BE SURE TO PAY THAT 25-CENT PARKWAY TOLL.
Every newspaper especially weeklies—with no news gathering service at its disposal—enthusiastically welcomes items of interest from all sources.

The Springfield Sun is especially grateful. This is not being written in the nature of criticism. We do not want the flow of news items coming into the Sun office to cease.

However, we are taking the liberty of questioning the so called educational publicity policy of the various New Jersey State departments in releasing the names and addresses of individual citizens caught in their net of alleged violators.

The Alcoholic Beverage Control Division of the Law and Public Safety Department has a policy, as part of its educational publicity program, of sending typewritten charges to newspapers against any holder of a liquor license listing the alleged offenses in detail.

The Motor Vehicle Department issues a weekly list of driver's license revocations with names and addresses of the guilty ones.

We agree that this must have some value as a deterrent even though the highway accidents still fill the front pages and the Magistrates' Courts have calendars bursting with traffic violations.

There are other State departments issuing regular publicity releases—but we are now concerned with those pointing a finger at violators for everybody—especially their neighbors—to see.

The "INFORMATION" sheet that started this discussion comes from the Garden State Parkway, Office of the Director of Public Relations, and gives the name and address of a Springfield resident "WHO HAS PLEADED GUILTY TO A CHARGE OF FAILING TO PAY THE 25-CENT TOLL IN AN AUTOMATIC COLLECTION LANE ON THE GARDEN STATE PARKWAY."

The press note with this information states that the "Garden State Parkway officials are obligated to obtain 100 per cent compliance among motorists using the automatic collecting devices at Parkway toll areas. In the interest of sound, prudent business and in fairness to the great majority of motorists who pay their 25-cent tolls, Parkway officials seek to achieve complete compliance through educational publicity including reports of convictions of violators found in periodic spot checks of the automatic operations."

We are not convinced. What good purpose is served by the publication of the name of a citizen who has been charged with the heinous crime of not dropping a quarter in the automatic collection box?

Carrying this "fear of publicity idea" to an extreme, what interesting reading it would be if all the municipal, county, state and Federal sent such lists to the newspapers.

We're not attempting to "lead" for the Springfield citizen who failed to drop his 25-cent toll and was caught. Even the fact that he was arrested at 3:55 p.m. on Monday, June 15, and was fined \$5 and \$5 court costs on June 19, seems to be par for the course and it will, probably, teach a lesson.

But we hardly think that the preparation of the information sheet for the Springfield Sun, and the apparent suggestion that we print the news, carries out the fitting Gilbert and Sullivan idea: "Let the Punishment Fit the Crime."

WHO THOUGHT THIS ONE UP?

New Jersey is now back to the "low auto license number" and Trenton even tells you to "see your Senator." The Elizabeth Journal published by State Senator Robert C. Crane, smacks the idea with a Johansson right hand punch because there are a lot of headaches in the proposal.

"Whoever conceived the idea of a \$10 fee for a low-numbered auto license plate," stated the Elizabeth Journal, "undoubtedly saw in the offering a new source of revenue for the state. What he couldn't have expected, though, was the colossal headache that would resist the soothing offices of a mountain of headache pills. And for what?"

Once when the second World War was brewing its bitter tea a state official, alighting from his car at a parking lot, was attracted by a man staring at his low-numbered license plate. "Man!" said the onlooker, "how I'd love to have that number." He didn't realize it, but right about then he could have had "that number" at a most attractive price if the official had been empowered to make the deal.

The value of low license numbers is the biggest bit of nonsense that has been connected with motor vehicles since the late William L. Dill made the name New Jersey a national symbol for the best in automobile supervision. During the war and gas rationing, low numbers were a red flag fluttering before the majority of drivers. Let a state employ be abroad on the most urgent mission and it didn't spare him from accusing glares nor the inevitable letter of complaint that was apt to be back in Trenton before his return.

Nor does the low number, in peacetime, hold any particular worth aside from the self-flattery involved for a certain set among the drivers. The next time you go bowling along on the turnpike or the parkway and the speeders keep passing you, take note of how many carry low numbers. Once in a great while some driver, who, for services rendered to the State of New Jersey, has been given a justifiable distinguishing number, may be guilty of speeding. By far the majority of low-numbered speeders are the show-offs who have somehow obtained recognition they don't deserve and who will pay any price now to be singled out as a "big shot."

Whether it is generally understood or not a low number driver is the one most likely to be held accountable in matters of law observance. To be the citizen who must uphold the law, right down to the last comma, or buy a heavy penalty. Others in a hurry may take chances but he must remain the law-abiding citizen, not only because his plates attract more than ordinary attention, but because of the number of drivers who delight in reporting infractions by any one they regard more favored than themselves. And always, it seems there must be that element among notice of various communities who take a very special delight in embarrassing the low-numbered motorist.

Maybe we have copied the ideas for the \$10 low-number fee from New York or one of our other neighboring states. We were better off when the other states were copying from the rule book of the late Judge Dill. Setting up a bargain basement for special plates is a mistake. A low number is a sitting duck on any pond of traffic. We'll take the luck of the draw.

HOW MANY WILL RETURN HOME?

Nearly fifty million motorists will be taking to the road over the Fourth of July weekend. Some will not return alive. Thousands more will return eventually, but it will be a long and painful route by way of the country's busy hospitals.

The Institute for Safer Living of the American Mutual Liability Insurance Company estimates a high 470 highway deaths over the three day holiday weekend. The principal reason, according to the Institute, is that there are thousands more cars and drivers on the road than a year ago.

Former Mayor Sees Politics In Sewer Job

The controversial Shunpike storm sewer matter may not be as alive this week as it was before the Township Committee unanimously approved a construction ordinance at the last meeting—but the bitterness still lingers on.

Township Committee member Albert G. Binder, former Mayor under the Republican controlled governing body, let go with both barrels at Mayor Vincent J. Bonadies and his Democratic colleagues before finally voting on the ordinance.

Former Mayor Binder issued a statement prior to his vote on the sewer project, stating that "my position in regards to this ordinance may sound contradictory, in relation to what has taken place during the past six months, however when I am placed in a position that I must make a decision based on my personal reactions, versus the general welfare of the town, then I humbly submit to that which will do the most good, for the most people."

"This Shunpike Sewer Ordinance falls in this category inasmuch as the installation of this storm sewer will drain directly and indirectly a large area of Springfield, and not as has been so flagrantly misrepresented as a benefit to a specific development."

