 1,000 vote victory. Republican professionals said before the election they expected to lose, but they were stunned by the size of the defeat.

**GOP BOLTS**  
The story was that regular Republican voters pulled down the leaves all across Row A until they came to Township Committee. Then they jumped down to the Democrats.

For example, the State and County ticket ran solidly above 2,500 for the Republicans. But the local candidates finished 800 votes behind that.

Add 800 votes to the basic Democratic strength and you have the margin of victory.

**PARTY WORKERS**  
The fact that 5 out of every 8 registered voters in Springfield cast their ballots was largely a

credit to the Democratic organization. Democratic headquarters in Bonadies' recreation room was the center of activity for about 50 doorbell ringers, eight telephone operators and a fleet of automobiles. The workers not only got out the vote, but stayed around to cheer the results, stage a horn-beeping motorcade through the streets and drink—a reported 32 quarts of liquor.

While Bonadies had set up the machinery for the election in the first place, by Tuesday everything was running so smoothly that he was able to just about take the day off.

The Republican organization did not appear to be working at full steam throughout the day and headquarters was a comparatively quiet place.

### Weinberg Praises Election Workers

Irwin Weinberg, Springfield's Democratic Municipal Chairman, today hailed the election of Township Committee members Howard A. Flammer and Daniel M. Lacy as the result of the collective efforts of hundreds of citizens who rallied behind the candidates in the interests of restoring good government to Springfield.

The municipal chairman declared that "the great devotion of these hundreds of workers to contributing endless hours in behalf of contacting the citizenry of Springfield with personal messages in behalf of the candidates and their platform, helped to bring about the election of Flammer and Lacy with the support of the majority of the electorate, regardless of party affiliation."

"These same devoted workers," Weinberg said, "are now dedicated to following through to help implement the program of good government that the voters of Springfield have now endorsed and want to see carried out for the betterment of our community and its future."

He stated: "It is my personal hope and dedication that these same fine workers will remain ever vigilant and alert to the cause that brought them forth

initially, namely that Springfield must never again forget that good government commences with the interests of the people first, and politics second. We must always adhere to this principle, if we are to go forward, together, and bring to our community the finest government in its history."

**'Twas the month after Christmas, and...**

... in the front room, Sat Mother and Father, the picture of gloom.

Last year at this time, Father had said, Let's skip Christmas Club, Save our own way instead.

But presents were needed and wrappings and frills, So Mother went out and ran up some bills.

But when it came time to put the money away, There was always some reason they found to delay.

Now is the time for the bills to be paid, And Father has found that they're more than he's made.

All of a sudden the months had flown by, And there wasn't much saved, in spite of the try.

Don't let this poem ever be about you, When saving each week is so easy to do!

Berg is an experienced member of the legal profession and is extremely qualified. His interest in local affairs and his services to the Democratic organization entitle him to be named to that very important place under the new regime. His appointment can be made on the basis of merit and ability.

It is practically certain that Vincent J. Bonadies will be named Mayor... which is also as it should be. Not only is he the only member of the Township Committee whose business is in Springfield but he deserves the honor.

## Huff & Richards Head Xmas Seals

Charles H. Huff of Wabeno Avenue, Springfield, Township Tax Collector, will serve as Springfield chairman of the 1958 Christmas Seal Sale and C. H. Richards of the First National Bank will serve as the local treasurer for the tuberculosis fund.

These appointments were announced today by Henry W. Crane of Elizabeth, Union County Seal Sale chairman. The Christmas Seal Sale will be conducted by the Union County Tuberculosis and Health League from November 14 through December.

"These people are leaders of the community's fight against tuberculosis," Mr. Crane said, "and through their efforts we hope that the 1958 Christmas Seal Sale will make it possible for the Tuberculosis League to increase its activities in the prevention and control of tuberculosis in our county during the coming year."

Contributions to the Christmas

Seal Sale are used by the Union County Tuberculosis and Health League to conduct chest x-ray programs in industry, clinics and communities, to help patients arrange for hospitalization, and to help prepare for their return to the community after treatment is completed. The League also spearheads a program of education regarding tuberculosis.

