 on "plastic film, correct use and mis-use."
 Watch Children
 Plastic film, once it has served its intended usefulness, should not be left around the house or given to infants or young children as a plaything. Recent reports indicate that young children playing with this ultra thin, limp film, become entrapped in it and may suffocate themselves.

Each year, according to the Public Health Service of the Department of Health, Education and Welfare, many thousands of children die as the result of accidents from all causes. The Department states,

"suffocation and choking are the most frequently reported causes of accidental deaths of children under one year of age. However, doctors now believe that in a great many instances of reported suffocation the child really died not from lack of air to breathe, but from some rapid, overwhelming infection."
 Nevertheless, the Society of the Plastics Industry, Inc., recommends that parents eliminate any possibility of accidental suffocation from thin plastic film by keeping it away from infants and children.

Civil Defense

 This exercise and those to be held in the future is an important part of the training program of Civil Defense members, for it is only by the things we learn from the mistakes we make, that we can become proficient in the performance of our duties."

LETTERS

Editor, Sun:
 Why are you going to such great lengths to defend the recent action of the Democratic Party in the insurance matter? I refer to your August 20, 1959 issue, in which you take the entire right hand third of the newspaper on this subject.
 Your lead story "Township Insurance Shows Wide Coverage" was very misleading, since the headline statement was not your opinion, but rather that of the Finance Committee with Daniel M. Lucey as Chairman and Mayor Vincent J. Bonadies and Township Committeeman Howard F. Flammer as members.
 Noticeably absent was equal space to the Bunnell Brothers for an opportunity to explain the coverage provided for by them, and why they felt adequate coverage had been provided.

It would appear to me that you have given that fine insurance firm of the Bunnell Brothers a black eye which they do not deserve. They have been one of Springfield's most honored firms for many years.
 One very disturbing item which certainly should be cleared up for we taxpayers of Springfield is the difference between what Mr. Binder claims and what this Finance Committee has told us. Basically I mean this: Is the difference in premiums "only a few hundred dollars more" or is it rather the

"\$1,175 over a period of seven months" that Mr. Binder has publicly charged?
 If we were trying this case in a court room, one or the other would be guilty of perjury. Don't we homeowners of Springfield deserve the honest report?
 Of course "to the victors belong the fruits of victory," but must the Democratic Party make it so obvious by placing this business with a Municipal Court Clerk? I wonder if this is the practice in other townships? It leaves a bad taste in my

mouth, personally.
 I do not know any of the parties involved, and have no axe to grind against anyone concerned, but frankly the entire affair begins to smell like rotten politics like you would find in a large city. Must this happen in Springfield?
 Sincerely,
 Richard E. Werner.

Editor, Sun:
 I wish to make this appeal to any resident of Springfield, who has, or has had, hospital administration experience and, who would be willing to serve this community in that capacity.
 The Civil Defense organization of Springfield has been allocated a 200 bed hospital, which is stored at CIBA's, in Summit, and is for the specific use of Springfield and Kenilworth. In the event that this hospital has to be put into operation, I feel that it would operate more efficiently if an experienced administrator was in charge. It is not necessary to have any knowledge of medicine.
 If anyone is interested in the foregoing, please call DR. 6-0614 any evening.
 SAUL FREEMAN,
 Director, CD-DC.

Regular Services Begin At Church

This Sunday, September 13th, marks the re-opening of the regular church services (9:30 and 11:00 a.m.) at the First Presbyterian Church. These church services will be conducted by the Rev. Bruce W. Evans who will speak on "A Grown-Up Religion". Also at both of these services a special Service of Recognition will be conducted by our new Assistant Minister, the Rev. Donald C. Weber.

Weber, a special feature for the 11 o'clock Service will be the Rev. Edward R. Danks, one of our own young men who entered the Presbyterian Ministry and had been serving as assistant pastor of the Angeles Mesa Presbyterian Church, Los Angeles, California and who will now assume new duties as a Sunday School missionary in Reserve, New Mexico ministering to widely scattered families in a 500 square mile area. Mr. Danks will also speak and show colored slides of his work in New Mexico to the Junior, Junior High and Senior Departments during their Sunday School hour. This will be very enlightening to the youngsters of our Sunday School since it will give a first hand picture of the work they have supported through their benevolence program. Sunday School resumes at 9:30 a.m. in both the Chapel (for the Junior High and Seniors) and the Parish House for all other departments. The Westminster Fellowship will have their first meeting at 7:30 p.m. that same evening under the direction of the Rev. Donald C. Weber and their advisors, Mr. and Mrs. George Lord. This is Freshman night and the technicolor film "The Prior Claim" will be shown followed by refreshments.

Presbyterian School To Open

The Week-day Nursery School sponsored by the Community Presbyterian Church of Mountaintide begins its second year on Monday, September 14. Classes are held Monday, Wednesday, and Friday from 9:00 to 11:30 a.m.