"Need-Is Same
"The objections and the objections to the original ordinance, sponsored by my illustrious colleague, Mr. Bonadies, questioned the need and the layout of the original plan, which incidentally, is the same now as it was then. The original projected plan, as developed by prominent hydraulic engineers, including our own township engineer, was criticized and even ridiculed in public, as too ambitious, too extensive, not necessary and waste of public funds."

"I venture to say that, if the developer of the Balmoral tract had made his original application to drain their development into the Henshaw ditch that it could have been approved without any expense to the town or county, and with a relatively small cost to the developer, a cost much less than their original or present contribution. I wouldn't go for that then, nor would I go for it now. I am gratified to see that the original plan to provide drainage for thousands of acres has been retained in spite of some agitated opposition."

"The governing body at the time adopted the original ordinance with the full knowledge of political reprisals staring them in the face, and for that foresight, I say they are to be commended. What was anticipated came to pass, and in the reported words of a desperate politician—and I quote, 'we had to have a political issue, so we manufactured one.' So the members of the then Township Committee, together with the developer, were summarily vilified and crucified throughout a political campaign and encouraged a taxpayers' suit. If that's what it takes to stay in politics, then I am glad I am getting out."

"The litigation in the court has dragged on—and on. Thousands and thousands of dollars have been squandered on legal and other fees. The attorneys for both sides are the sole beneficiaries, and so a face saving formula had to be devised before both taxpayers and private interest lost their patience, and called a halt to the entire display of prolonged pyrotechnics."

"Few Favored
"So, now a few favored individuals have worked out an agreement which I presume is mutually acceptable. I call your attention to the words 'few favored individuals.' This agreement was hammered out by one or two members—only of the Township Committee, with attention. (Continued on page 2)

Town Gets Low Bids To Build Shunpike Sewer

Bids received for the construction of the new Shunpike storm sewer at the last meeting of the Township Committee were much lower than those submitted when this project was first proposed last year.

The committee voted to hold the three lowest until the July 8 meeting. They were submitted by Kenneth J. Brenn & Son, Summit, \$121,990; LaFera Contracting Co., Newark, \$124,578.50, and Petrolz Brothers Inc., South Orange, \$126,360. All are within the \$130,000 provided under the ordinance.

Jeffrey is to contribute \$60,000 toward the cost, the Board of Freeholders, \$50,000, and the township, the remainder.

A contract for paving the Municipal Parking Lot at Morris and Mountain Aves. was awarded J. Cossou & Sons of Maplewood on a low bid of \$9,027. The Lancaster Electric Co. of 23 Alvin Ter. was given a contract to provide floodlights for the lots. The cost was given as \$2,364.

The committee directed the township attorney to prepare an ordinance to rename two streets. A section of Mountain Ave. between Fiemer Ave and Morris Ave. would be renamed Caldwell Pl. according to plans and Fiemer Ave. would become a continuation of Mountain Ave.

REAPPOINTED Harry E. Monroe of 447 Melrose Avenue, was re-named to another four-year term as a member of the Board of Assessors at last Wednesday's meeting of the Township Committee. His new term started yesterday, Wednesday, July 1.

Girls' State Reps Home From College

Newly returned from New Jersey Girls' State activities at Douglass College are Miss Joyce Harrison of 175 Short Hills Avenue and Miss Carol Marano of 301 Northview Terrace who were sponsored by the Springfield American Legion Auxiliary.

Local Girls' State Chairman Mrs. William J. Doyle stated that this year the members of her organization had decided to give two girl representatives the benefits of this experience in the study of citizenship and government at all levels in our democracy.

There were 324 girl representatives. They divided themselves into six mock cities, three mock counties and two political parties. They also elected municipal officials to govern during the week.

Miss Harrison was elected as a councilwoman of Jackson City and Miss Marano held the office of City Clerk of the same fictitious city.

The decision on the application of Joseph A. Pinkava for permission to raise his present garage at Morris and Mountain Aves, and to construct a modern Colonial style service station—was reserved. Pinkava said the present building, 48 years old, obstructs the view of traffic at the intersection and that the new building would be 50 feet from the corner.

The board granted the application of Terence T. Dempsey for a variance to alter a one-family house at 658 Morris Ave. for use by two families. The property is in a general business zone and the (Continued on page 2)

Arrange All Day Program For July 4th Celebration

Springfield will celebrate the July 4th holiday this Saturday with a full and interesting 9 A.M. to 9 P.M. program.

Starting with an aerial salute at 9 o'clock, the morning and afternoon program will be held in the rear of the Regional High School while the evening show, the big fireworks display and the music will be presented at the Meisel Avenue Field.

Members of the Civic Air Patrol will be in charge of the parking of cars and will also assist in the handling of the crowds throughout the day.

In the event of rain on Saturday all events will be cancelled, according to members of the July 4th Committee. The fireworks display will be held Monday evening, July 6, or the first clear night thereafter.

Saturday will mark Springfield's 11th consecutive July 4th celebration and the committee in charge of the arrangements this year looks for large crowds throughout the day.

Bacharach And Apgar Win Legion Auxiliary Awards

Blame it on the heat, the humidity or just the rush of getting the schools in the Township closed—but gremlins raised the "dickens" with the stories on graduates and award winners in last week's issue of the Springfield Sun.

The article on the graduation awards at the Florence M. Gaudinier School which came to the Springfield Sun from the school officials did not give the correct information.

Tracy Bacharach and John Apgar were actually awarded the American Legion Auxiliary Character, Citizenship, Honor and Courage Scholarship. THIS WEEK

(Continued from page 1)

Many of the new drivers taking to the road during the past 12 months lack the skill, caution and experience to keep them out of trouble in highly congested traffic.

A large share of holiday traffic accidents actually have their beginning well before the victims leave home, the Institute asserts. Here's why:

- (1) Lack of proper trip planning, and failure to allow enough time for reaching destinations and returning.
- (2) Failure to allow for adverse weather or other driving conditions.
- (3) Drinking before or during the trip.
- (4) Failure to put the car in top operating condition, especially tires, brakes, headlights and windshield wipers.
- (5) Starting the trip tired or in below-par physical condition (holiday driving requires top physical reactions and alertness).
- (6) An upset mental condition on the part of the driver such as: anger, depression, lack of patience and the like.

So start your personal safety campaign well ahead of your holiday drive. It will go far toward helping you to avoid the fate of the unfortunate. And for double insurance against accidents, plan to drive every mile at moderate speeds, in keeping with road traffic and weather conditions. The editor wishes you a happy, safe holiday and hopes that you will be reading our pages next week.

area is less than the required 1,000 square feet per family.