## Regional Plans An Open House

In observance of American Education Week, a special faculty committee of the Jonathan Dayton Regional High School has made plans for an "Open House" on Thursday, November 13, between 9:30 a.m. and 2:30 p.m., during which time parents and other visitors are invited to attend regular classes and observe the high school in actual operation.

According to Miss Jeanne Meeker's American Education Week Committee, every effort has been made to guarantee visitors to Reg-

ional an interesting and profitable experience, as well as to provide for their comfort and convenience. For example, members of Regional's Future Teachers of America organization will serve as receptionists and guides throughout the day, answer any questions, make luncheon reservations for visitors, and provide parents with their children's schedules. In addition to the F.T.A. guides in the halls, receptionists in each classroom will greet and assist visitors. While guests are invited to visit any of Regional's classrooms, the A.E.W. Committee especially recommends looking in on the special areas listed below, perhaps during study periods:

Agriculture - separate building, Shops - ground floor, Library - second floor, Art - room 222, Science - rooms 225, 226, 227, 208, 209, 213, Foods - room 201, Clothing - room 203, Home Management - room 229, Commercial - rooms 24, 27, 28, Mechanical drawing - room 3, Sound Studio - adjacent to room 216. From 12:00 to 12:25, visitors will be served lunch in the school's cafeteria at regular prices, at tables reserved for guests. Parking at the school will offer no problems as special provisions have been made for convenient parking facilities for visitors.

The parents of Regional's students have always exhibited a lively interest in and enthusiasm about their school in the past—for example, almost 1200 parents turned out for the recent Back-to-School Night—and it is expected that this interest will continue to manifest itself on Open House Day, November 13.

## 7 pounds, 8 ounces of Sacred Trust

If you have youngsters of your own, then this picture—must call up wonderful memories. How happy, how proud you were of the new baby. Proud, happy, and grateful, too. For no one had to tell either of you that your child was a sacred trust . . . that his or her happiness depended in large measure upon the way you measured up as a parent.

Today, you know better than ever how true

that is. It's you the children look to for all things . . . for love, for learning, for fun . . . and, above all, for the good example to follow in life.

That's quite a responsibility. But, thanks to God, not a lonely one. For God blessed you with children, knows you need His constant help to raise them wisely — and that help is yours for the asking. Worship together, at your Church or Synagogue, every week.

Rev. Erwin L. Spruth

On Sunday, November 9, Holy Cross Lutheran Church, 639 Mountain Avenue, will have the Rev. Erwin L. Spruth, evangelistic missionary of the Lutheran Church-Missouri Synod, who has just completed a 5-year term in the Wabag Sub-district of the Western Highlands of New Guinea, preach at 10:30 a.m.

The Rev. Spruth was accompanied to New Guinea by his wife, Lorraine, a registered nurse graduate of Washington University School-of-Nursing, St. Louis, Mo. Mrs. Spruth carried on extensive medical work at Papayuk in New Guinea where she was the only qualified medical worker in the area. The nearest other medical practitioner was over 30 miles away. This medical work was of great value to the preaching of the Gospel in the Papayuk area.

The Spruths intend to return to their work in New Guinea early in 1959.

The Lutheran Church-Missouri Synod has been working in the Wabag Sub-district of the Western Highlands of New Guinea since 1948. There are 27 workers on the field at present. The New Guinea Lutheran Mission-Missouri Synod has contact with more than 40,000 Enga people. At present there are approximately 1325 baptized members. The Mission has 7 main stations which carry on the evangelistic work, an advanced school and a hospital.

A Christmas street lighting program larger than last year's project was planned last week by the Chamber of Commerce at the Legion Hall.

Entertainment will be provided for the children and candies, fruit and small gifts will be distributed. An effort will be made to have bags placed over the parking meters at certain hours during the Yule shopping season. Mr. project was successful last year. Robert Davidson, Arthur H. Smith and John Grausam were appointed a nominating committee to select a slate of 12 directors. The committee will report at the Nov. 24 meeting when the election will take place. # Mrs. Goldstein To Head Local Drive

Mrs. Samuel C. Goldstein of 26 Kipling Avenue, Springfield, has been appointed local Campaign Chairman for the Union County Unit, New Jersey Association for Retarded Children.