Enrollment is open to all children in the community, the only requirement being that they are four years old before December 1, 1959. Although enrollment is limited to 24 there are a few vacancies and interested parents may call Mrs. D. F. Peterson AD 3-0408 or Mrs. N. A. Winstingham AD 2-5958.

The school is a "co-operative" venture in that mothers spend one morning a month assisting the teachers. This gives the parent an opportunity to observe her child as he re-

sponds to his classmates, to the activities, and to the leadership of another adult. In working together the parent and teacher may learn from each other how best to fulfill the need of each individual child.

Deerfield Happenings

News of Mountaintide's Junior High School

Hi kids! I'll be writing this column, "Deerfield Happenings," for you every week of this coming school year. It will be about you and the school you're going to. I'll write about all the events and activities that will be going on. I hope I'll be able to do a good job and let all of you in on just about everything.

I guess we'll all be anxious to meet the new teachers and find out who will be in our classes. I'm sure we'll all miss Mr. Pal, who won't be with us any longer.

Mr. Dave Harte will be our new assistant principal and he will teach 6th grade science.

The Enrichment program will be put into effect this year. This program is a group of special subjects to help you in your weak subjects. The students are placed in the subjects they need most. If you are an outstanding student you may be placed in advanced subjects or classes which may appeal to you.

There will be French, a new subject, which will be a regular class for the seventh and eighth grade students. There will also be the Study Skills master. These will be learning how to

study properly. It will also include teaching the students to budget their time. Well, kids, see you soon! And remember if you have any news, call me.

TAKING CARE OF YOUR GARDEN

By Edward A. Cardinal

care of quickly, because it is now going to seed and before long it will ripen and drop to the ground where it will multiply a thousand-fold next year.

Dry powders, or liquids may be used with good results, but the powdered form is much easier to apply for the average gardener. Results will also be more uniform, because there is less chance for error.

Q: I am confused over what analysis fertilizer to use. Can you explain this problem?

A: I don't blame you for being confused. However, I wouldn't worry too much about the problem and select a standard brand and use according to manufacturers directions. Most fertilizers are satisfactory, when used properly. Just bear in mind that the cheaper the brand—as a rule—the shorter the lasting qualities. No one could be certain of the proper fertilizer without first making a soil test, so don't pay too much attention to the analysis. If the lawn lacks a good green color I would suggest something high in nitrogen, especially if the soil is hard. The nitrogen is necessary to maintain good color and rapid growth.

Q: Will you explain the difference in the numbers in the analysis?

A: The first number denotes the amount of actual nitrogen, the second is the phosphoric acid content, (which helps produce strong roots and stems. The third number is the potash content. Potash is necessary for fruits and vegetables to produce a good yield. Flowers are also much better if the potash content is sufficient. For lawns, the potash content can be much lower, but is essential for good growth. Many other elements are present in fertilizer, and are usually referred to as trace elements. Sometimes changing your brand of fertilizer can give better results in a lawn by adding elements that may not be present in your present brand.

Q: What is the difference between chemical and organic fertilizers?

A: Chemicals are usually waste products, or raw materials high in analysis that dissolve readily in water. The rapid release of nutrients will often burn a lawn severely if applied to wet grass. Organics can be

cottonseed meal, castor bean meal, sewage sludge, or meat by-products such as bone meal and leather scraps. Organics release the nitrogen slowly and require heat and moisture to decompose the material. They are much slower acting than chemicals, but last considerably longer. Urea-form fertilizers have recently invaded the market and are widely used. The newer, more expansive brands. Heavier applications can be applied without danger of burning. They are often recommended when the grass is wet, or when it is necessary to apply heavier applications once or twice yearly. Urea-form fertilizers run from 10 to 20 units of nitrogen, or more.

Q: My spreader has poor controls. How can I be sure of proper adjustment?

A: A spreader with poor controls can do lots of damage to your lawn with the modern chemicals in use. One popular brand now offers a special discount when purchased with their popular lawn care products. Why not take advantage of this?

The coffee houses for Vienna's fame got their start in

1683 when the first one was established by a Polish mercenary soldier who found a sack of coffee left by the Turks after their unsuccessful siege of the city and decided to go into business.

Many English bathhouses employ towel warmers as part of the heating system. Hot water from the boiler is circulated through them to warm towels, considered necessary in the chilly bathrooms of most English homes.

MY REPORT TO THE PEOPLE

By Congresswoman FLORENCE P. DWYER

The Congress has once again demonstrated that men-of-good-will who recognize an overriding public need can, despite important differences of outlook and approach, reach agreement on legislation to meet that need.

This, I believe, is the most important fact about the labor reform bill which the House and Senate passed late last week and sent to the President. While feelings were strong and differences freely expressed, there was always general agreement that legislation was necessary, that the abuses in labor-management relations exposed by the McClellan Committee required effective legal restraints.

These restraints have now been provided in the labor reform bill. How effective they will be in protecting the rights of workers and in preventing abuses of power by labor or management will depend chiefly on how wisely they are administered. It will also depend on the attitudes toward the legislation adopted by leaders of labor and business.