Mr. and Mrs. Martin Kovar received approval of plans for construction of a one-family ranch-type dwelling at 561 Mountain Ave. The property has a frontage of 50 feet, 10 feet less than the required amount.

Irene's Gardens, 32 Springfield Ave., was granted permission to use the front yard for display of a pool. A variance granted Feb. 23,

1956, gave the firm permission to erect the pool.
Donald J. Lusardi received a variance to maintain a 4.77-foot side yard on property at 32 Kew Dr.

The board denied the application of Robert Allen for a variance to erect a professional building and apartments at 539 Morris Ave. The applicant proposed to construct two buildings with three offices and three apartments. The area is a limited business zone where no residential uses are per-

mitted.
Gebhard Pirker of 105 Henshaw Ave. was denied permission to alter two lots at 109 and 113 Henshaw Ave.

The July and August meetings will be combined and will be held July 30, the board decided.

Former Mayor

neys all over the lot, in cellars, in law offices, in restaurants, and heaven knows where else. It was negotiated everywhere, but in the town hall and before the full Township Committee.

"I have been in government over eleven years, and in all my experience, this is the first time negotiations for agreements on such a major project as this was not discussed in all its stages with the full membership of the governing body being invited to attend, regardless of political affiliations.

"Under the statutes a Township Committee form of government consists of five (5) members all of whom are representatives of the people, and each of whom have equal responsibilities. This committee is fast moving away from this concept of government, and compared to a city manager form of government, which the people of Springfield rejected, that form would be a Democracy against what we are now experiencing.

"You will more than likely be told that I, with other members of the Committee, could not be included in the negotiations for the agreement of this sewer project, because I quote, 'You are a party to the litigation.'

"Now, I am not an attorney, nor do I profess to assume the super knowledge of that learned profession, but I will wager that even Judge Hetfield, in whose court this suit is pending, would flip his bench, if he thought that he or any other lawyer would assume the powers of a Township Committee to negotiate town business, which under the statutes is primarily our responsibility.

"Now I would like to refer to the agreement, which is the basis of this ordinance, and the changes that brought about such an agreement between all parties concerned. You must realize, of course, that the major portion of my knowledge as to what transpired up until two weeks ago came from other members of this committee; off the record course, from street corner gossip and from other interested parties to the agreement.

"The original ordinance called

for contributions of \$50,000 from the county, \$20,000 from the developer and the balance up to \$80,000 from the Township of Springfield. In addition, and I repeat—in addition, the developer also originally agreed in the ordinance that was rescinded, to deed to the Township 2 lots for recreational purposes. These 2 lots were estimated to be valued at \$15,000 and we could have taken the cash in lieu of the lots, but we choose otherwise. Therefore, the total contribution from the developer was \$35,000 or \$25,000 less and not \$40,000 less than this present agreement. Whether these 2 lots for playground purposes were more important than the cash, the residents in the area must ultimately decide.

Loss To Taxpayers

"Let me carry on my reasoning, and you be the judge as to what you have gained under this agreement. Eight months have passed since this development would have been started under the original ordinance. With the passage of this revised ordinance another 3-4 months will pass before the first of the five homes will be completed and occupied. In other words, over a year will have elapsed, and as a result tax dollars lost, due to the 'manufactured issue' which delayed this development. This means the town will have lost between \$40,000-\$50,000 in tax dollars, which would more than offset the pound of flesh, which the negotiators have so gleefully referred to as 'a good thing for the town.'

"I apologize for taking up so much of your time to review the true status of the past and present facts relating to this project, but I too have burning interest in the welfare of Springfield, as well as my illustrious colleagues.

"While I would have preferred to see a selected business establishment on this Baltusrol tract, because in the long run, in my opinion, that would have enhanced the general welfare of the area and the town at large many times over a residential development, nevertheless I am happy to see this project become a reality, and especially so under the control of a highly reputable developer, who I am sure will build, develop and complete a residential area of which we can all be proud.

"In view of this reasoning, and in order to get this all important drainage project under way, I voted 'Yes' on the motion to adopt this ordinance.

details regarding the Fabel family but a further study of the enclosure gives Mayor Bonadies some doubt that this is the Springfield where the Fabel family settled back in 1881.

It speaks of a "Springfield with a railway station in 1869. That Philip Frederick Fabel, born in Magdeburg in 1836 and emigrated to Springfield in 1881. He was a gardener and established himself just outside of Springfield. This Fabel died about 1895 and the singing club (Gesangverein) of Springfield gave him a big funeral. . . All the Fabel family were Protestants. Could you find out which church they might belong to?"

Mayor Bonadies is doing a little interesting research on his own but no records have turned up as yet to give him any clues as to the Fabel family in Springfield.

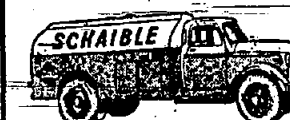

Letters to Editor

Editor, Sun:

From now until the end of summer there will be beauty contests throughout the state. Why not get together with the Chamber of Commerce and jointly sponsor a "Miss Springfield" and "Mrs. Springfield" contest? Why couldn't they be crowned on the Fourth of July or on Labor Day? We had one a few years back but apparently interest died? Couldn't we awaken it again?

"Laugh" Contest At Olympic Park

People who like to laugh—and do so easily—have been invited to enter the area's first full-scale laughing contest, to be held in July at Olympic Park, Irvington-Maplewood, N.J.

The purpose of the contest is to find the persons with the heartiest and most infectious laughter. Laughing champions among men, women, teenagers, and children will receive free prizes. Contestants will be required to

start laughing within ten seconds after a specified signal. They may each have a "helper"—a friend who makes funny faces or says something funny. Laughter will be judged for quality, as well as loudness and duration.

"What this country and the world need is more pure, joyous, and uninhibited laughter," says Robert Guenther, Olympic Park president. "Nowadays, people have to be practically bombed into laughter by high pressure comedians."

"If Gromyko, Herter, and the rest of the diplomats started each

serious session with five minutes of senseless laughter, and if all the rulers of the world took a few minutes of each hour just to laugh uproariously at nothing in particular, the world would never have to worry about another war," the amusement park executive concluded, chuckling to himself.

Those interested in laughing their way to fame via the contest should contact Bob Abrams, Special Events Manager, Olympic Park, Irvington-Maplewood, N.J., ES-3-1400. The park is New Jersey's largest amusement area.