Funds raised during this period are used to support a program of service to the community's mentally retarded children and medical research to find preventative measures.

In accepting the Chairmanship, Mrs. Goldstein said, "This widespread problem of mental retardation is one which deserves much greater public attention. We cannot neglect a problem for which so much good can be done if the funds are made available." Funds raised will be used to expand local services and research.

## TAKING CARE OF YOUR GARDEN

By Edward A. Cardinal  
Chairman, Springfield Shade Tree Commission

### Taking Care of Your Garden

by Edward A. Cardinal  
Chairman

#### Springfield Shade Tree Commission

Young trees have suffered a great deal the past two years, because of extreme weather conditions. 1957 was an extremely dry year and very little root system was produced by the newly planted trees. Leaves were stunted, too, and the trees went into the winter with very little food stored in the cambium. The wet spring of 1958 did further damage to the roots and when summer arrived many trees suddenly died off.

Our County Agent claimed he received an average of 20 calls a day concerning trees both young and old, and the shade tree commission in this town removed some trees over 20 years old that were affected by the extreme weather conditions. No doubt this condition will carry over another year, or two.

**QUESTION:** Several young trees in my neighborhood have died and we reported it to the Shade Tree Commission, but nothing has been done. What shall I do?

**ANSWER:** The STC is currently planting trees, and any requests made for new trees, or replacements of dead trees should be com-

pleted during November.

**Q:** Can I do anything to help the young tree along my curb?

**A:** You can usually pick out the trees that have been well tended, because they are considerably larger than the other trees in the neighborhood. A cupful of the same fertilizer you use on the lawn can be put around the tree. You will soon see the results. Make certain the ground around the tree is cultivated occasionally, and in dry weather soak the ground thoroughly once in a while. In dry weather leave a slight depression around the tree to gather a bit more water when it rains. In extremely wet weather, mound the earth slightly to prevent excess water from accumulating. This little care will help your tree mature more rapidly.

**Q:** Name some good shade trees for my rear grounds?

**A:** Willow is a beautiful, and graceful tree that grows fast and requires a minimum of care. Moraine Locust, a new hybrid that is a fast grower with tiny leaves that require little raking in the fall. Its loose growing habit provides light shade that will not affect the lawn. Sugar maple, sometimes slow to get started in heavy, clay soils, but is a medium fast grower if tended properly, and the most

beautiful of fall coloring. Norway maple is a fast grower, and provides a dense shade. Plane tree, or sycamore, is a very fast grower, but requires spraying and drops considerable refuse. Many other trees are satisfactory, but hard to acquire.

**Q:** Please name some ornamental trees that will not grow too large, but will give some shade as well as beautify our property?

**A:** Japanese crab apples are by far the fastest grower and easiest to maintain in this vicinity. Colors range from pure white to dark red and are one of the showiest of all our trees. A six foot tree will provide excellent shade in a few years, and reaches a height of about 20 feet. Japanese cherries, dogwoods and magnolias are not as fast growers as the crabs, but make very beautiful trees. They are not as tolerant of poor, wet soils, so should not be considered if you have a drainage problem, although proper planting can make them survive. Write to your county agent, Court House, Elizabeth and ask for leaflet No. 85 called "Fifty Small Trees for N. J. Home Grounds."

**Q:** Are fruit trees satisfactory for shade?

**A:** They make excellent shade trees. Apples and peaches grow rapidly, and if you are not interested in the quality of the fruit, require little care. Pears are virtually insect free, but are slower growers. Cherries are hard to transplant and are best to forget for if the insects don't get the fruit the birds will. However, I would consider one, or two fruits, or nuts if you have the room.

**Q:** Can you tell us how to plant a tree?

**A:** Select a spot reasonably free of poor drainage and dig the hole about 50% larger than the spread of the roots. Dig the hole at least two feet deep and backfill to the proper depth with a mixture of humus, or manure and soil. If it is a wet spot, place a few inches of stones at the bottom to help drain the soil more rapidly. Place tree at proper depth, usually about three inches above the roots, and fill with the humus and soil mixture until hole is 3/4 full. Fill with water and allow to settle before refilling with soil. Leave a slight depression to collect moisture unless ground is low, where it might be better to mound slightly. Stake tree firmly at least one growing

season.  
**Q:** Shall I fertilize the tree when I plant it? How about fertilizing established trees at this season?  
**A:** Manure can be used when planting, but keep the chemical fertilizers away from roots. A handful on top of the ground after planting would be beneficial. Established trees can be fertilized now, but use a brand containing considerable organic material. Use three pounds for each inch of diameter.