The bill deserves the support of both. It is remarkably close to the goal desired by every responsible Senator and Representative: a moderate, fair and workable piece of legislation. The achievement of the House and Senate conference committee in harmonizing the Landrum-Griffin and Kennedy-Ervin bills was a memorable one. The final bill is a distinct improvement over both of the two earlier versions.

As I pointed out in a previous newsletter (Number 33, Aug. 20) there were weaknesses in the Landrum-Griffin bill which I hoped the conference would correct. I believe these weaknesses have in fact been eliminated or corrected.

Nevertheless, the final product remains very close to the Landrum-Griffin bill in each of the major areas of controversy: organizational picketing has

The ancient Norse religion taught that heroes got their rewards by feasting with the gods in Valhalla.

No motif has been more popular on United States coins than the eagle, a favorite Roman religious symbol in pagan days. The eagle was associated with Jupiter, Roman legions' standards were topped with an eagle.

On American coins the eagle generally holds a cluster of arrows in its claws or a scroll in its beak, and these too, were Roman devices.

The worst tornado in history blasted its way across Missouri, Illinois and Indiana in 1925, killing 689 persons and injuring 1,980.

Newsprint is often classed with "culture" paper and the other types as "mechanical" paper.

Scots used to consider it bad judgment to pick a daisy on a pleasant day. They were certain rain would quickly follow such an act.

16th Annual Flower Show Sun. At Trilside Museum

All residents of Union County who grow plant materials for pleasure and do not sell the same commercially are eligible to exhibit in the Sixteenth Annual Flower Show to be held at Trilside Museum on Sunday, September 13, according to Mrs. Kenneth Doremus chairman.

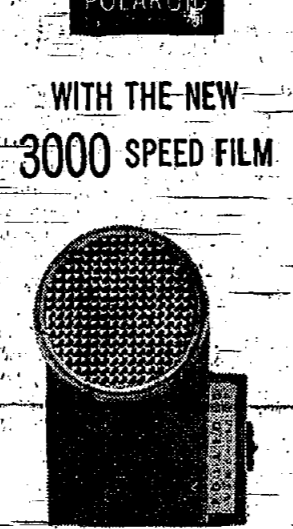

The show's theme is "Rhythms of the Woodlands" and will be open to the public from 1:30 to 5:30 p.m. without charge. Approximately 8,000 visited last year's show. This year the show will be held under the auspices of the Trilside Garden Club of Union County which draws its members from many other garden clubs in the county. Mrs. Charles E. Dickey of Cranford is president of the club.

All entries must be placed between 8:30 and 10:30 a.m. on the day of the show. Reservations for all classes should be made now with the consultant for each division. Mrs. Bernard Murphy of Scotch Plains is consultant for the Artistic Arrangements and Mrs. Albert Winchurc of Mountaintide for the Horticulture division.

In the Artistic Arrangements division there are ten competitive classes carrying such titles as "Fall Festival," "Autumn Gold," "Southward Bound," "Repeated Rhythm," "Along the Woodland Paths," "Outdoor Vespers," "Harvest Moon," "Fall Frolic," "Nature's Jewels" and "Seeds and Weeds."

Junior Classifications are "Winged Melody," "The Pond" and "The Nature Trail." Of particular interest will be a non-competitive class for accredited judges, entitled "A Study in Rhythm."

Chicago Cubs To Recall Schaffernoth, Minors

Right-hander Joe Schaffernoth of Springfield has been recalled by the Chicago Cubs and will report to Manager Bob Schefling at the conclusion of the Fort Worth season in the American Assn. Schaffernoth, 22, has compiled a 3-3 mark for the Cubs since joining them in July. With the Cubs Joe has posted a victory in his lone major league decision. A bone chips removal operation had placed Schaffernoth on the disabled list for 30 days after which he was optioned to Fort Worth. After a few relief assignments with the Cubs, Schaffernoth received his first start and gave up only two hits in as many runs in seven innings. A tied score forced his withdrawal in favor of a pinch hitter. On Aug. 20 Joe showed his arm was sound once more as he blanked Houston on five hits. Last Friday his team couldn't score any runs against Louisville and Joe left the mound after six frames, trailing 1-0. The Colonels won the game, 2-0. Schaffernoth's earned run average for the Cubs is estimated at about 1.50. In 42 innings pitched, the 6-4 1/2 200-pounder has permitted 29 hits

Boy, 3, Injured By Father's Auto

Three-year-old Eric Lindenfelser was injured seriously Sunday morning when, according to the police, he was run over by a station wagon his father backed out of the driveway of the family home at 227 Bryant Ave., Springfield. Police said the incident occurred at 7:58 a.m. They said the father, Gunther Lindenfelser, told them he saw his son playing in the back yard only moments before he started backing the vehicle down the driveway. According to police, the vehicle rolled over the boy's legs. The child was taken to the hospital by the Springfield First Aid Squad ambulance.