Warren Scores In Lead At Papermill

Winning a personal triumph nightly in his current role of Charlie Dalrymple in the musical hit "Brigadoon," currently at the Paper Mill Playhouse, Millburn, is Jeff Warren. Mr. Warren was born in Wagner, S.D., on the edge of an Indian Reservation where, when he was old enough, he played cowboys and Indians with the Indian children. He later moved to Minneapolis, where he finished his regular schooling and then attended the University of Minnesota, majoring in drama and music. There he appeared in numerous plays, concerts, and oratorios, as well as with the Minneapolis Symphony.

"Kind Sir" Opens Grist Mill Monday

ANN SHERIDAN, one of Hollywood's most popular stars, will make her first stage appearance in New Jersey in the principal role of Norman-Krasna's comedy, "KIND SIR," which will begin a week's engagement at the Grist Mill Playhouse in Andover, New Jersey, on Monday evening, July 6th. Appearing opposite Miss Sheridan will be Scott McKay, who appeared on Broadway in a leading role in "Sabrina Fair," with Margaret Sullivan and Joseph Cotten, and was co-starred with Burgess Meredith in the national company of "The Teahouse of the August Moon."

Miss Bachelorette Contest On July 11

The National Bachelorette Organization, with headquarters in New York City, will sponsor a brand new contest on beauty, to be held twice monthly at Olympic Park beginning Saturday, July 11th.

The contest is under the direction of Gary Wagner, one of America's foremost commercial and publicity photographers. It seeks to find the most beautiful girl in America—the typical "Miss Bachelorette."

The bi-weekly winners will be eligible to compete in the finals to be held on Labor Day at the Park. At that time, a number of important prizes will be awarded. They include a complete "photo sitting" at the Wagner International Studios. Mr. Wagner will help launch the lucky winner on a career in commercial and television modeling. Other prizes include a complete sportswear wardrobe, and a possible motion picture screen test.

Margaret Fuller Awarded Citation

Miss Margaret Fuller, a senior at Jonathan Dayton Regional H.S., has been named as the school's "Business Student of the Year" by the Newark Chapter, National Office Management Association.

The award cites her for her outstanding business qualities and exceptional achievement in the field of business education. The National Office Management Association is a professional organization of 18,000 office executives who make this annual award to recognize outstanding business students and to stimulate interest in the youth of America toward a career in business management or business teaching.

It took archaeologists eight years to extract all the fabulously rich contents from the tomb of King Tutankhamen after it was discovered in Egypt in 1922.

Pat O'Brien Stars In Summer Stock

Hunterdon Hills Playhouse is opening on stage with Pat O'Brien in "The Loud Red Patrick" for the 4th of July weekend.

It is appropriate that Pat O'Brien, in a real fireworks kind of play, should be selected for the celebration of Independence of the U.S.A. in this production at Hunterdon Hills Playhouse. It is rumored by a certain Mr. O'Brien that Patrick like George M. Cohan, was born on this great American day.

Pat, being a real shy Irishman, always marvels at so many people celebrating his birthday every year.

But Pat, also being a genuine man, kindly gives all his blessings and promises to "shoot the works" in his and the Hunterdon Hills Playhouse special 4th of July celebration.

"The Loud Red Patrick" will open on Tuesday June 30th and run through July 5th.

Space Thriller Film At Loews

The possibility of intelligent life on asteroids which are the shattered remnants of a once great planet, and the thrill-packed story of what happens when such a race of thinking beings sends a fleet of space ships to earth to take over our planet by force is dramatized in "The Mysterians," a new MGM release in wide-screen and color, opening at Loews' Wednesday with "Watusi" — the latter is a color adventure story starring George Montgomery.

A generation ago, the story of "The Mysterians" would have been dismissed with a shrug as simply the pipe-dream of some science-fiction writer. But just as Michelangelo was sneered at when he predicted that man would some day fly through the air in heavy machines, and Jules Verne was called insane when he wrote about submarines and rockets to the moon, so today our leading scientists see no reason for denying that intelligent life forms could very easily exist on other planets!

Realty Sales Soar To New May Record

William Maidment, executive secretary of the Westfield Board of Realtors, announced today that May 1959 Multiple Listing sales totalled \$1,305,500, breaking the all-time sales record of the Board for the second consecutive month. This sales achievement for May exceeded the previous record set in April 1959 by over a quarter million dollars.

The multiple listing operation, the secretary said, now in its tenth year in the Board area of Westfield, Fanwood, Scotch Plains and Mt. Pleasant, has reflected a steady gain each year since its inception in 1949. A gross figure of well over ten million dollars in multiple listed properties should be assured for 1959, Mr. Maidment said, as compared to a sales figure of nine million in 1958.

Hollywood Palace, where Mary Queen of Scots, lived and ruled during the 16th Century, still stands in Edinburgh.

Tumbling Act Stars

Circus enthusiasts are now witnessing what is possibly the greatest act ever to appear at Olympic Park—the sensational Wazzan Troupe. The troupe, which specializes in pyramid building and tumbling, have just completed a two month engagement at the famous Latin Quarter night club in New York and have made numerous appearances on the Ed Sullivan Show. The French Moroccan group uses absolutely no gymnasium equipment.

Park Museum To Show Film On Virginia

A film showing events and places which hold important nich-

es in the history of Virginia will be shown at the Union County Park Commission's Trailside Museum, Watchung Reservation, this Sunday (July 5), at 3 p. m. Admission to this special program is free.

In addition, Trailside Museum, which displays over a thousand

indoor and outdoor exhibits is open to the public, free of charge, every day except Fridays, from 1 to 5 p. m.

During the week, anyone desiring to gain a more intimate knowledge of the natural life of this area may attend any of the half-hour Nature talks conducted by Dr. Harold W. Moldenke, director of Trailside Museum, at 2, 3 and 4 p. m., Monday through Thursday.

On Wednesdays and Thursdays, however, Dr. Moldenke has set aside and reserved the 2 p. m. program as a "Children's Nature Hour." During these special pro-

Week Features Pitching, Springs Near Kellers First

Two one-hitters, pitched by Nick DeFronzo of the Braves and by Kellers' Rich Tomasetti were the week's feature of the Berkeley Heights Softball League.

Harry Pappas struck the only safe hit off DeFronzo—a solo home run—as the Braves moved into a tie for third place by defeating Reheis 4 to 2. The winners bunched two-of-three hits allowed by DeFronzo to produce a three-run second inning.