### School Board Cites Case For 1-Story Bldg.

The Smith family has not accepted the offers made by the School Board and, according to the Board of Education, condemnation proceedings will have to be started very soon to acquire the land. The report is that a very attractive offer to purchase the property has been made to the Smith family but there has been no acceptance.

The School Board has surveyed the entire Township for available sites for a new school building and the Smith farm on Milltown Road has

been agreed upon as the best property for the expansion program.

In the meantime, the Board of Education is proceeding with the necessary legal steps and voters will be given an opportunity to vote on the referendum on Dec. 9.

Following is a statement by the Board of Education outlining their reasons for selecting a one-story school design:

suburban areas where land is so expensive and a two-story school would be more compact and efficient."

The basic concept of a compact structure with minimum perimeter and minimum roof area was sound in the days when methods of structure were limited to bearing masonry walls, timber framing and concrete slabs.

A modern public school is required by state regulations to use modern mechanical means to provide safety, health and comfort for the school pupil. This means that the perimeter exposure of a classroom is, to a lesser degree, a factor in the heating load and that the required mechanical ventilation of tempered outdoor air is in quantities of not less than ten cubic feet of standard air per minute per pupil, thereby establishing the

basic fuel operating costs.

"Structure in a modern school requires clear span in the classroom areas greater than would be practical for timber floor framing. To support a timber floor would require the much more costly steel or concrete frame. The one-story school permits the proven economy of concrete floor slab on grade, using only the lighter roof loading for long span structure. Safety in a public school also dictates other costly provisions when a two-story structure is built.

(a) "A minimum of two stair towers is required for any two-story school; with the related expense of guard rails, dual hand rails, durable finishes, limitations in the use of cubage over or under rails, durable finishes, limitations in stair towers are equivalent in cost to a classroom. This expense can be completely avoided when one-story structure is used.

(b) "Future expansion provisions are much more costly when two story structure has been established, principally due to the limitation of not being able to pass thru a stair tower to extend a corridor.

(c) "Additional toilet facilities would be required for two-story schools.

"Daylighting of classrooms can be improved thru the use of bilateral clerestory or skylight. This removes the limitation of light-over-left-shoulder regimented seating arrangement and encourages flexibility in group clusters or other seating patterns to aid the learning unit processes. Blended daylighting also permits flexibility of project work areas such as craftwork, story telling and reading, previously limited to the window side of the room, thereby filling the use of very corner. The one-story roof also permits skylighting the corridors which previously had to be artificially illuminated 100% of the school-use time.

"Mechanical ventilation is simplified when one story structure is used since exhausts can be placed immediately over the desired space. This introduces the self-contained classroom toilet feature for the lower grades which would be too costly to provide in multiple-story structure.

"From the standpoint of safety, during an emergency, the perimeter of the school is accessible without a drop. Fire apparatus can reach all portions of the structure with the greatest speed. This is also reflected in the insurance rates.

"Any maintenance work, such as cleaning of roof cutters, can be done without hazardous heights and scaffolding.

To Summarize:  
"We feel that the one-story elementary school has several advantages over multiple-story school buildings:  
1. It is more economical  
(a) The structure uses the economical slab-on-grade floor rather than heavy steel or concrete structural floor.  
(b) It eliminates the need for costly stair towers which are equivalent to the cost of a classroom.  
(c) It is more easily and economically expanded.  
(d) It permits the more efficient use of classroom space.  
(e) It saves on operating and maintenance costs.  
2. "It is safer,  
(a) For the pupils who can get out quickly and safely in the event of an emergency.  
(b) For the pupils because fire and other safety apparatus can get to all parts of the building quickly and without hazard.  
(c) For the maintenance staff in making repairs and in doing regular upkeep tasks."