Tomasetti yielded only a bunt single in the third as Kellers shut out Turkeytown 8-0 and held on to first place ahead of Sulphur Springs. Homers by Sullivan and Zichichi along with a five-run sixth inning accounted for the winners' runs. Tomasetti, meanwhile, mowed down a dozen Turkeytowners on strikes and walked only one man to gain his fifth win of the season.

Sulphur Springs nosed out Reheis Tuesday evening 6-5 to trail Kellers by percentage points

in the battle for first place. John Della's two-run homer in the first inning and a two-run rally in the second gave the winners a lead which they held despite repeated threats by Reheis, including Joe Selegna's fourth inning four-bagger. Bud Cox won his seventh game, while Selegna was charged with the loss.

Statistics for the season follow: Berkeley Braves 4, Reheis Company 3, Kellers' Grove 8, Turkeytown A. C. 0, Sulphur Springs 6, Reheis Company 5.

From Our New Social Editor To Our Public

LET'S GET ACQUAINTED

First may I introduce myself to all the readers. Some may know me by sight, others connected with a uniform I wear and still others know me only by name.

Doreen H. Krevetski, formerly Mrs. Fenske, a resident of the Horseshoe road area since July, 1935.

From Berkeley Heights

I attended Columbia School when the original stuco portion of the school was the only school, when one school bus was used for all transportation—needed and it only made one trip.

I graduated in 1938 at Columbia

School's first out-door commencement. My name then was Doreen Wilhelm. We were proud then just the same as this year's graduating class is. From there I travelled through the doors and hallways of Jonathan Dayton Regional High School to complete the commercial course and graduate with the class of '42.

School Policewoman

I have just completed my fourth school year as special policewoman with our local police department. My usual post is at Berkeley School entrance where I not only cross the children, but dust off a few dusty clothes and bruised knees suffered in falls, tie shoes or remind the wearers to do so, remind stragglers of the time, chase the dogs home who followed their masters and mistresses to school, look at turtles and other exhibits being taken or brought home from school. A glimpse into the eyes of our youngsters reveals the sadness or laughter they are experiencing at the moment and I enjoy every minute of it as they

Doreen Krevetski are our future Berkeley Heights. I also am on call and have worked in the past as police matron. This past year I have been fortunate enough to supervise eight other policewomen guards. A more friendly group of women cannot be found. We not only work together but we enjoy our leisure hours together too, occasionally.

Newspaper Woman

I formerly was staff correspondent with the Plainfield Courier News, a position I found challenging and interesting.

Home-Spun Interests

My interests do not travel far from home. I like gardening, flowers and vegetables, in fact anything that grows, except the weeds and mine seem to flourish on the hot dry weather just fine. I like animals—in fact our house could be called a small animal village—cats, dogs, hamster, parakeet, fish, kittens, turtles that return year after year, etc. Reading, crocheting and bowing also interest me plus cooking.

I have a sixteen year old son Walter E. Fenske who will be entering his junior year at Regional in September. His interest of course runs in cars and trucks and what's under the hood.

How to Find Me

I would like to make this column one that every reader looks forward to reading so let's all become acquainted. Call me at CR. 3-7179 if there is anything, birthdays, anniversaries—births, weddings, vacations, parties, which your neighbors would like to know about.

So come on folks lets hear from you. I enjoyed my chat with you now it's your turn—call me soon.

Social Notes

Just a couple of notes this week as a day was all I had before our deadline.

Mrs. Adele B. Oswald, of Diamond Hill road, is improving in Overlook Hospital. She was transported to the hospital Sunday, June 21, by the Berkeley Heights Rescue Squad.

Patricia Smith, nine year old former Berkeley Heights resident, is progressing satisfactorily in Muhlenberg Hospital. Patricia suffered second and third degree burns of the body in May in an accident at home. Patricia would love to hear from her former

Twig Card Party Is A Success

A card party was held by Twig Group 1 of Berkeley Heights, on Wednesday evening, June 24, at the home of Mrs. Robert Handler. Seventeen members were present and after refreshments were served, an evening of bridge and canasta was enjoyed by all. The winners at bridge and canasta were Mrs. William Jamison and Mrs. Joseph J. Sott, respectively.

friends in the town in the form of cards to help her pass the long period of hospitalization ahead of her.

Name for Column

Before parting for this week I was wondering if the readers would mind helping me choose a name for the column. "Two heads are better than one" and in this instance the more the merrier to choose from.

Let's not say good-bye just so long till next week. See you then but let me hear from you soon.

Rutgers Awards Nursing Degree To Nancy Manner

Nancy Manner received an Associate in Science Degree from Rutgers University College of Nursing on Sunday, June 28. Nancy, who is eligible for examination for State Licensure (R.N.) will return to Rutgers in the fall to work for the Bachelor of Science degree.

At Rutgers, Nancy has been a scholarship student, and next year will serve a secretary of the Student Council.

Nancy was one of eight classmates who completed work for the degree. The class began two years ago with 20 members. Nancy, the daughter of Mr. and Mrs. Arthur A. Manner of Plainfield Avenue, is one of four students of the

nursing class, who will continue at Rutgers for B.S. degree.

In the old days, when swords were carried, it was the custom to extend the right hand to indicate a friendly feeling and to show that there was no sword or knife therein for attack. Thus began the custom of handshaking.

Local Rotarians Attend Confab

The Springfield Rotary Club was well represented at the International Rotary Convention held in New York City, June 7-11.

The local club reserved rooms in the Commodore Hotel for the convenience of the local club members attending.

Harold T. Thomas of New Zealand was elected International Rotary President. Some 26,000 Rotarians were in attendance. As of May 28, 1959 there were 10,212 Rotary Clubs and an estimated 477,000 Rotarians. 348 of these clubs have been formed since July 1, 1948.

New officers were installed at Rotary's noon meeting this week: President, Carl Jelen; Vice-President, Dan Murray; Secretary, Marvin Gould; Treasurer, Pete Smith.

Directors elected were Felix Forlenza, Ike Freedman and Ray Bell.

Those serving on committees for the new year will be: Will Binder, Dan Murray, Bob Muenen, Ben Newswanger, Larry Rogers, Mel Horn, Marve Gould, Bob Davidson, Virgil Mabry, Ludwig Stark, Norwood Van Ness.

New members elected recently are—Bernard Borus, Insurance, Casualty; and Jack Trommator, surgical instruments manufacturer.

Mr. Leo R. Welch, Asst. Chief of Bureau of Traffic Safety, Division of Motor Vehicle, Department of Law & Public Safety spoke to the club on the topic, "Traffic Safety in New Jersey." Mr. Welch spoke of the pleasures and problems the automobile and their drivers have created. He stated that local municipalities play an important part in this whole picture by providing adequate parking, proper traffic lights, uniform speed zones, etc. A lively question and answer period followed which was informative and helpful.

Next Tuesday, July 7, 1959, the speaker will be Col. Howell L. Hodgskin, Deputy Coordinator of Civil Defense and Disaster Control for Union County. Col. Hodgskin will speak on Civil Defense—The Community and the Family.

NOTHING TO BUY Ask for Free Entry Blank every time you visit your Acme... enter as often as you like... you may win!

HOW TO PLAY

Read the "Hint Across" and fill in the words you think fit best on the official entry blank. Do not use words that are not in the dictionary. Do not use words that are not in the "word list" box. Check in your dictionary all the words given to be sure you use the correct word to fit the meaning in the hint. Use the letter or word apt word fitting the hint. No entries in envelopes accepted. No purchase is required.

To be eligible for the Bonus Prize, have the Acme Markets' cashier stamp your entry blank, when you purchase 1, 16 oz. can Ideal Park & Beans or 1 lb. Lancaster Brand Frankfurters.

The hints numbered 1, 2, 3, and 4 must be correctly answered before the rest of the puzzle will be judged. Winners and correct solution will be posted in your Acme Market. Entry blanks for Game No. 3 must be received by 8:00 A.M., Monday, July 13, 1959.

Correct solutions can be held in sealed envelopes by the New York Trust Company, New York, N. Y. Patent applied for. Copyright 1958-1959 by Words, Incorporated.

JUDGING

All judging will be done by the Reuben H. Donnelly Company, a nationally known contest judging organization, and their decisions are final. This is a contest of skill with only one correct solution.

A prize will be awarded to the contestant with the most nearly correct solution. Thirty 2nd prizes will be awarded and 386 third prizes to contestants in order of the correctness of their solutions.

Ties will be broken in favor of the contestant with the correct solution to the first hint, then the second, the third, etc., until the tie is broken. If a tie still exists, the contestants will be sent a new puzzle to solve; however, we reserve the right to issue duplicate prizes in event of ties. In case of a tie for first place, those not receiving first prize will receive second place prizes. The same system will be used for 2nd place ties. Anyone may play except employees and immediate families of Acme Markets, Words, Inc. and Reuben H. Donnelly Company. Unassigned or illegible answers will not be eligible to win a prize. All entries become the property of Words, Inc. Only one prize per week will be awarded to any one family. Winners prizes to permit the use of their names and pictures by Acme Markets for trade and publicity purposes.

Three PTAs To Cooperate On Annual Fair

A joint meeting of the Ways and Means committees and the presidents of the three Parent Teachers Associations of the Berkeley Heights Schools met Wednesday, June 24 to discuss plans for the annual PTA Fair.

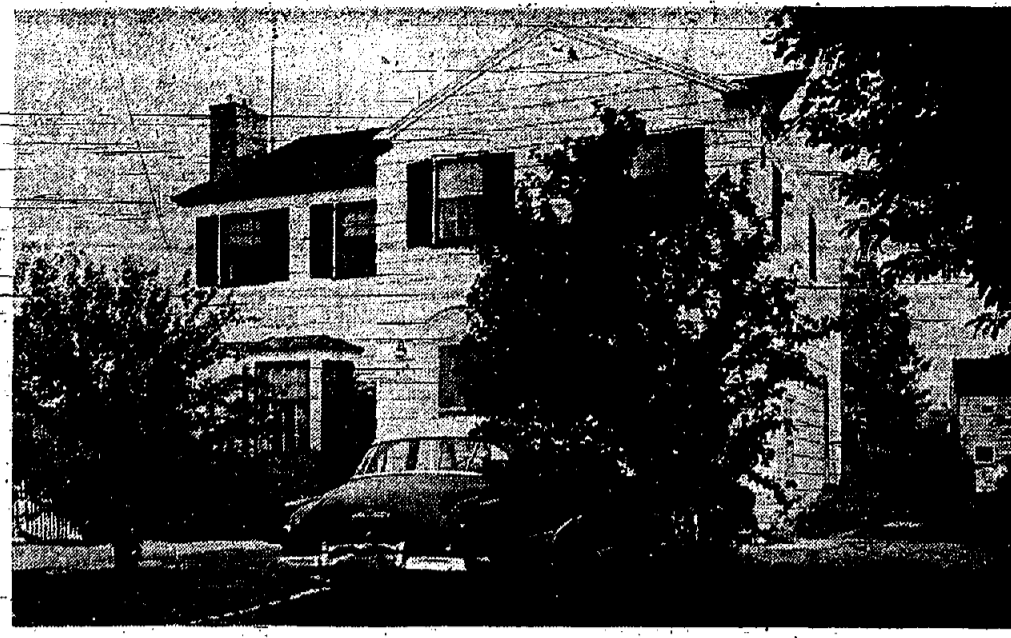

The 1959 fair will be a joint effort of three schools and proceeds will be distributed equally among the associations.

The meeting of the Ways and Means committees was held at the home of Mrs. Frank Hotz.

Mrs. David Deland, president of the Berkeley School PTA was elected chairman of the joint committee. The committee is looking anxiously for women who sew. Please call CR. 7-0428.

With the experience gained in last year's fair at Berkeley School and in the many successful fairs in years past, and with the large and capable group formed of the Ways and Means Committee of the three schools it is hoped that this year the fair will have more booths, more entertainments, and more fun for children and parents than ever before.

"The Horse Fair," by Rosa Bonheur, is said to be the largest canvas ever executed by a painter of animals.

He's got a long way to grow—guide him carefully

Who says it's a small world?

Not a little fellow. To him it looks awfully big. And how he grows to face it depends on you.

Teach him well. Teach him Love. Love of God and his fellow man. Let him see it in your daily life. And he will grow — loving and loved.

Teach him Respect. Live in such a way that he can respect you. Then teach him to respect others and that which belongs to others. And he will grow — seeking not to destroy but to build. And he himself will be respected.

But above all, teach him Faith. And he will gain a strength that will not fail him. Teach him Faith and it will add to his happiness. Teach him Faith ... and he will never be alone.

Give him this legacy ... Love, Respect, Faith. And will grow in strength to be a man.

Legion Ladies Are Cited By Child Welfare

A special citation was awarded by the Save The Children Federation to the Springfield American Legion Auxiliary. In conjunction with its Child Welfare Program, the local Auxiliary, under the chairmanship of Mrs. Joseph Natiello, Jr., collected approximately four hundred pounds of used clothing which was shipped to our Southern States.