## SUNNING SPORTS

by VICTOR GOLDBERG

Regional's football team met powerful Union last Saturday and held them to a 14-0 score. The Bulldogs played a great football game and should be proud of their effort.

Union scored in the first and fourth periods for the game's only touchdowns. The first touchdown was set up by a blocked kick. The other touchdown was scored after Union had marched 55 yards in 13 plays. Connie Haynes and Steve Gleitzman scored the touchdowns.

Except for the two touchdowns, Union had little success penetrating the Bulldogs' defense. The defensive secondary was especially noteworthy. Ed Reese intercepted two Union passes, but the rest of the back should not be overlooked. Union's receivers were well covered on every pass, and the tackling by the backs was hard and sure.

Also the line played well. Union's vaunted speedster Fontaine Haynes was completely bottled up.

Although the final count stood 14-0 against Regional, the result was strictly secondary. The game was a great moral victory for the Bulldogs.

Saturday Regional meets Westfield in a home game. This should be a close game going right down to the wire, Regional with their improved defense should win by a 13-7 score.

Regional's soccer team suffered its first defeat of the season last Thursday by succumbing to Jefferson 4-3. Tony Hartman scored two goals and John Angelman one in a losing effort. Although they were defeated, the team played one of their better games of the season.

On the next day Regional swamped Edison 6-2. Hartman, Angelman and Keen Van Vleet each scored one goal. Hans Kryger, however, paced the Bulldog attack with three goals. This victory put Regional's record at six wins and only one defeat.

Although the soccer team is still classified as a jayvee, both of last week's opponents fielded their varsity team for the entire game.

In case you're interested in the Date Bureau, I'll tell you how it works. Every sign's name is placed in a brown file box. If a girl is asked to be a date or is unable to attend the dance, she removes her name and places it in a green file box. If her date is from Regional, he also removes his name from the Brown to the green file box. In this way a boy, by glancing through the brown file box, knows what girls are available for the dance. This is also helpful for the girls, for they can glance through and see what boys haven't asked anyone and start to work on them! Jan Forster, in charge of this novel system, hopes everyone will use it.

One of the most important clubs in our school that I neglected to write about is the Kivani-sponsored Key Club. Under the direction of Mr. August Caprio, this is the service organization of the school. Some of the worthwhile things they do are: sponsoring the annual student-faculty basketball game and selling programs at the game and selling programs at the game. Boys are elected into this club upon recommendation of Regional's faculty during their freshman or sophomore year. Present members from Springfield include Don Booker, Allen Mankin, Chip Skousen, Bill Franklin, Art von der Linden, Tom Marino, and Ted Hohn. President Pete Rupp, a former Springfieldite, resides in Mountainside.

As far as socials go, another party tops the list, this time given by Ginger-Ryan, a junior from Mountainside. The occasion? Why, halloween of course! Everyone came in costume (naturally) and enjoyed halloween nite to the fullest. Guests from Springfield attending were: Ray Rouse, Ward Landrigan, Cheryl Doas, Tim Stewart, and Carol Marano. The three other towns were also well represented.

Underclassmen haven't been sleeping on the job by any means. The sophomore class has elected its officers and two of them are from Springfield, Tom Marino and Ron Scelfo. The class plans to hold a cake sale during lunch on November 14th to raise money for their scheduled December 19th dance. Working along with the officers is a small executive committee. Springfielders are also scattered here, namely Nancy Oakman, Dick Johnson, and Arlene Straver. President of the class is Bert and pretty Joanne De Pisto, who hails from Berkeley Heights.

Mr. Regional candidates have been announced by Don Booker, senior class president. The five boys are Chip Skousen and Cas Wolowicz, Springfield; Bill Benner, Berkeley Heights; Pete Rupp, Mountainside; and Dennis Golcher,

### Colantone Loses Again To Stereo

The Springfield Sport's League held a "Bumper Night" on Wednesday, Oct. 29 and succeeded in tightening up the standings a little.

Stereo Sound Coporation narrowed the gap between themselves and front running Colantone Shoes by taking a pair of wins from the shoemakers. The last-place policemen almost got out of the cellar by winning twice from Bond Electronics. Lynn Decorators swept a series from Drexel Cleaners. Highland Metal won two games from Conte's Delicatessen.