According to Jesse Stuart, one of the nation's leading poets, "Many Americans were shocked to hear of children in the American Southern Mountains who walk to school, barefoot in the snow." Mrs. Natiello stated that this clothing is made available to these people at Save-The-Children Federation Clothing Centers located in Kentucky, Tennessee and Virginia. Thousands of pounds of clothing are also shipped overseas each year, and additional clothing is stockpiled to meet emergencies, at home and abroad.

Miss Anne Sigler, sister of the bride, was the bridesmaid.

Capt. M. Brandt-Pennant USA, brother of the groom, was best man. M. Mead Montgomery of Chicago was usher.

The bride graduated in June from Cornell University where she was a member of Alpha Theta sorority.

The groom graduated in June from the U.S. Military Academy at West Point. His first duty station, where the couple will take up residence, is Fort Sill, Oklahoma.

YOUR LIBRARY

As the Fourth of July, the last of the great patriotic holidays, rolls around it is good to think back over the history of our country. It is a very short history as compared with the whole of man's past, but the events which make up the whole abound in vitality and variety.

Naturally on this day we think first of the day itself when our Declaration of Independence was signed. Many books have been written about that great day. "Four Days in July" by Lengyel and "July 4, 1776" by Chidsey are the two outstanding ones.

This day, "The Fourth," follows very closely other patriotic days, especially the Battle of Springfield which already has been remembered on June 23. Our own special day took place almost four years (1780) after independence had been declared, and marked the end of conflict in New Jersey. This year the Chatham Historical Society has reissued "History of Chatham, New Jersey" by Ambrose Ely Vanderpool. This book was never widely circulated because only six copies of the first edition were printed. It tells a great deal about the early days of Springfield and throws much light upon the events which took place in our own neighborhood during the Revolution. A great many books about this stirring event will be found in the Springfield Library.

Squad Will Show Film On Poisons

Springfield residents are invited to attend a special showing of a film entitled "One Day's Poisons," to be held on Thursday, July 9 at 8 P.M. at the Springfield First Aid Squad headquarters on North Trivett Street, Springfield.

This interesting and dramatic 30 minute film is being offered by the squad as a public service to town residents to better inform them of the dangers of every-day poisons and proper procedures to take should a poisoning accident occur in the home.

According to a squad spokesman, the film will be of particular interest to parents of children under 5 years of age where the possibility of accidental usage of poisons is most likely. It deals with such around-the-house poisons as kerosene, aspirin, cleaning fluids and other drugs. It also shows the role played by Poison Control Centers throughout the country.

Accounting Confab.
Among those attending the 40th International Accounting Conference of the National Association of Accountants held last week at the Waldorf-Astoria in New York City were Mr. and Mrs. Rudolph J. Stropm, 17 Midvale Drive, Springfield. Mr. Stropm, who is treasurer of Newark Buick, Inc., is outgoing President of the Newark Chapter.

Another famous event is commemorated in July, the Battle of Gettysburg. Those few days in 1812 have likewise been retold in many books and whole libraries written about the Civil War.

When an approach is made to that period which many now living still remember, there is no better guide than Harry Golden's witty book "Only in America". This is made up of a collection of columns which appeared in the "Carolina Israelite". These are so revealing and entertaining that they may be called a history of our time. The title has been adopted for the collection of books displayed in the hallway of the public library of Springfield to commemorate the Fourth of July holiday and remind us of many events which could take place "only in America."

In order to give an idea of the varied books in this collection, a list of titles follows:

Trojans Win Pony League Play-Offs

by Johnny Farrar

The Pony League playoffs were played at two o'clock at Columbia field last Saturday. The Rebels, with a previous 5-1 record, tangled with the Trojans, with a previous 1-5 record. The two finalists played the necessary seven innings with the Trojans winning 6 to 4.

Through the excellent pitching of Artie Thomas who struck out ten and walked only two, the Rebels couldn't get many runners on base. Jack Weiss and John DeLuca pitched for the Rebels.

120 Township Youngsters Taking Swimming Lessons

The Springfield Recreation Commission and the local Red Cross Chapter started its annual summer campaign to teach swimming to 120 youngsters from the Township, the first group of kids being transported to the Rahway pool a week ago Monday, June 22.

Swimming lessons will be available to Springfield boys and girls all summer and parents are urged to contact the Recreation Commission at the Municipal Building for any further instructions.

Local Man Rescues Sinking Driver

A Springfield man saved a woman from sinking into a West Orange lake Sunday.

Tony Wunderlich of 18 Crescent Road was visiting in Cecil Lane Place when he saw a car back down a steep slope and plunge into Lake Vincent in Fairmount Memorial Park.

The woman in the car, Mrs. Celia Saffis, 64, was stuck in the car which was three-quarters submerged in the lake and sinking into the mud. Police say she was unable to get her door open.

Mr. Wunderlich sprang to her rescue and aided her in getting from the car unharmed. She was treated for shock at the scene. She says that she lost control of the car while backing out of her garage.

Hole-In-One For Ron Scelfo

A 16-year-old Springfield youth sank a 202 yard drive for a hole-in-one Wednesday, June 24 to become the youngest golfer to score an ace in Union County this season.

Ron Scelfo, son of Mr. and Mrs. Joseph Scelfo of 5 Hamlock Terrace, used a No. 4 wood for the tee-shot on the 11th hole at Gallop Hill. He was playing with Ricky Sussman and Don Wise, both of Springfield.

Baseball Picnic Next Wednesday

The Springfield Junior Baseball League will celebrate their most successful season to date with their annual picnic on Wednesday, July 8 at 6:30 p.m. at the Evergreen Lodge in Springfield.

W. J. Bucklew, secretary of the league, says that presentation of awards will compete with sodas, franks and hamburgers for attention.

Who Put Fireworks In Fourth of July?

Much of the credit goes to John Adams, according to The World Book Encyclopedia. The Founding Father declared that Independence Day "ought to be solemnized with pomp and parade, with shows, games, sports, guns, bells, bonfires, and illuminations, from one end of this continent to the other, from this time forward for evermore."

So, from that time forward, the birthday of the U.S. has been marked by brilliant explosions of color and noise and the deaths and accidents that invariably accompany them.

American, however, got the idea for fireworks from Europeans, who got the idea from the Arabs, who merely copied the Chinese.

In 1232 A.D., when a Chinese city was besieged by Mongols, the defenders cooked up a batch of saltpeter, sulfur and charcoal and frightened their attackers with "arrows of flying fire."

Arabs were quick to copy these weapons, which probably were rockets. The Crusaders brought them back to Europe, where the Italians discovered that they made fancy exhibitions as well as formidable weapons.

By the time fire-works spread to England and France, figures and structures of wood and plaster had been added.

In 1520, when Henry VIII met Francis I on the Field of the Cloth of Gold in northern France, the historic moment was celebrated by the appearance of a huge dragon that thundered across the sky breathing fire.

By the 1600's, fireworks had developed into such an art that two schools of thought had arisen to argue over methods of display.

The Southern school, centered in Italy, concentrated on building elaborate structures such as castles and temples, from which the fireworks were exploded. The technique of setting off the fireworks was shrouded in mystery.

The Northern school, influenced by the Protestant movement in Germany, thought the Italian procedure smacked of popery. The Northerners exhibited their fireworks before the show, for all to admire, and then made them the important part of the display.

While the two schools jured over their fireworks, fireworks crossed the Atlantic and became an American institution.

The Federation of Malaya covers an area of 51,000 square miles, which is about the size of England or New York State and almost twice the size of Ceylon.

Plastic Bags Also Lethal For Lawns and Shrubbery

Plastic bags can be dangerous to lawns and shrubs as if is to children, County Agricultural Agent Eric H. Peterson Jr. warned today.

Mr. Peterson said plants can be burned and suffocated if they are covered with the material on a hot day for even a short time.

Plastic, which has suffocated children in accidents in various parts of the country, can discolor grass within 15 minutes on a blazing hot day, according to the county agent.

Mr. Peterson said he saw it happen recently. Removing the plastic cover from a backyard pool, the owner placed it on the lawn to dry and discovered a yellow patch when he picked it up, Mr. Peterson related.

The sheets, he explained, deny the plants air, while sunlight simultaneously overheats them causing severe injury.

Mr. Peterson particularly warned do-it-yourself painters against using plastic dropcloths on shrubs as protection against paint splashing.

But, he pointed out, plastic can make a good makeshift greenhouse for the germination of seeds in a seedbed if elevated sufficiently above the ground to permit the passage of air.

Skeeter Outlook is Good Provided Summer is Dry

The outlook is "pretty favorable" for a comfortable, scratch-free summer, Robert W. Helm, superintendent of the Union County Mosquito Extermination Commission, said today.

Mr. Helm attributed the cheerfulness of affairs to a fairly dry spring up to now and the fact that his men have been able to keep the earliest broods from taking wing.

Acknowledging that some parts of Union County suffered a little the last part of May, Mr. Helm said that a full summer or w began operations June 8 and the staff is keeping abreast of the work.

Rains Would Spoil It All. It will be a different story if rain falls once or twice a week, he pointed out. Such frequent spells, he explained, would wash out the oil spray applied by his men to breeding spots faster than they could get on to them.

Frequent rains, he said, also would fill up breeding areas caused by construction work throughout Union County, as well as low woodland spots, creating so many new hatching places that his workers couldn't catch up with the mosquitoes before they took wing.

Mr. Helm said drainage work has improved conditions in the Elizabeth meadowlands, where fill is being poured in dredging operations for the Fort Elizabeth piers to be erected by the Port of New York at ority.

Before this was accomplished he recalled, he had feared the stagnant mud would lead to an invasion of the pests.

MY REPORT TO THE PEOPLE

By Congresswoman FLORENCE P. DWYER

It's a good thing that the Fourth of July and other patriotic holidays come along every once in a while, especially to remind us that beneath the partisan battles of politics we really are a people united on the fundamentals of our way of life.

The fireworks of the Fourth are a happy substitute, occasionally, for the firework of angry political debate.

Yet, the two are not contradictory — necessarily. For the fireworks exploded on the Fourth of July symbolize the freedom Americans won in the War of Independence and the liberty we preserved against every threat in the 183 years since '76. And no matter how bitter it may get, political debate is the very exercise of that freedom.

It's something worth thinking about, even though it may seem pretty obvious. It means that, despite vigorous disagreements over important political issues, our political opponents — either in our own or in the other party — are just as loyal Americans as we ourselves are.

Debate to Decision
On the other hand, it means, too, that political debate is still vitally important. This is how we decide things in America: through discussion and differences and arguments, rather than by dictate or compulsion. Debate, if it is honest and constructively carried on, is the source of enlightenment, compromise and decision.

There is every reason why we should feel strongly about the issues being decided and the positions and proposals we advance, because the future of our people and our country depend upon the wisdom of the public policy we ultimately follow. But our seriousness of purpose should not lead us to forget the equal conviction of fellow Americans with different ideas and proposals.

This is why I sometimes think the Congress could benefit from a clarification of the rules and procedures governing political debate.

I do not want to tone it down or shut it off. But there ought to be a way of attaining a higher level of relevance, of subordinating emotion to facts, of emphasizing issues instead of personalities, of deciding critical public questions exclusively on their merits.

There ought to be — but there probably isn't.

Joy of Freedom
Nevertheless, it's something to keep in mind this Fourth of July, as we reflect upon our history as free men and on the demands and responsibilities that freedom entails. Because freedom, if we are to keep it strong at home and help spread it abroad, requires a lot of self-discipline and hard thinking and careful planning.

There's another side to freedom, too, and that's the joy of it — the sheer delight of being free, of knowing we ourselves are our own masters, realizing that the world is still waiting for us to make something good of it.

And this Fourth of July is an occasion for special rejoicing, because it represents the extension of our liberties and opportunities to a vast new frontier — the 48th State, Alaska.

At 12:01 a.m. on July 4, the new 49-star flag will be raised officially for the first time in ceremonies at Fort McHenry in Baltimore — where in 1814 an earlier 35-star flag inspired Francis Scott Key to write our National Anthem.

To me, the symbolism is meaningful and impressive. The American spirit is far from dead. We have preserved and perfected our national independence and personal freedom. And we are still intent on expanding the frontiers of freedom. Ours is a living, dynamic tradition.

Moving Forward
This year it is Alaska — the largest of our States. Next year it will be Hawaii — the most distant and heterogeneous of the 50 sovereignties united in a great Nation.

And who will say where we will go from there — or not go? Who knows — we may even one day admit the nearly one million people of our Nation's Capital to the full regalia of citizenship.

Meanwhile, the fireworks our children explode the day after tomorrow and the noisy, colorful rockets that zoom into the skies above our land will echo more deeply and distantly than ever before.