Highland took high three games with W. Eick rolling a 501 series. Other 200 games included: B.

Kenilworth. Vojing has been changed, and now every senior will pose in his homeroom on the Friday before the dance.

Regional's dance band is proving that a school dance band can be successful. A small group of boys within this school band have formed a professional band of their own. This Nolan, a senior from Berkeley Heights, is a good example for he has done this, and his band is scheduled to play for the school's next social, the Senior Sports Dance on November 15th.

### Finicky Appetite Can Be A Problem

Preschool children often develop finicky appetites and become a problem at the table, says Mrs. Mary W. Armstrong, County Home Agent. They may want the same food meal after meal or refuse with regularity some important basic food, such as milk. Fortunately if this is not encouraged, the food dislikes don't always last very long.

A child must have the right food in order to grow and develop properly. It's important to help young children build good food habits as a foundation for life-long sound health.

Scotch Lace Wafers are an appealing item for old and young alike, that are easy to make as well as nutritious. And Apple Sparkle is a suggestion to give more oomph, as well as added vitamins and minerals, to plain gelatine.

**SCOTCH LACE WAFERS**  
1 package butterscotch pudding and pie filling  
2 cups quick-cooking rolled oats

minutes; add leftover beef roast in chunks-slices or shreds. Continue cooking in covered pan 40 minutes. Serve over rice, buttered noodles-or on sandwich buns.

1/2 cup chopped pecans  
3/4 cup (1 1/2 sticks) soft margarine  
1/2 cup sugar  
1 teaspoon vanilla  
Blend ingredients with fingers. Shape into balls the size of small walnuts and place about 2 inches apart on ungreased baking sheets. Flatten balls with a fork. Bake in a moderate oven (350° F.) 10 minutes. Cool on baking sheets, then remove carefully. Makes about 3 dozen.

**APPLE SPARKLE**  
1 package lemon or lime flavored gelatine  
1 cup boiling water  
1 cup fruit juice  
1/2 teaspoon salt  
1 large Delicious apple  
1 orange  
1/2 cup seedless raisins  
2 tablespoons lemon juice

A few walnut meats, broken

Dissolve gelatine in hot water. Combine juice from orange, lemon juice, and enough cold water to make one cup. Add to gelatine, stir well and chill. Put rind of orange through finest knife of food chopper twice. Cut or chop unpeeled apple very fine. Add chopped raisins and broken

walnut meats. When gelatine starts to thicken, fold in fruit mixture. Pour into individual salad molds.

**JOAN HOVIS**, a pretty little lady from Houston, Tex., plays "Eileen" in the Paper Mill Playhouse production of "Wonderful Town." The musical, based on the "My Sister Eileen" co-stars Jacqueline James and Ted Scott and will be at the Millburn theatre through Nov. 23.

**"Miss Universe"**

**In Amboys Film**

The former "Miss Universe," Christiane Martel, stars at the Amboys Drive-In Theatre, Sayreville, in "Adam and Eve" which will run through Saturday. "Naked Paradise" is the co-feature. Both pictures were filmed in color. On Friday and Saturday there will be the usual double bonus, an "Hour of Fun" before the features and the horrorama, "The Black Castle" at midnight. Sunday and Monday, Andy Griffith and Felicia Farr star in "Onionhead." The murder-mystery, "The Decks Ran Red," will also be shown. James Mason, Dorothy Dandridge and Broderick Crawford are in the cast. "Cat on a Hot Tin Roof" begins an eight-day run at the Amboys Tuesday.

**Chicken Heads Menu**

When is chicken not popular? The answer is "never." Tonight, why not try some this way. Use chicken breast or fryer, cut up. Dust chicken with ¼ cup flour. Brown in two- to four-tablespoons olive oil or other shortening to suit your taste. Blend one can (10½ ounce size) condensed tomato soup with one tablespoon Worcestershire sauce; pour over chicken. Cover and simmer about 45 minutes or until chicken is tender.

The black velvet stole is back in fashion—favor. Lined in white or red, it's ideal cover-up for autumn evenings.
